INTERLEUKIN GENETICS, INC.
PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON JUNE 15, 2001

GENERAL INFORMATION

This Proxy Statement and the accompanying proxy are furnished to the stockholders of Interleukin Genetics, Inc., a Delaware corporation (the "Company", "ILGN", "we", "us" or "our"), in connection with the solicitation by the Board of Directors of proxies for use at the Annual Meeting of Stockholders (the "Annual Meeting" or "Meeting") to be held on June 15, 2001, at 10:00 a.m., Eastern Time, at the Company's executive offices, located at 135 Beaver Street, Waltham, Massachusetts 02452. If the Meeting is continued or postponed for any reason, the proxies can be used at the continuation or new date for the purposes defined in the preceding Notice of Annual Meeting of Stockholders. Properly executed proxies received at, or prior to the Meeting will be voted.

Only holders of record of the Company's common stock, \$0.001 par value per share ("Common Stock"), at the close of business on May 10, 2001 (the "Record Date") are entitled to vote at the Annual Meeting. On that date there were _____ outstanding and entitled to vote _____ shares of Common Stock, each of which is entitled to one vote per share.

The Annual Report to Stockholders for the year ended December 31, 2000, has been or is being furnished with this Proxy Statement, which is being mailed on or about May 17, 2001, to the holders of record of Common Stock on the Record Date. The Annual Report to Stockholders does not constitute a part of the proxy materials.

VOTING AND PROXY PROCEDURES

Stockholders are urged to specify their choices on the proxy, but if no choice is specified, eligible shares will be voted FOR the election of the two nominees for director named in this Proxy Statement and FOR ratification of the appointment of Arthur Andersen LLP as our independent public accountants for the fiscal year ending December 31, 2001. At the date of this Proxy Statement, we know of no other matters which are likely to be brought before the Annual Meeting. However, if any other matters should properly come before the Annual

Edgar Filing: INTERLEUKIN GENETICS INC - Form DEF 14A

Meeting, the persons named in the enclosed proxy card will have discretionary authority to vote in accordance with their best judgment.

You retain the right to revoke your proxy at any time up to and including the time of the Annual Meeting by filing a later-dated proxy or by written notice filed with our Secretary at our executive offices or by voting your shares in person at the Annual Meeting. Our executive offices are located at 135 Beaver Street, Waltham, Massachusetts 02452.

A quorum of stockholders is required to hold a valid meeting. If the holders of a majority of the total shares of Common Stock entitled to vote are either present in person or represented by proxy, then a quorum will exist. Abstentions and broker non-votes are each included in the number of shares present at the Annual Meeting for purposes of establishing a quorum. The affirmative vote of the holders of a plurality of the shares of Common Stock present in person or represented by proxy and entitled to vote is required for the election of directors and thus, abstentions and broker non-votes have no effect on the outcome of the election of directors. The appointment of Arthur Andersen LLP as the independent public accountants for the fiscal year ending December 31, 2001 requires the affirmative vote of a majority of the total shares of Common Stock present in person or represented by proxy and entitled to vote and, therefore, abstentions will have the same effect as a vote against that proposal. Broker non-votes will not be included in the vote totals and, therefore, will have no effect on the outcome of a proposal.

The cost of solicitation of proxies will be paid by the Company. In addition to solicitation by mail, proxies may be solicited by our directors, officers and employees, without additional compensation (other than reimbursement of out-of-pocket expenses), by personal interview, telephone, telegram or otherwise. Arrange-

4

ments will also be made with brokerage firms and other custodians, nominees and fiduciaries who hold the voting securities of record for the forwarding of solicitation materials to the beneficial owners of Common Stock. We will reimburse such brokers, custodians, nominees and fiduciaries for reasonable out-of-pocket expenses incurred by them.

The enclosed form of proxy provides a means for the holders of Common Stock to vote for each of the nominees listed, to withhold authority to vote for one or both of the nominees or to withhold authority to vote for all nominees. All audit and non-audit services provided by Arthur Andersen LLP are approved by the Company's Audit Committee, which considers whether the provision of non-audit services is compatible with maintaining the independence of Arthur Andersen LLP.

Representatives of Arthur Andersen LLP are expected to be present at the Annual Meeting. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions from stockholders.

Edgar Filing: INTERLEUKIN GENETICS INC - Form DEF 14A

AUDIT COMMITTEE REPORT TO THE BOARD OF DIRECTORS

The Audit Committee of the Board of Directors of the Company serves as the representative of the Board for general oversight of our financial accounting and reporting process, system of internal control, audit process, and process for monitoring compliance with laws and regulations. The Audit Committee of the Board is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. Our management has primary responsibility for preparing the financial statements and our financial reporting process. Our independent accountants, Arthur Andersen LLP, are responsible for expressing an opinion on the conformity of our audited financial statements to generally accepted accounting principles. Our Board of Directors, in its business judgment, has determined that all members of the Audit Committee are "independent" as required by applicable listing standards of the National Association of Securities Dealers.

Edgar Filing: INTERLEUKIN GENETICS INC - Form DEF 14A

The Audit Committee operates under a written charter approved by the Board of Directors. A copy of the Audit Committee Charter is attached to this Proxy Statement as Appendix A.

The Audit Committee reviews the Company's financial reporting process on behalf of the Board. In fulfilling its responsibilities, the Audit Committee has reviewed and discussed the audited financial statements contained in the 2000 Annual Report on Form 10-K with management and the independent auditors. The Audit Committee discussed with the independent auditors matters required to be discussed by the Statement on Auditing Standards No. 61, "Communication with Audit Committees". In addition, the Company's independent accountants provided to the Audit Committee the written disclosures required by the Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees," and the Audit Committee discussed with independent accountants their independence.

In reliance on the discussions referred to above, the Audit Committee recommended to the Board (and the Board has approved) that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2000, for filing with the SEC.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee is responsible for making all compensation decisions for the named executives including determining base salary and annual incentive compensation amounts and making recommendations to the Board of Directors regarding stock options and other stock-based compensation under our 2000 Employee Stock Compensation Plan (the "Incentive Plan").

Overall Objectives of the Executive Compensation Program

The purpose of our compensation plan is to attract, retain and motivate key management employees. It is our philosophy to pay our executives at levels commensurate with both Company and individual performance. A primary consideration in developing our executive compensation programs is to link the long-term financial interests of executives with those of the Company and its stockholders. The Compensation Committee reviews compensation for comparable organizations in order to establish the Company's total compensation program and determine awards under the Incentive Plan.

In 2000, the total compensation program for our top executives, approved by the Company's Board of Directors, consisted of a base salary for each of such executives.

Base Salary Program

It is the Company's policy to establish salaries at a level approximating the average of the competitive levels in comparable organizations and to provide annual salary increases reflective of the executive's performance, level of responsibility and position with the Company.

Annual Incentive

Edgar Filing: INTERLEUKIN GENETICS INC - Form DEF 14A

Each year, the Compensation Committee evaluates the performance of the Company as a whole, as well as the performance of each individual executive. Factors considered include revenue growth, net profitability and cost control. The Compensation Committee does not utilize formalized mathematical formulae, nor does it assign weightings to these factors. The Compensation Committee, in its sole discretion, determines the amount, if any, of incentive payments to each executive. The Compensation Committee believes that the Company's growth in revenue and profitability requires subjectivity on the part of the Committee when determining incentive payments. The Compensation Committee believes that specific formulae restrict flexibility.

Equity Incentive Plan

In 2000, we adopted the Incentive Plan which permits us to make grants of stock options, stock appreciation rights or restricted stock awards as part of our overall incentive compensation program. The Incentive Plan is intended to attract, retain and motivate key management personnel and to align the interest of the executives with those of stockholders. The overall long-term incentive grant levels are established by reviewing the number of shares reserved for such plans by comparable organizations. Individual long-term incentive grants are based on the employee's position and responsibility level.

Section 162(m)

Section 162(m) of the Code currently imposes a \$1 million limitation on the deductibility of certain compensation paid to each of our five highest paid executives. Excluded from this limitation is compensation that is "performance based." For compensation to be performance based it must meet certain criteria, including being based on predetermined objective standards approved by stockholders. In general, we believe that compensation relating to options granted under the Incentive Plan should be included in the \$1 million limitation calculation. Compensation relating to our incentive compensation awards do not currently qualify for exclusion from the limitation, given the discretion that is provided to the Committee in establishing the performance goals for such awards. The Compensation Committee believes that maintaining the discretion to evaluate the performance of our management is an important part of its responsibilities and inures to the

9

12

benefit of our stockholders. The Compensation Committee, however, intends to take into account the potential application of Section 162(m) with respect to incentive compensation awards and other compensation decisions made by it in the future.

CEO Compensation

The Committee established Dr. Reilly's base salary at \$325,000, which approximates the median level of CEOs at comparable companies in the Boston area. As of December 31, 2000, Dr. Reilly had beneficial ownership of 326,241 shares of stock (including 325,241 shares of which he has a right to receive pursuant to presently exercisable options).

Conclusion

The Compensation Committee believes these executive compensation policies serve the interests of the stockholders and the Company effectively. The Committee believes that the various pay vehicles offered are appropriately balanced to provide increased motivation for executives to contribute to the Company's overall future successes, thereby enhancing the value of the Company

Edgar Filing: INTERLEUKIN GENETICS INC - Form DEF 14A

for the stockholders' benefit.
