Item 5. OTHER EVENTS.

Earlier today, FleetBoston's Chief Financial Officer, Eugene M. McQuade, reviewed third quarter results of \$766 million or \$.70 per diluted share. Mr. McQuade discussed the impact of the slowing economy and lower business volumes on FleetBoston's operations. In light of these conditions, he characterized FleetBoston's operating earnings coming out of the third quarter to be in the low to mid \$.60 per diluted share range and expected that the fourth quarter of this year would be no higher than that. He further stated that the current outlook for 2002 performance has been revised to a range of \$3.25-\$3.35 per diluted share, which is in the lower range of current analyst expectations. Mr. McQuade reiterated the company's

focus on generating internal growth and described a number of customer initiatives underway.

A replay of Mr. McQuade's conference call is available until October 19, 2001 at 6:00 P.M. (Eastern Daylight Time). Domestic callers can access the playback by calling 1-888-566-0055. International callers should call 402-998-1142.

This report contains forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from estimates. These risks and uncertainties include, among other things, (1) changes in general political and economic conditions, either domestically or internationally, including the economic effects of the September 11, 2001 terrorist attacks against the United States and the response of the United States to those attacks, the continuing weakness in the Latin American economies, particularly Argentina, and a further deterioration in credit quality, including the resultant effect on the level of the Corporation's nonperforming assets and chargeoffs; (2) interest rate and currency fluctuations, equity and bond market fluctuations and perceptions, including continued weakness in the global capital markets and the impact of such weakness on the Corporation's Principal Investing and other capital markets businesses; (3) changes in the competitive environment for financial services organizations and the Corporation's ability to manage those changes; (4) legislative or regulatory developments, including changes in laws concerning taxes, banking, securities, insurance and other aspects of the financial services industry; (5) technological changes, including the impact of the Internet on the Corporation's businesses; (6) the ability of the Corporation to fully realize expected cost savings and realize those savings within the expected timeframes; and (7) the level of costs related to the integration of acquired businesses. For further information, please refer to the Corporation's previous filings with the SEC.
