During 2005, the Board met four times. Each director attended at least 75% of the meetings of the Board. The Audit Committee met four times during 2005 with all members in attendance. The Compensation Committee met two times during 2005 with all members in attendance

It is the Corporation's policy that directors are invited and encouraged to attend the Annual Meeting of Stockholders. At the time of the 2005 Annual Meeting of Stockholders, the Corporation had seven directors, of which six directors attended the meeting.

Committees

The Board currently maintains an Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act and a Compensation Committee. The Corporation does not have a Nominating Committee.

Nominating Process

The Board does not consider it necessary to have a Nominating Committee or written charter since the size of the Board enables all directors to participate in the nominating process and to address the need to attract and retain qualified directors and to fill any vacancies in the Board. Qualifications for consideration as a board nominee may vary according to the particular areas of expertise being sought as a complement to the existing board composition. However, in making its nominations, the Board considers, among other things, an individual's business experience, industry experience, breadth of knowledge about issues affecting the Corporation, time available for meetings and consultation regarding company matters and other particular skills and experience possessed by the individual. The Board recommended each of the current nominees for Class III directors.

Table of Contents

The Board consists of eight directors. The Board has determined that Austin M. Long, III, Craig J. Nickels, Jeffrey B. Reich, M.D., Elliott Singer and John E. Mordock are independent directors. Although the Corporation is not listed on any exchange or automated quotation system, in making this independence determination, the Board considered the independence standards for directors set forth in the American Stock Exchange Corporation Guide for its listed companies (the AMEX Rules).

The Board does not have a formal policy that requires it to consider any director candidates that might be recommended by stockholders.

Compensation Committee

The Compensation Committee consists of Messrs. Long, Nickels and Singer (Chair). Messrs. Long, Nickels and Singer were determined by the Board to be independent directors. The principal responsibilities of the Compensation Committee are to evaluate the performance of executive officers, establish policies and determine matters involving executive compensation, recommend changes in employee benefit programs, approve the grant of stock options and stock awards under the Corporation's stock plans and provide assistance to management regarding key personnel selection.

Audit Committee

The members of the Audit Committee in 2005 were Messrs. Long (Chair), Nickels and Reich. Mr. Mordock has been nominated to replace Dr. Reich on the committee upon Mr. Mordock's re-election to the Board at the Annual Meeting. Each of Messrs. Long, Nickels, Mordock and Reich have been determined by the Board to be independent. In making this decision, the Board considered Rule 10A-3 of the Securities and Exchange Act, as amended (the Exchange Act), and the AMEX Rules. The Board has determined that Mr. Long is a financial expert, as that term is defined under Item 401(e) of Regulation S-B under the Exchange Act. The Board adopted a written charter of the Audit Committee on March 23, 2004 which is reviewed annually and pursuant thereto was amended and restated on March 25, 2005.

The Audit Committee is responsible for the appointment, compensation and oversight of the work of the Corporation's independent registered public accounting firm and, in this regard, it meets periodically with the independent registered public accounting firm to review plans for the audit and the audit results, reviews financial statements, accounting policies, tax and other matters for compliance with the requirements of the Financial Accounting Standards Board and government regulatory agencies.

Directors Compensation

The Board has a policy of paying quarterly fixed retainers of \$1,500, to each director who is not also an employee of the Corporation plus an additional quarterly retainer of \$1,000 for directors who serve on the Audit Committee. During 2005, Messrs. Long and Nickels each received \$10,000, Mr. Johnson received \$6,000 and Dr. Reich received \$4,500. As stated above, Messrs. Mordock and Singer were appointed to the Board in November 2005, and each is entitled to receive a retainer of \$1,500 for his service on the Board during the fourth quarter of 2005.

The Board's director compensation policy also provides for annual stock option grants of 30,000 shares with an additional 20,000 shares to directors who serve on the Audit Committee. Pursuant to this policy, the Corporation, on May 18, 2005, granted to each of Messrs. Long, Nickels, Reich and Johnson options to purchase 50,000, 50,000, 50,000 and 30,000 shares of Common Stock, respectively, at an exercise price of \$1.94 per share. One-third of such options vested immediately on the date of grant,

Table of Contents

one-third will vest on May 18, 2006, and the remaining one-third will vest on May 18, 2007. Annual stock option grants for 2006 will be made to directors immediately following the Annual Meeting.

Other than as stated above, no other compensation was paid to the members of the Board in 2005.

**PROPOSAL NUMBER 2: APPROVAL OF AMENDMENT TO THE
2000 STOCK OPTION PLAN OF THE CORPORATION**

The 2000 Stock Option Plan (the Plan), was approved by the stockholders on September 12, 2000 and provides for the granting of stock options to purchase up to a maximum of 1,300,000 shares of Common Stock (subject to adjustment in the event of certain capital changes) during the period ending March 14, 2010. A copy of the Plan as proposed to be amended is attached hereto as Annex A.

The Board has approved an amendment to the Plan, subject to the stockholders' approval, to increase the number of shares covered by, and reserved for issuance under, the Plan from 1,300,000 shares to 3,800,000 shares. The Board decided to amend the Plan and increase the number of shares available thereunder (i) to exchange options not granted under the Plan for the Plan's options and (ii) to enable the Corporation to make grants under the Plan to new members of the Corporation's management.

Stockholders are being asked to approve such amendment at this meeting. If the stockholders approve such amendment, there will be a balance of 2,542,108 shares available under the Plan. Of those, 240,000 shares will be used for the 2006 annual grant to directors and 853,923 shares previously granted outside the Plan to certain officers and consultants of the Corporation between September 2004 and January 2006 will be assumed under the Plan following approval of the amendment. The options covering the 853,923 shares will continue to be governed by the terms set forth in the applicable award agreements.

The following is a summary of the terms of the 2000 Stock Option Plan as currently in effect.

Purpose. The purpose of the Plan is to provide a means through which the Corporation and its affiliates may attract able persons to enter and remain in the employ of the Corporation and affiliates and to provide a means whereby employees, directors and consultants of the Corporation and its affiliates can acquire and maintain the Corporation's common stock, thereby strengthening their commitment to the welfare of the Corporation and its affiliates and promoting an identity of interest between shareholders and these directors, employees and consultants.

Administration. The Plan is administered by the Corporation's compensation committee.

Eligible Participants. Any employee, director or consultant of the Corporation or an affiliate of the Corporation is eligible to participate in the Plan. However, the Corporation does not presently allow holders of warrants of the Corporation to participate in the Plan. The compensation committee has the sole and complete authority to determine the participants in the Plan (a Participant or the Participants). The Plan currently has approximately 21 participants, of which 6 are employees, 6 are directors and 8 are consultants.

Shares of the Corporation's Common Stock Authorized under the Plan. The Plan authorizes the grant of stock options to Participants with respect to a maximum of 1,300,000 shares of Common Stock, which awards may be made in the form of (a) non-qualified stock options and (b) stock options intended to qualify as incentive stock options (ISOs) under Section 422 of the Code. In any calendar year, a Participant may not receive stock options in a manner that will cause the stock options granted under the Plan to fail to qualify as performance-based compensation for purposes of Section 162(m) of the Code.

Table of Contents

To the extent the aggregate fair market value (determined as of the date of grant) of stock for which incentive stock options are exercisable for the first time by any Participant during any calendar year (under all plans of the Corporation) exceeds \$100,000, such excess incentive stock options shall be treated as non-qualified stock options. If any award granted under the Plan is forfeited, or if an award has expired, terminated or been canceled for any reason whatsoever (other than by reason of exercise or vesting), then the shares of Common Stock covered by such award may be granted to another Participant pursuant to the terms of the Plan, to the maximum extent permitted under Section 162(m) of the Code.

Effective Date and Duration of the Plan. The Plan was approved by the Board on March 28, 2000 and became effective on September 12, 2000. The Plan was amended on May 9, 2005 to increase the available shares from 800,000 to 1,300,000. The Board of Directors further amended the Plan, subject to approval of stockholders at this meeting, to increase the number of shares covered by, and reserved for issuance under, the Plan from 1,300,000 shares to 3,800,000 shares. The term during which awards may be granted under the Plan expires on March 28, 2010.

Exercise Price. The exercise price per share of Common Stock for each stock option is set by the Corporation's compensation committee at the time of grant, but in no case shall be less than 100% of the fair market value per share of Common Stock on the date of the grant. The fair market value per share of Common Stock as of the Record Date was \$1.84.

Manner of Exercise and Form of Payment. No shares of Common Stock may be delivered pursuant to any exercise of an option until payment in full of the aggregate exercise price therefor is received by the Corporation. Stock options which have become exercisable may be exercised by delivery of written notice of exercise to the compensation committee accompanied by payment of the stock option price. The stock option price shall be payable in cash and if the compensation committee so permits, partially or completely in shares of Common Stock valued at the fair market value at the time of exercise; provided that such shares are not subject to any pledge or other security interest and have either been held by the Participant for six months, previously acquired by the Participant on the open market or meet such other requirements as the compensation committee may determine necessary in order to avoid an accounting earnings charge in respect of the stock option or, in the discretion of the compensation committee, either (i) in other property having a fair market value on the date of exercise equal to the stock option price, or (ii) by such other method as may be permitted by the compensation committee.

Vesting, Stock Option Period and Expiration. Stock options vest and become exercisable in such manner and on such date or dates determined by the compensation committee and expire after such period, not to exceed ten years, as may be determined by the compensation committee all as set forth in an applicable stock option agreement; provided, that the compensation committee has the authority to accelerate the exercisability of any outstanding option at such time and under such circumstances as it, in its sole discretion, deems appropriate. If a stock option is exercisable in installments, such installments or portions thereof which become exercisable shall remain exercisable until expiration of the stock option. If an incentive stock option is granted to a Participant who owns stock representing more than ten percent of the voting power of all classes of stock of the Corporation, the stock option period may not exceed five years from the date of grant of such option and the stock option price shall be at least 110 percent of the fair market value (on the date of grant) of the stock subject to the stock option.

Change of Control or Reorganization. Except to the extent reflected in a particular stock option agreement:

(a) In the event of a Change in Control (as defined in the Plan), all stock options, notwithstanding any vesting schedule, shall become immediately exercisable with respect to all shares subject to such stock option.

(b) The obligations of the Corporation under the Plan are binding upon any successor corporation or organization resulting from a merger, consolidation or other reorganization of the Corporation, or upon any successor corporation or organization succeeding to substantially all of the assets and business of the Corporation.

Transferability. Each award, and each right under any award, is exercisable only by the Participant during the Participant's lifetime or if permissible under applicable law, by the Participant's guardian or legal representative. No award may be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by a Participant other than by will or by the laws of descent and distribution and any such purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance shall be void and unenforceable against the Corporation or any of its affiliates; provided, that the designation of a beneficiary will not constitute an assignment, alienation, pledge, attachment, sale, transfer or encumbrance. The Plan provides for limited exceptions to the non-transferability of awards (and the rights attached thereto) received under the Plan.

Amendment. The Board may amend, alter, suspend, discontinue, or terminate the Plan or any portion thereof at any time; provided, that no such amendment, alteration, suspension, discontinuation or termination shall be made without approval of the stockholders if such approval is necessary to comply with any tax or regulatory requirement applicable to the Plan (including as necessary to prevent the stock options granted under the Plan from failing to qualify as performance-based compensation for purposes of Section 162(m) of the Code); and provided, further that any such amendment, alteration, suspension, discontinuance or termination that would impair the rights of any Participant or any holder or beneficiary of any stock option theretofore granted shall not to that extent be effective without the consent of the affected Participant, holder or beneficiary.

Federal Income Tax Consequences Relating to the Plan. The following summary of the federal income tax consequences of the grant and exercise of stock options, both ISOs and non qualified stock options, awarded under the Plan, and the disposition of Common Stock purchased pursuant to the exercise of such stock options, is intended to reflect the current provisions of the Code and the regulations thereunder. The summary is not intended to be a complete statement of applicable laws, it does not address state and local tax considerations nor does it address the tax consequences of options granted to individual tax payers located outside the U.S. and is not intended as tax advice to any person. Moreover the U.S. Federal income tax consequences to any particular individual may differ from those described herein by reason of the particular circumstances of such individual.

No income is realized by an optionee upon grant of a non-qualified stock option. Upon exercise of a non-qualified stock option, the optionee recognizes ordinary compensation income in an amount equal to the excess, if any, of the fair market value of the underlying stock over the option exercise price (the Spread) at the time of exercise. The Spread is deductible by the Corporation for federal income tax purposes subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code of compensation paid to executives designated in those sections. The optionee's tax basis in the underlying shares acquired by exercise of a non-qualified stock option equals the exercise price plus the amount taxable as compensation to the optionee. Upon sale of the shares received by the optionee upon exercise of the non-qualified stock option, any gain or loss is generally long-term or short-term capital gain or loss, depending on the holding period. The optionee's holding period for shares acquired pursuant to the exercise of a non-qualified stock option will begin on the date of exercise of such option.

Pursuant to currently applicable rules under Section 16(b) of the Exchange Act, the grant of an option (and not its exercise) to a person who is subject to the reporting and short-swing profit provisions under Section 16 of the Exchange Act (a Section 16 Person) begins the six-month period of potential short-swing liability. The taxable event for the exercise of an option that has been outstanding at least six

Table of Contents

months ordinarily will be the date of exercise. Under current rules promulgated under Section 16(b), the six month period of potential short-swing liability may be eliminated if the option grant (i) is approved in advance by the Board (or a committee composed solely of two or more non-employee directors) or (ii) approved in advance, or subsequently ratified, by the Corporation's shareholders no later than the next annual meeting of shareholders. If the grant satisfies either of the conditions described in clause (i) or (ii) above, the taxable event will ordinarily be the date of exercise. However, if an option is exercised by a Section 16 Person within six months after the date of grant and neither of the conditions described in clause (i) or (ii) above are satisfied, taxation will be deferred until the date which is six months after the date of grant, unless the person has filed a timely election pursuant to section 83(b) of the Code to be taxed on the date of exercise.

The Code requires that, for ISO treatment, shares acquired through exercise of an ISO cannot be disposed of before two years from the date of grant of the option and one year from the date of exercise. ISO holders generally incur no federal income tax liability at the time of grant or upon exercise of such options. However, the Spread at exercise will be an item of tax preference which may give rise to alternative minimum tax liability for the taxable year in which the exercise occurs at the time of exercise. If the optionee does not dispose of the shares before two years following the date of grant and one year following the date of exercise, the difference between the exercise price and the amount realized upon disposition of the shares will constitute long-term capital gain or loss, as the case may be. Assuming both holding periods are satisfied, no deduction is permitted to be taken by the Corporation for federal income tax purposes in connection with the grant or exercise of the option. If, within two years following the date of grant or within one year following the date of exercise, the holder of shares acquired through the exercise of an ISO disposes of such shares, the optionee will generally realize ordinary taxable compensation at the time of such disposition equal to the difference between the exercise price and the lesser of the fair market value of the stock on the date of initial exercise or the amount realized on the subsequent disposition, and such amount is generally deductible by the Corporation for federal income tax purposes, subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code for compensation paid to executives designated in those sections.

The payment of an optionee of the exercise price, in full or in part, with previously acquired shares will not affect the tax treatment of the exercise described above. No gain or loss generally will be recognized by the optionee upon the surrender of the previously acquired shares of the Corporation, and shares received by the optionee, equal in number to the previously surrendered shares, have the same tax basis as the shares surrendered to the Corporation and have a holding period that includes the holding period of the shares surrendered. The value of shares received by the optionee in excess of the number of shares surrendered to the Corporation is taxable to the optionee. Such additional shares have a tax basis equal to the fair market value of such additional shares as of the date ordinary income is recognized and have a holding period that begins on the date ordinary income is recognized.

In general, Section 162(m) of the Code denies a publicly held corporation a deduction for federal income tax purposes for compensation in excess of \$1,000,000 per year per person to its chief executive officer and the four other officers whose compensation is disclosed in its proxy statement, subject to certain exceptions. Options will generally qualify under one of these exceptions if they are granted under a plan that states the maximum number of shares with respect to which options may be granted to any employee during a specified period, the exercise price is not less than the fair market value of the Common Stock at the time of grant and the plan under which the options are granted is approved by stockholders and is administered by a compensation committee comprised of outside directors. The Plan is intended to satisfy these requirements with respect to grants of options to covered employees.

Table of Contents

Approval of an amendment to the Plan will require the affirmative vote of a majority of the stockholders present in person or represented by proxy at the meeting and entitled to vote thereon.

THE BOARD RECOMMENDS THAT YOU VOTE FOR APPROVAL OF THE AMENDMENT TO THE PLAN.

CODES OF ETHICS

The Board has adopted an Amended and Restated Code of Ethics for its Chief Executive and Senior Financial Officers (the Financial Code of Ethics). The Corporation's Chief Executive Officer and Chief Financial Officer have signed the Financial Code of Ethics and will be held to the standards outlined therein. The Board has also adopted an Amended and Restated Code of Ethics and Conduct applicable to all employees, officers, scientific advisors and directors of the Corporation (together with the Financial Code of Ethics, the Codes). Copies of each of these Codes are available at the Corporation's website at <http://www.neurologix.net> under the heading Investors Corporate Governance .

Employment Agreements**Michael Sorell, M.D.**

Base Salary On September 21, 2004, the Board hired Michael Sorell, M.D. as the Chief Executive Officer of the Corporation for an initial term of employment of 18 months, which will automatically be extended for an additional 18 months absent notice to the contrary from either party. Dr. Sorell received an annual base salary of \$150,000, which was increased to \$181,660 effective March 15, 2005, and to \$200,000 effective April 27, 2005, as a result of achieving specified performance objectives of the Corporation. The amount paid to Dr. Sorell in 2005 did not reflect the April 27, 2005 increase in base salary. The \$12,227 difference in base salary owed to Dr. Sorell for the period between April 27, 2005 and December 31, 2005 was paid during the first quarter of 2006. Dr. Sorell's annual bonus, if any, will be at the discretion of the Board and will depend upon the achievement of goals to be specified by the Board. He also serves as a member of the Board.

Base Stock Option Grant In connection with Dr. Sorell's employment, the Corporation entered into a Stock Option Agreement with him pursuant to which it granted Dr. Sorell options to purchase up to 1,150,000 shares of Common Stock at an exercise price of \$0.75 per share. These options include a base grant and an incentive grant. The base grant consists of an option to purchase 250,000 shares of Common Stock vesting as follows - 125,000 immediately upon issuance, 100,000 shares on December 31, 2005 and 25,000 shares on March 31, 2006.

Performance Incentive Stock Option Grant The incentive grant originally consisted of options to purchase up to 900,000 shares of Common Stock at an exercise price of \$0.75 per share (the Incentive Grant). The ultimate number of shares issued under the Incentive Grant was 537,815 and was determined by reference to the amount of gross proceeds raised in equity financings by the Corporation on or before December 31, 2005, taking into account the price per share paid for Common Stock issued in such financings.

One-third ($\frac{1}{3}$) of the Incentive Grant vested on April 27, 2005 and the balance vest ratably over the subsequent twenty-four (24) month period. In the event that Dr. Sorell ceases to be an officer and director of the Corporation, then the option shall immediately terminate as to any shares that have not previously become exercisable as of the date of such termination.

Table of Contents

The options have a maximum 10 year term and are subject to accelerated vesting in the event that Dr. Sorell's employment is terminated by the Corporation without cause, due to his death or disability or upon a change in control of the Corporation.

Of the total options granted to Dr. Sorell, 273,892 were granted pursuant to the Plan in order to qualify as incentive stock options and the remaining 513,923 options were not granted under a shareholder-approved plan but are governed by terms identical to the provisions of the Plan.

Marc L. Panoff

On January 23, 2006, the Corporation hired Marc L. Panoff as its Chief Financial Officer and Treasurer. Mr. Panoff receives an annual base salary of \$165,000. Mr. Panoff's annual bonus, if any, will be at the discretion of the Board and will depend upon the achievement of goals to be specified by the Board. In connection with Mr. Panoff's employment, the Corporation, on January 23, 2006, granted Mr. Panoff an option to purchase up to 180,000 shares of Common Stock at an exercise price of \$1.70 per share. The 180,000 shares vest as follows: 25,000 shares on January 23, 2006, 35,000 shares on January 23, 2007, and 60,000 shares on each of January 23, 2008 and 2009.

Deductibility of Compensation

Section 162(m) of the Code generally limits to \$1,000,000 the Corporation's federal income tax deduction for compensation paid in any year to each of its chief executive officer and the four other highest paid executive officers, to the extent such compensation is not performance-based within the meaning of Section 162(m). The Committee will, in general, seek to qualify compensation paid to its executive officers for deductibility under Section 162(m), although the Committee believes it is appropriate to retain the flexibility to authorize payments of compensation that may not qualify for deductibility if, in the Committee's judgment, it is in the Corporation's best interest to do so.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Since the February 2004 merger whereby the Corporation (then known as Change Technology Partners, Inc.) acquired Neurologix, Inc., Refac, which is 90% owned by PCM, provided consulting services to the Corporation at a basic monthly retainer of \$5,000 subject to a quarterly adjustment to reflect the services rendered during such quarter. The agreement was terminated effective August 1, 2005. Under this arrangement, the Corporation paid \$42,500 with respect to services rendered during 2005.

On April 25, 2005 the Corporation entered into an Amended and Restated Consulting Agreement (the Kaplitt Agreement) with Dr. Michael G. Kaplitt, one of Neurologix's scientific co-founders. The Corporation and Dr. Kaplitt had been parties to a Consulting Agreement, dated October 1, 1999, as amended on October 8, 2003. Pursuant to the terms of the Kaplitt Agreement, Dr. Kaplitt will continue to provide advice and consulting services on an exclusive basis in scientific research on human gene therapy in the nervous system. Dr. Kaplitt will also continue to serve as a member of the Corporation's Scientific Advisory Board. Dr. Kaplitt is being paid an annual retainer of \$100,000 in equal monthly installment payments, which installment payments commenced in October 2005. The Corporation paid Dr. Kaplitt approximately \$25,000 in retainer fees in 2005 thereunder. Under the Kaplitt Agreement, the Corporation granted Dr. Kaplitt non-qualified stock options to purchase 160,000 shares of Common Stock at an exercise price of \$2.05 per share. Dr. Kaplitt is also the neurosurgeon who performed the surgical procedures on the twelve patients required by the protocol for the Corporation's sponsored Phase I clinical trial for the treatment of Parkinson's disease.

Table of Contents

From May 2005 to November 2005, the Corporation had an administrative services agreement with PCM pursuant to which PCM performed certain administrative services for the Corporation in consideration of a monthly fee of \$3,000. The administrative services agreement was terminated by the Corporation in November 2005.

From June 2000 through June 2004, the Corporation had a research agreement with Rockefeller University (Rockefeller) pursuant to which the Corporation funded certain research conducted by Dr. Kaplitt and others. As a result of this research, Rockefeller obtained three U.S. patents in which Dr. Kaplitt is named as a co-inventor and one on which he is named as the sole inventor. Rockefeller has exclusively licensed these patents to the Corporation. Dr. Kaplitt is also named as a co-inventor on a patent that Rockefeller has non-exclusively licensed to the Corporation.

In accordance with Rockefeller's Intellectual Property Policy, an aggregate of one-third of all income it receives from licensing transactions is paid to the inventors. Dr. Kaplitt has advised the Corporation that he received cash payments from Rockefeller in each of 2005 and 2004 of less than \$2,000 under this policy. In December 2002, the Corporation issued to Rockefeller 368,761 shares of its common stock in exchange for the cancellation of certain fees under its exclusive patent license agreement with the Corporation. If Rockefeller sells these shares, Dr. Kaplitt estimates that he will be entitled to approximately 25% of the proceeds. In addition, he estimates that he will have a similar interest in future royalties that may become payable under this exclusive patent license agreement.

Dr. Matthew During, a founder of the Corporation and a member of its Scientific Advisory Board, has advised the Corporation that in each of 2005 and 2004 he received approximately \$17,000 from Thomas Jefferson University (TJU) as a result of payments made by the Corporation to TJU under two exclusive license agreements. The amounts received by Dr. During represent approximately 18% of the total payments made by the Corporation to TJU in each of 2005 and 2004. Dr. During will also have a similar interest in future royalties that may become payable under the agreement with TJU. Dr. During and the Corporation entered into a consulting agreement in October 1999 which was subsequently amended. The consulting agreement provides for payments to Dr. During of \$175,000 per year through 2007.

On August 10, 2004, the Corporation entered into a sublease with PCS that provides for the lease of approximately 1,185 gross rentable square feet of space at One Bridge Plaza, Fort Lee, New Jersey 07024 through January 31, 2008 at a base annual rent of approximately \$35,000. The rent that the Corporation pays to PCS is the same rent that PCS pays under its master lease for this space.

Additionally, the Corporation maintains brokerage accounts with PCS for the Corporation's marketable securities for which it pays customary brokerage fees.

AUDIT COMMITTEE REPORT

The Board has an Audit Committee comprised of three directors, each of whom meets the independence and qualification standards for audit committee membership as set forth in the listing standards set forth in the AMEX Rules.

The Audit Committee oversees the Corporation's financial and accounting processes on behalf of the Board. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements in the 2005 Annual Report on Form 10-KSB with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. The

Table of Contents

Corporation's management is responsible for the preparation, presentation and integrity of the Corporation's financial statements, accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent registered public accounting firm, J.H. Cohn LLP, is responsible for performing an independent audit of the consolidated financial statements prepared in accordance with generally accepted accounting principles.

In performing its oversight function, the Audit Committee reviewed with the Corporation's independent registered public accounting firm such firm's judgments as to the quality, not just the acceptability, of the Corporation's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards, including Statement on Auditing Standards Nos. 61 and 90. In addition, the Committee has discussed with the independent registered public accounting firm such firm's independence from management and the Corporation and received the written disclosures and the letter from the independent registered public accounting firm required by the Independence Standards Board, Standard No. 1.

The Committee discussed with the Corporation's independent registered public accounting firm the overall scope and plans for their audit. The Committee met with the independent registered public accounting firm, with and without management present, to discuss the results of their examination, their evaluation of the Corporation's internal controls, and the overall quality of the Corporation's financial reporting.

During the preparation of the Company's 2005 Annual Report on Form 10-KSB, the Company, together with its independent registered public accounting firm, identified a material weakness that pertains to the accounting associated with the development and manufacturing agreement entered into with Medtronic, Inc. on April 27, 2005 and the related stock purchase agreement entered into on the same date with Medtronic International, Ltd., the parent company of Medtronic, Inc.

During the preparation of the Corporation's Quarterly Report on Form 10-QSB for the period ended June 30, 2005, the Corporation, together with its independent registered public accounting firm, identified a material weakness with respect to recording stock based compensation. This weakness pertained to the recording and accounting for stock options granted to non-employee consultants in accordance with Emerging Issues Task Force 96-18 and to stock options granted to the President and Chief Executive Officer of the Corporation under APB 25.

Under the Committee's direction, the Corporation implemented and is implementing additional control policies to resolve these matters, including additional internal accounting control procedures and the hiring of the Chief Financial Officer. To this end, the Corporation has also retained Amper, Politziner & Mattia, P.C. to analyze the adequacy of its internal controls and procedures under Section 404 of the Sarbanes Oxley Act of 2002, as amended. Such firm is currently in the process of conducting a review of the Corporation's internal controls, and is expected to conclude its review by the end of the first fiscal quarter of 2006. Furthermore, the Corporation has retained Rotenberg Meril Solomon Bertiger & Guttilla, P.C. to assist in the preparation, presentation and integrity of the Corporation's financial statements, accounting and financial reporting principles and internal controls and procedures.

The Corporation's management, the Audit Committee and the Board are fully committed to the review and evaluation of the Corporation's procedures and policies designed to assure effective internal control over financial reporting. All steps and disclosures relating to these matters have been and will remain subject to the oversight of the Audit Committee.

Table of Contents

Based on the reviews and discussions referred to above, and subject to the limitations on the role and responsibilities of the Audit Committee set forth below and in its charter, the Audit Committee recommended to the Board (and the Board has approved) that the audited financial statements be included in the Corporation's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2005 for filing with the Securities and Exchange Commission. The Audit Committee also approved the selection of the Corporation's independent registered public accounting firm for the fiscal year ended December 31, 2006.

Although the members of the Audit Committee are financially sophisticated they are not professionally engaged in the practice of auditing or accounting, are not employed by the Corporation for accounting, financial management or internal control purposes and are not experts in the fields of accounting or auditing, including the determination of auditor independence. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent registered public accounting firm. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Corporation's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that J.H. Cohn LLP is in fact independent.
