**Report of Independent Accountants**

To the Participants and Administrator of the  
Medtronic, Inc. Employee Stock Ownership and  
Supplemental Retirement Plan:

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Medtronic, Inc. Employee Stock Ownership and Supplemental Retirement Plan (the "Plan", formerly the Medtronic, Inc. Employees Stock Ownership Plan) at April 30, 2002 and 2001, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of Assets Held for Investment Purposes and Reportable Transactions at April 30, 2002 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Notes to Financial Statements**

**1. Description of the Plan**

The following description of the Medtronic, Inc. Employee Stock Ownership (ESOP) and Supplemental Retirement (SRP) Plan (the "Plan", formerly the Medtronic, Inc. Employees Stock Ownership Plan), provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

**General**

The Plan provides stock ownership benefits and assists employees to increase retirement savings and provide financial security upon retirement. The Plan is available to all eligible full-time and part-time employees immediately upon hire. The Plan is a contributory defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Trustees of the Plan are Vanguard Fiduciary Trust Company ("Vanguard Trust") and US Bank Institutional Financial Services ("US Bank") (hereinafter collectively referred to as the "Trustees"). Allocated ESOP assets and contributed SRP assets are held by Vanguard Trust and unallocated ESOP assets are held by US Bank. Transactions are executed by the Trustees of the Plan as directed by Medtronic, Inc. ("the Company") in its capacity as Plan Administrator.

**Plan Merger**

The Compensation Committee of the Board of Directors of the Company approved the merger of the Medtronic, Inc. and Participating Employers Supplemental Retirement Plan into the Plan. Effective May 31, 2001 assets of \$936,750,000 related to all active employees in the Medtronic, Inc. and Participating Employers Supplemental Retirement Plan were transferred into the Plan. The Plan was amended effective April 30, 2001 to allow employees elective deferrals under Code Section 401(k). The Plan qualifies under Section 401(a) of the Internal Revenue Code of 1986, as amended. The Plan now has two components: a SRP component which governs the elective deferrals, and the ESOP component that governs matching contributions related to the SRP and non-matching

allocations of employer stock.

### **Administration**

The Qualified Plan Committee oversees the administration of the Plan. The committee appointed Vanguard Trust and US Bank as Trustees of the plan assets and Recordkeeper of the Plan. Vanguard has been appointed to provide participant services, education, and communication services. Vanguard maintains a separate account in the name of each participant in the Plan to record the assets allocated to the participant and the earnings, losses, disbursement and expenses credited thereto.

### **Contributions and Allocations**

Participating employees may contribute 2% to 15% of eligible earnings on a pre-tax basis to the Plan. Participants receive matching allocations of Medtronic common stock to their ESOP matching accounts in the Plan. The matching allocation is based on each participant's contributions up to 6% of eligible compensation, and ranges from 50% to 150% of these contributions. Matching allocations totaled approximately \$41,915,000 and \$33,100,000 for fiscal years 2002 and 2001, which is included in the allocation of Medtronic, Inc. common stock from the unallocated

4

---

shares at US Bank to Vanguard Trust (See Note 4). Participants are allowed to transfer matching allocated amounts to any of the SRP investment choices.

Employee contributions to the Plan are made through payroll deductions. The contributions can be allocated to eleven investment choices based upon participant investment decisions. The participants may change the investment decisions at any time by contacting the Trustee. However, any funds exchanged out of the Medtronic Interest Income Fund must remain invested in another investment alternative for a period of at least three months before being moved to the Vanguard Total Bond Market Index Fund. Participants are also limited to two exchanges a month in or out of the Medtronic Common Stock Fund.

In addition to the matching allocation, participants can receive annual allocations to their ESOP Regular accounts in the form of Medtronic, Inc. common stock. These annual allocations range from 2.5% to 4.0% of qualified compensation, depending upon the achievement of certain performance goals. Active participants may begin to diversify their ESOP Regular allocations at age 55 if the participant has been in the Plan for ten years.

### **Vesting**

Participants are 100% vested in their contributions, including earnings and losses thereon, at all times. Participants vest in the Company contributions, including earnings and losses thereon, at a rate of 20% per year and remain fully vested in all Company contributions after five years. Participant forfeiture of nonvested amounts reduce the Company's contribution. Employer contributions of \$3,992,000 and \$4,641,000 during fiscal years 2002 and 2001, respectively, were forfeited by terminating employees before those amounts became vested.

### **Distributions**

An active participant who has attained age 59½ may request a cash withdrawal for all or a part of the value of the SRP assets. Active participants are not allowed to take withdrawals from their ESOP Regular allocated amounts, however they are allowed to diversify to any of the SRP investment choices upon eligibility.

Upon termination of employment, the participant must take a complete distribution if the value of the participant's account is under \$5,000. If the value of the participant's account is greater than \$5,000, the participant may elect to defer distribution until a later date, take a cash withdrawal or request a direct rollover. Participant funds invested in Medtronic stock may be taken in-kind or as cash. Upon retirement from the Company, the participants also have the option to take monthly installments from the Plan.

Active participants may take hardship withdrawals from the SRP assets of the Plan if they incur financial hardship. The hardship withdrawal is only available to meet immediate and severe financial needs that cannot be met through other available sources in the Plan including the available loan provisions. The amount of the hardship withdrawal cannot exceed the amount of the financial need and will be taxed upon distribution with a 10% penalty tax imposed.

Upon the death of a participant, the account becomes fully vested and will be paid to the designated beneficiary, or if no beneficiary has been designated, the balance will be paid according to the terms and conditions of the Plan. The beneficiary has the option to take the Medtronic stock in-kind or as cash.

### **Participant Loans**

Participants are limited to one loan outstanding at a time and can borrow up to 50% of their total vested SRP balance not to exceed the maximum loan amount of \$50,000. The minimum loan amount is \$1,000. Loans are repaid through payroll deduction in equal amounts over one to five years. The interest rate is calculated as one percentage point over the prime rate in effect at US Bank, N.A., on the first workday of the month in which the loan is made and remains fixed for the duration of the loan. At April 30, 2002, loans receivable were due at various dates through 2007, with interest rates ranging from 6.0% to 10.5%.

### **Termination of the Plan**

Termination or retirement benefits are paid by the Trustee in accordance with the provisions of the Plan and the instructions of Medtronic, Inc., acting as plan administrator. In the event the Plan was terminated and there was not a successor plan, participants would become fully vested in the Company contributions. Benefits would be distributed at that time in the manner provided in the documents, which terminated the Plan.

## **2. Summary of Accounting Principles**

### **Basis of Presentation**

The accompanying financial statements are prepared on the accrual basis of accounting.

### **Investment Valuation**

The Plan's investments are stated at fair value, except for its investment contracts, which are valued at contract value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Investments in the Medtronic Common Stock Fund and the Plan's interest in the Master Trust Fund are valued at year-end unit closing price (comprised of year-end market price plus uninvested cash position). The common shares of the Company are valued at the quoted market price. Participant loans are valued at estimated fair value, consisting of outstanding principal and related unpaid interest.

### **Investment Transactions and Related Investment Income**

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Capital gain distributions are included in dividend income. The Plan presents in the Statement of Changes in Net Assets the net appreciation (depreciation) in the fair value of its investments which consists of realized gains and losses and the unrealized appreciation (depreciation) on those investments.

### **Use of Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### **Administrative Expenses**

Administrative expenses are paid by the Plan. Such expenses consist of recordkeeping fees, trustee fees and account maintenance. The Plan pays for the fees associated with transactions in the Medtronic ESOP Fund. Participants pay for the fees associated with transactions in the Medtronic Common Stock Fund from their respective Plan accounts. In addition, participants with loans pay

an origination and annual loan fee for loan administration and maintenance from their respective Plan accounts.

### Payment of Benefits

Benefit payments are recorded upon distribution.

### Risks and Uncertainties

The Plan provides for investment in the Company's common stock and various participant investment options in funds, which can invest in any combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk and uncertainties associated with investment securities, it is at least reasonably possible that changes in risks could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

### Concentration of Market Risk

As of April 30, 2002 and 2001, approximately 70% and 100% of the Plan's net assets were invested in the common stock of Medtronic, Inc., respectively. A significant portion of this concentration results from the allocated and unallocated investments in the ESOP, which was designed to provide stock ownership benefits to eligible employees. The underlying value of the Medtronic Common Stock Fund is entirely dependent on the performance of Medtronic, Inc. and the market's evaluation of such performance. It is at least reasonably possible that changes in the fair value of Medtronic, Inc. common stock could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

## 3. Investments

The net appreciation (depreciation) in the fair value of investments during 2002 and 2001, other than those held in the Master Trust including investments purchased and sold, as well as those held during the year, was as follows (in 000's):

	April 30,	
	2002	2001
Medtronic Common Stock Fund	\$ 19,603	\$
Vanguard 500 Index Fund	(14,654)

Medtronic, Inc. ESOP Stock	(99)	(69,142)
Net depreciation in fair value of investments	\$ (25,535)	\$ (69,142)

The investments in the Medtronic Interest Income Fund consist of investment contracts issued by financial institutions and of contracts backed by investment-grade, fixed-income securities and bond

## Edgar Filing: MEDTRONIC INC - Form 11-K

mutual funds. These investment contracts are valued at their contract values, which approximates fair value, because these investments have fully benefit-responsive features. There are no reserves against contract values for credit risk of contract issuers or otherwise.

The average yield of the Medtronic Interest Income Fund was 6.15% for 2002. The crediting interest rate of the Medtronic Interest Income Fund was 6.03% for 2002. The crediting interest rate is based on a formula agreed upon with the issuer, which cannot be less than zero. Such interest rates are reviewed on a quarterly basis for resetting.

#### 4. Interest in the Master Trust Fund

Certain assets of the Plan are invested by the Trustee in a Master Trust Fund, with certain assets of the Medtronic, Inc. and Participating Employers Retirement Plan, the Physio-Control Retirement Plan, and the Medtronic, Inc. Retirement Plan 401(h) Medical Account.

US Bank, as the recordkeeper of certain assets of the Master Trust Fund, maintains a separate account for the Medtronic, Inc. Employee Stock Ownership and Supplemental Retirement Plan assets held within the Master Trust Fund. The separate account assets consist primarily of Medtronic, Inc. common stock. At April 30, 2002 and 2001, the Plan's interest in the net assets of the Master Trust was 31% and 46%, respectively.

The Plan's interest in the total assets held in the Master Trust Fund and changes in assets during the periods are as follows (in 000's):

	Years Ended April 30,	
	2002	2001
Interest in Master Trust, beginning of year	\$ 307,251	\$ 408,438

## 5. Trustees

Unallocated assets of the Plan are invested in a Master Trust Fund with certain assets of the Medtronic, Inc. and Participating Employers Retirement Plan, the Physio-Control Retirement Plan, and the Medtronic, Inc. Retirement Plan 401(h) Medical Account. US Bank is the Trustee for the unallocated assets attributable to the Plan held in the Master Trust Fund. Medtronic, Inc. and US Bank act as recordkeepers for these assets. US Bank maintains a separate account for the unallocated Plan assets and liabilities held within the Master Trust Fund. The Plan assets within the Master Trust Fund consist of Medtronic, Inc. common stock. The liabilities consist of a loan from Medtronic, Inc. The unallocated assets consist of shares of the Company's common stock with fair values of approximately \$198,653,000 and \$322,684,000 at April 30, 2002 and 2001, respectively.

## 6. Funding Policy

In December 1989, the Master Trust borrowed \$40.0 million from the Company on behalf of the Plan and used the proceeds to purchase 18,932,938 shares (adjusted for stock splits) of the Company's common stock. The loan from the Company is payable over a

## Edgar Filing: MEDTRONIC INC - Form 11-K

period not to exceed 20 years, ending on April 30, 2010. Interest is payable annually at a rate of 9.0%. The Company makes contributions to the Plan, which are used, in part, by the Plan to make principal and interest payments. Contributions are based on debt service requirements less any dividends received by the Plan on the unallocated shares of stock. Contributions are further adjusted to meet the annual targeted benefit level as determined by the Company.

During fiscal years 2002 and 2001, allocations of 2.57% and 2.50%, respectively, of qualified compensation were allocated to participants' ESOP regular accounts. In addition, allocations of 3.85% and 3.44% of qualified compensation were made to Plan participants' ESOP matching accounts in fiscal years 2002 and 2001, respectively. Forfeitures of allocated shares funded a portion of the allocation requirements for fiscal years 2002 and 2001.
