If "Yes" is marked, indicate below the file number assigned
to the registrant in connection with Rule 12g3-2(b): 82- _____

PRESS RELEASE

TELECOM ITALIA: COMPANY DAMAGED PARTY, COMMERCIAL RELATIONS WITH THE SUBJECTS UNDER INVESTIGATION ALREADY BROKEN OFF FROM 2007

Milan, 23 February 2010

Telecom Italia has received a request from Consob to issue a press release bearing information regarding the facts relating to the legal measures brought by Preliminary Investigating Magistrate to the Rome Court.

Telecom Italia, which in this incident is the damaged party, has had access to the legal authority's decree which was served to its subsidiary today, from which it appears that an investigation is under way into, amongst others, TI Sparkle, together with numerous individuals, among them some managers, both from TI Sparkle and Telecom Italia, but always in relation to the role that they covered at the subsidiary in the period referred to.

In light of the alleged offences, the Public Prosecutor has asked the Preliminary Investigating Magistrate to prohibit TI Sparkle from all business activity, and to appoint an administrative receiver pursuant to Leg. Decree no. 231/2001, charging the firm with administrative responsibility in relation to international criminal organisation and money laundering. A decision regarding the Public Prosecutor's request shall be taken during the council meeting scheduled for March 2, 2010.

This is a widely known matter and already the subject of internal inquiries and audits. In the notes to the FY 2007 consolidated financial statements Telecom Italia stated that Telecom Italia Sparkle had been the subject of investigations concerning alleged VAT fraud by a supplier operating in "premium" telecommunications services. Besides collaborating with the investigating authorities, as a precautionary measure Telecom Italia Sparkle broke off all commercial relations with the subjects under investigation.

Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward - looking statements. This Press Release contains certain forward -looking statements. Forward-looking statements are statements that are not historical facts and can be identified by the use of forward-looking terminology such as "believes," "may," "is expected to," "will," "will continue," "should," "seeks" or "anticipates" or similar expressions or the negative thereof or other comparable terminology, or by the forward- looking nature of discussions of strategy, plans or intentions.

Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information is based on certain key assumptions which we believe to be reasonable but forward-looking information by its nature involves risks and uncertainties, which are outside our control, that could significantly affect expected results.

The following important factors could cause our actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from established domestic competitors and global and regional alliances formed by other telecommunications operators in our core Italian domestic fixed-line and wireless markets;
- our ability to restructure our organizational model from one based on technology (fixed and mobile) to one based on

customer segments (consumers, SOHOs, SMEs, Corporates) in order to focus on customers and their needs in utilizing our products and services;

- our ability to utilize our relationship with Telefónica to attain synergies primarily in areas such as network, IT, purchasing, sales activities in Germany and international mobile roaming;
- our ability to introduce new services to stimulate increased usage of our fixed and wireless networks to offset declines in the traditional fixed-line voice business due to the continuing impact of regulatory required price reductions, market share loss, pricing pressures generally and shifts in usage patterns;
- our ability to successfully implement our internet and broadband strategy both in Italy and abroad;
- our ability to successfully achieve our debt reduction targets;
- the impact of regulatory decisions and changes in the regulatory environment in Italy and other countries in which we operate;
- the impact of economic development generally on our international business and on our foreign investments and capital expenditures;
- our services are technology-intensive and the development of new technologies could render such services non-competitive;
- the impact of political and economic developments in Italy and other countries in which we operate;
- the impact of fluctuations in currency exchange and interest rates;
- our ability to successfully implement our strategy over the 2009-2011 period;
- our ability to build up our business in adjacent markets (pay-TV and IT services) and in international markets (particularly Brazil in mobile telecommunications and Europe-Germany-in BroadBand), due to our specialist and technical resources;
- our ability to achieve the expected return on the investments and capital expenditures we have made and continue to make in Brazil on mobile and in Europe on BroadBand;
- the amount and timing of any future impairment charges for our licenses, goodwill or other assets; and
- the outcome of litigation, disputes and investigations in which we are involved or may become involved.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof, including, without limitation, changes in our business or acquisition strategy or planned capital expenditures, or to reflect the occurrence of unanticipated events.
