Century Aluminum to Offer Shares of Common Stock

MONTEREY, CA, May 29, 2007 -- Century Aluminum Company (NASDAQ: CENX) today announced that it plans to offer 7,250,000 newly issued shares of its common stock under an effective shelf registration statement on file with the Securities and Exchange Commission. The Company also intends to grant to the underwriters of the proposed offering a thirty day option to purchase up to 1,087,500 newly issued shares of its common stock to cover over-allotments, if any.

Century has applied to the First North Iceland market of the Iceland Stock Exchange for a listing of its common stock in the form of global depository receipts. The company intends to offer to sell a portion of this proposed offering in the form of global depository receipts to institutional investors in Iceland. Any global depository receipts sold would be listed and traded on the First North Iceland.

The Company expects to use the net proceeds of the offering as part of the financing for its proposed new aluminum smelter near Helguvik, Iceland. Pending the commencement of major construction activities for this project in early 2008, the Company intends to apply the net proceeds from the offering to debt reduction, investment in highly rated short-term securities and other corporate purposes.

Given the solid progress we have made on the Helguvik project, we believe it is now prudent to secure this important part of the financing package, said Logan W. Kruger, President and Chief Executive Officer. We look forward to continuing our close working relationships with the communities, our power providers and other constituencies in Iceland as we move ahead with this project.

Credit Suisse Securities (USA) LLC and Morgan Stanley & Co. Incorporated will act as global coordinators for the offering. Kaupthing Bank hf., Kaupthing Securities, Inc. and Landsbanki Islands hf. will act as co-managers. The global coordinators and Kaupthing Securities, Inc. will not offer or sell securities in Iceland.
