## Report of Independent Auditors

F.N.B. Corporation Progress Savings  
401(k) Plan  
Hermitage, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of the F.N.B. Corporation Progress Savings 401(k) Plan as of December 31, 2001 and 2000, and the related statement of changes in net assets available for benefits for the year ended December 31, 2001. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2001 and 2000, and the changes in its net assets available for benefits for the year ended December 31, 2001, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2001, and reportable transactions for the year then ended, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

1. DESCRIPTION OF THE PLAN

The following description of the F.N.B. Corporation Progress Savings 401(k) Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

(ERISA).

### CONTRIBUTIONS

Under the Plan, participating employees may make voluntary pretax and after-tax contributions to their accounts of up to 15% of annual base compensation. The Corporation, at its discretion, may make a matching contribution equal to a percentage of participants' savings contributions and/or after-tax voluntary contributions.

#### 1. DESCRIPTION OF THE PLAN (CONTINUED)

##### CONTRIBUTIONS (CONTINUED)

Principal Financial Group ("Principal") is the custodian of all of the Plan's assets, with the exception of the F.N.B. Corporation common stock.

The employer's matching contributions are used to purchase the Corporation's common stock. Participants who have attained age 59 1/2 are permitted to direct the trustee to invest the Corporation's matched portion of their account into any other investment that may be permitted under the Plan.

##### PARTICIPANT ACCOUNTS

Each participant's account is credited with their voluntary contribution and the employer's matching contribution and an allocation of the Plan's net earnings as defined by the Plan.

##### VESTING

## Edgar Filing: FNB CORP/FL/ - Form 11-K

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are 100% vested in the employer's matching contributions and actual earnings thereon after five years of service (see vesting schedule below):

#### Notes to Financial Statements (continued)

#### 1. DESCRIPTION OF THE PLAN (CONTINUED)

##### FORFEITURES

Upon termination of a participant, the employer's matching contribution to which the participant is not vested is segregated into a separate account until the participant incurs a five-year break in service upon which time such nonvested amount will be forfeited and may be used by the employer to reduce future matching contributions.

##### PAYMENT OF BENEFITS

Upon termination of service, a participant with a vested account balance of less than \$5,000 will receive a lump-sum amount equal to the vested value of his or her accounts. A participant who terminates service with a vested account balance of greater than \$5,000 has two options: he or she may leave his or her account under the Plan or he or she may request a lump-sum distribution of the vested account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. The Plan also permits distributions in the event of the participant's permanent disability, death, early retirement (age 55), or attainment of normal retirement age as defined in the Plan.

##### PARTICIPANT LOANS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from

1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

### ADMINISTRATIVE EXPENSES

All administrative expenses of the Plan, except for investment fees, are paid by the Corporation. Such expenses have historically been comprised of fees of audit, custody and recordkeeping services and have been immaterial in relation to the Corporation and the Plan.

### PLAN TERMINATION

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

### 2. SUMMARY OF ACCOUNTING POLICIES

#### BASIS OF PRESENTATION

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

#### VALUATION OF INVESTMENTS

The Principal pooled separate accounts investments are valued using accumulation units and are stated at fair value. The dividends, interest, and realized and unrealized gains for the underlying funds are factored into the value of the separate account funds. The dollar value per unit of participation is determined by dividing the total value of the separate account by the total number of units of participation held in the separate account. Investments in shares of registered investment companies and common/collective trusts are stated at their net asset value, based on the quoted market prices of the securities held in such funds. The Corporation's common stock is traded on the Nasdaq Stock Market under the trading symbol "FBAN" and is valued using the average of the bid and ask prices on the last business day of the Plan year.

#### DEMUTUALIZATION

On March 31, 2001, the Board of Directors of Principal Mutual Holding Company adopted a plan for converting Principal Mutual Holding Company from a mutual insurance holding company to a stock company. The plan was approved by policy and contract holders on July 24, 2001 and by the Iowa Insurance Commissioner on

August 28, 2001. The demutualization became effective upon the closing of the IPO on October 26, 2001. In demutualization, membership interests of eligible policy and contract holders are exchanged for compensation, which may be in the form of stock, cash or policy/contract enhancements. The compensation was distributed over a five-day period beginning on December 10, 2001.
