PROXY STATEMENT

General

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Allied Capital Corporation (the Company or Allied Capital) for use at the Company's 2009 Annual Meeting of Stockholders (the Meeting) to be held on May 13, 2009, at 10 a.m. (Eastern Time) at the Fairfax at Embassy Row (formerly the Westin Embassy Row Hotel), 2100 Massachusetts Avenue, NW, Washington, DC and at any adjournments or postponements thereof. This proxy statement, the accompanying proxy card, and the Company's Annual Report on Form 10-K for the year ended December 31, 2008, are first being sent to stockholders on or about March 27, 2009.

We encourage you to vote your shares, either by voting in person at the Meeting or by granting a proxy (*i.e.*, authorizing someone to vote your shares). If you properly sign and date the accompanying proxy card or otherwise provide voting instructions, either via the Internet or the telephone, and the Company receives it in time for the Meeting, the persons named as proxies will vote the shares registered directly in your name in the manner that you specified. **If you give no instructions on the proxy card, the shares covered by the proxy card will be voted FOR the election of the nominees as directors and FOR the other matters listed in the accompanying Notice of Annual Meeting of Stockholders.**

If you are a stockholder of record (*i.e.*, you hold shares directly in your name), you may revoke a proxy at any time before it is exercised by notifying the proxy tabulator, Broadridge Financial Solutions, Inc., in writing. Please send your notification to Allied Capital Corporation, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717, or submit a properly executed, later-dated proxy or vote in person at the Meeting. Any stockholder of record attending the Meeting may vote in person whether or not he or she has previously voted his or her shares. If your shares are held for your account by a broker, bank, or other institution or nominee (Broker Shares), you may vote such shares at the Meeting only if you obtain proper written authority from your institution or nominee and present it at the Meeting.

Stockholders of record may also vote either via the Internet or by telephone. Specific instructions to be followed by stockholders of record interested in voting via the Internet or the telephone are shown on the enclosed proxy card. The

Internet and telephone voting procedures are designed to authenticate the stockholder's identity and to allow stockholders to vote their shares and confirm that their instructions have been properly recorded.

Annual Meeting Admission

If you plan to attend the Meeting, an admission ticket and photo identification will be required for admission to the Meeting. If you are a stockholder of record, your ticket is attached to your proxy card. If your shares are held in the name of a broker or other nominee and you do not have an admission ticket, please bring with you a legal proxy or letter from the broker, trustee, bank, or nominee confirming your beneficial ownership of the shares as of the record date, March 2, 2009, along with your photo identification.

Purpose of Meeting

At the Meeting, you will be asked to vote on the following proposals:

1. To elect four directors of the Company who will serve for three years, or until their successors are elected and qualified;
2. To ratify the selection of KPMG LLP to serve as the independent registered public accounting firm for the Company for the year ending December 31, 2009; and
3. To transact such other business as may properly come before the Meeting and any adjournments or postponements thereof.

Voting Securities

You may vote your shares at the Meeting only if you were a stockholder of record at the close of business on March 2, 2009, the record date. On March 2, 2009, there were 178,691,875 shares of the Company's common stock outstanding. Each share of common stock is entitled to one vote.

The Company's 401(k) Plan owns a total of 388,775 shares, representing less than 1% of the Company's total outstanding shares. The Administrator of the 401(k) Plan will vote the shares on behalf of the participants pursuant to their instructions.

Quorum Required

A quorum must be present at the Meeting for any business to be conducted. The presence at the Meeting, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the record date will constitute a quorum.

Abstentions will be treated as shares present for quorum purposes. Broker Shares for which the nominee has not received voting instructions from the beneficial holder and does not have discretionary authority to vote the shares on certain proposals (which are considered broker non-votes with respect to such proposals) will be treated as shares present for quorum purposes.

If a quorum is not present at the Meeting, the stockholders who are represented may adjourn the Meeting until a quorum is present. The persons named as proxies will vote those proxies for such adjournment, unless marked to be voted against any proposal for which an adjournment is sought, to permit the further solicitation of proxies.

Vote Required

Election of Nominee Directors. The affirmative vote of a majority of the votes cast at the Meeting in person or by proxy is required to elect each of the four nominees as directors. Votes withheld on the matter will not be included in determining the number of votes cast and, as a result, will have no effect on this proposal.

Ratification of Independent Registered Public Accounting Firm. The affirmative vote of a majority of the votes cast at the Meeting in person or by proxy is required to ratify the appointment of KPMG LLP to serve as the Company's independent registered public accounting firm. Abstentions will not be included in determining the number of votes cast and, as a result, will not have any effect on the result of the vote.

Additional Solicitation. If there are not enough votes to approve any proposals at the Meeting, the stockholders who are represented may adjourn the Meeting to permit the further solicitation of proxies. The persons named as proxies will vote those proxies for such adjournment, unless marked to be voted against any proposal for which an adjournment is sought, to permit the further solicitation of proxies. Those proxies voted against any proposal for which an adjournment is sought will be voted against such adjournment. Abstentions and broker non-votes will not be voted and thus will not have any effect on the result of the vote for adjournment.

Also, a stockholder vote may be taken on one or more of the proposals in this Proxy Statement prior to any such adjournment if there are sufficient votes for approval of such proposal(s).

Information Regarding This Solicitation

The Company will bear the expense of the solicitation of proxies for the Meeting, including the cost of preparing, printing, and mailing this proxy statement, the accompanying Notice of Annual Meeting of Stockholders, and the proxy card. The Company has requested that brokers, nominees, fiduciaries, and other persons holding shares in their names, or in the name of their nominees, which are beneficially owned by others, forward the proxy materials to, and obtain proxies from, such beneficial owners. The Company will reimburse such persons for their reasonable expenses in so doing.

In addition to the solicitation of proxies by mail, proxies may be solicited in person and by telephone, facsimile transmission, or telegram by directors, officers, or regular employees of the Company (without special compensation therefor). Any proxy given pursuant to this solicitation may be revoked by notice from the person

giving the proxy at any time before it is exercised. Any such notice of revocation should be provided in writing and signed by the stockholder in the same manner as the proxy being revoked and delivered to the Company's proxy tabulator.

Security Ownership of Management and Certain Beneficial Owners

The following table sets forth, as of March 20, 2009, each stockholder who owned more than 5% of the Company's outstanding shares of common stock, each current director, each nominee for director, each named executive officer of the Company listed in the Summary Compensation Table, and directors and executive officers as a group. Unless otherwise indicated, the Company believes that each beneficial owner set forth in the table has sole voting and investment power. Certain shares beneficially owned by the Company's directors and executive officers may be held in accounts with third-party brokerage firms, where such shares may from time to time be subject to a security interest for margin credit provided in accordance with such brokerage firm's policies.

The Company's directors are divided into two groups—interested directors and independent directors. Interested directors are interested persons as defined in Section 2(a)(19) of the 1940 Act.

Corporate Governance

Director Independence

In accordance with rules of the New York Stock Exchange, or NYSE, the Board of Directors annually determines the independence of each director. No director is considered independent unless the Board of Directors has determined that he or she has no material relationship with the Company. The Company monitors the status of its directors and officers through the activities of the Company's Corporate Governance / Nominating Committee and through a questionnaire to be completed by each director no less frequently than annually, with updates periodically if information provided in the most recent questionnaire has changed.

In order to evaluate the materiality of any such relationship, the Board of Directors uses the definition of director independence set forth in the NYSE Listed Company Manual. Section 303A.00 of the NYSE Listed Company Manual provides that business development companies, or BDCs, such as the Company, are required to comply with all of the provisions of Section 303A applicable to domestic issuers other than Sections 303A.02, the section that defines director independence. Section 303A.00 provides that a director of a BDC shall be considered to be independent if he or she is not an interested person of the Company, as defined in Section 2(a)(19) of the 1940 Act. Section 2(a)(19) of the 1940 Act defines an interested person to include, among other things, any person who has, or within the last two years had, a material business or professional relationship with the Company.

The Board has determined that each of the directors and nominees is independent and has no relationship with the Company, except as a director and stockholder of the Company, with the exception of William L. Walton, John M. Scheurer, Joan M. Sweeney and Robert E. Long. Messrs. Walton and Scheurer and Ms. Sweeney are interested persons of the Company due to their positions as officers of the Company and Mr. Long is an interested person of the Company because he is the father of an officer of the Company. During its assessment of director independence, the Board also considered a donation of \$25,000 by the Company to the American Enterprise Institute where Mr. Pollock serves as a Resident Fellow as well as Mr. Walton's appointment to the board of directors of the American Enterprise Institute. The Board of Directors determined that neither the donation nor Mr. Walton's position on the board of directors impairs Mr. Pollock's status as an independent director. In addition, the Board considered the consulting relationship between the Company and Mr. Mathias, from June 2002 through June 2008, whereby Mr. Mathias was paid \$5,000 per month by the Company. The Board of Directors determined that the prior consulting arrangement, which terminated prior to Mr.

Mathias' appointment to the Board of Directors, did not impair Mr. Mathias' status as an independent director.

Committees of the Board of Directors

The Board of Directors of the Company has established an Executive Committee, an Audit Committee, a Compensation Committee, a Corporate Governance/ Nominating Committee, and a Board Investment Review Committee. From time to time, the Board may establish special purpose committees to address particular matters on behalf of the Board. The Audit Committee, Compensation Committee, and Corporate Governance/ Nominating Committee each operate pursuant to a committee charter. The charter of each Committee is available on the Company's web site at www.alliedcapital.com in the Investor Resources section and is also available in print to any stockholder or other interested party who requests a copy.

During 2008, the Board of Directors of the Company held 27 Board meetings and 63 committee meetings. All directors attended at least 75% of the aggregate number of meetings of the Board and of the respective committees on which they served. Each director makes a diligent effort to attend all Board and committee meetings, as well as the Annual Meeting of Stockholders. Each of the directors was present at the Company's 2008 Annual Meeting of Stockholders.

The Company has designated the Chairman of the Corporate Governance/ Nominating Committee as the Presiding Director to preside at all executive sessions of non-management directors. In his absence, the Chairman of the Audit Committee has been designated to serve in such capacity. Executive sessions of non-management directors are held regularly.

The following table indicates the current members of the committees of the Board of Directors. All of the Company's directors are independent directors, except for Messrs. Walton and Long, and Ms. Sweeney, who are interested persons as defined in Section 2(a)(19) of the 1940 Act.

⁽¹⁾ Permanent member for 2009.

The Board of Directors has appointed John M. Scheurer as a member of the Executive Committee and a permanent member of the Board Investment Review Committee for 2009, subject to his election to the Board.

The Executive Committee. The Executive Committee has and may exercise those rights, powers, and authority that the Board of Directors from time to time grants to it, except where action by the Board is required by statute, an order of the Commission, or the Company's charter or bylaws. The Executive Committee met four times during 2008.

The Board Investment Review Committee. The Board Investment Review Committee reviews and approves certain types of investments made by the Company. The Board Investment Review Committee is composed of five permanent members, who have been appointed to serve for the year, and three additional members, each of whom will serve during at least one quarter during the year on a rotating schedule. The Board Investment Review Committee met 29 times during 2008.

The Audit Committee. The Audit Committee operates pursuant to a charter approved by the Board of Directors and meets the requirements of Section 3(a)(58)(A) of the Securities Exchange Act of 1934, or the Exchange Act. The charter sets forth the responsibilities of the Audit Committee. The primary function of the Audit Committee is to serve as an independent and objective party to assist the Board of Directors in fulfilling its responsibilities for overseeing and monitoring the quality and integrity of the Company's financial statements, the adequacy of the Company's system of internal controls, the review of the independence, qualifications and performance of the Company's independent registered public accounting firm, and the performance of the Company's internal audit function. The Audit Committee met 14 times during 2008. None of the members of the Audit Committee is an interested person of the Company as defined in Section 2(a)(19) of the 1940 Act, pursuant to the requirements of the rules promulgated by the NYSE. In addition, the Company's Board of Directors has determined that Ms. Bates and Messrs. Browne and Garcia are audit committee financial experts as defined under Item 407(d)(5) of Regulation S-K of the Exchange Act as each meets the requirements of Rule 10A-3 of the Exchange Act.

The Compensation Committee. The Compensation Committee approves the compensation of the Company's executive officers, and reviews the amount of salary and bonus for each of the Company's other officers and employees. In addition, the Compensation Committee approves stock option grants for the Company's officers under the Company's Amended Stock Option Plan, and determines other compensation arrangements for employees. None of the members of the Compensation Committee is an interested person of the Company as defined in Section 2(a)(19) of the 1940 Act, pursuant to the requirements of the rules promulgated by the NYSE. The Compensation Committee met ten times during 2008. See Executive Compensation Compensation Discussion and Analysis Establishing Compensation Levels for additional information regarding the Compensation Committee.

The Corporate Governance/Nominating Committee. The Corporate Governance/Nominating Committee recommends candidates for election as directors to the Board of Directors and makes recommendations to the Board as to the Company's corporate governance policies. None of the members of the Corporate Governance/Nominating Committee is an interested person of the Company as defined in Section 2(a)(19) of the 1940 Act, pursuant to the requirements of the rules

promulgated by the NYSE. The Corporate Governance/Nominating Committee met six times during 2008.

The Corporate Governance/Nominating Committee will consider qualified director nominees recommended by stockholders when such recommendations are submitted to the care of the Corporate Secretary in accordance with the Company's bylaws, Corporate Governance Policy, and any other applicable law, rule or regulation regarding director nominations. When submitting a nomination to the Company for consideration, a stockholder must provide certain information that would be required under applicable Commission rules, including the following minimum information for each director nominee: full name, age and address; principal occupation during the past five years; current directorships on publicly held companies and investment companies; number of shares of Company common stock owned, if any; and, a written consent of the individual to stand for election if nominated by the Board of Directors and to serve if elected by the stockholders.

In evaluating director nominees, the Corporate Governance/Nominating Committee considers the following factors:

the appropriate size and composition of the Company's Board of Directors;

whether or not the person is an interested person of the Company as defined in Section 2(a)(19) of the 1940 Act;

the needs of the Company with respect to the particular talents and experience of its directors;

the knowledge, skills, and experience of nominees in light of prevailing business conditions and the knowledge, skills, and experience already possessed by other members of the Board;

familiarity with national and international business matters;

experience with accounting rules and practices;

the capacity and desire to represent the balanced, best interests of the stockholders as a whole and not a special interest group or constituency;

the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members; and

all applicable laws, rules, regulations, and listing standards.

The Corporate Governance/Nominating Committee's goal is to assemble a Board of Directors that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience.

Other than the foregoing, there are no stated minimum criteria for director nominees, although the Corporate Governance/Nominating Committee may also consider such other factors as it may deem to be in the best interests of the Company and its stockholders. The Corporate Governance/Nominating Committee also believes it appropriate for certain key members of the Company's management to participate as members of the Board.

The Corporate Governance/Nominating Committee identifies nominees by first evaluating the current members of the Board of Directors willing to continue in service. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for

re-nomination, balancing the value of continuity of service by existing members of the Board with that of obtaining a new perspective. The Corporate Governance/Nominating Committee considers the age limit guideline included in the Company's Corporate Governance Policy, which suggests that a director should not stand for re-nomination after age 72, but that the Board may, in its discretion, ask a director to stand for re-nomination if the Board believes that such director will continue to make significant contributions to the work of the Board.

Each of the Company's Class II directors and nominees standing for election, including Messrs. Mathias and Scheurer, were recommended by the Corporate Governance/Nominating Committee and nominated by the Board of Directors. If any member of the Board does not wish to continue in service or if the Corporate Governance/Nominating Committee or the Board decides not to re-nominate a member for re-election, or if the Corporate Governance/Nominating Committee recommends to expand the size of the Board of Directors, the Corporate Governance/Nominating Committee identifies the desired skills and experience of a new nominee in light of the criteria above. Current members of the Corporate Governance/Nominating Committee and the Board of Directors provide suggestions as to individuals meeting the criteria of the Corporate Governance/Nominating Committee. Consultants may also be engaged to assist in identifying qualified individuals.

Certain Relationships and Related Transactions

The Company has procedures in place for the review, approval and monitoring of transactions involving the Company and certain related persons of the Company.

As a BDC, the Company is prohibited by the 1940 Act from participating in transactions with any persons affiliated with the BDC, including, officers, directors, and employees of the BDC and any person controlling or under common control with the BDC (the Affiliates) absent a Commission exemptive order.

In the ordinary course of business, the Company enters into transactions with portfolio companies that may be considered related party transactions. In order to ensure that the Company does not engage in any prohibited transactions with any persons affiliated with Company, the Company has implemented the following procedures:

Every proposed transaction must have a completed write-up and a transaction analysis, which should identify all parties to the transaction, including any selling stockholders.

Each transaction is screened by officers of the Company for any possible affiliations, close or remote, between the proposed portfolio investment, the Company, companies controlled by the Company, and any Affiliates of the Company.

All Affiliates are notified by officers of the Company of any proposed transactions and the parties involved in the transaction, and are asked to notify the Private Finance General Counsel or the Chief Compliance Officer or any other officer of the Company who has been designated to serve in this capacity (each a Screening Officer).

A Screening Officer analyzes all potential affiliations between the proposed portfolio investment, the Company, companies controlled by the BDC, and any Affiliates of the Company to determine if prohibited affiliations exist.

A Screening Officer obtains the advice of legal counsel whenever there is uncertainty as to whether particular persons involved in a proposed transaction are Affiliates of the Company.

A Screening Officer reviews the terms of each transaction to review whether any affiliated person could receive brokerage commissions that exceed the provisions of the 1940 Act.

No agreement shall be entered into unless and until a Screening Officer is satisfied that no affiliations prohibited by the 1940 Act exist or, if such affiliations exist, appropriate actions have been taken to seek Board review and approval or exemptive relief for such transaction. The Board of Directors reviews these procedures on an annual basis.

In addition, the Company's Code of Business Conduct, which is annually reviewed and approved by the Board of Directors and acknowledged in writing by all employees, requires that all employees and directors avoid any conflict, or the appearance of a conflict, between an individual's personal interests and the interests of the Company. Pursuant to the Code of Business Conduct, each employee and director must disclose any conflicts of interest, or actions or relationships that might give rise to a conflict, to the Chief Compliance Officer. In the event that either of these officers is involved in the action or relationship giving rise to the conflict of interest, the individual is directed to disclose the conflict to another member of the Company's senior management team. The Corporate Governance/
Nominating

Committee is charged with monitoring and making recommendations to the Board of Directors regarding policies and practices relating to corporate governance. Certain actions or relationships that might give rise to a conflict of interest are reviewed and approved by the Board of Directors.

The following table sets forth certain information, as of March 20, 2009, regarding indebtedness to the Company in excess of \$120,000 of any person serving as a director or executive officer of the Company and of any nominee for election as a director at any time since January 1, 2008. All of such indebtedness results from loans made by the Company to enable the exercise of stock options. The loans are full recourse against the borrower and have varying terms not exceeding ten years. The interest rates charged generally reflect the applicable federal rate on the date of the loan.

As a BDC under the 1940 Act, the Company is entitled to provide and has provided loans to officers of the Company in connection with the exercise of stock options. However, as a result of provisions of the Sarbanes-Oxley Act of 2002, the Company has been prohibited from making new loans to its executive officers since July 30, 2002.

Executive Compensation

Compensation Discussion and Analysis

Overview of the Compensation Program

Current Market Environment. The United States and the global economies are in a state of severe economic recession, which has had a far-reaching impact on the financial services industry. The U.S. capital markets have been experiencing extreme volatility and a lack of liquidity. The Company experienced a significant reduction in its net

worth during the second half of 2008, primarily resulting from net unrealized

depreciation on its portfolio, which reflects market conditions. As a result of current market conditions, the Company took steps during 2008 to reorganize its operations and reduce employee expense.

During the third quarter of 2008, the Company consolidated its investment execution activities to its Washington, DC headquarters and its office in New York in an effort to improve operating efficiencies. As the Company transitioned and consolidated its operations, it reduced headcount by approximately 30 employees in the third quarter of 2008. In January 2009, the Company reduced headcount by an additional 20 employees and further consolidated its operations. Although the Company incurred severance expense in connection with these terminations, the Company expects that future employee expense will be significantly reduced as a result of these headcount reductions.

In addition, during 2008, the Company substantially decreased its bonus pool from \$40.1 million in 2007 to \$1.0 million in 2008. The Company accrued \$11.2 million in performance awards in 2008. In lieu of paying these amounts as a 2008 bonus, which the Company would typically pay in the first quarter of 2009, these amounts will be paid in installments ending on January 15, 2010. An employee must be employed on the payment dates in order to receive the installment payment.

The Company believes that the steps it has taken to reduce employee expense are appropriate in the current market environment. The Company also believes, however, that it is important to take steps to retain key officers, especially in times of economic uncertainty. As discussed more fully below, compensation for 2008 was determined with a focus on balancing reductions in employee expense with the importance of retaining employees that are critical to the success of the Company.

Compensation Philosophy. Allied Capital's compensation and benefits programs are designed with the goal of providing compensation that is fair, reasonable, competitive and appropriate for market conditions. The programs are intended to help the Company align the compensation paid to its executive officers with the achievement of certain corporate and executive performance objectives that have been established to achieve the long-term objectives of the Company. The Company also believes that its compensation programs should enable the Company to attract, motivate, and retain key officers who will contribute to the Company's future success.

The design of the Company's compensation programs is based on the following three guiding factors:

Achievement of Corporate and Individual Performance Objectives The Company believes that the best way to accomplish alignment of compensation with the interests of its stockholders is to link pay to individual performance and individual contributions to the returns generated for stockholders. Compensation is determined on a discretionary basis and is dependent on the achievement of certain corporate and individual performance objectives that have been established to achieve long-term objectives of the Company. When individual performance exceeds expectations and performance goals established during the year, pay levels for the individual are expected to be above competitive market levels. When individual performance falls below expectations, pay levels are expected to be below competitive levels.

Competitiveness and Market Alignment The Company's compensation and benefits programs are designed to be competitive with those provided by companies with whom it competes for talent and to be sufficient to attract the best talent from among top performers in its industry. Benefit programs are designed to provide competitive levels of protection and financial security and are not based on performance. As part of its annual review process, the Compensation Committee reviews the competitiveness of the Company's current compensation levels of its key employees and executives with a third-party compensation consultant against the competitive market and relative to overall corporate performance, including market conditions, during the year. The Compensation Committee also reviews tally sheets annually, which illustrate all components of compensation for the named executive officers, or NEOs, who have employment agreements with the Company.

Alignment with Requirements of the 1940 Act The Company's compensation program must align with the requirements of the 1940 Act, which imposes certain limitations on the structure of a BDC's compensation program. For example, the 1940 Act prohibits a BDC from maintaining a stock option plan and a profit sharing arrangement simultaneously. As a result, if a BDC has a stock option plan, it is prohibited from using a carried interest formula, a common form of compensation in the private equity industry, as a form of compensation. Because of these and other similar limitations imposed by the 1940 Act, the Compensation Committee is limited as to the type of compensation arrangements that can be utilized in order to attract, retain and motivate employees.

Components of Total Compensation. The Compensation Committee determined that the compensation packages for 2008 for the NEOs, who are identified in the Summary Compensation Table, should generally consist of the following five key components:

Annual base salary;

Annual cash bonus;

Stock options, priced at current market value;

Individual Performance Award, or IPA, which is a cash award that is generally determined at the beginning of the year based upon the individual performance of the officer and is paid in semi-annual installments (June and December) during the year; and

Individual Performance Bonus, or IPB, which is a cash award that is generally determined at the beginning of the year based upon the individual performance of the officer and is paid bi-weekly as current compensation during the year.

Base Salary. Base salary is designed to attract and retain experienced executives who can drive the achievement of the Company's goals and objectives. While an executive's initial base salary is determined by an assessment of competitive market levels, the factors used in determining changes to base salary include individual performance, changes in role and/or responsibility and changes in the competitive market environment.

The Company has entered into employment agreements with William L. Walton, the Company's Chairman of the Board, Joan M. Sweeney, the Company's Chief Operating Officer, and Penni F. Roll, the Company's Chief Financial Officer, which

provides for the base salary of each of these executives. See Employment Agreements below for information regarding the material terms of these agreements.

Annual Cash Bonus. The annual cash bonus is designed to reward those executives that have achieved certain corporate and individual performance objectives and have contributed to the achievement of certain long-term objectives of the Company. The amount of the annual cash bonus is determined by the Compensation Committee on a discretionary basis. During 2008, the Company substantially decreased its bonus pool from \$40.1 million in 2007 to \$1.0 million in 2008. The Company also accrued \$11.2 million in performance awards in 2008. In lieu of paying these amounts as a 2008 bonus, which the Company would typically pay in the first quarter of 2009, these amounts will be paid in installments ending on January 15, 2010. An employee must be employed on the payment dates in order to receive the installment payment. The Company's Chairman of the Board, Chief Executive Officer, Chief Operating Officer and Chief Financial Officer received no bonus or performance award for 2008.

Stock Options. The Company's principal objective in awarding stock options to the officers and directors of the Company is to align each optionee's interests with the success of the Company and the financial interests of its stockholders by linking a portion of such optionee's compensation with the performance of the Company's stock and the value delivered to stockholders. The Compensation Committee evaluates a number of criteria, including the past service of each such optionee to the Company, the present and potential contributions of such optionee to the performance of the Company, and such other factors as the Compensation Committee shall deem relevant in connection with accomplishing the purposes of the Amended Stock Option Plan, including the recipient's current stock holdings, years of service, position with the Company, and other factors. The Compensation Committee does not apply a formula assigning specific weights to any of these factors when making its determination. The Compensation Committee awards stock options on a subjective basis and such awards depend in each case on the performance of the officer under consideration, and in the case of new hires, their potential performance.

The Company believes that stock option awards are an important form of compensation, particularly in the current economic environment. Stock option awards provide the Company with a form of compensation that directly aligns employee interests with shareholder interests. In addition, stock option awards are granted as a form of long-term compensation designed to retain key personnel while also serving as a non-cash form of compensation to enable the Company to preserve cash. On March 3, 2009, options to purchase 10.6 million shares were granted to 38 officers with an exercise price of \$0.73 per share. These options vest ratably on June 30, 2009, June 30, 2010 and June 30, 2011. Many of these options were granted in connection with the retention agreements entered into with several key employees of the Company as an incentive for those key employees to continue to contribute to the success of the Company.

IPA and IPB The IPA and IPB are part of an incentive compensation program for certain officers and are generally determined annually at the beginning of each year but may be adjusted throughout the year. In 2008, IPAs were paid in cash in two equal installments during the year. The IPB was distributed in cash to award recipients throughout the year. An employee must be employed on the payment dates in order to receive IPA or IPB payments.

The Company currently has not established an IPA or IPB for 2009 as part of its efforts to reduce employee expense; however, depending upon the Company's need to retain and motivate its employees, the Company may determine in conjunction with the Compensation Committee of the Board of Directors that some form of 2009 retention compensation or individual performance compensation may be in the best interests of the Company.

Employment Agreements and Severance Arrangements. The Company entered into employment agreements in 2004 with Mr. Walton and Mmes. Sweeney and Roll. These agreements were reviewed in 2008 and amended to comply with regulatory changes in the Code and to address other tax related matters. In connection with the separation of the Chief Executive Officer and Chairman roles effective in March 2009, Mr. Walton entered into an amendment to his employment agreement with the Company. Under that amendment Mr. Walton agreed to serve as a full time Chairman of the Board of Directors with a reduced base salary of \$1.1 million. In this capacity, Mr. Walton will be an executive officer of the Company responsible for the overall strategic direction of the Company. In addition, Mr. Walton waived any claims he may have had under his employment agreement to resign for good reason upon no longer serving as the Company's Chief Executive Officer because the change to Mr. Walton's position had been made at his request. Pursuant to each of these agreements, if the executive's employment is terminated without cause during the term of the agreement, or within 24 months of a change of control, the executive shall be entitled to severance pay. See *Severance and Change of Control Arrangements Under Employment Agreements* for more detail.

The Company anticipates that it will enter into an employment agreement with John M. Scheurer in his role as Chief Executive Officer and President.

Retention Agreements. On March 3, 2009, the Company entered into retention agreements with certain key officers who do not have employment agreements with the Company, including Mr. Russell and Mr. Monk. As discussed above, the Company believes that it is important to retain its key management team through this period of economic uncertainty. Pursuant to these agreements, in the event of a termination, other than for cause, or if the officer terminates his or her employment for good reason within 90 days prior to or 18 months following a change of control of the Company, the officer will receive a retention award to be paid in a lump sum six months following the officer's separation from service. The officer would also receive one year of COBRA coverage following the separation from service.

401(k) Plan. The Company maintains a 401(k) Plan. All employees who are at least 21 years of age have the opportunity to contribute pre-tax or after-tax salary deferrals to the 401(k) Plan, up to \$16,500 annually for the 2009 plan year, and to direct the investment of these contributions. Plan participants who are age 50 or older during the 2009 plan year are eligible to defer an additional \$5,500 during 2009. The 401(k) Plan includes the Allied Capital Stock Fund, consisting of Allied Capital common stock and cash, among other investment options. Beginning in December 2008, the Allied Capital Stock Fund is no longer available for future contributions; however, participants may maintain any existing investment in the fund. On March 20, 2009, the 401(k) Plan held less than 1% of the outstanding shares of the Company.

The Company's 401(k) Plan provides that the Company will match 100% of the first 4% of deferral contributions made by each participant up to the maximum eligible compensation limit, which is \$245,000 for 2009.

Insurance. The Company makes available to all employees health insurance, dental insurance, and group life and disability insurance. Prior to the Sarbanes-Oxley Act of 2002, the Company provided split dollar life insurance arrangements for certain senior officers. The Company has subsequently terminated its obligations to pay future premiums with respect to existing split-dollar life insurance arrangements.

Perquisites. The Company provides only limited perquisites such as Company-paid parking to certain officers, including its NEOs. The Company has utilized corporate aircraft for business use in an effort to improve the efficiency of required business travel. Imputed income determined in accordance with the Internal Revenue Service requirements is reflected in an NEO's aggregate compensation for income tax purposes for any business trip on which a non-employee family member or guest accompanies the NEO. In connection with its efforts to reduce expenses, the Company significantly reduced the use of its corporate aircraft in 2008, and has undertaken a process to sell its corporate aircraft. For compensation disclosure purposes, the value of such travel by non-employee family members or guests is calculated by allocating costs incurred. With respect to travel by non-employee family members or guests, this is computed by allocating direct and indirect expenses, other than depreciation, on a per hour basis. Direct and indirect expenses generally include crew compensation and expenses, fuel, oil, catering expenses, hangar, rent, insurance, landing and similar fees, and maintenance costs.

Establishing Compensation Levels

Role of the Compensation Committee. The Compensation Committee is comprised entirely of independent directors who are also non-employee directors as defined in Rule 16b-3 under the Exchange Act and independent directors as defined by NYSE rules.

The Compensation Committee operates pursuant to a charter that sets forth the mission of the Compensation Committee and its specific goals and responsibilities. The Compensation Committee's mission is to evaluate and make recommendations to the Board regarding the compensation of the Chief Executive Officer and other executive officers of the Company, and their performance relative to their compensation, and to assure that they are compensated effectively in a manner consistent with the compensation philosophy discussed earlier, internal equity considerations, competitive practice, and the requirements of applicable law and the appropriate regulatory bodies. In addition, the Compensation Committee evaluates and makes recommendations to the Board regarding the compensation of the directors, including their compensation for service on Board committees.

The Compensation Committee's charter reflects these goals and responsibilities, and the Compensation Committee annually reviews and revises its charter as necessary. To assist in carrying out its responsibilities, the Compensation Committee periodically receives reports and recommendations from management and from a third-party compensation consultant that it selects and retains. The Compensation Committee may also, from time to time, consult with legal, accounting or other advisors all in accordance with the authority granted to the Compensation Committee in its charter.

Role of Management. The key members of management involved in the compensation process are the Chairman of the Board, the Chief Executive Officer, the Chief Operating Officer and the Director of Human Resources. Management proposes certain corporate and individual performance objectives for executive management that could be established to achieve long-term objectives of the Company and used to determine total compensation, and these proposals are presented to the Compensation Committee for review and approval. Management also participates in the discussion of peer companies to be used to benchmark NEO compensation, and recommends the overall funding level for the Company's compensation programs. Management's recommendations are presented to the Compensation Committee for review and approval.

Role of the Compensation Consultant. The Compensation Committee annually retains a third-party compensation consultant to assess the competitiveness of the current and proposed compensation levels of the Company's NEOs in light of competitive market practices. The Compensation Committee has engaged Ernst & Young LLP's Performance and Reward Practice or its predecessor (the Compensation Consultant) for this purpose for more than five years.

The Compensation Consultant attends Compensation Committee meetings, meets with the Compensation Committee without management present and provides third-party data, advice and expertise on current and proposed executive and director compensation. At the direction of the Compensation Committee, the Compensation Consultant prepares an analysis of compensation matters including positioning of programs in the competitive market, including peer group review, and the design of plans consistent with the Compensation Committee's compensation philosophy.

Ernst & Young, LLP provides consulting and other services to the Company, however, the Compensation Committee believes this does not compromise the Compensation Consultant's ability to provide an independent perspective on executive compensation. During 2008, the Compensation Consultant was paid \$133,376 for its services to the Compensation Committee.

Assessment of Market Data, Peer Comparisons and Benchmarking of Compensation. The Compensation Consultant assists the Compensation Committee with the assessment of the compensation practices of comparable companies. Given the Company's structure as a publicly traded, internally managed BDC coupled with the fact that most of the Company's direct competitors are privately held private equity partnerships, specific compensation information with respect to the Company's direct competitors typically is not publicly available. There are a limited number of published survey sources that have a primary focus on the private equity industry and that provide annualized information on long-term incentive plans in the industry, which typically take the form of carried interest.

As a part of the annual assessment of compensation, the Compensation Committee and the Compensation Consultant analyze NEO compensation information relative to a peer group of publicly traded companies, as determined by the Compensation Committee, including internally managed BDCs, deemed similar to the Company in terms of industry segment, company size and competitive industry and geographic market for executive talent.

The Company's peer group is substantially the same peer group used for its 2006 and 2007 analyses. For its 2008 analysis, the Company removed T. Rowe Price from its peer group due to its size relative to the Company and added Affiliated Managers

Group, Inc. based on its similar industry, employee population, market capitalization and asset size. For 2008, the peer group is composed of the following nine publicly traded companies in the financial services industry:

Affiliated Managers Group, Inc.
AllianceBernstein Holding L.P.
American Capital Strategies, Ltd.
CapitalSource Inc.
CIT Group Inc.

Federated Investors, Inc.
Friedman, Billings, Ramsey Group, Inc.
iStar Financial, Inc.
Legg Mason, Inc.

The Compensation Committee generally benchmarks the Company's compensation for the CEO, CFO and COO to the median (50th percentile) through the 75th percentile of competitive market data. However, the Compensation Committee is unable to benchmark the compensation data of individuals from the externally managed companies because no individual compensation data is available.

In prior years, the Compensation Committee and the Compensation Consultant have also analyzed NEO compensation information relative to published survey data on similarly sized private equity firms and an estimation of aggregate compensation levels paid by externally managed publicly traded BDCs and similar pass-through structures, such as real estate investment trusts.

For 2008, the Compensation Committee and the Compensation Consultant did not review these additional sources given the changing dynamics of pay practices in these types of organizations. In addition, because survey data is only available with a one-year lag, there was a concern that the market data reflected in the survey sources would overstate current compensation levels, given the current economic conditions.

While comparisons to compensation levels at the Company's peer group is helpful in assessing the overall competitiveness of its executive compensation program, the Company believes that its executive compensation program also must be internally consistent and equitable in order for the Company to achieve its investment objectives and to continue to attract and retain outstanding employees.

The Compensation Committee considers many factors, including each individual's contribution to the Company that year to assess internal pay equity. As a result, the composition of the Company's NEOs, excluding the Chief Executive Officer and the Chief Financial Officer, may change from year to year.

Review of Tally Sheets. The Compensation Committee annually reviews tally sheets that illustrate all components of the compensation provided to the Company's NEOs who have employment agreements with the Company, including base salary, performance awards, annual cash bonus, IPAs and IPBs, stock option awards, perquisites and benefits. Furthermore, the Compensation Committee annually reviews tally sheets prepared by the Compensation Consultant that illustrate the aggregate amounts that may be paid as the result of certain events of termination under employment agreements including a change of control for Mr. Walton and Mmes. Sweeney and Roll. The purpose of these tally sheets is to bring together, in one place, all of the elements of actual and potential future compensation for its executives who have employment agreements so that the Compensation Committee may analyze both the individual elements of compensation as well as the aggregate total amount of actual and projected compensation. The Compensation Committee also provides a full report of all compensation program components to the Board of Directors, including the review and discussion of the tally sheets.

Assessment of Corporate and Individual Performance. The Compensation Committee considered certain corporate and individual performance measures that have been established to achieve the Company's objectives, including long-term total return to stockholders. The corporate and individual performance measures for 2008 included, among others, the following:

Setting strategic direction;

Maintaining the highest ethical standards, internal controls and adherence to regulatory requirements;

Maintaining appropriate dividend payouts to shareholders with the appropriate balance of interest and fee income and capital gain harvest;

Maintaining a conservative balance sheet and investment grade status;

Continually innovating and improving the Company's investment process;

Maintaining portfolio credit quality and improving overall portfolio performance;

Continually innovating and improving financial and operating services provided to portfolio companies; and

Attracting and retaining the best and brightest talent, developing potential successors for future leadership roles.

During 2008, the Company achieved numerous strategic investment and operational goals and objectives, including, among other things:

Raised \$402.5 million in new equity capital;

Invested \$1.1 billion;

Generated \$1.0 billion in principal collections related to investment repayments or sales;

Decreased indebtedness by \$344.5 million;

Paid \$456.5 million in dividends to stockholders, primarily from 2007 taxable income;

Grew the asset management platform through the addition of the AGILE Fund and two Knightsbridge CLOs; and

Reduced costs and improved efficiency through various operational initiatives.

Compensation Determination

In determining the individual compensation for the Company's NEOs, the Compensation Committee considers the total compensation to be awarded to each NEO and may exercise discretion in determining the portion allocated to the various components of total compensation. There is no pre-determined weighting of any specific components. The Company believes that the focus on total compensation provides the ability to align pay decisions with short- and long-term needs of the business. This approach also allows for the flexibility needed to recognize differences in performance by providing differentiated pay.

Individual compensation levels for NEOs are determined based on individual performance and the achievement of certain corporate and executive performance objectives that have been established to achieve long-term objectives of the Company. Increases to base salary may be awarded to recognize an executive for assuming additional responsibilities and his/her related performance, to address changes in the external competitive market for a given position, or to achieve an appropriate competitive level due to a promotion to a more senior position.

In determining the amount of an executive's variable compensation—an annual cash bonus, performance award, IPA, IPB and stock option award—the Compensation Committee considers the overall funding available for such awards, the executive's performance, and the desired mix between the various components of total compensation. The Company does not use a formula-based approach in determining individual awards or weighting between the components. Rather, discretion is exercised in determining the overall total compensation to be awarded to the executive. As a result, the amounts delivered in the form of an annual cash bonus, performance award, IPA, IPB and stock option award are designed to work together in conjunction with base salary to deliver an appropriate total compensation level to the NEO.

The Company believes that the discretionary design of its variable compensation program supports its overall compensation objectives by allowing for significant differentiation of pay based on individual performance and by providing the flexibility necessary to ensure that pay packages for its NEOs are competitive relative to its market.

Determination of 2008 Compensation for the CEO and other NEOs. The compensation of the Chief Executive Officer and other NEOs is determined based on the achievement of certain corporate and individual performance objectives discussed above. The Compensation Committee acknowledged the fact that, while management had achieved numerous strategic investment and operational goals and objectives for the year, market conditions had resulted in a significant reduction in the Company's net worth and stock price during the latter half of 2008, which adversely affected total return to stockholders for the year. As discussed above, in lieu of paying 2008 bonuses to the Company's officers, which the Company would typically pay in the first quarter of 2009, the Company will pay a performance award to certain officers in installments ending on January 15, 2010. In addition, the Company currently has not established an IPA or IPB for 2009; IPA and IPB amounts for 2008 were approved in January 2008 and paid throughout 2008.

Mr. Walton was paid an annual base salary of \$1,703,300 in 2008 compared to \$1,500,000 paid in 2007. In connection with the separation of the roles of Chairman of the Board and Chief Executive Officer, Mr. Walton entered into an amendment to his employment agreement which, among other things, provides that Mr. Walton's base salary will be reduced to \$1.1 million, effective March 3, 2009. Mr. Walton did not receive a bonus or a performance award for 2008, compared to an annual bonus for 2007 of \$2,150,000, a 22% reduction from the annual bonus that was paid for 2006. Mr. Walton also received a 2008 IPA of \$1,475,000 and a 2008 IPB of \$1,475,000, which were the same amounts as the prior year. Mr. Walton received a grant of 575,000 stock options in 2008, compared to 186,000 in 2007 and none in 2006.

Ms. Sweeney was paid an annual base salary of \$1,115,800 for 2008 compared to \$1,000,000 for 2007 and 2006. Ms. Sweeney did not receive an annual bonus or a

performance award for 2008, compared to a bonus of \$1,300,000 for 2007 and \$1,500,000 for 2006. Ms. Sweeney received a 2008 IPA of \$850,000 and a 2008 IPB of \$850,000. Ms. Sweeney did not receive a grant of stock options in 2008 or 2006; she received a grant of 139,500 stock options in 2007.

For 2008, Ms. Roll was paid an annual base salary of \$584,500, compared to \$525,000 for both 2007 and 2006. Ms. Roll did not receive an annual bonus or a performance award for 2008 compared to \$850,000 paid in both 2007 and 2006. Ms. Roll received a 2008 IPA of \$350,000 and a 2008 IPB of \$350,000. Ms. Roll received a grant of 250,000 stock options in 2008 compared to a grant of 139,500 stock options in 2007 and none in 2006.

Mr. Monk was paid an annual base salary of \$598,300 for 2008. Mr. Monk received a performance award for 2008 in the amount of \$1,000,000 which will be paid in installments ending on January 15, 2010, in recognition of his individual performance. He received a 2008 IPA of \$250,000 and a 2008 IPB of \$250,000. Mr. Monk received a grant of 250,000 stock options in 2008.

For 2008, Mr. Russell was paid an annual base salary of \$633,300. Mr. Russell did not receive an annual bonus or a performance award for 2008 compared to \$1,700,000 paid in 2007. Mr. Russell received a 2008 IPA of \$475,000 and a 2008 IPB of \$475,000. Mr. Russell received a grant of 250,000 stock options in 2008 compared to a grant of 186,000 stock options in 2007.

Mr. Grisius was paid an annual base salary of \$653,800 for 2008. Mr. Grisius did not receive an annual bonus for 2008; he received a 2008 IPA of \$400,000 and a 2008 IPB of \$400,000. Mr. Grisius received a grant of 250,000 stock options in 2008. Effective December 19, 2008, Mr. Grisius was no longer employed by the Company. In connection with his departure from the Company, Mr. Grisius received severance of \$700,000, payable in 10 installments beginning December 19, 2008.

Stock Option Practices

The Company's principal objective in awarding stock options to the officers and directors of the Company is to align each optionee's interests with the success of the Company and the financial interests of its stockholders by linking a portion of such optionee's compensation with the performance of the Company's stock and the value delivered to stockholders. The Compensation Committee awards stock options on a subjective basis and such awards depend in each case on the performance of the officer under consideration, and in the case of new hires, their potential performance. Stock options are priced at the closing price of the stock on the date the option is granted. See Amended Stock Option Plan.

Restricted Stock

In October 2007, the Company filed an exemptive application with the Commission to permit the issuance of restricted stock to the Company's employees and non-officer directors. If the Company were to receive an order from the Commission to permit such issuance, the Company would be required to seek the approval of stockholders before it may issue restricted stock. Assuming the Corporation obtained stockholder approval, the Board of Directors would consider the issuance of restricted stock together with the issuance of stock options as another form of equity compensation.

Target Ownership Program

During 2006, the Board of Directors established a target ownership program to encourage share ownership by the Company's senior officers, so that the interests of the officers and stockholders are aligned. Target ownership amounts represent the lesser of a multiple of base salary or a specified number of shares. Generally, officers have five years to achieve their target ownership level, which is determined on an individual basis by the Compensation Committee and adjusted annually to reflect increases in base salary, if any. The Compensation Committee considers these target ownership levels and each individual's progress toward achieving his or her target ownership in connection with its annual compensation review. See "Target Ownership" for additional information related to the target ownership program.

Impact of Regulatory Requirements Tax Deductibility of Pay

Section 162(m) of the Code places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any one year, which applies with respect to certain of its most highly paid executive officers for 2008. There is an exception to the \$1,000,000 limitation for performance-based compensation meeting certain requirements. To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Compensation Committee has not adopted a performance-based compensation policy. The total compensation for each of Messrs. Walton, Russell, Monk and Ms. Sweeney is above the \$1,000,000 threshold for 2008; accordingly, for 2008, a portion of their total compensation, including salaries, bonuses, IPBs, and other compensation is not deductible by the Company.

Compensation Committee Report

The Compensation Committee, composed entirely of independent directors, reviewed and discussed the above Compensation Discussion and Analysis with the Company's management. Based on the Compensation Committee's deliberations and discussions with management, the Compensation Committee recommends that the Board of Directors include the Compensation Discussion and Analysis in the Company's Proxy Statement.

(1) Effective December 19, 2008, Mr. Grisius was no longer employed by the Company.

(2) This column includes annual cash bonus, IPA, IPB, performance awards, and for 2007 the excess 401(k) Plan contribution, which represents the excess amount of the 4% employer contribution over the IRS limit of how much an employer may contribute to the 401(k) plan which was paid in cash for 2007. For 2006, this excess contribution was contributed to the 2005 DCP I. For a discussion of these compensation components, see Compensation Discussion and Analysis above. IPA and IPB amounts were determined at the beginning of the year and paid throughout the respective year. The Company accrued for performance awards in 2008. In lieu of paying

these amounts as a 2008 bonus, the Company will pay these amounts in installments ending on January 15, 2010. Recipients of performance awards must be employed on the installment payment dates in order to receive the payment. The other named executive officers received no performance award for 2008. The following table provides detail as to the composition of the bonus received by each of the NEOs:

(3) The following table sets forth the amount included in the Option Awards column with respect to prior year awards and the 2008 awards. See Note 2 to our 2008 consolidated financial statements for the assumptions used in determining SFAS 123R values. See the Grants of Plan-Based Awards table for the full fair value of the options granted to NEOs in 2008. The

amount recognized for financial statement reporting purposes represents the SFAS 123R fair value of options awarded in prior and current years that vested in 2008, which are non-cash expenses.

(4) There were no above market or preferential earnings on the non-qualified deferred compensation plans. See Non-Qualified Deferred Compensation below.

(5) All Other Compensation is composed of the following:

Mr. Walton	2008	\$ 9,200			\$ 19,303

(A) Because the IRS limits the amount an employer may contribute to a 401(k) plan on behalf of each participant, for 2006 the Company contributed the excess amount of the 5% employer contribution over this limit to the 2005 Allied Capital Corporation Non-Qualified Deferred Compensation Plan, or 2005 DCP I, on behalf of the participant. For 2007, this excess contribution was paid in cash to the participant and is included as a bonus in 2007. No excess contribution was paid in 2008.

- (B) During 2007, the Company completed a tender offer for vested in-the-money options in exchange for an option cancellation payment, or OCP. Because the weighted average market price of the Company's common stock at the commencement of the tender offer was higher than the market price at the close of the tender offer, SFAS 123R required the Company to record stock option expense related to the stock options cancelled. This is a non-cash expense deemed to be compensation for financial reporting purposes.
- (C) These amounts include perquisites such as group life insurance premiums of \$348 for each Named Executive Officer; the imputed income value of split dollar life insurance arrangements of \$4,312, \$3,428, \$1,576, \$3,629 and \$1,399 for Mr. Walton, Ms. Sweeney, Ms. Roll, Mr. Monk and Mr. Grisius, respectively; Company-paid parking of \$2,940, \$2,955, \$2,940, \$2,980, \$2,260 and \$2,695 for Mr. Walton, Ms. Sweeney, Ms. Roll, Mr. Russell, Mr. Monk and Mr. Grisius, respectively. In addition, the amounts for 2008 include \$4,013 and \$2,952 for Mr. Walton and Mr. Monk, respectively, for premiums associated with executive long-term disability insurance. The amount for 2008 includes \$7,690 for Mr. Walton, and the amounts for 2007 include \$23,994 for Mr. Walton, \$2,370 for Ms. Sweeney, and \$1,241 for Mr. Russell related to the allocated costs associated with the travel of non-employee family members or guests when they have accompanied the NEOs on trips for business purposes. The value of this perquisite is different than each NEO's imputed income, which is calculated in accordance with IRS requirements. The Company significantly reduced the use of its corporate aircraft in 2008, and has undertaken a process to sell its corporate aircraft. The amount for Mr. Monk in 2008 includes \$17,645 in relocation expenses paid by the Company. The amount for Mr. Grisius in 2008 includes \$735,205 of severance and other termination benefits payable upon his termination from the Company as of December 19, 2008.

Employment Agreements

The Company entered into employment agreements in 2004 with William L. Walton, the Company's Chairman and CEO, Joan M. Sweeney, the Company's Chief Operating Officer, and Penni F. Roll, the Company's Chief Financial Officer. These agreements were amended in 2007 and in 2008 to comply with Section 409A of the Code and to address other tax-related matters. In connection with the separation of

the Chief Executive Officer and Chairman roles effective in March 2009, Mr. Walton entered into an amendment to his employment agreement with the Company. Under that amendment Mr. Walton agreed to serve as a full time Chairman of the Board Directors with a reduced base salary of \$1.1 million. In this capacity, Mr. Walton will be an executive officer of the Company responsible for the overall strategic direction of the Company. In addition, Mr. Walton waived any claims he may have had under his employment agreement to resign for good reason upon no longer serving as the Company's Chief Executive Officer because the change to Mr. Walton's position had been made at his request.

Each of the agreements provides for a three-year term that extends one day at the end of every day during its length, unless either party provides written notice of termination of such extension. In that case, the agreement would terminate three years from such notification.

Each agreement specifies each executive's base salary compensation during the term of the agreement. The Compensation Committee has the right to increase but not decrease the base salary during the term of the employment agreement. In addition, each employment agreement states that the Compensation Committee may provide, at their sole discretion, an annual cash bonus. This bonus is to be determined with reference to each executive's performance in accordance with performance criteria to be determined by the Compensation Committee in its sole discretion. Under each agreement, each executive is also eligible to participate in the Company's Amended Stock Option Plan, and to receive all other awards and benefits previously granted to each executive, including the payment of life insurance premiums.

The executive has the right to voluntarily terminate employment at any time with 30 days' notice, and in such case, the employee will not receive any severance pay. Among other things, the employment agreements prohibit the solicitation of employees from the Company in the event of an executive's departure for a period of two years. See "Severance and Change of Control Arrangements Under Employment Agreements" for a discussion of the severance and change of control arrangements set forth in each of these agreements.

The Company anticipates that it will enter into an employment agreement with John M. Scheurer in his role as Chief Executive Officer and President.

Amended Stock Option Plan

The Company's Amended Stock Option Plan, or Option Plan, is intended to encourage stock ownership in the Company by officers and directors, thus giving them a proprietary interest in the Company's performance, to reward outstanding performance, and to provide a means to attract and retain persons of outstanding ability to the service of the Company. The Option Plan was last approved by stockholders in May 2007.

As discussed in the Compensation Discussion and Analysis, the Company's Compensation Committee believes that stock-based incentive compensation is a key element of officer and director compensation. The Compensation Committee's principal objective in awarding stock options to the eligible officers of the Company is to align each optionee's interests with the success of the Company and the financial interests of its stockholders by linking a portion of such optionee's compensation with the performance of the Company's stock and the value delivered to stockholders.

Stock options are granted under the Option Plan at a price not less than the prevailing market value at the grant date and will have realizable value only if the Company's stock price increases. The Compensation Committee determines the amount and features of the stock options, if any, to be awarded to optionees. The Compensation Committee evaluates a number of criteria, including the past service of each such optionee to the Company, the present and potential contributions of such optionee to the success of the Company, and such other factors as the Compensation Committee shall deem relevant in connection with accomplishing the purposes of the Option Plan, including the recipient's current stock holdings, years of service, position with the Company, and other factors. The Compensation Committee does not apply a formula assigning specific weights to any of these factors when making its determination. The Compensation Committee awards stock options on a subjective basis and such awards depend in each case on the performance of the officer under consideration, and in the case of new hires, their potential performance. Pursuant to the 1940 Act, options may not be repriced for any participant.

All rights to exercise options terminate 60 days after an optionee ceases to be (i) a non-officer director, (ii) both an officer and a director, if such optionee serves in both capacities, or (iii) an officer (if such officer is not also a director) of the Company for any reason other than death or total and permanent disability. If an optionee's employment is terminated for any reason other than death or total and permanent disability before expiration of his option and before he has fully exercised it, the optionee has the right to exercise the option during the balance of a 60-day period from the date of termination. If an optionee dies or becomes totally and permanently disabled before expiration of the option without fully exercising it, he or she or the executors or administrators or legatees or distributees of the estate shall, as may be provided at the time of the grant, have the right, within one year after the optionee's death or total and permanent disability, to exercise the option in whole or in part before the expiration of its term.

All outstanding options will become fully vested and exercisable upon a Change of Control. For purposes of the Option Plan, a Change of Control means (i) the sale or other disposition of all or substantially all of the Company's assets; or (ii) the acquisition, whether directly, indirectly, beneficially (within the meaning of Rule 13d-3 of the Exchange Act), or of record, as a result of a merger, consolidation or

otherwise, of securities of the Company representing fifteen percent (15%) or more of the aggregate voting power of the Company's then outstanding common stock by any person (within the meaning of Section 13(d) and 14(d) of the Exchange Act), including, but not limited to, any corporation or group of persons acting in concert, other than (A) the Company or its subsidiaries and/or (B) any employee pension benefit plan (within the meaning of Section 3(2) of the Employee Retirement Income Security Act of 1974) of the Company or its subsidiaries, including a trust established pursuant to any such plan; or (iii) the individuals who were members of the Board of Directors as of the Effective Date (the Incumbent Board) cease to constitute at least two-thirds (2/3) of the Board of Directors; provided, however, that any director appointed by at least two-thirds (2/3) of the then Incumbent Board or nominated by at least two-thirds (2/3) of the Corporate Governance/ Nominating Committee of the Board of Directors (a majority of the members of the Corporate Governance/ Nominating Committee are members of the then Incumbent Board or appointees thereof), other than any director appointed or nominated in connection with, or as a result of, a threatened or actual proxy or control contest, shall be deemed to constitute a member of the Incumbent Board.

The Option Plan is designed to satisfy the conditions of Section 422 of the Code so that options granted under the Option Plan may qualify as incentive stock options. To qualify as incentive stock options, options may not become exercisable for the first time in any year if the number of incentive options first exercisable in that year multiplied by the exercise price exceeds \$100,000.

Compensation Arrangements below.

Deferred Compensation Arrangements. In December 2007, the Company's Board of Directors made a determination that it was in the best interests of the Company to terminate its deferred compensation arrangements (each individually a Plan, or collectively, the Plans). The Board of Directors' decision was primarily in response to increased complexity resulting from recent changes in the regulation of deferred compensation arrangements. The Board of Directors resolved that the accounts under these Plans would be distributed to participants in full on March 18, 2008, the termination and distribution date, or as soon as was reasonably practicable thereafter in accordance with the provisions of each of these Plans.

The accounts under the deferred compensation arrangements totaled \$52.5 million at December 31, 2007. The balances on the termination date were distributed to participants in March 2008 subsequent to the termination date in accordance with the transition rule for payment elections under Section 409A of the

Code. Distributions from the plans were made in cash or shares of the Company's common stock, net of required withholding taxes.

Severance and Change of Control Arrangements Under Employment Agreements

The Company entered into employment agreements in 2004 with Mr. Walton, and Ms. Sweeney and Ms. Roll. These agreements were reviewed in 2008 and amended to comply with Section 409A and to address other tax-related matters. Mr. Walton's employment agreement was also amended in connection with the separation of the Chairman of the Board and Chief Executive Officer roles, effective in March 2009. Each of the agreements provides for a three-year term that extends one day at the end of every day during its length, unless either party provides written notice of termination of such extension. In that case, the agreement would terminate three years from such notification. The following tables quantify the potential payments and benefits upon termination of the Company for each of the NEOs with an employment agreement, assuming the NEO's employment terminated on December 31, 2008, given the NEO's compensation and service level as of that date. Due to the number of factors that affect these calculations, including the price of the Company's common stock, any actual amounts paid or distributed may be different.

By Executive For Good Reason or By Company Without Cause. Pursuant to each of those agreements, if the executive resigns without good reason or his/her employment is terminated with cause, the executive will not receive any severance pay. If, however, employment is terminated by the Company without cause or by the executive for good reason, the executive will be entitled to severance pay for a period not to exceed 36 months. Severance pay will include three times the average base

salary for the preceding three years, plus three times the average bonus compensation for the preceding three years, plus a lump sum severance amount, plus a cash payment in lieu of certain post-termination health and welfare benefits. Severance payments will generally be paid in a lump sum no earlier than six months after separation.

Change of Control. In the event of a change of control, in addition to the severance value described above, all outstanding options granted to Mr. Walton, Ms. Sweeney and Ms. Roll will vest immediately under the terms of the option plan. See Amended Stock Option Plan above for the definition of change of control.

Death or Disability. If employment is terminated as a result of death or disability (as defined in the executives employment agreements) and no notice of non-renewal has been given, the executive will be entitled to severance pay equal to one times his/her average base salary for the preceding three years, plus one times his/her average bonus compensation for the preceding three years, plus a lump sum severance amount, plus a cash payment in lieu of certain post-termination health and welfare benefits.

Notice of Non-Renewal. If a notice of non-renewal has been given prior to death or disability of the executive, then instead of using a one times multiple of the average base salary and average bonus compensation as described above, the severance amount that relates to base salary and bonus compensation would be calculated using the number of years remaining between the date of the executive's death or disability and the third anniversary of the notice of non-renewal, but in no event less than one year. Any severance relating to disability will be paid in a lump sum no earlier than six months after separation. Any severance relating to death will be paid in two installments: 75% of such pay will be paid at the time of separation and 25% will be paid on the first anniversary of such separation.

If the term of employment expires in accordance with the agreement after the delivery of a non-renewal notice by either party, the executive would continue to be employed for three years after the notice of non-renewal (unless otherwise terminated under the agreement). At the end of the three-year term, the executive would receive severance pay equal to one times the average base salary for the preceding three years, plus one times the average bonus compensation for the preceding three years, plus a lump sum severance amount, plus the benefits previously described. Severance payments will be paid in a lump sum no earlier than six months after separation.

If any provision of the employment agreements would cause the executive to incur any additional tax under Section 409A of the Code or any regulations or Treasury guidance promulgated thereunder, the Company will reform the provision in a manner that maintains, to the extent possible, the original intent of the applicable provision without violating the provisions of Section 409A of the Code. In addition, in such a situation, the Company will notify and consult with the executives prior to the effective date of any such change.

Severance and Change of Control Arrangements Under Retention Agreements

On March 3, 2009, the Company entered into retention agreements with certain key officers who do not have employment agreements with the Company, including Mr. Russell and Mr. Monk. Pursuant to these agreements, in the event of a termination, other than for cause, or if the officer terminates his or her employment

for good reason within 90 days prior to or 18 months following a change of control of the Company, the officer will receive a retention payment to be paid in a lump sum six months following the officer's separation from service. See Amended Stock Option Plan above for the definition of change of control. The officer will also receive one year of COBRA coverage following the separation from service. In order to receive the retention payment, the officer must execute a binding separation and release agreement. These agreements shall continue in effect until December 31, 2011.

Indemnification Agreements

The Company has entered into indemnification agreements with its directors and certain senior officers of the Company including each of the NEOs. The indemnification agreements are intended to provide these directors and senior officers the maximum indemnification permitted under Maryland law and the 1940 Act. Each indemnification agreement provides that the Company shall indemnify the director or officer who is a party to the agreement (an Indemnitee), including the advancement of legal expenses, if, by reason of his or her corporate status, the Indemnitee is, or is threatened to be, made a party to or a witness in any threatened, pending, or completed proceeding, other than a proceeding by or in the right of the Company.

Target Ownership

During 2006, the Board of Directors established a target ownership program, which requires senior officers to achieve and retain certain stock ownership levels commensurate with their positions within the Company. From the inception of the target ownership program in 2006, officers have five years to achieve the required ownership levels. Individuals who are hired or promoted after the implementation of the target ownership program would be required to achieve the target ownership level within the later of five years from the date of hire or three years from the date of promotion to the relevant title. Many of the Company's senior officers already own a substantial number of shares of the Company and few have chosen to sell shares over their tenure with the Company. The Board of Directors believes that it is in the best interest of stockholders to encourage share ownership by the Company's senior officers, so that the interests of officers and stockholders are aligned.

The Board of Directors has determined target ownership levels for the Company's senior officers, as follows:

Senior Officer	Multiple of Base Salary	Minimum Share Ownership Range
Chairman of the Board and Chief Executive Officer	5x	250,000 shares
Executive Officers, Managing Directors and Executive Vice Presidents	3x-4x	21,500 - 130,000 shares
Principals	2x	10,000 - 20,500 shares

Target ownership amounts represent the lesser of a multiple of base salary or a specified number of shares. Minimum share ownership requirements are determined on an individual basis and may be adjusted by the Compensation Committee.

The Company's Chairman of the Board, Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, as well as certain other senior officers, have met their target ownership levels set forth above. See Security Ownership of Management and Certain Beneficial Owners .

In addition, pursuant to the Company's Corporate Governance Policy, each non-officer director is required to own \$100,000 worth of shares based on market value (excluding stock options), or to have purchased at least \$100,000 of shares based on the original cost of purchase. Directors are required to achieve this target ownership level within five years of joining the Board or, in the case of those directors who were serving on the Board at the time the policy was adopted by the Board, by February 2011. The majority of the Company's directors have achieved this target ownership level.

**PROPOSAL 2.
RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

The Audit Committee and the independent members of the Board of Directors have appointed KPMG LLP as the Company's independent registered public accounting firm for the year ending December 31, 2009. If the stockholders ratify the selection of KPMG LLP as the Company's accountants, KPMG LLP also will be the independent registered public accounting firm for the consolidated subsidiaries of the Company, if required.

KPMG LLP has advised the Company that neither the firm nor any present member or associate of it has any material financial interest, direct or indirect, in the Company or its subsidiaries.

The Company expects that a representative of KPMG LLP will be present at the Meeting and will have an opportunity to make a statement if he or she so chooses and will be available to respond to appropriate questions.

Unless marked to the contrary, the shares represented by the enclosed proxy card will be voted for ratification of the selection of KPMG LLP as the independent registered public accounting firm of the Company.

**The Board of Directors recommends that
stockholders vote to ratify the selection of KPMG LLP as the
independent registered public accounting firm of the Company.**

All Other Fees		
Total Fees:	\$ 1,809,700	\$ 1,943,700

Audit Fees. Audit fees consist of fees billed for professional services rendered for the audit of the Company's year-end consolidated financial statements and reviews of the interim consolidated financial statements included in quarterly reports and services that are normally provided by KPMG LLP in connection with statutory

and regulatory filings. These services also include the required audits of the Company's internal controls over financial reporting.

Audit-Related Fees. Audit-related fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees. These services include attest services that are not required by statute or regulation, consultations concerning financial accounting and reporting standards, and fees related to requests for documentation and information from regulatory and other government agencies.

Report of the Audit Committee

As part of its oversight of the Company's financial statements, the Audit Committee reviewed and discussed with both management and the Company's independent registered public accounting firm all of the Company's financial statements filed with the Commission for each quarter during 2008 and as of and for the year ended December 31, 2008. Management advised the Audit Committee that all financial statements were prepared in accordance with U.S. generally accepted accounting principles (GAAP), and reviewed significant accounting issues with the Audit Committee. The Audit Committee also discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication With Audit Committees*, by the Auditing Standards Board of the American Institute of Certified Public Accountants.

The Audit Committee of the Board has established a pre-approval policy that describes the permitted audit, audit-related, tax, and other services to be provided by KPMG LLP, the Company's independent registered public accounting firm. Pursuant to the policy, the Audit Committee pre-approves the audit and non-audit services performed by the independent registered public accounting firm in order to assure that the provision of such service does not impair the firm's independence.

Any requests for audit, audit-related, tax, and other services that have not received general pre-approval must be submitted to the Audit Committee for specific pre-approval, irrespective of the amount, and cannot commence until such approval has been granted. Normally, pre-approval is provided at regularly scheduled meetings of the Audit Committee. However, the Audit Committee may delegate pre-approval authority to one or more of its members. The member or members to whom such authority is delegated shall report any pre-approval decisions to the Audit Committee at its next scheduled meeting. The Audit Committee does not delegate its responsibilities to pre-approve services performed by the independent registered public accounting firm to management.

The Audit Committee received and reviewed the written disclosures from the independent registered public accounting firm required by the applicable Public Company Accounting Oversight Board rule regarding the independent accountant's communications with Audit Committees concerning independence, and has discussed with the firm its independence. The Audit Committee has reviewed the audit fees

paid by the Company to the independent registered public accounting firm. It has also reviewed non-audit services and fees to assure compliance with the Company's and the Audit Committee's policies restricting the independent registered public accounting firm from performing services that might impair its independence. The Audit Committee also reviewed the requirements and the Company's compliance with Section 404 of the Sarbanes-Oxley Act of 2002 including the Public Company Accounting Oversight Board's Auditing Standard No. 5 regarding the audit of internal controls over financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the financial statements as of and for the year ended December 31, 2008, be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for filing with the Commission. The Audit Committee also recommended the selection of KPMG LLP to serve as the independent registered public accounting firm of the Company for the year ending December 31, 2009.
