Independent auditor's report on interim financial information

The Shareholders, Board of Directors and Officers

Telefônica Brasil S.A.

São Paulo - SP

We have reviewed the individual and consolidated interim financial information of Telefônica Brasil S.A., ("Company"), contained in the Quarterly Information Form (Informações Trimestrais - ITR) for the period ended on September 30, 2015, which comprise the balance sheet as at September 30, 2015 and the related statements of income and of comprehensive income for the three-month and nine-month period ended on September 30, 2015, and changes in equity and of cash flows for the nine-month period then ended, including other explanatory information. Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with Accounting Standard CPC 21 (R1) Interim Financial Reporting (Demonstração Intermediária) and with IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation

of this information in conformity with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 - *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the individual and consolidated interim financial information included in the Quarterly Information Form (ITR) referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of the Quarterly Information Form (ITR), and presented consistently with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

Statements of value added

We have also reviewed the individual and consolidated interim Value Added Statement for the nine-month period ended on September 30, 2015, prepared under management's responsibility, whose presentation in the interim financial information is required by rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to preparation of the Quarterly Information Form (ITR), and as supplementary information under IFRS, which do not require Value Added Statement presentation. This statement has been subject to the same review procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that it is not fairly presented, in all material respects, in relation to the overall accompanying interim financial information.

Audit of the balance sheet as of December 31, 2014 and review of the interim statements of income and of comprehensive income for three-month and nine-months period ended on September 30, 2014, and statements of changes in equity and of cash flows for the nine-month period ended on September 30, 2014.

NOTES TO QUARTERLY INFORMATION

Nine-month period ended September 30, 2015

(In thousands of reais, unless otherwise stated)

Global Village Telecom S.A. (“GVT”), a wholly-owned subsidiary of GVT Participações S.A. (“GVTPart”), is engaged in the provision of STFC, SCM and pay-TV (SEAC) services throughout Brazil. ANATEL granted GVT the right to operate STFC in Region II of the PGO and a license to operate local and long-distance services in the Brazilian territory. In November 2006, GVT received the remaining licenses of STFC services for all of the Brazilian regions (the company was authorized to provide such services only in part of these regions). This granted the company the STFC license for the whole territory. GVT also has licenses to provide SCM and SEAC services in the entire Brazilian territory.

GVT is the controlling shareholder of POP Internet Ltda. (“POP”) and Innoweb Ltda. (“Innoweb”), Brazil-based entities operating in the telecommunications industry.

b.2) SMP authorization arrangement

The Company operates SMP services, in accordance with the authorizations it has been given. Frequency authorizations granted by ANATEL may be renewed only once, over a 15-year period, through payment, every two years after the first renewal, of fees equivalent to 2% of the Company’s prior-year revenue, net of taxes and social contribution taxes, related to the application of the Basic and Alternative Service Plans (Note 21).

The information on the areas of operation (regions) and due dates of the radiofrequency authorizations is the same of Note 1b2) – “SMP Authorization Arrangements”, as disclosed in the financial statements at December 31, 2014.

c) Agreement between Telefónica S.A. and Telecom Italia, S.p.A.

TELCO S.p.A. (“TELCO”) has a 22.4% interest with voting rights in Telecom Italia, S.p.A. (“Telecom Italia”), and is the majority shareholder of this company.

Telefónica S.A. holds an indirect control in Telefónica Brasil and Telecom Italia holds an indirect interest in TIM S.A. (“TIM”), a Brazilian telecommunications company. Neither Telefónica, nor Telefônica Brasil or any other affiliate of Telefónica interfere in, are involved with or have decision-making powers over TIM operations in Brazil, also being lawfully and contractually forbidden to exercise any type of political power derived from indirect interest in relation to TIM operations in Brazil. TIM (Brazil) and Telefônica Brasil

compete in all markets in which they operate in Brazil under permanent competitive stress and, in this context, as well as in relation to the other economic players in the telecommunications industry, maintain usual and customary contractual relations with one another (many of which are regulated and inspected by ANATEL) and/or which, as applicable, are informed to ANATEL and Brazil's Administrative Council for Economic Defense (CADE), concerning the commitments assumed before these agencies so as to ensure total independence of their operations.

On September 24, 2013, Telefónica S.A. entered into an agreement with the other shareholders of TELCO whereby Telefónica subscribed and paid up capital in TELCO through a contribution of 324 million euros, receiving shares without voting rights of TELCO as consideration. As a result of this capital increase, the share capital of Telefónica with voting rights in TELCO remained unchanged, although their economic participation rose to 66%. Thus, the governance of TELCO, as well as the obligations of Telefónica S.A. to abstain from participating in or influencing the decisions that impact the industries where they both operate, remained unchanged.

In the same document, the Italian shareholders of TELCO granted to Telefónica the option to acquire all TELCO's shares, and such option is conditioned on prior competition defense and telecommunications approvals that are required (including in Brazil and Argentina).

On June 16, 2014, the Italian shareholders of TELCO decided to exercise their rights to request spin-off ensured by the Shareholders' Agreement of the company. This spin-off was approved by the Annual Shareholders' Meeting of TELCO held on July 9, 2014, and was subject to prior authorization by relevant authorities, including CADE and ANATEL in Brazil.

On December 22, 2014 and March 12, 2015, ANATEL authorized TELCO's spin-off, in a transaction impacting the swap transaction conducted with Vivendi S.A. ("Vivendi"), based on Rulings No. 429/2014-CD and No. 87/2015-CD, respectively. In the swap transaction agreed by and between Telefônica and Vivendi, Vivendi would exchange all its voting shares and part of its non-voting shares held in the Company for an indirect interest held by Telefônica in Telecom Italia (Note 3), subject to certain conditions, such as prohibiting Vivendi to increase its interest in the Company.

The 61st ordinary session of CADE's Trial Court, held on March 25, 2015, approved TELCO's spin-off and the swap transaction agreed upon between Telefônica and Vivendi, subject to the execution of three concentration control agreements.

On June 24, 2015, a stock swap operation was closed between Telefônica and *Société d'Investissements et de Gestion 108 SAS* ("FrHolding108"), whereby FrHolding108 would transfer shares to Telefônica, representing 4.5% of the Company's capital, in exchange for 1,110,000,000 shares, representing 8.2% of the common shares of Telecom Italia, previously held by TELCO, a subsidiary of Telefônica (Note 22).

On July 29, 2015, after the New York Stock Exchange (NYSE) closed, Vivendi sold preferred shares of the Company, representing 4% of its capital. On that same date, the stock swap operation between Telefônica and FrHolding108 was completed. As such, as from that date, FrHolding108 has not held any share equity in the Company (Note 22).

d) Corporate Restructuring

The Company's Special Meeting held on May 28, 2015, approved acquisition of all the shares issued by GVTPart. and 675,571 shares of GVT, as well as the incorporation of shares of GVTPart. by the Company. As a consequence of these acts, the Company became the sole shareholder of GVTPart. and indirect controlling company of GVT, Pop Internet Ltda. ("POP") and Innoweb Ltda. ("Innoweb") (Note 3).

After concluding the aforementioned stages, the Company's Board of Directors' meeting held on September 22, 2015 analyzed the proposal of Corporate Restructuring involving the Company, its wholly-owned subsidiary (GVTPart.) and its indirect subsidiaries (GVT and POP), in such a way that at the end of the process, the services rendered by GVT that are not classified as telecommunication services will be centralized by POP and telecommunication services will be centralized by the Company.

Considering that in the implementation of the Corporate Reorganization all the companies involved are wholly-owned subsidiary or indirect subsidiaries of the Company, there will not be right of retirement of the Company's shareholders (on the terms of article 137 of Law No. 6404/76, as amended), since the operations provided for will not affect the shareholding structure and will not result in capital increase and issue of new shares of the Company.

The Corporate Restructuring will only be implemented after prior approval by ANATEL, which is in the phase of analysis.

2.2) Basis of preparation and presentation

The Company's Quarterly Information for the nine-month period ended September 30, 2015 is presented in thousands of reais (unless otherwise stated) and was prepared under a going concern assumption.

This quarterly information compares the quarters ended September 30, 2015 and 2014, except for balance sheets that compare the positions at September 30, 2015 and December 31, 2014.

As a result of the consolidation of GVTPart. (Note 3), as of May 1, 2015, the consolidated financial information as at September 30, 2015 is not comparable to the information as at December 31 and September 30, 2014.

This quarterly information was prepared pursuant to the accounting principles, practices and criteria consistent with those adopted in preparing the financial statements for the year ended December 31, 2014 (Note 3 – “Summary of Significant Accounting Practices”) and must be analyzed jointly with the referred to financial statements.

Certain accounts in the tables of these notes to quarterly information and the Statement of Value Added were reclassified so as to allow comparison of information for the nine-month periods ended September 30, 2015 and 2014, as applicable.

On the date of preparation of this quarterly information, the following IFRS amendments had been published; however, their application was not compulsory:

IFRS 9 Financial Instruments, issue of final version: This standard encompasses all phases of the financial instruments project and replaces IAS 39 – Financial Instruments: Recognition and Measurement and all prior versions of IFRS 9. It introduces new requirements for classification and measurement, impairment loss and hedge accounting. This standard is applicable as from the year beginning on January 1, 2018, and its early adoption is not permitted. Its retrospective application is required; however, the presentation of comparative information is not mandatory. Early adoption of previous versions of IFRS 9 (2009, 2010 and 2013) is permitted if the initial application date falls before February 1, 2015. The adoption of IFRS 9 will impact the classification and measurement of the Company’s financial assets, but it will not impact the classification and measurement of its financial liabilities.

IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture, revision: This standard determines the accounting treatment for transactions involving assets between an investor and its associates or joint ventures. This standard is applicable as from the year beginning on January 1, 2016. The Company does not expect any significant impacts on its financial position.

(In thousands of reais, unless otherwise stated)

IFRS 10, 12 and IAS 28 Investment Entities: Applying the Consolidation Exception, revision: This standard addresses the requirements for financial statements disclosure for an investment entity. This standard is applicable for annual periods beginning on or after January 1, 2017. The Company does not expect any significant impacts on its financial position.

IFRS 11 Accounting for Acquisitions of Interests in Joint Operations, revision: The amendments to this standard require that a joint investor, which records the acquisition of interest in a joint operation that is a business, apply the relevant IFRS 3 principles applicable to business combination. The amendments further clarify that the interest previously held in a joint operation is not remeasured upon acquisition of additional interest in the same joint operation, while the joint control is held. In addition, a scope exclusion was added to IFRS 11 in order to specify that the amendments are not applicable when the parties sharing joint control, including the reporting entity, are under the common control of the main controlling party. The amendments apply both to the acquisition of final interest in a joint operation and the acquisition of any additional interest in the same joint operation, and are effective prospectively as from the year beginning on January 1, 2016. The Company does not expect significant impacts on its financial position.

IFRS 14 Regulatory Deferral Accounts, issue: This standard is optional and allows a company that conducts rate-regulated activities to continue applying most of its accounting policies on regulatory deferral account balances, upon first-time adoption of IFRS. The companies that adopt IFRS 14 must present regulatory deferral account balances as separate accounts in the balance sheets and in other comprehensive income. This standard requires disclosures on the nature and risks associated with company's regulated rates and the effects of such regulation on the financial statements. This standard is applicable as from the year beginning on January 1, 2016. The Company does not expect any significant impacts on its financial position, since it has already been preparing its financial statements based on the effective IFRS.

IFRS 15 Revenue from Contracts with Customers, issue: This standard requires that an entity recognize revenue, reflecting the consideration expected to be received in exchange of the control over goods or services. When adopted, this standard will replace most part of the current guidance on revenue recognition (standards IAS 11, IAS 18, IFRIC 13, IFRIC 15 and IFRIC 18). This standard is applicable as from the year beginning on January 1, 2018, and it may be adopted retrospectively, or using a cumulative effect approach. The Company is evaluating the impacts on its quarterly information and disclosures, and has neither defined the transition method nor determined the potential impacts on its financial reports yet.

IAS 1 Disclosure Initiative, review: This standard addresses changes in the overall financial statements of a company. This standard is applicable for annual periods beginning on or after January 1, 2016. The Company does not expect any significant impacts on its financial position.

IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortization, revision: The amendments clarify the depreciation and amortization methods, subject to the alignment to the concept of future economic benefits expected from the use of assets over its economic useful life. This standard is applicable for annual periods beginning on or after January 1, 2016. The Company does not expect any significant impacts on its financial position.

The Company does not early adopt any pronouncement, interpretation or amendment which has been issued, but whose application is not mandatory.

- Company-issued shares delivered to FRHolding108 as a result of the merger of GVTPart shares by the Company, representing 12% of the Company's capital stock after the merger of shares.

As a result of the merger of GVTPart shares, the Company's capital increased by R\$9,666,021, with the issuance of 68,597,306 common shares and 134,320,885 preferred shares, all registered, no-par value shares, based on the economic value of merged shares calculated using the discounted cash flow method and on the appraisal report on GVTPart's economic value prepared by an expert firm, in conformity with article 252, paragraph 1, together with article 8, of Law No. 6404/76. Telefônica Brasil S. A.

NOTES TO QUARTERLY INFORMATION

Nine-month period ended September 30, 2015

(In thousands of reais, unless otherwise stated)

The main purpose of the Company's acquisition of control over GVTPart was to enable the integration of land-line, mobile, data and TV telecommunication services in Brazil, with a view to operating more effectively. The acquisition of GVTPart allows the Company to obtain significant synergies in revenues and costs, thus generating opportunities of cross sales in the individual and corporate market, also allowing optimization of investments, improvement of service quality, reduction of cost of content, acquisition and platform in the pay-TV business, due to economies of scale, as well as reduction of general and administrative expenses, not affecting the Company's growth potential.

The methods and assumptions used to determine the fair values were:

Customer portfolio

The customer portfolio was valued using the MEEM method ("Multi-period Excess Earnings Method"), which is based on a discounted cash flow calculation of future economic benefits attributable to the customer base, net of eliminated liabilities for contributions involving its generation. In order to estimate the remaining useful life of the customer portfolio, an analysis of the average length of customer relationships was conducted using a churn method.

The purpose of the useful life analysis is to estimate a survival curve that anticipates future churn rates in relation to the existing customer base. The so-called lowa curves were used as an approximation to the customer survival curve. The fair value allocated to the customer portfolio on the acquisition date was R\$2,414,000, which will be amortized over 7.77 years on average.

Brand

The fair value of "GVT" brand was determined through the "relief-from-royalty" method. This method measures the value of the asset by capitalizing the royalties saved by owning intellectual property. In other words, the owner of the brand profits from owning the intangible asset, rather than having to pay royalties for its use. The royalties saved were determined by applying a market royalty rate (expressed as a percentage of revenue) to the future expected revenues from the sale of the product or service associated with the intangible asset. The market royalty rate, normally expressed as a percentage of net revenue, is the rate a knowledgeable willing owner would charge a knowledgeable willing user for use of an asset it owns in an arm's length transaction. The fair value allocated to the brand on the acquisition date was

R\$59,000, which will be amortized over 1.5 year.

Contingent Consideration

As part of the Stock Purchase Agreement and Other Covenants executed by the Company and Vivendi for the acquisition of all GVTPart-issued shares, a contingent consideration was defined for the court deposits made by GVT for the monthly installments of deferred income and social contribution taxes on the amortization of goodwill arising from the corporate restructuring process completed by GVT in 2013. In September 2014, GVT filed for a cancellation of the judicial review and the return of amounts deposited with the courts.

If GVT succeeds in receiving (being reimbursed, refunded or netting) these funds, they will be returned to Vivendi, as long as they are obtained in a final unappealable decision. The period for returning such amount is of up to 15 years.

The fair value of the contingent consideration on the acquisition date is R\$344,217, recorded in the Company's noncurrent liabilities as "Loans, financing, lease and contingent consideration" (Note 20), which is subject to monthly monetary adjustments based on the Selic rate.

Telefônica Brasil S. A.**NOTES TO QUARTERLY INFORMATION****Nine-month period ended September 30, 2015****(In thousands of reais, unless otherwise stated)***Fair Value of Contingent Liabilities*

According to IFRS 3(R) Business Combinations, the acquirer must recognize, on the acquisition date, contingent liabilities assumed in a business combination, even if it is not probable that cash outflows will be required to settle the obligation, as long as it is a present obligation arising from past events and its fair value can be measured reliably. In compliance with these requirements, contingent liabilities were recognized in this acquisition at a fair value of R\$437,660, which were determined considering the expected cash outflow required to settle the obligation on the acquisition date (Note 18).

- Collective Action filed by SISTEL Participants' Association (ASTEL) in the state of São Paulo, in which SISTEL associates in the state of São Paulo challenge the changes made in the Medical Care Plan for Retired Employees (PAMA) and claim for the reestablishment of the prior status quo. This proceeding is still in the appeal phase, and awaits a decision as regards the possible admission of the Special and Additional Appeals in connection with the Court of Appeals' decision, which changed the decision rendering the matter groundless. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability, in that it entails a return to the prior plan conditions.
- Public Interest Suits filed by ASTEL, in the state of São Paulo, and by FENAPAS, both against SISTEL, the Company and other carriers, in order to annul spin-off of the private pension plan PBS, alleging, in short, the "windup of the supplementary private pension plan of SISTEL Foundation", which led to various specific mirror PBS plans, corresponding to allocation of funds from technical surplus and tax contingencies existing at the time of the spin-off. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because this involves the return of the spun-off assets of SISTEL referring to telecommunication carries of the former Telebrás System.

- The Public Prosecutor's Office of São Paulo State began a public class action claiming moral and property damages suffered by all consumers of telecommunications services from 2004 to 2009 due to the bad quality of services and failures of the communications system. The Public Prosecutor's Office suggested that the indemnification to be paid should be R\$ 1 billion. The decision handed down on April 20, 2010 imposes the payment of indemnification for damages caused to all consumers who have filed a suit for such damages.

Conversely, in the event that the number of claiming consumers is not in line with the extent of damages, after the lapsing of one year, the judge determined that the amount of R\$ 60 million should be deposited in the Special Expenses Fund to Recover Natural Rights Damages (Fundo Especial de Despesa de Reparação de Interesses Difusos Lesados). It is not possible to estimate the number of consumers who will individually file suits, or the amounts claimed thereby. The parties filed an appeal on the merits of the case. The judgment effects are in abeyance. No amount has been assigned to the possible likelihood of an unfavorable outcome in connection with this action, since, in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time. Likewise, establishing a provision for contingency equivalent to the amount sought is not possible. On April 13, 2015, the Company's appeal on the merits of the case was judged, and the decision handed down by the lower court was changed, by unanimous vote. Such decision sentenced the Company to pay for damages and pain and suffering caused to all consumers affected by "problems" in the services provided.

- The Company is party to other civil claims, at several levels, related to service rendering. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Prosecutor's Office. The Company is also party to other claims of several types related to the normal course of business. At September 30, 2015, the consolidated provisioned amount was R\$2,103,112 (R\$1,525,908 at December 31, 2014).

NOTES TO QUARTERLY INFORMATION

Nine-month period ended September 30, 2015

(In thousands of reais, unless otherwise stated)

- The Company has received fines regarding the noncompliance with SAC Decree. We currently have various actions (administrative and judicial proceedings). At September 30, 2015, the consolidated amount was R\$12,375 (R\$10,941 at December 31, 2014).
- Intellectual Property: Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda. (Lune), a Brazilian company, proposed the lawsuit on November 20, 2001 against 23 wireless carriers claiming to own the patent for caller ID and the trademark "Bina". The purpose of that lawsuit was to interrupt provision of such service by carriers and to seek indemnification equivalent to the amount paid by consumers for using the service.

An unfavorable sentence was passed determining that the Company should refrain from selling mobile phones with Caller ID service (Bina), subject to a daily fine of R\$ 10,000 in case of noncompliance. Furthermore, according to the sentence passed, the Company must pay indemnification for royalties, to be calculated in settlement. Motions for Clarification were opposed by all parties and Lune's motions for clarification were accepted since an injunctive relief in this stage of the proceedings was deemed applicable. Bill of review appeal in view of the current decision which granted a stay of execution suspending that unfavorable decision until final judgment of the review. Bill of review for appeal at sentence phase pending decision. There is no way to determine the extent of potential liabilities with respect to this claim.

- The Company and other wireless carriers are defendants in several lawsuits filed by the Public Prosecutor's Office and consumer associations to challenge imposition of a period to use prepaid minutes. The plaintiffs allege that the prepaid minutes should not expire after a specific period. Conflicting decisions were handed down by courts on the matter, even though we believe that our criteria for the period determination comply with ANATEL standards. Based on the legal counsel's opinion, collective actions have a remote likelihood of loss.

Possible regulatory contingencies

According to the Company's management and legal counsel, the likelihood of loss of the following regulatory civil proceedings is possible.

- The Company is party to administrative proceedings filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at the administrative level. At September 30, 2015, the consolidated amount was R\$3,338,604 (R\$2,611,340 at December 31, 2014).
- Administrative and legal proceedings discussing payment of 2% charge on revenue from interconnection services due to the extension of right of use of SMP-related radiofrequencies. Under clause 1.7 of the Authorization Terms that grant right of use of SMP-related radiofrequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years), of a 2% charge calculated on net revenue from the basic and alternative service plans of the service company, determined in the year before that of payment.

However, ANATEL determined that the 2% charge should be calculated on revenue from service plans and also on revenue from interconnection services and other operating income, which is not provided for by clause 1.7 of the referred to Authorization Terms.

Considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, the Company filed administrative and legal proceedings challenging these charges, based on ANATEL's position.
