SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary in order not to make the financial statements misleading have been included. Results for the six months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2007. For further information, refer to the consolidated financial statements and footnotes thereto included in Synergx Systems Inc. ("Synergx" or "the Company") and Subsidiaries' annual report on Form 10-KSB for the year ended September 30, 2006.

2. Revenue Recognition

Product sales include sales of systems, which are similar in nature, that involve fire alarm, life safety and security (CCTV and card access), transit (train station platforms and on board systems) and communication (paging, announcement and audio/visual). Product sales represent sales of products along with the integration of technical services at a fixed price under a contract with an electrical contractor or end user customer (building owner or tenant), or customer agent. Product sales for long term contracts are recognized, using the percentage-of-completion method of accounting. The effects of changes in contract terms are reflected in the accounting period in which they become known. Contract terms provide for billing schedules that differ from revenue recognition and give rise to costs and estimated profits in excess billings, and billings in excess of costs and estimated profits. Costs and estimated profits in excess of billing were \$99,000 at March 31, 2007 and have been included in other current assets. Billings in excess of costs and estimated profits were \$148,000 at March 31, 2007 and have been included in deferred revenue. Product sales for short term contracts are recognized when the services are preformed or the product has been delivered, which is when title to the product and risk of loss have been substantially transferred to the customer and collection is reasonably assured.

Subcontract sales principally represent revenues related to electrical installation of wiring and piping performed by others for the Company when the Company acts as the prime contractor and sells its products along with electrical installation. Revenue is recognized when these services are preformed at the job site.

Service revenue from separate maintenance contracts is recognized on a straight-line basis over the terms of the respective contract, which is generally one year. The unearned service revenue from these contracts is included in current liabilities as deferred revenue. Non-contract service revenue is recognized when services are performed.

---

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

3. RECLASSIFICATION

Certain accounts in the prior period financial statements have been reclassified for comparison purposes to conform to the presentation in the current period financial statements. These classifications have no effect on the previously reported net loss.

4. INVENTORIES

Inventories are priced at the lower of cost (first-in, first-out) or market and consist primarily of raw materials and, at March 31, 2007 reflects an inventory allowance of \$392,000 with respect to slow moving or obsolete items.

5. NOTE PAYABLE BANK

The Company has a \$3 million revolving credit facility with TD Banknorth (the "Credit Facility"). The Credit Facility carries an annual interest rate of prime plus  $\frac{1}{4}\%$  on outstanding balances (8.50% at March 31, 2007). On December 26, 2006, the credit facility was extended to expire on January 31, 2008. The Company intends to extend or refinance the credit facility by its expiration date. In view of the Company's ample working capital collateral, which is far in excess of its present and anticipated credit line, the Company believes suitable financing will be available from its present lender or another lender, if necessary. The Credit Facility is secured by all assets of the Company and all of its operating subsidiaries. Advances under this Credit Facility are measured against a borrowing base calculated on eligible accounts receivable and inventories, as defined in the agreement.

At March 31, 2007, the full amount of the Credit Facility was available under the borrowing base calculation and \$1,392,865 was outstanding under this facility.

The Credit Facility includes certain restrictive covenants, which among other things, impose limitations on declaring or paying dividends, acquisitions, and capital expenditures. The Company is also required to maintain certain financial ratios and tangible net worth covenants. At March 31, 2007 the Company was in compliance with its financial covenants.

6. STOCK OPTIONS

In March 2004, the Company and its stockholders adopted a nonqualified stock option plan ("2004 Plan"), which will expire March 10, 2009, except as to options outstanding under a prior 1997 Plan. Under the 2004 Plan, the Board of Directors may grant options to eligible employees at exercise prices not less than 100% of the fair market value of the common shares at the time the options are granted. The number of shares of Common Stock that may be issued shall not exceed an aggregate of up to 10% of the Company's issued and outstanding shares from time to time. Options vest at a rate of 20% per year commencing one year after date of grant. Issuances under the 2004 Plan are to be reduced by options outstanding under the prior 1997 nonqualified stock option plan.

---

## SYNERGX SYSTEMS INC. AND SUBSIDIARIES

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

During the six months ended March 31, 2007 10,000 stock options were granted at an exercise price of \$1.70 per share.

Effective October 1, 2006, the Company adopted the fair value recognition provision of Statement of Financial Accounting Standards ("SFAS") No. 123R "Accounting for Share-Based Payment Compensation," (Revised 2004), disclosure requirements of SFAS No. 123R, using the modified-prospective-transition method for stock options and similar equity instruments (collectively, "Options") issued to employees. As a result, the Company's loss before taxes for the six months ended March 31, 2007 is \$15,716 higher than if it had continued to account for the share-based compensation under Accounting Principles Board ("APB") Opinion No. 25.

The Company has \$83,636 of stock based compensation expense remaining to be expensed over the period April 2007 through January 2012.

A summary of the option activity under the plan as of March 31, 2007 and changes during the six months ended March 31, 2007 are presented below:

Options

	2006	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Intrinsic Value
Outstanding October 1, 2006	108,000	\$ 2.50	3.4 Yrs	-0-
Granted	10,000	1.70	4.8 Yrs	-0-
Forfeited	(4,000)	2.50	2.9 Yrs	-0-
Outstanding March 31, 2007	114,000	2.43	3.1 Yrs	-0-
Exercisable at March 31, 2007	41,600	2.50	2.9 Yrs	-0-

A summary of the option activity of nonvested shares at March 31, 2007, and changes during the six months ended March 31, 2007 is presented below:

	2007	Weighted Average Grant Date Fair Value

Nonvested at March 31, 2007	72,400 \$	1.28

---

## SYNERGX SYSTEMS INC. AND SUBSIDIARIES

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The Black-Scholes option valuation model was used to estimate the fair value of the options granted. During the six months ended March 31, 2007, 10,000 stock options were granted to employees at an exercise price \$1.70. The model includes subjective input assumptions that can materially affect the fair value estimates. The model was developed for use in estimating the fair value of traded options that have no vesting restrictions and that are fully transferable. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the options granted. Principal assumptions used in applying the Black-Scholes model along with the results from the model for 2007 are as follows:

March 31, 2007

## Assumptions:

Risk-free interest rate	4.77%
Dividend	0
Expected life in years	5 years
Expected volatility	154%

As permitted under Statement of Financial Accounting Standards No. 148 "Accounting for Stock-Based Compensation-Transition and Disclosure", which amended SFAS No. 123 (SFAS 123), "Accounting for Stock-Based Compensation," the Company has elected to continue to follow the intrinsic value method in accounting for its stock-based employee compensation arrangements, as defined by APB Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations including Financial Accounting Standard Board Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation," and interpretation of APB No. 25 for the periods up to and including September 30, 2006. No stock-based employee compensation cost is reflected in net income for the periods prior to October 1, 2006 as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS 123R to stock-based employee compensation for periods prior to October 1, 2006.

	March 31, 2006	
	Three Months	Six Months
Net (Loss)	\$ (36,705)	\$ (320,931)
Less: Fair Value of Options issued to employees and directors, net of income tax	(4,713)	(9,426)

## SYNERGX SYSTEMS INC. AND SUBSIDIARIES

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

## 7. NOTE RECEIVABLE

The Company had a 25% equity investment in and loans to Secure 724 LP which were determined to be impaired at September 30, 2006 and a charge of \$377,264 was recorded to fully reserve for recovery of these investments. In March 2007, the company sold its entire interest in Secure 724 LP to Avante Security (the general managing partner of Secure 724 LP) for a consideration of \$82,673. The Company received cash of \$9,218 and \$73,455 of a note receivable on the closing date. The note is payable with interest beginning April 30, 2007 with principal payments of \$3,673 per month through August 31, 2007 and a final payment of \$55,090 at September 30, 2007. The notes are secured by the assets of the buyer. Total sale proceeds of \$82,673 were recorded as a gain on sale of equity investment during the three and six months ending March 31, 2007.

The sales agreement also provides for an additional variable payment based on sales of Secure 724 LP product up to a maximum additional payment of \$73,455 (total consideration together with the cash and a note of \$156,128). This additional payment, if any, will be earned when, as, and if Secure 724 LP generates revenues.

## 8. DISCONTINUED OPERATIONS

On May 31, 2006, the Company's wholly owned subsidiary, General Sound (Texas) Company ("General Sound") that operated in Dallas/Ft. Worth, Texas sold its inventory, property, trade name, business and operations to LCR Sound, a Texas company. The operations of General Sound are reported as discontinued for all periods presented in the Condensed Consolidated Financial Statements. Under terms of the Asset Purchase Agreement, General Sound received cash proceeds from the buyer of \$518,000 for its inventory, property and equipment, and goodwill, resulting in a gain of \$197,901. The buyer assumed responsibility for the remaining term of the lease for its office and warehouse space. General Sound retained cash and all accounts receivable and remains responsible for all existing liabilities, which have substantially been paid as of March 31, 2007.

The results of the discontinued operations for the three and six months ended March 31, 2006 are as follows:

	March 31, 2006	
	Three Months	Six Months
Sales	\$ 529,634	\$ 1,172,757
Cost of Sales	350,756	836,690
Operating expenses	248,352	464,383
Operating (loss) before taxes	(\$69,474)	(\$128,316)

---

Item 2. Management's Discussion and Analysis or Plan of Operations

LIQUIDITY AND CAPITAL RESOURCES

The Company has a \$3 million revolving credit facility with TD Banknorth (the "Credit Facility"). This Credit Facility carries an interest rate of prime plus ¼% and expires January 1, 2008. Advances under the Credit Facility are measured against a borrowing base calculated on eligible trade receivables and inventories as defined. The Credit Facility is secured by all assets of the Company and all of its operating subsidiaries.

The Credit Facility includes various covenants, which among other things, impose limitations on declaring or paying dividends, acquisitions and capital expenditures. The Company is also required to maintain certain financial ratios and tangible net worth covenants. At March 31, 2007, the Company was in compliance with its financial covenants and at such time the full amount of the Credit Facility was available under the borrowing base calculation. At March 31, 2007, \$1,392,865 was owed under the Credit Facility.

Net cash used in continuing operations for the six months March 31, 2007 amounted to \$282,000 as compared to cash being provided by continuing operations of \$55,000 for the comparable prior year period. The decrease in cash provided by operations was primarily due to a \$350,000 reduction in the net amount of accounts receivable collected compared to collections in the 2006 period.

In 2006, there was a net cash inflow of \$47,000 provided by the discontinued operations that resulted primarily from collection of trade receivables, which funded the decline in business in 2006 of the discontinued operation and funded the pay-down of accounts payable.

In 2007, the net cash outflow of \$282,000 from continuing operations along with equipment purchases of \$151,000 was funded by \$464,000 of additional bank borrowing.

The ratio of the Company's current assets to current liabilities decreased to approximately 2.18 to 1 at March 31, 2007 compared to 3.43 to 1 at March 31, 2006. The decrease in the current ratio is due to our bank debt being a current liability at March 31, 2007 and a non-current liability at March 31, 2006. Had the bank debt been a non-current liability at March 31, 2007 the ratio of current assets to current liabilities would have been 3.26 to 1. Excluding the classification of our bank debt to a current liability, working capital would have been \$6.4 million (a non-GAAP measurement, see table below) at March 31, 2006. This decline is attributed to funding operations without an increase in bank debt since March 31, 2006. The Company expects to extend or refinance its bank loan before its maturity on January 31, 2008. In view of the Company's ample working capital collateral, which is in excess of its present and anticipated credit line, the Company believes suitable financing will be available from its present lender or another lender, if necessary. The Company anticipates that its existing capital resources (including working capital of \$6.4 million at March 31, 2007, a non-GAAP measurement see table below) and funds expected to be received from operations will be sufficient to satisfy its cash flow requirements through March 31, 2008.

A reconciliation on Non-GAAP working capital and current ratio at March 31, 2007 is as follows:

Current Assets	Working Capital	Current Ratio
----------------	-----------------	---------------

Edgar Filing: SYNERGX SYSTEMS INC - Form 10QSB

			Current Liabilities		
As reported under GAAP	\$	9,158,380	\$	4,197,135	\$ 4,961,245 2.18 to 1
Reclassification of Bank Debt				(1,392,865)	1,392,865
Non-GAAP measurement	\$	9,158,380	\$	2,804,270	\$ 6,354,110 3.26 to 1

Gross Margin Subcontract%	20%	18%	20%	20%
Gross Margin Service %	46%	50%	44%	45%

## Revenues

The Company's product revenues during the three and six months ended March 31, 2007 increased 14% and 8% from the respective 2006 periods. These increases in product revenues primarily resulted from higher shipments with respect to audio visual products for several large projects that were booked and released for shipment during the current quarter.

Subcontract revenue decreased during the current three and six month periods as the Company was responsible for fewer small electrical installation projects in the 2007 periods.

Service revenues increased 1% and 2% respectively during the three and six month periods of 2007. The increase in both periods is due to an increase in service contract revenue related to higher fees on renewal of contracts compared to the prior year periods.

Item 2. Management's Discussion and Analysis or Plan of Operations

Gross Profit

Gross profit on product revenues for the three months ended March 31, 2007 decreased compared to the respective 2006 period notwithstanding increased revenues. The small decline in absolute gross profit margin and the 3% decrease in gross margin percentage is primarily related to a shift in product mix to lower margin sales of audio visual and transit projects in 2007. Gross profit on product revenues for the six months ended March 31, 2007 increased 28% to \$1,503,000. This improvement is attributed to higher product revenues and related gross profit and from the absence of severance costs that burdened the 2006 period. While recent audio-visual and transit projects do involve a lower gross profit percent than the Company's product mix over the last few years (which was weighted more to life safety), the Company has not yet begun to benefit from the greater revenue levels commensurate with its increased order position which should result in stronger gross margin dollars, notwithstanding the lower gross profit percent.

Gross profit related to subcontract revenues for the three and six months ended March 31, 2007, decreased in absolute terms due to the decrease in revenue related to electrical installation during these periods.

Gross profit on service revenues for the three and six months ended March 31, 2007, primarily decreased due to additional outside development costs that were incurred to upgrade the Company's proprietary Comtrak fire alarm system which amounted to \$18,000 and \$36,000 for the respective three and six months periods in 2007.

Loss from Operations

The \$139,000 increase in loss from operations during the three months ended March 31, 2007 is primarily due to \$79,000 of lower gross profit margin compared to the prior year period (noted above), from a increase of \$42,000 in selling, general & administrative costs primarily related to additional costs of implementing the Company's new computer system, and from higher depreciation primarily related to the new computer system. The \$46,000 decrease in loss from operations during the six months ended March 31, 2007, is due to a \$270,000 improvement in gross profit margin compared to the prior year period. The improvement is primarily attributed to higher products revenues and related gross margin. This improvement in gross profit margin was partially offset by an increase in selling, general, and administrative expenses of \$209,000 which includes \$96,000 of investment banking and legal expenses related to exploring strategic options and \$61,000 of additional costs to implement the Company's new computer operating system. Depreciation expense also increased for the six months of 2007 and is related to the improvements to the Company's computer operating system.

Interest expense increased during 2007 due to the effect of both higher interest rates and higher borrowing levels.

For the three and six month periods of 2007, the Company recorded a gain of \$82,673 on the sale of its investment in Secure 724 LP, which investment was fully impaired in September 2006. In contrast, during the three and six months of 2006, the Company recorded a loss of \$17,000 and \$49,000, respectively, on its share in the operating loss of Secure 724 LP.

---

## Item 2. Management's Discussion and Analysis or Plan of Operations

## Tax Provision

The Company's deferred income tax expense (benefit) for the 2007 three and six months periods is net of an \$80,000 valuation reserve regarding future tax benefits to be realized from the losses of Secure 724 LP. The Company's current income tax benefit represents the benefit from a net operating loss in the current period as it relates to federal, state and local income taxes.

## Discontinued Operations

On May 31, 2006, the Company's wholly owned subsidiary, General Sound (Texas) Company ("General Sound") that operated in Dallas/Ft. Worth, Texas sold its inventory, property, trade name, business and operations to LCR Sound, a Texas company. Under terms of the Asset Purchase Agreement, General Sound received cash proceeds from the buyer of \$518,000 for its inventory, property and equipment, and goodwill resulting in a gain of \$197,901. The buyer assumed responsibility for the remaining term of the lease for its office and warehouse space. General Sound retained cash and all accounts receivable and remains responsible for all existing liabilities which have substantially been paid as of March 31, 2007.

The operations of General Sound are reported as discontinued for all periods presented in the accompanying Condensed Consolidated Financial Statements.

The results of the discontinued operations for the three and six months ended March 31, 2006 are as follows:

	Three Months 2006	Six Months 2006
Sales	\$ 529,634	\$ 1,172,757
Cost of Sales	350,756	836,690
Operating expenses	248,352	464,383
Operating (loss) before taxes	\$ (69,474)	\$ (128,316)

## Order Position

The Company's order position, excluding service, at March 31, 2007 was \$13,300,000 as compared to \$8,000,000 at September 30, 2006 and \$7,700,000 at March 31, 2006. The high order position at March 31, 2007 resulted from the Company receiving new orders for transit projects. The order position at March 31, 2006 has been adjusted to exclude the discontinued operations. This order position includes large orders received for several subway complexes which will be deliverable over several years as the projects are released. While quotation activity is brisk, there is no assurance when orders will be received and whether the order position will increase. Due to the fact that the Company's products are sold and installed as part of larger mass transit construction projects, there is typically a delay between the booking of the contract and its revenue realization. The order position includes, and the Company continues to bid on projects that might include, significant subcontractor labor (electrical installation performed by others). The Company expects to be active in seeking orders where the Company would act as a prime contractor and be responsible for management of the project as well as electrical installation.

Item 3. Controls and Procedures

Evaluation of disclosure controls and procedures.

At the period end of this Quarterly Report on Form 10-QSB, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded, as of the end of the quarter covered by this report, that:

The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified.

That Company's disclosure controls and procedures are effective to ensure that such information is accumulated and communicated to the Company's management, and made known to the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decision regarding the required disclosure.

There have been no changes in the Company's internal controls over financial reporting that have materially affected, or is reasonably likely to materially affect the Company's internal controls over financial reporting during the period covered by this Quarterly Report.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control systems are met. Because of the inherent limitations in all control systems no evaluation of control can provide absolute assurance that all control issues, if any, within a company have been detected. Such limitations include the fact that human judgment in decision-making can be faulty and that breakdowns in internal control can occur because of human failures, such as simple errors or mistakes or intentional circumvention of the established process.

Part II - OTHER INFORMATION

Item 1. Legal Proceedings.

Not Applicable

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Not applicable

Item 3. Defaults Upon Senior Securities.

Not applicable

Item 4. Submission of Matters to a Vote of Security Holders.

The Registrant's Annual Meeting of Stockholders was held on March 28, 2007. At the meeting, Stockholders considered and voted upon:

(1) the election of seven (7) directors to Synergx's Board of Directors,

(2) the selection of Marcum & Kliegman LLP as Synergx's independent auditors for the fiscal year ending September 2007

The seven nominees for director were unopposed and were, accordingly elected by the Stockholders. The following table details the votes cast for, against and abstained from voting on each matter considered by the Stockholders.

MATTER	FOR	AGAINST	ABSTAINED
Daniel Tamkin	4,655,048	67,469	
John Poserina	4,655,090	67,427	
J. Ian Dalrymple	4,697,395	25,122	
Mark I. Litwin	4,495,095	227,422	
Harris Epstein	4,698,895	23,622	
Peter Barotz	4,496,395	226,122	
Orhan Sadik-Khan	4,494,895	227,622	
Auditors	4,686,941	34,510	1,066

Item 5. Other Information.

None

Item 6. Exhibits

31.1 Certification of Daniel S. Tamkin pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

31.2 Certification of John A. Poserina pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

32.1 Certifications of Daniel S. Tamkin and John A. Poserina pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
