**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**Note 1 - Basis of Presentation**

Substantially all of the assets, liabilities and operations of LCNB Corp. ("LCNB") are attributable to its wholly-owned subsidiaries, Lebanon Citizens National Bank ("Lebanon Citizens") and Dakin Insurance Agency, Inc. ("Dakin"). The accompanying unaudited consolidated financial statements include the accounts of LCNB, Lebanon Citizens, and Dakin.

The unaudited interim consolidated financial statements, which have been reviewed by J.D. Cloud & Co. L.L.P., LCNB's independent registered public accounting firm, in accordance with standards established by the Public Company Accounting Oversight Board, as indicated by their report included herein and which does not express an opinion on those statements, have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited interim consolidated financial statements include all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation of financial position, results of operations, and cash flows for the interim periods, as required by Regulation S-X, Rule 10-01.

Certain prior period data presented in the financial statements have been reclassified to conform with the current year presentation.

Share and per share data have been restated to reflect a 100% stock dividend, to be accounted for as a stock split, declared by the Board of Directors on April 10, 2007 and payable on May 10, 2007 to shareholders of record on April 25, 2007.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Results of operations for the three months ended March 31, 2007 are not necessarily indicative of the results to be expected for the full year ending December 31, 2007. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements, accounting policies and financial notes thereto included in LCNB's 2006 Form 10-K filed with the SEC.

**Note 2 - Earnings Per Share**

Basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is adjusted for the dilutive effects of stock options. The diluted average number of common shares outstanding has been increased for the assumed exercise of stock options with proceeds used to purchase treasury shares at the average market price for the period. The computations were as follows for the three months ended March 31, 2007 and 2006 (thousands, except share and per share data):

	For the Three Months Ended March 31,	
	2007	2006
Net income	\$ 1,398	1,609

The decline in fair values is primarily due to increases in market interest rates. Unrealized losses on securities at March 31, 2007 have not been recognized in income currently because management has the intent and ability to hold the securities for a period of time sufficient to allow for any anticipated recovery in fair values. Therefore, no individual declines are deemed to be other than temporary.

**Note 4 Loans (continued)**

Non-accrual, past-due, and restructured loans as of March 31, 2007 and December 31, 2006 were as follows (thousands):

	March 31, 2007	December 31, 2006
Non-accrual loans	\$ 551	872
Past-due 90 days or more and still accruing	688	126
Restructured loans	-	-
Total	\$ 1,239	998

Non-accrual loans at March 31, 2007 consisted of a real estate mortgage loan and a home equity line of credit made to the same borrower. Non-accrual loans at December 31, 2006 consisted of the same two loans plus one loan secured by farmland. The loan secured by farmland was removed from the non-accrual classification at March 31, 2007 because it is considered well secured and in the process of collection through sheriff sale proceedings.

Loans past-due 90 days or more and still accruing interest at March 31, 2007 consisted of 10 consumer loans totaling \$47,000, 4 residential mortgage loans totaling \$320,000, and the \$321,000 loan secured by farmland previously included in non-accrual at December 31, 2006. Loans past-due 90 days or more and still accruing interest at December 31, 2006 consisted of six consumer loans totaling \$52,000 and two residential mortgage loans totaling \$74,000.

Real estate acquired through foreclosure was \$753,000 and \$752,000 at March 31, 2007 and December 31, 2006, respectively, and is included in other assets in the consolidated balance sheets. Real estate acquired at March 31, 2007

and December 31, 2006 consisted of one single-family residential home.

Mortgage loans sold to and serviced for the Federal Home Loan Mortgage Corporation ("FHLMC") are not included in the accompanying balance sheets. The unpaid principal balances of those loans at March 31, 2007 and December 31, 2006 were \$42,071,000 and \$42,431,000, respectively. Loans sold to the FHLMC during the three months ended March 31, 2007 and 2006 totaled \$642,000 and \$1,223,000, respectively.

**LCNB CORP. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**(Continued)**

**Note 5 Borrowings**

During March, 2007, LCNB obtained a \$5 million advance from the Federal Home Loan Bank of Cincinnati. The term of the advance is ten years and interest is payable monthly at a fixed rate of 5.25%. The loan is secured by a blanket pledge of LCNB's 1-4 family first lien mortgage loans.

At March 31, 2007, short-term borrowings included U.S. Treasury demand note borrowings of approximately \$1,041,000. The interest rate on the U.S. Treasury demand note borrowings is variable and was 5.04% at March 31, 2007.

At December 31, 2006, short-term borrowings included federal funds borrowed of \$14,100,000 and U.S. Treasury demand note borrowings of approximately \$1,264,000. The interest rate on federal funds borrowed was 5.25% and the interest rate on the U.S. Treasury demand note borrowings was 5.04% at December 31, 2006.

**Note 6 Regulatory Capital**

Lebanon Citizens and LCNB are required by regulators to meet certain minimum levels of capital adequacy. These are expressed in the form of certain ratios. Capital is separated into Tier 1 capital (essentially shareholders' equity less goodwill and other intangibles) and Tier 2 capital (essentially the allowance for loan losses limited to 1.25% of risk-weighted assets). The first two ratios, which are based on the degree of credit risk in LCNB's assets, provide for weighting assets based on assigned risk factors and include off-balance sheet items such as loan commitments and stand-by letters of credit. The ratio of Tier 1 capital to risk-weighted assets must be at least 4.0% and the ratio of Total capital (Tier 1 capital plus Tier 2 capital) to risk-weighted assets must be at least 8.0%. The capital leverage ratio supplements the risk-based capital guidelines. Banks are required to maintain a minimum ratio of Tier 1 capital to adjusted quarterly average total assets of 3.0%.

For various regulatory purposes, financial institutions are classified into categories based upon capital adequacy. The highest "well-capitalized" category requires capital ratios of at least 10% for total risk-based, 6% for Tier 1 risk-based, and 5% for leverage. As of the most recent notification from their regulators, Lebanon Citizens and LCNB were categorized as "well-capitalized" under the regulatory framework for prompt corrective action. Management believes that no conditions or events have occurred since the last notification that would change Lebanon Citizens' or LCNB's category. A summary of the regulatory capital and capital ratios of LCNB follows (thousands):

**Note 7 - Commitments and Contingent Liabilities**

LCNB is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. They involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheets.

Exposure to credit loss in the event of nonperformance by the other parties to financial instruments for commitments to extend credit is represented by the contract amount of those instruments.

LCNB uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. Financial instruments whose contract amounts represent off-balance-sheet credit risk at March 31, 2007 and December 31, 2006 were as follows (thousands):

#### Note 7 - Commitments and Contingent Liabilities (continued)

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Unused lines of credit include amounts not drawn in line of credit loans. Commitments to extend credit and unused lines of credit generally have fixed expiration dates or other termination clauses.

Standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. At March 31, 2007 and December 31, 2006, outstanding guarantees of \$1,922,000 and \$1,674,000,

respectively, were issued to developers and contractors. These guarantees generally are fully secured and have varying maturities. In addition, LCNB has a participation in a letter of credit securing payment of principal and interest on a bond issue. The participation amount at March 31, 2007 and December 31, 2006 was approximately \$4.1 million. The letter of credit was re-written in April, 2007. At that time, LCNB's participation amount was increased to approximately \$6.3 million. The new agreement has a final maturity date of January, 2012.

LCNB evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary, is based on management's credit evaluation of the borrower. Collateral held varies, but may include accounts receivable; inventory; property, plant and equipment; residential realty; and income-producing commercial properties.

Capital expenditures may include the construction or acquisition of new office buildings, improvements to current offices, purchases of furniture and equipment, and additions or improvements to LCNB's information technology system. Material commitments for capital expenditures outstanding as of March 31, 2007 totaled approximately \$540,000.

Management believes that LCNB has sufficient liquidity to fund its lending and capital expenditure commitments.

LCNB and its subsidiaries are parties to various claims and proceedings arising in the normal course of business. Management, after consultation with legal counsel, believes that the liabilities, if any, arising from such proceedings and claims will not be material to the consolidated financial position or results of operations.

**Note 8 - Stock Options**

Under the Ownership Incentive Plan (the "Plan"), LCNB may grant stock-based awards to eligible employees. The awards may be in the form of stock options, share awards, and/or appreciation rights. The Plan provides for the issuance of up to 200,000 shares. As of March 31, 2007, only stock options have been granted under the Plan.

Options granted to date vest ratably over a five year period and expire ten years after the date of grant. Stock options outstanding at March 31, 2007, as restated for the 100% stock dividend declared April 10, 2007, were as follows:

SFAS No. 157, *Fair Value Measurements*, was issued by the FASB in September, 2006. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with U.S. generally accepted accounting principles, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements, but increases consistency and comparability in the use of fair value measurements and calculations. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007 and for interim periods within those fiscal years. Management does not anticipate that the adoption of SFAS No. 157 will have a material effect on LCNB's consolidated balance sheet or income statement.

SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, was issued by the FASB in February, 2007. It permits, but does not require, corporations to measure many financial instruments and certain other items at fair value. The decision to elect the fair value option is made individually for each instrument and is irrevocable once made. Changes in fair value will be recorded in earnings. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted. Management intends to adopt SFAS No. 159 in the year beginning January 1, 2008 and does not anticipate that adoption of this standard will have a material effect on LCNB's consolidated balance sheet or income statement.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Shareholders

LCNB Corp. and subsidiaries

Lebanon, Ohio

We have reviewed the accompanying consolidated balance sheet of LCNB Corp. and subsidiaries as of March 31, 2007, and the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for each of the three-month periods ended March 31, 2007 and 2006. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of LCNB Corp. and subsidiaries as of December 31, 2006 (presented herein), and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended (not presented herein), and in our report dated February 21, 2007, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2006, is fairly stated in all material respects, in relation to the consolidated balance sheet from which it has been derived.

#### **Forward Looking Statements**

Certain matters disclosed herein may be deemed to be forward-looking statements that involve risks and uncertainties. Forward looking statements are statements that include projections, predictions, expectations or beliefs about future events or results or otherwise are not statements of historical fact. Such statements are often characterized by the use of qualifying words and their derivatives such as expects, anticipates, believes, estimates, plans, projects, or other statements concerning opinions or judgments of the Company and its management about future events. Factors that could influence the accuracy of such forward looking statements include, but are not limited to, regulatory policy changes, interest rate fluctuations, loan demand, loan delinquencies and losses, general economic conditions and other risks. Such forward-looking statements represent management's judgment as of the current date. Actual strategies and results in future time periods may differ materially from those currently expected. LCNB Corp. disclaims, however, any intent or obligation to update such forward-looking statements. LCNB intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

#### **Acquisition**

On May 31, 2006, Dakin purchased the existing book of business of Altemeier Oliver & Company Agency, Inc. ( AOC ), an independent insurance agency located in Blue Ash, Ohio. The acquisition of AOC was accounted for using the purchase accounting method and the results of operations of AOC have been included in the consolidated financial statements of LCNB since the acquisition date. The acquired assets consisted solely of a customer list intangible asset. This intangible asset is being amortized on a straight-line basis over a ten year period.

#### **Results of Operations**

Earnings for the first quarter of 2007 were \$1,398,000 or \$0.22 basic and diluted earnings per share, compared to \$1,609,000 or \$0.25 basic and diluted earnings per share for the first quarter of 2006. Return on average assets for the quarters ended March 31, 2007 and 2006 were 1.04% and 1.21%, respectively. Return on average equity for the first quarter, 2007 was 11.02%, compared to 12.46% for the first quarter, 2006.

The decrease in net income during the first quarter, 2007 was significantly influenced by a \$65,000 decrease in net interest income and a \$73,000 increase in non-interest expense. In addition, earnings for the first quarter, 2006 benefited from a \$112,000 reduction in the allowance for loan losses. This reduction was primarily due to improvements in the credit quality of certain loans during the first quarter, 2006. In comparison, the provision for loan losses for the first quarter, 2007 was \$60,000.

**Net Interest Income**

LCNB's primary source of earnings is net interest income, which is the difference between earnings from loans and other investments and interest paid on deposits and other liabilities. The following table presents, for the three months ended March 31, 2007 and 2006, average balances for interest-earning assets and interest-bearing liabilities, the income or expense related to each item, and the resultant average yields earned or rates paid.

The following table presents the changes in tax-equivalent interest income and expense for each major category of interest-earning assets and interest-bearing liabilities and the amount of change attributable to volume and rate changes for the three months ended March 31, 2007 as compared to the comparable period in 2006. Changes not solely attributable to rate or volume have been allocated to volume and rate changes in proportion to the relationship of absolute dollar amounts of the changes in each.

Total interest expense	83	510	593
Net interest income	\$ 89	(181)	(92)

Net interest income on a fully tax-equivalent basis for the three months ended March 31, 2007 totaled \$4,782,000, a decrease of \$92,000 from the comparable period in 2006. Total interest income increased \$501,000 and total interest expense increased \$593,000.

The increase in total interest income was due to a 37 basis point (a basis point equals 0.01%) increase in the average rate earned on earning assets, from 6.19% for the first quarter of 2006 to 6.56% for the first quarter of 2007, and to a \$3.3 million increase in average interest earning assets, from \$498.1 million for the three months ended March 31, 2006 to \$501.4 million for the same period in 2007. The increase in average interest earning assets was due to a \$27.9 million increase in average loans, partially offset by a decrease of \$19.8 million in average investment securities and a \$4.7 million decrease in average federal funds sold and interest-bearing demand deposits. Most of the loan growth was in residential real estate loans and commercial loans.

## LCNB CORP. AND SUBSIDIARIES

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of

#### Operations (continued)

The increase in total interest expense was primarily due to a 55 basis point increase in the average rate paid and secondarily to a \$5.1 million increase in average interest-bearing liabilities. The increase in average interest-bearing liabilities was in average short-term borrowings, which increased \$8.0 million. This increase was partially offset by a \$2.0 million decrease in average interest-bearing deposits and a \$0.9 million decrease in average long-term borrowings.

The fully tax equivalent net interest margin declined 10 basis points during the first quarter, 2007 compared to the first quarter, 2006. The lower margin reflects highly competitive market pricing conditions for both loans and deposits, resulting in average deposit rates increasing faster than average loan rates. A negative yield curve, meaning that short-term market rates are currently higher than long-term market rates, continues to put pressure on LCNB's net interest margin.

#### **Provision and Allowance for Loan Losses**

The total provision for loan losses is determined based upon management's evaluation as to the amount needed to maintain the allowance for loan losses at a level considered appropriate in relation to the risk of losses inherent in the portfolio. In addition to historic charge-off percentages, factors taken into consideration to determine the adequacy of the allowance for loan losses include the nature, volume, and consistency of the loan portfolio, overall portfolio quality, a review of specific problem loans, and current economic conditions that may affect borrowers' ability to pay. The provision for loan losses for the three months ended March 31, 2007 was \$60,000, compared to a reduction in the allowance for loan losses of \$112,000 for the three months ended March 31, 2006. The reduction in the allowance for loan losses during the first quarter, 2006 was due primarily to an improvement in the credit quality of one significant loan during the quarter.

#### **Non-Interest Income**

Insurance agency income increased \$24,000 and service charges and fees increased \$12,000. In addition, first quarter, 2006 results included a \$12,000 loss on sales of investment securities; there were no sales of investment securities during the first quarter, 2007. These favorable items were offset by a decrease in trust income.

Insurance agency income increased primarily due to commissions received on policies obtained from AOC in May, 2006. Service charges and fees increased primarily due to increases in check card income and ATM surcharges, partially offset by a decrease in overdraft fees. Check card income grew because of the increasing popularity of check cards as a retail payment method. The increase in ATM surcharges largely reflects a pricing adjustment made during 2006. Trust income decreased as a result of lower estate settlement fees.

## LCNB CORP. AND SUBSIDIARIES

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of

#### Operations (continued)

##### Non-Interest Expense

Non-interest expense for the first quarter, 2007 was \$73,000 greater than for the first quarter, 2006, primarily due to a \$112,000 increase in salaries and wages, and \$18,000 increase in employee benefits, a \$37,000 increase in occupancy expense, and a \$12,000 increase in intangible amortization. Salaries and wages and employee benefits increased due to normal wage increases and additional staffing. Occupancy expense increased primarily due to rent and real estate taxes on the land for the Oakwood Office currently under construction and increased maintenance and repair expenses. Intangible amortization increased because of amortization of the AOC customer list intangible.

These expense increases were partially offset by a \$98,000 decrease in ATM expense, which is included in other non-interest expense. ATM expense for the first quarter, 2006 included fee adjustments related to prior periods that were not present during the first quarter, 2007.

##### Income Taxes

LCNB's effective tax rates for the three months ended March 31, 2007 and 2006 were 23.5% and 24.7%, respectively. The difference between the statutory rate of 34.0% and the effective tax rate is primarily due to tax-exempt interest income from municipal securities and tax-exempt income from bank owned life insurance.

##### Financial Condition

Securities available for sale at March 31, 2007 totaled \$103.0 million, which was a decrease of \$8.1 million from the \$111.1 million balance at December 31, 2006. The decrease was due to maturities and calls; no securities were sold during the first quarter, 2007. These additional funds were primarily used to pay down short-term borrowings.

During March, 2007, LCNB obtained a \$5 million advance from the Federal Home Loan Bank of Cincinnati. The term of the advance is ten years and interest is payable monthly at a fixed rate of 5.25%. The advance was primarily

used to reduce short-term borrowings.

Short-term borrowings at March 31, 2007 were \$1.0 million, a \$14.4 million decrease from the December 31, 2006 balance of \$15.4 million.

Average interest-bearing deposits decreased \$11.3 million when comparing the first quarter, 2007 with the fourth quarter, 2006. Average NOW and money fund deposits decreased \$9.3 million and average savings deposits decreased \$3.7 million, partially offset by an increase of \$1.7 million in average IRA and time certificates. Most of the growth in IRA and time certificates was in the certificate of deposit specials the Bank was promoting during the first quarter, 2007.

#### Operations (continued)

The decrease in average deposits was substantially replaced by an increase in average short-term borrowings, from an average balance of \$2.6 million for the fourth quarter, 2006 to an average of \$10.8 million for the first quarter, 2007.

Short-term borrowings, in turn, were paid down late in the first quarter, 2007 from the proceeds of a \$5.0 million long-term advance obtained from the FHLB during March, 2007 and from the proceeds from investment security maturities and calls.

Average long-term debt for the first quarter, 2007 increased \$1.1 million because of the FHLB advance discussed above.

#### Liquidity

LCNB depends on dividends from its subsidiaries for the majority of its liquid assets, including the cash needed to pay dividends to its shareholders. National banking law limits the amount of dividends Lebanon Citizens may pay to the sum of retained net income, as defined, for the current year plus retained net income for the previous two years. Prior approval from the Office of the Comptroller of the Currency, Lebanon Citizens' primary regulator, is necessary for Lebanon Citizens to pay dividends in excess of this amount. In addition, dividend payments may not reduce capital levels below minimum regulatory guidelines. Management believes Lebanon Citizens will be able to pay anticipated dividends to LCNB without needing to request approval.

Liquidity is the ability to have funds available at all times to meet the commitments of LCNB. Asset liquidity is provided by cash and assets which are readily marketable or pledgeable or which will mature in the near future. Liquid assets include cash, federal funds sold, interest-bearing demand deposits, and securities available for sale. At March 31, 2007, LCNB's liquid assets amounted to \$118.1 million or 21.8% of total assets, a decrease from \$126.6 million or 23.1% of total assets at December 31, 2006. Liquid assets decreased primarily because of an \$8.1 million decrease in securities available for sale. The decrease in liquidity was used primarily to pay down short-term borrowings.

Liquidity is also provided by access to core funding sources, primarily core deposits in the bank's market area.

Approximately 79.5% of total deposits at March 31, 2007 were core deposits, a decrease from 80.4% at December 31, 2006. Core deposits, for this purpose, are defined as total deposits less public funds and certificates of deposit equal to or greater than \$100,000. Core deposits decreased because of a \$4.6 million increase in public fund deposits, while total deposits, including public fund deposits, increased only \$1.7 million.

Secondary sources of liquidity include LCNB's ability to sell loan participations, borrow funds from the Federal Home Loan Bank, purchase federal funds, or use a line of credit established with another bank.

Management closely monitors the level of liquid assets available to meet ongoing funding needs. It is management's intent to maintain adequate liquidity so that sufficient funds are readily available at a reasonable cost. LCNB experienced no liquidity or operational problems as a result of the current liquidity levels.

**Recent Accounting Pronouncements**

SFAS No. 157, *Fair Value Measurements*, was issued by the FASB in September, 2006. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with U.S. generally accepted accounting principles, and expands disclosures about fair value measurements. This statement does not require any new fair value measurements, but increases consistency and comparability in the use of fair value measurements and calculations. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007 and for interim periods within those fiscal years. Management does not anticipate that the adoption of SFAS No. 157 will have a material effect on LCNB's consolidated balance sheet or income statement.

SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, was issued by the FASB in February, 2007. It permits, but does not require, corporations to measure many financial instruments and certain other items at fair value. The decision to elect the fair value option is made individually for each instrument and is irrevocable once made. Changes in fair value will be recorded in earnings. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted.

Management intends to adopt SFAS No. 159 in the year beginning January 1, 2008 and does not anticipate that adoption of this standard will have a material effect on LCNB's consolidated balance sheet or income statement.

### Item 3. Quantitative and Qualitative Disclosures about Market Risks

The Bank's Asset and Liability Management Committee ("ALCO") primarily uses a combination of Interest Rate Sensitivity Analysis ( IRSA ) and Economic Value of Equity ( EVE ) analysis for measuring and managing interest rate risk. IRSA is used to estimate the effect on net interest income during a one-year period of instantaneous and sustained movements in interest rates, also called interest rate shocks, of 100, 200, and 300 basis points. The base projection uses a current interest rate scenario. As shown below, the March 31, 2007 IRSA indicates that an increase in interest rates would have a positive effect on net interest income ( NII ), and a decrease in rates would have a negative effect on net interest income. The changes in net interest income for the up and down 100, 200, and 300 basis point rate assumptions are within LCNB's acceptable ranges.

Rate Shock Scenario in <u>Basis Points</u>	Amount <u>(In thousands)</u>	\$ Change in <u>NII</u>	% Change in <u>NII</u>
Up 300	\$ 18,920	217	1.16%
Up 200	18,859	156	0.83%
Up 100	18,791	88	0.47%
Base	18,703	-	-%
Down 100	18,549	(154)	-0.83%
Down 200	18,298	(405)	-2.16%
Down 300	17,978	(725)	-3.88%

IRSA shows the effect on net interest income during a one-year period only. A more long-range model is the EVE analysis, which shows the estimated present value of future cash inflows from interest-earning assets less the present value of future cash outflows for interest-bearing liabilities for the same rate shocks. The EVE analysis at March 31, 2007 is shown below. It shows a negative effect on the economic value of equity for all changes in interest rates, except for the down 100 basis points scenario. The changes in the economic value of equity for these rate assumptions are within LCNB's acceptable ranges.

Rate Shock Scenario in <u>Basis Points</u>	Amount	\$ Change in	% Change in
---	--------	--------------	-------------

Edgar Filing: LCNB CORP - Form 10-Q

	<u>(In thousands)</u>	<u>EVE</u>	<u>EVE</u>
Up 300	\$ 103,337	(8,141)	-7.30%
Up 200	106,507	(4,971)	-4.46%
Up 100	109,419	(2,059)	-1.85%
Base	111,478	-	-%
Down 100	111,849	371	0.33%
Down 200	111,162	(316)	-0.28%
Down300	109,946	(1,532)	-1.37%

The IRSA and EVE simulations discussed above are not projections of future income or equity and should not be relied on as being indicative of future operating results. Assumptions used, including the nature and timing of interest rate levels, yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, and reinvestment or replacement of asset and liability cash flows, are inherently uncertain and, as a result, the models cannot precisely measure future net interest income or equity. Furthermore, the models do not reflect actions that borrowers, depositors, and management may take in response to changing economic conditions and interest rate levels.

**Item 4. Controls and Procedures**

**a) Disclosure controls and procedures.** The Chief Executive Officer and the Chief Financial Officer have carried out an evaluation of the effectiveness of LCNB's disclosure controls and procedures that ensure that information relating to LCNB required to be disclosed by LCNB in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon this evaluation, these officers have concluded, that as of March 31, 2007, LCNB's disclosure controls and procedures were effective.

**b) Changes in internal control over financial reporting.** During the period covered by this report, there were no changes in LCNB's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, LCNB's internal control over financial reporting.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

On April 17, 2001, LCNB's Board of Directors authorized three separate stock repurchase programs, two phases of which continue. The shares purchased will be held for future corporate purposes.

Under the "Market Repurchase Program" LCNB was originally authorized to purchase up to 200,000 shares of its stock through market transactions with a selected stockbroker. On November 14, 2005, the Board of Directors extended the Market Repurchase Program by increasing the shares authorized for repurchase to 400,000 total shares. Through March 31, 2007, 290,444 shares had been purchased under this program. No shares were purchased during the first quarter, 2007.

The "Private Sale Repurchase Program" is available to shareholders who wish to sell large blocks of stock at one time. Because LCNB's stock is not widely traded, a shareholder releasing large blocks may not be able to readily sell all shares through normal procedures. Purchases of blocks will be considered on a case-by-case basis and will be made at prevailing market prices. There is no limit to the number of shares that may be purchased under this program. A total of 442,068 shares have been purchased since the inception of this program. The following table shows information relating to the repurchase of shares under the Private Sale Repurchase Program during the three months ended March 31, 2007:
