CERTAIN RISK CONSIDERATIONS: The RBS ETNs involve risks not associated with an investment in conventional debt securities, including a possible loss of some or all of your investment. The level of the relevant Index must increase by an amount sufficient to offset the aggregate investor fee applicable to the RBS ETNs in order for you to receive at least the principal amount of your investment back at maturity or upon early repurchase or redemption. The Benchmark Index for the RBS Global Big Pharma ETNs comprises securities of a limited number of companies concentrated in the pharmaceuticals industry, and may not be representative of an investment that provides exposure to the pharmaceutical industry as a whole. The RBS Oil Trendpilot(TM) ETNs and the RBS Oil Trendpilot(TM) Index (USD) do not provide exposure to spot prices of crude oil and, consequently, may not be representative of an investment that provides exposure to crude oil. Each Trendpilot[] Index may underperform its respective Benchmark Index, and is expected to perform poorly in volatile markets. The RBS China Trendpilot[] ETNs involve risks associated with an investment in emerging markets, as well as currency exchange risk. Even though the RBS ETNs are listed on the NYSE Arca, a trading market may not develop and the liquidity of the RBS ETNs may be limited and/or vary over time, as RBS plc is not required to maintain any listing of the RBS ETNs. The RBS ETNs are not principal protected and do not pay interest. Any payment on the RBS ETNs is subject to the ability of the applicable issuer and guarantor to pay their respective obligations when they become due. You should carefully consider whether the RBS ETNs are suited to your particular circumstances before you decide to purchase them. We urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the RBS ETNs.

The RBS ETNs are not suitable for all investors. You should carefully read the relevant pricing supplement and prospectus, including the more detailed explanation of the risks involved in any investment in the RBS ETNs as described in the "Risk Factors" section of the applicable pricing supplement, before investing.
