Media Release

Syngenta to adopt new and revised accounting standards

Basel, Switzerland, 18 January 2005

In accordance with changes to IFRS and IAS Syngenta has adopted several new or revised accounting standards. In order to facilitate comparison, the 2004 full year results (to be released on 10 February) will be shown in relation to the adjusted 2003 figures described below and in the attached tables.

- **IFRS 2**

IFRS 2, which relates to share-based compensation, was adopted from 1 January 2004.

- **IAS 21 (Revised December 2003)**

The revised IAS 21 was adopted from 1 January 2004. Unrealized exchange differences on certain inter-company funding are no longer recognized directly in shareholders equity and are now recognized in the income statement.

- **IFRS 3**

IFRS 3, which relates to business combinations, was adopted from 1 January 2005. Goodwill arising on all previous acquisitions, including the Seeds acquisitions completed in 2004, will no longer be amortized. In accordance with IFRS 3, the amortization charged on this goodwill for 2004, 2003 and earlier years has not been revised for this change.

• **IFRS 5**

The divestment of Syngenta's 75% stake in Swiss chemical company SF Chem was completed 1 October 2004. Under IFRS 5, which was adopted in 2004, the results of SF Chem have been re-presented in the adjusted figures to show SF Chem as a discontinued operation from 2003.

• **Royalties**

Royalty income and expense has previously been recognized within general and administrative expenses. Royalty income is now recognized as Sales, and royalty expense is included in Cost of Goods Sold. The 2003 consolidated income statement has been re-presented on the new basis.

• **Reallocation of Trait Development Costs to Seeds**

Following the acquisition of Garst and Golden Harvest, corn and soybean trait development expenditure has been transferred to Seeds, where future revenues will be realized; these costs have been reallocated from Plant Science to Seeds with retrospective effect.

Syngenta is a world-leading agribusiness committed to sustainable agriculture through innovative research and technology. The company is a leader in crop protection, and ranks third in the high-value commercial seeds market. Sales in 2003 were approximately \$6.6 billion. Syngenta employs some 19,000 people in over 90 countries. Syngenta is listed on the Swiss stock exchange (SYNN) and in New York (SYT). Further information is available at www.syngenta.com.
