ITEM 1. REPORT TO SHAREHOLDERS

JAPAN SMALLER CAPITALIZATION FUND, INC.

October 22, 2015

To Our Shareholders:

We present the Semi-Annual Report of Japan Smaller Capitalization Fund, Inc. (the “Fund”) for the six months ended August 31, 2015.

The net asset value per share (“NAV”) of the Fund increased by 7.2% and the closing market price of the Fund increased by 3.9% for the six months ended August 31, 2015. The closing market price of the Fund on August 31, 2015 was \$10.07, representing a discount of 14.4% to the NAV of \$11.77. The net assets of the Fund totaled \$333,488,541 on August 31, 2015.

The Russell/Nomura Small Cap™ Index, the Fund’s benchmark (“Benchmark”), increased by 3.7% in United States (“U.S.”) dollar terms for the six months ended August 31, 2015. During the six months ended August 31, 2015, the Fund outperformed the Benchmark by 3.5% on an NAV basis. The Tokyo Price Index (the “TOPIX”), consisting of all companies listed on the First Section of the Tokyo Stock Exchange (the “TSE”), decreased by 0.4% and the Nikkei Average Index (“Nikkei”), a price-weighted index of the 225 leading stocks on the TSE, decreased by 0.8% in U.S. dollar terms during the six months ended August 31, 2015. The Japanese yen (“Yen”) depreciated by 1.3% against the U.S. dollar during the six months ended August 31, 2015.

For the quarter ended August 31, 2015, the Benchmark decreased by 1.6%, the TOPIX decreased by 6.1%, and the Nikkei decreased by 6.1% in U.S. dollar terms. The NAV of the Fund increased by 0.2% and outperformed the Benchmark by 1.8%. The Fund’s share price decreased by 1.9% during the quarter. The Yen appreciated by 2.2% against the U.S. dollar during the quarter.

The Portfolio

Equity holdings represented 98.8% of the Fund’s net assets at August 31, 2015. The Fund held a diversified portfolio of 124 stocks, of which 98 were TSE First Section stocks, 20 were TSE Second Section stocks and 6 were other smaller capitalization stocks, comprising 83.4%, 11.8%, and 3.6%, respectively, of net assets on August 31, 2015. The Fund invests in undervalued stocks that offer fundamental strength and potential for improvement. The Fund performs extensive fundamental research to identify stocks that can create shareholder value. The Fund focuses on companies that are leaders in certain niche markets, companies with large or expanding market shares, stocks with superior shareholder distribution policies, and stocks that offer good growth prospects. In the Japanese small cap equity market, valuation anomalies do exist and can be exploited through active management. There are several factors that the Fund considers when selling an investment, including appreciation of the stock price, unexpected deterioration in earnings, a substantial loss that impairs the company’s net assets, or a stock’s diminishing potential given declining competitiveness due to a change of business environment or failure of business strategy.

Performance

In terms of the sector allocation strategy, an overweight position in the Retail Trade sector and underweight positions in the Electric Appliances and Machinery sectors generated the largest positive contributions, although sector returns were eroded by underweight positions in the Metal Products, Iron and Steel, and Transportation and Warehousing sectors.

Stock attribution analysis shows that some stocks such as Toenec Corporation in the Construction sector, Create SD Holdings Co., Ltd. in the Retail Trade sector, and Zojirushi Corporation in the Electric Appliances sector made positive contributions to the relative performance. Meanwhile, some stocks such as Sakai Chemical Industry Co., Ltd. in the Chemicals sector and Nichicon Corporation in the Electric Appliances sector made negative contributions to the relative performance.

Market Review

The Benchmark appreciated by 5.0% in local currency terms for the six months ended August 31, 2015. The Benchmark outperformed the broad Japanese equity market, measured by the TOPIX index, which increased 0.9% in local currency terms during the six months ended August 31, 2015. The Japanese equity market rallied following robust earnings prospects for Japanese companies and entered a range trading phase given global economic outlook concerns and solid earnings prospects for domestic companies. In August 2015, Japanese stocks followed other markets in a steep sell-off triggered by an equity market crash in China. Meanwhile, under these circumstances, the small cap stock index was able to outperform the main large cap equity market given the relatively steady business performance of many smaller domestically oriented companies.

The Japanese equity market posted a strong rally from March to May of 2015, registering a fifth consecutive monthly gain since the beginning of this year. Robust earnings for fiscal year 2015 issued by many Japanese companies helped to sustain the positive sentiment toward Japanese equities. Moreover, expected growth in real wages improved the prospects for domestic demand.

In June 2015, Japanese equity markets declined when global market sentiment faltered in reaction to an expected debt default by Greece and a steep correction in the Chinese equity market.

Following a setback in June 2015, the Japanese equity market staged a recovery in July 2015. During this period, there were persistent concerns about the political and potential economic turmoil in the Eurozone over the bailout plan for Greece, the volatile equity markets, and slowing economic growth in China. However, stability in the Japanese economy and the corporate sector continued to offer solid earnings prospects.

Turmoil in the global markets triggered a steep decline in Japanese equity prices and the TOPIX index declined by 7.4% in August 2015. Chinese equity markets extended their recent decline when share price support policies from the authorities proved ineffective, causing widespread market disorder.

Outlook and Strategy

While the Fund expects the U.S. economic recovery to continue, the Fund has become more cautious towards the global economic outlook given the recent slowdown in China. Following the devaluation of the Chinese yuan, Chinese stock markets have remained volatile. Chinese consumption appears to be steady but the Fund expects a slowdown in capital expenditures to continue. The Chinese yuan's weakening has come to a standstill for the moment, but the downward pressure could resume given the anticipated unwinding of overseas funding by Chinese companies.

The Chinese yuan depreciation could also lead to the weakening of other Asian currencies against the U.S. dollar, possibly causing economic downturns elsewhere in Asia due to declining purchasing power as well as the slowdown in capital expenditures. Thus, the Fund expects the recovery in Japanese production to be sluggish given that exports to Asian regions including China should remain weak.

As for domestic consumption, the Fund has yet to encounter the expected recovery in disposable income. Therefore, the Fund expects the overall economic recovery in Japan to proceed at a slower pace.

Although corporate earnings results for the second quarter of 2015 were positive, earnings for the second half of 2015 could fall lower than expected. Measures of equity valuations, such as price earnings ratios, have declined during the recent market drop. As a result, the Fund believes that current market prices already discount the potential for weaker corporate earnings. It is still too early to estimate the full extent of the earnings impact. Japanese equity prices remain highly dependent on global political, economic and market developments.

The Fund appreciates your continuing support.

Sincerely,

/s/ Yutaka Itabashi
Yutaka Itabashi
President

DISCLOSURES

Sources: Nomura Asset Management U.S.A. Inc. and Bloomberg L.P. Past performance is not indicative of future results.

The net asset value price is adjusted for reinvestment of income dividends, ordinary income distributions, and capital gain distributions. The New York Stock Exchange's closing market price is adjusted for reinvestment of income dividends, ordinary income distributions, and capital gain distributions. The Fund's performance does not reflect sales commissions.

Indices are unmanaged. You cannot invest directly into an index. The Russell/Nomura Small Cap™ Index represents approximately 15% of the total market capitalization of the Russell/Nomura Total Market™ Index. It measures the performance of the smallest Japanese equity securities in the Russell/Nomura Total Market™ Index. As of March 31, 2015, there are 1,146 securities in the Russell/Nomura Small Cap™ Index.

SHAREHOLDERS ACCOUNT INFORMATION

Shareholders whose accounts are held in their own name may contact the Fund's registrar, Computershare Trust Company, N.A., at (800) 426-5523 for information concerning their accounts.

PROXY VOTING

A description of the policies and procedures that the Fund uses to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free 1 800 833 0018; and (2) on the website of the Securities and Exchange Commission ("SEC") at <http://www.sec.gov>. Information about how the Fund voted proxies relating to securities held in the Fund's portfolio during the most recent 12-month period ended June 30 is available (1) without charge, upon request, by calling toll-free 1-800-833-0018; and (2) on the SEC's website at <http://www.sec.gov>. Additional information about the Fund's Board of Directors is available (1) without charge upon request by calling toll-free 1-800-833-0018; and (2) on the website of the SEC at <http://www.sec.gov> in the Fund's most recent proxy statement filing.

AVAILABILITY OF QUARTERLY SCHEDULE OF INVESTMENTS

The Fund files a schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's web site at <http://www.sec.gov>. The Fund's Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

FUND CERTIFICATION

In December 2014, the Fund filed its Chief Executive Officer Certification with the New York Stock Exchange pursuant to Section 303A.12(a) of the New York Stock Exchange Corporate Governance Listing Standards. The Fund's Chief Executive Officer and Chief Financial Officer Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 were filed with the Fund's Form N-CSR and are available on the SEC's web site at <http://www.sec.gov>.

JAPAN SMALLER CAPITALIZATION FUND, INC.
NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. Significant Accounting Policies

Japan Smaller Capitalization Fund, Inc. (the “Fund”) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The Fund was incorporated in Maryland on January 25, 1990 and investment operations commenced on March 21, 1990.

The accompanying financial statements have been prepared in accordance with United States (“U.S.”) generally accepted accounting principles (“GAAP”) and are stated in United States dollars. The Fund is an investment company that follows the accounting and reporting guidance in accordance with FASB Accounting Standards Codification Topic 946. The following is a summary of the significant accounting and reporting policies used in preparing the financial statements.

(a) Valuation of Securities—Investments traded in the over-the-counter market are valued at the last reported sales price as of the close of business on the day the securities are being valued or, if none is available, at the mean of the bid and offer price at the close of business on such day or, if none is available, the last reported sales price. Portfolio securities which are traded on stock exchanges are valued at the last sales price on the principal market on which securities are traded or lacking any sales, at the last available bid price. Short-term debt securities which mature in 60 days or less are valued at amortized cost, which approximates fair value, if their original maturity at the date of purchase was 60 days or less, or by amortizing their value on the 61st day prior to maturity if their term to maturity at the date of purchase exceeded 60 days. Securities and other assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund.

(b) Foreign Currency Transactions—Transactions denominated in Japanese Yen (“Yen”) are recorded in the Fund’s records at the prevailing rate at the time of the transaction. Asset and liability accounts that are denominated in Yen are adjusted to reflect the current exchange rate at the end of the period. Transaction gains or losses resulting from changes in the exchange rate during the reporting period or upon settlement of foreign currency transactions are included in results of operations for the current period.

The net assets of the Fund are presented at the exchange rates and market values on August 31, 2015. The Fund does isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities held at August 31, 2015. Net realized gains or losses on investments include gains or losses arising from sales of portfolio securities and sales and maturities of short-term securities. Net realized gains or losses on the foreign currency transactions arise from sales of foreign currencies, currency gains or losses realized on securities transactions between trade and settlement date, and the difference between the amounts of dividends, interest, and foreign

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS- (Continued) (Unaudited)

withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid.

(c) Security Transactions, Investment Income and Distributions to Shareholders — Security transactions are accounted for on the trade date. Dividend income and distributions are recorded on the distribution payable date and interest income is recorded on the accrual basis. Realized gains and losses on the sale of investments are calculated on a first-in, first-out basis.

Distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations, which may differ from GAAP. To the extent these “book/tax” differences are permanent in nature (i.e., that they result from other than timing of recognition—“temporary”), such accounts are reclassified within the capital accounts based on their Federal tax-basis treatment; temporary differences do not require reclassification.

Dividends and distributions which exceed net realized capital gains for financial reporting purposes, but not for tax purposes, are reported as distributions in excess of net realized capital gains.

Pursuant to a securities lending agreement with Brown Brothers Harriman & Co., the Fund may lend securities to qualified institutions. It is the Fund's policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. It is the Fund's policy that collateral equivalent to at least 100% of the market value of securities on loan must be maintained at all times (when applicable). Collateral is provided in the form of cash, which would be invested in certain money market funds. The Fund is entitled to receive all income on securities loaned, in addition to a portion of the income earned as a result of the lending transaction. Although each security loan is fully collateralized, there are certain risks. On November 21, 2008, the Fund suspended its participation in the securities lending program. The Fund may resume its participation in the future. During the fiscal year ended February 28, 2015 and the semi-annual period ended August 31, 2015, the Fund did not earn fees from lending fund portfolio securities, pursuant to the securities lending agreement.

(d) Capital Account Reclassification — For the year ended February 28, 2015, the Fund's accumulated net investment loss was decreased by \$3,131,168 and the accumulated net realized gain on investments and foreign currency transactions was decreased by \$3,131,168. These adjustments were primarily due to the result of the reclassification of foreign currency losses and the tax treatment of passive foreign investment companies. These adjustments had no impact on net assets.

(e) Income Taxes — A provision for U.S. income taxes has not been made since it is the intention of the Fund to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute within the allowable time limit all taxable income to its shareholders.

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS- (Continued) (Unaudited)

Under Japanese tax laws, a withholding tax is imposed on dividends at a rate of 15.315% and such withholding taxes are reflected as a reduction of the related revenue. The withholding tax rate of 15.315% was reduced to 10% upon the submission of Form 17 — Limitation on Benefits Article. There is no withholding tax on realized gains.

In accordance with U.S. GAAP requirements regarding accounting for uncertainties in income taxes, management has analyzed the Fund's tax positions taken or expected to be taken on federal and state income tax returns for all open tax years (the current and the prior three tax years), and has concluded that no provision for income tax is required in the Fund's financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the statement of operations. During the current year and for the prior three tax years, the Fund did not incur any interest or penalties.

(f) Use of Estimates in Financial Statement Preparation — The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(g) Concentration of Risk — A significant portion of the Fund's net assets consists of Japanese securities which involve certain considerations and risks not typically associated with investments in the U.S. In addition to the smaller size, and greater volatility, there is often substantially less publicly available information about Japanese issuers than there is about U.S. issuers. Future economic and political developments in Japan could adversely affect the value of securities in which the Fund is invested. Further, the Fund may be exposed to currency devaluation and other exchange rate fluctuations.

(h) Indemnifications—Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising from the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote and as such no additional accruals were recorded on the Statement of Assets and Liabilities.

2. Management Agreement and Transactions With Affiliated Persons

Nomura Asset Management U.S.A. Inc. (the "Manager") acts as the manager of the Fund pursuant to a management agreement. Under the agreement, the Manager provides all office space, facilities and personnel necessary to perform its duties. Pursuant to such management agreement, the Manager has retained its parent company, Nomura Asset Management Co., Ltd. (the "Investment Adviser"), to act as investment adviser for the Fund.

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS- (Continued) (Unaudited)

As compensation for its services to the Fund, the Manager receives a monthly fee at the annual rate of 1.10% of the value of the Fund's average weekly net assets not in excess of \$50 million, 1.00% of the Fund's average weekly net assets in excess of \$50 million but not exceeding \$100 million, 0.90% of the Fund's average weekly net assets in excess of \$100 million but not exceeding \$175 million, 0.80% of the Fund's average weekly net assets in excess of \$175 million but not exceeding \$250 million, 0.70% of the Fund's average weekly net assets in excess of \$250 million but not exceeding \$325 million, 0.60% of the Fund's average weekly net assets in excess of \$325 million, but not exceeding \$425 million and 0.50% of the Fund's average weekly net assets in excess of \$425 million. Under the management agreement, the Fund incurred fees to the Manager of \$1,459,598 for the six months ended August 31, 2015. Under the investment advisory agreement, the Manager informed the Fund that the Investment Adviser earned fees of \$768,761 for the six months ended August 31, 2015 from the Manager, not the Fund. At August 31, 2015, the fee payable to the Manager, by the Fund, was \$250,997.

Current officers and/or directors of the Fund are officers and/or directors of the Manager. Affiliates of Nomura Holdings, Inc. (the Manager's indirect parent) did not earn any fees in commissions on the execution of portfolio security transactions for the six months ended August 31, 2015. Through March 31, 2015, the Fund paid each Director not affiliated with the Manager an annual fee of \$12,000 plus \$1,500 per meeting attended. Effective April 1, 2015, the Fund pays each Director not affiliated with the Manager an annual fee of \$17,000 plus \$2,000 per meeting attended. In addition, the Fund pays each Director not affiliated with the Manager \$1,000 per telephone meeting attended together with such Directors' actual expenses related to attendance at meetings. The Chairman of the Board, presently Rodney A. Buck, who is not affiliated with the Manager, is paid an additional annual fee of \$5,000. Through March 31, 2015, the Chairman of the Audit Committee, presently David B. Chemidlin, received an additional annual fee of \$1,000. Effective April 1, 2015, the Chairman of the Audit Committee receives an additional annual fee of \$2,000. Such fees and expenses for unaffiliated Directors aggregated \$73,941 for the six months ended August 31, 2015.

3. Purchases and Sales of Investments

Purchases and sales of investments, exclusive of investments in foreign currency and short-term securities, for the six months ended August 31, 2015 were \$30,040,637 and \$28,922,086, respectively.

4. Federal Income Tax

As of February 28, 2015, net unrealized appreciation on investments, exclusive of investments in foreign currency, for Federal income tax purposes was \$15,206,628, of which \$25,794,325 related to appreciated securities and \$10,587,697 related to depreciated securities. The cost of investments, exclusive of investments in foreign currencies of \$3,653,816 at

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS- (Continued) (Unaudited)

February 28, 2015 for Federal income tax purposes was \$291,549,699.

At February 28, 2015, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	\$2,122,957
Undistributed long term capital gains	4,939,911
Unrealized appreciation on investments and foreign currency transactions	\$15,142,911 ^(a)
Total accumulated earnings	\$22,205,779

(a) The difference between book basis and tax basis unrealized appreciation is attributable to the tax deferral of losses on wash sales and the tax treatment of passive foreign investment companies.

The Fund paid an ordinary income distribution of \$0.1194 per share (\$3,383,067) and a long term capital gains distribution of \$0.0131 per share (\$371,174) to shareholders of record as of December 22, 2014. The distribution was paid on December 29, 2014.

The Fund paid an ordinary income distribution of \$0.199 per share (\$5,638,445) to shareholders as of December 13, 2013. The distribution was paid on December 19, 2013.

The tax character of distributions paid during the fiscal years ended February 28, 2015 and February 28, 2014 were as follows:

	February-15	February-14
Ordinary Income	\$ 3,383,067	\$ 5,638,445
Capital Gains	\$ 371,174	\$ 0

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the “Act”) was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, the Fund will be permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

The Fund utilized \$12,817,862 of its accumulated capital losses against current year net realized gains. All of the Fund’s capital losses were generated in pre-enactment years.

5. Fair Value Measurements

In accordance with GAAP, fair value is defined as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP also establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability.

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS- (Continued) (Unaudited)

Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Each investment is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

·Level 1—quoted prices in active markets for identical investments

·Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

·Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following table summarizes the valuation of the Fund's investments by the above fair value hierarchy levels as of August 31, 2015.

<u>Level</u>	Investments in Securities
Level 1	
Equity Securities*	\$329,480,869
Foreign Currency	3,567,910
Level 2	43,342
Level 3	-0-
Total	\$333,092,121

*Please refer to the Schedule of Investments for breakdown of the valuation by industry type.

During the six months ended August 31, 2015, there were no transfers between Level 1, Level 2 or Level 3 securities. As of August 31, 2015, the Fund held a Level 2 security. The security was valued at the IPO participation price transacted on August 31, 2015.

During the six months ended August 31, 2015, the Fund did not hold any instrument which used significant unobservable inputs (Level 3) in determining fair value.

JAPAN SMALLER CAPITALIZATION FUND, INC.

Board Review of the Management and Investment Advisory Agreements

The Board of Directors of the Fund (the “Board”) consists of five directors, four of whom are independent or non-interested directors (the “Independent Directors”). The Board considers matters relating to the Fund’s management and investment advisory agreements throughout the year. On an annual basis, the Board specifically considers whether to approve the continuance of these agreements for an additional one-year period. The specific agreements (the “Agreements”) consist of the Fund’s management agreement with Nomura Asset Management U.S.A. Inc. (the “Manager”) and the investment advisory agreement between the Manager and its parent, Nomura Asset Management Co., Ltd. (the “Investment Adviser”).

The Board, including the Independent Directors, most recently approved the continuance of the Agreements at a meeting held on August 20, 2015. In connection with their deliberations at that meeting and at a separate meeting of the Independent Directors held on August 13, 2015, the Independent Directors received materials that included, among other items, information provided by the Manager regarding (i) the investment performance of the Fund, performance of other investment companies and performance of the Fund’s benchmark, (ii) expenses of the Fund and the management fee paid by the Fund to the Manager and the advisory fee paid by the Manager to the Investment Adviser, (iii) advisory fees charged by the Manager and the Investment Adviser to comparable accounts and (iv) the profitability of the Agreements to the Manager and the Investment Adviser. Included in the materials was a report prepared by Broadridge Board Reporting and Compliance (“Broadridge”) for use by the Independent Directors in their consideration of the continuance of the Agreements (the “Broadridge Report”). Broadridge is an independent firm retained by many investment companies to provide data with respect to investment company performance and expenses. The Broadridge Report contained information regarding the Fund and other closed-end funds not affiliated with the Manager that compared, among other items, the respective funds’ management fees and operating expenses. The Independent Directors sought and received additional information from the Investment Adviser. The Independent Directors were advised by, and received materials (including a detailed memorandum reviewing the applicable legal standards and factors taken into account by the Supreme Court and other relevant court decisions) from their independent counsel in considering these matters and the continuance of the Agreements.

In considering the continuance of the Agreements at the meeting held on August 20, 2015, the Board, including the Independent Directors, did not identify any single factor as determinative. Matters considered by the Directors in connection with their review of the Agreements included the following:

The nature, extent and quality of the services provided to the Fund under the Agreements. The Board considered the nature, extent and quality of the services provided to the Fund by the Manager and the Investment Adviser and the resources dedicated by the Manager and the Investment Adviser. These services included both investment advisory services and related services such as the compliance oversight provided by the Manager. Based on its review of all of the services provided by the Manager and the Investment Adviser, the Board, including the Independent Directors, concluded that the nature, extent and quality of these services supported the continuance of the Agreements.

Investment performance. The Board considered performance information provided by Broadridge and the Manager regarding the Fund’s investment performance over a number of time periods, including the one-year, three-year and five-year periods recently ended. In response to requests by the Independent Directors, the Manager provided information about the performance of the Fund compared to the Fund’s benchmark index, data on the Fund’s expense ratio and components thereof, and comparative fee, expense ratio and performance information for other funds investing primarily in Japanese securities. The Broadridge Report also provided supplemental information relating to performance, expense ratios, and fees of U.S. investment companies investing in equity securities of Asian and other non-U.S. issuers.

JAPAN SMALLER CAPITALIZATION FUND, INC.

Board Review of the Management and Investment Advisory Agreements (continued)

In connection with their review of investment performance, the Independent Directors noted that, following a series of discussions with management in 2012 and 2013 that focused on the Fund's performance, the Investment Adviser had installed a new management team as of July 1, 2013. The Independent Directors recognized that, as contemplated at the time of the transition, the new portfolio managers had invested in a more diversified portfolio than the Fund had maintained in the past with an increased focus on value characteristics evidenced by financial measurements. The Independent Directors also noted that the Fund's comparative performance had improved since the transition and that the Fund's performance for the year ended June 30, 2015 ranked first of the six funds (including the Fund) identified by the Manager as having similar investment objectives. Based on their review, the Independent Directors concluded that the Fund's performance supported the continuance of the Agreements.

The costs of the services to be provided and the profits to be realized by the Manager and its affiliates from their advisory relationships with the Funds. The Board considered the fee payable under the Fund's management agreement in connection with other information provided for the Directors' consideration. The Manager and its affiliates also act as advisers to additional investment companies registered under the Investment Company Act of 1940 and the Board of Directors of the Fund compared the advisory arrangements and fees for these companies. The Board also considered information provided by the Manager regarding fees charged by the Manager and its affiliates to institutional accounts and other investment companies having investment objectives similar to the Fund's investment objective, including Japanese retail unit trusts. The Board of Directors of the Fund recognized that the nature of the services provided by the Manager and the Investment Adviser to other investment vehicles and separate accounts differed from the range of services provided to the Fund.

The Manager also provided the Board with information prepared by the Manager and the Investment Adviser indicating the profitability of the Agreements to these respective advisers. This presentation included information regarding methodologies used to allocate expenses in considering the profitability of the Agreements to the Manager and the Investment Adviser. The Independent Directors reviewed this information with the Manager and requested and received certain supplemental information from the Manager about the expense allocation methodology utilized by the Investment Adviser.

After reviewing the information described above, the Independent Directors concluded that the management fee proposed to be charged to the Fund was reasonable and the profitability of the Agreement to the Manager and the Investment Adviser supported the continuance of the Agreements.

Economies of scale. The Board also considered whether the Manager realizes economies of scale as the Fund grows larger and the extent to which any economies of scale are shared with the Fund and its shareholders. The Board noted that the management agreement contains six separate breakpoints in the management fee for net assets above \$50 million, with the last breakpoint applicable to net assets in excess of \$425 million.

Based on an evaluation of all factors deemed relevant, including the factors described above and taking into account information received throughout the preceding year, the Board, including each of the Independent Directors, concluded that each of the Agreements should be continued through August 31, 2016.
