TELECOM ITALIA S P A  
Form 6-K  
February 14, 2006

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 6-K

REPORT OF FOREIGN PRIVATE ISSUER

PURSUANT TO RULE 13a-16 OR 15D-16  
UNDER THE SECURITIES EXCHANGE ACT OF 1934

FOR THE MONTH OF FEBRUARY 2006

TELECOM ITALIA S.p.A.  
(Translation of registrant's name into English)

Piazza degli Affari 2  
20123 Milan, Italy  
(Address of principal executive offices)

Indicate by check mark whether the registrant files  
or will file annual reports under cover of Form 20-F or Form 40-F:

FORM 20-F  FORM 40-F

Indicate by check mark if the registrant  
is submitting the Form 6-K in paper  
as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant  
is submitting the Form 6-K in paper  
as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether by furnishing the information  
contained in this Form, the registrant is also thereby furnishing  
the information to the Commission pursuant to Rule 12g3-2(b)  
under the Securities Exchange Act of 1934.

YES  NO

If "Yes" is marked, indicate below the file number assigned  
to the registrant in connection with Rule 12g3-2(b): 82- \_\_\_\_\_

**PRESS RELEASE**

**TIM : NEW MOBILE PHONES WITH DIGITAL TV AND SUPER HIGHSPEED INTERNET ARRIVING THIS SUMMER**

*The Super UMTS will be launched in Rome, Milan and Turin in May. The introduction of new HSDPA technology calls for an investment of 60-70 million euro in 2006 to enhance 5,000 UMTS base stations, covering 50% of the country*

*In June, the commercial launch of Mobile Digital TV (DVBH) and the fixed-mobile phone (UMA) will follow*

*With this new technology it will be possible to choose on your mobile phone, as you already do with fixed-line phones, the navigation speed that best suits your needs*

*The launch of the new services was announced by Telecom Italia's CEO, Riccardo Ruggiero, at the 3 GSM World Congress in Barcelona*

*Barcelona, 14 February 2006* After **TACS**, **GSM** and **UMTS**, beginning this summer, Tim will launch a new generation of innovative services and handsets on the market. As with fixed-line telephony, it will also be possible to choose mobile handsets to access broad band in mobility with navigation speeds that vary according to your needs: from approximately **380 Kbit** per second for **UMTS** to as high as the **20/30 Megabit** achievable through fourth generation technologies such as **WiBro**, for which Tim has recently begun testing.

Continuing in this direction, beginning May, TIM will also launch a new application, **HSDPA** (High Speed Downlink Packet Access), which could be described as a **Super UMTS** which allows mobile broad band access at speeds of up to **4 Megabit** per second. It will therefore be possible to access multi-media content like films, music and sport, and to

download images of a much higher quality than those normally available through traditional UMTS.

The service will be launched in **Rome, Milan and Turin** and will be gradually extended to other major Italian cities.

In 2006, with an investment of **60 to 70 million euro**, **5,000 UMTS based stations will be enhanced with HSDPA technology**, with the goal of covering approximately **50% of the country** by the end of the year.

At present, the service is being tested in cooperation with the major network suppliers: in Rome and Milan with Ericsson, in Bologna with Nokia and in the Veneto region with Siemens.

The test phase of **Super UMTS** will involve a number of companies that TIM has begun to supply with cards for personal computers equipped with the new technology.

As for **Digital Mobile TV**, in June Tim will move from the test phase, which has already been announced, to commercial distribution. As soon as the key mobile phone makers make the new handsets available, Tim will supply mobile services using **DVBH** technology which will be transmitted on *dual mode* mobile phones capable of using both the new application and UMTS.

The commercial launch of the new **fixed-mobile** phone, which functions as both home phone and mobile phone, will also take place in June 2006.

This new technology marks the arrival of **UMA** (Unlicensed Mobile Access) technology. The new fixed-mobile phone will use the fixed-line network inside the home, through a WiFi connection, while outside the home it will operate like a regular mobile phone on the GSM and UMTS networks.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependant on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;
- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage of its fixed and wireless networks to offset declines in its fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally;
- the ability of the Telecom Italia Group to achieve cost-reduction targets in the time frame established or to continue the process of rationalizing its non-core assets;
- the impact of regulatory decisions and changes in the regulatory environment;
- the impact of the slowdown in Latin American economies and the slow recovery of economies generally on the international business of the Telecom Italia Group focused on Latin America and on its foreign investments and capital expenditures;
- the continuing impact of rapid changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;

## Edgar Filing: TELECOM ITALIA S P A - Form 6-K

- the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to continue the implementation of its 2002-2004 Industrial Plan, including the rationalization of its corporate structure and the disposition of Telecom Italia's interests in various companies;
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully roll out its UMTS networks and services and to realize the benefits of its investment in UMTS licenses and related capital expenditures;
- Telecom Italia's ability to successfully implement its internet strategy;
- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made in Latin America and in Europe;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the group will achieve its projected results.
