Commission File Number 1-5842

Bowne & Co., Inc.

(Exact name of registrant as specified in its charter)

Delaware

*(State or other jurisdiction of
incorporation or organization)*

55 Water Street

New York, New York

(Address of principal executive offices)

13-2618477

*(I.R.S. Employer
Identification Number)*

10041

(Zip Code)

(212) 924-5500

(Registrant's telephone number, including area code)

Not Applicable

*(Former name, former address and former fiscal year,
if changed since last report)*

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):
Large accelerated filer Accelerated filer Non-accelerated filer

Edgar Filing: BOWNE & CO INC - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes No

The Registrant had 26,691,860 shares of Common Stock outstanding as of November 1, 2007.

BOWNE & CO., INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In thousands, except share information and where noted)

Note 1. Basis of Presentation

The financial information as of September 30, 2007 and for the three and nine month periods ended September 30, 2007 and 2006 has been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, all adjustments (consisting of only normal recurring adjustments) necessary for a fair presentation of the consolidated financial position, results of operations and of cash flows for each period presented have been made on a consistent basis. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These financial statements should be read in conjunction with the Company's annual report on Form 10-K and consolidated financial statements for the year ended December 31, 2006. The Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements reflect discontinued operations as described in more detail in Note 3. Operating results for the three and nine months ended September 30, 2007 may not be indicative of the results that may be expected for the full year.

During the third quarter of 2007, the Company identified a postretirement benefit plan (OPEB) offered to substantially all of the non-union full-time employees in Canada. The costs for these benefits were not accounted for under Statement of Financial Accounting Standard (SFAS) No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions , (SFAS 106), but were instead expensed as incurred based on the premiums paid on behalf of retirees receiving benefits under the plan. The Company has determined that the previously unrecorded accumulated benefit obligation and the incremental expense associated with this benefit plan were not material to the Company's previously issued financial statements.

In order to reflect the cost of the OPEB plan in accordance with SFAS 106, the Company has recorded an immaterial adjustment to its balance sheet as of December 31, 2006 to reflect an increase of \$2,355 in its non-current deferred employee compensation related to this plan. The adjustment also resulted in an increase in non-current deferred tax assets of \$842, a decrease in retained earnings of \$1,310, and an increase in comprehensive loss in stockholders' equity of \$203. In addition, the Company has recorded a pre-tax expense of \$478 (\$275 net of tax) during the third quarter of 2007, which represents the amount of expense that had not previously been recognized in 2005, 2006 and 2007 related to the OPEB plan. The OPEB plan was amended in November 2007 and as such was closed to primarily all employees except for employees currently receiving benefits under this plan or for those employees that meet specific eligibility requirements. As a result of this amendment the benefit obligation related to the OPEB plan was reduced to approximately \$1.4 million during the fourth quarter of 2007. Refer to Note 13 for additional information on the OPEB plan.

Note 2. Acquisition

St Ives Financial

In January 2007, the Company completed its acquisition of St Ives Financial, the financial print division of St Ives plc, for \$8,208 in cash. In February 2007, the Company paid an additional \$1,415 to St Ives plc, which represented a working capital adjustment as defined in the Purchase and Sale Agreement. The net cash outlay for the acquisition was \$9,588, which included acquisition costs of \$321 and was net of cash acquired of \$356. The excess purchase price over identifiable net tangible assets of \$10,867 is reflected as part of goodwill and intangible assets in the Condensed

Consolidated Balance Sheet as of September 30, 2007. A total of \$4,167 has been allocated to goodwill and a total of \$6,700 has been allocated to the value of customer relationships and is being amortized over the estimated useful life of six years. Further refinements to the purchase price allocation are possible. The final purchase price allocation is not expected to have a material effect on the Company's financial statements.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In accordance with Emerging Issues Task Force (EITF) Issue No. 95-03, Recognition of Liabilities in Connection with a Purchase Business Combination (EITF 95-03), the Company accrued \$2,778 as of the acquisition date related to integration costs associated with the acquisition of this business. These costs include estimated severance and lease termination costs related to the elimination of redundant functions and excess facilities and equipment related to St Ives Financial operations. This amount is included in goodwill. As of September 30, 2007, the remaining balance accrued was \$24.

Pro forma financial information related to this acquisition has not been provided, as it is not material to the Company's results of operations.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed as of the date of acquisition:

Cash and cash equivalents	\$ 356
Accounts receivable, net	2,548
Inventory	539
Other current assets	1,061
Total current assets	4,504
Property, plant and equipment, net	1,368
Goodwill	4,167
Intangible assets	6,700
Other noncurrent assets	20
Total assets acquired	16,759
Current liabilities	(4,555)
Noncurrent liabilities	(2,260)
Total liabilities assumed	(6,815)
Net assets acquired	\$ 9,944

Note 3. Discontinued Operations and Assets Held For Sale

During the second quarter of 2006, the Company determined that it intended to sell its DecisionQuest® and its JFS Litigators Noteboo® (JFS) businesses. These businesses along with DecisionQuest Discovery Services, the Company's document scanning and coding business, which was sold in January 2006, were the components of the Company's litigation solutions business. As a result of these actions, effective with the second quarter of 2006, the litigation solutions business was no longer presented as a separate reportable segment of the Company and the results of operations for these businesses were classified as discontinued operations in the Condensed Consolidated Statement of Operations.

As discussed in more detail in Note 3 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006, the Company sold its DecisionQuest business in September 2006, its joint venture investment in CaseSoft, Ltd., (CaseSoft) in May 2006, and its DecisionQuest Discovery Services business in January 2006. As of September 30, 2007, the JFS business remains classified as held for sale.

In addition, the Company also recorded expenses of \$8,218 during the year ended December 31, 2006 related to the estimated costs expected to be incurred in exiting the facilities, which were leased by DecisionQuest and Bowne Business Solutions Inc., the Company's document outsourcing business, which was sold in November 2004. The accrued costs represent the present value of the expected facility costs over the remainder of the lease, net of sublease payments expected to be received. The total amount included in the Condensed Consolidated Balance

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Sheet as of September 30, 2007 and December 31, 2006 related to this liability is \$6,128 and \$8,023, respectively. As of September 30, 2007 and December 31, 2006, \$1,633 and \$1,350, respectively, are included in accrued expenses and other obligations and \$4,495 and \$6,673, respectively, are included in deferred rent.

The assets and liabilities of the JFS business have been reclassified in the Condensed Consolidated Balance Sheet as assets and liabilities held for sale and consist of the following:

	September 30, 2007	December 31, 2006
Cash and cash equivalents	\$ 108	\$
Accounts receivable, net	121	153
Prepaid expenses and other current assets	5	16
Property and equipment, net	8	17
Goodwill and intangible assets, net	2,610	2,610
Total assets held for sale	\$ 2,852	\$ 2,796
Accounts payable and accrued expenses	\$ 584	\$ 683
Total liabilities held for sale	\$ 584	\$ 683

The results of the Company's discontinued litigation solutions business for the three and nine months ended September 30, 2007 consist of the results of the JFS business and adjustments to the accrual for exit costs associated with leased facilities formerly occupied by the discontinued businesses. The results for the three and nine months ended September 30, 2006 consist of the results of (i) JFS business, (ii) the results of the Company's document scanning and coding business until its sale in January 2006, (iii) the results of DecisionQuest until its sale in September 2006 which includes the Company's equity share of income from the joint venture investment in CaseSoft, and (iv) the exit costs associated with leased facilities formerly occupied by discontinued businesses. The results are as follows:

	Three Months Ended September 30, 2007		Nine Months Ended September 30, 2006	
Revenue	\$ 299	\$ 4,033	\$ 983	\$ 16,419
Income (loss) from discontinued operations before income taxes	\$ 9	\$ (16,188)	\$ 109	\$ (19,533)

The Condensed Consolidated Balance Sheets as of September 30, 2007 and December 31, 2006 include approximately \$2,690 and \$3,741, respectively, in accrued expenses and other obligations related primarily to estimated indemnification liabilities associated with the discontinued globalization business, which was sold in September 2005, as described more fully in Note 3 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. The Condensed Consolidated Balance Sheets as of September 30, 2007 and December 31, 2006 also include \$565 and \$1,344, respectively, in accrued expenses and other obligations related primarily to estimated indemnification liabilities associated with Bowne Business Solutions Inc. Income from discontinued operations before income taxes includes adjustments related to the estimated indemnification liabilities associated with the discontinued globalization business of approximately \$640 for the nine months ended September 30, 2007.

Note 4. Marketable Securities

The Company classifies its investments in marketable securities as available-for-sale. Available-for-sale securities are carried at fair value, with the unrealized gains and losses, net of tax, reported as a separate component of stockholders equity. Marketable securities at September 30, 2007 and December 31, 2006 consist primarily of

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

short-term securities including auction rate securities of approximately \$37.3 million and \$42.5 million, respectively. These underlying securities are fixed income securities such as long-term corporate bonds or municipal notes issued with a variable interest rate that is reset every 7, 28 or 35 days via a Dutch auction.

Note 5. Stock Repurchase

In accordance with the existing stock repurchase program, as described more fully in Note 16 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006, the Company repurchased approximately 1.3 million shares of its common stock for approximately \$21.4 million (an average price of \$16.71 per share) during the three months ended September 30, 2007. During the nine months ended September 30, 2007 the Company repurchased approximately 2.4 million shares of its common stock for approximately \$40.1 million (an average price of \$16.37 per share). As of September 30, 2007, there was approximately \$11.6 million available for share repurchases under the stock repurchase authorization. Since the inception of the Company's stock repurchase program in December 2004 through September 30, 2007, the Company has repurchased approximately 12.3 million shares of its common stock for approximately \$185.3 million, an average price of \$15.08 per share.

Note 6. Stock-Based Compensation

In accordance with SFAS No. 123 (revised 2004) Share-Based Payment (SFAS 123(R)), the Company has measured the share-based compensation expense for stock options granted during the nine months ended September 30, 2007 and 2006 based upon the estimated fair value of the award on the date of grant and recognizes the compensation expense over the award's requisite service period. The Company has not granted stock options with market or performance conditions. The weighted-average fair value of stock options granted during the three and nine months ended September 30, 2007 was \$4.54 and \$4.92, respectively. The weighted-average fair value of stock options granted during the three and nine months ended September 30, 2006 was \$4.87 and \$5.13, respectively. The weighted-average fair values were calculated using the Black-Scholes-Merton option pricing model. The following weighted-average assumptions were used to determine the fair value of the stock options granted in 2007 and 2006:

	Three Months Ended September 30, 2007		Nine Months Ended September 30, 2006	
Expected dividend yield	1.3%	1.5%	1.3%	1.5%
Expected stock price volatility	32.0%	35.2%	32.3%	36.0%
Risk-free interest rate	4.1%	4.8%	4.5%	4.8%
Expected life of options	4 years	5 years	4 years	5 years

The Company uses historical data to estimate the expected dividend yield and expected volatility of the Company's stock in determining the fair value of the stock options. The risk-free interest rate is based on the U.S. Treasury yield in effect at the time of grant and the expected life of the options represents the estimated length of time the options are expected to remain outstanding, which is based on the history of exercises and cancellations of past grants made by the Company. In accordance with SFAS 123(R), the Company estimated pre-vesting forfeitures of approximately

12.5% for the options granted during the three and nine months ended September 30, 2007 and 2006, which was based on the historical experience of the vesting and forfeitures of stock options granted in prior years.

The Company recorded compensation expense related to stock options of \$320 and \$925 for the three and nine months ended September 30, 2007, respectively, and \$269 and \$828 for the three and nine months ended September 30, 2006, respectively, which is included in selling and administrative expenses in the Condensed Consolidated Statement of Operations. As of September 30, 2007, there was approximately \$1,335 of total

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

unrecognized compensation cost related to non-vested stock option awards that is expected to be recognized over a weighted-average period of 1.5 years.

Stock Option Plans

The Company maintains four stock incentive plans: a 1992 Plan, a 1997 Plan, a 1999 Plan (which was amended in May 2006) and a 2000 Plan, which are described more fully in Note 17 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. The Company uses treasury shares to satisfy stock option exercises from the 2000 Plan, deferred stock units and restricted stock awards. To the extent treasury shares are not used, shares are issued from the Company's authorized and unissued common shares.

The details of the stock option activity for the nine months ended September 30, 2007 is as follows:

	Number of Options	Weighted- Average Exercise Price	Aggregate Intrinsic Value
Outstanding as of January 1, 2007	3,285,920	\$ 13.95	
Granted	7,709	\$ 15.58	
Exercised	(49,250)	\$ 13.53	
Forfeited	(5,350)	\$ 15.74	
Outstanding as of March 31, 2007	3,239,029	\$ 13.95	
Granted	21,061	\$ 16.89	
Exercised	(672,415)	\$ 13.68	
Forfeited	(6,000)	\$ 17.63	
Outstanding as of June 30, 2007	2,581,675	\$ 14.16	
Granted	6,898	\$ 16.86	
Exercised	(19,100)	\$ 15.45	
Forfeited	(4,550)	\$ 13.51	
Outstanding as of September 30, 2007	2,564,923	\$ 14.15	\$ 7,548
Exercisable as of September 30, 2007	1,893,630	\$ 13.75	\$ 6,478

The total intrinsic value of the options exercised during the three and nine months ended September 30, 2007 was \$82 and \$4,066, respectively, and \$366 and \$2,090 for the three and nine months ended September 30, 2006, respectively. The amount of cash received from the exercise of stock options was \$11,153 and \$11,194 for the nine months ended September 30, 2007 and 2006, respectively. The tax benefit recognized related to compensation expense for stock options amounted to \$7 and \$46 for the three and nine months ended September 30, 2007, respectively, and \$38 and \$119 for the three and nine months ended September 30, 2006, respectively. The actual tax benefit realized for the tax

deductions from stock option exercises was \$24 and \$1,554 for the three and nine months ended September 30, 2007, respectively, and \$136 and \$808 for the three and nine months ended September 30, 2006, respectively. The excess tax benefits related to stock option exercises resulted in cash flows from financing activities of \$656 and \$126 for the nine months ended September 30, 2007 and 2006, respectively.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table summarizes weighted-average option exercise price information as of September 30, 2007:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Number Outstanding	Weighted-Average Remaining Life	Weighted-Average Exercise Price	Number Exercisable	Weighted-Average Exercise Price
\$ 8.84 - \$10.31	195,614	4 years	\$ 9.36	195,614	\$ 9.36
\$10.32 - \$11.99	163,782	3 years	\$ 10.61	163,782	\$ 10.61
\$12.00 - \$14.00	994,944	3 years	\$ 13.26	957,944	\$ 13.24
\$14.01 - \$15.77	909,670	6 years	\$ 15.23	289,336	\$ 15.04
\$15.78 - \$22.50	300,913	1 years	\$ 18.88	286,954	\$ 18.92
	2,564,923	4 years	\$ 14.15	1,893,630	\$ 13.75

The following table summarizes information about nonvested stock option awards as of September 30, 2007:

	Number of Options	Weighted-Average Grant-Date Fair Value
Nonvested stock options as of January 1, 2007	682,500	\$ 4.97
Granted	7,709	\$ 4.23
Vested	(15,500)	\$ 5.26
Forfeited	(3,750)	\$ 4.90
Nonvested stock options as of March 31, 2007	670,959	\$ 4.95
Granted	21,061	\$ 5.30
Vested	(16,875)	\$ 4.23
Forfeited	(1,000)	\$ 3.92
Nonvested stock options as of June 30, 2007	674,145	\$ 4.99
Granted	6,898	\$ 4.54
Vested	(8,500)	\$ 4.87
Forfeited	(1,250)	\$ 4.27
Nonvested stock options as of September 30, 2007	671,293	\$ 4.98

Total compensation expense recognized for stock options that vested during the three and nine months ended September 30, 2007 amounted to \$30 and \$49, respectively. Total compensation expense recognized for stock options that vested during the nine months ended September 30, 2006 amounted to \$57. No stock options vested during the three months ended September 30, 2006.

Deferred Stock Awards

The Company maintains a program for certain key executives and directors that provides for the conversion of a portion of their cash bonuses or directors' fees into deferred stock units. These units are convertible into the Company's common stock on a one-for-one basis, generally at the time of retirement or earlier under certain specific circumstances and are included as shares outstanding in computing the Company's basic and diluted earnings per share. As of September 30, 2007 and December 31, 2006, the amounts included in stockholders' equity for these units were \$4,953 and \$5,196, respectively. As of September 30, 2007 and December 31, 2006, there were 454,148 and 481,216 units outstanding, respectively.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Additionally, the Company has a Deferred Sales Compensation Plan for certain sales personnel. This plan allows a salesperson to defer payment of commissions to a future date. Participants may elect to defer commissions to be paid in either cash, a deferred stock equivalent (the value of which is based upon the value of the Company's common stock), or a combination of cash or deferred stock equivalents. The amounts deferred plus any matching contribution made by the Company, are paid upon retirement, termination or in certain hardship situations. Amounts accrued which the employees participating in the plan have elected to be paid in deferred stock equivalents amounted to \$2,218 and \$2,341 as of September 30, 2007 and December 31, 2006, respectively. In January 2004, the Plan was amended to require that the amounts to be paid in deferred stock equivalents would be paid solely in the Company's common stock. As of September 30, 2007 and December 31, 2006, these amounts are a component of additional paid in capital in stockholders' equity. In the event of a change of control or if the Company's net worth, as defined, falls below \$100 million, then the payment of certain vested employer matching amounts due under the plan may be accelerated. As of September 30, 2007 and December 31, 2006, there were 179,235 and 191,085, respectively, deferred stock equivalents outstanding under this Plan. These awards are included as shares outstanding in computing the Company's basic and diluted earnings per share.

Compensation expense related to deferred stock awards amounted to \$239 and \$777 for the three and nine months ended September 30, 2007, respectively, and \$185 and \$663 for the three and nine months ended September 30, 2006, respectively.

Restricted Stock Awards

In accordance with the 1999 Incentive Compensation Plan, the Company has granted certain senior executives restricted stock awards. The shares have various vesting conditions and are subject to certain terms and restrictions in accordance with the agreements. The fair value of the restricted shares is determined based on the fair value of the Company's stock at the date of grant and is charged to compensation expense over the requisite service periods.

Compensation expense related to restricted stock awards amounted to \$109 and \$326 for the three and nine months ended September 30, 2007, respectively, and \$210 and \$663 for the three and nine months ended September 30, 2006, respectively. As of September 30, 2007 unrecognized compensation expense related to restricted stock grants amounted to \$308, which will be recognized over a weighted-average period of 1.3 years. There were 3,333 shares that vested during the nine months ended September 30, 2007 and there were no shares granted during the nine months ended September 30, 2007. As of September 30, 2007 there were 41,336 unvested shares of restricted stock outstanding with a weighted-average grant date fair value of \$15.13.

Long-Term Equity Incentive Plan and Restricted Stock Units

The Company's Board of Directors approved a Long-Term Equity Incentive Plan (LTEIP) which became effective retroactive to January 1, 2006 upon the approval of the 1999 Amended Incentive Compensation Plan on May 25, 2006. In accordance with the 1999 Amended Incentive Plan, certain officers and key employees can be granted restricted stock units (RSUs) at a target level based on certain criteria. The actual amount of RSUs earned is based on the level of performance achieved relative to established goals for the three-year performance cycle beginning January 1, 2006 through December 31, 2008 and range from 0% to 200% of the target RSUs granted. The performance goal is based on the average return on invested capital (ROIC) for the three-year performance cycle. The LTEIP provides for accelerated payout if the maximum average ROIC performance target is attained within the initial

two-years of the three-year performance cycle. The awards are subject to certain terms and restrictions in accordance with the agreements. The fair value of the RSUs granted is determined based on the fair value of the Company's stock at the date of grant and is being charged to compensation expense for most employees based on the date of grant through the expected payment date, which is expected to be in March 2009. The compensation expense related to these grants for certain officers and employees who are eligible for retirement or will become eligible for retirement during the performance cycle is calculated based on the beginning date of the performance period through the ending date of the performance cycle. Compensation expense for all awards is also based on the

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

estimated level of performance achieved as of the reporting period. The Company estimated pre-vesting forfeitures of approximately 12.5% related to these grants.

The Company granted 5,000 and 20,000 RSUs during the three and nine months ended September 30, 2007, respectively. During the three months ended September 30, 2007 there were 7,500 RSUs forfeited. Compensation expense recognized related to RSUs amounted to \$41 and \$2,347 for the three and nine months ended September 30, 2007, respectively, based upon an estimated performance level through the end of the performance cycle. Compensation expense related to RSUs amounted to \$780 for the three and nine months ended September 30, 2006. The unrecognized compensation expense related to RSU grants amounted to approximately \$4,020, which will be recognized over a weighted-average period of 1.3 years. In March 2007, the Company issued 40,000 shares of common stock to the Company's former Chief Executive Officer who retired as of December 31, 2006. The shares represent the pro rata portion that he was eligible to receive as of his retirement date, in accordance with his LTEIP agreement. Compensation expense related to these shares was recognized during 2006. The total number of unvested RSUs as of September 30, 2007 was 445,000, with a weighted-average grant date fair value of \$13.96 per RSU.

Note 7. Earnings Per Share

Shares used in the calculation of basic earnings per share are based on the weighted-average number of shares outstanding and includes deferred stock units. Shares used in the calculation of diluted earnings per share are based on the weighted-average number of shares outstanding and deferred stock units adjusted for the assumed exercise of all potentially dilutive stock options and other stock-based awards outstanding. Basic and diluted earnings per share are calculated by dividing the net income by the weighted-average number of shares outstanding during each period. The weighted-average diluted shares outstanding for the three months ended September 30, 2007 and 2006 excludes the dilutive effect of 282,626 and 1,012,444 stock options, respectively, since such options have an exercise price in excess of the average market value of the Company's common stock during the respective periods and also excludes 301,225 and 75,961 stock options, respectively, which have an anti-dilutive effect under the application of the treasury stock method. The weighted-average diluted shares outstanding for the nine months ended September 30, 2007 and 2006 excludes the dilutive effect of 354,578 and 804,406 stock options, respectively, since such options have an exercise price in excess of the average market value of the Company's common stock during the respective periods and also excludes 350,893 and 276,421 stock options, respectively, which have an anti-dilutive effect under the application of the treasury stock method.

In accordance with EITF Issue No. 04-08, *The Effect of Contingently Convertible Instruments on Diluted Earnings per Share* the weighted-average diluted shares outstanding for the nine months ended September 30, 2007 includes the effect of 4,058,445 shares that could be issued upon the conversion of the Company's convertible subordinated debentures under certain circumstances, and the numerator used in the calculation of diluted earnings per share was increased by an amount equal to the interest cost, net of tax, on the convertible subordinated debentures of \$1,730 for the nine months ended September 30, 2007, since the effects are dilutive to the earnings per share calculation for this period. The weighted-average diluted shares outstanding for the three months ended September 30, 2007 and 2006, and the nine months ended September 30, 2006 excludes the effect of the 4,058,445 shares that could be issued upon the conversion of the Company's convertible subordinated debentures under certain circumstances, since the effects are anti-dilutive to the earnings per share calculation for that period.

The following table sets forth the basic and diluted average share amounts:

	Three Months Ended September 30,	
	2007	2006
Basic shares	28,309,361	30,375,100
Diluted shares	28,933,486	30,596,113

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

	Nine Months Ended September 30,	
	2007	2006
Basic shares	28,481,427	31,696,588
Diluted shares	33,101,610	32,012,252

Note 8. Inventories

Inventories of \$26,074 as of September 30, 2007 included raw materials of \$6,523 and work-in-process of \$19,551. As of December 31, 2006, inventories of \$25,591 included raw materials of \$6,185 and work-in-process of \$19,406.

Note 9. Goodwill and Intangible Assets

The changes in the carrying amount of goodwill for the nine months ended September 30, 2007 are as follows:

	Financial Communications	Marketing & Business Communications	Total
Balance at January 1, 2007	\$ 16,774	\$ 13,747	\$ 30,521
Goodwill associated with the acquisition of St Ives Financial	4,167		4,167
Foreign currency translation adjustment	613		613
Balance at September 30, 2007	\$ 21,554	\$ 13,747	\$ 35,301

The gross amounts and accumulated amortization of identifiable intangible assets are as follows:

	September 30, 2007		December 31, 2006	
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization
Amortizable intangible assets:				
Customer relationships	\$ 11,790	\$ 1,769	\$ 5,021	\$ 548
Covenants not-to-compete	25	11	25	4
	\$ 11,815	\$ 1,780	\$ 5,046	\$ 552

The increase in customer relationships as of September 30, 2007 is primarily attributable to the allocation of the purchase price related to the acquisition of St Ives Financial as described in more detail in Note 2.

Note 10. Accrued Restructuring, Integration and Asset Impairment Charges

The Company continually reviews its business, manages costs and aligns its resources with market demand especially in light of the volatility of the capital markets and the resulting variability in transactional financial printing activity. As a result, the Company has taken several steps over the past several years to reduce fixed costs, eliminate redundancies and better position the Company to respond to market pressures or unfavorable economic conditions. As a result of these steps, the Company incurred restructuring charges for severance and personnel-related costs related to headcount reductions and costs associated with closing down and consolidating facilities. The Company continued to implement further cost reductions in 2007.

In August 2007, the Company announced a plan to integrate its manufacturing capabilities. The first major step in the execution of the plan is the consolidation of its Milwaukee, Wisconsin digital print facility with the Company's existing print facility in South Bend, Indiana, making it the Company's first fully integrated manufacturing facility, with digital and offset print capabilities. During the three months ended September 30, 2007,

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

the Company recorded approximately \$1.4 million of restructuring expenses related to this consolidation. These costs primarily consist of severance and personnel-related costs associated with the reduction of the workforce at its Milwaukee facility. The Company expects the shutdown of the Milwaukee facility will be completed in the fourth quarter of 2007.

In June 2007, the Company entered into a modification (the Lease Amendment) of its existing lease (the Lease) dated as of February 24, 2005 with New Water Street Corp. (Landlord) for its office facilities at 55 Water Street, New York, New York. Pursuant to the Lease Amendment, which became effective on signing, the leased space under the Lease was reduced by approximately 61,000 square feet (the Terminated Space). In consideration of entering into the Lease Amendment, the Company made a payment to the Landlord of \$2.0 million. In conjunction with the Lease Amendment, the Company entered into an agreement with the successor tenant of the Landlord for the Terminated Space. In consideration of entering into the agreement, the successor tenant paid the Company \$0.8 million to vacate the Terminated Space and for limited rights to use certain of the Company's conference room facilities, which will be charged at the Company's standard rates in effect from time to time. The Company incurred restructuring and non-cash asset impairment charges of approximately \$5.9 million as a result of entering into the Lease Amendment. These charges consist of non-cash asset impairments of approximately \$3.3 million primarily related to the write-off of leasehold improvements associated with the Terminated Space, exit costs of approximately \$1.4 million primarily consisting of broker fees associated with the Lease Amendment, and the \$2.0 million payment to the Landlord reduced by the \$0.8 million received from the successor tenant.

In addition to the charges described above, restructuring, integration and asset impairment charges for the nine months ended September 30, 2007 also included (i) severance and integration costs related to the integration of the St Ives Financial business, (ii) additional company-wide workforce reductions, (iii) facility exit costs and an asset impairment charge related to the consolidation of the Company's former financial communications facility in Philadelphia with the newly acquired Philadelphia facility previously occupied by St Ives Financial and (iv) additional facility exit costs related to the Financial Communications and MBC segments. These actions resulted in restructuring, integration and asset impairment costs totaling \$2,106 for the three months ended September 30, 2007 and \$12,154 for the nine months ended September 30, 2007.

The following information summarizes the costs incurred with respect to restructuring, integration and asset impairment charges during the three and nine months ended September 30, 2007:

	Severance and Personnel- Related Costs	Occupancy Costs	Three Months Ended September 30, 2007		
			Asset Impairments and Other Non-Cash Adjustments	Other	Total
Financial Communications	\$ 351	\$ 168	\$	\$ 233	\$ 752

Edgar Filing: BOWNE & CO INC - Form 10-Q

Marketing & Business Communications	1,235	(110)	50	1,175
Corporate/Other			179	179
Total	\$ 1,586	\$ 58	\$ 462	\$ 2,106

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

	Nine Months Ended September 30, 2007				
	Severance and Personnel- Related Costs	Occupancy Costs	Asset Impairments and Other Non-Cash Adjustments	Other	Total
Financial Communications	\$ 2,164	\$ 3,038	\$ 3,393	\$ 1,011	\$ 9,606
Marketing & Business Communications	1,536	224		427	2,187
Corporate/Other	182			179	361
Total	\$ 3,882	\$ 3,262	\$ 3,393	\$ 1,617	\$ 12,154

The activity pertaining to the Company's accruals related to restructuring charges and integration costs (excluding asset impairments and other non-cash adjustments) since December 31, 2005, including additions and payments made are summarized below:

	Severance and Personnel- Related Costs	Occupancy Costs	Other	Total
Balance at December 31, 2005	\$ 4,023	\$ 4,772	\$	\$ 8,795
2006 expenses	3,598	2,805	5,144	11,547
Paid in 2006	(5,970)	(5,372)	(4,934)	(16,276)
Balance at December 31, 2006	1,651	2,205	210	4,066
2007 expenses	3,882	3,262	1,617	8,761
Paid in 2007	(3,300)	(3,929)	(1,827)	(9,056)
Balance at September 30, 2007	\$ 2,233	\$ 1,538	\$	\$ 3,771

The majority of the remaining accrued severance and personnel-related costs are expected to be paid by the first quarter of 2008.

Note 11. Debt

The components of debt at September 30, 2007 and December 31, 2006 are as follows:

	September 30, 2007	December 31, 2006
Convertible subordinated debentures	\$ 75,000	\$ 75,000
Other	1,926	2,509
	\$ 76,926	\$ 77,509

There were no borrowings outstanding under the \$150 million, five-year senior, unsecured revolving credit facility, which expires in 2010 and is described more fully in Note 11 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. The terms of the revolving credit agreement provide certain limitations on additional indebtedness, liens, restricted payments, asset sales and certain other transactions. Additionally, the Company is subject to certain financial covenants based on its results of operations. The Company was in compliance with all loan covenants as of September 30, 2007 and based upon its current projections, the Company believes it will be in compliance with the quarterly loan covenants for the remainder of fiscal year 2007. The Company is not subject to any financial covenants under the convertible subordinated debentures.

Table of Contents

BOWNE & CO., INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company also has various capital lease obligations which are included in long-term debt.

Note 12. Commitments

Operating Lease

In May 2007, the Company's synthetic lease for printing equipment matured. At the end of the facility term, the Company had the option of purchasing the equipment for the estimated residual value of \$6.3 million. The Company exercised its option to purchase the equipment by refinancing \$4.9 million through a four-year operating lease and purchasing the remaining equipment for \$1.4 million outright. The future minimum operating lease payments associated with the refinanced equipment as of September 30, 2007 are \$0.2 million in 2007, \$0.8 million per year for 2008 through 2010, and \$0.3 million in 2011. The synthetic lease is described more fully in Note 15 of the Notes to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006.

Purchase Commitments

In September 2007, the Company renewed an existing service agreement with a vendor to outsource services which was to expire in 2008. The terms of this new agreement run through 2011 and increase the minimum annual purchase commitments previously disclosed in Note 15 of the Notes to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. The renewal of the existing agreement increased the minimum purchase commitments previously disclosed by \$7,000 in 2009, \$7,500 in 2010 and \$8,000 in 2011.

Note 13. Postretirement Benefits

Pension Plans

In September 2007, the Company amended its defined benefit pension plan (the Plan), which is described in more detail in Note 12 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. The Plan was amended to change the plan to a cash balance plan (the Amended Plan) effective January 1, 2008. The Plan benefits will be frozen effective December 31, 2007 and no further benefits will accrue under the existing benefit calculation. The provisions of the Amended Plan allow for all eligible employees that were previously not able to participate in the Plan to participate in the Amended Plan after the completion of one year of eligible service. Under the Amended Plan, the participants will accrue monthly benefits equal to 3% of their eligible compensation, as defined by the Amended Plan. In addition, each participant account will be credited interest at the 10-year Treasury Rate. The participants accrued benefits will vest over three years of credited service. The Company will continue to contribute an amount necessary to meet the ERISA minimum funding requirements.

The Company also has an unfunded supplemental executive retirement plan (SERP) for certain executive management employees. The SERP is described more fully in Note 12 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. Also, certain non-union international employees are covered by other retirement plans.

As a result of the amendment to the Plan, the Company was required to measure the Plan's funded status and recalculate the benefit obligations as of September 30, 2007.

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The reconciliation of the beginning and ending balances in benefit obligations and fair value of plan assets, as well as the funded status of the Company's plans, is as follows:

	Pension Plan		SERP	
	Nine Months Ended September 30, 2007	Year Ended December 31, 2006	Nine Months Ended September 30, 2007	Year Ended December 31, 2006
Change in Benefit Obligation				
Projected benefit obligation at beginning of year	\$ 137,295	\$ 127,044	\$ 17,433	\$ 23,048
Service cost	4,672	6,628	365	310
Interest cost	6,059	7,533	912	1,150
Amendments	(23,100)	724	2,378	(350)

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The amounts included in the Condensed Consolidated Balance Sheets as of September 30, 2007 and December 31, 2006 are as follows:

	Pension Plan		SERP	
	Nine Months Ended September 30, 2007	Year Ended December 31, 2006	Nine Months Ended September 30, 2007	Year Ended December 31, 2006
Noncurrent assets	\$ 4,963	\$	\$	\$
Current liabilities			(2,079)	(3,200)
Noncurrent liabilities		(23,131)	(18,221)	(14,233)
Net amount recognized	\$ 4,963	\$ (23,131)	\$ (20,300)	\$ (17,433)

The amendment to the Plan resulted in a reduction to the projected benefit obligations of approximately \$22,848, a reduction of deferred income tax assets of \$8,797, and an increase in stockholders' equity of \$14,051 as of September 30, 2007.

The net amount of accumulated other comprehensive loss in stockholders' equity related to these plans as of September 30, 2007 and December 31, 2006 is \$3,334 (net of a tax benefit of \$2,261) and \$19,505 (net of a tax benefit of \$12,384), respectively.

The weighted-average assumptions that were used to determine the Company's benefit obligations as of the measurement dates are as follows:

	Pension Plan		SERP	
	Nine Months Ended September 30, 2007	Year Ended December 31, 2006	Nine Months Ended September 30, 2007	Year Ended December 31, 2006

Amortization of prior service cost	286	247	1,239	1,135
Amortization of actuarial loss	368	858	771	681
Net periodic cost of defined benefit plans	4,086	5,410	3,318	3,027
Union plans	242	259		
Other retirement plans	1,524	1,358		
Total cost	\$ 5,852	\$ 7,027	\$ 3,318	\$ 3,027

The expected full-year 2007 pension expense related to the Plan has been decreased to \$4,094 from approximately \$5,500 due to the amendment described above. As a result, the Company will recognize an expense of approximately \$8 for the Plan during the fourth quarter of 2007. The full-year 2007 expense related to the SERP was not significantly changed.

The amortization of transition (asset)/liability, prior service cost and actuarial loss for the three and nine months ended September 30, 2007, included in the above tables, have been recognized in the net periodic benefit cost and included in other comprehensive income, net of tax.

As discussed in more detail in Note 12 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006, the Company adopted the provisions of SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* during the fourth quarter of 2006.

The Company will remeasure the plans' funded status as of December 31, 2007 and will adjust the balance in accumulated comprehensive income during the fourth quarter of 2007.

The Company contributed \$3.3 million to the pension plan in September 2007, which provides the Company with increased funding flexibility and accelerated tax benefits.

Other Postretirement Benefit Plan

The Company's Canadian subsidiary also provides certain unfunded medical and dental benefits to retired employees who meet certain eligibility requirements. These benefits are provided through a contract with an insurance company. The benefit obligation related to these benefits amounted to \$3,362 and \$2,355 as of September 30, 2007 and

December 31, 2006, respectively, and is included in non-current deferred employee compensation in the Condensed Consolidated Balance Sheets. The net periodic benefit cost recognized for this OPEB plan amounted to \$542 and \$599 for the three and nine months ended September 30, 2007, respectively.

The OPEB plan was amended in November 2007 and as such was closed to primarily all employees except for employees currently receiving benefits under this plan or for those employees that meet specific eligibility requirements. As a result of this amendment the benefit obligation related to the OPEB plan was reduced to approximately \$1.4 million during the fourth quarter of 2007.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 14. Income Taxes

In January 2007, the Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 requires that we recognize income tax benefits arising from uncertain tax positions in our financial statements based on a more-likely-than-not recognition threshold as of the date of adoption. As a result of adopting FIN 48 the Company recognized a \$590 decrease to its unrecognized tax benefits, which is reflected as an adjustment to retained earnings as of January 1, 2007.

The total gross amount of unrecognized tax benefits included in the Condensed Consolidated Balance Sheet as of the date of adoption was \$11,281, including estimated interest and penalties of \$1,520. Any prospective adjustments to these unrecognized tax benefits will be recorded as a change to the Company s provision for income taxes and would impact our effective tax rate. The total gross amount of unrecognized tax benefits as of September 30, 2007 is \$9,091, including estimated interest and penalties of \$1,382. The reduction of the unrecognized tax benefits since the date of adoption primarily reflects settlements of income tax audits as well as the lapse of applicable statutes of limitations, and is included in the Company s tax provision for the three and nine months ended September 30, 2007. The Company accrues interest and penalties related to reserves for income taxes as a component of its income tax provision.

The Company files income tax returns in the United States, and in various state, local and foreign jurisdictions. It is often difficult to predict the final outcome or the timing of resolution of any particular uncertain tax position and a significant amount of time may elapse before an uncertain tax position is finally resolved. The Company recognizes tax benefits for uncertain tax positions which it believes are more-likely-than-not to be sustained based on the known facts at that point in time. The Company adjusts these tax benefits, as well as the related interest, in light of changing facts and circumstances. The resolution of a matter may result in recognition of a previously unrecognized tax benefit.

In May 2007, the FASB issued FASB Staff Position FIN 48-1, Definition of Settlement in FASB Interpretation No. 48 (FSP FIN 48-1). FSP FIN 48-1 amends FIN 48, by providing guidance on how to determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 is effective upon the initial adoption of FIN 48, which the Company adopted as of January 1, 2007. The implementation of this standard did not have a material impact on the Company s financial statements.

Audits of the Company s U.S. federal income tax returns for 2001 through 2004 have been completed this year. During the first quarter of 2007, the Company was notified that its 2005 U.S. federal income tax return will also be audited. The Company s income tax returns filed in state and local jurisdictions have been audited at various times. Our affiliates in foreign jurisdictions do not have any active income tax audits in process as of September 30, 2007.

Income tax benefit for the three months ended September 30, 2007 was \$1,575 on pre-tax loss from continuing operations of \$691 compared to an income tax benefit of \$905 on pre-tax loss from continuing operations of \$609 for the same period in 2006. The increase in the tax benefit for the three months ended September 30, 2007 was primarily due to the favorable impact of adjustments related to the reconciliation of the 2006 tax provision to the 2006 tax return that was filed in September 2007. Income tax expense for the nine months ended September 30, 2007 was \$6,870 on pre-tax income from continuing operations of \$33,650 compared to \$11,152 on pre-tax income from continuing operations of \$23,089 for the same period in 2006. The effective tax rate for the nine months ended September 30,

2007 was 20.4%, which was significantly lower than the effective tax rate for the nine months ended September 30, 2006 of 48.3%, primarily due to income tax benefits of approximately \$6,681 related to completion of the aforementioned audits of the 2001 through 2004 federal income tax returns and a reduction in unrecognized tax benefits. In addition, the results for the nine months ended September 30, 2007 include the favorable impact of adjustments related to the reconciliation of the 2006 tax provision to the 2006 tax return that was filed in September 2007.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 15. Segment Information

The Company provides financial communications and other services that help companies produce and manage their investor communications and their marketing and business communications including, but not limited to, regulatory and compliance documents, personalized financial statements, enrollment books and sales collateral. The Company's services span the entire document lifecycle and involve both electronic and printed media. The Company helps its clients compose their documents, manage the content and finalize the documents, translate the documents when necessary, prepare the documents for filing, personalize the documents and print and distribute the documents, both through the mail and electronically.

During the fourth quarter of 2006, the Company changed the way it reports and evaluates segment information. The Company had previously reported the costs associated with administrative, legal, finance and other support services which are not directly attributable to the segments in the Corporate/Other category. The Company now also includes in the Corporate/Other category certain other expenses (such as stock-based compensation and supplemental retirement plan expenses) that had previously been allocated to the individual operating segments. The Company's previous years' segment information has been restated to conform to the current year's presentation. The services of each of the Company's segments are described further below:

Financial Communications This segment provides services that enable the preparation, filing, printing and distribution of transactional, compliance reporting and investment management regulatory documents, commercial printing and other services.

Marketing & Business Communications Bowne's digital print and personalized communications segment provides a portfolio of services to create, manage and distribute personalized communications, including financial and healthcare statements, pre- and post-enrollment kits, marketing and direct mail material.

Information regarding the operations of each business segment is set forth below. Performance is evaluated based on several factors, of which the primary financial measure is segment profit. Segment profit is defined as gross margin (revenue less cost of revenue) less selling and administrative expenses. Segment performance is evaluated exclusive of interest, income taxes, depreciation, amortization, certain shared corporate expenses, restructuring, integration and asset impairment charges, purchased in-process research and development, and other expenses and other income. Segment profit is measured because management believes that such information is useful in evaluating the results of certain segments relative to other entities that operate within these industries and to its affiliated segments. Therefore, this information is presented in order to reconcile to income (loss) from continuing operations before income taxes. The Corporate/Other category includes (i) corporate expenses for shared administrative, legal, finance and other support services which are not directly attributable to the operating segments, (ii) stock-based compensation and supplemental retirement plan expenses which are not directly attributable to the segments, (iii) restructuring, integration and asset impairment charges, (iv) gains (losses) and other expenses and income and (v) purchased in-process research and development.

Note 16. Subsequent Event

On November 7, 2007, the Company acquired ADS MB Corporation (Alliance Data Mail Services), an affiliate of Alliance Data Systems Corporation, for \$3.0 million in cash, plus the purchase of working capital for an estimated \$9.3 million, for total consideration of \$12.3 million. Alliance Data Mail Services provides personalized customer communications and intelligent inserting and commingling capabilities to its clients in the financial services, healthcare, retail government and utilities industries. It also provides clients with advanced technology tools that enable the monitoring of a project's status and reporting in real-time. With facilities in Dallas, Texas, Alliance Data Mail Services will be integrated into the Company's existing distributive print network, which includes digital and offset printing, binding, mail services and fulfillment capabilities.

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*
(In thousands, except per share information and where noted)

Cautionary Statement Concerning Forward-Looking Statements

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the 1995 Act). The 1995 Act provides a safe harbor for forward-looking statements to encourage companies to provide information without fear of litigation so long as those statements are identified as forward-looking and are accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those projected.

This report includes and incorporates by reference forward-looking statements within the meaning of the 1995 Act. These statements are included throughout this report, and in the documents incorporated by reference in this report, and relate to, among other things, projections of revenues, earnings, earnings per share, cash flows, capital expenditures, working capital or other financial items, output, expectations regarding acquisitions, discussions of estimated future revenue enhancements, potential dispositions and cost savings. These statements also relate to the Company's business strategy, goals and expectations concerning the Company's market position, future operations, margins, profitability, liquidity and capital resources. The words anticipate, believe, could, estimate, expect, in, may, plan, predict, project, will and similar terms and phrases identify forward-looking statements in this report and the documents incorporated by reference in this report.

Although the Company believes the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate and the forward-looking statements based on these assumptions could be incorrect. The Company's operations involve risks and uncertainties, many of which are outside the Company's control, and any one of which, or a combination of which, could materially affect the Company's results of operations and whether the forward-looking statements ultimately prove to be correct.

Actual results and trends in the future may differ materially from those suggested or implied by the forward-looking statements depending on a variety of factors including, but not limited to:

general economic or capital market conditions affecting the demand for transactional financial printing or the Company's other services;

competition based on pricing and other factors;

fluctuations in the cost of paper, other raw materials and utilities;

changes in air and ground delivery costs and postal rates and regulations;

seasonal fluctuations in overall demand for the Company's services;

changes in the printing market;

the Company's ability to integrate the operations of acquisitions into its operations;

the financial condition of the Company's clients;

the Company's ability to continue to obtain improved operating efficiencies;

the Company's ability to continue to develop services for its clients;
changes in the rules and regulations to which the Company is subject;
changes in the rules and regulations to which the Company's clients are subject;
the effects of war or acts of terrorism affecting the overall business climate;
loss or retirement of key executives or employees; and
natural events and acts of God such as earthquakes, fires or floods.

Many of these factors are described in greater detail in the Company's filings with the Securities and Exchange Commission (SEC), including those discussed elsewhere in this report or incorporated by reference in this report. All future written and oral forward-looking statements attributable to the Company or persons acting on behalf of the Company are expressly qualified in their entirety by the previous statements.

Table of Contents

Overview

The Company's operating results for 2007 continued to improve as compared to 2006. These results are a direct effect of the increased revenue in the Financial Communications segment, the favorable impact of the cost saving measures and strategic initiatives implemented by the Company, and improved profitability in the Marketing & Business Communications (MBC) segment. Diluted earnings per share from continuing operations improved to \$0.03 for the three months ended September 30, 2007 compared to \$0.01 during the same period in 2006 and improved to \$0.86 for the nine months ended September 30, 2007 compared to \$0.37 during the same period in 2006.

In August 2007, the Company announced a plan to integrate its manufacturing capabilities. By integrating its manufacturing capabilities, the Company will create a robust platform that includes digital and offset printing, binding, mail service and fulfillment capabilities. This new model will allow the Company to realize operating efficiencies through streamlined workflows and work sharing between sites during peak periods. As the first major step in the execution of this plan, the Company began consolidating its Milwaukee, Wisconsin digital print facility with its existing print facility in South Bend, Indiana, making it the Company's first fully-integrated manufacturing facility, with digital and offset print capabilities. During the three months ended September 30, 2007, the Company recorded approximately \$1.4 million of restructuring expenses related to this consolidation, primarily consisting of severance and personnel-related costs associated with the reduction of the workforce at its Milwaukee facility. The Company expects the shutdown of the Milwaukee facility will be completed in the fourth quarter of 2007 and expects total restructuring expenses in 2007 to be approximately \$2.0 million to \$3.0 million. These actions will result in annualized cost savings of approximately \$2.0 million to \$3.0 million. The Company continues to evaluate other facilities where future consolidations are appropriate, and expects to complete the full integration of all of its manufacturing capabilities in 2008.

In January 2007, the Company acquired St Ives Financial, the financial print division of St Ives plc, for approximately \$9.6 million in cash, which includes a \$1.4 million working capital adjustment. The integration of the St Ives Financial business was substantially completed during the first quarter of 2007. The acquisition expanded Bowne's position in the Public Limited Company market and the European investment management marketplace, where St Ives Financial has a well-established reputation among significant blue-chip clients. The transaction also gave Bowne an immediate presence in Luxembourg and expanded the Company's presence in Philadelphia, an important domestic market. This acquisition is discussed in more detail in Note 2 of the Notes to Condensed Consolidated Financial Statements.

On November 7, 2007, the Company acquired ADS MB Corporation (Alliance Data Mail Services), an affiliate of Alliance Data Systems Corporation, for \$3.0 million in cash, plus the purchase of working capital for an estimated \$9.3 million, for total consideration of \$12.3 million. With annual revenue expected to be \$36.0 million, Alliance Data Mail Services provides personalized customer communications and intelligent inserting and commingling capabilities to its clients in the financial services, healthcare, retail government and utilities industries. It also provides clients with advanced technology tools that enable the monitoring of a project's status and reporting in real-time. With facilities in Dallas, Texas, Alliance Data Mail Services will be integrated into the Company's existing distributive print network, which includes digital and offset printing, binding, mail services and fulfillment capabilities.

As previously discussed in Note 15 of the Notes to Condensed Consolidated Financial Statements, during the fourth quarter of 2006, the Company changed the way it reports and evaluates segment information. The Company had previously reported the costs associated with administrative, legal, finance and other support services, which are not directly attributable to the segments in the category Corporate/Other . The Company now also includes in the Corporate/Other category certain other expenses (such as stock-based compensation and supplemental retirement plan expenses) that had previously been allocated to the individual operating segments. The Company's results for the three

and nine months ended September 30, 2006 have been reclassified to conform to this presentation.

The results of the Company's two reporting segments are discussed below:

Financial Communications: Revenue increased approximately \$9.0 million, or 6%, to approximately \$157.0 million for the three months ended September 30, 2007 compared to the same period in 2006 and segment profit increased approximately \$0.8 million, or 5%, to approximately \$18.6 million for the three

Table of Contents

months ended September 30, 2007 compared to the same period in 2006. The results for the three months ended September 30, 2007 reflect an increase in transactional revenue of approximately 15% and a slight decrease in non-transactional print activity compared to the prior year. For the nine months ended September 30, 2007, revenue increased approximately \$23.5 million, or 4%, to approximately \$568.0 million, and segment profit increased approximately \$12.8 million, or 15%, to approximately \$97.2 million as compared to the same period in 2006. The improved results for the nine months ended September 30, 2007 are primarily due to the increases in non-transactional print revenue, specifically the increase in compliance reporting and mutual fund activity. Non-transactional revenue increased 6% and transactional revenue increased 2% for the nine months ended September 30, 2007 as compared to the same period in 2006.

Marketing & Business Communications: The MBC segment reported revenue of approximately \$24.4 million and \$87.0 million for the three and nine months ended September 30, 2007, respectively, as compared to revenue of approximately \$27.1 million and \$96.7 million for the three and nine months ended September 30, 2006, respectively. The decrease in revenue is primarily the result of revenue from Vestcom International Inc. s (Vestcom) retail customers that transferred back to Vestcom as part of our transition services agreement, non-recurring revenue related to the initial rollout of the Medicare Part D open enrollment program and other non-recurring Vestcom transition revenue. Segment loss for the three months ended September 30, 2007 was approximately \$2.0 million as compared to approximately \$2.1 million for the same period in 2006. Segment profit for the nine months ended September 30, 2007 was \$248 thousand, compared to a loss of \$1.4 million in the same period of 2006. The improvement in segment profit is primarily due to the integration of the workforces of Vestcom s Marketing and Business Communication s business with Bowne and the elimination of costs as a result of the consolidation of production facilities.

Items Affecting Comparability

The Company continually reviews its business, manages its costs and aligns its resources with market demand, especially in light of the volatility of the capital markets experienced over the last several years and the resulting variability in transactional financial printing activity. As a result, the Company took several steps over the last several years to reduce fixed costs, eliminate redundancies, increase operating efficiencies, improve capacity utilization and better position the Company to respond to market pressures or unfavorable economic conditions.

The following table summarizes the expenses incurred for restructuring, integration and asset impairment charges during the three and nine months ended September 30, 2007 and 2006:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Financial Communications	\$ 752	\$ 90	\$ 9,606	\$ 2,812
Marketing & Business Communications	1,175	1,789	2,187	8,790
Corporate/Other	179	28	361	501
Total	\$ 2,106	\$ 1,907	\$ 12,154	\$ 12,103
After-tax impact	\$ 1,301	\$ 1,163	\$ 7,480	\$ 7,381
Diluted per share impact	\$ 0.05	\$ 0.04	\$ 0.23	\$ 0.23

The charges taken in the three and nine months ended September 30, 2007 primarily represent (i) severance costs associated with the consolidation of the Company's digital print facility in Milwaukee, Wisconsin with its existing print facility in South Bend, Indiana, (ii) facility exit costs and asset impairment charges related to the reduction of leased space at the Company's New York City facility, (iii) severance and integration costs related to the integration of the St Ives Financial business, (iv) additional company-wide workforce reductions, (v) facility exit costs and an asset impairment charge related to the consolidation of the Company's financial communications facility in Philadelphia with the Philadelphia facility previously occupied by St Ives Financial, and (vi) facility exit costs related to the Financial Communications and MBC segments. The amounts above include certain non-cash asset impairments and adjustments amounting to \$201 for the three months ended September 30, 2006, and \$3,393 and \$2,501 for the nine months ended September 30, 2007 and 2006, respectively. There were no non-cash asset

Table of Contents

impairments or adjustments related to three months ended September 30, 2007. Further discussion of the restructuring, integration and asset impairment activities are included in the segment information which follows, as well as in Note 10 of the Notes to Condensed Consolidated Financial Statements.

Results of Operations

Management evaluates the performance of its operating segments separately to monitor the different factors affecting financial results. Each segment is subject to review and evaluation as management monitors current market conditions, market opportunities and available resources. The performance of each segment is discussed over the next few pages. As previously mentioned, during the fourth quarter of 2006, the Company changed the way it reports and evaluates segment information. The Company had previously reported the costs associated with administrative, legal, finance and other support services, which are not directly attributable to the segments in the category Corporate/Other. The Company now also includes in the Corporate/Other category certain other expenses (such as stock-based compensation and supplemental retirement plan expenses) that had previously been allocated to the individual operating segments. The Company's previous years' segment information has been restated to conform to the current year's presentation.

Management uses segment profit to evaluate the performance of its operating segments. Segment profit is defined as gross margin (revenue less cost of revenue) less selling and administrative expenses. Segment performance is evaluated exclusive of interest, income taxes, depreciation, amortization, certain shared corporate expenses, restructuring, integration and asset impairment charges, purchased in-process research and development, and other expenses and other income. Segment profit is measured because management believes that such information is useful in evaluating the results of certain segments relative to other entities that operate within these industries and to its affiliated segments.

Financial Communications revenue increased \$8,959, or 6%, for the three months ended September 30, 2007 as compared to the three months ended September 30, 2006. Transactional financial printing increased 15% as compared to the three months ended September 30, 2006 primarily due to an increase in larger transactional jobs and an increase in initial public offering (IPO) activity, during the three months ended September 30, 2007 as compared to the same period in 2006. Compliance reporting revenue decreased 5% for the three months ended

Table of Contents

September 30, 2007, as compared to the three months ended September 30, 2006, due to certain one-time jobs in the prior period which did not occur in the current period. Mutual fund services revenue increased 3% for the three months ended September 30, 2007 compared to the same period in 2006 primarily due to the addition of several new clients and additional work from existing clients. Commercial revenue decreased 18% for the three months ended September 30, 2007 compared to the same period in 2006, primarily due to the loss of certain accounts, reduced volumes, timing and one-time jobs in the 2006 period which did not occur in the current period. Other revenue increased 63% due primarily to increases in translation services and revenue from virtual data room services in 2007. The results for the three months ended September 30, 2007 include the results of the St Ives Financial business.

Revenue from the international markets increased 23% to \$44,366 for the three months ended September 30, 2007, compared to \$36,050 for the three months ended September 30, 2006. This increase is primarily attributable to increases in Europe in both transactional print and non-transactional financial print activity, an increase in transactional print activity in Brazil and the weakness in the U.S. dollar compared to foreign currencies for the three months ended September 30, 2007 as compared to the same period in 2006. This increase was partially offset by a decrease in Canada, due to lower commercial revenue for the three months ended September 30, 2007. At constant exchange rates, revenue from international markets increased 15% for the three months ended September 30, 2007 compared to the three months ended September 30, 2006.

Gross margin of the Financial Communications segment increased \$3,667, to 36% for the three months ended September 30, 2007 in comparison to a 35% gross margin for the three months ended September 30, 2006. The increase in gross margin was primarily due to the increase in transactional revenue, which historically is the Company's most profitable class of service, and the favorable impact of cost saving measures and strategic initiatives implemented by the Company.

Selling and administrative expenses increased 8% for the three months ended September 30, 2007, compared to the same period in 2006, primarily due to increases in those expenses directly associated with sales, such as selling expenses (including commissions) and certain variable administrative expenses. Also contributing to the increase are labor costs associated with the addition of St Ives Financial sales staff. As a percentage of revenue, selling and administrative expenses increased slightly to 24% for the three months ended September 30, 2007 as compared to 23% for the same period in 2006.

As a result of the foregoing, segment profit (as defined in Note 15 of the Notes to Condensed Consolidated Financial Statements) from the Financial Communications segment increased 5% for the three months ended September 30, 2007 as compared to the same period in 2006 and segment profit as a percentage of revenue remained constant at 12% for the three months ended September 30, 2007 as compared to the same period in 2006. Refer to Note 15 of the Notes to Condensed Consolidated Financial Statements for additional segment financial information and reconciliation of segment profit to income from continuing operations before income taxes.

Total restructuring, integration and asset impairment charges related to the Financial Communications segment for the three months ended September 30, 2007 were \$752 as compared to \$90 for the same period in 2006. The charges incurred during the three months ended September 30, 2007 consisted of costs related to the integration of the St Ives Financial business, and additional costs related to workforce reductions and facility closures. The charges incurred during the three months ended September 30, 2006 primarily represent costs related to headcount reductions.

Restructuring, integration and asset impairment charges	\$ (1,175)	(5)%	\$ (1,789)	(7)%	\$ 614	34%

Marketing & Business Communications revenue decreased for the three months ended September 30, 2007 as compared to the same period in 2006. The 2006 results included approximately \$1.2 million of revenue from Vestcom's retail customers that transferred back to Vestcom as part of our transition services agreement, and other non-recurring Vestcom transition revenue. The gross margin for the three months ended September 30, 2007 declined to 8% down from 10% for the same period in 2006 driven by a lower revenue base over the fixed cost structure.

Selling and administrative expenses decreased for the three months ended September 30, 2007 as compared to the comparable 2006 period primarily due to a decrease in those expenses directly associated with sales, such as selling expenses (including commissions) and certain variable administrative expenses. As a percentage of revenue, selling and administrative expenses decreased two percentage points to 16%.

As a result of the foregoing, segment loss (as defined in Note 15 of the Notes to Condensed Consolidated Financial Statements) for this segment was \$1,999 for the three months ended September 30, 2007 as compared to a loss of \$2,051 in the comparable 2006 period. Refer to Note 15 of the Notes to Condensed Consolidated Financial Statements for additional segment financial information and reconciliation of segment loss to income from continuing operations before income taxes.

Restructuring, integration and asset impairment charges were \$1,175 for the three months ended September 30, 2007 as compared to \$1,789 for the three months ended September 30, 2006. The costs incurred in 2007 were primarily associated with the consolidation of the Company's digital print facility in Milwaukee, Wisconsin with its existing print facility in South Bend, Indiana. The costs incurred in 2006 were primarily related to integration and asset impairment costs associated with the consolidation of MBC facilities that began during the second quarter.

Summary

Overall revenue increased \$6,269, or 4%, to \$181,379 for the three months ended September 30, 2007 as compared to the same period in 2006. The increase in revenue is primarily attributed to the increase in revenue from the Financial Communications segment including the addition of revenue resulting from the acquisition of the St Ives Financial business. Partially offsetting these increases was a decrease in revenue from the MBC segment for the three months ended September 30, 2007 as compared to September 30, 2006. Gross margin increased \$3,717, or 6%, for the three months ended September 30, 2007 as compared to the same period in 2006 and the gross margin percentage increased approximately one percentage point to 35% for the three months ended September 30, 2007. The increase in gross margin percentage is primarily due to the increase in transactional revenue, which historically has been the Company's most profitable class of service, and the favorable impact of the cost saving measures and strategic initiatives implemented by the Company.

Selling and administrative expenses on a company-wide basis increased \$2,217, or 4%, to \$53,543 for the three months ended September 30, 2007 as compared to the same period in 2006. The increase is primarily due to an

Table of Contents

increase in expenses that are directly associated with sales, such as selling expenses (including commissions) and increased costs associated with the addition of St Ives Financial sales staff. Shared corporate expenses were \$7,173 for the three months ended September 30, 2007, as compared to \$7,786 for the same period in 2006. The decrease in shared corporate expenses is primarily due to the reduction in compensation expense associated with the long-term equity incentive compensation plan for the three months ended September 30, 2007 as compared to the same period in 2006, which is discussed in further detail in Note 6 of the Notes to Condensed Consolidated Financial Statements. As a percentage of revenue, overall selling and administrative expenses increased one percentage point for the three months ended September 30, 2007 and 2006.

Depreciation expense increased slightly for the three months ended September 30, 2007, compared to the same period in 2006 due primarily to the increase in capital expenditures during the past two years.

The Company recorded a charge of \$1,001 related to purchased in-process research and development based on a preliminary allocation of the purchase price during the second quarter of 2006 which is related to the Company's acquisition of certain assets of PLUM Computer Consulting, Inc. (PLUM). The allocation of the purchase price was modified during the three months ended September 30, 2006 and the amount allocated to the purchased in-process research and development was reduced by \$43.

There were \$2,106 in restructuring, integration and asset impairment charges during the three months ended September 30, 2007, as compared to \$1,907 in the same period in 2006, as discussed in Note 10 of the Notes to Condensed Consolidated Financial Statements.

Other expense increased \$723 for the three months ended September 30, 2007 as compared to the same period in 2006 primarily due to foreign currency gains in 2006 as compared to foreign currency losses in 2007 driven by the weakness in the U.S. dollar compared to other currencies during 2007.

Income tax benefit for the three months ended September 30, 2007 was \$1,575 on pre-tax loss from continuing operations of \$691 compared to an income tax benefit of \$905 on pre-tax loss from continuing operations of \$609 for the same period in 2006. The income tax benefit for the three months ended September 30, 2007 was favorably impacted by a reduction in unrecognized tax benefits and adjustments related to the reconciliation of the 2006 tax provision to the 2006 tax return that was filed in September 2007.

The 2007 results from discontinued operations include the operations of the JFS Litigators Noteboo® (JFS) business and adjustments to accruals related to the Company's discontinued litigation solutions and globalization businesses. The 2006 results from discontinued operations include the net loss on the sale of DecisionQuest until the date of sale, the exit costs associated with leased facilities formerly occupied by discontinued businesses and the operating results of JFS.

As a result of the foregoing, net income for the three months ended September 30, 2007 was \$804 as compared to a net loss of \$11,772 for the three months ended September 30, 2006.

Domestic Versus International Results of Operations

The Company has operations in the United States, Canada, Europe, Central America, South America and Asia. The Company's international operations are all in its Financial Communications segment. Domestic and international components of income (loss) from continuing operations before income taxes for the three months ended September 30, 2007 and 2006 are as follows:

	Three Months Ended September 30,	
	2007	2006
Domestic (United States)	\$ (2,755)	\$ (3,378)
International	2,064	2,769
Loss from continuing operations before taxes	\$ (691)	\$ (609)

Table of Contents

Domestic pre-tax loss from continuing operations for the three months ended September 30, 2007 improved compared to the same period in the prior year primarily due to an increase in revenue and the favorable impact of the cost savings and strategic initiatives in the Financial Communications segment offset by costs associated with the consolidation of the Company's digital print facility in Milwaukee, Wisconsin with its existing print facility in South Bend, Indiana. International pre-tax income from continuing operations decreased for the three months ended September 30, 2007 as compared to the same period in the prior year, primarily due to decreases in Canada.

Restructuring, integration and asset impairment charges	\$ (9,606)	(2)%	\$ (2,812)	(1)%	\$ (6,794)	(242)%

Financial Communications revenue increased 4% for the nine months ended September 30, 2007 as compared to the same period in 2006, with transactional financial printing up 2% compared to the nine months ended September 30, 2006 primarily due to an increase in IPO activity in 2007 as compared to 2006. Compliance reporting revenue increased 7% for the nine months ended September 30, 2007, as compared to the same period in 2006, due in part to new SEC regulations and more extensive disclosure requirements, including the new executive compensation proxy rules. Mutual fund services revenue increased 7% for the nine months ended September 30, 2007 compared to the same period in 2006, primarily due to the addition of several new clients and additional work from existing clients. Commercial revenue decreased 14% for the nine months ended September 30, 2007 compared to the same period in 2006, primarily due to the loss of certain accounts, reduced volumes, timing and one-time jobs in the 2006 period which did not occur in the current period. Other revenue increased 58% due primarily to increases in translation

services and virtual data room services in 2007. The results for the nine months ended September 30, 2007 include the results of the St Ives Financial business.

Revenue from the international markets increased 5% to approximately \$138,451 for the nine months ended September 30, 2007, as compared to \$131,978 for the same period in 2006 primarily due to the weakness in the U.S. dollar compared to foreign currencies. Revenue from international markets reflects an increase in non-transactional financial printing in Europe and transactional printing in Brazil during the nine months ended September 30, 2007 as compared to the same period in 2006. This increase is partially offset by a decrease in Canada during the nine months ended September 30, 2007 as compared to the same period in 2006, primarily due to a decline in commercial and mutual fund revenue. In 2006, Canada results benefited from the change in mutual fund disclosure regulations that required all mutual fund companies to include a management report on fund

Table of Contents

performance in their fund reports. It also allowed the mutual fund companies to request from the fund holders the ability to continue receiving the annual/semi-annual fund reports (including the new management report). As a result, Canada experienced a significant increase in its mutual fund business last year but experienced a decline in 2007 due to several fund holders electing not to continue to receive the management report. At constant exchange rates, revenue from international markets remained constant for the nine months ended September 30, 2007 compared to the same period in 2006.

Gross margin of the Financial Communications segment increased by \$20,744, or 11% over the prior period in 2006, and the gross margin percentage increased to 38% for the nine months ended September 30, 2007, up from 36% in 2006. The increase in gross margin was primarily due to the favorable impact of cost saving measures and strategic initiatives implemented by the Company.

Selling and administrative expenses increased 7% for the nine months ended September 30, 2007, compared to the same period in 2006, and as a percentage of revenue, increased one percentage point to 21% for the nine months ended September 30, 2007, as compared to the same period in 2006. This increase is primarily due to increases in expenses directly associated with sales, such as selling expenses (including commissions and bonuses) and certain variable administrative expenses. Also contributing to the increase are labor costs associated with the addition of St Ives Financial sales staff. Partially offsetting the increase were higher facility costs in the New York City office during the nine months ended September 30, 2006 due to higher rental costs, duplicate facility costs resulting from overlapping leases and costs associated with the move of our corporate office and New York City based operations. In addition, bad debt expense for this segment decreased for the nine months ended September 30, 2007 as compared to September 30, 2006, a direct result of improved billing and collection efforts.

As a result of the foregoing, segment profit (as defined in Note 15 to the Condensed Consolidated Financial Statements) from this segment increased 15%, to \$97,233, for the nine months ended September 30, 2007 as compared to the same period in 2006, primarily as a result of the increase in revenue and the favorable impact of cost saving measures and strategic initiatives implemented by the Company. Segment profit as a percentage of revenue increased to 17% for the nine months ended September 30, 2007 as compared to 16% for the same period in 2006. Refer to Note 15 of the Condensed Consolidated Financial Statements for additional segment financial information and reconciliation of segment profit to income from continuing operations before income taxes.

Total restructuring charges related to the Financial Communications segment for the nine months ended September 30, 2007 were \$9,606 as compared to \$2,812 for the same period in 2006. The charges incurred during the nine months ended September 30, 2007 consisted of (i) facility exit costs and asset impairment charges related to the reduction of leased space at the Company's New York City facility, (ii) severance and integration costs related to the integration of the St Ives Financial business, (iii) additional workforce reductions and facility closures, and (iv) facility exit costs and an asset impairment charge related to the consolidation of the Company's former facility in Philadelphia with the newly acquired Philadelphia facility previously occupied by St Ives. The charges incurred during the nine months ended September 30, 2006 primarily represent costs related to additional workforce reductions in certain locations and the closing of a portion of the Company's facility in Washington, D.C.

Table of Contents

MBC revenue decreased for the nine months ended September 30, 2007 as compared to the same period in 2006. The 2006 results included approximately \$5.8 million of non-recurring revenue related to the initial rollout of the Medicare Part D open enrollment program. In addition, results for the nine months ended September 30, 2006 included approximately \$5.5 million of revenue from Vestcom's retail customers that transferred back to Vestcom as part of our transitions services agreement, and other non-recurring Vestcom transition revenue. Partially offsetting the decrease in revenue from 2006 was revenue related to projects within the insurance industry in 2007 as a result of the acquisition of St Ives Financial. The gross margin for the nine months ended September 30, 2007 improved to 16%, up from 14% for the same period in 2006, primarily due to the integration of the workforces of Vestcom with Bowne and the elimination of costs as a result of the consolidation of production facilities.

Selling and administrative expenses decreased \$1,279 for the nine months ended September 30, 2007 as compared to the same period in 2006, primarily due to a decrease in those expenses directly associated with sales, such as selling expenses (including commissions) and certain variable administrative expenses. Also contributing to the decrease in these expenses is the integration of the workforces related to the acquisition of Vestcom's Marketing and Business Communications business and workforce reductions. As a percentage of revenue, selling and administrative expenses increased one percentage point to 16%.

As a result of the foregoing, segment profit (as defined in Note 15 to the Condensed Consolidated Financial Statements) for this segment improved \$1,637 for the nine months ended September 30, 2007 as compared to 2006. Segment profit as a percentage of revenue improved to breakeven for the nine months ended September 30, 2007 up from a loss of 1% for the nine months ended September 30, 2006. Refer to Note 15 of the Condensed Consolidated Financial Statements for additional segment financial information and reconciliation of segment profit to income from continuing operations before income taxes.

Restructuring, integration and asset impairment charges were \$2,187 for the nine months ended September 30, 2007 as compared to \$8,790 for the nine months ended September 30, 2006. The costs incurred in 2007 were primarily related to (i) the consolidation of the Company's digital print facility in Milwaukee, Wisconsin with its existing print facility in South Bend, Indiana, (ii) headcount reductions, (iii) costs associated with the acquisition of St Ives Financial, and (iv) facility exit costs related to leased warehouse space. The costs incurred in 2006 were primarily related to an asset impairment charge related to the consolidation of MBC facilities, and severance and integration costs associated with the integration of the workforce.

Summary

Overall revenue increased \$13,760, or 2%, to \$654,915 for the nine months ended September 30, 2007 as compared to the same period in 2006. The increase in revenue is primarily attributed to the increase in revenue from the Financial Communications segment, principally non-transactional revenue, and the addition of revenue resulting from the acquisition of the St Ives Financial business. Partially offsetting the increase in revenue from the Financial Communications segment was a decrease in revenue from the MBC segment for the nine months ended September 30, 2007 as compared to September 30, 2006. Gross margin increased \$21,757, or 10%, for the nine months ended September 30, 2007 as compared to the same period in 2006, and the gross margin percentage increased approximately two percentage points to 37% for the nine months ended September 30, 2007 as compared to the same period in 2006. The increase in gross margin percentage is primarily due to the favorable impact of the cost saving measures and strategic initiatives implemented by the Company and improved profitability in the MBC segment.

Selling and administrative expenses on a company-wide basis increased by approximately \$7,958, or 5%, to \$174,285 for the nine months ended September 30, 2007 as compared to the same period in 2006. The increase is primarily the result of expenses that are directly associated with sales, such as selling expenses (including commissions and bonuses) and costs associated with the addition of the St Ives Financial sales staff. Shared corporate expenses were

approximately \$26,713 for the nine months ended September 30, 2007, as compared to approximately \$26,077 for the same period in 2006. The increase in shared corporate expenses is primarily due to the expenses associated with the long-term equity incentive compensation plan, which went into effect in July 2006 and is partially offset by higher facility costs in 2006 related to higher rental costs, duplicate facility costs resulting from overlapping leases and costs associated with the move of our corporate office and New York City based

Table of Contents

operations. As a percentage of revenue, overall selling and administrative expenses increased slightly to 27% for the nine months ended September 30, 2007 as compared to 26% for the same period in 2006.

Depreciation expense increased for the nine months ended September 30, 2007, compared to the same period in 2006 due primarily to the increase in capital expenditures in the past two years.

The Company recorded a charge of \$958 related to purchased in-process research and development during the nine months ended September 30, 2006 which is based on an allocation of the purchase price related to the Company's acquisition of certain assets of PLUM.

There were approximately \$12,154 in restructuring, integration, and asset impairment charges during the nine months ended September 30, 2007, as compared to \$12,103 in the same period in 2006, as discussed in Note 10 of the Notes to the Condensed Consolidated Financial Statements.

Other income decreased \$2,207 for the nine months ended September 30, 2007 as compared to the same period in 2006 primarily due to a decrease in interest income received from the Company's investments in short-term marketable securities due to a decrease in the average balance of interest bearing cash and short-term marketable securities in 2007 as compared to 2006. In addition, the Company experienced foreign currency gains in 2006 as compared to foreign currency losses in 2007 driven by the weakness in the U.S. dollar compared to other currencies during 2007.

Income tax expense for the nine months ended September 30, 2007 was \$6,870 on pre-tax income from continuing operations of \$33,650 compared to \$11,152 on pre-tax income from continuing operations of \$23,089 for the same period in 2006. The effective tax rate for the nine months ended September 30, 2007 was 20.4%, which was significantly lower than the effective tax rate for the nine months ended September 30, 2006 of 48.3%, primarily due to tax benefits of approximately \$6,681 related to completion of audits of the 2001 through 2004 federal income tax returns and a reduction in unrecognized tax benefits. In addition, the results for the nine months ended September 30, 2007 includes the favorable impact of adjustments related to the reconciliation of the 2006 tax provision to the 2006 tax return that was filed in September 2007.

The 2007 results from discontinued operations include the operations of JFS and adjustments to accruals related to the Company's discontinued litigation solutions and globalization businesses. The 2006 results from discontinued operations include the (i) net gain on the sale of the assets of the Company's joint venture investment in CaseSoft, (ii) the net loss on the sale of DecisionQuest, (iii) the operating results of DecisionQuest until its sale, including an asset impairment charge related to the impairment of its goodwill, (iv) the exit costs associated with leased facilities formerly occupied by discontinued businesses, (v) the operating results of JFS and (vi) the operating results of the document scanning and coding business until its sale.

As a result of the foregoing, net income for the nine months ended September 30, 2007 was \$27,180 as compared to net loss of \$4,002 for the nine months ended September 30, 2006.

Domestic Versus International Results of Operations

Domestic (U.S.) and international components of income from continuing operations before income taxes for the nine months ended September 30, 2007 and 2006 are as follows:

Nine Months Ended	
September 30,	
2007	2006

Domestic (United States)	\$ 21,418	\$ 12,098
International	12,232	10,991
Income from continuing operations before taxes	\$ 33,650	\$ 23,089

The increase in domestic and international pre-tax income from continuing operations is primarily due to the favorable impact of the cost savings and strategic initiatives implemented by the Company within the Financial Communications segment. Also contributing to the increase in domestic pre-tax income is the improvement in

Table of Contents

segment profit of the MBC segment for the nine months ended September 30, 2007 as compared to the same period in 2006.

Liquidity and Capital Resources

Liquidity and Cash Flow Information:	September 30,	
	2007	2006
Working capital	\$ 183,827	\$ 178,973
Current ratio	2.66:1	2.45:1
Net cash provided by (used in) operating activities (for the nine months ended)	\$ 57,004	\$ (15,130)
Net cash (used in) provided by investing activities (for the nine months ended)	\$ (21,492)	\$ 10,366
Net cash used in financing activities (for the nine months ended)	\$ (33,407)	\$ (47,954)
Capital expenditures (for the nine months ended)	\$ (14,295)	\$ (22,098)
Acquisitions, net of cash acquired	\$ (12,588)	\$ (32,908)
Days sales outstanding	71 days	76 days

Overall working capital increased \$4,854 as of September 30, 2007 compared to September 30, 2006. The change in working capital is primarily attributable to an increase in the collection of accounts receivable balances in 2007 as compared to 2006 and a decrease in accrued expenses and taxes payable in 2007 as compared to 2006 offset primarily by cash used to repurchase shares of the Company's common stock, cash used to pay restructuring and integration related expenses, and cash used in the acquisition of St Ives Financial and an additional \$3.0 million payment related to the acquisition of certain technology assets of PLUM during the first quarter of 2007.

In September 2007, the Company amended its defined benefit pension plan (the "Plan") to change the plan to a cash balance plan (the "Amended Plan"), which is described in more detail in Note 13 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. The Plan was amended to change the plan to a cash balance plan effective January 1, 2008. The amendment to the Plan resulted in a reduction to the projected benefit obligations of approximately \$22,848 as of September 30, 2007 and will reduce the future funding requirements for the Amended Plan. The Company contributed \$3.3 million to the Plan in September 2007 and will continue to contribute an amount necessary to meet the ERISA minimum funding requirements.

In June 2007, the Company entered into a modification (the "Lease Amendment") of its existing lease (the "Lease") dated as of February 24, 2005 with New Water Street Corp. ("Landlord") for its office facilities at 55 Water Street, New York, New York. Pursuant to the Lease Amendment, which became effective on signing, the leased space under the Lease was reduced by approximately 61,000 square feet (the "Terminated Space"). In consideration of entering into the Lease Amendment, the Company made a payment to the Landlord of \$2.0 million. In conjunction with the Lease Amendment, the Company entered into an agreement with the successor tenant of the Landlord for the Terminated Space. In consideration of entering into the agreement, the successor tenant paid the Company \$0.8 million to vacate the Terminated Space and for limited rights to use certain of the Company's conference room facilities, which will be charged at the Company's standard rates in effect from time to time. The Company incurred restructuring and non-cash asset impairment charges of approximately \$5.9 million as a result of entering into the Lease Amendment. These charges consist of non-cash asset impairments of approximately \$3.3 million primarily related to the write-off of leasehold improvements associated with the Terminated Space, exit costs of approximately \$1.4 million primarily consisting of broker fees associated with the Lease Amendment, and the \$2.0 million payment to the Landlord reduced by the \$0.8 million received from the successor tenant. As a result of the Lease Amendment, the fixed rent payable and the related operating expense reduction are expected to result in cost savings over the remainder of the term of the Lease (through May 2026) of approximately \$50.0 million. In addition, the letter of credit issued in favor

of the Landlord in connection with the lease was reduced by \$2.8 million, to \$6.6 million. As a result of this transaction, the Company's future operating lease commitments that were previously disclosed in Note 15 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006 were reduced by approximately \$39.0 million, which

Table of Contents

represents the reduction in the future minimum rent payments over the remaining life of the lease (through May 2026).

As described in more detail in the Company's annual report on Form 10-K for the year ended December 31, 2006, the Company's synthetic lease for printing equipment matured in May 2007. At the end of the facility term, the Company had the option of purchasing the equipment for the estimated residual value of \$6.3 million. In May 2007, the Company exercised its option to purchase the equipment by refinancing \$4.9 million through a four-year operating lease and purchasing the remaining equipment for \$1.4 million outright. As a result of this transaction, the Company's estimated 2007 contractual obligations that were previously disclosed in Note 15 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006 were reduced by approximately \$4.9 million. The future minimum operating lease payments associated with the refinanced equipment as of September 30, 2007 are \$0.2 million in 2007, \$0.8 million per year for 2008 through 2010, and \$0.3 million in 2011.

In September 2007, the Company renewed an existing service agreement with a vendor to outsource services through 2011. As a result of this transaction, the Company's minimum annual purchase commitments that were previously disclosed in Note 15 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006 increased by approximately \$7.0 million in 2009, \$7.5 million in 2010 and \$8.0 million in 2011.

For the nine months ended September 30, 2007, the Company repurchased approximately 2.4 million shares of its common stock for approximately \$40.1 million (an average price of \$16.37 per share) in accordance with its stock repurchase program that is described more fully in Note 16 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006. As of September 30, 2007, there was approximately \$11.6 million available for share repurchases under the stock repurchase authorization. Since the inception of the Company's stock repurchase program in December 2004 through September 30, 2007, the Company has repurchased approximately 12.3 million shares of its common stock for approximately \$185.3 million at an average price of \$15.08 per share. Subsequent to September 30, 2007, the Company repurchased an additional 251,395 shares of its common stock under this plan for approximately \$4.3 million (an average price of \$17.25 per share) through November 1, 2007.

The Company had no borrowings outstanding under its \$150 million, five-year senior, unsecured revolving credit facility as of September 30, 2007. The facility expires in May 2010.

Capital expenditures for the nine months ended September 30, 2007 were \$14.3 million, which includes approximately \$3.0 million related to the consolidation and build-out of the existing space at the 55 Water Street facility as a result of the lease modification described above. Capital expenditures for the nine months ended September 30, 2006 were \$22.1 million, which includes approximately \$2.9 million associated with the relocation of the Company's New York City facility to 55 Water Street, which occurred in January 2006 and approximately \$3.3 million related to the relocation of the Company's London financial communications facility during the second quarter of 2006. In addition, capital expenditures for the nine months ended September 30, 2006 includes approximately \$6.5 million incurred by the MBC segment. The Company expects full-year 2007 capital expenditures to range from approximately \$19 million to \$22 million.

It is expected that the cash generated from operations, working capital and the Company's borrowing capacity will be sufficient to fund its development needs (both foreign and domestic), finance future acquisitions, if any, and capital expenditures, provide for the payment of dividends, meet its debt service requirements and provide for repurchases of the Company's common stock under the aforementioned stock repurchase program. The Company experiences certain seasonal factors with respect to its working capital; the heaviest demand for utilization of working capital is normally in the second quarter. The Company's existing borrowing capacity provides for this seasonal increase.

Cash Flows

Days sales outstanding improved to 71 days as of September 30, 2007 from 76 days as of September 30, 2006. The Company had net cash provided by operating activities of \$57,004 for the nine months ended September 30,

Table of Contents

2007 compared to net cash used in operating activities of \$15,130 for the nine months ended September 30, 2006. The significant increase in cash provided by operating activities is primarily due to the increase in the change in accounts receivable resulting from the higher collections of year-end receivables during 2007 as compared to 2006, as a result of improved billing and collection efforts. In addition, the increase in cash provided by operations was also attributable to the funding of costs related to the Company's relocation of its corporate office and New York City based operations during the nine months ended September 30, 2006, a decrease in income taxes paid during the nine months ended September 30, 2007 of \$7,755 as compared to the same period in 2006, and a decrease in the funding of the Company's pension plans in 2007 as compared to 2006. Overall, cash provided by operating activities for the nine months ended September 30, 2007 increased by \$72,134 compared to the same period in 2006.

Net cash used in investing activities was \$21,492 for the nine months ended September 30, 2007 as compared to net cash provided by investing activities of \$10,366 for the nine months ended September 30, 2006. The increase in net cash used in investing activities from 2006 to 2007 was primarily due to the decrease in the net proceeds from the sale of marketable securities and the cash provided by discontinued operations in 2006 of \$12,269, related to the proceeds received from the sale of the assets of the Company's joint venture investment in CaseSoft which occurred in May 2006, and was partially offset by a decrease in the cash used for acquisitions in 2007 as compared to 2006. The net proceeds from the sale of marketable securities was \$5,175 in 2007 as compared to \$46,500 in 2006. The results for 2007 include net cash used for acquisitions of approximately \$12,588, which consists of the acquisition of St Ives Financial and an additional \$3,000 related to the acquisition of certain technology assets of PLUM, compared to the results for 2006 of approximately \$32,908, which includes net cash used in the acquisition of Vestcom's Marketing and Business Communications division of \$30,824 and \$2,084 used in the acquisition of certain technology assets of PLUM. In addition, there was a decrease in capital expenditures for the nine months ended September 30, 2007. Capital expenditures for the nine months ended September 30, 2007 were \$14,295 as compared to \$22,098 for the nine months ended September 30, 2006.

Net cash used in financing activities was \$33,407 and \$47,954 for the nine months ended September 30, 2007 and 2006, respectively. The decrease in net cash used in financing activities in 2007 as compared to 2006 primarily resulted from a decrease in the repurchase of the Company's common stock during the nine months ended September 30, 2007 as compared to the same period in 2006.

2007 Outlook

Consistent with the Company's policy of not adjusting annual guidance unless the Company believes the actual results will be materially outside the range provided, the Company disclosed certain adjustments in the quarterly report on Form 10-Q for the six months ended June 30, 2007 to the estimates that it had previously provided in its 2007 Outlook included in its annual report on Form 10-K for the year ended December 31, 2006. The Company expects overall operating performance will be in the range of the full-year guidance previously provided. These forward-looking statements are based upon current expectations and are subject to factors that could impact actual results to differ materially from those suggested here. Refer to the Cautionary Statement Concerning Forward-Looking Statements included at the beginning of this Item 2.

Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48), which became effective for us beginning in 2007. The Company adopted FIN 48 in January 2007. FIN 48 addresses the determination of how tax benefits claimed or expected to be claimed on a tax return should be recorded in financial statements. Under FIN 48, the Company will recognize tax benefits from uncertain tax positions only when it is more-likely-than-not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The

tax benefits recognized for such positions are measured based on that level of benefit that has a greater than fifty percent likelihood of being effectively settled. The impact of adopting FIN 48 resulted in the Company recognizing a \$590 decrease to its unrecognized tax benefits which is reflected as an adjustment to retained earnings as of January 1, 2007. The total gross amount of unrecognized tax benefits included in the Condensed Consolidated Balance Sheet as of the date of adoption was \$11,281, including estimated interest and penalties of \$1,520. The total gross amount of unrecognized tax benefits as of September 30,

Table of Contents

2007 is \$9,091, including estimated interest and penalties of \$1,382. The reduction of the unrecognized tax benefits since the date of adoption primarily reflects settlements and effective closures of income tax audits as well as the lapse of applicable statutes of limitations, and is included in the Company's tax provision for the nine months ended September 30, 2007. The adoption of FIN 48 is discussed in more detail in Note 14 of the Notes to Condensed Consolidated Financial Statements.

In May 2007, the FASB issued FASB Staff Position FIN 48-1, Definition of Settlement in FASB Interpretation No. 48 (FSP FIN 48-1). FSP FIN 48-1 amends FIN 48, by providing guidance on how to determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. FSP FIN 48-1 is effective upon the initial adoption of FIN 48, which the Company adopted as of January 1, 2007. The implementation of this standard did not have a material impact on the Company's financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. Under SFAS 157, fair value refers to the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. SFAS 157 establishes a fair value hierarchy that prioritizes the information used to develop the assumptions that market participants would use when pricing the asset or liability. The fair value hierarchy gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data. In addition, SFAS 157 requires that fair value measurements be separately disclosed by level within the fair value hierarchy. SFAS 157 does not require new fair value measurements and is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company will adopt SFAS 157 during the first quarter of 2008 and does not anticipate the adoption to have a material impact on its financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that currently are not required to be measured at fair value. This Statement is effective no later than fiscal years beginning on or after November 15, 2007. The Company has the option of adopting this standard by the first quarter of 2008 and does not anticipate that this standard will have a material impact on its financial statements.

In August 2007, the FASB proposed FASB Staff Position (FSP) No. APB 14-a, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) . If issued, the proposed FSP would require the liability and equity components of convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) to be separately accounted for in a manner that reflects the issuer's nonconvertible debt borrowing rate. As such, the initial debt proceeds from the sale of the Company's Convertible Subordinated Debentures, which are discussed in more detail in Note 11 of the Notes to Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2006, would be allocated between a liability component and an equity component. The resulting debt discount would be amortized over the debenture's expected life as additional non-cash interest expense. As such, prior period earnings and earnings per share would be adjusted to reflect these changes. The proposed FSP is expected to be effective for fiscal years beginning after December 15, 2007 and is expected to require retrospective application. The Company is currently assessing the impact this proposed FSP will have on its financial statements.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

The Company's market risk is principally associated with activity levels and trends in the domestic and international capital markets, particularly in the Financial Communications segment. This includes activity levels in the initial public offerings and mergers and acquisitions markets, both important components of the Financial Communications segment. The Company also has market risk tied to interest rate fluctuations related to its debt obligations and

fluctuations in foreign currency, as discussed below.

Interest Rate Risk

The Company's exposure to market risk for changes in interest rates relates primarily to its short-term investment portfolio, long-term debt obligations and revolving credit agreement.

Table of Contents

The Company does not use derivative instruments in its short-term investment portfolio. The Company's debentures issued in September 2003 consist of fixed rate instruments and therefore would not be impacted by changes in interest rates. The debentures have a fixed interest rate of 5%. The Company's five-year, \$150 million senior unsecured revolving credit facility bears interest at LIBOR plus a premium that can range from 67.5 basis points to 137.5 basis points depending on certain leverage ratios. During the nine months ended September 30, 2007, there was no average outstanding balance under the revolving credit facility and no balance outstanding as of September 30, 2007. Therefore, there is no significant impact from a hypothetical increase in the interest rate related to the revolving credit facility during the nine months ended September 30, 2007.

Foreign Exchange Rates

The Company derives a portion of its revenues from various foreign sources. Revenue from the Company's international financial communications operations is denominated in foreign currencies, while some of its costs are denominated in U.S. dollars. The Company does not use foreign currency hedging instruments to reduce its exposure to foreign exchange fluctuations. The Company has reflected translation adjustments of \$6,912 and \$1,495 in its Condensed Consolidated Statements of Comprehensive Income (Loss) for the nine months ended September 30, 2007 and 2006, respectively. These adjustments are primarily attributed to the fluctuation in value between the U.S. dollar and the euro, pound sterling and Canadian dollar.

Equity Price Risk

The Company's investments in marketable securities were approximately \$37.4 million as of September 30, 2007, primarily consisting of auction rate securities. These securities are fixed income securities with limited market fluctuation risk. The Company's defined benefit pension plan holds investments in both equity and fixed income securities. The amount of the Company's annual contribution to the plan is dependent upon, among other things, the return on the plan's assets. To the extent there are fluctuations in equity values, the amount of the Company's annual contribution could be affected. For example, a decrease in equity prices could increase the amount of the Company's annual contributions to the plan.

Item 4. *Controls and Procedures*

(a) *Disclosure Controls and Procedures.* The Company maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed to reasonably assure that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Disclosure controls include components of internal control over financial reporting, which consists of control processes designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles in the United States.

As of the end of the period covered by this report, the Company's management, under the supervision of and with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures, pursuant to Exchange Act Rule 13a-15(e) and 15d-15(e) (the Exchange Act). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective in ensuring that all material information required to be filed or submitted under the Exchange Act has been made known to them in a timely fashion.

(b) *Changes in Internal Control Over Financial Reporting.* There have not been any changes in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that have materially affected, or are reasonably likely to affect, the Company's internal control over financial reporting.
