INDEPENDENT AUDITOR'S REPORT

To the Benefits Committee of the Board of Directors of
the Investment Plan Supplement for Employees and
Field Underwriters of MONY Life Insurance Company:

We have audited the accompanying statements of net assets available for benefits of the INVESTMENT PLAN SUPPLEMENT for EMPLOYEES and FIELD UNDERWRITERS of MONY LIFE INSURANCE COMPANY (the "Plan") as of December 31, 2000 and 1999 and the related statement of changes in net assets available for benefits for the year

Edgar Filing: MONY GROUP INC - Form 11-K

ended December 31, 2000. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2000 and 1999 and the changes in net assets available for benefits for the year ended December 31, 2000, in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2000 and series of reportable transactions for the year ended December 31, 2000 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

INVESTMENT PLAN SUPPLEMENT for EMPLOYEES and FIELD UNDERWRITERS of MONY LIFE INSURANCE COMPANY

NOTES to FINANCIAL STATEMENTS As of December 31, 2000 and 1999

1. Description of the Plan:

The following description is provided for general information purposes only. Participants should refer to the plan document for complete information.

A. General

The Investment Plan Supplement for Employees and Field Underwriters of MONY Life Insurance Company (the "Plan") is a defined-contribution profit-sharing plan, with a 401(k) feature, providing for contributions from the employer, MONY Life Insurance Company ("MONY" or the "Company"), and from participating employees and Field Underwriters. All Plan contributions are placed in the MONY Investment Plan and Retirement Plan Trust (the "Trust").

The assets of the Plan are invested in the following funds administered through the Trust: The Money Market Fund (invested in MONY's Pooled Account No. 4), the Special Equity Fund (invested in the Special Equity Fund subaccount of MONY's Pooled Account No. 10B), the Government Fixed Fund ("GFF", invested in MONY's Pooled Account No. 16), the Public Bond Fund (invested in MONY's Pooled Account No. 38), the Equity Income Fund (invested in MONY's Pooled Account No. 40), and the Guaranteed Interest Contract ("GIC Fund", invested in GICs issued by MONY), and the Managed, International Growth and Growth Funds (all invested in the Enterprise Group of Funds, Inc., a family of mutual funds sponsored by Enterprise Capital Management, Inc., which is a wholly-owned subsidiary of MONY). The Plan's share of the net assets of each of the funds comprising the Trust is determined in proportion to its ownership interest in the outstanding shares of such funds. The accompanying financial statements reflect the Plan's allocated share of the net assets and changes in net assets of the Trust, based on the application of such method.

On April 17, 2000, MONY began offering a Company Stock (the "Common Stock Fund") fund as an investment option. The Common Stock Fund uses "unit" accounting. As a unitized stock fund, the Common Stock Fund holds primarily the MONY Group, Inc. Common Stock and a small percentage of cash and short-term instruments, while members hold units of the Common Stock Fund.

B. Contributions

All Salaried employees and Career Contract Field Underwriters are eligible to participate in the Plan. The Plan has an Internal Revenue Code (the "Code") Section 401(k) feature which allows employees and Field Underwriters to elect to have MONY contribute a percentage of their annual benefits bearing compensation to the Plan on the employee's behalf on a pre-tax basis. Participants may elect to defer up to 13% of annual benefits bearing compensation. The Plan provides that the total contribution by MONY in any one calendar year cannot exceed 5% of its prior year's income from operations before dividends to policyholders and federal income taxes, excluding capital gains and losses. MONY matches 100% of the first 3% of employee contributions and the first 2% of Field Underwriter contributions to the Plan. All MONY matching contributions will be allocated to the Common Stock Fund. For employees/Field Underwriters who choose to direct their contributions to the Common Stock fund, MONY will make an additional .15% match on the first 3% of employee contributions, and the first 2% for Field Underwriters contributions, directed to this fund.

MONY provides a profit-sharing contribution for eligible salaried employees. This contribution ranges from 0% to 6% of each eligible employee's salary. The Board of Directors approves this contribution on the basis of recommendations of the Chairman of The Board of Directors of MONY.

All participant contributions are used to purchase shares in the funds described in (A), as elected by the participant. A Plan participant is entitled to the vested value of accumulated shares credited to the participant's account, including any earnings there from.

Participant share values are reduced by the cost of managing the Plan.

5

INVESTMENT PLAN SUPPLEMENT for EMPLOYEES and FIELD UNDERWRITERS of MONY LIFE INSURANCE COMPANY

NOTES to FINANCIAL STATEMENTS, Continued
As of December 31, 2000 and 1999

For all funds other than the Common Stock Fund, a member may make unlimited transfers. For the Common Stock Fund, member contributions which were credited with matching contributions of 1.15% may not be transferred from the Common Stock Fund until 3 years from the date of the contribution. Company matching contributions are not eligible for transfer from the Common Stock Fund until the later of: (1) members 50th birthday, (2) April 28, 2005, and (3) the 5th anniversary of an employee's employment or re-employment date. Transfers into the Common Stock Fund will be limited to 15% of the members total plan balance as of the date of the requested transfer.

Money transferred from Money Market, Public Bond, GIC's or GFF funds, cannot be transferred back into these funds for 90 days.

Edgar Filing: MONY GROUP INC - Form 11-K

C. Vesting

The Plan describes procedures for withdrawal of accumulated shares by participants during their active service with MONY. Participating employees and Field Underwriters become vested under the following schedule:

Years of Vesting Service -----	Employee -----	Field Underwriter -----
Less than 2 years of service	0%	0%
2 to 3 years of service	25%	0%
3 to 4 years of service	50%	0%
4 to 5 years of service	75%	0%
Over 5 years of service	100%	100%

All shares purchased with MONY contributions are also fully vested upon termination of service for, early, normal or postponed retirement as defined in the Retirement Income Security Plan for Employees of The MONY Life Insurance Company ("RISPE") and upon death while employed by MONY.

D. Disability Benefits

Participants entitled to receive long-term disability benefits under MONY's 1946 Security Plan for Employees are precluded from continuing to make employee contributions to the Plan once the participants are determined to have incurred a total disability.

6

INVESTMENT PLAN SUPPLEMENT for EMPLOYEES and
FIELD UNDERWRITERS of MONY LIFE INSURANCE COMPANY

NOTES to FINANCIAL STATEMENTS, Continued
As of December 31, 2000 and 1999

Field Underwriters continue to have 401k contributions deducted from Career Contract earnings they generated prior to becoming disabled.

E. Loans

The Plan includes a 401(k) loan feature. Participants may generally borrow the lesser of \$50,000 or 50% of their vested account balances contained in their 401(k) account. The Employee Retirement Plan Account (414 (k)) is also included to calculate the amount available, but is excluded from loan depletion. Loans are not to exceed five years, and interest is charged at the prevailing interest rates on secured personal loans. Interest and principal payments are made through periodic payroll deductions.

F. Forfeited Accounts

At December 31, 2000 and 1999, forfeited nonvested accounts totaled \$414,639 and \$144,112, respectively. These accounts will be used to reduce future employer contributions, except as defined in the Plan.

G. Payment of Benefits

Upon termination, retirement or death, a participant or beneficiary

Edgar Filing: MONY GROUP INC - Form 11-K

generally may elect to receive either a lump-sum amount, installment payments or any other optional income arrangement permitted by the Plan, equal to the value of the vested shares allocated to the account. Accumulated shares credited to participants electing a non-installment optional income arrangement are withdrawn from the Plan. The accompanying financial statements include net assets available for active employees currently participating in the Plan and terminated or retired participants who have elected installment payments.

An employee may elect to roll over a lump-sum distribution from RISPE into the Plan.

A Field Underwriter may elect to roll over a lump-sum distribution from the Field Underwriter Retirement Plan into the Plan.

NOTES to FINANCIAL STATEMENTS, Continued
As of December 31, 2000 and 1999

H. Plan Termination

MONY may amend or modify the Plan. Moreover, MONY may terminate the Plan, although it has no present intention of doing so. In the event the Plan is terminated, participants' accounts become fully vested.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in MONY's Pooled Accounts Nos. 4, 10B, 38 and 40, Mutual Funds and MONY's Common Stock Fund are recorded at fair value. Purchases and sales of shares of ownership in these funds are recorded on a trade-date basis. Realized gains and losses on disposition of shares are determined on a first-in/first-out basis.

The Plan's investments in MONY's GIC Fund and the Government Fixed Fund are recorded at fair value, which includes accrued interest.

The Plan presents in the statement of changes in net assets available for

Edgar Filing: MONY GROUP INC - Form 11-K

benefits the net change in the fair value of its investments in MONY's Pooled Accounts, Mutual Funds and Common Stock Fund, which consists of realized gains or losses and the unrealized appreciation or depreciation in the fair value of those investments for the year.

8

INVESTMENT PLAN SUPPLEMENT for EMPLOYEES and FIELD UNDERWRITERS of MONY LIFE INSURANCE COMPANY

NOTES to FINANCIAL STATEMENTS, Continued
As of December 31, 2000 and 1999

Interest income is accrued as earned.

Loans receivable from participants are recorded at unpaid principal balance.

The Plan provides for various investment options in any combination of stocks, bonds, mutual funds, guaranteed interest contracts, and other investment securities, through pooled separate accounts. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

The shares and unit values of the Plan's investments in MONY's Pooled Accounts, MONY's GICs, Mutual Funds, and Common Stock Fund, which represent rounded amounts, reflected above as of December 31, 2000, June 30, 2000 and December 31, 1999, are as follows:

MONY's Pooled Accounts are separate accounts whose assets and liabilities are segregated from the other assets and liabilities of MONY. Management believes these pooled account assets and liabilities will not be affected by liabilities that may arise out of any other business that MONY may conduct.

Pooled Account No. 4, the Money Market Fund, is a separate account primarily invested in commercial paper. Its objectives are to obtain a high level of current income consistent with the preservation of capital and to maintain a quality portfolio of short-term money market instruments.

Pooled Account No. 10B, the Special Equity Fund, is a separate account invested in securities of small-to-medium size market capitalization companies.

Pooled Account No. 16, the Government Fixed Fund, is a separate account that provides for guaranteed rates of return on principal and interest. The fund is invested solely in obligations of the U.S. Government and U.S. Government Agencies, which include Treasury Bonds, Bills, Notes and Agency Obligations.

Pooled Account No. 38, the Public Bond Fund, is a separate account primarily invested in a diversified portfolio of publicly traded corporate bonds, concentrated in investment-grade issues in the four highest major-ranking categories established by Moody's or Standard & Poor's.

INVESTMENT PLAN SUPPLEMENT for EMPLOYEES and

Edgar Filing: MONY GROUP INC - Form 11-K

Pooled Account No. 40, the Equity Income Fund, is a separate account primarily invested in common stock with relatively high current yields. Its objective is to offer above-average current income and the opportunity for capital appreciation.

Guaranteed Interest Contracts are contracts with MONY that provide for guaranteed rates of return on principal invested over specified time periods. The assets supporting these contracts are invested with the general assets of MONY. Loans are not permitted from the GIC Fund or GFF. A market value adjustment may apply if the participant elects a withdrawal or transfer from a GIC Fund or GFF outside an established period. If a withdrawal is elected upon retirement, termination, disability or required minimum distribution, the market value adjustment does not apply.

Managed Fund is a flexible portfolio mutual fund that invests in common stocks, bonds and cash equivalents.

International Growth Fund is a diversified international asset management mutual fund that seeks capital appreciation primarily through a portfolio of non-U.S. equities.

Growth Fund invests in the stocks of companies with long-term earnings potential but which are currently selling at a discount to their estimated long term value. The Fund's equity selection process is generally lower risk than a typical growth stock approach.

Common Stock Fund invests primarily in the MONY Group, Inc. Common Stock and a small percentage of cash and short-term instruments.

3. Estimated Fair Value of Financial Instruments:

The following table represents the carrying amounts and estimated fair values of the Company's financial instruments at December 31, 2000 and December 31, 1999. The calculations of estimated fair values involve considerable judgment. Accordingly, these estimates of fair value are not necessarily indicative of the amounts that could be negotiated in an actual sale.

Managed Fund	25,150,599	42,734,115

The methods and assumptions utilized in estimating these fair values of financial instruments are summarized as follows:

Pooled Accounts, Mutual Funds and Common Stock Fund

Short-term securities other than money market instruments, with 60 days or less to maturity at the time of purchase, are valued at amortized cost, which approximates market. Money market instruments are valued at cost, which approximates market; all other short-term securities are valued at market.

13

INVESTMENT PLAN SUPPLEMENT for EMPLOYEES and
FIELD UNDERWRITERS of MONY LIFE INSURANCE COMPANY

NOTES to FINANCIAL STATEMENTS, Continued
As of December 31, 2000 and 1999

Guaranteed Interest Contracts

The fair values of the Plan's Guaranteed Interest Contracts are estimated by discounting expected cash flows using interest rates currently offered for similar contracts with maturities consistent with those remaining for the contracts being valued, where appropriate.

Common stocks are valued at the closing market prices for securities traded on national securities exchanges, or at the last "bid" prices for "over-the-counter" securities.

Edgar Filing: MONY GROUP INC - Form 11-K

Bonds actively traded on a national securities exchange are valued at the last reported sales prices. Bonds traded "over-the-counter" are valued at the last reported "bid" prices.

Participant Loans

Unpaid principal balances of the loan approximate fair value.

4. Common Stock Fund:

The Common Stock Fund consists of the following as of December 31, 2000:

5. Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated February 9, 1996, that the Plan and related trust are designed in accordance with applicable sections of Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.
