RBS Holdings N.V. – 2012 Interim results  
UNAUDITED 1

## Highlights

---

RBS Holdings N.V. recorded a loss of €1,027 million from continuing operations for the first half of 2012, compared with a loss of €1,456 million in the first half of 2011.

### Key points

- In April 2011, RBSH Group announced its intention to transfer a substantial part of the business activities of RBS N.V. to The Royal Bank of Scotland plc (RBS plc), (the Transfers). As a result, €52.1 billion of assets and €49.6 billion of liabilities have been classified as assets and liabilities of disposal groups as at 30 June 2012, with a corresponding reduction in other captions in the balance sheet.
- Income decreased by 72% to €236 million in the first half of 2012, principally reflecting lower fee and commission income across all the regions as a result of business divestitures as part of the downsizing of selected activities of the wholesale business and the fall in trading income due to the transfer of trading activities to RBS plc. In addition, the tightening of RBSH Group's credit spreads in the first half of 2012 led to an own credit charge of €583 million compared with a charge of €348 million in the first half of 2011.
  - Operating expenses decreased to €980 million from €1,371 million, largely due to a reduction in staff costs reflecting employees transferring to RBS plc in 2011 as part of the Transfers.
- Total impairment losses were €118 million compared with €1,097 million in the first half of 2011. The impairment losses in 2012 related mainly to a small number of single name provisions. The impairment losses in 2011 related mainly to Greek sovereign available-for-sale (AFS) bonds and related interest rate hedge adjustments, reflecting Greece's fiscal difficulties.

## Operating and financial review

---

### General information

RBSH Group is an international banking group offering a wide range of banking products and financial services on a global basis.

In 2007, RFS Holdings B.V. (RFS Holdings), which was jointly owned by RBSG Group, the Dutch State (successor to Fortis N.V. and Fortis SA/N.V.) and Banco Santander S.A. (together the Consortium Members) completed the acquisition of RBS Holdings N.V. RFS Holdings is the sole shareholder of RBS Holdings N.V.

As at 31 December 2010, RBSG's shareholding in RFS Holdings was increased to 97.7%. RFS Holdings is controlled by RBSG, which is incorporated in the UK and registered at 36 St. Andrew Square, Edinburgh, Scotland. RBSG is the ultimate parent company of RBSH Group. The consolidated financial statements of RBSH Group are included in the consolidated financial statements of RBSG Group.

The interim financial statements contained in the interim results have been prepared in accordance with International Accounting Standard 34 'Interim Financial Reporting' (IAS 34).

### Organisational structure

In January 2012, RBSG Group announced changes to its wholesale banking operations in light of a changed market and regulatory environment. The changes resulted in the reorganisation of RBSG Group's wholesale businesses into 'Markets' and 'International Banking' and the exit and downsizing of selected activities. The changes ensure the wholesale businesses continue to deliver against RBSG Group's strategy.

The changes include an exit from cash equities, corporate brokering, equity capital markets and mergers and acquisitions businesses. Significant reductions in balance sheet, funding requirements and cost base in the remaining wholesale businesses will be implemented.

An inevitable consequence of these changes is the need for a smaller workforce. To return to sustainable profitability, the businesses within the core bank need to be improved against a backdrop of challenging market conditions and a tougher regulatory environment. In parallel with the reshaping of its wholesale banking business, RBSH Group has been looking at its support infrastructure in order to achieve an optimal operating set-up and cost base. This review has led to a decision to reduce the number of roles in the Netherlands by approximately 500 FTEs. RBSH Group will, of course, do everything it can to support redundant employees find new jobs, either within or outside RBSG Group. The implementation of these reductions will take place by the end of 2013.

Additionally, as part of the Transfers (described on pages 6 and 7), employees working for RBSH Group in the Netherlands will transfer with the businesses transferring to RBS plc Netherlands Branch. There will be no change in their terms and conditions of employment as a result of this transfer.

The restructure has no impact on RBSH Group's clients as it remains committed to the reshaped wholesale banking proposition, delivering market-leading debt financing, risk management, foreign exchange, rates and transaction services, supported by RBSH Group's extensive international network.

Organisational structure (continued)

Global Banking & Markets (GBM) and Global Transaction Services (GTS) divisions have been reorganised as follows:

- The 'Markets' business will maintain its focus on fixed income, with strong positions in debt capital raising, securitisation, risk management, foreign exchange and rates. It serves the corporate and institutional clients of all RBSG Group businesses.
- GBM's corporate banking business combines with the international businesses of the GTS arm into a new 'International Banking' unit and provides clients with a 'one-stop shop' access to RBSG Group's debt financing, risk management and payments services. This international corporate business is self-funded through its stable corporate deposit base.

In consequence, RBSH Group now comprises the following segments:

- Markets
- International Banking
- Central Items
- Non-Core

Comparative data has been restated to reflect the new segments.

In addition, as a consequence of the Transfers (as described below) and the reduced size of RBSH Group's balance sheet the following previously disclosed geographical segments: 'Other Europe', 'Americas' & 'Asia/Pacific' have been combined into a new region 'Rest of World'. Comparative data has been restated accordingly.

Transfers of a substantial part of the business activities of RBS N.V. to RBS plc

On 19 April 2011, the Boards of RBSG, RBS plc, RBS Holdings N.V. and RBS N.V. announced their intention to transfer a substantial part of the business activities of RBS N.V. to RBS plc (the Transfers), subject, amongst other matters, to regulatory and other approvals, and employee consultation procedures. The Transfers are consistent with RBSG Group's efforts to simplify its structure, thereby reducing risk, cost and complexity. It will streamline the manner in which the businesses within RBSH Group's Markets & International Banking (M&IB) Divisions interact with clients but will not result in any change to the current business strategy for any of the transferred RBS N.V. businesses and the way in which RBSH Group commercially operates will remain unchanged. It is expected that the Transfers will be implemented on a phased basis over a period ending 31 December 2013.

The transfer of eligible business carried out in the UK, including certain securities issued by RBS N.V. was completed during the last quarter of 2011 (the UK Transfer). A large portion of the transfer was conducted through a banking business transfer scheme under Part VII of the UK Financial Services and Markets Act 2000 on 17 October 2011. Other eligible business that could not be included in the scheme was transferred via novations or market mechanisms and UK subsidiaries of RBS N.V. were sold to RBS plc.

Since the 2011 year end, assets and liabilities largely relating to businesses in Singapore, Hong Kong and Kazakhstan were transferred to RBS plc by a combination of local schemes of arrangement, novations and subsidiary share sales.

Transfers of a substantial part of the business activities of RBS N.V. to RBS plc (continued)

The transfers described below are classified as assets and liabilities of disposal groups as at 30 June 2012, collectively named (June 2012 Transfers). They are expected to take place within a year of the balance sheet date.

On 8 August 2012 the Court of Session in Scotland approved the planned transfer of eligible RBS N.V. businesses in the Netherlands and certain EMEA countries to RBS plc on 10 September 2012. The transfer remains subject to further regulatory approvals. The transfers will be executed by way of a Dutch statutory demerger (the Demerger) from RBS N.V. into RBS II B.V. (the acquiring company); then onto RBS plc by way of a cross-border merger from RBS II B.V. into RBS plc (the Merger, and together with the Demerger, the Dutch Scheme), after which RBS II B.V. will cease to exist.

Other eligible businesses in the Netherlands and certain EMEA countries, as well as businesses in North America, are expected to be transferred via novations or market mechanisms and subsidiary share sales.

Also included in the June 2012 Transfers, are transfers of the Chinese, Korean, Malaysian, Indonesian and Russian subsidiaries of RBS N.V. These subsidiary transfers will be by way of share sales, subject to regulatory and other approvals and further analysis.

For further details of the assets and liabilities held for disposal as at 30 June 2012 see Note 8 on pages 29 to 30.

As announced on 19 April 2011, RBSG Group is committed to providing the necessary support to ensure that RBS N.V. continues to meet its commitments during and after the Transfers.

EC remedy

On 26 November 2009, RBSG entered into a State Aid Commitment Deed with HM Treasury of the UK Government, containing commitments and undertakings given by RBSG to HM Treasury that are designed to ensure that HM Treasury is able to comply with the commitments given by it to the European Commission for the purpose of obtaining approval for the State aid provided to RBSG. As part of these commitments, RBSG agreed that RBS Holdings N.V. will not pay investors any coupons on, or exercise any call rights in relation to, the hybrid capital instruments issued by RBS N.V. listed below, unless in any such case there is a legal obligation to do so, for an effective period of two years. RBSH Group is also subject to restrictions on the exercise of call rights in relation to its other hybrid capital instruments.

5.90% Non-cumulative Guaranteed Trust Preferred Securities of RBS Capital Funding Trust V (formerly ABN AMRO Capital Funding Trust V) (US74928K2087)

- 6.25% Non-cumulative Guaranteed Trust Preferred Securities of RBS Capital Funding Trust VI (formerly ABN AMRO Capital Funding Trust VI) (US74928M2044)
- 6.08% Non-cumulative Guaranteed Trust Preferred Securities of RBS Capital Funding Trust VII (formerly ABN AMRO Capital Funding Trust VII) (US74928P2074)

The two-year distribution restriction period in relation to the hybrid capital instruments started on 1 April 2011.

## Operating loss

Operating loss before tax was €862 million compared with a loss of €1,639 million in the first half of 2011. Operating loss before tax, excluding the own credit charge of €583 million was €279 million compared with a loss of €1,291 million in the first half of 2011, excluding the own credit charge of €348 million.

## Total income

Total income decreased by 72% to €236 million from €829 million in the first half of 2011.

Net interest income increased by 15% to €368 million from €321 million in the first half of 2011. This was mainly due to reduced funding costs following business transfers to RBS plc. This was partially offset by the impact of the current low interest rate environment across the regions and as a result of business divestitures in Asia as part of the downsizing of selected activities of the wholesale business.

Non-interest (loss)/income decreased to a loss of €132 million from a gain of €508 million in the first half of 2011. This was largely related to a fall in fee and commission income across all regions with the major decrease in Asia as a result of business divestitures as part of the downsizing of selected activities of the wholesale business. Non-interest income was also impacted by lower income from trading activities in the UK due to the transfer of trading activities to

RBS plc. The tightening of credit spreads in the first half of 2012 led to an own credit charge of €583 million compared with a charge of €348 million in the first half of 2011.

Operating expenses decreased by 29% to €980 million from €1,371 million in the first half of 2011. This decrease was largely due to a reduction in staff costs resulting from employees transferring to RBS plc and business divestitures.

Impairment losses

Impairment losses were €118 million compared with €1,097 million in the first half of 2011. Impairment losses in 2012 related mainly to a small number of specific provisions. Impairment losses in 2011 related mainly to Greek sovereign AFS bonds and related interest rate hedge adjustments, reflecting Greece's fiscal difficulties.

Profit from discontinued operations

Profit from discontinued operations was €11 million compared with €22 million in the first half of 2011. This profit relates to the remaining Dutch State acquired businesses held within RBS Holdings N.V.

Capital and capital ratios

Capital ratios at 30 June 2012 were 8.5% (Core Tier 1), 11.7% (Tier 1) and 17.3% (Total).

Operating loss before tax	(544)	(357)

## Key points

- Operating loss before tax was €544 million compared with a loss of €357 million in the first half of 2011. Operating loss before tax, excluding the own credit charge of €399 million was €145 million compared with a profit of €55 million in the first half of 2011, excluding the own credit charge of €412 million.
- Net interest income increased to €94 million from €28 million in the first half of 2011 reflecting reduced funding costs following business transfers to RBS plc. This was partly offset by a decrease in net interest income in Asia as a result of business divestitures as part of the downsizing of selected activities of the wholesale business.
- Non-interest income in aggregate was a loss of €138 million compared with income of €328 million in the first half of 2011. This largely relates to lower fee and commission income earned in Asia as a result of business divestitures and lower trading income due to the transfer of trading activities to RBS plc.
- Operating expenses decreased by 35% to €465 million from €710 million in the first half of 2011 reflecting a reduction in staff costs resulting mainly from employees transferring to RBS plc and business divestitures in Asia.
- Impairment losses, which related to a small number of specific provisions, were €35 million compared with €3 million in the first half of 2011.

## Key points

- Operating profit before tax was €28 million compared with a loss of €39 million in the first half of 2011.
- Net interest income decreased by 20% to €185 million from €230 million in the first half of 2011 reflecting business transfers to RBS plc and the impact of the current low interest rate environment.
- Non-interest income increased by 6% to €242 million from €228 million in the first half of 2011. This was due to higher transactional exchange rate trading income which was partially offset by lower fees and commissions across all regions and specifically in the UK as a result of business transfers to RBS plc.
- Operating expenses increased by 7% to €372 million from €347 million in the first half of 2011 reflecting investment in client-facing staff, business improvement initiatives and technology and support infrastructure.
- Impairment losses were €27 million compared with €150 million in the first half of 2011. Impairment losses in 2011 were largely driven by a single name provision.

Operating loss before tax, excluding the own credit charge of €184 million was €47 million compared with a loss of €1,156 million in the first half of 2011, excluding the own credit gain of €64 million.
- Net interest expense decreased by 79% to €18 million from €84 million in the first half of 2011. This is due to reduced funding costs following the business transfers to RBS plc in 2011. Third party funding was replaced by RBSG Group internal funding at more favourable rates.
- Non-interest income in aggregate was a loss of €141 million compared with income of €43 million in the first half of 2011 mainly due to the tightening of credit spreads in the first half of 2012 which led to an own credit charge of €184 million compared with a gain of €64 million in the first half of 2011.
- Operating expenses decreased by 54% to €37 million from €81 million in the first half of 2011. This decrease is largely due to a one-off gain related to a litigation settlement as well as lower staff costs reflecting a decrease in full time equivalent number of employees.
- Impairment losses were €35 million compared with €970 million in the first half of 2011. The impairment losses for both half years relate to Greek sovereign AFS bonds and related interest rate hedge adjustments, reflecting Greece's fiscal difficulties. In the first half of 2012, as part of Private Sector Involvement in the Greek government bail-out, the vast majority of this portfolio was exchanged for Greek sovereign debt and European Financial Stability Facility notes; the Greek sovereign debt received in the exchange was sold.

(1) Funded balance sheet represents total assets less derivatives.

(2) Risk elements in lending (REIL) comprises impaired loans and accruing loans past due 90 days or more as to principal or interest. Impaired loans comprise all loans for which an impairment provision has been established; for collectively assessed loans, impairment loss provisions are not allocated to individual loans and the entire portfolio is included in impaired loans. Loans are classified as accruing loans past due 90 days or more where they are past due 90 days but where no impairment provision is recognised. This category is used for fully collateralised non-revolving credit facilities.

## Key points

- The funded balance sheet decreased by €26.4 billion to €101.1 billion at 30 June 2012, largely as a result of a decrease in debt securities reflecting sales and maturing of government securities, lower loans and advances to customers and transfers of businesses to RBS plc as part of the Transfers in the first half of the year.
- Risk elements in lending as a percentage of gross lending to customers excluding reverse repos increased from 6.8% at 31 December 2011 to 7.2% at 30 June 2012.

Capital ratios	30 June 2012	31 December 2011
Risk-weighted assets	€51,508 m	€58,711 m
Core Tier 1 ratio	8.5%	8.4%
Tier 1 ratio	11.7%	12.0%
Total capital ratio	17.3%	17.5%

## Key point

- The decrease in the Tier 1 ratio reflects the impact on regulatory capital of a revised interpretation of the tax treatment of certain adjustments.

Participation in UK Government's Asset Protection Scheme

On 22 December 2009, RBS N.V. and RBS plc entered into two APS back-to-back contracts, a financial guarantee and a credit default swap arrangement, in relation to the RBS N.V. Covered Assets (the Contracts) to de-risk future earnings. These agreements provide RBS N.V. with 100% protection over a portfolio of covered assets.

The APS back-to-back covered portfolio for the year ended 30 June 2012 was €7.9 billion (31 December 2011 - €10.9 billion), with an average remaining maturity of four years. At 30 June 2012 the carrying value of the prepaid fee for the financial guarantee contract was €259 million (31 December 2011 - €323 million). The net carrying value of the credit derivative was €13 million (liability), (31 December 2011 - €8 million (liability)), which consists of the fair value of the credit derivative of €208 million against collateral of €221 million placed by RBS plc (31 December 2011 - €213 million against €221 million, respectively).

Assets are being transferred from RBS N.V. to RBS plc as a part of the Transfers. Unamortised fees on the APS back-to-back agreement covered assets, which are transferred, will be reimbursed by RBS plc to RBS N.V.; consequently there will be no accelerated amortisation or future profit or loss impact of the APS back-to-back agreement fees paid on transferred assets. The total unamortised fees on related covered assets included in the UK Transfers during the last quarter of 2011 amounted to approximately €99 million. Unamortised fees on covered assets due to transfer under the Dutch Scheme amount to approximately €80 million.

Commentary on condensed consolidated balance sheet

---

Total assets amounted to €113.8 billion at 30 June 2012, a decrease of €32.8 billion since 31 December 2011. The June 2012 Transfers, as discussed on pages 6 and 7, are classified as a disposal group as at 30 June 2012, increasing both asset and liabilities of disposal groups significantly with a corresponding decrease in other balance sheet captions.

Cash and balances at central banks decreased by €11.9 billion compared with 31 December 2011. The decrease is due to the June 2012 Transfers being classified as assets of disposal groups (€16.7 billion). This was partially offset by an increase in cash held at central banks for liquidity purposes.

Loans and advances to banks decreased by €17.7 billion compared with 31 December 2011, largely as a result of a decline in bank placings and as a result of the June 2012 Transfers being classified as assets of disposal groups (€5.6 billion).

Loans and advances to customers decreased by €21.2 billion compared with 31 December 2011, due to the June 2012 Transfers being classified as assets of disposal groups (€17.5 billion) and the sale of businesses in Singapore and Hong Kong to RBS plc.

Debt securities decreased by €15.0 billion compared with 31 December 2011 driven by a reduction in holdings of Eurozone government and financial institution bonds (€9.8 billion), the June 2012 Transfers being classified as assets of disposal groups (€4.3 billion) and the sale of businesses in Singapore and Hong Kong to RBS plc (€1.0 billion).

Equity shares decreased by €2.0 billion compared with 31 December 2011 due to the June 2012 Transfers being classified as assets of disposal groups (€2.1 billion).

Derivative assets and liabilities decreased by €6.4 billion and €7.4 billion respectively, compared with 31 December 2011, largely as a result of the June 2012 Transfers being classified as assets (€3.6 billion) and liabilities (€4.1 billion) of disposal groups.

Deposits by banks decreased by €21.1 billion to €25.4 billion at 30 June 2012, mainly due to the June 2012 Transfers being classified as liabilities of disposal groups (€8.6 billion). In addition the decrease is due to the downsizing of the fiduciary business in Markets and planned reductions in funding from RBS plc. This was partially offset by an increase in funding provided by the European Central Bank's Long Term Refinancing Operation (LTRO).

Customer accounts decreased by €35.0 billion compared with 31 December 2011, mainly due to the June 2012 Transfers being classified as liabilities of disposal groups (€26.2 billion) and the transfer of balances to RBS plc in relation to the sale of businesses in Singapore and Hong Kong, in the first half of the year.

Debt securities in issue fell by €10.1 billion to €7.6 billion at 30 June 2012, largely as a result of the June 2012 Transfers being classified as assets of disposal groups (€8.1 billion) and a decrease in notes and commercial paper outstanding reflecting positions maturing.

Settlement balances and short positions decreased by €2.8 billion to €0.6 billion compared with 31 December 2011 largely reflecting the transfer of balances to RBS plc.

Notes to the condensed consolidated financial statements

---

1. Basis of preparation

RBS Holdings N.V.'s condensed consolidated financial statements for the half year ended 30 June 2012 are prepared in accordance with International Accounting Standard 34: 'Interim Financial Reporting' (IAS 34).

The condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the RBS Holdings N.V.'s audited financial statements, as part of the 2011 Annual Report and Accounts.

The condensed consolidated financial statements are unaudited. In the opinion of management, all relevant disclosures necessary for an understanding of the changes in financial position and performance of RBS Holdings N.V. since the end of the last annual reporting period have been made.

The condensed consolidated financial statements are presented in euros, which is the functional and presentation currency of RBS Holdings N.V., rounded to the nearest million.

2. Accounting policies

The annual accounts are prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board (IASB) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) of the IASB, as adopted by the European Union (EU) (together IFRS). There have been no significant changes to RBSH Group's principal accounting policies as set out on pages 113 to 124 of the 2011 Annual Report and Accounts.

Recent developments in IFRS

In May 2012, the IASB issued Annual Improvements 2009-2011 Cycle which clarified:

- the requirements for comparative information in IAS 1 Presentation of Financial Statements and IAS 34 Interim Financial Reporting;
- the classification of servicing equipment in IAS 16 Property, Plant and Equipment;
- the accounting for the tax effect of distributions to holders of equity instruments in IAS 32 Financial Instruments: Presentation;
- and the requirement to disclose segmental net assets in IAS 34.

None of the amendments are effective before 1 January 2013. Earlier application is permitted. RBSH Group is reviewing the amendments to determine their effect, if any, on RBSH Group's financial reporting.

## Notes to the condensed consolidated financial statements (continued)

## 3. Loan impairment provisions

Operating loss is stated after charging loan impairment losses of €104 million (year ended 31 December 2011 - €360 million). The balance sheet loan impairment provisions decreased in the half year ended 30 June 2012 from €1,572 million to €602 million and the movements thereon were:

	First half 2012 €m	Full year 2011 €m
At beginning of period	1,572	1,572
Transfer to disposal groups	(749)	-
Currency translation and other adjustments	38	68

Amounts written-off	(290)	(397)
Recoveries of amounts previously written-off	5	22
Charge to the income statement	104	360
Unwind of discount	(3)	(8)
At end of period	602	1,572

The provision for impairment losses at 30 June 2012 includes nil (31 December 2011 - €45 million) relating to loans and advances to banks.

Impairment losses charged to the income statement comprise:

	First half 2012 €m	First half 2011 €m
Loan impairment losses	(104)	(161)
Recoveries under APS back-to-back agreement	21	34
Impairment losses on securities	(35)	(970)
Impairment losses	(118)	(1,097)

## Impairment losses on securities

The impairment losses on securities relate to Greek sovereign AFS bonds and related interest rate hedge adjustments, reflecting Greece's fiscal difficulties. Cumulative unrealised losses within the AFS reserve related to these bonds are recycled to profit and loss as an impairment charge. See page 41 for additional information on the AFS positions within RBSH Group.

## Notes to the condensed consolidated financial statements (continued)

## 4. Taxation

The actual tax (charge)/credit differs from the expected tax (charge)/credit computed by applying the standard Dutch corporation tax rate of 25% as follows:

	First half 2012 €m	First half 2011 €m
Loss before tax	(862)	(1,639)
Expected tax credit	191	410
Non-deductible items	(14)	(3)
Non-taxable items	13	6
Foreign profits taxed at other rates	(2)	9
Reduction in deferred tax assets following change in the rate of UK corporation tax	-	(21)
Derecognition of deferred tax asset in respect of losses from prior periods (1)	(193)	-
Losses in period where no deferred tax asset recognised	(119)	(301)
Losses brought forward and utilised	10	13
Adjustments in respect of prior periods	(51)	70
Actual tax (charge)/credit	(165)	183

Note:

(1) Largely relating to the derecognition of deferred tax assets in respect of losses in Australia.

## 5. Segmental analysis

In January 2012, RBSG Group announced the reorganisation of its wholesale businesses into 'Markets' and 'International Banking'. RBSH group divisional results have been presented based on the new organisational structure. Refer to 'Organisational structure' on pages 5 and 6 for further details. Comparatives have been restated accordingly. Total revenue, operating (loss)/profit before tax and total assets by division are shown in the tables below.

8. Assets and liabilities of disposal groups

As at 30 June 2012 the assets and liabilities of disposal groups represented balances of a number of businesses in the Asian and EMEA regions in the Non-Core Segment and within Markets in the Latin American region and remaining Private Equity portfolios within the Non-Core segment, as well as the remaining Dutch State acquired businesses. In addition, they include the June 2012 Transfers, as defined on page 7.

Part of the June 2012 Transfers, relating to eligible RBS N.V. businesses in the Netherlands and certain EMEA countries, are expected to take place on 10 September 2012. The transfers will be executed by way of the 'Dutch Scheme', see pages 6 and 7 for further details. Other eligible business in the Netherlands and certain EMEA countries will transfer via novations or market mechanisms and subsidiary share sales. The businesses in the Netherlands and certain EMEA countries relate mainly to the Markets and International Banking businesses, including the Transaction Services business and a substantial number of loans. The Markets business includes most Dutch, German and Italian law governed securitised products and a number of over the counter transactions (OTCs).

Also included in the June 2012 Transfers are the transfers of North American assets and liabilities and the subsidiaries of RBS N.V. located in China, Malaysia, South Korea, Indonesia and Russia. These transfers are due to take place within a year of the balance sheet date and will be transferred by novations, market mechanisms or share sales; subject to further analysis and required regulatory and other approvals. These businesses relate to the Markets and International Banking segments. The business located in North America is largely business focusing on deposit and money markets and the businesses in Asia relate to emerging markets and transaction services.

None of the transfers described above represent a separate major line of business or geographical region, their results for the period are not presented as results from discontinued operations.

As at 31 December 2011 the assets and liabilities of disposal groups represented balances of a number of businesses in the Asian, EMEA and Latin American regions and remaining Private Equity portfolios within the Non-Core segment, as well as the remaining Dutch State acquired businesses. In addition, they included assets and liabilities relating largely to businesses in Singapore, Australia and Kazakhstan, which were transferred to RBS plc during the first half of 2012.

Additional contingent liabilities arise in the normal course of RBSH Group's business. It is not anticipated that any material loss will arise from these transactions.

## 10. Litigation, investigations and reviews

The RBSG Group and certain RBSG Group members are party to legal proceedings, investigations and regulatory matters in the Netherlands, the United Kingdom, the United States and other jurisdictions, arising out of their normal business operations. All such matters are periodically reassessed with the assistance of external professional advisers, where appropriate, to determine the likelihood of RBSH Group incurring a liability. RBSH Group recognises a provision for a liability in relation to these matters when it is probable that an outflow of economic benefits will be required to settle an obligation which has arisen as a result of past events, and for which a reliable estimate can be made of the amount of the obligation.

In many proceedings, it is not possible to determine whether any loss is probable or to estimate the amount of any loss. Numerous legal and factual issues may need to be resolved, including through potentially lengthy discovery and determination of important factual matters, and by addressing novel or unsettled legal questions relevant to the proceedings in question, before a liability can be reasonably estimated for any claim. RBSH Group cannot predict if, how, or when such claims will be resolved or what the eventual settlement, fine, penalty or other relief, if any, may be, particularly for claims that are at an early stage in their development or where claimants seek substantial or indeterminate damages.

While the outcome of the legal proceedings, investigations and regulatory matters in which RBSH Group is involved is inherently uncertain, management believes that, based on the information available to it, appropriate provisions have been made in respect of legal proceedings, investigations and regulatory matters as at 30 June 2012.

Other than as set out in these sections entitled 'Litigation' and 'Investigations and reviews', no member of RBSH Group is or has been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which RBS Holdings N.V. or RBS N.V. is aware) during the 12 months prior to the date

of this document which may have, or have had in the recent past, significant effects on the financial position or profitability of RBS Holdings N.V, RBS N.V. and/or RBSH Group taken as a whole.

10. Litigation, investigations and reviews (continued)

In each of the material legal proceedings, investigations and reviews described below, unless specifically noted otherwise, it is not possible to reliably estimate with any certainty the liability, if any, or the effect these proceedings, investigations and reviews, and any related developments, may have on RBSH Group. However, in the event that any such matters were resolved against RBSH Group, these matters could, individually or in the aggregate, have a material adverse effect on RBSH Group's consolidated net assets, operating results or cash flows in any particular period.

Litigation

Madoff

In December 2010, Irving Picard, as Trustee for the bankruptcy estates of Bernard L. Madoff and Bernard L. Madoff Investment Securities LLC filed a claim against RBS N.V. for approximately US\$271 million. This is a clawback action similar to claims filed against six other institutions in December 2010. RBS N.V. (or its subsidiaries) invested in Madoff funds through feeder funds. The Trustee alleges that RBS N.V. received US\$71 million in redemptions from the feeder funds and US\$200 million from its swap counterparties while RBS N.V. 'knew or should have known of Madoff's possible fraud.' The Trustee alleges that those transfers were preferences or fraudulent conveyances under the US bankruptcy code and New York law and he asserts the purported right to claw them back for the benefit of Madoff's estate. A further claim, for US\$21.8 million, was filed in October 2011. RBSH Group considers that it has substantial and credible legal and factual defences to these claims and intends to defend itself vigorously.

London Interbank Offered Rate (LIBOR)

Certain members of RBSG Group have been named as defendants in a number of class actions and individual claims filed in the US with respect to the setting of LIBOR. The complaints are substantially similar and allege that certain members of RBSG Group and other panel banks individually and collectively violated US commodities and antitrust laws and state common law by manipulating LIBOR and prices of LIBOR-based derivatives in various markets through various means. RBSG Group considers that it has substantial and credible legal and factual defences to these and prospective claims. It is possible that further claims may be threatened or brought in the US or elsewhere relating to the setting of interest rates or interest rate-related trading.

World Online

In November 2009, the Supreme Court in the Netherlands gave a declaratory judgment against World Online International N.V. (World Online), Goldman Sachs International and ABN AMRO Bank N.V. (now known as RBS N.V.) in relation to claims arising out of the World Online initial public offering of 2000. It held that these defendants had committed certain wrongful acts in connection with the initial public offering. The judgment did not establish liability or the amount of any loss. The defendant banks have paid settlement sums to certain investors and are in discussions regarding claims of other investors, including a potential new claim brought to RBSH Group's attention in December 2011 on behalf of a group of individuals linked to a company acquired by World Online in 2000. RBSH Group does not believe that such settlements or any final liability or loss will have a significant effect on RBSH Group's financial position or profitability.

10. Litigation, investigations and reviews (continued)

Summary of other disputes, legal proceedings and litigation

In addition to the matters described above, members of RBSH Group are engaged in other legal proceedings in the Netherlands and a number of overseas jurisdictions, including the United Kingdom and the United States, involving claims by and against them arising in the ordinary course of business. RBSH Group has reviewed these other actual, threatened and known potential claims and proceedings and, after consulting with its legal advisers, does not expect that the outcome of any of these other claims and proceedings will have a significant effect on RBSH Group's consolidated net assets, operating results or cash flows in any particular period.

Investigations and reviews

RBSH Group's businesses and financial condition can be affected by the fiscal or other policies and actions of various governmental and regulatory authorities in the Netherlands, the United Kingdom, the European Union, the United States and elsewhere. RBSH Group has engaged, and will continue to engage, in discussions with relevant governmental and regulatory authorities, including in the Netherlands, the United Kingdom and the United States, on an ongoing and regular basis regarding operational, systems and control evaluations and issues including those related to compliance with applicable anti-bribery, anti-money laundering and sanctions regimes. It is possible that any matters discussed or identified may result in investigatory or other action being taken by governmental and regulatory authorities, increased costs being incurred by RBSH Group, remediation of systems and controls, public or private censure, restriction of RBSH Group's business activities or fines. Any of these events or circumstances could have a significant effect on RBSH Group, its business, authorisations and licences, reputation, results of operations or the price of securities issued by it.

Political and regulatory scrutiny of the operation of retail banking and consumer credit industries in the Netherlands, the United Kingdom, the European Union, the United States and elsewhere continues. The nature and impact of future changes in policies and regulatory action are not predictable and are beyond RBSH Group's control but could have a significant effect on RBSH Group's consolidated net assets, operating results or cash flows in any particular period.

RBSH Group is cooperating fully with the investigations and reviews described below.

LIBOR

RBSG Group continues to co-operate fully with investigations by various governmental and regulatory authorities into its submissions, communications and procedures relating to the setting of LIBOR and other interest rates. RBSG is also under investigation by competition authorities in a number of jurisdictions.

The relevant authorities so far as RBSH Group is concerned include the European Commission, De Nederlandsche Bank and the Canadian Competition Bureau. It is not possible to reliably measure what effect these investigations, any regulatory findings and any related developments may have on RBSH Group, including the timing and amount of fines or settlements.

10. Litigation, investigations and reviews (continued)

Other Investigations

The Federal Reserve and state banking supervisors have been reviewing RBSG Group's US operations and RBSG and its subsidiaries have been required to make improvements with respect to various matters, including enterprise-wide governance, US Bank Secrecy Act and anti-money laundering compliance, risk management and asset quality. RBSG Group is in the process of implementing measures for matters identified to date.

On 27 July 2011, RBSG Group consented to the issuance of a Cease and Desist Order (the Order) setting forth measures required to address deficiencies related to governance, risk management and compliance systems and controls identified by the Federal Reserve and state banking supervisors during examinations of RBS plc and RBS N.V. branches in 2010. The Order requires RBSG Group to strengthen its US corporate governance structure, to develop an enterprise-wide risk management programme, and to develop and enhance its programmes to ensure compliance with US law, particularly the US Bank Secrecy Act and anti-money laundering laws, rules and regulations. RBSG Group has established a strategic and remedial programme of change to address the identified concerns and is committed to working closely with the US bank regulators to implement the remedial measures required by the Order.

RBSG Group's operations include businesses outside the United States that are responsible for processing US dollar payments. RBSG Group is conducting a review of its policies, procedures and practices in respect of such payments and has initiated discussions with UK and US authorities to discuss its historical compliance with applicable laws and regulations, including US economic sanctions regulations. Although RBSG Group cannot currently determine when the review of its operations will be completed or what the outcome of its discussions with UK and US authorities will be, the investigation costs, remediation required or liability incurred could have a material adverse effect on RBSH Group's consolidated net assets, operating results or cash flows in any particular period.

RBSG Group may become subject to formal and informal supervisory actions and may be required by its US banking supervisors to take further actions and implement additional remedial measures with respect to these and additional matters. Any limitations or conditions placed on RBSG Group's activities in the United States, as well as the terms of any supervisory action applicable to RBSG and its subsidiaries, could have a material adverse effect on RBSH Group's consolidated net assets, operating results or cash flows in any particular period.

In March 2008, RBSG Group was advised by the SEC that it had commenced a non-public, formal investigation relating to RBSG Group's United States sub-prime securities exposures and United States residential mortgage exposures. In December 2010, the SEC contacted RBSG Group and indicated that it would also examine valuations of various RBS N.V. structured products, including collateralised debt obligations. With respect to the latter inquiry, in March 2012, the SEC communicated to RBSG Group that it had completed its investigation and that it did not, as of the date of that communication and based upon the information then in its possession, intend to recommend any enforcement action.

## Credit Risk

## Asset quality by sector and geographical region

Credit risk is the risk of financial loss due to the failure of a customer to meet its obligation to settle outstanding amounts. The quantum and nature of credit risk assumed in RBSH Group's different businesses varies considerably, while the overall credit risk outcome usually exhibits a high degree of correlation with the macroeconomic environment.

## Risk elements in lending, loans and reserves

Risk elements in lending (REIL) comprises impaired loans and accruing loans past due 90 days or more as to principal or interest.

Impaired loans comprise all loans for which an impairment provision has been established; for collectively assessed loans, impairment loss provisions are not allocated to individual loans and the entire portfolio is included in impaired loans.

Loans are classified as accruing loans past due 90 days or more where they are past due 90 days but where no impairment provision is recognised. This category is used for fully collateralised non revolving credit facilities.

## Potential problem loans

Potential problem loans (PPL) are loans for which an impairment event has taken place but no impairment provision is required. This category is used for fully collateralised advances which are not past due 90 days or revolving credit facilities where identification as 90 days overdue is not feasible.

- (2) These amounts include the June 2012 Transfers which are classified as held for disposal as at 30 June 2012. For further details, refer to pages 29 and 30 of this report. This additional financial information has been prepared for illustrative purposes, to show the impact of the June 2012 Transfers on the risk management of RBS Holdings N.V., as at 30 June 2012.

Both REIL and PPL are reported gross and take no account of the value of any security held which could reduce the eventual loss should it occur, nor of any provision marked. Therefore, impaired assets which are highly collateralised, such as mortgages, will have a low coverage ratio of provisions held against the reported impaired balance.

## Key points

- RBS Holdings N.V. holds €25.1 billion of debt securities classified as AFS the majority of which forms part of the liquidity buffer. Of the portfolio, €7.9 billion is Organisation for Economic Co-operation and Development (OECD) countries' central and local government issued debt, comprising mainly of exposures to European issuers (€5.7 billion).
- Further positions in financial investments comprise €14.3 billion of mortgage and other asset-backed securities. Included therein are €6.5 billion residential mortgage-backed securities covered by the Dutch mortgage guarantee scheme and €6.7 billion residential mortgage covered bonds, of which €5.5 billion originated in Spain.
- In the second quarter of 2011, as a result of the deterioration in Greece's fiscal position and the announcement of proposals to restructure Greek government debt, RBSH Group concluded that the Greek sovereign debt was impaired and recorded an impairment loss of €0.9 billion in respect of Greek government bonds. In the first half of 2012, as part of Private Sector Involvement in the Greek government bail-out, the vast majority of this portfolio was exchanged for Greek sovereign debt and European Financial Stability Facility notes; the Greek sovereign debt received in the

exchange was sold.

- Ireland, Italy, Portugal and Spain are facing less acute fiscal difficulties and RBSH Group's sovereign exposures to these countries were not considered impaired at 30 June 2012.

Country Risk

Country risk is the risk of material losses arising from significant country-specific events such as sovereign events (default or restructuring); economic events (contagion of sovereign default to other parts of the economy, cyclical economic shock); political events (transfer or convertibility restrictions and expropriation or nationalisation); and natural disaster or conflict. Such events have the potential to affect elements of RBSH Group's credit portfolio that are directly or indirectly linked to the country in question and can also give rise to market, liquidity, operational and franchise risk related losses.

For an overview of country risk exposures at 31 December 2011, refer to the RBS Holdings N.V.'s Annual Report and Accounts 2011.

Key points

Reported exposures are affected by currency movements. Over the first half of 2012, the euro fell 2.1% against the US dollar and 3.5% against the British pound.

- Balance-sheet and off-balance sheet exposure to most countries declined in the first half of 2012, as RBSH Group maintained a cautious stance and many clients reduced debt levels, and as migrations and novations of exposure from RBSH Group to RBS plc progressed. The reductions were seen in nearly all countries and product categories. For analysis on movements on AFS securities by issuer, refer to previous page.
- Total eurozone (excluding the Netherlands) lending exposure declined by €1.7 billion to €4.6 billion (-27%), derivatives and repos by €1.1 billion to €2.1 billion (-34%) and contingent liabilities and commitments by €0.6 billion to €9.3 billion (-6%).
- Eurozone periphery (Spain, Italy, Ireland, Portugal, Greece, Cyprus) – Lending exposure to Italy decreased by €0.8 billion reflecting maturities in the manufacturing sector. Lending exposure to Greece fell to less than €0.2 billion, a reduction by €0.3 billion partly due to write-offs. Exposure to Cyprus amounted to €0.1 billion at 30 June 2012.
- Eurozone non-periphery – Exposures were reduced in Luxembourg by €1.3 billion (largely maturing derivatives exposure) and Germany by €0.6 billion (mostly lower contingent obligations and commitments).
- Outside the eurozone, lending exposure decreased by €0.6 billion in South Korea and by €0.6 billion in China, largely reflecting migrations and novations to RBS plc.

## Risk and capital management (continued)

## Market Risk

There have been no material changes to market risk in the trading book as disclosed in RBS Holdings N.V.'s Annual Report and Accounts for the year ended 31 December 2011, that may materially affect RBSH Group's business, results of operations, or financial condition. The transfers in the first half of 2012 from RBSH Group to RBS plc, relating to businesses in Hong Kong and Singapore have reduced the RBSH Group trading VaR.

As part of the June 2012 Transfers, as discussed on pages 29 and 30 of this document, the amount of market risk is expected to reduce significantly by 31 December 2012, particularly in relation to exposures from the EMEA countries.

## Funding and liquidity

RBS Holdings N.V.'s liquidity policy is designed to ensure that at all times RBS Holdings N.V. can meet its obligations as they fall due. Liquidity management within RBS Holdings N.V. addresses the overall balance sheet structure and the control, within prudent limits, of risk arising from the mismatch of maturities across the balance sheet and from the exposure to undrawn commitments and other contingent obligations.

## Central Liquidity reserves

The table below shows the breakdown of liquid assets held by RBS Holdings N.V.

	30 June 2012 €m	31 December 2011 €m
Liquidity reserves		
Cash and cash equivalents	15,598	14,346
Central and local government bonds		
- AAA rated governments and US agencies	868	-
- AA- to AA+ rated governments	2,929	-
- Governments rated below AA	686	1,142
- Local government	2,316	5,143
	6,799	6,285
Unencumbered collateral		
- AAA rated	904	3,907
- Below AAA rated and other high quality assets	-	3,536
	904	7,443
Total liquidity portfolio	23,301	28,074

## Key points

- The reduction in central and local government bonds was driven mainly by a reduction in Eurozone government bonds. AAA rated governments and US agencies and AA- to AA+ rated governments bonds in December 2011 were

subject to repurchase transactions with RBS plc.

- The reduction in unencumbered collateral was driven mainly by a reduction in Spanish institutional securities and accessing some funding through the European Central Banks long-term refinancing operation facility.

#### Repo agreements

At 30 June 2012, RBS Holdings N.V. had nil (31 December 2011 - €0.1 billion) of customer secured funding and €4 billion (31 December 2011 - €16.5 billion) of bank secured funding.

### Risk factors

Set out below is a summary of the principal risks and uncertainties facing RBSH Group. The principal risks and uncertainties facing RBSH Group are unchanged from those disclosed on pages 236 to 245 of the RBSH Group Annual Report & Accounts 2011.

### Risks relating to RBSH Group

- RBSH Group is reliant on the RBSG Group.
- RBSH Group's businesses and performance can be negatively affected by actual or perceived global economic and financial market conditions and by other geopolitical risks.
- RBSH Group's ability to meet its obligations including its funding commitments depends on RBSH Group's ability to access sources of liquidity and funding.
- The execution and/or any delay in the execution (or non-completion) of the approved Transfers of a substantial part of the business activities of RBS N.V. to RBS plc may have a material adverse effect on RBSH Group and may also negatively impact the value of securities issued by RBS Holdings and RBS N.V. (the Securities).
- An extensive restructuring and balance sheet reduction programme of the RBSG Group is ongoing and may adversely affect RBSH Group's business, results of operations, financial condition, capital ratios and liquidity and may also negatively impact the value of securities issued by RBS Holdings and RBS N.V.
- As a condition to the RBSG Group receiving HM Treasury support, RBSH Group is prohibited from making discretionary coupon payments on, and exercising call options in relation to, certain of its existing hybrid capital instruments, which may impair RBSH Group's ability to raise new capital through the issuance of Securities.
- The financial performance of RBSH Group has been, and continues to be, materially affected by deteriorations in borrower and counterparty credit quality and further deteriorations could arise due to prevailing economic and market conditions and legal and regulatory developments.
- RBSH Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions.
- Changes in interest rates, foreign exchange rates, credit spreads, bond, equity and commodity prices, basis, volatility and correlation risks and other market factors have significantly affected and will continue to affect RBSH Group's business and results of operations.
- RBSH Group's borrowing costs, its access to the debt capital markets and its liquidity depend significantly on its credit ratings.
- RBSH Group's business performance could be adversely affected if its capital is not managed effectively or as a result of changes to capital adequacy and liquidity requirements.
- RBSH Group is and may be subject to litigation and regulatory investigations that may have a material impact on its business.
- The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may ultimately not turn out to be accurate.
- RBSH Group operates in markets that are highly competitive and its business and results of operations may be adversely affected.
- RBSH Group could fail to attract or retain senior management, which may include members of RBSH Group's Supervisory Board and Managing Board, or other key employees, and it may suffer if it does not maintain good employee relations.

Principal risks and uncertainties (continued)

---

- Each of RBSH Group's businesses is subject to substantial regulation and oversight. Significant regulatory developments, including changes in tax law, could have an adverse effect on how RBSH Group conducts its business and on its results of operations and financial condition.
- RBSH Group may be required to make further contributions to its pension schemes if the value of pension fund assets is not sufficient to cover potential obligations.
- Operational risks are inherent in RBSH Group's businesses.
- RBSH Group's operations have inherent reputational risk.
- The recoverability and regulatory capital treatment of certain deferred tax assets recognised by RBSH Group depends on RBSH Group's ability to generate sufficient future taxable profits and there being no adverse changes to tax legislation, regulatory requirements or accounting standards.
- The legal demerger of ABN AMRO Bank N.V. (as it was then named) has resulted in a cross liability that changes the legal recourse available to investors.

Risks relating to the Asset Protection Scheme and the Contracts.

- The extensive governance, asset management and information requirements under the Scheme Conditions, which RBSH Group is required to comply with, or to ensure that RBS plc can comply with, pursuant to the Contracts may have an adverse impact on RBSH Group and the expected benefits of the APS.
- Any changes to the expected regulatory capital treatment of the Contracts may have a material adverse impact on RBSH Group.

Investors should be aware that the materialisation of any of the above risks may adversely affect the value of any Securities.
