**Item 1.01 Entry Into a Definitive Material Agreement.**

**Underwriting Agreement**

On June 9, 2009, CBL & Associates Properties, Inc. (the "Company") and CBL & Associates Limited Partnership entered into an underwriting agreement (the "Underwriting Agreement") with the underwriters named therein (the "Underwriters"), for whom Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wachovia Capital Markets, LLC acted as representatives, pursuant to which the Company agreed to sell to the Underwriters 58,350,000 shares of newly issued common stock, par value \$0.01 per share (the "Shares"). Additionally, the Company granted to the Underwriters a 30-day option to purchase up to an additional 8,752,500 Shares. The Shares were offered and sold pursuant to a prospectus supplement, dated June 9, 2009 and related prospectus, dated April 9, 2009, filed with the Securities and Exchange Commission, relating to the Company's shelf registration statement on Form S-3 (File No. 333-156109). A copy of the Underwriting Agreement is attached hereto as Exhibit 1.1.

**Item 7.01 Regulation FD Disclosure.**

**Offering Size and Pricing**

The Company announced today that it has increased the number of Shares to be issued in its previously announced public offering of its common stock to 58,350,000 and has priced the Shares in the offering at \$6.00 per share, yielding net proceeds to the Company of approximately \$334.4 million after deducting the underwriting discount and other estimated offering expenses. The Company also announced that it has increased the number of additional Shares that may be purchased by the Underwriters in connection with the offering to 8,752,500. The Underwriters have 30 days to exercise their option to purchase the additional Shares.

The Company's press release is attached as Exhibit 99.1 hereto.

**Updated 2009 Earnings Guidance**

The Company is updating its guidance for net income and funds from operations ("FFO"), a widely accepted supplemental measure of performance for real estate companies, for the year ending December 31, 2009 to give effect to the final terms of the offering referenced above. Based on the (i) pricing and terms of the offering, (ii) terms of the recent commitments for the Company's unsecured and largest secured lines of credit and (iii) current assumptions and estimates, the Company estimates that its FFO will be between \$2.34 and \$2.45 per diluted, fully converted share of common stock for the year ending December 31, 2009, or between \$2.28 and \$2.39 per diluted, fully converted share of common stock if the Underwriters exercise their option in full to purchase additional Shares. A reconciliation of expected diluted earnings per share of common stock to expected FFO per diluted, fully converted share of common stock, excluding the exercise of the Underwriters' option, is as follows:

## Edgar Filing: CBL & ASSOCIATES PROPERTIES INC - Form 8-K

	<b>Low</b>	<b>High</b>
Expected diluted earnings per share of common stock	\$ 0.36	\$ 0.47
Adjust to fully converted shares of common stock	(0.12)	(0.16)
Expected earnings per diluted, fully converted share of common stock	0.24	0.31
Add: depreciation and amortization	1.96	1.96
Add: noncontrolling interest in earnings of Operating Partnership	0.14	0.18
Expected FFO per diluted, fully converted share of common stock	\$ 2.34	\$ 2.45

A reconciliation of expected diluted earnings per share of common stock to expected FFO per diluted, fully converted share of common stock, assuming the exercise of the Underwriters' option in full to purchase additional Shares, is as follows:

	<b>Low</b>	<b>High</b>
Expected diluted earnings per share of common stock	\$ 0.36	\$ 0.46
Adjust to fully converted shares of common stock	(0.12)	(0.15)
Expected earnings per diluted, fully converted share of common stock	0.24	0.31
Add: depreciation and amortization	1.91	1.91
Add: noncontrolling interest in earnings of Operating Partnership	0.13	0.17
Expected FFO per diluted, fully converted share of common stock	\$ 2.28	\$ 2.39

FFO is a widely used measure of the operating performance of real estate companies that supplements net income determined in accordance with accounting principles generally accepted in the United States ("GAAP"). The National Association of Real Estate Investment Trusts defines FFO as net income (computed in accordance with GAAP) excluding gains or losses on sales of operating properties, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures and noncontrolling interests. Adjustments for unconsolidated partnerships and joint ventures and noncontrolling interests are calculated on the same basis. The Company's method of calculating FFO may be different from methods used by other real estate investment trusts ("REITs") and, accordingly, may not be comparable to such other REITs.

The Company believes that FFO provides an additional indicator of the operating performance of its properties without giving effect to real estate depreciation and amortization, which assumes the value of real estate assets declines predictably over time. Since values of well-maintained real estate assets have historically risen with market conditions, the Company believes that FFO enhances investors' understanding of its operating performance. The use of FFO as an indicator of financial performance is influenced not only by the operations of the Company's properties and interest rates, but also by its capital structure.

FFO does not represent cash flows from operations as defined by GAAP, is not necessarily indicative of cash available to fund all cash flow needs and should not be considered as an alternative to net income for purposes of evaluating the Company's operating performance or to cash flow as a measure of liquidity.
