The following letter was sent to certain partners of ScanSoft, Inc. on May 20, 2005:

Valued ScanSoft Partner,

We have exciting news to share that we believe will allow us to deliver even more innovative productivity applications to your organization. As a valued Partner, we wanted to provide you with the details of this news, and to reinforce the value we place in our partnership with you.

On May 9, 2005 ScanSoft and Nuance announced a definitive agreement to merge, whereby ScanSoft will acquire all outstanding Nuance common stock. Both companies Boards of Directors have given their approval and we expect the transaction to close in September 2005. During the transition period (between the announcement and the transaction s completion), ScanSoft and Nuance will continue to operate as usual with both companies servicing their customers with the same commitment to customer service and product quality you ve come to expect.

This transaction will result in an even stronger ScanSoft organization, benefiting both our speech and imaging customers and partners. When the transaction is complete, the combined organization will result in:

<u>A Stronger Partner</u> We believe that this transaction will result in a stronger organization, one with even more resources to apply to product development, sales, marketing and customer support.

Continued Leadership in Imaging While this transaction revolves around speech technologies and products, it clearly enables the combined company to continue to provide technical and product leadership within our imaging solutions. The ScanSoft Productivity Applications Division will continue to focus on delivering the best imaging solutions available, extending our leadership in scanning, OCR, PDF and document management.

Commitment to Partnerships ScanSoft s imaging solutions have been selected by nearly 100% of hardware and software vendors delivering imaging solutions, including Autodesk, Avision, Brother, Canon, Captiva, Corex, Dell, FileNET, HP, Kofax, Konica, Kyocera, Lexmark, Microsoft, Visioneer and Xerox. ScanSoft remains committed to delivering innovative solutions to our partners solutions that lead the industry in accuracy, capabilities and value. As a part of this transaction, scheduled to close later this year, we will change the name of the combined company to Nuance. ScanSoft has been focused on delivering productivity solutions based on both imaging and speech technologies, meaning that the company represents more than a specific technology. Moving to a technology neutral name presents us

with a great opportunity to use a name that is respected and known in the speech industry yet inclusive enough to use for the entire company, including the imaging business.

As with previous acquisitions, our planning objectives will focus on creating a combined organization that best meets all our customers needs meaning your needs. Please feel free to contact me or your ScanSoft Account Manager with any questions that you may have. We are excited to share this news with you, and look forward to continuing or success with you.

Sincerely,

John Shagoury President, Productivity Applications ScanSoft, Inc.
