PRESS RELEASE

**TELECOM ITALIA TO TRANSFER ITS 10.36% STAKE IN OGER TELECOM TO SAUDI OGER FOR
\$477 MILLION**

**This operation, foreseen in the industrial plan, will reduce the Telecom Italia Group's net financial position by
approximately €470 million**

Milan, June 29, 2007 – Telecom Italia signed the agreement for the transfer to Saudi Oger of its 10.36% stake in Oger Telecom, held through TIM International, for a total price of **\$477 million**. The agreement also includes the removal of a Telecom Italia commitment for **\$150 million**.

The operation, which should be completed by the end of July, will result in a reduction of approximately **470 million euro** in the net financial position of Telecom Italia Group and will have a positive impact of **90 million euro** on the profit and loss.

The decision to transfer the Oger Telecom shares, foreseen in the industrial plan announced in March, is part of the Telecom Italia Group's strategic plan to rationalize its portfolio of shares in non-strategic international companies or on a purely financial basis.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependent on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;

- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage to its fixed and wireless networks to offset declines in its traditional fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally and shifts in usage pattern;

- the level of demand for telecommunications services, particularly wireless telecommunication services in the maturing Italian market and for new higher value added products and services such as broadband;

- the ability of the Telecom Italia Group to successfully implement its reorganization;

- the success of Telecom Italia's customer loyalty and retention programs and the impact of such programs on revenues;

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

- the impact of regulatory decisions and changes in the regulatory environment, including implementation of recently adopted EU directives in Italy;
- the impact of economic development generally on the international business of the Telecom Italia Group and on its foreign investments and capital expenditures;
- the continuing impact of rapid or "disruptive" changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
- the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to successfully implement its strategy over the 2007-2009 period;
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully implement its internet and broadband strategy;
- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made and continues to make in Brazil and in Europe on broadband;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Such factors should also be considered together with risk factors included in Telecom Italia Group's Annual Report on Form 20-F for 2005. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the Group will achieve its projected results.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
