PRESS RELEASE

FOR IMMEDIATE RELEASE

UNION BANK OF CALIFORNIA SELECTS CGI-AMS' s PROPONIX

Application service provider pay- per- transaction processing model ensures operating costs align with business volumes

New York, New York, July 12, 2005 CGI-AMS Inc., the wholly-owned U.S. operating subsidiary of CGI Group Inc. (TSX: GIB.SV.A; NYSE: GIB) announced today that Union Bank of California (UBOC), the fourth largest commercial bank in California and one of the top 25 banks in the United States, has chosen CGI-AMS' s Proponix solution to support the bank' s domestic trade finance business.

Proponix is a hosted, Web-based fully integrated trade finance platform that provides access to trade services technology as a service, enabling reduced costs and enhanced customer service. Proponix allows financial service institutions to share a common platform, infrastructure and development costs, and pay-per-transaction for processing trade services.

UBOC was looking for a cost-effective solution to enable us to keep pace with technology changes as well as gain the flexibility to adopt future trade strategies as this very competitive market evolves, said Barbara Hounsell, senior vice-president, Commercial Loans and Trade Services Operations. We believe the Proponix solution will position UBOC to meet these objectives.

The Proponix platform includes a comprehensive trade processing system with built-in workflow and imaging, in-sourcing capabilities, denied party compliance, and online reporting. A Web-based trade portal enables banking customers to initiate and manage transactions, perform inquiries, view document images, and run up-to-date reports. Trade portal clients also gain access to supply-chain management capabilities, including trade document preparation and collaboration among banks, their customers, and their customer' s trading partners and logistic service providers.

Banks are looking for ways to upgrade their trade finance technology, reduce operating costs, and offer new products while keeping up-front investment to a minimum, said George Schindler, senior vice president and head of the CGI-AMS banking practice. Proponix solution enables banks to focus on core business objectives and not worry about the required ongoing technology investment.

CGI and its wholly owned US operating division, CGI-AMS, has more than 20 years experience in delivering trade services solutions globally. The Proponix solution is in production globally and currently supports the processing of more than 17,000 transactions per week.
