**TOP TANKERS ANNOUNCES CLOSING OF  
PUBLIC OFFERING OF COMMON STOCK**

ATHENS, GREECE (December 10, 2007) TOP Tankers Inc (NasdaqGS:TOPT) (the “Company”) today announced the closing of its offering to the public of 24,150,000 shares of its common stock (the “Offered Shares”). The Company recently announced the pricing of the Offered Shares at \$3.00 per share and also announced that the underwriters exercised their full over-allotment option to purchase 3,150,000 shares in addition to the originally announced 21,000,000 share offering. The total net proceeds to the Company from the offering, after deducting the underwriters’ discount of approximately \$2.9 million and before deducting estimated offering expenses, were approximately \$69.5 million.

The Company expects to use the net offering proceeds to repay currently outstanding debt and to make payments in connection with the purchase of six drybulk vessels.

This notice does not constitute an offer to sell or the solicitation of an offer to buy the Offered Shares. Any offers of the Offered Shares will be made only by means of a prospectus and prospectus supplement.

About TOP Tankers Inc

TOP Tankers Inc is an international provider of worldwide seaborne crude oil and petroleum products and of drybulk transportation services. The Company operates a fleet of 20 tankers, consisting of 12 double-hull Suezmax tankers and 8 double-hull Handymax tankers, with a total carrying capacity of approximately 2.2 million dwt, of which 87% are sister ships, and one drybulk vessel. It expects delivery of five more drybulk vessels between December 2007 and March 2008. Thirteen of the Company’s 20 tankers will be on time charter contracts with an average initial term of over three years with all but four of the time charters including profit sharing agreements. Three of the Company’s drybulk vessels will have period charter contracts for an average period of 18 months.

Forward Looking Statement

Certain statements and information included in this release constitute “forward-looking statements” within the meaning of the Federal Private Securities Litigation Reform Act of 1995. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words “believe,”

“anticipate,” “intends,” “estimate,” “forecast,” “project,” “plan,” “potential,” “will,” “may,” “should,” “expect” “pending” and “may be” expressions identify forward-looking statements. The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management’s examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, failure of a seller to deliver one or more vessels or of a buyer to accept delivery of one or more vessels, inability to procure acquisition financing, default by one or more charterers of our ships, changes in the demand for crude oil and petroleum products, changes in demand for dry bulk shipping capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, availability of financing and refinancing, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
