QUESTIONS AND ANSWERS ABOUT THE PROXY MATERIALS AND THE ANNUAL MEETING

Q: Why am I receiving these materials?

A: The Board of Directors (the Board) of Belden Inc. (sometimes referred to as the Company or Belden) is providing these proxy materials to you in connection with the solicitation of proxies by Belden on behalf of the Board for the 2008 annual meeting of stockholders which will take place on May 22, 2008. This proxy statement includes information about the issues to be voted on at the meeting. You are invited to attend the meeting and are requested to vote on the proposals described in this proxy statement. We began mailing these proxy materials to all stockholders of record on or about April 21, 2008.

Q: Who is qualified to vote?

A: You are qualified to receive notice of and to vote at the annual meeting if you own shares of common stock of the Company at the close of business on our record date of March 26, 2008. On the record date, there were 44,132,495 shares of Belden common stock outstanding. Each share is entitled to one vote on each matter properly brought before the annual meeting.

Q: What information is contained in these materials?

A: The information included in this proxy statement relates to the proposals to be voted on at the meeting, the voting process, the compensation of directors and our most highly-paid officers, and certain other required information. Our 2007 Annual Report to Stockholders, which includes our Annual Report on Form 10-K, is also enclosed. The Form 10-K includes our 2007 audited financial statements with notes and the related Management's Discussion and Analysis of Financial Condition and Results of Operations.

Q: What matters will be voted on at the meeting?

A: One matter will be voted on at the meeting:

To elect eleven directors, each for a term of one year.

Q: What is Belden's voting recommendation?

A: Our Board of Directors recommends that you vote your shares **FOR** this proposal.

Q: What shares owned by me can be voted?

A: All shares owned by you as of March 26, 2008, the record date, may be voted by you. These shares include those (1) held directly in your name as the *shareholder of record*, and (2) held for you as the *beneficial owner* through a stockbroker, bank or other nominee.

Q: What is the difference between holding shares as a shareholder of record and as a beneficial owner?

A: Some Belden stockholders hold their shares through a stockbroker, bank or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Shareholder of Record

If your shares are registered directly in your name with Belden's transfer agent, ComputerShare, you are considered (with respect to those shares) *the shareholder of record* and these proxy materials are being sent directly to you by Belden. As the *shareholder of record*, you have the right to grant your voting proxy directly to Belden or to vote in person at the meeting. Belden has enclosed a proxy card for you to use.

Beneficial Owner

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the *beneficial owner* of shares held in street name (that is, the name of your stock broker, bank or other nominee) and these proxy materials are being forwarded to you by your broker or nominee who is considered, with respect to those shares, the *shareholder of record*. As the beneficial owner, you have the right to direct your broker or nominee how to vote and are also invited to attend the meeting. However, since you are not the *shareholder of record*, you may not vote these shares in person at the meeting. Your broker or nominee has enclosed a voting instruction card for you to use.

Table of Contents

Q: How can I vote my shares in person at the meeting?

A: Shares held directly in your name as the shareholder of record may be voted in person at the annual meeting. If you choose to do so, please bring the enclosed proxy card or other proof of identification.

Even if you plan to attend the annual meeting, we recommend that you also submit your proxy as described below so that your vote will be counted if you decide later not to attend the meeting.

Q: How can I vote my shares without attending the meeting?

A: Whether you hold shares directly as the shareholder of record or beneficially in street name, you may direct your vote without attending the meeting. You may vote by granting a proxy or, for shares held in street name, by submitting voting instructions to your broker or nominee. You will be able to do this over the Internet, by telephone or by mail by following the instructions on your proxy card or, for shares held in street name, the voting instruction card provided by your broker or nominee.

Q: Can I change my vote?

A: You may change your proxy or voting instructions at any time prior to the vote at the annual meeting. For shares held directly in your name, you may accomplish this by granting a new proxy or by attending the annual meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request. For shares held beneficially by you, you may accomplish this by submitting new voting instructions to your broker or nominee.

Q: What are the voting requirements to approve the proposal?

A: The Proposal *Election of eleven directors, each for a term of one year* requires a plurality of the votes cast to elect a director.

Q: How are votes withheld, abstentions and broker non-votes treated?

A: Votes withheld and abstentions are deemed present at the meeting, are counted for quorum purposes, and will have no effect on the outcome for the election of directors. In the absence of receiving instructions from a beneficial owner of shares, a broker will have the discretionary authority to vote for the election of directors.

Q: Where can I find the voting results of the meeting?

A: We will announce preliminary voting results at the meeting and publish final results in our quarterly report on Form 10-Q for the second quarter of 2008.

Q: What happens if additional proposals are presented at the meeting?

A: Other than the proposal described in this proxy statement, we do not expect any matters to be presented for a vote at the annual meeting. If you grant a proxy, the persons named as proxy holders, Kevin Bloomfield, the Company's Secretary, and Christopher E. Allen, the Company's Assistant Secretary, will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If for any unforeseen reason any of our nominees are not available as a candidate for director, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the Board of Directors.

Q: What class of shares is entitled to be voted?

A: Each share of our common stock outstanding as of the close of business on March 26, 2008, the record date, is entitled to one vote at the annual meeting.

Q: What is the quorum requirement for the meeting?

A: The quorum requirement for holding the meeting and transacting business is a majority of the outstanding shares entitled to vote. The shares may be present in person or represented by proxy at the meeting. Both abstentions and withheld votes are counted as present for the purpose of determining the presence of a quorum for the proposal.

Q: Who will count the votes?

A: A representative of Broadridge Financial Solutions will tabulate the votes and will act as the inspector of election.

Table of Contents

Q: Is my vote confidential?

A: Proxy instructions, ballots and voting tabulations that identify individual shareholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within Belden or to third parties except (1) as necessary to meet applicable legal requirements, (2) to allow for the tabulation of votes and certification of the vote, or (3) to facilitate a successful proxy solicitation by our Board. Occasionally, shareholders provide written comments on their proxy cards, which are then forwarded to Belden management.

Q: Who will bear the cost of soliciting votes for the meeting?

A: Belden will pay the cost of soliciting proxies. Upon request, the Company will reimburse brokers, banks and trustees, or their nominees, for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of shares of the Company's common stock.

Q: May I propose actions for consideration at next year's annual meeting of stockholders or nominate individuals to serve as directors?

A: You may submit proposals for consideration at future stockholder meetings, including director nominations.

Stockholder Proposals: To be included in the Company's proxy statement and form of proxy for the 2009 annual meeting, a stockholder proposal must, in addition to satisfying the other requirements of the Securities and Exchange Commission's rules and regulations, be received at the Company's principal executive offices not later than December 15, 2008.

Nomination of Director Candidates: The Nominating and Corporate Governance Committee will consider nominees recommend-ed by stockholders if such nominations are submitted to the Company prior to the deadline for proposals to be included in future proxy statements as noted in the above paragraph. To have a candidate considered by the Committee, a stockholder must submit the recommendation in writing and must include the following information:

The name of the stockholder and evidence of the person's ownership of Company stock, including the number of shares owned and the length of time of ownership; and

The name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of Belden and the person's consent to be named as a director if selected by the Committee and nominated by the Board.

In considering candidates submitted by stockholders, the Committee will take into consideration the needs of the Board and the qualifications of the candidate. The Committee may also take into consideration the number of shares held by the recommending stockholder and the length of time that such shares have been held. The Committee believes that the minimum qualifications for serving as a director of the Company are that a nominee demonstrate, by significant accomplishment in his or her field, an ability to make a meaningful contribution to the Board's oversight of the business and affairs of the Company and have an impeccable record and reputation for honest and ethical conduct in both his or her professional and personal activities. In addition, the Committee examines a candidate's specific experiences and skills, time availability in light of other commitments, potential conflicts of interest and independence from management and Belden. The Committee also seeks to have the Board represent a diversity of backgrounds and experience.

The Committee will identify potential nominees by asking current directors and executive officers to notify the Committee if they become aware of persons, meeting the criteria described above, who have had a change in circumstances that might make them available to serve on the Board. The Committee also, from time to time, may engage firms that specialize in identifying director candidates. As described above, the Committee will also consider candidates recommended by stockholders.

Once a person has been identified by the Committee as a potential candidate, the Committee may collect and review publicly available information regarding the person to assess whether the person should be considered further. If the Committee determines that the candidate warrants further consideration, the Chairman or another member of the Committee may contact the person. Generally, if the person expresses a willingness to be considered and to serve on the Board,

Table of Contents

the Committee will request information from the candidate, review the person's accomplishments and qualifications, and conduct one or more interviews with the candidate. In certain instances, Committee members may contact one or more references provided by the candidate or may contact other members of the business community or other persons that may have greater first-hand knowledge of the candidate's accomplishments. The Committee's evaluation process will not vary based on whether or not a candidate is recommended by a stockholder, although, as stated above, the Board may take into consideration the number of shares held by the recommending stockholder and the length of time that such shares have been held.

BOARD STRUCTURE AND COMPENSATION

The Belden Board has eleven members and three standing committees: Audit, Compensation, and Nominating and Corporate Governance. The Board had twelve meetings during 2007; eight were telephonic. All directors attended 75% or more of the Board meetings and the Board committee meetings on which they served. The maximum number of directors authorized under the Company's bylaws is eleven.

At its regular meeting in February 2008, the Board determined that Ms. Brown and Messrs. Aldrich, Bain, Balk, Cressey, Harris, Kalnasy, Monter, and Rethore, each met the independence requirements of the NYSE listing standards. As part of this process, the Board determined that each such member had no material relationship with the Company. In connection with Ms. McLeod's appointment, the Board conducted a review of her background to ensure that she would be independent of the Company and management.

Audit Committee

The Audit Committee operates under a Board-approved written charter and each member meets the independence requirements of the NYSE's listing standards. The Committee assists the Board in overseeing the Company's accounting and reporting practices by:

meeting with its financial management and independent registered public accounting firm (Ernst &

Table of Contents

Young LLP) to review the financial statements, quarterly earnings releases and financial data of the Company;

reviewing and selecting the independent registered public accounting firm who will audit the Company's financial statements;

reviewing the selection of the internal auditors (Brown Smith Wallace LLC) who provide internal audit services;

reviewing the scope, procedures and results of the Company's financial audits, internal audit procedures and internal controls assessments and procedures under Section 404 of the Sarbanes-Oxley Act of 2002 ("SOX"); and

evaluating the Company's key financial and accounting personnel.

A representative of Ernst & Young LLP is expected to be present at the annual meeting and will have the opportunity to make a statement if the representative desires to do so, and is expected to be available to respond to appropriate questions.

At its February 21, 2008 meeting, the Board determined that Messrs. Rethore, Bain, and Harris each was an Audit Committee Financial Expert as defined in the rules pursuant to the Sarbanes-Oxley Act of 2002 and each is independent. Because of Ms. Brown's recent appointment to the Board and Audit Committee (February 21, 2008), the Board will wait until next year to determine if she is an Audit Committee Financial Expert.

Audit Committee Report

The Audit Committee assists the Company's Board of Directors in its general oversight of the Company's financial reporting process. Management is responsible for the preparation and presentation of the Company's financial statements. Ernst & Young LLP ("EY"), the Company's independent registered public accounting firm for 2007, is responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of the Company's financial statements with accounting principles generally accepted in the United States.

The Committee has reviewed and discussed the Company's audited financial statements for 2007 with management and has discussed with EY the matters that are required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as amended.

EY has provided to the Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, and the Committee has discussed with EY and confirmed that firm's independence. The Committee has concluded that EY's provision of non-audit services to the Company and its subsidiaries is compatible with EY's independence.

Based on these reviews and discussions, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for 2007.

In approving such services, the Audit Committee did not rely on the pre-approval waiver provisions of the applicable rules of the SEC.

Audit Committee's Pre-Approval Policies and Procedures

Audit Fees: For 2007, the Committee reviewed and pre-approved the audit services and estimated fees for the year. Throughout the year, the Committee received project updates and, if appropriate, approved or ratified any amounts exceeding the original estimates.

Non-Audit Services and Fees: Annually, and otherwise as necessary, the Committee reviews and pre-approves all non-audit services and the estimated fees for such services. For recurring services, such as tax compliance, expatriate tax returns, and statutory filings, the Committee reviews and pre-approves the services and estimated total fees for such matters by category and location of service. The projected fees are updated quarterly and the Committee considers and, if appropriate, approves any amounts exceeding the original estimates.

For non-recurring services, such as special tax projects, due diligence or other tax services, the Committee reviews and pre-approves the services and estimated fees by individual project. The projections are updated quarterly and the Committee reviews, and, if appropriate, approves any amounts exceeding the original estimates.

Should an engagement need pre-approval before the next Committee meeting, the Committee has delegated to the Committee Chair (or if he were unavailable, another Committee member) authority to grant such approval. Thereafter, the entire Committee will review such approval at its next quarterly meeting.

Compensation Committee

The Compensation Committee of Belden determines, approves and reports to the Board on all elements of compensation for the Company's elected officers. The Committee reviews the design, funding and competitiveness of the Company's retirement programs. The Committee also assists the Company in developing compensation and benefit strategies to attract, develop and retain qualified employees. The Committee operates under a written charter approved by the Board.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee identifies, evaluates and recommends nominees for the Board for each annual meeting (and to fill vacancies during interim periods); evaluates the composition, organization, and governance of the Board and its committees; oversees senior management succession planning; and develops and recommends corporate governance principles and policies applicable to the Company. The Nominating and Corporate Governance Committee will consider nominees recommended by stockholders if such nominations are submitted to the Company prior to the deadline for proposals to be included in future proxy statements as noted above under the caption *Nomination of Director Candidates*.

The Committee's responsibilities with respect to its governance function include considering matters of corporate governance and reviewing (and recommending to the Board revisions to) the Company's corporate governance guidelines and its code of ethics, which applies to all Company employees, officers and directors. The Committee is governed by a written charter approved by the Board.

Corporate Governance

Current copies of the Audit, Compensation and Nominating and Corporate Governance charters, as well as the Company's governance principles and code of ethics, are available on the Company's website at www.belden.com under the heading Corporate Governance. Printed copies of these materials are also available to stockholders upon request, addressed to the Corporate Secretary, Belden Inc., 7701 Forsyth Boulevard, Suite 800, St. Louis, Missouri 63105.

Communications with Directors

The Company's Board has established a process to receive communications from stockholders and other interested parties. Stockholders and other interested parties may contact any member (or all members) of the Board (including Bryan Cressey, Chairman of the Board and presiding director for non-management director meetings), any Board committee or any chair of any such committee by U.S. mail, through calling the Company's hotline or via e-mail.

To communicate with the Board, any individual director or any group or committee of directors, correspondence should be addressed to the Company's Board or

any such individual directors or group or committee of directors by either name or title. All such correspondence should be sent c/o Corporate Secretary, Belden Inc. at 7701 Forsyth Boulevard, Suite 800, St. Louis, MO 63105. To communicate with any of our directors electronically or through the Company's hotline, stockholders should go to our corporate website at www.belden.com. Under the headings Corporate Governance, you will find the Company's hotline number (with access codes for dialing from outside the U.S.) and an e-mail address that may be used for writing an electronic message to the Board, any individual directors, or any group or committee of directors. Please follow the instructions on our website to send your message.

All communications received as set forth in the preceding paragraph will be opened by (or in the case of the hotline, initially reviewed by) our corporate ombudsman for the sole purpose of determining whether the contents represent a message to our directors. Any contents that are not in the nature of advertising, promotions of a product or service, or patently offensive material will be forwarded promptly to the addressee. In the case of communications to the Board or any group or committee of directors, the corporate ombudsman's office will send copies of the contents to each director who is a member of the group or committee to which the envelope or e-mail is addressed.

In addition, it is the Company's policy that each director attends the annual meeting absent exceptional circumstances. Messrs. Aldrich, Bain, Balk, Cressey, Harris, Kalnasy, Monter, and Stroup attended the Company's 2007 annual meeting.

Each director received 2,033 RSUs in May 2007 and Mr. Aldrich received an additional RSU award of 2,500 in February 2007 upon his appointment to the Board; these vested on the anniversary date of his appointment.

The Board's policy is that each non-employee director holds Company stock equal in value to five times his or her annual cash retainer (currently 5 times \$60,000). Upon appointment, a member has five years to meet this requirement, but must meet interim goals during the five-year period of: 20% after one year; 40% after two years;

60% after three years; and 80% after four years. The in-the-money value of vested stock options and the value of unvested RSUs are included in making this determination at the higher of their grant date value or current market value. Messrs. Bain, Balk, Cressey, Harris, Kalnasy, Monter and Rethore each meet 100% of the stock holding requirement. Mr. Aldrich, who was appointed to the Board in February 2007, meets the second-year interim requirement and Ms. Brown and Ms. McLeod, who were appointed to the Board in February 2008, meet the first-year interim requirement.

**EXECUTIVE COMPENSATION:
COMPENSATION COMMITTEE REPORT**

The Compensation Committee has reviewed and discussed with management the following Compensation Discussion and Analysis section of this proxy statement. Based on such review and discussion, the Committee recommended to the Board of Belden that the Compensation Discussion and Analysis be included in the proxy statement.

Glenn Kalnasy (Chair)
David Aldrich

Compensation Discussion and Analysis

Principles and Objectives

The Compensation Committee sets the general compensation philosophy for Belden. The Committee's overriding objectives are to ensure that executive compensation is competitive and performance-based so Belden can attract, motivate, reward and retain key executive personnel and can ensure that executive compensation is closely aligned with the Company's short-term and long-term objectives.

The Committee achieves these objectives through the various elements of Belden's executive compensation program. The structure of this program relates a significant part of an executive's compensation opportunity to Belden's stock performance, its financial performance and performance against its three-year strategic plan.

Annual Process for Determining Total Compensation

The Compensation Committee is responsible for determining and approving the total compensation of the CEO and other executive officers based on the Committee's evaluation of Company performance and the executive's individual performance relative to pre-established performance goals and objectives. The Committee's approval of compensation actions with respect to executive officers other than the CEO is based on the CEO's performance evaluation of each such officer. The Committee also considers recommendations from Mr. Stroup regarding total compensation for those executives reporting directly to him.

The Committee annually reviews a summary of each component of compensation for each executive officer. The Committee's independent compensation consultant, Deloitte Consulting LLP, prepares this summary. The summary includes information concerning the executive's current salary, annual cash incentive opportunity, outstanding vested and unvested equity awards, retirement benefits, health benefits, perquisites and the amounts payable upon separation of employment or upon a change-in-control of the Company.

Under the Committee's direction, Deloitte also conducts an annual review of the Company's total compensation program for its executive officers. Deloitte provides the Committee with current market data on executive compensation and advises the Committee periodically on executive compensation philosophy, strategy and implementation. In its most recent review, the Committee concluded that annual compensation for its executive officers with respect to compensation levels as well as structure remained consistent with its philosophy and objectives.

The Company targets salaries of executive officers at the 50th percentile of the competitive market and targets annual cash incentive and long-term equity opportunities at the 75th percentile of the competitive market. Any salary increase for an executive officer must be approved by the Compensation Committee. Information on survey data and Belden's peer group used to review comparable executive compensation is included below under the heading *Benchmarking*. A discussion of the Company's incentive plans is provided below under the headings *Annual Cash Incentive Awards* and *Long-Term Equity Incentive Plan*.

Elements of Executive Compensation

Compensation for executive officers consists of the following elements:

Salary

Annual cash incentive awards

Long-term equity incentive awards (stock appreciation rights, performance share units, and restricted share units)

Retirement benefits

Health benefits

Perquisites

Salary

Salaries of the named executive officers are reviewed annually and at the time of a promotion or other change in responsibilities. Increases in salary are based on a review of the individual's performance, the competitive market, the individual's experience

Table of Contents

and internal equity. Mr. Stroup annually reviews each executive officer's performance and the Board reviews Mr. Stroup's performance. Each executive officer's performance is scored on a scale 1 (least effective) to 5 (exceptional), and based on the outcome of such review, an officer may receive a merit increase in salary, which the Compensation Committee must approve.

Merit increases are based on where the executive officer falls relative to median market targets that are divided into three categories—below market, market and above market. Anyone who scores least effective or needs improvement will not receive a merit increase and may be given an opportunity to improve performance or be dismissed. The named executive officers' salaries with respect to their median market targets at December 31, 2007 were: Mr. Stroup, 78%; Mr. Benoist, 98%, Mr. Rose, 113%; Mr. Sheehan, 143%; and Mr. Bloomfield, 92%. (Messrs. Sheehan and Rose left the Company in February 2008 and Mr. Canny, another named executive officer, left the Company in September 2007. Information on each of their separation arrangements is included below under the heading *Departures of Former Executive Officers.*)

Annual Cash Incentive Awards

Executive officers participate in Belden's annual cash incentive plan. Five hundred eleven (511) employees participated in the plan's 2007 performance period. Under the plan, participants earn cash awards based on the achievement of Company and individual performance goals. For 2007, the amount paid under the plan to all participants was \$11,231,006—0.55% of 2007 revenue. Annual cash incentive awards primarily reward short-term performance. The targeted annual cash incentive is based on an analysis of compensation for comparable positions in Belden's peer group.

The actual cash incentive award for executive officers is computed using the following formula:

Actual Award = Target Award X a Financial Factor X a Personal Performance Factor.

(The terms *Financial Factor* and *Personal Performance Factor* are discussed below.)

The 2007 target and actual cash incentive awards paid to the named executive officers are shown below.

2007 Annual Cash Incentive Awards

Name	Target as a % of Salary ⁽¹⁾	Target Bonus Award (\$)	Financial Factor	Personal Performance Factor	Actual Cash Award (\$)	Actual Award as a % of Salary
Mr. Stroup	130	780,000	1.28	1.5	1,497,600	249.6
Mr. Benoist	85	306,000	1.28	1.15	450,400	125

Mr. Bloomfield	70	199,500	1.28	1.15	295,700	103

⁽¹⁾ Target annual cash incentive awards are based on salary levels in effect at June 30, 2007.

Financial Factor

The Financial Factor for Messrs. Stroup, Benoist and Bloomfield was based entirely on consolidated results 80% on consolidated net income from continuing operations and 20% on consolidated working capital turns. These goals were chosen because in management's view they are the key elements that drive annual improvement in operating results and are instrumental in the Company achieving its three-year strategic objectives.

Working capital turns is calculated using a twelve point average of working capital turns at the end of each month during the calendar year computed by taking the ratio at the end of each month of (i) annualized actual cost of goods sold for the prior month and the current month plus the forecasted cost of goods sold for the next month to (ii) operating working capital at the end of the month.

The Financial Factor for Mr. Rose was divided equally between his division results (50%) and consolidated results (50%). This split was used so division presidents would provide appropriate focus on their achieving division operating and financial goals. The Financial Factor for division performance was based on division operating income (70%) and division working capital turns (30%). Mr. Sheehan's Financial

Table of Contents

Factor was based on the period in which he headed the Company's Belden Americas Division and the period in which he headed the Company's global marketing group, the latter of which was based on consolidated results.

The table below shows threshold, target and actual levels of the Financial Factor for Messrs. Stroup, Benoist and Bloomfield. The objectives in the Financial Factors reflect a significant level of difficulty for the executives given the business environment and challenges faced by the Company in 2007 and are intended to reflect 75th percentile performance levels. The target level for the consolidated net income component of the Financial Factor was the same as used by the Company in its 2007 operating budget and the target level for the working capital turns component of the Financial Factor was the *actual* 2006 working capital turns plus one turn improvement.

Both of these represent stretch goals compared to 2006 performance i.e., 2006 consolidated operating income from continuing operations was \$103.5 million compared to a 2007 target of \$130 million and the 2006 consolidated working capital turns was 3.7 compared to a 2007 target of 4.7. Although there is no maximum level of financial performance, the annual cash incentive plan is capped with respect to the payment of individual awards at a maximum award of \$5 million per year and the amount payable to all participants in any one-year performance period is capped at three times the total target amounts for all participants.

2007 Financial Factor for Consolidated Results

Criteria	Threshold	Target	Actual
Consolidated net income (80)%	\$ 104,000,000	\$ 130,000,000	\$ 146,228,000
Consolidated working capital turns (20)%	3.7	4.7	5.0
Financial Factor	0.8	1.0	1.28

The table below shows threshold, target and actual levels of the Financial Factors for Mr. Rose and Mr. Sheehan, who headed the Company's Belden Americas Division for seven months during 2007. Similar to the corporate level goals, there is no maximum level to financial performance.

2007 Financial Factor for Division Results

Criteria	Threshold	Target	Actual
Division operating income (70)%	Mr. Rose, \$28,200,000; Mr. Sheehan, \$129,300,000	Mr. Rose, \$35,200,000; Mr. Sheehan, \$161,600,000	Mr. Rose, \$30,725,000; Mr. Sheehan, \$169,625,000
Division working capital turns (30)%	Mr. Rose, 3.4; Mr. Sheehan, 4.4	Mr. Rose, 4.4; Mr. Sheehan, 5.4	Mr. Rose, 3.8; Mr. Sheehan, 6.0
Financial Factor	0.8	1.0	Mr. Rose, 0.99; Mr. Sheehan, 1.25 ⁽¹⁾

⁽¹⁾ Mr. Sheehan's Financial Factor of 1.25 is a weighted average of the Financial Factor for Belden Americas 1.23 X 7/12 for the 7 months he headed that division and the consolidated Financial Factor of 1.28 X 5/12 for the 5 months of 2007 he oversaw the Company's global marketing group.

Consolidated net income, consolidated working capital, division operating income and division working capital were adjusted to reflect certain unusual events during the year. These one-time adjustments primarily concerned restructuring of the Company's operations. The Committee believed it was appropriate to adjust the financial results

for these matters in order to encourage timely restructuring of the Company's operations. These restructurings were necessary for the Company to achieve its operating income and working capital goals, which are key elements in improving operating and financial performance. Had these adjustments not been made, the Financial Factor for Messrs. Stroup, Benoist and Bloomfield would have been 1.14; the Financial Factor for Mr. Rose would have been 1.02; and the Financial Factor for Mr. Sheehan would have been 1.15.

Table of Contents

Personal Performance Factor

Awards based on the Financial Factor are adjusted by each executive officer's Personal Performance Factor, which ranges from 0.5 to 1.5 based on the attainment of 2007 personal performance goals. The personal performance goals reflected in the Personal Performance Factor measure the attainment of short and long-term annual goals, including those set out in the Company's three-year strategic plan. The Company's key strategic initiatives include consolidating its manufacturing to low cost regions, expanding its presence in Asia, expanding beyond its legacy copper cable products into fiber, wireless and connectivity, pursuing global marketing and solutions selling, and improving its product portfolio and brand management. The cornerstone of the Company's strategy is to use its new talent management process to recruit and retain the talent necessary to achieve these strategic goals.

Mr. Stroup annually scores each executive officer on the achievement of their goals and the Board scores Mr. Stroup on the attainment of his goals. The 2007 Personal Performance Factors for the named executive officers used in determining annual cash incentive awards are as follows: Mr. Stroup, 1.5; Messrs. Benoist and Bloomfield, 1.15; and Messrs. Rose and Sheehan, 1.0.

Prior Long-Term Cash Incentive Plan

The Company also has a long-term cash incentive plan that is being phased out. Payments under the last performance cycle under the plan (2004-2007 cycle) will be made later this year. Messrs. Rose and Bloomfield are the only named executive officers who currently participate in this plan. The performance measures under the plan compare the Company's average annual growth rate to a peer group of approximately fifty electrical and electronic equipment companies over the four-year performance cycle. Cash payments made in 2007 for the 2003-2006 cycle to Messrs. Rose and Bloomfield and the estimated amount payable in 2008 for the 2004-2007 cycle to Messrs. Rose and Bloomfield, are noted below in the *Non-Equity Incentive Plan* column of the *Summary Compensation Table*. Once the 2004-2007 cycle payment is made later this year, the plan will terminate.

Long-Term Equity Incentive Plan

The long-term equity incentive plan is designed to ensure that the Company's executive officers have a continuing stake in the long-term success of the Company. In addition, the plan emphasizes pay-for-performance. In general, under the plan the Company's executives receive half of their equity awards in the form of stock appreciation rights (SARs) and the other half in the form of performance share units (PSUs). The SARs are granted at the fair market value of Belden shares on the grant date. As such, they provide a material incentive to executives to obtain a significant stock ownership stake in the Company, but only if the Company's share price increases during their ten-year term.

The PSUs serve several purposes. They have value to the holder only if targeted financial performance goals are achieved during their one-year performance measurement period and they serve as a retention tool because awards made for the attainment of the targeted financial performance goals are in the form of restricted stock units that vest equally over two years.

Each year, the Compensation Committee makes equity awards to executive officers and key managers (other than those to new hires) at its February meeting. Eligibility for equity awards is generally based on a threshold salary level, individual performance and the competitive market. However, the Company will selectively grant awards to certain individuals who do not meet the salary threshold based on their exemplary individual performance.

2007 Awards

Under the plan, the Company may grant various forms of equity awards, including SARs, PSUs and RSUs. At its February 2007 meeting, the Compensation Committee made 454,050 equity awards in the form of 372,800 SARs, 62,900 PSUs and 18,350 RSUs. The total represented approximately 1% of outstanding shares of Belden stock on March 3, 2008.

Messrs. Stroup and Benoist's 2007 equity awards were based on their employment agreements. Mr. Stroup's agreement provides that, for the three-year period of 2006 through 2008, he will receive equity awards having a grant date value of not less than \$2.5 million per year. Mr. Benoist's agreement provides that he will receive equity awards in 2007 valued at 200% of his base salary.

Table of Contents*2007 Equity Awards*

Name	SARs⁽¹⁾	PSUs⁽²⁾	RSUs⁽³⁾
Mr. Stroup	107,400		75,000
Mr. Benoist	15,500	7,500	22,727
Mr. Rose	6,400	3,100	4,200
Mr. Sheehan	8,100	3,900	4,200
Mr. Bloomfield	8,600	4,200	3,600
Mr. Canny	6,400	3,100	3,450

- (1) The Committee granted SARs at the average of the high and low price of Belden stock on February 21, 2007 (\$47.705), the grant date of the award. The SARs will vest in equal amounts over three years and will expire in ten years after the grant date. Upon exercise, the participant will receive in Belden shares the excess of fair market value per share at the time of exercise over the exercise price times the number of shares subject to the SAR. Mr. Stroup's 2007 equity awards were entirely in the form of SARs to permit the Company to take a tax deduction for the awards in accordance with Section 162(m) of the Internal Revenue Code (the "IRC").

The Belden shareholders approved an amendment to its long-term incentive plan at its 2007 annual meeting that was designed to permit the Committee to issue PSUs to Mr. Stroup and other covered executive officers that qualify as performance-based compensation under Section 162(m) of the IRC, and consequently would permit the Company to deduct the income that the recipient of the award recognizes as an ordinary business expense and not be subject to the limit of Section 162(m). Section 162(m) limits to \$1 million annually the Company's deduction for compensation paid to any covered employee (which includes the CEO) unless the compensation is performance-based, the requirements for which include stockholder approval of the material terms of the performance goals used for determining the compensation.

- (2) The Committee granted the PSU awards at its February 21, 2007 meeting. The number of PSUs granted to the named executive officers in 2007 was based on their 2006 Personal Performance Factor. The 2006 Personal Performance Factor for the named executive officers ranged from 1.05 to 1.40. The payout of RSUs based on these PSU awards is a function of the consolidated (corporate) Financial Factor as summarized above for the 2007 annual cash incentive awards under the heading *Financial Factor*.

If the Financial Factor for the performance period were equivalent to 0.7 (Threshold), then the PSU holder would be entitled to one-half (0.5) of an RSU for each PSU. If the Financial Factor were equivalent to 1.2 (Maximum) or greater, then the PSU holder would be entitled to receive one and one-half (1.5) of an RSU for each PSU. The number of RSUs is prorated for performance between the Threshold and Maximum. If the Financial Factor for the performance period were less than 0.7, then the PSU holder would not be entitled to receive any RSUs.

After expiration of the one-year performance period, the Committee determined at its February 2008 meeting the actual performance for the 2007 performance period. The Financial Factor for each named executive officer used in determining the number of awarded RSUs was the 2007 consolidated Financial Factor of 1.28, which results in the maximum award of RSUs (1.5 RSUs for each PSU). (See above under the heading *Financial Factor* for a discussion on this matter.)

RSUs awarded in February 2008 to named executive officers for the attainment of objectives for the 2007 performance period covered by their 2007 PSU awards

Name	Number
Mr. Benoist	11,250
Mr. Rose	4,650
Mr. Sheehan	
Mr. Bloomfield	6,300

Table of Contents

One-half of the awarded RSUs will vest one year after the grant date; the other half will vest two years after the grant date. Upon vesting, the holder will receive one Belden share for each RSU. Mr. Sheehan's RSUs were cancelled in accordance with the terms of the PSU award agreement as a result of his leaving the Company on February 29, 2008. The vesting of Mr. Rose's RSUs was accelerated when he retired from the Company on February 29, 2008 and as a result, he received his entire RSU award in the form of unrestricted Belden shares.

- (3) These RSUs were awarded to the named executive officers in February 2007 for their attainment of the performance objectives covered under the PSUs issued in 2006. Individual performance, the competitive market, executive experience and internal equity were factors used to determine the number of PSUs issued to each named executive officer at the beginning of the performance period in February 2006. The Financial Factor used in determining the number of RSUs for each named executive officer for the 2006 performance period was the 2006 Financial Factor for consolidated results (1.54) capped at 1.5. Because the Financial Factor was over 1.2 (the Maximum), the PSU holder received one and one-half (1.5) of an RSU for each PSU. The 2006 Financial Factor was adjusted to reflect certain unusual or unexpected events that occurred during the year, including excess and obsolete inventory adjustments and restructurings in Europe and North America. Had these financial adjustments not been made, the 2006 Financial Factor used for such calculation would have been 0.78. The RSUs will vest in equal amounts over a two-year period. Upon the first anniversary of the grant of RSUs in February 2008, except for Mr. Canny (who left the Company prior to vesting), each of the named executive officers received one-half of their RSU award in Belden stock. The vesting of Mr. Rose's RSUs was accelerated upon his retirement from the Company at the end of February 2008 and as a result, he received Belden shares for all of his RSUs awarded in 2007. Half of Mr. Sheehan's RSU award (2,100), which were to vest in February 2009, were cancelled when he left the Company this February.

Retirement Benefits

Each named executive officer participates in the following retirement plans:

the Retirement Savings Plan

the Excess Defined Contribution Plan

the Pension Plan

the Excess Defined Benefit Pension Plan.

The Company offers these plans to be competitive so it can attract and retain the talent necessary to achieve its strategic goals. The Company, using outside independent consultants, periodically benchmarks the competitive market and strives to be at the 50th percentile of those companies with which it competes for management talent.

The Retirement Savings Plan is a funded, qualified defined contribution plan under Section 401(k) of the IRC. It is generally available to all active U.S. employees of Belden or its subsidiaries. Participants may contribute from 1% to 50% of their pay on a before-tax basis, subject to limits imposed by the IRC. Belden matches a participant's contributions at 100% for the first 3% of a participant's salary deferral and thereafter at 50% on the next 3% deferral. All contributions (including Company matching contributions) are invested in employee-directed investment funds.

The Excess Defined Contribution Plan is an unfunded, nonqualified defined contribution plan that provides the benefits of the Retirement Savings Plan to certain employees whose participation in the Retirement Savings Plan is capped at certain compensation levels established by the IRC.

The Pension Plan is a funded, qualified defined benefit plan under the IRC. It is generally available to all U.S. active employees of Belden and its subsidiaries. Pursuant to the plan, the Company credits to each participant's account 4% of his or her annual total compensation up to the Social Security wage base for the year, plus 8% of total compensation that exceeds such limit. The Excess Defined Benefit Pension Plan is an unfunded, nonqualified plan that provides the benefits of the pension plan to certain employees whose participation is capped beyond a certain compensation level set by the IRC.

The Company pays account balances under all of these retirement plans upon the employee's retirement, termination of employment, permanent disability or death.

Health Benefits and Perquisites

The Company's healthcare, insurance and other welfare and employee benefit programs are substantially the same for all eligible employees, including executive officers. The Company shares the cost of health and welfare benefits with its associates, a cost that is

Table of Contents

dependent on the level of benefit coverage that each associate elects.

The Company reimburses Messrs. Stroup, Benoist, Sheehan and Bloomfield for dining club memberships and pays the cost of annual physical examinations and tax preparation services for each named executive officer. The total value of these for each named executive officer does not exceed \$10,000 and has not been included in the *Summary Compensation Table*. Dining club memberships provide an efficient means for the executive officer to meet with customers, investors and others to conduct Company business. Each executive officer is solely responsible for any personal use of the club. Providing annual physical examinations benefits both the officer and Company in ensuring the physical health of the individual. The Company provides tax preparation services to ensure that the executive officer timely and accurately files annual tax returns.

Stock Ownership Guidelines

To align their interests with those of the Company's stockholders, Company officers who are required to report their holdings of Belden stock to the Securities and Exchange Commission must hold stock whose value is at least two times their annual base salary (three times in the case of Mr. Stroup). Officers have five years from the May 2005 date the guidelines were implemented (or, if later, five years from becoming an officer) to acquire the appropriate shareholdings. In addition, officers must make interim progress toward the ownership requirement during the five year period 20% after one year, 40% after two years, 60% after three years and 80% after four years. For purposes of determining ownership, unvested RSUs and the value of vested in-the-money options and SARs are included. For calculation purposes, the Company will use the higher of the current trading price or the acquisition price. As of February 29, 2008, each of the named executive officers either met his interim or five-year stock ownership guideline.

Tax Deductibility of Compensation

IRS Section 162(m) imposes a limit of \$1 million on the amount of compensation that Belden may deduct in any one year with respect to certain executive officers, including the CEO. There is an exception to this limitation for performance-based compensation meeting certain requirements. Stock option and SAR awards are performance-based compensation meeting those requirements and, as such, should be fully deductible. The Company anticipates that its 2008 annual cash incentive and performance share awards will be performance-based compensation under IRC 162(m).

To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Compensation Committee has not adopted a policy requiring all compensation to be deductible but considers these tax considerations when reviewing executive compensation.

The Company leases corporate aircraft to provide flexibility to executive officers and other associates for business use and to allow more efficient use of executive time for Company matters. It is Company policy that corporate aircraft shall be used for business purposes only.

Benchmarking

For executive officers, the Company sets midpoint salaries at the 50th percentile and annual cash incentive awards and long-term equity awards at the 75th percentile of peer group and survey data assuming target performance levels. For 2007, survey salary data included *2007 Economic Research Institute Executive Compensation Assessor*; *2007/2008 Watson Wyatt Survey Report on Top Management Compensation*; and the *2007 William Mercer Executive Compensation Survey*. The survey data was adjusted to reflect Belden's revenue size.

Listed below are the companies in Belden's peer group that are also reviewed in determining competitive levels:

Altera Corp.
Amkor Technology, Inc.
Amphenol Corp.
Atmel Corp.
AVX Corp.
CommScope, Inc.
Energizer Holdings, Inc.
Exide Technologies
Fairchild Semiconductor International
Harman International Industries Inc.
Hexcel Corp.
JDS Uniphase Corp.
Juniper Networks, Inc.
Molex, Inc.
ON Semiconductor Corp.
Plexus Corp.
Spectrum Brands, Inc.
Thomas & Betts Corp.

Table of Contents

The peer group was established to include manufacturing companies comparable to Belden based on revenue and market capitalization, and their meeting three requirements – each has annual revenues in excess of \$1 billion, has more than 30% of revenues derived from outside the U.S. and has three or more business segments. With the assistance of its compensation consultant (Deloitte), the Committee reviews the composition of the peer group annually to ensure that peer companies remain relevant, and also reviews the compensation data disclosed in the annual proxy statements.

Because comparative compensation information is one of several tools used in setting executive compensation, the Committee uses its discretion in determining the nature and extent of its use.

Chief Executive Officer Compensation

All elements of Mr. Stroup's compensation are approved by the Board or the Compensation Committee. Upon his appointment in 2005, Mr. Stroup entered into an employment agreement with the Company, having an initial term of three years. Pursuant to his agreement, Mr. Stroup's base salary of \$600,000 per year is subject to annual review and his target annual cash incentive is 100% of his base salary. During 2007, the Committee did not adjust Mr. Stroup's base salary or his annual equity award of \$2.5 million, which have remained the same since the date of his appointment in October 2005. However, the Committee raised Mr. Stroup's target annual incentive in 2007 from 100% of salary to 130% to reflect the competitive market, his 1.4 Personal Performance Factor for 2006 and the Company's 2006 strong performance – the Company's estimated organic growth in 2006 was 7%; its operating margins increased from 5.5% to 7.9%; and its free cash flow exceeded net income by \$54 million, or 81%.

Based on the Board's assessment of Mr. Stroup's 2007 performance, Company performance for the period, and Deloitte's summary of peer data and the competitive market, in 2008, the Board extended Mr. Stroup's employment agreement to October 2011; increased his annual base salary to \$700,000; and granted him a stock option award having a grant date value of approximately \$3 million. The options vest on February 21, 2013 (subject to acceleration on certain events) and were granted at the closing price of Belden shares on the grant date. Mr. Stroup's new base salary approximates the median of peer data and is between the 25th and 50th percentile of survey data. His total cash compensation (base salary and target annual cash incentive) is slightly above the median of peer and survey data. His target total direct compensation (base salary, annual cash incentive and long-term equity awards) approximates the median target proxy data and is slightly above the 75th percentile of survey data.

The Company had strong performance in 2007. Earnings from continuing operations rose from \$1.48 per share in 2006 to \$2.73 in 2007. Revenues increased from \$1.5 billion to a record \$2.0 billion. In 2006, the Company created and began deploying a three-year strategic plan that defined management's priorities to improve performance.

In 2007, the first full year under the strategy, the Company made significant progress in achieving its priorities under the three-year plan. First, Belden strengthened its leading brand portfolio by completing three acquisitions, each involving a strong brand: Hirschmann Automation and Control GmbH (a supplier of industrial Ethernet solutions and industrial connectivity); LTK Wiring Limited (one of the largest manufacturers of electronic cable for the China market); and Lumberg Automation Components (a leading supplier of industrial connectivity products).

Second, through product portfolio management, the Company improved its (proforma/adjusted) operating margins. Third, the Company began recruiting (outside and within the Company) the talent necessary to carry out its strategic plan. It also developed a performance review process to reward and promote strong performance and to deal with performance that does not meet Company expectations. Fourth, the Company launched initiatives designed to eliminate waste and continuously improve processes throughout the Company through Lean Enterprise techniques.

Fifth, the Company improved manufacturing: it reduced lead-times and total landed cost; consolidated several North American facilities; transferred manufacturing to a new facility in Mexico; downsized its operations in Western Europe; began manufacturing in China as a result of its acquisition of LTK; and started constructing a new manufacturing facility in China that will begin making products later this year. Finally, in 2007, to foster growth, the Company implemented initiatives to pursue sales in the fast growing emerging markets of India and China. To recognize these achievements, the Board gave Mr. Stroup a 2007 Personal Performance Factor of 1.5.

Separation and Change in Control Arrangements

The Company has entered into an employment agreement with each of the named executive officers. These agreements address key provisions of the employment relationship, including payment of severance benefits upon a termination of employment before and after a change of control of the Company. Information regarding benefits under these agreements is provided following this Compensation Discussion and Analysis under the heading *Payment upon Termination or Change of Control*.

For each executive officer, the Committee (with the assistance of Deloitte and management) reviewed the key provisions of the executive employment agreements to ensure they were competitive based on peer group and survey data. The termination of employment provisions of these agreements were provided to address the competitive market for the positions filled by executive officers. In consultation with Deloitte, the Committee determined that it was necessary to provide executive officers with a fixed amount of compensation in the event they were to leave the Company under certain circumstances, including a termination of the executive officer's employment without cause before or after a change in control of the Company.

Departures of Former Executive Officers

In September 2007, Mr. Canny, President of Specialty Products, left the Company. In connection with his departure, Mr. Canny entered into a separation agreement with the Company. Pursuant to the agreement, Mr. Canny received, among other things, severance of \$486,200 (an amount equal to the sum of his annual salary and 2007 target annual cash incentive award), a prorata annual incentive award for 2007 of \$187,535, and additional consideration for a six-month extension of his twelve-month non-compete covenant (as set out in his employment agreement) of \$275,000.

At the end of February 2008, Mr. Sheehan, Global Vice President of Sales and Marketing, left the Company. In connection with his departure, Mr. Sheehan entered into a separation agreement with the Company. Pursuant to his agreement, Mr. Sheehan received, among other things, severance of \$637,500 (an amount equal to the sum of his annual salary and 2007 target annual cash incentive award), his actual annual incentive award for 2007 of \$330,500, and additional consideration for a six-month extension of his twelve-month non-compete covenant (as set out in his employment agreement) of \$187,500.

On February 29, 2008, Mr. Rose retired from the Company as President of Belden Europe. In connection with his retirement, Mr. Rose entered into a separation agreement-retirement with the Company. Pursuant to the terms of his equity award agreements, the vesting of his issued and outstanding RSUs, SARs, and stock options was accelerated and he is entitled to exercise his SARs and stock options for the earlier of the expiration of the applicable award period or three years. Mr. Rose also will receive his award under the Company's phased-out long-term cash performance plan for the 2004-2007 cycle once it is determined by the Compensation Committee.

The Compensation Committee reviewed in advance the key terms of each separation arrangement.

- (1) The amounts in column (c) represent the cash payment under the Company's annual cash incentive plan (Plan) that would have been made if the threshold performance for 2007 was met and the amounts in column (d) represent the cash payment under the plan that would have been made if the target performance for 2007 was met. Although there is no maximum level of financial performance, the Plan is capped with respect to payment of individual awards at a maximum award of \$5 million per year and the amount payable to all participants in any one-year performance period is capped at three times the total target amounts for all participants. See column (g) and footnote (4) of the Summary Compensation Table for the amounts earned for each of the named executive officers.
- (2) The Compensation Committee granted the performance shares unit awards (PSUs) at its February 21, 2007 meeting. The number of PSUs granted to the named executive officers in 2007 was based on their 2006 Personal Performance Factor. (See above under the heading *Compensation Discussion and Analysis* for a discussion of Personal Performance Factors.) The award period during which performance is measured is calendar year 2007. Any payout is made in restricted stock units (RSUs). The payout of RSUs based on the PSU awards is a function of the consolidated (corporate) Financial Factor for the 2007 annual cash incentive awards as summarized above in the *Compensation Discussion and Analysis* under the heading *Financial Factor*. If the Financial Factor for the performance period were equivalent to 0.7 (Threshold), then the PSU holder would be entitled to one-half (0.5) of an RSU for each PSU. If the Financial Factor were equivalent to 1.2 (Maximum) or greater, then the PSU holder would be entitled to receive one and one-half (1.5) of an RSU for each PSU. The number of RSUs is prorated for performance between the Threshold and Maximum. If the Financial Factor for the performance period were less than 0.7, then the PSU holder would not be entitled to receive any RSUs. After expiration of the one-year performance period, the Committee determined at its February 2008 meeting the actual performance for the 2007 performance period. The Financial Factor for each named executive officer used in determining the number of awarded RSUs was the 2007 consolidated Financial Factor of 1.28, which resulted in the maximum award of RSUs (1.5 RSUs for each PSU). Column (h) of this *Grants of Plan-Awards* Table shows the RSU awards made to the named executive officers for the attainment of the 2007 performance period—those being, Mr. Benoist, 11,250 RSUs; Mr. Rose, 4,650 RSUs; Mr. Sheehan, 5,850 RSUs (which were cancelled upon his departure from the Company on February 29, 2008); and Mr. Bloomfield, 6,300 RSUs. Mr. Stroup did not receive any PSUs in 2007, and Mr. Canny's PSU awards were cancelled upon his departure from the Company in September 2007;
- (3) The amounts in column (i) are the number of time-vested RSUs granted to the named executive officers in 2007 for the attainment of performance goals under the 2006 PSUs. One-half of the awarded RSUs shall vest on the first anniversary of the date of grant and the remaining one-half shall vest on the second anniversary of the grant date. Half of Mr. Sheehan's award was cancelled when he left the Company in February 2008 and Mr. Canny's award was cancelled when he left the Company in September 2007.
- (4) The amounts in column (j) are the number of SARs granted to each of the named executive officers in 2007. These awards vest in equal amounts over three years on the first, second and third anniversaries of the grant date. Mr. Canny's award was cancelled when he left the Company and two-thirds of Mr. Sheehan's award was cancelled when he left the Company.
- (5) The exercise price for awarded SARs equaled the average of the high and low of Belden shares on the grant date.

(1) Each of the named executive officers participates in the Belden Wire & Cable Company Pension Plan (Pension Plan) and the Belden Wire & Cable Company Supplemental Excess Defined Benefit Plan (Excess Plan). The Pension Plan is a cash balance plan. The account of each participant increases on an annual basis by 4% of the participant's eligible compensation up to the Social Security wage limit (\$102,000 for 2007) and by 8% of the participant's eligible compensation in excess of the Social Security wage limit up to the limit on compensation that may be taken into account by a plan qualified under the Internal Revenue Code (\$225,000 for 2007). The Excess Plan provides the benefit to the participant that would have been available under the Pension Plan if there were not a limit on compensation that may be taken into account by a plan qualified under the Internal Revenue Code. In general, eligible compensation for a participant includes base salary plus any amount earned under the annual cash incentive plan. Upon retirement, participants in the Pension Plan may elect a lump sum distribution or a variety of annuity options. Upon retirement, participants in the Excess Plan may elect a lump sum distribution or a series of payments over a two, five, or ten year period.

(2) The computation of the value of accumulated benefit for each individual incorporates a 6.25% discount rate, an interest credit rate of 4.5%, and an expected retirement age of 65.

- (1) Amounts reflect (i) the estimated lump-sum present value under qualified and non-qualified savings plans to which the named executive officer would be entitled; (ii) the amount in the Company's pension plans to which the named executive officer would be entitled; and (iii) the value of stock options and SARs that would be subject to accelerated vesting if Mr. Bloomfield were to retire from the Company.
- (2) Amounts include the amounts in the Resignation column and those amounts due the named executive officer pursuant to the terms of his employment agreement, which include (i) cash severance of the sum of the executive officer's annual base salary plus his target annual cash incentive award (in the case of Mr. Stroup times 1.5); (ii) the executive's pro-rated annual cash incentive payment for the current year (which, for purposes of these computations, is assumed to be at target for the entire year); and (iii) for Mr. Stroup and Mr. Benoist, accelerated vesting of any unvested equity awards they received upon their appointments to the Company (October 2005 in the case of Mr. Stroup and August 2006 in the case of Mr. Benoist).
