DISCOVERY HOLDING COMPANY AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements
June 30, 2008
(unaudited)

(1) Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Discovery Holding Company and its consolidated subsidiaries (DHC or the Company). DHC s two wholly-owned operating subsidiaries are Ascent Media Group, LLC (Ascent Media) and Ascent Media CANS, LLC (dba AccentHealth) (AccentHealth). DHC also has a 662/3% ownership interest in Discovery, previously a 50% interest through May 14, 2007, which it accounts for as an equity method investment (see note 6). All significant intercompany accounts and transactions have been eliminated in consolidation.

Ascent Media is comprised of two operating segments. Ascent Media s creative services group provides services necessary to complete the creation of original content, including feature films, mini-series, television shows, television commercials, music videos, promotional and identity campaigns, and corporate communications programming. The group manipulates or enhances original visual images or audio captured in principal photography and creates new three dimensional images, animation sequences, or sound effects. In addition, the creative services group provides a full complement of facilities and services necessary to optimize, archive, manage, and repurpose completed media assets for global distribution via freight, satellite, fiber and the Internet. The network services group provides the facilities and services necessary to assemble and distribute programming content for cable and broadcast networks via fiber, satellite and the Internet to programming providers in North America, Europe and Asia. Additionally, the network services group provides systems integration, design, consulting, engineering and project management services.

AccentHealth operates an advertising-supported captive audience television network in doctor office waiting rooms nationwide, and is included as part of the network services group for financial reporting purposes.

Discovery is a leading global media and entertainment company that provides original and purchased programming across multiple platforms in the United States and more than 170 other countries, including television networks offering customized programming in 35 languages. Discovery also develops and sells consumer and educational products and services in the United States and internationally, and owns and operates a diversified portfolio of website properties and other digital services.

The accompanying interim condensed consolidated financial statements are unaudited but, in the opinion of management, reflect all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the results for such periods. The results of operations for any interim period are not necessarily indicative of results for the full year. These condensed consolidated financial statements should be read in conjunction with the Company s consolidated financial statements and notes thereto included in its Annual Report on Form 10-K, as amended, for the year ended December 31, 2007.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of revenue and expenses for each reporting period. The significant estimates made in preparation of the Company s condensed consolidated financial statements primarily relate to valuation of goodwill, other intangible assets, long-lived assets, deferred tax assets, and the amount of the allowance for doubtful accounts. Actual results could differ from the estimates upon

which the carrying values were based.

Table of Contents

DISCOVERY HOLDING COMPANY AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

(2) Newhouse Transaction and Ascent Spin Off

On June 4, 2008, DHC and Advance/Newhouse Programming Partnership (Advance/Newhouse) entered into a Transaction Agreement under which they will combine their respective interests in Discovery. The Transaction Agreement contemplates the following steps:

DHC will spin-off to its shareholders a wholly-owned subsidiary holding substantially all of DHC s cash, AccentHealth and Ascent Media, except for those businesses of Ascent Media that provide sound, music, mixing, sound effects and other related post-production audio services under brand names such as Sound One POP Sound, Soundelux and Todd A-O (the Ascent Media Spin Off);

Immediately following the Ascent Media Spin Off, DHC will combine with a new holding company (New DHC), and DHC s existing shareholders will receive shares of common stock of New DHC;

As part of this transaction, Advance/Newhouse will contribute its interests in Discovery and Animal Planet to New DHC in exchange for preferred stock of New DHC that, immediately after the closing of the transactions, will be convertible at any time into shares initially representing one-third of the outstanding shares of common stock of New DHC on an as-converted basis. The preferred stock held by Advance/Newhouse will entitle it to elect three members to New DHC s board of directors and to exercise approval rights with respect to the taking of specified actions by New DHC and Discovery.

Although no assurance can be given, consummation of this transaction is expected in the third quarter of 2008. The Ascent Media Spin Off was approved by DHC s board of directors in connection with the agreement between DHC and Advance/Newhouse, and it is a condition of the Ascent Media Spin Off that the agreement between DHC and Advance/Newhouse be in effect and that all conditions precedent to that transaction (other than the Ascent Media Spin Off) shall have been satisfied. The Ascent Media Spin Off will not occur unless DHC s shareholders approve proposals relating to the transactions contemplated by the Transaction Agreement.

It is currently expected that for federal income tax purposes, the Ascent Media Spin Off will qualify as a tax-free distribution to DHC s shareholders and will be accounted for at historical cost due to the pro rata nature of the distribution. Subsequent to the completion of the Ascent Media Spin Off, the historical results of operations of Ascent Media and AccentHealth prior to the Ascent Media Spin Off will be included in discontinued operations in DHC s consolidated financial statements. The acquisition of Advance/Newhouse s interest in Discovery will result in New DHC owning 100% of Discovery, and accordingly, New DHC will consolidate Discovery s financial position and results of operations effective with the closing of the transaction. Pursuant to FASB Technical Bulletin 85-5, the contribution of Advance/Newhouse s interests in Discovery and Animal Planet to New DHC will be treated as a non-substantive merger, and therefore, such interests will be recorded at carry over basis.

(3) Stock Options and Other Long-Term Incentive Compensation

Stock Options

The Company records stock-based compensation for all stock incentive awards held by DHC s and its subsidiaries employees. The majority of these stock incentive awards were issued on or prior to DHC s spin off from Liberty Media

Corporation (Liberty) on July 21, 2005 (the 2005 Spin Off). Stock option grants have also been issued to non-employee directors of DHC and to the president of DHC subsequent to that date. For the six months ended June 30, 2008 and 2007, stock-based compensation related to these awards was $616,000 and $401,000, respectively.

DISCOVERY HOLDING COMPANY AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

As of June 30, 2008, the following DHC options were outstanding and vested:

	DHC Series A	Weighted Average Exercise Price	DHC Series B	Weighted Average Exercise Price
Outstanding	1,108,201	$ 15.33	1,667,985	$ 19.06
Exercisable	891,787	$ 15.48	1,667,985	$ 19.06

As of June 30, 2008, the total compensation cost related to unvested equity awards was not significant.

2006 Ascent Media Long-Term Incentive Plan

Effective August 3, 2006, Ascent Media adopted its 2006 Long-Term Incentive Plan (the 2006 Plan). The 2006 Plan provides the terms and conditions for the grant of, and payment with respect to, Phantom Appreciation Rights (PARs) granted to certain officers and other key personnel of Ascent Media. The value of a single PAR (PAR Value) is equal to the positive amount (if any) of (a) the sum of (i) 6% of cumulative free cash flow (as defined in the 2006 Plan) over a period of up to six years, divided by 500,000; plus (ii) the calculated value of Ascent Media, based on a formula set forth in the 2006 Plan, divided by 10,000,000; over (b) a baseline value determined at the time of grant. The 2006 Plan is administered by a committee that consists of two individuals appointed by DHC. Grants are determined by the committee, with the first grant occurring on August 3, 2006. The maximum number of PARs that may be granted under the 2006 Plan is 500,000, and there were 488,500 PARs granted as of June 30, 2008. The PARs vest quarterly over a three year period, and are payable on March 31, 2012 (or, if earlier, on the six-month anniversary of a grantee s termination of employment without cause). Ascent Media records a liability and a charge to expense based on the PAR Value and percent vested at each reporting period.

(4) Earnings Per Common Share Series A and Series B

Basic earnings per common share (EPS) is computed by dividing net earnings by the weighted average number of common shares outstanding for the period. The weighted average number of shares outstanding for the three and six months ended June 30, 2008 is 281,192,000 and 281,118,090, respectively. The weighted average number of shares outstanding for the three and six months ended June 30, 2007 is 280,351,000 and 280,287,000, respectively. Dilutive EPS presents the dilutive effect on a per share basis of potential common shares as if they had been converted at the beginning of the periods presented. Due to the relative insignificance of the dilutive securities in 2008 and 2007, their inclusion does not impact the EPS amount as reported in the accompanying condensed consolidated statements of operations.

(5) Goodwill

Goodwill is comprised of the following:

	June 30, 2008	December 31, 2007
	amounts in thousands	
Goodwill		
Creative Services group	$ 106,599	106,599
Network Services group	32,224	32,224
Discovery	1,771,000	1,771,000
Total goodwill	$ 1,909,823	1,909,823

GAAP requires companies to allocate enterprise-level goodwill to all reporting units, including equity method investments. Accordingly, the Company has allocated $1,771,000,000 of enterprise-level goodwill to its investment

DISCOVERY HOLDING COMPANY AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

in Discovery. This allocation is performed for goodwill impairment testing purposes only and does not change the reported carrying value of the investment. However, to the extent that all or a portion of an equity method investment is disposed of in the future, the allocated portion of goodwill will be relieved and included in the calculation of the gain or loss on disposal.

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. SFAS 157 was effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2007. However, the effective date of SFAS 157 has been deferred to fiscal years beginning after November 15, 2008 and interim periods within those years, and DHC has elected the deferral provision, as it relates to fair value measurement requirements for (i) nonfinancial assets and liabilities that are not remeasured at fair value on a recurring basis (e.g. asset retirement obligations, restructuring liabilities and assets and liabilities acquired in business combinations) and (ii) fair value measurements required for impairments under SFAS No. 142, *Goodwill and Other Intangible Assets* and SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*.

(6) Investment in Discovery

Discovery was formed in the second quarter of 2007 as part of a restructuring (the DCI Restructuring) completed by Discovery Communications, Inc. (DCI). In the DCI Restructuring, DCI became a wholly-owned subsidiary of Discovery, and the former shareholders of DCI, including DHC, became members of Discovery. Discovery is the successor reporting entity to DCI. In connection with the DCI Restructuring, Discovery applied pushdown accounting and each shareholder s basis in DCI as of May 14, 2007 has been pushed down to Discovery. The result was $4.3 billion in goodwill being recorded by Discovery. Since goodwill is not amortizable, there is no current income statement impact for this change in basis.

Discovery is a leading global media and entertainment company that provides original and purchased programming across multiple platforms in the United States and more than 170 other countries, including television networks offering customized programming in 35 languages. Discovery also develops and sells consumer and educational products and services in the United States and internationally, and owns and operates a diversified portfolio of website properties and other digital services.

On May 14, 2007, Discovery and Cox Communications Holdings, Inc. (Cox) completed an exchange of Cox s 25% ownership interest in Discovery for all of the capital stock of a subsidiary of Discovery that held Travel Channel, travelchannel.com and approximately $1.3 billion in cash (the Cox Transaction). Discovery raised the cash component through additional debt financing, and retired the membership interest previously owned by Cox. Upon completion of this transaction, DHC owns a 662/3% interest in Discovery and Advance/Newhouse owns a 331/3% interest in Discovery.

In connection with the Cox Transaction, DHC reallocated its excess basis related to its investment in Discovery. Such allocation process was completed in the first quarter of 2008 and resulted in approximately 48% of the excess basis created by the Cox Transaction being allocated to intangible assets with determinable useful lives. Amortization of such intangible assets aggregated $3,744,000 and $7,487,000 (net of related taxes) for the three and six months ended June 30, 2008, respectively, and is included in DHC s share of earnings of Discovery.

DHC continues to account for its investment in Discovery using the equity method of accounting due to governance rights possessed by Advance/Newhouse which restrict DHC s ability to control Discovery. From January 1, 2007 through May 14, 2007, DHC recorded its 50% share of the earnings of DCI. Subsequent to May 14, 2007, DHC has recorded its 662/3% share of the earnings of Discovery.

DHC does not have access to the cash Discovery generates from its operations, unless Discovery makes a distribution with respect to its membership interests or makes other payments or advances to its members. Prior to

Table of Contents

DISCOVERY HOLDING COMPANY AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

May 14, 2007, DCI did not pay any dividends on its capital stock, and since that date, Discovery has not made any distributions to its members, and DHC does not have sufficient voting control to cause Discovery to make distributions or make other payments or advances to DHC.

DHC s carrying value for Discovery was $3,414,968,000 at June 30, 2008. In addition, as described in note 5, enterprise-level goodwill of $1,771,000,000 has been allocated to the investment in Discovery.

Summarized financial information for Discovery is as follows:

Consolidated Balance Sheets

	June 30, 2008	December 31, 2007
	amounts in thousands	
Cash and cash equivalents	$ 82,016	44,951

Note: In the third quarter of 2007, Discovery closed its 103 mall-based and stand-alone Discovery Channel stores. As a result, Discovery s consolidated statement of operations for the six months ended June 30, 2007 has been prepared to reflect the retail store business as discontinued operations.

(7) Income Taxes

During the first quarter of 2008, Liberty reached an agreement with the IRS related to certain disputed tax items that arose in periods prior to DHC s spin off from Liberty on July 21, 2005. The IRS agreement resulted in a reduction to the initial amount of federal and California net operating losses by $28,554,000 and $49,667,000, respectively, that Liberty had allocated to DHC at the spin off date. In addition, during the first quarter of 2008, DHC reduced its reserve against the net operating losses allocated from Liberty from $11,877,000 to $2,662,000 under FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* . However, since DHC had previously recorded a full valuation allowance against these net operating losses, the reversal of the net operating losses, the decrease in the reserve on the net operating losses, and the reversal of the corresponding valuation allowance resulted in no net impact to DHC s condensed consolidated financial statements.

As of January 1, 2008, the Company s tax reserves related to unrecognized tax benefits for uncertain tax positions was not significant. The Company does not expect that the total amounts of unrecognized tax benefits will significantly increase or decrease during the year ended December 31, 2008.

When the tax law requires interest to be paid on an underpayment of income taxes, the Company recognizes interest expense from the first period the interest would begin accruing according to the relevant tax law. Such interest expense is included in other income, net in the accompanying condensed consolidated statements of operations. Any accrual of penalties related to underpayment of income taxes on uncertain tax positions is included in other income, net in the accompanying condensed consolidated statements of operations. As of June 30, 2008, accrued interest and penalties related to uncertain tax positions was not significant.

DISCOVERY HOLDING COMPANY AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

As of June 30, 2008, the Company s tax returns for the period July 21, 2005 through December 31, 2007 remain subject to examination by the IRS for federal income tax purposes.

(8) Commitments and Contingencies

The Company is involved in litigation and similar claims incidental to the conduct of its business. In management s opinion, none of the pending actions is likely to have a material adverse impact on the Company s financial position or results of operations.

The Company and its subsidiaries lease offices, satellite transponders and certain equipment under capital and operating lease arrangements.

On December 31, 2003, Ascent Media acquired the operations of Sony Electronic s systems integration center business and related assets, which we refer to as SIC. In exchange, Sony received the right to be paid in 2008 an amount equal to 20% of the value of the combined business of Ascent Media s wholly owned subsidiary, AF Associates, Inc. and SIC. The value of 20% of the combined business of AF Associates and SIC is estimated at $6,100,000, which liability is included in other accrued liabilities in the accompanying condensed consolidated balance sheets. SIC is included in Ascent Media s network services group.

(9) Related Party Transactions

In connection with the 2005 Spin Off, DHC and Liberty entered into a Services Agreement. Pursuant to the Services Agreement, Liberty provides the Company with office space and certain general and administrative services including legal, tax, accounting, treasury and investor relations support. The Company reimburses Liberty for direct, out-of-pocket expenses incurred by Liberty in providing these services and for the Company s allocable portion of facilities costs and costs associated with any shared services or personnel. Liberty and DHC have agreed that they will review cost allocations every six months and adjust such charges, if appropriate. Amounts charged to DHC by Liberty under the Services Agreement aggregated $998,000 and $1,103,000 for the six months ended June 30, 2008 and 2007, respectively.

Ascent Media provides services, such as satellite uplink, systems integration, origination, and post-production, to Discovery. Revenue recorded by Ascent Media for these services for the six months ended June 30, 2008 and 2007 aggregated $19,355,000 and $22,552,000, respectively.

(10) Information About Operating Segments

The Company s chief operating decision maker, or his designee (the CODM), has identified the Company s reportable segments based on (i) financial information reviewed by the CODM and (ii) those operating segments that represent more than 10% of the Company s consolidated revenue or earnings before taxes. In addition, those equity investments whose share of earnings represent more than 10% of the Company s earnings before taxes are considered reportable segments.

Based on the foregoing criteria, the Company s business units have been aggregated into three reportable segments: the creative services group and the network services group, which are consolidated operating segments, and Discovery,

which is an equity affiliate.

The creative services group provides services necessary to complete the creation of original content, including feature films, mini-series, television shows, television commercials, music videos, promotional and identity campaigns and corporate communications. These services are referred to generally in the entertainment industry as post-production services. In addition, the creative services group provides a full complement of facilities and services necessary to optimize, archive, manage and repurpose completed media assets for global distribution via freight, satellite, fiber and the Internet. The network services group provides the facilities and services necessary to assemble and distribute programming content for cable and broadcast networks via fiber, satellite and the Internet to

DISCOVERY HOLDING COMPANY AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Continued)

programming providers in North America, Europe and Asia. Additionally, the network services group provides systems integration, design, consulting, engineering and project management services. AccentHealth, which operates an advertising-supported captive audience television network in doctor office waiting rooms nationwide, is included in network services group for financial reporting purposes.

The accounting policies of the segments that are consolidated entities are the same as those described in the summary of significant accounting policies and are consistent with GAAP.

The Company evaluates the performance of these operating segments based on financial measures such as revenue and adjusted OIBDA. The Company defines adjusted OIBDA as revenue less cost of services and selling, general and administrative expense (excluding stock and other equity-based compensation and accretion expense on asset retirement obligations). The Company believes this is an important indicator of the operational strength and performance of its businesses, including the businesses ability to service debt and capital expenditures. In addition, this measure is used by management to view operating results and perform analytical comparisons and identify strategies to improve performance. This measure of performance excludes depreciation and amortization, stock and other equity-based compensation, accretion expense on asset retirement obligations and restructuring and impairment charges that are included in the measurement of operating income pursuant to GAAP. Accordingly, adjusted OIBDA should be considered in addition to, but not as a substitute for, operating income, cash flow provided by operating activities and other measures of financial performance prepared in accordance with GAAP.

The Company s reportable segments are strategic business units that offer different products and services. They are managed separately because each segment requires different technologies, distribution channels and marketing strategies.

Summarized financial information concerning the Company s reportable segments is presented in the following tables:

	Consolidated Reportable Segments					
	Creative Services group	Network Services group(1)	Total	Other(2)	Consolidated Total	Equity affiliate- Discovery
	amounts in thousands					
Six months ended June 30, 2008

Item 2. ***Management s Discussion and Analysis of Financial Condition and Results Of Operations***

Certain statements in this Quarterly Report on Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our business, marketing and operating strategies, integration of acquired businesses, new service offerings, financial prospects, and anticipated sources and uses of capital. Where, in any forward-looking statement, we express an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the expectation or belief will result or be achieved or accomplished. The following include some but not all of the factors that could cause actual results or events to differ materially from those anticipated:

general economic and business conditions and industry trends including the timing of, and spending on, feature film, television and television commercial production;

spending on domestic and foreign television advertising and spending on domestic and foreign first-run and existing content libraries;

the regulatory and competitive environment of the industries in which we, and the entities in which we have interests, operate;

continued consolidation of the broadband distribution and movie studio industries;

uncertainties inherent in the development of new business lines and business strategies;

integration of acquired operations;

uncertainties associated with product and service development and market acceptance, including the development and provision of programming for new television and telecommunications technologies;

changes in the distribution and viewing of television programming, including the expanded deployment of personal video recorders, video on demand and IP television and their impact on television advertising revenue;

rapid technological changes;

future financial performance, including availability, terms and deployment of capital;

fluctuations in foreign currency exchange rates and political unrest in international markets;

the ability of suppliers and vendors to deliver products, equipment, software and services;

the outcome of any pending or threatened litigation;

availability of qualified personnel;

the possibility of an industry-wide strike or other job action affecting a major entertainment industry union, or the duration of any existing strike or job action;

changes in, or failure or inability to comply with, government regulations, including, without limitation, regulations of the Federal Communications Commission, and adverse outcomes from regulatory proceedings;

changes in the nature of key strategic relationships with partners and joint venturers;

competitor responses to our products and services, and the products and services of the entities in which we have interests; and

threatened terrorists attacks and ongoing military action in the Middle East and other parts of the world.

For additional risk factors, please see our Annual Report on Form 10-K, as amended, for the year ended December 31, 2007. These forward-looking statements and such risks, uncertainties and other factors speak only as of the date of this Quarterly Report, and we expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein, to reflect any change in our expectations

with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based.

The following discussion and analysis provides information concerning our results of operations and financial condition. This discussion should be read in conjunction with our accompanying condensed consolidated financial statements and the notes thereto; and our Management s Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements included in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2007.

Overview

We are a holding company and our businesses and assets include consolidated subsidiaries Ascent Media Group, LLC (Ascent Media) and Ascent Media CANS, LLC (dba AccentHealth) (AccentHealth), and a 662/3% ownership interest in Discovery Communications Holding, LLC (Discovery), which we account for using the equity method of accounting. Accordingly, as described below, Discovery s revenue is not reflected in the revenue we report in our condensed consolidated financial statements.

Ascent Media

Ascent Media provides creative and network services to the media and entertainment industries in the United States, the United Kingdom (UK) and Singapore. Ascent Media s clients include major motion picture studios, independent producers, broadcast networks, programming networks, advertising agencies and other companies that produce, own and/or distribute entertainment, news, sports, corporate, educational, industrial and advertising content. Ascent Media s operations are organized into the following two groups: the creative services group and the network services group.

On November 5, 2007, Writers Guild of America, East and West (Writers Guild) declared a strike affecting the script writing for television shows and films. The strike, which lasted until February 12, 2008, had a significant adverse effect on the revenue generated by Ascent Media s creative services business for services provided on new entertainment projects utilizing scripted content and the production of new television commercials. The 2007-2008 television season was significantly affected by the strike. Networks and producers resumed production of some scripted television programming interrupted by the strike. However, some programming never resumed production this season.

The contract between the Screen Actors Guild and the Alliance of Motion Picture and Television Producers (AMPTP) for theatrical motion picture and television performances expired on June 30, 2008. A failure by the Screen Actors Guild to finalize and ratify a new agreement with the AMPTP within a reasonable period of time after expiration of the prior contract could lead to a strike or other job action. Any such labor dispute could have an adverse effect on the television and motion picture production industries, including Ascent Media s business, and in the case of a severe or prolonged work stoppage, the adverse effect on Ascent Media s business, operations, results of operations and/or financial condition could be material.

Discovery

Our most significant asset is our interest in Discovery, which we do not control. Discovery is a leading global media and entertainment company that provides original and purchased programming across multiple platforms in the U.S. and more than 170 other countries. Discovery also develops and sells consumer and educational products and services in the United States and internationally, and owns and operates a diversified portfolio of website properties and other digital services. Our share of the results of operations of Discovery is reflected in our condensed consolidated results as earnings or losses of Discovery. To assist the reader in better understanding and analyzing our business, we have included a separate discussion and analysis of Discovery s results of operations and financial

condition below.

During the second quarter of 2007, each of the shareholders of Discovery Communications, Inc. (DCI), including our company, contributed its DCI common stock to a newly formed company, Discovery, in exchange for Discovery membership interests. Subsequent to the contribution, each of the members of Discovery held the same

ownership interests in Discovery as they previously held in DCI. DCI became a wholly-owned subsidiary of Discovery, and Discovery is the successor reporting entity of DCI

On May 14, 2007, Discovery and Cox Communications Holdings, Inc. (Cox) completed an exchange of Cox s 25% ownership interest in Discovery for all of the capital stock of a subsidiary of Discovery that held Travel Channel, travelchannel.com and approximately $1.3 billion in cash (the Cox Transaction). Discovery raised the cash component through additional debt financing, and retired the membership interest previously owned by Cox. Upon completion of this transaction, we own a 662/3% interest in Discovery and Advance/Newhouse Programming Partnership (Advance/Newhouse) owns a 331/3% interest in Discovery. We continue to account for our investment in Discovery using the equity method of accounting due to governance rights possessed by Advance/Newhouse which restrict our ability to control Discovery.

Newhouse Transaction and Ascent Spin Off

On June 4, 2008, we entered into a Transaction Agreement with Advance/Newhouse under which we and Advance/Newhouse will combine our respective interests in Discovery. Under the terms of the agreement, the transaction will involve the following steps:

- We will spin-off to our shareholders a wholly-owned subsidiary holding substantially all of DHC s cash, AccentHealth and Ascent Media, except for those businesses of Ascent Media that provide sound, music, mixing, sound effects and other related post-production audio services under brand names such as Sound One, POP Sound, Soundelux and Todd A-O (the Ascent Media Spin Off);

- Immediately following the Ascent Media Spin Off, we will combine with a new holding company (New DHC), and our existing shareholders will receive shares of common stock of New DHC;

- As part of this transaction, Advance/Newhouse will contribute its interests in Discovery and Animal Planet to New DHC in exchange for preferred stock of New DHC that, immediately after the closing of the transactions, will be convertible at any time into shares initially representing one-third of the outstanding shares of common stock of New DHC on an as-converted basis. The preferred stock held by Advance/Newhouse will entitle it to elect three members to New DHC s board of directors and to exercise approval rights with respect to the taking of specified actions by New DHC and Discovery.

Although no assurance can be given, consummation of this transaction (the Newhouse Transaction and Ascent Spin Off) is expected in the third quarter of 2008. The Ascent Media Spin Off was approved by DHC s board of directors in connection with the agreement between DHC and Advance/Newhouse, and it is a condition of the Ascent Media Spin Off that the agreement between DHC and Advance/Newhouse be in effect and that all conditions precedent to that transaction (other than the Ascent Media Spin Off) shall have been satisfied. The Ascent Media Spin Off will not occur unless DHC s shareholders approve proposals relating to the transactions contemplated by the Transaction Agreement.

It is currently expected that for federal income tax purposes, the Ascent Media Spin Off will qualify as a tax-free distribution to DHC s shareholders and will be accounted for at historical cost due to the pro rata nature of the distribution. Subsequent to the completion of the Ascent Media Spin Off, the historical results of operations of Ascent Media and AccentHealth prior to the Ascent Media Spin Off will be included in discontinued operations in DHC s consolidated financial statements. The acquisition of Advance/Newhouse s interest in Discovery will result in New DHC owning 100% of Discovery, and accordingly, New DHC will consolidate Discovery s financial position and results of operations effective with the closing of the transaction. Pursuant to FASB Technical Bulletin 85-5, the contribution of Advance/Newhouse s interests in Discovery and Animal Planet to New DHC will be treated as a

non-substantive merger, and therefore, such interests will be recorded at carry over basis.

Adjusted OIBDA

We evaluate the performance of our operating segments based on financial measures such as revenue and adjusted OIBDA. We define adjusted OIBDA as revenue less cost of services and selling, general and administrative expense (excluding stock and other equity-based compensation and accretion expense on asset retirement obligations). We believe this is an important indicator of the operational strength and performance of our businesses,

including their ability to invest in ongoing capital expenditures and service any debt. In addition, this measure is used by management to view operating results and perform analytical comparisons and identify strategies to improve performance. This measure of performance excludes depreciation and amortization, stock and other equity-based compensation, accretion expense on asset retirement obligations, restructuring and impairment charges that are included in the measurement of operating income pursuant to U.S. GAAP. Accordingly, adjusted OIBDA should be considered in addition to, but not as a substitute for, operating income, cash flow provided by operating activities and other measures of financial performance prepared in accordance with GAAP. See note 10 to the accompanying condensed consolidated financial statements for a reconciliation of adjusted OIBDA to earnings (loss) before income taxes.

Results of Operations

Our condensed consolidated results of operations include 100% of Ascent Media s and AccentHealth s results of operations, general and administrative expenses incurred at the DHC corporate level, and our share of earnings of Discovery. Our operations are organized into the following two groups: the creative services group and the network services group.

Ascent Media s creative services group generates revenue primarily from fees for video and audio post production, special effects and editorial services for the television, feature film and advertising industries. Generally, these services pertain to the completion of feature films, television programs and television commercials. These projects normally span from a few days to three months or more in length, and fees for these projects typically range from $10,000 to $1,000,000 per project. Additionally, the creative services group provides owners of film libraries a broad range of restoration, preservation, archiving, professional mastering and duplication services. The scope of these creative services vary in duration from one day to several months depending on the nature of the service, and fees typically range from less than $1,000 to $100,000 per project. The creative services group includes Ascent Media s digital media distribution center, which provides file-based services in areas such as digital imaging, digital vault, distribution services and interactive media to new and existing distribution platforms.

The network services group s revenue consists of fees relating to facilities and services necessary to assemble and transport programming for cable and broadcast networks across the world via fiber, satellite and the Internet. The group s revenue is also driven by systems integration and field support services, technology consulting services, design and implementation of advanced video systems, engineering project management, technical help desk and field service. This operating segment also includes the operations of AccentHealth, which operates an advertising-supported captive audience television network in doctor office waiting rooms nationwide. Approximately 44% of the network services group s revenue relates to AccentHealth, broadcast services, satellite operations and fiber services that are earned monthly under long-term contracts ranging generally from one to seven years. Additionally, approximately 56% of revenue relates to systems integration and engineering services that are provided on a project basis over terms generally ranging from three to twelve months.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
	dollar amounts in thousands			
Segment Revenue				
Creative Services group	$ 101,929	105,730	193,713	216,442
Network Services group	$ 92,548	71,490	190,069	134,660
Segment Adjusted OIBDA				

Creative Services group	$ 10,546	11,198	14,366	25,481
Network Services group	$ 16,016	10,813	33,185	19,101
Segment Adjusted OIBDA as a percentage of Revenue				
Creative Services group	10.3%	10.6%	7.4%	11.8%
Network Services group	17.3%	15.1%	17.5%	14.2%

Revenue. Total revenue increased $17,257,000 or 9.7% and $32,680,000 or 9.3% for the three and six months ended June 30, 2008, as compared to the corresponding prior year period. The creative services group revenue

decreased $3,801,000 or 3.6% and $22,729,000 or 10.5% for the three and six months ended June 30, 2008, respectively, as compared to the corresponding prior year period. The decrease in creative services revenue for the three month period was due to (i) a decrease of $3,204,000 in television post production services worldwide driven primarily by the continued impact of the Writers Guild strike in the U.S. and declines in broadcast work in the U.K. and (ii) a decrease of $2,145,000 in media services driven by lower lab, DVD and digital services. These decreases were partially offset by an increase of $2,774,000 in feature revenue driven by increased titles for post production and audio services. The decrease in revenue for the six month period was due to (i) a decrease of $13,232,000 in television post production services in the U.S. driven primarily by the Writers Guild strike, (ii) a decrease of $2,853,000 in commercial revenue driven by strong worldwide demand in the prior year period, (iii) a decrease of $1,568,000 in U.K. television revenue driven by declines in the broadcast work and (iv) lower feature revenue of $1,443,000 driven by smaller feature sound projects and fewer titles for post production.

The network services group revenue increased $21,058,000 or 29.5% and $55,409,000 or 41.1% for the three and six months ended June 30, 2008, as compared to the corresponding prior year period. The increase in network services revenue for the three month period was due to (i) an increase of $18,358,000 in system integration services revenue due to an increase in the number of larger projects, primarily from one customer, (ii) an increase of $1,453,000 driven by AccentHealth due to continued growth in the digital network, (iii) an increase of $818,000 in content distribution revenue primarily in the U.K. and (iv) favorable changes in foreign currency exchange rates of $502,000. The increase in revenue for the six month period was due to (i) an increase in system integration services revenue of $47,539,000, reflecting a significant number of larger projects in 2008 primarily from one customer, (ii) an increase of $3,289,000 in content distribution revenue in the U.S. and U.K., (iii) an increase of $3,835,000 driven by AccentHealth due to continued growth in the digital network and (iv) favorable changes in foreign currency exchange rates of $1,202,000. For the three and six months ended June 30, 2008, $21,757,000 and $52,500,000, respectively, of the system integration services revenue was generated by one customer under a contract which expires in July 2009. We could only sustain this level of revenue in the future if we enter in to other contracts of this same magnitude, of which there is no guarantee.

Cost of Services. Cost of services increased $12,727,000 or 10.2% and $29,245,000 or 11.9% for the three and six months ended June 30, 2008, as compared to the corresponding prior year period. A significant portion of the increase was attributable to network services resulting from higher volumes of system integration services, which have a higher percentage of equipment costs. The increase was partially offset by lower cost of services in creative services driven by decreases in television production services impacted by the Writers Guild strike. As a percent of revenue, cost of services was 70.9% and 70.6% for the three month periods and was 71.9% and 70.3% for the six months ended June 30, 2008 and 2007, respectively. The percentage increase is mainly a result of creative services labor costs decreasing to a lesser degree than revenue during the period of the Writers Guild strike, with certain fixed costs remaining regardless of the decline in revenue.

Selling, General and Administrative. Our selling, general and administrative expenses (SG&A) are comprised of the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
	amounts in thousands			
SG&A	$ 38,305	37,319	79,511	74,297

Accretion expense on asset retirement obligations	64	96	129	156

Total SG&A	$ 38,817	37,757	79,972	75,761

Our SG&A, including corporate expenses of both DHC and Ascent Media but excluding stock-based compensation and accretion expense on asset retirement obligations, increased $986,000 or 2.6% and $5,214,000 or 7.0% for the three and six months ended June 30, 2008 as compared to the corresponding prior year period. The increase was mainly driven by DHC corporate expenses, which increased $184,000 and $3,411,000 over the corresponding prior year period primarily as a result of legal and accounting costs related

Table of Contents

to the Newhouse Transaction and Ascent Spin Off. As a percent of revenue, SG&A was 20.7% and 21.2% for the six months ended June 30, 2008 and 2007, respectively.

Adjusted OIBDA. Total adjusted OIBDA as a percentage of revenue was 9.4% and 8.3% for the three month periods and 7.4% and 8.6% for the six months ended June 30, 2008 and 2007, respectively. The services provided by the creative services group are very labor intensive and incur high facility costs, with labor and facility costs representing over 73% of revenue. The creative services group s other primary cost components are production equipment, materials cost and general and administrative expenses. Creative services group adjusted OIBDA as a percentage of revenue was lower for 2008 compared to 2007 mainly due to the impact of the Writers Guild strike, as certain fixed costs remained regardless of the decline in revenue.

The primary cost components for the network services group are labor and materials, with these costs comprising over 68% of the networks revenue. The other primary cost components for the network services group are facility costs, production equipment and general and administrative expenses. Network services group adjusted OIBDA as a percentage of revenue was higher for 2008 compared to 2007 mainly due to lower labor and facility costs which did not fully offset the increase in material costs as the networks revenue mix shifted toward more systems integration projects. Because of the higher labor and facility costs for the creative services group, as well as slightly higher production equipment costs, the adjusted OIBDA margin for the creative services group is lower than such margin for the network services group for the three and six months ended June 30, 2008 and 2007. See footnote 10 to the accompanying condensed consolidated financial statements for a reconciliation of consolidated segment adjusted OIBDA to earnings before income taxes.

Restructuring Charges. During the six months ended June 30, 2008, Ascent Media recorded restructuring charges of $1,413,000 related to severance and facility costs in conjunction with closing its operations in Mexico during the first quarter of 2008. No such charges were recorded in 2007.

Depreciation and Amortization. Depreciation and amortization expense for the three and six months ended June 30, 2008 was relatively flat compared to the corresponding prior year period due to depreciation on new assets placed in service offset by assets becoming fully depreciated.

Stock-Based Compensation. Stock-based compensation was $332,000 and $1,308,000 for the six months ended June 30, 2008 and 2007, respectively. Effective August 3, 2006, Ascent Media adopted its 2006 Long-Term Incentive Plan (the 2006 Plan). The 2006 Plan provides the terms and conditions for the grant of, and payment with respect to, Phantom Appreciation Rights (PARs) granted to certain officers and other key personnel of Ascent Media. The maximum number of PARs that may be granted under the 2006 Plan is 500,000, and there were 488,500 PARs granted as of June 30, 2008. Ascent Media recorded 2006 Plan benefit of $276,000 and expense of $919,000 for the six months ended June 30, 2008 and 2007, respectively. We also recorded stock-based compensation expense of $616,000 and $401,000 for the six months ended June 30, 2008 and 2007, respectively, for Discovery Holding Company stock options held by certain of our employees.

Share of Earnings of Discovery. From January 1, 2007 through May 14, 2007, we recorded our 50% share of the earnings of DCI. Subsequent to May 14, 2007, we recorded our 662/3% share of the earnings of Discovery. Our share of earnings of Discovery decreased $50,995,000 and $6,150,000 for the three and six months ended June 30, 2008, respectively, as compared to the corresponding prior year period. The decrease for both the three and six month periods resulted from our $89,781,000 share of Discovery s gain on the Cox Transaction in the second quarter of 2007, primarily offset by Discovery s improved performance in the first and second quarters of 2008 as compared to the prior year period. The decrease was also offset from our ownership interest in Discovery increasing from 50% to 662/3%.

In connection with the Cox Transaction, we reallocated our excess basis related to our investment in Discovery. Such allocation process was completed in the first quarter of 2008 and resulted in approximately 48% of the excess basis created by the Cox Transaction being allocated to intangible assets with determinable useful lives. Amortization of such intangible assets aggregated $3,744,000 and $7,487,000 (net of related taxes) for the three and six months ended June 30, 2008 and is included in our share of earnings of Discovery.

We have provided a more detailed discussion of Discovery s results of operations below.

Other Income. During the first quarter of 2007, the landlord terminated an operating lease for one of Ascent Media s production facilities in exchange for a cash payment. In connection with such termination we recorded a $6,992,000 gain, representing the cash we received less the net book value of leasehold improvements which were retired. No such transaction was recorded in 2008.

Income Taxes. Our effective tax rate was 41.5% and 38.9% for the six months ended June 30, 2008 and 2007, respectively. Our income tax expense for 2008 and 2007 was higher than the federal income tax rate of 35% mainly due to state and foreign tax expense.

During the first quarter of 2008, Liberty reached an agreement with the IRS related to certain tax items that arose in periods prior to our spin off from Liberty on July 21, 2005. The agreement resulted in a reduction to the initial amount of federal and California net operating losses by $28,554,000 and $49,667,000, respectively, that Liberty allocated to DHC at the spin off date. However, since we had previously recorded a full valuation allowance against these net operating losses, the reversal of both the net operating losses and the corresponding valuation allowance resulted in no net impact to our condensed consolidated financial statements.

Net Earnings. Our net earnings decreased from $94,681,000 for the six months ended June 30, 2007 to $79,870,000 for the six months ended June 30, 2008. Such decrease is due to the aforementioned fluctuations in revenue, expenses and other income.

Liquidity and Capital Resources

Our primary sources of funds are cash on hand and cash flows from operating activities. During the six months ended June 30, 2008 and 2007, our cash from operating activities was $9,386,000 and $35,379,000, respectively. The primary drivers of our cash from operating activities are adjusted OIBDA and changes in working capital. Fluctuations in our adjusted OIBDA are discussed in Results of Operations above under the captions Revenue, Cost of Services and Selling, General and Administrative. Changes in working capital are generally due to the timing of purchases and payments for equipment and the timing of billings and collections for revenue. The increase in accounts receivable from December 31, 2007 to June 30, 2008 is mainly driven by a $28 million increase in systems integration contract billings and a $7.5 million increase in U.K. network services contracts. The increase in payables and other liabilities is mainly the result of equipment purchases on large systems integration contracts.

During the six months ended June 30, 2008 and 2007, we used cash of $18,194,000 and $25,093,000, respectively, to fund our capital expenditures. These expenditures relate to the purchase of new equipment, the upgrade of facilities and the buildout of Ascent Media s existing facilities to meet customer contracts, which are capitalized as additions and remain the property of Ascent Media, not the specific customer. We currently expect to spend up to an additional $27,000,000 for capital expenditures in 2008, which we expect will be funded with Ascent Media s and AccentHealth s cash from operations and cash on hand. During the six months ended June 30, 2008, we sold marketable securities for cash of $23,545,000. These securities were originally purchased in 2006. At June 30, 2008, we have approximately $226 million of cash, and for the foreseeable future, we expect to have sufficient available cash balances and net cash from operating activities to meet our working capital needs and capital expenditure requirements. We intend to seek external equity or debt financing in the event any new investment opportunities, additional capital expenditures or our operations require additional funds, but there can be no assurance that we will be able to obtain equity or debt financing on terms that are acceptable to us.

We do not have access to the cash Discovery generates from its operations, unless Discovery makes a distribution with respect to its membership interests or makes other payments or advances to its members. Prior to May 14, 2007, DCI did not pay any dividends on its capital stock, and since that date, Discovery has not made any distributions to its members, and we do not have sufficient voting control to cause Discovery to make distributions or make other

payments or advances to us.

Discovery

Effective May 15, 2007 and as a result of the Cox Transaction, our ownership interest in Discovery increased from 50% to 662/3%. We continue to account for this investment as an equity affiliate, rather than as a consolidated subsidiary, due to governance rights which restrict our ability to control Discovery. Accordingly, in our condensed

Table of Contents

consolidated financial statements we record our share of Discovery s net income or loss available to members and reflect this activity in one line item in our condensed consolidated statement of operations as Share of earnings of Discovery.

The following financial information of Discovery for the six months ended June 30, 2008 and 2007 and related discussion is presented to provide the reader with additional analysis of the operating results and financial position of Discovery. Because we do not control the decision-making process or business management practices of Discovery, we rely on Discovery to provide us with financial information prepared in accordance with GAAP that we use in the application of the equity method. The following discussion and analysis of Discovery s operations and financial position has been prepared based on information that we receive from Discovery and represents our views and understanding of its operating performance and financial position based on such information. Discovery is not a separately traded public company, and we do not have the ability to cause Discovery s management to prepare its own management s discussion and analysis for our purposes. Accordingly, we note that the material presented in this section might be different if Discovery s management had prepared it.

The following discussion of Discovery s results of operations is presented in two parts to assist the reader in better understanding Discovery s operations. The first section is an overall discussion of Discovery s consolidated operating results. The second section includes a more detailed discussion of revenue, cost of revenue and selling, general and administrative expenses of Discovery s three operating divisions: Discovery networks U.S., or U.S. networks, Discovery networks international, or international networks, and Discovery commerce and education.

Consolidated Results of Discovery

Discovery was formed in the second quarter of 2007 as part of a restructuring (the DCI Restructuring) completed by Discovery Communications, Inc. (DCI). In the DCI Restructuring, DCI became a wholly-owned subsidiary of Discovery, and the former shareholders of DCI, including DHC, became members of Discovery. Discovery is the successor reporting entity to DCI. In connection with the DCI Restructuring, Discovery applied pushdown accounting and each shareholder s basis in DCI as of May 14, 2007 has been pushed down to Discovery resulting in $4.3 billion of goodwill being recorded by Discovery. Since goodwill is not amortizable, there is no current income statement impact for this change in basis.

During 2007, Discovery undertook broad restructuring activities, including closing its 103 mall-based and stand-alone Discovery Channel stores, to better position its portfolio of assets and to facilitate growth and enhanced profitability. These activities resulted in additional operating expenses in 2007 that impact the comparability of results from 2007 to 2008. The more significant items include fourth quarter 2007 content impairment charges of $129,091,000 at U.S. Networks and $9,976,000 at Education which both impacted 2008 content amortization expense. During the six months ended June 30, 2008, Discovery recorded $3,919,000 in restructuring charges related to the closure of its distribution center and stores headquarter offices. During the six months ended June 30, 2007, Discovery recorded $12,286,000 in restructuring charges related to the strategic re-alignment of its organization.

Consolidated Results of Discovery

Net income	$ 223,036	230,351

Revenue. Discovery s consolidated revenue increased $161,604,000 or 11% for the six months ended June 30, 2008, as compared to the corresponding prior year period, due to increases of $87,167,000 or 12% in distribution revenue, $39,903,000 or 34% in other revenue, and $34,534,000 or 5% in advertising revenue. The increase in distribution revenue was due to (i) a $68,243,000 or 23% increase in international networks primarily due to international networks subscriber growth, (ii) favorable exchange rates of $22,416,000 and (iii) an $18,924,000 or 4% increase in U.S. networks driven by (a) annual contract increases for the fully distributed U.S. networks, (b) an increase in average paying subscription units and (c) a one-time $7,975,000 revenue correction that was related to prior periods and resulted from improvements in Discovery s methodology of estimating accrued revenue for certain distribution operators. The increase in U.S. networks distribution revenue was partially offset by the disposition of Travel

Channel.

Other revenue increased primarily as a result of an $18,419,000 increase in ancillary revenue from a joint venture primarily due to sales of the Planet Earth DVD, which is not expected to continue at the same level, and from $12,413,000 earned by U.S. networks representation of Travel Channel.

An increase of $19,868,000 or 15% in international networks advertising revenue was primarily due to higher viewership in EMEA (Europe excluding U.K., Middle East and Africa) and the impact of favorable exchange rates of $8,711,000. An increase of $14,755,000 or 3% in U.S. networks advertising revenue was driven by higher cash sellouts and higher scatter rates across most networks at the U.S. networks, offset by the disposition of Travel

Table of Contents

Channel and lower ratings at TLC. Program ratings are an indication of consumer acceptance and directly affect Discovery s ability to generate revenue during the airing of its programs. If programs do not achieve sufficient acceptance, the revenue from advertising sales may decline.

Cost of revenue. Cost of revenue, which includes content amortization and other production related expenses in addition to distribution and merchandising costs, decreased $21,498,000 or 4% for the six months ended June 30, 2008, as compared to the corresponding prior year period. This net decrease is comprised of a decrease of $51,321,000 or 16% in U.S. networks which is primarily a result of (i) the effect of the fourth quarter 2007 content impairment charge which drove a year over year decrease in content amortization expense of $37,293,000 and (ii) a $27,496,000 decrease from the disposition of Travel Channel. Partially offsetting the U.S. networks decrease is an increase of $22,693,000 or 12% in international networks due to the continued investment in additional local feeds for growth in local ad sales, including the unfavorable impact of foreign currency exchange rates of $5,606,000. As a result of the foregoing fluctuations, cost of revenue as a percent of revenue decreased to 29% in 2008 from 33% in 2007.

SG&A expenses. SG&A expenses, which include personnel, marketing and other general and administrative expenses, increased by $36,927,000 or 7% for the six months ended June 30, 2008, as compared to the corresponding prior year period. These increases were primarily due to (i) U.S. networks continued investment of $23,096,000 in digital media, (ii) $11,079,000 related to the marketing for Animal Planet and the launch of Planet Green, (iii) $7,033,000 related to the expansion of network teams to support re-branding strategies and (iv) the impact of unfavorable foreign currency exchange rates of $10,645,000. These increases were partially offset by a decrease of $20,228,000 related to the disposition of Travel Channel. As a percent of revenue, SG&A expense was 35% and 37% for the six months ended June 30, 2008 and 2007, respectively.

Expenses arising from long-term incentive plans. Expenses arising from long-term incentive plans are related to Discovery s unit-based, long-term incentive plan, or LTIP, for its employees who meet certain eligibility criteria. Units are awarded to eligible employees and generally vest at a rate of 25% per year. The value of units in the LTIP is indexed to the value of DHC Series A common stock and is calculated using the Black Scholes Model. The change in unit value of LTIP awards outstanding is recorded as compensation expense over the period outstanding. Upon redemption of the LTIP awards, participants receive a cash payment based on the value of the award as described in the terms of the LTIP. In the third quarter of 2007, Discovery amended the LTIP such that the redemption dates occur annually over a 4 year period instead of bi-annually over an 8 year period. Compensation expense was $11,576,000 for the six months ended June 30, 2008 compared to $85,012,000 for the same period in 2007. The expense for the six months ended June 30, 2008 was driven by the vesting of outstanding units offset by a decrease in DHC Series A common stock price from December 31, 2007. The expense for the six months ended June 30, 2007 was primarily the result of increases in the DHC Series A common stock price, partially offset by a decrease in expense related to the difference in value accrued for units paid or forfeited during the quarter, largely as a result of the restructuring. Discovery also recorded $5,855,000 of compensation expense for the six months ended June 30, 2008 arising from a long-term incentive plan related to one of Discovery s subsidiaries, for which there was no expense in the corresponding prior year period. If the remaining vested LTIP awards at June 30, 2008 were redeemed, the aggregate cash payments by Discovery would be approximately $78,485,000.

Restructuring charges. During the six months ended June 30, 2008, Discovery recorded $3,919,000 in restructuring charges related to the closure of its distribution center and its stores headquarter offices along with the transition of the remaining commerce distribution services to third-party service providers. This compares to $12,286,000 in restructuring charges for the six months ended June 30, 2007 which related to a number of organizational and strategic adjustments and consisted mainly of severance due to a reduction in headcount. The purpose of these restructurings was to better align Discovery s organizational structure with the company s new strategic priorities and to respond to continuing changes within the media industry.

Depreciation and amortization. The increase in depreciation and amortization for the six months ended June 30, 2008 is due to an increase in intangible assets resulting from acquisitions combined with increases in Discovery s depreciable asset base resulting from capital expenditures. These increases were partially offset by a decrease in amortization related to the 2007 asset impairment charge.

Table of Contents

Asset impairment. During the second quarter of 2007, Discovery recorded an asset impairment of $26,174,000 related to the write-off of education intangible assets related to its consumer business. No such charge was recorded in 2008.

Gain on sale of operating assets. During the second quarter of 2007, Discovery recognized a gain on sale of operating assets of $134,671,000 in connection with the Cox Transaction. No such gain was recorded in 2008.

Other Income and Expense

Interest expense. On May 14, 2007, Discovery entered into a new $1.5 billion term loan in connection with the Cox Transaction. The increase in interest expense for the six months ended June 30, 2008 as compared to the corresponding prior year period is primarily a result of the new term loan. The increase is also impacted by Discovery exercising its call rights in January 2007 to acquire mandatorily redeemable securities and reversing $4.5 million of accrued preferred returns. Preferred returns had been recorded as a component of interest expense based on a constant rate of return through the full term.

Unrealized gains from derivative instruments, net. Unrealized gains from derivative transactions relate primarily to Discovery s use of derivative instruments to modify its exposure to interest rate fluctuations on its debt. These instruments include a combination of swaps, caps, collars and other structured instruments. As a result of unrealized mark to market adjustments, Discovery recognized an unrealized gain of $2,174,000 and $4,948,000 during the six months ended June 30, 2008 and 2007, respectively. The foreign exchange hedging instruments used by Discovery are spot, forward and option contracts. Additionally, Discovery enters into non-designated forward contracts to hedge non-dollar denominated cash flows and foreign currency balances.

Minority interests in consolidated subsidiaries. Minority interests primarily represent the portion of earnings of consolidated entities which are allocable to the minority partners as well as the increases and decreases in the estimated redemption value of mandatorily redeemable interests in subsidiaries which are initially recorded at fair value. The increase for the six months ended June 30, 2008 as compared to the corresponding prior year period is the result of increased profits earned by these consolidated subsidiaries, mainly driven by royalties on the Planet Earth DVD sales.

Other. Other income in 2008 and 2007 relates primarily to Discovery s equity share of earnings of its joint ventures.

Income taxes. Discovery s effective tax rate was 39% and 13% for the six months ended June 30, 2008 and 2007, respectively. In 2008, Discovery s effective tax rate differed from the federal income tax rate of 35% primarily due to state taxes. In 2007, the effective rate differed from the federal income tax rate due to the tax-free treatment of the disposition of the Travel Channel and the reversal of deferred tax liabilities related to certain Travel Channel assets.

Loss from discontinued operations. Summarized financial information for the retail stores business included in discontinued operations is as follows (amounts in thousands):

	Six Months Ended June 30, 2007
Revenue	$ 43,173
Loss from discontinued operations before income taxes	$ (57,587)
Loss from discontinued operations, net of tax	$ (32,974)

Net earnings. Discovery s net earnings were $223,036,000 and $230,351,000 for the six months ended June 30, 2008 and 2007, respectively. The changes in net earnings are due to the aforementioned fluctuations in revenue and expense.

Discovery s Operating Division Results

As noted above, Discovery s operations are divided into three groups: U.S. networks, international networks and commerce and education. Corporate expenses, which primarily consist of corporate functions, executive

Table of Contents

management and administrative support services, are excluded from segment results to enable executive management to evaluate business segment performance based upon decisions made directly by business segment executives. Certain prior period amounts have been reclassified between segments to conform to Discovery s 2008 operating structure.

U.S. Networks

	Six Months Ended June 30,	
	2008	2007
	amounts in thousands	
Revenue		
Advertising	$ 526,862	512,107
Distribution	459,576	440,652
Other	53,449	40,082
Total revenue	$ 1,039,887	992,841
Cost of revenue	$ (261,317)	(312,638)
SG&A expenses	$ (246,034)	(224,860)

As noted above, in May 2007, Discovery exchanged its subsidiary holding the Travel Channel, travelchannel.com and approximately $1.3 billion in cash for Cox s interest in Discovery. Accordingly, Discovery s 2008 results of operations do not include Travel Channel. The disposal of Travel Channel does not meet the requirements for discontinued operations presentation. The following table presents U.S. networks results of operations excluding Travel Channel for all periods. This presentation is not in accordance with GAAP. However, Discovery believes this presentation provides a more meaningful comparison of the U.S. networks results of operations and allows the reader to better understand the U.S. networks ongoing operations.

U.S. Networks without Travel Channel

	Six Months Ended June 30,	
	2008	2007
	amounts in thousands	
Revenue		
Advertising	$ 526,862	472,173
Distribution	459,576	418,228
Other	53,449	39,072
Total revenue	$ 1,039,887	929,473
Cost of revenue	$ (261,317)	(285,142)

SG&A expenses	$	(246,034)	(204,632)

The following discussion excludes the results of Travel Channel for all periods.

Revenue. For the six months ended June 30, 2008, advertising revenue increased $54,689,000 or 12%, distribution revenue increased $41,348,000 or 10%, and other revenue increased $14,377,000 or 37%, as compared to the corresponding prior year period. The increase in advertising revenue at the U.S. networks was primarily due to higher cash sellouts and scatter market rates, which were partially offset by lower ratings at TLC.

Distribution revenue was driven by a 5% increase in average paying subscription units, principally from networks carried on the digital tier, combined with annual contractual rate increases for the fully distributed networks. Distribution revenue includes a one-time $7,975,000 revenue correction related to prior periods and resulting from improvements in Discovery s methodology of estimating accrued revenue for certain distribution

operators. The correction was recorded in its entirety in the second quarter of 2008 and was not considered material to the current or prior periods. Contra revenue items included in distribution revenue, such as launch amortization and marketing consideration, totaled $42,132,000 and $46,826,000 for the six months ended June 30, 2008 and 2007, respectively. In 2007, contra revenue included $3,044,000 for replacement decoder boxes to support the digitization of an analog transponder. U.S. networks is currently in negotiations to renew distribution agreements for carriage of its networks involving a substantial portion of its subscribers. A failure to secure a renewal or a renewal on less favorable terms may have a material adverse effect on U.S. networks results of operations and financial position.

Other revenue increased $14,377,000 for the six months ended June 30, 2008 as compared to the corresponding prior year period due to (i) a $12,413,000 increase in U.S. networks representation of the Travel Channel, (ii) a $6,039,000 impact from the acquisition of HowStuffWorks in December 2007 and (iii) a partial offset of these increases from a $4,431,000 decrease in intra-divisional revenue related to cross channel promotion time and program sharing, which is eliminated on a consolidated level.

Cost of revenue. For the six months ended June 30, 2008, cost of revenue decreased $23,825,000 or 8%, as compared to the corresponding prior year period, primarily due to a decrease in content amortization expense of $29,428,000. The decrease in content amortization expense was primarily an effect of the $129,091,000 content impairment charge recorded in the fourth quarter of 2007 which drove a $37,293,000 decrease in content amortization expense for the six months ended June 30, 2008 as compared to the corresponding prior year period. Partially offsetting this reduction is new content amortization expense for programming on Discovery Channel, TLC and Science Channel that began to air in 2008. Beginning in the third quarter of 2008, additional content amortization expense is expected from the launch of new programming on most networks and the rebranding of certain networks.

SG&A expenses. SG&A expenses increased $41,402,000 or 20% for the six months ended June 30, 2008, as compared to the corresponding prior year period. The increase is primarily driven by $23,096,000 of expenses related to the continued investment in digital media, including acquisitions from the third and fourth quarters of 2007, increased marketing of $11,079,000 for Animal Planet and the launch of Planet Green, and a $7,033,000 impact related to the expansion of network teams to support the re-branding strategies for Planet Green and Investigation Discovery.

Digital Media Business. U.S. networks digital media business revenue, included within advertising and other revenue, was $25,706,000 and $12,897,000 for the six months ended June 30, 2008 and 2007, respectively. Combined cost of revenue and SG&A expenses for these businesses were $45,634,000 and $17,149,000 for the six months ended June 30, 2008 and 2007, respectively. Discovery expects to continue to invest in digital media due to its recent acquisitions of PetFinder.com, TreeHugger.com and HowStuffWorks.com, as well as any future organic investments in this arena.

International Networks

	Six Months Ended June 30,	
	2008	**2007**
	amounts in thousands	
Revenue		
Advertising	$ 154,754	134,886
Distribution	360,109	291,866
Other	53,276	38,209

Total revenue	$	568,139	464,961
Cost of revenue	$	(211,976)	(189,283)
SG&A expenses	$	(200,046)	(191,979)

Revenue. Distribution revenue increased 23%, or $68,243,000, for the six months ended June 30, 2008, as compared to the corresponding prior year period, principally comprised of combined revenue growth in EMEA and Latin America of $38,573,000 and a favorable foreign exchange impact of $22,416,000. The increase in revenue resulted from increases in average paying subscription units of 17% primarily due to pay TV subscriber growth in EMEA and Latin America. Advertising revenue increased 15%, or $19,868,000, for the six months ended June 30, 2008, primarily due to higher viewership in EMEA and Latin America combined with an increased subscriber base in most markets worldwide and favorable foreign exchange impacts of $8,711,000. These increases were partially offset by a reduction of $13,305,000 in the U.K. market. Other revenue increased 39%, or $15,067,000, primarily due to an improvement in licensing and sales of programming and growth at Antenna Audio.

Cost of revenue. Cost of revenue increased 12%, or $22,693,000, for the six months ended June 30, 2008, as compared to the corresponding prior year period, driven by a $21,757,000 increase in content amortization expense due to continued investment in original productions and language customization to support additional local feeds for growth in local ad sales.

SG&A expenses. SG&A expenses increased 4%, or $8,067,000, for the six months ended June 30, 2008, as compared to the corresponding prior year period. The increase is primarily due to an increase in personnel costs of $13,594,000 which includes an unfavorable foreign exchange impact of $3,872,000, offset by decreases in marketing and other general expenses due to a shift in content investment.

For the six months ended June 30, 2008 and 2007, the international networks revenue and operating income were impacted favorably by changes in the exchange rates of various foreign currencies. In the event the U.S. dollar strengthens against certain foreign currencies in the future, the international networks group s revenue and operating income would be negatively impacted. Had there been no impact from changes in exchange rates, international networks would have increased revenue by 15% instead of 22% and combined cost of revenue and SG&A expenses would have increased by 4% instead of 8% during the six months ended June 30, 2008, as compared to 2007.

Commerce and Education

	Six Months Ended June 30, 2008	2007
	amounts in thousands	
Revenue	$ 44,951	55,990
Cost of revenue	$ (22,546)	(26,280)
SG&A expenses	$ (25,818)	(25,978)

Revenue. Commerce and education revenue decreased 20% or $11,039,000 for the six months ended June 30, 2008, as compared to the corresponding prior year period, due to a decrease in commerce revenue primarily due to the higher level of sales of Planet Earth DVDs in the second quarter of 2007 following the premiere of this series in March 2007. This decrease was offset by strong home video sales of Human Body, Sunrise Earth, Body Atlas, and Dirty Jobs during the six months ended June 30, 2008. Weakness in consumer spending in e-commerce and back-ordered sales for NASA (When We Left Earth) also impacted the current year s sales performance. Education revenue remained flat as a result of increased streaming and other revenue driven by further penetration of core

streaming businesses and new products offset by a decrease in other non-digital services.

Cost of revenue. Cost of revenue decreased 14% or $3,734,000 for the six months ended June 30, 2008, as compared to the corresponding prior year period, due to (i) reduced expenses resulting from reduced sales levels, (ii) the execution of the new Commerce product mix strategy of lower cost, higher margin products and (iii) emphasis on DVD sales.

SG&A expenses. SG&A expenses remained flat for the six months ended June 30, 2008, as compared to the corresponding prior year period, primarily due to increased costs related to the transition of the remaining commerce distribution services to third-party service providers offset by a decrease due to a legal settlement in the first quarter of 2007 and a reduction in Education personnel as a result of business restructurings in 2007.

Corporate

	Six Months Ended June 30,	
	2008	2007
	amounts in thousands	
Revenue	$ 5,233	(17,186)
Expenses	$ (89,386)	(70,677)

Corporate is mainly comprised of ancillary revenue and expenses, elimination of intra-divisional revenue and expenses, corporate functions, executive management and administrative support services. Corporate expenses are excluded from segment results to enable executive management to evaluate business segment performance based upon decisions made directly by business segment executives. Corporate revenue increased $22,419,000 for the six months ended June 30, 2008, as compared to the corresponding prior year period, primarily due to increased ancillary revenue from sales of the Planet Earth DVD, which is not expected to continue at the same level. Corporate costs increased $18,709,000 or 26% driven by (i) $7,382,000 incurred in conjunction with the Newhouse Transaction and Ascent Spin Off, (ii) $5,484,000 related to the Planet Earth DVD sales, and (iii) $4,211,000 of transaction costs related to the formation and negotiation of the OWN joint venture.

Discovery s Liquidity and Capital Resources

Discovery s principal sources of liquidity are cash flows from operations and borrowings under its credit facility, and its principal uses of cash are for capital expenditures, acquisitions, debt service requirements, and other obligations. Discovery anticipates that its operating cash flows, existing cash, cash equivalents and borrowing capacity under its revolving credit facility are sufficient to meet its anticipated cash requirements for at least the next 12 months.

During the six months ended June 30, 2008, Discovery s primary uses of cash were principal payments under its bank facilities and senior notes totaling $196,652,000, capital expenditures of $24,053,000, and payments under its LTIP of $17,701,000. Discovery funded these investing and financing activities with cash from operations of $172,977,000 and bank borrowings of $101,125,000.

Discovery s various debt facilities include two term loans, two revolving loan facilities and various senior notes payable. The second term loan was entered into on May 14, 2007 for $1.5 billion in connection with the Cox Transaction. Total commitments of these facilities were $5,440,000,000 at June 30, 2008. Debt outstanding on these facilities aggregated $4,008,225,000 at June 30, 2008, providing excess debt availability of $1,431,775,000. Discovery s ability to borrow the unused capacity is dependent on its continuing compliance with its covenants at the time of, and after giving effect to, a requested borrowing.

Discovery s $1.5 billion term loan is secured by the assets of Discovery, excluding assets held by its subsidiaries. The remaining term loan, revolving loans and senior notes are unsecured. The debt facilities contain covenants that require the respective borrowers to meet certain financial ratios and place restrictions on the payment of dividends, sale of assets, additional borrowings, mergers, and purchases of capital stock, assets and investments. Discovery has indicated that it was in compliance with all debt covenants as of June 30, 2008.

In 2008, including amounts discussed above, Discovery expects its uses of cash to be approximately $266,285,000 for debt repayments, $90,000,000 for capital expenditures and $263,000,000 for interest expense. Discovery will also be required to make payments under its LTIP. However, amounts expensed and payable under the LTIP are dependent on future annual calculations of unit values which are affected primarily by changes in DHC s stock price, annual grants of additional units, redemptions of existing units, and changes to the plan. If the remaining vested LTIP awards at June 30, 2008 were redeemed, the aggregate cash payments by Discovery would be approximately $78,485,000. Discovery believes that its cash flow from operations and borrowings available under its credit facilities will be sufficient to fund its cash requirements, including LTIP obligations.

Discovery has agreements covering leases of satellite transponders, facilities and equipment. These agreements expire at various dates through 2020. Discovery is obligated to license programming under agreements

Table of Contents

with content suppliers that expire over various dates. Discovery also has other contractual commitments arising in the ordinary course of business.

Item 3. *Quantitative and Qualitative Disclosures about Market Risk*

Foreign Currency Risk

We continually monitor our economic exposure to changes in foreign exchange rates and may enter into foreign exchange agreements where and when appropriate. Substantially all of our foreign transactions are denominated in foreign currencies, including the liabilities of our foreign subsidiaries. Although our foreign transactions are not generally subject to significant foreign exchange transaction gains or losses, the financial statements of our foreign subsidiaries are translated into United States dollars as part of our consolidated financial reporting. As a result, fluctuations in exchange rates affect our financial position and results of operations.

Item 4. *Controls and Procedures*

In accordance with Exchange Act Rules 13a-15 and 15d-15, the Company carried out an evaluation, under the supervision and with the participation of management, including its chief executive officer, principal accounting officer and principal financial officer (the Executives), of the effectiveness of its disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Executives concluded that the Company s disclosure controls and procedures were effective as of June 30, 2008 to provide reasonable assurance that information required to be disclosed in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms.

There has been no change in the Company s internal controls over financial reporting identified in connection with the evaluation described above that occurred during the three months ended June 30, 2008 that has materially affected, or is reasonably likely to materially affect, its internal controls over financial reporting.
