----- Exchange Act (17 CFR 240.13e-4(c))

### INFORMATION TO BE INCLUDED IN THE REPORT

#### ITEM 8.01. OTHER EVENTS

On February 8, 2005, Diamond Offshore Drilling, Inc. (the "Company") issued a press release announcing that the Company has signed Letters of Intent ("LOIs") for term contracts utilizing the Ocean Baroness and Ocean Rover, two 5th generation semisubmersible rigs currently operating in Southeast Asia.

The expected revenue from the combined contracts is approximately \$243 million. Under the Ocean Baroness LOI, the rig is expected to relocate to the U.S. Gulf of Mexico for a one-year contract with Amerada Hess Corp., following completion of its current work in Indonesia in May 2005. The Baroness is projected to require between 90 and 120 days to mobilize to U.S. waters prior to commencement of the contract. The Ocean Rover LOI would provide for an approximately 950-day extension of the rig's current work with Murphy Oil Corp. The contract is expected to include the drilling portion of Murphy's Kikeh development offshore Malaysia.

Filed herewith is a copy of such press release.

Statements in this report that contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, may include, but are not limited to, statements regarding commitments for drilling work or contracts, future dayrates and future contracts, expected revenues, relocation and commencement dates, market conditions and mobilization of the rigs. Forward-looking statements include, without limitation, statements which project, indicate or imply future results and may contain words like "expect," "intend," "plan," "will," "estimated" and "budgeted," among others. Such statements are inherently subject to a variety of risks and uncertainties that could cause actual results to differ materially from those anticipated or projected. These factors include, among others, the risk that an LOI may not result in a binding contract, delays in relocation or mobilization, general economic and business conditions, changes in oil and natural gas prices, casualty losses, industry fleet capacity, changes in foreign and domestic oil and gas exploration and production activity, competition, changes in foreign, political, social and economic conditions, regulatory initiatives and compliance with governmental regulations, customer preferences and various other matters, many of which are beyond the Company's control. Given these concerns, investors and analysts should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of this report. The Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any forward-looking statement is based. A further discussion of the risk factors that could impact these areas and the Company's overall business and financial performance can be found in the Company's reports and other filings with the Securities and Exchange Commission.
