Alliance Data Systems Corporation, a leading provider of transaction services, credit services and marketing services, today announced that its Epsilon business unit has signed a multi-year renewal and expanded agreement with Bank of America (**BOA**), an Alliance Data Systems Corporation top-25 client. Under terms of the agreement, Epsilon will complete the build of an enhanced consumer marketing database that will further improve BOA's customer acquisition and overall campaign management. Additionally, Epsilon will host and manage the system on behalf of BOA, one of the largest financial institutions in the world and the fourth largest credit card issuer in the United States.

In 2001, Epsilon built BOA's first consumer marketing database for acquiring credit card customers, and in 2004 it began integrating FleetBoston Financial Corporation's database onto one platform following BOA's acquisition of FleetBoston. Under terms of this expanded agreement, Epsilon will now provide additional data analytic capabilities and robust campaign management functionality used to produce regular consumer mailings.

The solution Epsilon is providing will allow BOA to identify, segment and communicate with consumers via direct marketing campaigns. The new, highly flexible and compatible database will also allow BOA to add future tools and functionality geared toward further improving customer acquisition. Additionally, the scalability of the solution facilitates the ability to bring many BOA products under one platform, including both card and non-card products, such as small business card programs and home equity line of credit.

Epsilon is a leading relationship marketing company that helps clients create measurable business results through integrated marketing services. Epsilon is committed to maximizing the value, growth and loyalty of clients' customer and prospect portfolios through core services including data analysis, multi-channel direct communications and database marketing. Epsilon's services enable clients to build enduring customer relationships by identifying marketing opportunities and creating actionable customer insight. Founded in 1969, Epsilon maintains offices in Boston, Dallas, St. Louis and Washington, D.C. For more information, see www.epsilon.com. Epsilon was acquired by Alliance Data Systems Corporation in 2004.

Alliance Data Systems Corporation's Safe Harbor Statement/Forward Looking Statements

This document may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements may use words such as anticipate, believe, estimate, expect, intend, predict, project and similar expressions as they or our management. When we make forward-looking statements, we are basing them on our management's beliefs and assumptions, using information currently available to us. Although we believe that the expectations reflected in the forward-looking statements are reasonable, these forward-looking statements are subject to risks, uncertainties and assumptions, including those discussed in our filings with the Securities and Exchange Commission.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary materially from what we projected. Any forward-looking statements contained in this news release reflect our current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, growth strategy and liquidity. We have no intention, and disclaim any obligation, to update or revise any forward-looking statements, whether as a result of new information, future results or otherwise.
