## PATRIOT NATIONAL BANCORP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

## Note 1. Basis of Financial Statement Presentation

The Consolidated Balance Sheet at December 31, 2004 has been derived from the audited financial statements of Patriot National Bancorp, Inc. ("Bancorp") at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

The accompanying unaudited financial statements and related notes have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The accompanying consolidated financial statements and related notes should be read in conjunction with the audited financial statements of Bancorp and notes thereto for the year ended December 31, 2004.

The information furnished reflects, in the opinion of management, all normal recurring adjustments necessary for a fair presentation of the results for the interim periods presented. The results of operations for the three and nine months ended September 30, 2005 are not necessarily indicative of the results of operations that may be expected for the remaining quarter of 2005 .

Certain 2004 amounts have been reclassified to conform to the 2005 presentation. Such reclassifications had no effect on net income.

## Note 2. Investments

The following table is a summary of Bancorp's available for sale securities portfolio, at fair value, at the dates shown:

|  | September 30, | December 31, |  |  |
| :--- | ---: | ---: | ---: | ---: |
|  |  | 2005 | 2004 |  |

| Mortgage-backed securities |  | $7,000,000$ | $9,000,000$ |  |
| Money market preferred | $\$$ | $85,153,142$ | $\$$ | $76,269,475$ |

8

The amortized cost, gross unrealized gains, gross unrealized losses and fair values of available for sale securities at September 30, 2005 are as follows:
U.S. Government Agency and sponsored agency obligations Mortgage-backed securities Money market preferred equity securities

| Amortized Cost |  | Gross |  | Gross |  |  | Fair |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Unrealized |  | Unrealized |  |  |
|  |  |  | Gains |  | Losses |  | Value |
| \$ | 16,999,000 | \$ |  | \$ | $(445,888)$ | \$ | 16,553,112 |
|  | 62,532,667 |  | 45,753 |  | $(978,390)$ |  | 61,600,030 |
| 7,000,000 |  |  | - |  | - |  | 7,000,000 |
| \$ | 86,531,667 | \$ | 45,753 | \$ | $(1,424,278)$ | \$ | 85,153,142 |

At September 30, 2005, gross unrealized holding gains and gross unrealized holding losses on available for sale securities totaled $\$ 45,753$ and $\$ 1,424,278$, respectively. Of the securities with unrealized losses, there are five U. S. Government agency or sponsored agency obligations and 16 mortgage-backed securities that have unrealized losses for a period in excess of twelve months with a combined current unrealized loss of $\$ 1,056,327$. Management does not believe that any of the unrealized losses are other than temporary since they are the result of changes in the interest rate environment and they relate to debt and mortgage-backed securities issued by U. S. Government and U.S. Government sponsored agencies. Bancorp has the ability to hold these securities to maturity if necessary and expects to receive all contractual principal and interest related to these investments. As a result, management believes that these unrealized losses will not have a negative impact on future earnings or a permanent effect on capital.

## Note 5. Borrowings

In addition to the outstanding borrowings disclosed on the consolidated balance sheet, the Bank has the ability to borrow approximately $\$ 91.5$ million in additional advances from the Federal Home Loan Bank of Boston which includes a $\$ 2.0$ million overnight line of credit. The Bank also has arranged a $\$ 3.0$ million overnight line of credit from a correspondent bank and $\$ 10.0$ million under a repurchase agreement; no amounts were outstanding under these two arrangements at September 30, 2005.

## Note 6. Income per share

Bancorp is required to present basic income per share and diluted income per share in its income statements. Basic income per share amounts are computed by dividing net income by the weighted average number of common shares outstanding. Diluted income per share assumes exercise of all potential common stock in weighted average shares outstanding, unless the effect is antidilutive. Bancorp is also required to provide a reconciliation of the numerator and denominator used in the computation of both basic and diluted income per share. The following is information about the computation of income per share for the three and nine months ended September 30, 2005 and 2004.

## Note 8. Segment Reporting

Bancorp has two reportable segments, the commercial bank and the mortgage broker. The commercial bank provides its commercial customers with products such as commercial mortgage and construction loans, working capital loans, equipment loans and other business financing arrangements, and provides its consumer customers with residential

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10QSB

mortgage loans, home equity loans and other consumer installment loans. The commercial bank segment also attracts deposits from both consumer and commercial customers, and invests such deposits in loans, investments and working capital. The commercial bank's revenues are generated primarily from net interest income from its lending, investment and deposit activities.

The mortgage broker solicits and processes conventional mortgage loan applications from consumers on behalf of permanent investors and originates loans for sale. Revenues are generated from loan brokerage and application processing fees received from permanent investors and gains and origination fees from loans sold.

Information about reportable segments and a reconciliation of such information to the consolidated financial statements for the three and nine months ended September 30, 2005 and 2004 is as follows (in thousands):

## Note 9. Financial Instruments with Off-Balance Sheet Risk

In the normal course of business, Bancorp is a party to financial instruments with off-balance-sheet risk to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit and involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the balance sheets. The contract amounts of these instruments reflect the extent of involvement Bancorp has in particular classes of financial instruments.

The contractual amounts of commitments to extend credit and standby letters of credit represent the amounts of potential accounting loss should: the contract be fully drawn upon; the customer default; and the value of any existing collateral become worthless. Bancorp uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments and evaluates each customer's creditworthiness on a case-by-case basis. Management believes that Bancorp controls the credit risk of these financial instruments through credit approvals, credit limits, monitoring procedures and the receipt of collateral as deemed necessary.

Financial instruments whose contract amounts represent credit risk are as follows at September 30, 2005:
Commitments to extend credit:
Future loan commitments \$ 39,891,311
Unused lines of credit 39,309,660
Undisbursed construction loans 36,680,115
Financial standby letters of credit $\quad 216,000$
\$ 116,097,086
Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments to extend credit generally have fixed expiration dates or other termination clauses and may require payment of a fee by the borrower. Since these commitments could expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if deemed necessary by Bancorp upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral held varies but may include residential and commercial property, deposits and securities.

Standby letters of credit are written commitments issued by Bancorp to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. As of January 1, 2003, newly issued or modified guarantees that are not derivative contracts have been recorded on Bancorp's consolidated balance sheet at the fair value at inception. No liability related to guarantees was required to be recorded at September 30, 2005.

## Item 2. Management's Discussion and Analysis or Plan of Operation

(a)

Plan of Operation
Not applicable since Bancorp had revenues from operations in each of the last two fiscal years.
(b) Management's Discussion and Analysis of

Financial Condition and Results of Operations

## SUMMARY

Bancorp successfully completed a shareholder rights offering during September 2005 resulting in an increase in common stock of $\$ 12.0$ million, $\$ 11.0$ million, net of offering fees and expenses. Existing shareholders purchased $\$ 6.3$ million or 368,687 shares; standby investors purchased $\$ 5.7$ million or 337,196 shares.

Bancorp's net income of $\$ 281,000$ ( $\$ 0.11$ basic income per share and $\$ 0.11$ diluted income per share) for the quarter ended September 30, 2005 represents an improvement of $12 \%$ or $\$ 31,000$ when compared to net income of $\$ 250,000$ ( $\$ 0.10$ basic income per share and $\$ 0.10$ diluted income per share) for the quarter ended September 30, 2004. For the nine-month period ended September 30, 2005, net income of $\$ 919,000$ ( $\$ 0.37$ basic income per share and $\$ 0.36$ diluted income per share) represents an increase of $\$ 233,000$ or $34 \%$ when compared to net income of $\$ 686,000$ ( $\$ 0.28$ basic income per share and $\$ 0.27$ diluted income per share) for the nine months ended September 30, 2004.

Total assets increased $\$ 50.6$ million from $\$ 405.0$ million at December 31, 2004 to $\$ 455.6$ million at September 30, 2005. Cash and cash equivalents decreased $\$ 36.6$ million to $\$ 19.0$ million at September 30, 2005 as compared to $\$ 55.6$ million at December 31, 2004. The available for sale securities portfolio increased $\$ 8.9$ million to $\$ 85.2$ million at September 30, 2005 from $\$ 76.3$ million at December 31, 2004. The net loan portfolio increased $\$ 77.1$ million from $\$ 263.9$ million at December 31, 2004 to $\$ 341.0$ million at September 30, 2005. Deposits increased $\$ 42.8$ million to $\$ 409.8$ million at September 30, 2005 from $\$ 367.0$ million at December 31, 2004. Borrowings decreased $\$ 4$ million from $\$ 16.2$ million at December 31, 2004 to $\$ 12.2$ million at September 30, 2005. Total shareholders' equity increased $\$ 11.4$ million to $\$ 31.2$ million at September 30, 2005 from $\$ 19.8$ million at December 31, 2004.

## FINANCIAL CONDITION

## Assets

Bancorp's total assets increased $\$ 50.6$ million or $12 \%$ from $\$ 405.0$ million at December 31, 2004 to $\$ 455.6$ million at September 30, 2005. Cash and cash equivalents
decreased $\$ 36.6$ million or $66 \%$ to $\$ 19.0$ million at September 30, 2005 as compared to $\$ 55.6$ million at December 31, 2004. Cash and due from banks increased $\$ 3.5$ million, while federal funds sold and short term investments decreased $\$ 29.7$ million and $\$ 10.3$ million, respectively. The decrease in cash and cash equivalents partially funded loan growth and purchases of available for sale securities.

## Investments

Available for sale securities increased $\$ 8.9$ million or $12 \%$ from $\$ 76.3$ million at December 31, 2004 to $\$ 85.2$ million at September 30, 2005. During the months of January 2005 and August 2005, excess liquidity of $\$ 19.2$ million and $\$ 9.0$ million, respectively was redeployed from federal funds sold and short term investments into the purchase of mortgage-backed securities and government sponsored agency obligations. The $\$ 8.9$ million increase represents the excess of security purchases over mortgage-backed security principal repayments, the redemption of a money market preferred equity security and the increase in the unrealized losses in the available for sale securities portfolio.

## Loans

Bancorp's net loan portfolio increased $\$ 77.1$ million or $29 \%$ from $\$ 263.9$ million at December 31, 2004 to $\$ 341.0$ million at September 30, 2005. The significant increases include residential real estate loans of $\$ 38.7$ million or $105 \%$, commercial real estate loans of $\$ 26.5$ million or $25 \%$, and construction loans of $\$ 13.6$ million or $18 \%$. The increase in residential real estate loans includes $\$ 16.9$ million in purchased adjustable rate residential mortgages. The growth in loans originated by the Bank reflects the continued strong real estate market in the Fairfield County, Connecticut and Westchester County, New York areas in which the Bank primarily conducts business and which continues to contribute to the overall growth in the loan portfolio. Although short term interest rates have increased, the interest rate environment for borrowers remained favorable in the first nine months of 2005.

At September 30, 2005, the net loan to deposit ratio was $83 \%$ and the net loan to total assets ratio was $75 \%$. At December 31, 2004, the net loan to deposit ratio was $72 \%$ and the net loan to total assets ratio was $65 \%$. Based on loan applications in process and the recent hiring of additional loan officers, management anticipates continued loan growth during the remainder of 2005.

## Critical Accounting Policies

The preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. A material estimate that is particularly susceptible to significant near-term change relates to the determination of the allowance for loan losses. Actual results could differ significantly from those estimates

## Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10QSB

under different assumptions and conditions. The Company believes the following discussion addresses Bancorp's only critical accounting policy, which is the policy that is most important to the presentation of Bancorp's financial results. This policy requires management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

## Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are considered impaired. A risk rating system is utilized to measure the adequacy of the general component of the allowance for loan losses. Under this system, each loan is assigned a risk rating between one and nine, which has a corresponding loan loss factor assigned, with a rating of "one" being the least risk and a rating of "nine" reflecting the most risk or a complete loss. Risk ratings are assigned by the originating loan officer or loan committee at the initiation of the transactions and are reviewed and changed, when necessary, during the life of the loan. Loan loss reserve factors are multiplied against the balances in each risk rating category to arrive at the appropriate level for the allowance for loan losses. Loans assigned a risk rating of "six" or above are monitored more closely by the credit administration officers. The unallocated portion of the allowance reflects management's estimate of probable but undetected losses inherent in the portfolio; such estimates are influenced by uncertainties in economic conditions, delays in obtaining information, including unfavorable information about a borrower's financial condition, difficulty in identifying triggering events that correlate perfectly to subsequent loss rates, and risk factors that have not yet manifested themselves in loss allocation factors. Loan quality control is continually monitored by management subject to oversight by the board of directors through its members who serve on the loan committee. It is also reviewed by the full board of directors on a monthly basis. The methodology for determining the adequacy of the allowance for loan losses is consistently applied; however, revisions may be made to the methodology and assumptions based on historical information related to charge-off and recovery experience and management's evaluation of the current loan portfolio.

Based upon this evaluation, management believes the allowance for loan losses of $\$ 4.2$ million at September 30, 2005, which represents $1.2 \%$ of gross loans outstanding, is adequate, under prevailing economic conditions, to absorb losses on existing loans. At December 31, 2004, the allowance for loan losses was $\$ 3.5$ million or $1.3 \%$ of gross loans outstanding.

## Non-Accrual, Past Due and Restructured Loans

The following table presents non-accruing loans and loans past due 90 days or more and still accruing:

| (Thousands of dollars) | September 30, 2005 |  | $\begin{gathered} \text { December 31, } \\ 2004 \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Loans delinquent over 90 |  |  |  |  |
| days still accruing | \$ | 1,831 | \$ | 373 |
| Non-accruing loans |  | 1,991 |  | 3,669 |
| Total | \$ | 3,822 | \$ | 4,042 |
| \% of Total Loans |  | 1.11\% |  | 1.51\% |
| \% of Total Assets |  | 0.84\% |  | 1.00\% |

## Potential Problem Loans

The $\$ 2.0$ million in non-accruing loans at September 30, 2005 is comprised of two loans that are well collateralized and in the process of collection; one loan in the amount of $\$ 852,000$ is current as to contractually due principal and interest payments. The $\$ 1.8$ million in loans delinquent over 90 days and still accruing include two matured construction loans totaling $\$ 1.5$ million; subsequent to September 30, 2005 one loan was renewed and a renewal on the second loan is in process.

At September 30, 2005, Bancorp had no loans, other than those disclosed in the table above, for which management has significant doubts as to the ability of the borrower to comply with the present repayment terms.

## Deposits

Total deposits increased $\$ 42.8$ million or $12 \%$ from $\$ 367.0$ million at December 31, 2004 to $\$ 409.8$ million at September 30, 2005. Noninterest bearing deposits increased $\$ 2.3$ million; an increase in commercial demand accounts of $\$ 5.9$ million was partially offset by decreases in personal checking and cashiers' checks of $\$ 2.3$ million and $\$ 1.1$ million, respectively. Interest bearing deposits increased $\$ 40.5$ million or $12 \%$ from $\$ 324.4$ million at December 31, 2004 to $\$ 364.9$ million at September 30, 2005. Money market deposit and savings accounts decreased $\$ 8.9$ million and $\$ 0.9$ million, respectively, while certificates of deposit and NOW accounts increased $\$ 48.5$ million and $\$ 1.9$ million, respectively. The growth in certificates of deposit is due primarily to the certificate of deposit promotion campaign offered in conjunction with the grand opening of the Southport Office; this campaign also prompted some money market account holders to transfer funds to certificates of deposit.

## Borrowings

At September 30, 2005, total borrowings were $\$ 12.2$ million; this represents a decrease of $\$ 4.0$ million when compared to total borrowings of $\$ 16.2$ million at December 31, 2004. As deposits increased, maturing Federal Home Loan Bank advances were paid with the excess liquidity.

## Capital

Capital increased $\$ 11.4$ million or $58 \%$ from $\$ 19.7$ million at December 31, 2004 to $\$ 31.2$ million at September 30, 2005. A successful rights offering and the exercise of stock options resulted in an increase in common stock of 742,883 shares resulting in net proceeds of $\$ 11.3$ million. Year to date net income of $\$ 919,000$ partially offset by a decrease in the market value of the available for sales security portfolio of $\$ 461,000$ net of deferred taxes and the declaration of dividends of $\$ 316,000$ resulted in a net increase in capital of $\$ 142,000$.

## Off-Balance Sheet Arrangements

There have been no significant changes in Bancorp's off-balance sheet arrangements which primarily consist of commitments to lend, during the quarter and nine months ended September 30, 2005.

## Results of Operations

## Interest and dividend income and expense

Bancorp's interest and dividend income increased $\$ 1.5$ million or $33 \%$ for the quarter ended September 30, 2005 as compared to the same period in 2004. Interest and fees on loans increased $35 \%$ or $\$ 1.4$ million from $\$ 4.1$ million for the quarter ended September 30, 2004 to $\$ 5.5$ million for the quarter ended September 30, 2005. These increases are primarily the result of the increase in the loan portfolio combined with increases in interest rates. For the nine months ended September 30, 2005, interest and dividend income was $\$ 17.8$ million which represents an increase of $\$ 4.4$ million or $32 \%$ as compared to interest and dividend income of $\$ 13.4$ million for the same period last year. This increase is due to the reasons cited earlier.

Bancorp's interest expense increased 55\% or $\$ 972,000$ to $\$ 2.7$ million for the quarter ended September 30, 2005 as compared to $\$ 1.8$ million for the same period in 2004. Increases in balances and the rates paid on interest bearing deposit accounts resulted in an increase of $61 \%$ or $\$ 951,000$ in interest expense for the quarter ended September 30, 2005 compared to the same period last year. Increases in the index to which the subordinated debt is tied resulted in an increase in interest expense of $\$ 39,000$. For the nine months ended September 30, 2005 total interest expense increased $\$ 2.2$ million or $44 \%$ to $\$ 7.2$ million from

22
$\$ 5.0$ million for the nine months September 30, 2004. These increases in interest expense are due to the reasons cited earlier.

As a result of these factors, net interest income increased $\$ 612,000$ or $20 \%$ to $\$ 3.7$ million for the three months ended September 30, 2005 as compared to $\$ 3.1$ million for the same period last year; net interest income increased $\$ 2.1$ million or $25 \%$ to $\$ 10.6$ million for the nine months ended September 30, 2005 as compared to $\$ 8.5$ million for the nine months ended September 30, 2004.

## Provision for loan losses

The provision for loan losses charged to operations for the quarter ended September 30, 2005 of $\$ 350,000$ represents an increase of $\$ 115,000$ or $49 \%$ as compared to same period last year. For the nine months ended September 30, 2005 the provision for loan losses of $\$ 710,000$ represents an increase of $\$ 255,000$ or $56 \%$ as compared to the nine months ended September 30, 2004. These increases are due to loan growth and the credit risk factors assigned to the loan portfolio and not to any adverse changes in the credit quality of the loan portfolio or in non-performing loans.

An analysis of the changes in the allowance for loan losses is presented under "Allowance for Loan Losses."

## Noninterest income

Noninterest income increased $\$ 369,000$ or $60 \%$ to $\$ 986,000$ for the quarter ended September 30, 2005 as compared to the same period last year. Mortgage brokerage and referral fees and loan processing fees increased \$290,000 and $\$ 30,000$, respectively; these increases are due to increases in loan originator staff, loan volume and average transaction size. Increases in deposit accounts and transaction volumes resulted in an increase in fees and service charges of $\$ 29,000$ or $26 \%$ from $\$ 115,000$ for the quarter ended September 30, 2004 to $\$ 144,000$ for the quarter ended September 30, 2005.

For the nine months ended September 30, 2005, noninterest income of $\$ 2.5$ million increased $\$ 374,000$ or $17 \%$ as compared to $\$ 2.1$ million for the nine months ended September 30, 2005. These changes are due to reasons discussed earlier.

## Noninterest expenses

Noninterest expenses increased $27 \%$ or $\$ 814,000$ to $\$ 3.9$ million for the quarter ended September 30, 2005 from $\$ 3.1$ million for the quarter ended September 30, 2004. Salaries and benefits expense increased $29 \%$, or $\$ 543,000$ to $\$ 2.4$ million for the quarter ended September 30, 2005 from $\$ 1.9$ million for the quarter ended September 30, 2004. This increase is due primarily to staff additions associated with two additional branch locations at September 30, 2005 as compared to last year, as well as increases in loan and deposit

production sales and incentive compensation and an enhanced compensation plan designed to attract additional talented and experienced residential mortgage loan originators. Occupancy and equipment expense, net, increased $\$ 65,000$ or $14 \%$ to $\$ 539,000$ for the quarter ended September 30, 2005 from $\$ 474,000$ for the quarter ended September 30, 2004 due primarily to the establishment during the fourth quarter of 2004 of an additional branch location and the opening of the Southport Office at the end of the second quarter of 2005. Data processing and other outside services increased $\$ 132,000$ or $65 \%$ from $\$ 201,000$ for the three months ended September 30, 2004 to $\$ 333,000$ for the three months ended September 30, 2005; much of this increase is due to an increase in personnel placement fees, data processing expenses and information technology consulting. The increase in data processing expenses is a result of the growth in the branch network as well as to increases due to ongoing maintenance charges for the implementation of new products and services. Professional services increased $\$ 33,000$ or $37 \%$ from $\$ 88,000$ for the three months ended September 30, 2004 to $\$ 120,000$ for the three months ended September 30, 2005; this increase is due primarily to increases in accruals for consulting services related to the implementation of Section 404 of the Sarbanes-Oxley Act of 2002.

For the nine months ended September 30, 2005, noninterest expenses increased $\$ 1.9$ million or $21 \%$ to $\$ 10.9$ million from $\$ 9.0$ million for the same period last year for similar reasons cited above. Salaries and benefits increased $\$ 1.1$ million or $21 \%$ and occupancy and equipment expense, net, increased $\$ 290,000$ or $24 \%$. Data processing and other outside services and professional services increased $\$ 215,000$ or $36 \%$ and $\$ 85,000$ or $28 \%$, respectively; other noninterest expenses increased $\$ 143,000$ or $17 \%$.

## Income Taxes

Bancorp recorded income tax expense of $\$ 191,000$ for the quarter ended September 30, 2005 as compared to $\$ 169,000$ for the quarter ended September 30, 2004. For the nine months ended September 30, 2005, income tax expense was $\$ 625,000$ as compared to $\$ 470,000$ for the same period last year. The effective tax rates for the quarters ended September 30, 2005 and September 30, 2004 were $40.5 \%$ and $40.3 \%$, respectively; the effective tax rates for the nine months ended September 30, 2005 and September 30, 2004 were $40.5 \%$ and $40.7 \%$, respectively. These changes are related primarily to the change in pre-tax income and the exclusion for state tax purposes of certain holding company expenses.

## LIQUIDITY

Bancorp's liquidity ratio was $23 \%$ and $29 \%$ at September 30, 2005 and 2004, respectively. The liquidity ratio is defined as the percentage of liquid assets to total assets. The following categories of assets as described in the accompanying consolidated balance sheets are considered liquid assets: cash and due from banks, federal funds sold, short term investments and available for sale securities. Liquidity is a measure of Bancorp's ability to generate adequate cash to meet financial obligations. The principal cash requirements of a financial institution are to cover downward fluctuations in deposit accounts and increases in 24
its loan portfolio. Management believes Bancorp's short-term assets provide sufficient liquidity to cover loan demand, potential fluctuations in deposit accounts and to meet other anticipated cash operating requirements.

## CAPITAL

The following table illustrates Bancorp's regulatory capital ratios at September 30, 2005 and December 31, 2004 respectively:

|  | September 30, |  |
| :--- | ---: | ---: | December 31, |  | 2005 | $10.70 \%$ |
| :--- | ---: | ---: |
| Total Risk-based Capital | $13.40 \%$ | $9.04 \%$ |
| Tier 1 Risk-based Capital | $12.15 \%$ | $6.79 \%$ |
| Leverage Capital | $9.01 \%$ |  |

The following table illustrates the Bank's regulatory capital ratios at September 30, 2005 and December 31, 2004 respectively:

|  | September 30, | December 31, |
| :--- | ---: | ---: |
|  | 2005 | 2004 |
| Total Risk-based Capital | $13.19 \%$ | $10.50 \%$ |
| Tier 1 Risk-based Capital | $11.94 \%$ | $9.29 \%$ |
| Leverage Capital | $8.84 \%$ | $6.98 \%$ |

Capital adequacy is one of the most important factors used to determine the safety and soundness of individual banks and the banking system. Based on the above ratios, the Bank is considered to be "well capitalized" at September 30, 2005 under applicable regulations. To be considered "well-capitalized," an institution must generally have a leverage capital ratio of at least $5 \%$, a Tier 1 risk-based capital ratio of at least $6 \%$ and a total risk-based capital ratio of at least $10 \%$.

Management continuously assesses the adequacy of the Bank's capital to ensure that the Bank remains a "well capitalized" institution. Management's strategic and capital plans contemplate various options to maintain the "well capitalized" classification.

The increase in capital ratios is due primarily to the rights offering which closed in September 2005.

## IMPACT OF INFLATION AND CHANGING PRICES

Bancorp's consolidated financial statements have been prepared in terms of historical dollars, without considering changes in the relative purchasing power of money over time due to inflation. Unlike most industrial companies, virtually all of the assets and liabilities of a financial institution are monetary in nature. As a result, interest rates have a more significant impact on a financial institution's performance than the general levels of inflation. Interest
rates do not necessarily move in the same direction or in the same magnitude as the prices of goods and services. Notwithstanding this, inflation can directly affect the value of loan collateral, in particular, real estate. Inflation, or disinflation, could significantly affect Bancorp's earnings in future periods.

## "SAFE HARBOR" STATEMENT UNDER PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Certain statements contained in Bancorp's public reports, including this report, and in particular in this "Management's Discussion and Analysis of Financial Condition and Results of Operation," may be forward looking and subject to a variety of risks and uncertainties. These factors include, but are not limited to, (1) changes in prevailing interest rates which would affect the interest earned on Bancorp's interest earning assets and the interest paid on its interest bearing liabilities, (2) the timing of repricing of Bancorp's interest earning assets and interest bearing liabilities, (3) the effect of changes in governmental monetary policy, (4) the effect of changes in regulations applicable to Bancorp and the conduct of its business, (5) changes in competition among financial services companies, including possible further encroachment of non-banks on services traditionally provided by banks, (6) the ability of competitors that are larger than Bancorp to provide products and services which it is impracticable for Bancorp to provide, (7) the effects of Bancorp's opening of branches, (8) the effect of any decision by Bancorp to engage in any new business activities and (9) the ability of Bancorp to timely and successfully deploy the capital raised in the 2005 Rights Offering. Other such factors may be described in Bancorp's future filings with the SEC.

## Item 3. Controls and Procedures

Based on an evaluation of the effectiveness of Bancorp's disclosure controls and procedures performed by Bancorp's management, with the participation of Bancorp's Chief Executive Officer and its Chief Financial Officer as of the end of the period covered by this report, Bancorp's Chief Executive Officer and Chief Financial Officer concluded that Bancorp's disclosure controls and procedures have been effective.

As used herein, "disclosure controls and procedures" means controls and other procedures of Bancorp that are designed to ensure that information required to be disclosed by Bancorp in the reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by Bancorp in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to Bancorp's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in Bancorp's internal control over financial reporting identified in connection with the evaluation described in the preceding paragraph that occurred during Bancorp's fiscal quarter ended September 30,2005 that has materially affected, or is reasonably likely to materially affect, Bancorp's internal control over financial reporting.

## PART II - OTHER INFORMATION.

## Item 2.

## Unregistered sales of Equity Securities and Use of Proceeds

(a) During the three months ended September 30, 2005, Bancorp issued 34,000 shares of its Common Stock upon the exercise of certain options that were granted in connection with a stock option plan adopted by the Bank in 1999 under which non-qualified and incentive stock options were granted in 1999 to certain employee directors and directors. The weighted average exercise price of these options is $\$ 10.13$. The obligations under these options were assumed by Bancorp at the time the Bank became a wholly owned subsidiary of Bancorp.

The total amount received by Bancorp for these shares was $\$ 345,105.84$. No underwriter was used in connection with the sale of these 34,000 shares nor were any underwriting discounts or commissions paid. The shares are unregistered under the Securities Act of 1933, and were issued pursuant to the private offering exemption under Section 4 (2) of such Act.
