(Name, address, including zip code, and telephone number, including area code,
of agent for service)

APPROXIMATE DATE OF COMMENCEMENT OF PROPOSED SALE TO PUBLIC: From time to time
after the effective date of this Registration Statement, as determined by market
conditions.

If the only securities being registered on this form are being offered pursuant
to dividend or interest reinvestment plans, please check the following box. []
If any of the securities being registered on this form are to be offered on a
delayed or continuous basis pursuant to Rule 415 under the Securities Act of
1933, other than securities offered only in connection with dividend or interest
reinvestment plans, check the following box. [X]

If this form is filed to register additional securities for an offering pursuant
to Rule 462(b) under the Securities Act, please check the following box and list
the Securities Act registration statement number of the earlier effective
registration statement for the same offering. []

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. [] -----
 If the delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box. []

CALCULATION OF REGISTRATION FEE

TITLE OF EACH CLASS OF SECURITIES TO BE REGISTERED	AMOUNT TO BE REGISTERED (1)	PROPOSED MAXIMUM OFFERING PRICE PER UNIT (1) (2)	PRO MAX OFFERING
Debt Securities (4) (12)			
Preferred Stock (5) (12)			
Depository Shares (6) (12)			
Common Stock (7) (12)			
Warrants to Purchase United States Steel Corporation Debt Securities, Preferred Stock or Common Stock (8) (12)			
Common Stock reserved for issuance upon conversion or exchange of Debt Securities or Preferred Stock (9)			
Stock Purchase Contracts (10) (12)			
Stock Purchase Units (11) (12)			
Total	\$600,000,000		\$600,

- (1) Pursuant to General Instruction II.D to Form S-3, the amount to be registered, proposed maximum aggregate offering price per security and proposed maximum aggregate offering price has been omitted for each class of securities that is registered hereby.
- (2) The proposed maximum aggregate offering price per security will be determined from time to time by the registrant in connection with the issuance of the securities registered hereunder.
- (3) Excludes an aggregate of \$197,887,500 unsold securities (Debt Securities; Preferred Stock; Depository Shares; Common Stock; Warrants to purchase Debt Securities, Preferred Stock or Common Stock; and Common Stock reserved for issuance upon conversion or exchange of Debt Securities or Preferred Stock) included in Registration Statement Number 333-84200 for which a registration fee was paid in connection with the filing thereof. The above excluded securities are covered by the Prospectus included in this Registration Statement pursuant to Rule 429. As a result, up to an aggregate of \$797,887,500 of all of the securities referred to in this table may be sold pursuant to the Prospectus included in this Registration Statement. The amount of the filing fee associated with the above excluded securities previously paid with the above mentioned registration statement

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

is \$18,205.65.

- (4) An indeterminate number of debt securities of United States Steel Corporation are covered by this registration statement. Debt securities may also be issued upon exercise of warrants to purchase debt securities that are registered hereby.
- (5) An indeterminate number of shares of preferred stock of United States Steel Corporation are covered by this registration statement. Preferred stock may also be issued upon exercise of warrants to purchase preferred stock that are registered hereby.
- (6) There is being registered hereunder an indeterminate number of Depositary Shares as may be issued if United States Steel Corporation elects to offer fractional interests in the Preferred Stock offered hereby.
- (7) An indeterminate number of shares of common stock, par value \$1.00 per share, of United States Steel Corporation are covered by this registration statement. Common stock may also be issued upon exercise of warrants to purchase common stock that are registered hereby.
- (8) An indeterminate number of warrants, representing rights to purchase debt securities, preferred stock or common stock of United States Steel Corporation, each of which is registered hereby, are covered by this registration statement.
- (9) Such indeterminate number of shares of Common Stock as may be issued upon conversion of or in exchange for any Debt Securities, Preferred Stock or Depositary Shares that provide for such conversion or exchange are being registered hereby. No separate consideration will be received for the Common Stock issuable upon such conversion or exchange.
- (10) An indeterminate amount and number of stock purchase contracts, representing obligations to purchase preferred stock, depositary shares, common stock or other securities are covered by this registration statement.
- (11) An indeterminate amount and number of stock purchase units, consisting of stock purchase contracts together with debt securities, preferred stock, warrants or debt obligations of third parties securing the holders' obligations to purchase the securities under the stock purchase contracts are covered by this registration statement.
- (12) An indeterminate amount of securities as may be issued in exchange for, or upon conversion or exercise of, as the case may be, the debt securities, preferred stock, depositary shares or warrants registered hereunder and such indeterminate amount of securities as may be issued upon settlement of the stock purchase contracts or stock purchase units registered hereunder are covered by this registration statement. No separate consideration will be received for any securities registered hereunder that are issued in exchange for, or upon conversion of, as the case may be, the debt securities, preferred stock, depositary shares or warrants.

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933 OR UNTIL THE REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SECTION 8(a), MAY DETERMINE.

PURSUANT TO RULE 429 UNDER THE SECURITIES ACT OF 1933, THE PROSPECTUS INCLUDED IN THIS REGISTRATION STATEMENT WILL ALSO BE USED FOR PURPOSES OF SECTION 10(a)(3) OF THE ACT IN CONNECTION WITH SECURITIES REGISTERED ON FORM S-3, REGISTRATION NUMBER 333-84200.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

PROSPECTUS

UNITED STATES STEEL CORPORATION

[US STEEL LOGO]	DEBT SECURITIES COMMON STOCK STOCK PURCHASE UNITS	PREFERRED STOCK AND DEPOSITARY SHARES WARRANTS STOCK PURCHASE CONTRACTS
-----------------	---	---

We may issue and offer any of the following from time to time:

- Debt securities.
- Shares of or interests in preferred stock.
- Shares of common stock.
- Warrants to buy any of the foregoing.
- Stock Purchase Contracts.
- Stock Purchase Units.

or any combination of these securities.

The maximum total public offering price of all the securities offered will not exceed \$797,887,500.

We will provide specific terms of these securities in supplements to this prospectus. You should read this prospectus and any prospectus supplement carefully before you invest.

We may sell these securities through underwriters, agents or directly to other purchasers.

COMMON STOCK SYMBOL: X

Our common stock is listed on the New York Stock Exchange, the Chicago Stock Exchange and the Pacific Exchange.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

Please refer to the prospectus supplement for more complete information. Neither this prospectus nor any prospectus supplement is an offer to sell these securities and is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

The date of this Prospectus is October 18, 2002.

WHERE YOU CAN FIND MORE INFORMATION

USS files annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file with the SEC at the SEC's Public Reference Room at 450 Fifth Street Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Our SEC filings are also accessible through the Internet at the SEC's website at <http://www.sec.gov>. Many of our SEC filings are also accessible on our website at <http://www.ussteel.com>.

The SEC allows us to "incorporate by reference" into this prospectus the information in documents we file with it, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus, and later information that we file with the SEC will update and supersede this information. We incorporate by reference the following documents and any future filings we make with the SEC under Section 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934 until all the offered securities are sold:

- (a) USS' Annual Report on Form 10-K for the year ended December 31, 2001;
- (b) USS' Proxy Statement on Form 14A dated March 11, 2002;
- (c) USS' Quarterly Reports on Form 10-Q for the quarters ended March 31 and June 30, 2002, and
- (d) USS' Current Reports on Form 8-K dated February 8, March 1, May 14, May 17, June 4, June 28, and October 16, 2002.

We also incorporate by reference the consolidated/combined financial

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

statements and supplemental schedule included in Item 8 of the Annual Report on Form 10-K of Republic Technologies International Holdings, LLC ("Republic") for the year ended December 31, 2001, the unaudited consolidated financial statements included in Part I, Item I of the Quarterly Report on Form 10-Q of Republic for the three month period ended March 31, 2002 and Republic's Current Report on Form 8-K dated August 19, 2002.

Any statement contained in a document incorporated by reference to this prospectus will be deemed to be modified or superseded for purposes of this prospectus to the extent that a statement contained herein modifies or supersedes such statement. Any such statement so modified or superseded will not be deemed to constitute a part of this prospectus except as so modified or superseded.

We will provide, upon written or oral request, to each person to whom a prospectus is delivered, including any beneficial owner, a copy of any or all of the information that has been incorporated by reference in the prospectus but not delivered with the prospectus. You may request a copy of these filings at no cost.

Requests for documents should be directed to:

ii

OUR COMPANY

We are the largest integrated steel producer in North America. Integrated steel producers make steel from iron ore, unlike mini-mills that mostly melt scrap to make steel products. We have a broad product mix with particular focus on value-added products and serve customers in the automotive, appliance, distribution and service center, container, industrial machinery, construction and oil and petrochemical markets. We currently have annual steel-making capability of 17.8 million tons through our four integrated steel mills. In addition, we have a diversified mix of assets that provide us with a varied stream of revenues.

We operate three integrated steel mills and six finishing facilities in North America and produce, transport and sell a variety of sheet, tin, plate and tubular products, as well as coke, iron ore and coal. We participate in several joint ventures engaged in steel processing and finishing. We also participate in the real estate, resource management, and engineering and consulting services businesses. We have a significant market presence in each of our major product areas and have long-term relationships with many of our major customers. We have annual steel-making capability in the U.S. of 12.8 million tons through Gary Works in Indiana, Mon Valley Works in Pennsylvania, and Fairfield Works in Alabama. We operate finishing facilities in those three states and Ohio. We are the largest domestic producer of seamless oil country tubular goods and one of the two largest producers of tin mill products in North America. We produce most of the iron ore and coke and a portion of the coal we use as raw materials in our steel-making process.

In November 2000, we acquired U. S. Steel Kosice, s.r.o. ("USSK"), headquartered in Kosice in the Slovak Republic, the largest flat-rolled producer

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

in Central Europe. USSK has annual steel-making capability of 5.0 million tons and produces and sells sheet, tin, tubular and specialty products, as well as coke. The acquisition of USSK has enabled us to establish a low-cost manufacturing base in Europe and better positioned us to serve our global customers.

Before December 31, 2001 our businesses were owned by USX Corporation. USX had two outstanding classes of common stock: USX-Marathon Group common stock, that was intended to reflect the performance of USX's energy business, and USX-U. S. Steel Group common stock ("Steel Stock"), that was intended to reflect the performance of USX's steel business. On December 31, 2001, in a series of transactions that we call the Separation, each share of USX-U. S. Steel Group common stock was converted into the right to receive one share of our stock and USX changed its name to Marathon Oil Corporation ("Marathon"). As a consequence of the Separation, we became a separate publicly owned corporation.

The net assets of United States Steel Corporation after Separation were approximately the same as the net assets attributed to Steel Stock at the time of the Separation, except for a \$900 million value transfer (the "Value Transfer") in the form of additional net debt and other obligations retained by Marathon.

In connection with the Separation, we entered into a series of agreements with Marathon governing our relationship after the Separation and providing the allocation of tax and certain other liabilities and obligations arising from periods prior to the Separation. These agreements included a financial matters agreement under which we assumed obligations relating to industrial development bonds, leases and guarantee obligations and a tax sharing agreement that deals with tax matters and sharing of taxes arising prior to Separation.

United States Steel Corporation is a Delaware corporation. Our principal offices are at 600 Grant Street, Pittsburgh PA 15219-2800 and our telephone number is (412) 433-1121. References in this prospectus to the "Company," "United States Steel," "USS," "we," "us" and "our" are to United States Steel Corporation and its subsidiaries.

1

RISK FACTORS

You should carefully consider the following risk factors and the other information contained elsewhere or incorporated by reference in this prospectus and the prospectus supplement before making an investment decision.

RISKS RELATED TO OUR BUSINESS

OVERCAPACITY IN THE STEEL INDUSTRY MAY NEGATIVELY AFFECT OUR PRODUCTION LEVELS AND SHIPMENTS.

There is an excess of global steel-making capacity over global consumption of steel products. This has caused shipment and production levels for our domestic operations to vary from year to year and quarter to quarter, affecting our results of operations and cash flows. Over the past five years, our domestic steel shipments have varied from a high of 11.6 million net tons in 1997 to a low of 9.8 million net tons in 2001. Production levels as a percentage of capacity have ranged from a high of 96.5% in 1997 to a low of 78.9% in 2001. Many factors influence these results, including demand in the domestic market, international currency conversion rates and domestic and international government actions.

OUR BUSINESS IS CYCLICAL. FUTURE ECONOMIC DOWNTURNS, A STAGNANT ECONOMY OR

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

CURRENCY FLUCTUATIONS MAY ADVERSELY AFFECT OUR BUSINESS, RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

Demand for most of our products is cyclical in nature and sensitive to general economic conditions. Our business supports cyclical industries such as the automotive, appliance, construction and energy industries. As a result, future downturns in the U.S. or European economy or any of these industries could adversely affect our results of operations and cash flows.

Because we and other integrated steel producers generally have high fixed costs, reduced volumes result in operating inefficiencies, such as those experienced in 2001. Over the past five years, our net income has varied from a high of \$452 million in 1997 to a loss of \$218 million in 2001 as our domestic steel shipments have varied from a high of 11.6 million net tons in 1997 to a low of 9.8 million net tons in 2001. Future economic downturns, a stagnant economy or currency fluctuations may adversely affect our business, results of operations and financial condition.

WE HAVE A SUBSTANTIAL AMOUNT OF INDEBTEDNESS AND OTHER OBLIGATIONS, WHICH COULD LIMIT OUR OPERATING FLEXIBILITY AND OTHERWISE ADVERSELY AFFECT OUR FINANCIAL CONDITION.

As of June 30, 2002, we were liable for indebtedness of approximately \$1.4 billion. This does not include obligations of Marathon for which we are contingently liable and that are not recorded on our balance sheet. As of June 30, 2002, such obligations of Marathon were \$334 million. Marathon paid a portion of this debt in July 2002 leaving US\$ contingently liable for debt and other obligations of Marathon in the amount of \$175 million as of July 31, 2002. We may incur other obligations for working capital, refinancing of a portion of the \$1.4 billion referred to above or for other purposes. This substantial amount of indebtedness and related covenants could limit our operating flexibility and could otherwise adversely affect our financial condition.

Our high degree of leverage could have important consequences to you, including the following:

- our ability to satisfy our obligations with respect to any other debt securities or preferred stock may be impaired in the future;
- it may become difficult for us to obtain additional financing for working capital, capital expenditures, debt service requirements, acquisitions or general corporate or other purposes in the future;
- a substantial portion of our cash flow from operations must be dedicated to the payment of principal and interest on our indebtedness, thereby reducing the funds available to us for other purposes;

2

- some of our borrowings are and are expected to be at variable rates of interest (including borrowings under our inventory credit facility), which will expose us to the risk of increased interest rates;
- the sale prices, costs of selling receivables and amounts available under our accounts receivable program fluctuate due to factors that include the amount of eligible receivables available, the costs of the commercial paper funding and our long-term debt ratings; and
- our substantial leverage may limit our flexibility to adjust to changing economic or market conditions, reduce our ability to withstand competitive pressures and make us more vulnerable to a downturn in

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

general economic conditions.

OUR BUSINESS REQUIRES SUBSTANTIAL DEBT SERVICE, CAPITAL INVESTMENT, OPERATING LEASE, CAPITAL COMMITMENTS AND MAINTENANCE EXPENDITURES THAT WE MAY BE UNABLE TO FULFILL.

With approximately \$1.4 billion of debt outstanding as of June 30, 2002, we have substantial debt service requirements. Based on this outstanding debt, our combined principal and interest payments will average approximately \$150 million annually over the next five years. At June 30, 2002, USS had approximately \$94 million of variable rate debt outstanding, therefore, a 1% annualized increase in interest rates would increase annual debt service requirements by approximately \$900,000. We made a payment of \$37.5 million to VSZ in July 2002 and are required to make another \$37.5 million payment in July of 2003 in connection with our acquisition of USSK. Our operations are capital intensive. For the five-year period ended December 31, 2001, total capital expenditures were \$1.4 billion, and through June 30, 2002, capital expenditures totaled \$104 million. As of December 31, 2001, we were obligated to make aggregate lease payments of \$325 million under operating leases over the next five years. Our business also requires substantial expenditures for routine maintenance.

Some of our operating lease agreements include contingent rental charges that are not determinable to any degree of certainty. These charges are primarily based on utilization of the power generation facility at our Gary Works location and operating expenses incurred related to our headquarters' office space.

USSK has a commitment to the Slovak government for a capital improvements program over a period commencing with the acquisition date and ending on December 31, 2010, and, as of June 30, 2002, the remaining commitment under this program was \$600 million. At June 30, 2002, our domestic contract commitments to acquire property, plant and equipment totaled \$18 million.

As of June 30, 2002 we had contingent obligations consisting of indemnity obligations under active surety bonds totaling approximately \$134 million, guarantees of approximately \$31 million of indebtedness for unconsolidated entities and commitments under take or pay arrangements of approximately \$764 million. As the general partner of the Clairton 1314B Partnership, L.P., we are obligated to fund cash shortfalls incurred by that partnership but may withdraw as the general partner if we are required to fund in excess of \$150 million in operating cash shortfalls. As of June 30, 2002, we were also contingently liable for \$334 million of debt and other obligations of Marathon. In July 2002, Marathon paid a portion of this debt leaving USS contingently liable for \$175 million of debt and other obligations as of July 31, 2002.

Our business may not generate sufficient operating cash flow or external financing sources may not be available in an amount sufficient to enable us to service or refinance our indebtedness or to fund other liquidity needs.

WE HAVE INCURRED OPERATING AND CASH LOSSES AND WILL HAVE FEWER SOURCES OF CASH, INCLUDING CASH FROM MARATHON TAX SETTLEMENTS.

For the six months ended June 30, 2002, we had a loss from operations of \$14 million and net cash used in operating activities was \$107 million.

For the year ended December 31, 2001, we had a loss from operations of \$405 million and net cash used in operating activities was \$150 million excluding the income tax settlements received from Marathon.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

Prior to the Separation, we funded our negative operating cash flow through an increase in USX debt attributable to the U. S. Steel Group. Before the Separation, the USX tax allocation policy required the U. S. Steel Group and the Marathon Group to pay the other for tax benefits resulting from tax attributes that could not be utilized by the group to which those tax attributes were attributable on a stand-alone basis but which could be used on a consolidated, combined or unitary basis. The net amount of cash settlements made by Marathon to USS for prior years, subject to adjustment, was \$819 million, \$91 million and \$(2) million in 2001, 2000 and 1999, respectively. These payments allowed USS to realize the cash value of its tax benefits on a current basis. Now if USS generates losses or other tax attributes we can generally realize the cash value from them only if and when we generate enough taxable income in future years to use those tax losses or other tax attributes on a stand-alone basis. This delay in realizing tax benefits may adversely affect our cash flow.

Because we are no longer owned by USX, we are not able to rely on USX for financial support or benefit from a relationship with USX to obtain credit. Our lower credit ratings have resulted in higher borrowing costs and make obtaining necessary capital more difficult.

THE TIGHT SURETY BOND MARKET MAY ADVERSELY IMPACT OUR LIQUIDITY.

We use surety bonds to provide financial assurance for certain transactions and business activities. The total amount of active surety bonds currently being used for financial assurance purposes is approximately \$134 million, \$70 million of which is expected to be terminated in the third quarter of 2002. Recent events have caused major changes in the surety bond market including significant increases in surety bond premiums and reduced market capacity. These factors, together with our non-investment grade credit rating, have caused us to replace some surety bonds with other forms of financial assurance. The use of other forms of financial assurance and collateral have a negative impact on liquidity. During the first six months of 2002, USS used \$54 million of liquidity sources to provide financial assurance and expects to use an additional amount of approximately \$6 million during the second half of 2002 and approximately \$70 million in 2003.

IMPORTS OF STEEL MAY DEPRESS DOMESTIC PRICE LEVELS AND HAVE AN ADVERSE EFFECT ON OUR RESULTS OF OPERATIONS AND CASH FLOWS.

Steel imports to the United States accounted for an estimated 24% of the domestic steel market in the first six months of 2002 and for the year 2001, and 27% for the year 2000. We believe that steel imports into the United States involve widespread dumping and subsidy abuses, and that the remedies provided by United States law to private litigants are insufficient to correct the root causes of these problems. Imports of steel involving dumping and subsidy abuses depress domestic price levels, and have an adverse effect upon our revenue, income and cash flows. Over the past five years, the average transaction prices for our domestic steel products have decreased from a high of \$479 per net ton in 1997 to a low of \$427 per net ton in 2001.

The trade remedies announced by President Bush, under Section 201 of the Trade Act of 1974, on March 5, 2002 became effective for imports entering the U.S. on and after March 20, 2002 and are intended to provide protection against imports from certain countries, but there are products and countries not covered and imports of these exempt products or of products from these countries may still have an adverse effect upon our revenues and income. Since March 5, 2002 the Department of Commerce and the Office of the United States Trade Representative have announced the exclusion of 727 products from the trade remedies. When announcing the seventh set of exclusions on August 22, 2002 they also announced that no further exclusions will be granted this year and that beginning in November, 2002 there will be another opportunity for parties to submit exclusion requests for consideration by March 2003. The exclusions

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

granted impact a number of products we produce and have weakened the protection initially provided by this relief. Various countries have challenged President Bush's action with the World Trade Organization and taken other actions responding to the Section 201 remedies.

4

On September 28, 2001, United States Steel Corporation and other domestic producers filed anti-dumping and countervailing duty petitions against cold rolled carbon steel flat products from 20 countries. The U.S. Department of Commerce ("Commerce") found preliminary margins against all the countries and, to date, has made final determinations with respect to five of the countries. On August 27, 2002, the U.S. International Trade Commission ("ITC") made negative injury findings with respect to the five countries. This terminates the proceedings with respect to those five countries without granting relief to the domestic industry. The ITC will vote regarding the remaining countries after Commerce makes its final determinations in those investigations.

Although we believe the relief provided to the domestic industry is inadequate, it is possible even that level of relief will not be continued.

On December 20, 2001, the European Commission commenced an anti-dumping investigation concerning the import of hot-rolled coils and hot-rolled pickled and oiled coils from Slovakia and five other countries. In mid-February, USSK submitted a response to the anti-dumping questionnaire and an injury submission. By law the investigation should be concluded within one year from the date of initiation, but provisional measures have already been imposed.

On March 21, 2002, the Canadian International Trade Tribunal ("CITT") initiated a safeguard inquiry to determine whether imports of certain steel goods from countries, including the U.S., had injured the Canadian steel industry. On July 5, 2002, the CITT announced its determination that the Canadian steel industry had been injured by reason of imports of certain products including the following which are made by USS: cut-to-length plate, cold-rolled steel sheet and standard pipe up to 16" o.d. On August 20, 2002, the CITT announced that it was recommending as a remedy a three-year quota, with tariffs imposed on tonnages exceeding the quota. This resulted in quota levels for the U.S. which are lower than 2001 shipments. For shipments exceeding the quota levels, tariffs will be imposed ranging from 15-25% in the first year, 11-18% in the second year and 7-12% in the third year. The CITT's remedy recommendations will be forwarded to the Ministry of Finance and the final remedy decision will be made by the Prime Minister.

MANY OF OUR INTERNATIONAL COMPETITORS ARE LARGER AND HAVE HIGHER CREDIT RATINGS.

Based on International Iron and Steel Institute statistics, we rank as the largest domestic integrated steel producer but, in 2001, were only the eleventh largest steel producer in the world. Many of our larger competitors have investment grade credit ratings, and, because of their larger size and superior credit ratings, we may be at a disadvantage in competing with them. Terms of our indebtedness contain covenants that may also limit our ability to participate in consolidations.

COMPETITION FROM MINI-MILL PRODUCERS HAS CONTRIBUTED TO LOST MARKET SHARE AND COULD HAVE AN ADVERSE EFFECT ON OUR SELLING PRICES AND SHIPMENT LEVELS.

Domestic integrated producers, such as USS, have lost market share in recent years to domestic mini-mill producers. Mini-mills produce steel by melting scrap in electric furnaces. Although mini-mills generally produce a narrower range of steel products than integrated producers, they typically enjoy competitive advantages such as lower capital expenditures for construction of

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

facilities, lower raw material costs and non-unionized work forces with lower employment costs and more flexible work rules. An increasing number of mini-mills utilize thin slab casting technology to produce flat-rolled products. Through the use of thin slab casting, mini-mill competitors are increasingly able to compete directly with integrated producers of flat-rolled products, especially hot-rolled and plate products. Depending on market conditions, the additional production generated by flat-rolled mini-mills could have an adverse effect on our selling prices and shipment levels. Mini-mills entered the flat-rolled product market around 1990. Although we cannot determine how much competition from mini-mills has affected our market share, based on statistics supplied by the American Iron and Steel Institute, we believe our domestic flat-rolled market share has dropped from 19.4% in 1990 to 13.3% in 2001.

5

COMPETITION FROM OTHER MATERIALS MAY NEGATIVELY AFFECT OUR RESULTS OF OPERATIONS.

In many applications, steel competes with other materials, such as aluminum, cement, composites, glass, plastic and wood. Additional substitutes for steel products could adversely affect future market prices and demand for steel products.

HIGH ENERGY COSTS ADVERSELY IMPACT OUR RESULTS OF OPERATIONS.

Our operations consume large amounts of energy and we consume significant amounts of natural gas. Domestic natural gas prices increased from an average of \$2.27 per million BTU in 1999 to an average of \$4.96 per million BTU in 2001. At normal annual consumption levels, a \$1.00 per million BTU change in domestic natural gas prices would result in an estimated \$50 million change in our annual domestic pretax operating costs.

ENVIRONMENTAL COMPLIANCE AND REMEDIATION COULD RESULT IN SUBSTANTIALLY INCREASED CAPITAL REQUIREMENTS AND OPERATING COSTS.

Our domestic businesses are subject to numerous federal, state and local laws and regulations relating to the protection of the environment. These laws are constantly evolving and becoming increasingly stringent. The ultimate impact of complying with existing laws and regulations is not always clearly known or determinable because regulations under some of these laws have not yet been promulgated or are undergoing revision. These environmental laws and regulations, particularly the Clean Air Act, could result in substantially increased capital, operating and compliance costs. We are also involved in a number of environmental remediation projects at both former and present operating locations and are involved in a number of other remedial actions under federal and state law. Our worldwide environmental expenditures were \$231 million in 2001, \$230 million in 2000 and \$253 million in 1999. For more information see "Management's Discussion and Analysis of Environmental Matters, Litigation and Contingencies" in our Annual Report on Form 10-K for the year ended December 31, 2001, our Report on Form 10-Q for the quarter ended June 30, 2002 and subsequent filings.

We believe all of our domestic steel competitors are subject to similar environmental laws and regulations. The specific impact on each competitor may vary, however, depending upon a number of factors, including the age and location of operating facilities, production processes (such as a mini-mill versus an integrated producer) and the specific products and services it provides. To the extent that competitors, particularly foreign steel producers and manufacturers of competitive products, are not required to undertake equivalent costs, our competitive position could be adversely impacted.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

USSK is subject to the laws of the Slovak Republic. The environmental laws of the Slovak Republic generally follow the requirements of the European Union, which are comparable to domestic standards.

OUR RETIREE EMPLOYEE HEALTH CARE AND RETIREE LIFE INSURANCE COSTS ARE HIGHER THAN THOSE OF MANY OF OUR COMPETITORS.

We maintain defined benefit retiree health care and life insurance plans covering substantially all domestic employees upon their retirement. Health care benefits are provided through comprehensive hospital, surgical and major medical benefit provisions or through health maintenance organizations, both subject to various cost-sharing features. Life insurance benefits are provided to nonunion retiree beneficiaries primarily based on employees' annual base salary at retirement. For domestic union retirees, benefits are provided for the most part based on fixed amounts negotiated in labor contracts with the appropriate unions. As of December 31, 2001, United States Steel reported an unfunded obligation for these benefit obligations in the amount of \$1.8 billion and recorded \$129 million in related costs during the year. Mini-mills, foreign competitors and many producers of products that compete with steel provide lesser benefits to their employees and retirees and this difference in costs could adversely impact our competitive position.

6

DECLINES IN THE VALUE OF INVESTMENTS OF OUR MAJOR PENSION TRUSTS COULD MATERIALLY REDUCE OUR STOCKHOLDERS' EQUITY.

Based on current conditions, we broadly estimate that a charge to equity of approximately \$750 million (net of tax) may be required at December 31, 2002.

Under accounting principles generally accepted in the United States changes in the market value of the assets held in trust for pension purposes can result in significant changes in the sponsor's balance sheet. The accounting rules provide that if at any plan measurement date (which in our case is December 31 of each year or an earlier date if certain significant plan events occur) the fair value of plan assets is less than the plan's accumulated benefit obligation ("ABO"), the sponsor must establish a liability at least equal to the amount by which the ABO exceeds the fair value of the plan assets and any prepaid pension assets must be removed from the balance sheet. The sum of the liability and prepaid pension assets must be offset by the recognition of an intangible asset and/or as a direct charge against stockholders' equity, net of tax effects. Such adjustments will have no direct impact on earnings per share or cash. As of September 30, 2002, the fair value of plan assets for the USS pension plan for union employees was \$4.4 billion. Assuming no further changes in value prior to year-end, we estimate the ABO for this plan at the year-end measurement date would exceed the fair value of plan assets by approximately \$500 million. The resulting required minimum liability entries would include a charge to equity of approximately \$750 million at December 31, 2002.

Any such reduction in stockholders' equity is not expected to affect any of our debt covenants or borrowing arrangements or result in any requirements for pension plan cash funding in 2002 or 2003. The foregoing estimates are forward-looking statements. Predictions as to the value of and return on plan assets and the resulting impact on equity are subject to substantial

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

uncertainties such as (among other things) investment performance and interest rates.

THE RECENT INVESTMENT PERFORMANCE OF PENSION PLAN EQUITY HOLDINGS WILL UNFAVORABLY IMPACT OUR RESULTS OF OPERATIONS AND COULD AFFECT FUTURE PROFITABILITY AND CASH FLOW.

The investment performance of pension plan equity holdings over the last three years will unfavorably impact net periodic pension cost during 2003 through the use of a lower asset base in calculating expected return on plan assets and may impact future profitability and liquidity, which could affect debt covenants and borrowing arrangements. Holding all other assumptions constant and based on market values at September 2002 projected to the end of the year, we estimate an unfavorable impact on 2003 net periodic pension cost of \$110 million.

Our expected annual return on pension plan assets of 8.9% for the 2002 plan year is consistent with the 2001 plan year and is based on the historical long-term rate of return on our investments and our investment mix. In light of recent developments in the market, this expected annual return rate might be changed at the next measurement date. We currently estimate this may result in a reduction of up to one percentage point in our expected annual return on pension plan assets for 2003. A one percentage point decline in the expected annual rate of return for our two main pension plans for the 2003 plan year would increase our annual pension expense by approximately \$80 million which would be in addition to the \$110 million increase for the reduced asset value previously discussed. These estimates are forward-looking statements. Predictions regarding the return on plan assets and the resulting pension expenses are subject to substantial uncertainties such as (among other things) investment performance and interest rates.

BANKRUPTCIES OF DOMESTIC COMPETITORS HAVE LOWERED THEIR OPERATING COSTS.

Since 1998, more than 30 domestic steel companies have sought protection under Chapter 11 of the United States Bankruptcy Code. Many of these companies have continued to operate. Some have reduced prices to maintain volumes and cash flow and obtained concessions from their labor unions and suppliers. In some cases, they have even expanded and modernized while in bankruptcy. Upon emergence from bankruptcy, these companies, or new entities that purchase their facilities through the bankruptcy process,

7

may be relieved of many environmental, employee, retiree and other obligations. As a result, they are able to operate with lower costs.

MANY LAWSUITS HAVE BEEN FILED AGAINST US INVOLVING ASBESTOS-RELATED INJURIES WHICH COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR FINANCIAL POSITION.

We are a defendant in a large number of cases in which approximately 18,000 claimants allege injury resulting from exposure to asbestos. Nearly all of these cases involve multiple defendants. These claims fall into three major groups: (1) claims made under certain federal and general maritime law by employees of the Great Lakes Fleet or Intercoastal Fleet, former operations of USS; (2)

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

claims made by persons who performed work at USS facilities; and (3) claims made by industrial workers allegedly exposed to an electrical cable product formerly manufactured by USS. To date all actions resolved have been either dismissed or resolved for immaterial amounts. In 2001, we disposed of claims from approximately 11,300 claimants with aggregate total payments of less than \$200,000 and approximately 10,000 new claims were filed. The factual issues with respect to each claimant vary considerably due to the nature and duration of the alleged exposure of each individual claimant to USS products or premises, the exposure of each individual claimant to products or premises of other defendants, the nature and seriousness of the alleged injuries asserted by each claimant and the other possible causes of any such injuries (such as the use of tobacco products or exposure to other substances). In addition, because most claimants assert their claims against multiple defendants, fail to allege specific damage amounts in their complaints, fail to allocate the alleged liability among the various defendants, and frequently amend their complaints including any allegations of amounts sought, it is not possible to reasonably estimate the amount claimed by any given claimant or the claimants as a whole in pending cases. In the cases where the claimants have asserted specific dollar damages against USS, the amounts claimed are not material either individually or in the aggregate. It is also not possible to predict with certainty the outcome of these matters; however, based upon present knowledge, management believes that it is unlikely that the resolution of the pending actions will in the aggregate have a material adverse effect on our financial condition. Among the factors that management considered in reaching this conclusion are: (1) that USS has been subject to a total of approximately 32,000 asbestos claims over the last twelve years that have been administratively dismissed due to the failure of the claimants to present any medical evidence supporting their claims, (2) that over the last several years the total number of pending claims has remained steady, (3) that it has been many years since USS employed maritime workers or manufactured electrical cable and (4) USS's history of trial outcomes, settlements and dismissals. For more information see our Report on Form 10-Q for the quarter ended June 30, 2002. This statement of belief is a forward-looking statement. Predictions as to the outcome of pending litigation are subject to substantial uncertainties with respect to (among other things) factual and judicial determinations, and actual results could differ materially from those expressed in this forward-looking statement.

OUR INTERNATIONAL OPERATIONS EXPOSE US TO UNCERTAINTIES AND RISKS FROM ABROAD, WHICH COULD NEGATIVELY AFFECT OUR RESULTS OF OPERATIONS.

USSK, located in the Slovak Republic, constitutes 28% of our total raw steel capability and accounted for 17% of revenue for 2001. USSK exports about 80% of its products, with the majority of its sales being to other European countries. USSK is affected by the worldwide overcapacity in the steel industry and the cyclical nature of demand for steel products and that demand's sensitivity to worldwide general economic conditions. In particular, USSK is subject to economic conditions and political factors in Europe, which if changed could negatively affect its results of operations and cash flow. Political factors include, but are not limited to, taxation, nationalization, inflation, currency fluctuations, increased regulation and protectionist measures. USSK is also subject to foreign currency exchange risks because its revenues are primarily in euros and its costs are primarily in Slovak korunas and United States dollars.

The Slovak Republic has applied for membership in the European Union and may be required to amend its environmental, tax and other laws to secure that membership. Changes in those laws could adversely impact USSK.

THE TERMS OF OUR INDEBTEDNESS RESTRICT OUR ABILITY TO PAY DIVIDENDS.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

Under the terms of our 10 3/4% Senior Notes due 2008 (the "Senior Notes"), we may not be able to pay dividends on capital stock unless we can meet certain restricted payment tests, including a 2 to 1 interest coverage test for the preceding 12 month period except we may pay common stock dividends through December 31, 2003 in an aggregate amount up to \$50 million. We may also be unable to pay dividends due to inadequate cash flow and borrowing capacity.

THE TERMS OF OUR INDEBTEDNESS AND OUR ACCOUNTS RECEIVABLE PROGRAM CONTAIN RESTRICTIVE COVENANTS, CROSS-DEFAULT, CROSS ACCELERATION AND OTHER PROVISIONS THAT MAY LIMIT OUR OPERATING FLEXIBILITY.

We currently have Senior Notes outstanding in the aggregate principal amount of \$535 million. The Senior Notes impose significant restrictions on us such as the following:

- Limits on additional borrowings, including limits on the amount of borrowings secured by inventories or accounts receivable;
- Limits on sale/leasebacks;
- Limits on the use of funds from asset sales and sale of the stock of subsidiaries; and
- Restrictions on our ability to invest in joint ventures or make certain acquisitions.

We also have a revolving credit agreement secured by inventory that imposes additional restrictions on us including the following:

- Effective September 30, 2002, we must meet an interest coverage ratio of at least 2 to 1, and effective March 31, 2003, that ratio must be at least 2.5 to 1;
- We must meet leverage ratios (total debt to operating cash flow) of no more than 6 to 1 beginning on September 30, 2002 through December 30, 2002, 5.5 to 1 through March 30, 2003, 5 to 1 through June 29, 2003, 4.5 to 1 through September 29, 2003, 4 to 1 through March 30, 2004 and 3.75 to 1 thereafter;
- Limitations on capital expenditures; and
- Restrictions on investments.

The accounts receivable program terminates on the occurrence and failure to cure certain events, including, among others:

- certain defaults with respect to the inventory facility and other debt obligations;
- failure to maintain certain ratios related to the collectability of receivables; and
- failure of the commercial paper conduits' liquidity providers to extend their commitments that currently expire on November 27, 2002.

If these covenants are breached or if we fail to make payments under our material debt obligations or our receivables purchase agreement, creditors would be able to terminate their commitments to make further loans, declare their outstanding obligations immediately due and payable and foreclose on any collateral, and it may also cause a default under the Senior Notes. Additional indebtedness that USS may incur in the future may also contain similar

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

covenants, as well as other restrictive provisions. Cross-default and cross-acceleration clauses in our revolving credit facility, the Senior Notes, the accounts receivable program and any future additional indebtedness could have an adverse effect upon our financial position and liquidity. Such defaults include provisions applicable to failure to make payments when due, failure to comply with the covenants described above and failure to pay judgments entered against USS (which may include any judgments resulting from the environmental and asbestos litigation matters described in this prospectus and the documents incorporated by reference).

9

The sale prices, costs of selling receivables and amounts available under our accounts receivable program fluctuate due to factors that include the amount of eligible receivables available, costs of commercial paper funding and our long-term debt ratings. The amount available under our secured inventory facility fluctuates based on our eligible inventory levels.

We are currently in compliance with all terms of our outstanding indebtedness. Under the terms of the Senior Notes, additional debt of approximately \$1.7 billion could have been incurred as of June 30, 2002. Of this amount, \$200 million would be subordinate to the Senior Notes and the remainder would rank equal to the Senior Notes.

"CHANGE IN CONTROL" CLAUSES REQUIRE US TO IMMEDIATELY PURCHASE OR REPAY DEBT.

Upon the occurrence of "change in control" events specified in our Senior Notes, inventory facility and various other loan documents, the holders of our indebtedness may require us to immediately purchase or repay that debt on less than favorable terms. We may not have the financial resources to make these purchases and repayments, and a failure to purchase or repay such indebtedness would trigger cross-acceleration clauses under the Senior Notes and other indebtedness.

OUR OPERATIONS ARE SUBJECT TO BUSINESS INTERRUPTIONS AND CASUALTY LOSSES THAT MAY ADVERSELY AFFECT OUR CASH FLOWS.

Steel-making, product marketing and raw material operations are subject to unplanned events such as explosions, fires, inclement weather, accidents and transportation interruptions. To the extent these events are not covered by insurance, our cash flows may be adversely impacted by such events.

OUR BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS COULD BE ADVERSELY IMPACTED BY STRIKES OR WORK STOPPAGES BY OUR UNIONIZED EMPLOYEES.

Substantially all hourly employees of our domestic steel, coke and taconite pellet facilities are covered by a collective bargaining agreement with the United Steelworkers of America that expires in August 2004 and includes a no-strike provision. Other hourly employees (for example, those engaged in coal mining and transportation activities) are represented by the United Mine Workers of America, United Steelworkers of America and other unions. The majority of USSK employees are represented by a union and are covered by a collective bargaining agreement that expires in February 2004, and is subject to annual wage negotiations. Any potential strikes or work stoppages and the resulting adverse impact on our relationships with our customers could have a material adverse effect on our business, financial condition or results of operations. In addition, mini-mill producers and certain foreign competitors and producers of comparable products do not have unionized work forces. This may place us at a competitive disadvantage.

PROVISIONS OF DELAWARE LAW, OUR GOVERNING DOCUMENTS AND OUR RIGHTS PLAN MAY

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

MAKE A TAKEOVER OF USS MORE DIFFICULT.

Certain provisions of Delaware law, our certificate of incorporation and by-laws and our rights plan could make more difficult or delay our acquisition by means of a tender offer, a proxy contest or otherwise and the removal of incumbent directors. These provisions are intended to discourage certain types of coercive takeover practices and inadequate takeover bids, even though such a transaction may offer our stockholders the opportunity to sell their stock at a price above the prevailing market price.

RISKS RELATED TO PROPOSED CONSOLIDATION

On December 4, 2001, we announced our support for significant consolidation in the domestic integrated steel industry and we continue to be interested in participating in consolidation of the domestic steel industry. We have had and continue to have discussions with several parties regarding consolidation opportunities. Among the factors that would impact our participation in consolidation are the nature and extent of relief from the burden of retiree obligations relating to existing retirees from other domestic steel companies, which may come through the bankruptcy process or otherwise, the terms of a new labor

10

agreement and progress in President Bush's program to address overcapacity. We may also make additional investments in Central Europe to expand our business and to better serve our customers who are seeking worldwide supply arrangements.

On March 5, 2002, President Bush imposed tariffs of 8% to 30% on most steel imports, but did not express support for a government-sponsored program to provide relief from the industry's retiree legacy costs. No legislation had been enacted and two proposals to amend pending legislation to address retiree legacy costs failed to obtain sufficient votes. Although we will continue to explore attractive acquisitions, joint ventures and other growth opportunities in the U.S. and Central Europe, the extent of any significant consolidation in the domestic or European steel industries remains unclear.

CONSOLIDATIONS MAY NOT OCCUR OR MAY BE DELAYED AND THE ANTICIPATED COST SAVINGS FROM CONSOLIDATION MAY NOT MATERIALIZE.

We will not participate in steel industry consolidation unless it is in the best interest of our customers, shareholders, creditors, employees and other constituencies. The conditions precedent to any consolidation are beyond our control, and may not be satisfied.

The benefits of any consolidation in large measure flow from anticipated cost savings. We may not be able to achieve all of these savings or may not achieve them as quickly as we expect. In addition, any rationalization of steel facilities may result in environmental, post-employment, and other shut-down costs.

ACQUIRED COMPANIES AND ASSETS MAY INCREASE OUR INDEBTEDNESS AND OTHER OBLIGATIONS AND REQUIRE SIGNIFICANT EXPENDITURES.

Possible future acquisitions could result in the incurrence of additional debt and related interest expense, underfunded pension and other post-retirement obligations, contingent liabilities and amortization expenses related to intangible assets, all of which could have a material adverse effect on our financial condition, operating results and cash flow.

Many of the available domestic acquisition targets may require significant capital and operating expenditures to return them to profitability. Financially

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

distressed steel companies typically do not maintain their assets adequately. Such assets may need significant repairs and improvements. We may also have to buy sizable amounts of raw materials, spare parts and other materials for these facilities before they can resume profitable operation.

Many potential acquisition candidates are financially distressed steel companies that may not have maintained appropriate environmental programs. These problems may require significant expenditures.

WE MAY HAVE DIFFICULTY OR MAY NOT BE ABLE TO OBTAIN FINANCING NECESSARY TO PURSUE CONSOLIDATIONS.

We may not be able to obtain financing for acquisitions of other companies or their assets on favorable terms or at all.

CUSTOMERS MAY PURCHASE LESS FROM A CONSOLIDATED COMPANY THAN THEY DID FROM THE INDIVIDUAL PRODUCERS AND MAY INSIST ON PRICE CONCESSIONS.

Customers may not buy as much steel from us after consolidation as they previously bought from the separate companies in order to diversify their suppliers. They may also insist upon significant price concessions.

INTERNATIONAL ACQUISITIONS MAY EXPOSE US TO ADDITIONAL RISKS.

If we acquire companies or facilities outside the United States, we may be exposed to increased risks including the following:

- economic and political conditions in the countries where the facilities are located and where the products made at those facilities are marketed;

11

- currency fluctuations;
- uncertain sources of raw materials;
- economic disruptions in less developed economies where many potential acquisition candidates have facilities or market products;
- expenditures necessary to bring such facilities to profitable operation;
- foreign tax risks; and
- expenditures required to comply with potential new environmental requirements.

RISKS RELATED TO THE SEPARATION

Prior to December 31, 2001, our businesses were owned by USX Corporation, now named Marathon Oil Corporation.

USS IS SUBJECT TO CERTAIN CONTINUING CONTINGENT LIABILITIES OF MARATHON THAT COULD ADVERSELY AFFECT OUR CASH FLOW AND OUR ABILITY TO INCUR ADDITIONAL INDEBTEDNESS AND COULD CAUSE A DEFAULT UNDER OUR BORROWING FACILITIES.

USS is contingently liable for debt and other obligations of Marathon in the amount of \$334 million as of June 30, 2002. In July 2002, Marathon paid a portion of this debt leaving USS contingently liable for \$175 million of debt and other obligations as of July 31, 2002. Marathon is not limited by agreement with USS as to the amount of indebtedness that it may incur. In the event of the bankruptcy of Marathon, these obligations for which USS is contingently liable, as well as obligations relating to industrial development and environmental

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

improvement bonds and notes that were assumed by USS from Marathon, may be declared immediately due and payable. If that occurs USS may not be able to satisfy those obligations. In addition, if Marathon loses its investment grade ratings, certain of these obligations will be considered indebtedness under our indentures and for covenant calculations under our revolving credit facility. This occurrence could prevent USS from incurring additional indebtedness under our indentures or may cause a default under our revolving credit facility.

Under the Internal Revenue Code of 1986, as amended, and the rules and regulations promulgated thereunder, USS and each subsidiary of USS that was a member of the Marathon consolidated group during any taxable period or portion thereof ending on or before the effective time of the Separation is jointly and severally liable for the federal income tax liability of the entire Marathon consolidated group for that taxable period. Other provisions of federal law establish similar liability for other matters, including laws governing tax qualified pension plans as well as other contingent liabilities.

THE SEPARATION MAY BE CHALLENGED BY CREDITORS AS A FRAUDULENT TRANSFER OR CONVEYANCE THAT COULD PERMIT UNPAID CREDITORS OF MARATHON TO SEEK RECOVERY FROM US.

If a court in a suit by an unpaid creditor or representative of creditors of Marathon, such as a trustee in bankruptcy, or Marathon, as debtor-in-possession, in a reorganization case under the United States Bankruptcy Code, were to find that:

- the Separation and the related transactions were undertaken for the purpose of hindering, delaying or defrauding creditors, or
- Marathon received less than reasonably equivalent value or fair consideration in connection with the Separation and the transactions related thereto and (1) Marathon was insolvent at the effective time of the Separation and after giving effect thereto, (2) or Marathon as of the effective time of the Separation and after giving effect thereto, intended or believed that it would be unable to pay its debts as they became due, or (3) the capital of Marathon, at the effective time of the Separation and after giving effect thereto, was inadequate to conduct its business,

12

then the court could determine that the Separation and the related transactions violated applicable provisions of the United States Bankruptcy Code and/or applicable state fraudulent transfer or conveyance laws. Such a determination would permit the bankruptcy trustee or debtor-in-possession or unpaid creditors to rescind the Separation and permit unpaid creditors of Marathon to seek recovery from us.

The measure of insolvency for purposes of the foregoing considerations will vary depending upon the law of the jurisdiction that is being applied. Generally, an entity is considered insolvent if either:

- the sum of its liabilities, including contingent liabilities, is greater than its assets, at a fair valuation; or
- the present fair saleable value of its assets is less than the amount required to pay the probable liability on its total existing debts and liabilities, including contingent liabilities, as they become absolute and matured.

THE SEPARATION MAY BECOME TAXABLE UNDER SECTION 355(e) OF THE INTERNAL REVENUE

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

CODE IF 50% OR MORE OF USS'S SHARES OR MARATHON OIL CORPORATION'S SHARES ARE ACQUIRED AS PART OF A PLAN WHICH WOULD MATERIALLY AFFECT OUR FINANCIAL CONDITION.

The Separation may become taxable to Marathon pursuant to section 355(e) of the Internal Revenue Code if 50% or more of either Marathon's shares or our shares are acquired, directly or indirectly, as part of a plan or series of related transactions that include the Separation. If section 355(e) applies, Marathon would be required to pay a corporate tax based on the excess of the fair market value of the shares distributed over Marathon's tax basis for such shares. The amount of this tax would be materially greater if the Separation were deemed to be a distribution of Marathon's shares. If an acquisition occurs that results in the Separation being taxable under section 355(e), a Tax Sharing Agreement between USS and Marathon provides that the resulting corporate tax liability will be borne by the entity, either USS or Marathon, that is deemed to have been acquired.

WE MAY BE RESPONSIBLE FOR A CORPORATE TAX IF THE SEPARATION FAILS TO QUALIFY AS A TAX-FREE TRANSACTION, WHICH WOULD HAVE AN ADVERSE AFFECT ON OUR FINANCIAL CONDITION.

Based on representations made by USX Corporation prior to the Separation, the Internal Revenue Service issued a private letter ruling that the Separation was tax-free to Marathon and its shareholders. To the extent a breach of one of those representations results in a corporate tax being imposed on Marathon, the breaching party, either USS or Marathon, will be responsible for payment of the corporate tax. If the Separation fails to qualify as a tax-free transaction through no fault of either USS or Marathon, the resulting tax liability, if any, is likely to be borne by us under the tax sharing agreement.

13

SUMMARY CONSOLIDATED FINANCIAL INFORMATION

Prior to December 31, 2001, the businesses of USS comprised an operating unit of Marathon. Marathon had two outstanding classes of common stock: USX-Marathon Group common stock, which was intended to reflect the performance of Marathon's energy business, and USX-U. S. Steel Group common stock ("Steel Stock"), which was intended to reflect the performance of Marathon's steel business. On December 31, 2001, in a series of transactions we call the separation, USS was capitalized through the issuance of 89.2 million shares of common stock to holders of Steel Stock in exchange for all outstanding shares of Steel Stock on a one-for-one basis. On May 20, 2002, we issued an additional 10,925,000 shares of common stock in an underwritten public offering.

The following table sets forth summary financial data for USS. Consolidated balance sheet data as of December 31, 2001 and June 30, 2002 and statement of operations data for the six months ended June 30, 2002 reflect USS as a separate, stand-alone entity. All other balance sheet and statement of operations data in the table below represent a carve-out presentation of the businesses comprising United States Steel, and are not intended to be a complete presentation of the financial position or results of operations for USS on a stand-alone basis. This information should be read in conjunction with the more detailed information and consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2001, our Current Report on Form 8-K dated June 4, 2002, our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2002 and the additional reports and documents incorporated by reference in this prospectus.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

of debt to be classified as an extraordinary item in the statement of operations. As a result, the criteria contained in Accounting Principles Board Opinion No. 30, Reporting the Results of Operations -- Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions, will be used to classify these gains and losses. This provision of SFAS No. 145 is effective for fiscal years beginning after May 15, 2002 and will be adopted by USS on January 1, 2003.

- (3) Per common share data for the six months ended June 30, 2002 is based on the weighted average outstanding common shares during the period. Per common share data for all other periods presented is based on the outstanding common shares at December 31, 2001 as a result of the Separation and the initial capitalization of USS on that date.
- (4) Dividends paid per share for all periods presented, except for the six months ended June 30, 2002, represents amounts paid on USX-U. S. Steel Group common stock.
- (5) Statement of Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets, addresses the accounting for goodwill and other intangible assets after an acquisition. The most significant changes made by SFAS No. 142 are 1) goodwill and intangible assets with indefinite lives will no longer be amortized; 2) goodwill and intangible assets with indefinite lives must be tested for impairment at least annually; and 3) the amortization period for the intangible assets with finite lives will no longer be limited to forty years. Paragraph 61 of SFAS No. 142, requires disclosure of what reported income before extraordinary items and net income would have been in all periods presented exclusive of amortization expense (including any related tax effects) recognized in those periods related to goodwill, intangible assets that are no longer being amortized, any deferred credit to an excess over cost, equity method goodwill, and changes in amortization periods for intangible assets that will continue to be amortized (including any related tax effects). Similarly adjusted per share amounts are also required to be disclosed for all periods presented. USS initially applied this Statement on January 1, 2002, and there was no financial statement implication related to the adoption of this standard.
- (6) The increase in equity and the decrease in long-term debt, preferred stock of subsidiary and trust preferred securities from December 31, 2000 to 2001 and from June 30, 2001 to 2002 were primarily due to transactions related to the Separation, including the \$900 million value transfer. The increase in long-term debt from December 31, 1999 to 2000 was primarily due to cash used in operating activities of \$627 million (including \$500 million in elective funding to a voluntary employee benefit trust) and the \$325 million of debt included in the acquisition of USSK.

RATIO OF EARNINGS TO FIXED CHARGES
RATIO OF EARNINGS TO COMBINED FIXED
CHARGES AND PREFERRED STOCK DIVIDENDS

(UNAUDITED)
CONTINUING OPERATIONS

SIX MONTHS
ENDED JUNE 30

YEAR ENDED DECEMBER 31,

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

	2002	2001	2001	2000	1999	1998	1997
	-----	-----	-----	-----	-----	-----	-----
Ratio of earnings to fixed charges(a)...	--	--	--	1.13	2.33	5.89	5.39
Ratio of earnings to combined fixed charges and preferred stock dividends(a).....	--	--	--	1.05	2.10	5.15	4.72

(a) For the purposes of calculating the ratio of earnings to fixed charges and the ratio of earnings to combined fixed charges and preferred stock dividends, "earnings" are defined as income before income taxes and extraordinary items adjusted for minority interests in consolidated subsidiaries, income (loss) from equity investees, and capitalized interest, plus fixed charges, amortization of capitalized interest and distributions from equity investees. "Fixed charges" consist of interest, whether expensed or capitalized, on all indebtedness, amortization of premiums, discounts and capitalized expenses related to indebtedness, and an interest component equal to one-third of rental expense, representing the portion of rental expense that management believes is attributable to interest. "Preferred dividends" consists of pretax earnings required to cover preferred stock dividends associated with the 6.50% Preferred Stock attributed to USS by Marathon prior to the Separation which was retained and subsequently repaid by Marathon in connection with the Separation. Earnings were deficient in covering fixed charges by \$66 million and \$196 million for the six months ended June 30, 2002 and 2001, respectively and by \$586 million for the year ended December 31, 2001. Earnings were deficient in covering combined fixed charges and preferred stock dividends by \$66 million for the six months ended June 30, 2002, \$202 million for the six months ended June 30, 2001 and by \$598 million for the year ended December 31, 2001.

USE OF PROCEEDS

The net proceeds from the sale of the offered securities will be used for general corporate purposes unless we specify otherwise in the prospectus supplement applicable to a particular offering. We may use those funds to repay debt, to finance acquisitions, for stock repurchases, for capital expenditures, for investments in subsidiaries and joint ventures, and for working capital.

DESCRIPTION OF THE DEBT SECURITIES

The following is a general description of the debt securities (the "Debt Securities") that we may offer from time to time. The particular terms of the Debt Securities offered by any prospectus supplement and the extent, if any, to which the general provisions described below may apply will be described in the applicable prospectus supplement.

The Debt Securities will be either senior Debt Securities or subordinated Debt Securities. We will issue the senior Debt Securities under the senior indenture between The Bank of New York, or any successor trustee, and USS. We will issue the subordinated Debt Securities under a subordinated indenture between The Bank of New York, or any successor trustee, and USS. The senior indenture and the subordinated indenture are collectively referred to in this prospectus as the indentures, and each of the trustee under the senior indenture and the trustee under the subordinated indenture are referred to in this prospectus as trustee.

The following description is only a summary of the material provisions of the indentures. We urge you to read the appropriate indenture because it, and not this description, defines your rights as holders of the

notes or bonds. See the information under the heading "Where You Can Find More Information" to contact us for a copy of the appropriate indenture.

GENERAL

The senior Debt Securities are unsubordinated obligations, will rank on par with all other debt obligations of USS and, unless otherwise indicated in the related Prospectus Supplement, will be unsecured. The subordinated Debt Securities will be subordinate, in right of payment to Senior Debt. A description of the subordinated Debt Securities is provided below under " -- Subordinated Debt Securities". The specific terms of any subordinated Debt Securities will be provided in the related Prospectus Supplement. For a complete understanding of the provisions pertaining to the subordinated Debt Securities, you should refer to the subordinated indenture attached as an exhibit to the Registration Statement.

TERMS

The indentures do not limit the principal amount of debt we may issue.

We may issue notes or bonds in traditional paper form, or we may issue a global security. The Debt Securities of any series may be issued in definitive form or, if provided in the related prospectus supplement, may be represented in whole or in part by a Global Security or Securities, registered in the name of a depository designated by USS. Each Debt Security represented by a Global Security is referred to as a "Book-Entry Security."

Debt Securities may be issued from time to time pursuant to this prospectus, and will be offered on terms determined by market conditions at the time of sale. Debt Securities may be issued in one or more series with the same or various maturities and may be sold at par, a premium or an original issue discount. Debt Securities sold at an original issue discount may bear no interest or interest at a rate that is below market rates. Unless otherwise provided in the prospectus supplement, Debt Securities denominated in U.S. dollars will be issued in denominations of \$1,000 and integral multiples thereof.

Please refer to the prospectus supplement for the specific terms of the Debt Securities offered including the following:

1. Designation of an aggregate principal amount, purchase price and denomination;
2. Date of maturity;
3. If other than U.S. currency, the currency for which the Debt Securities may be purchased;
4. The interest rate or rates and the method of calculating interest;
5. The times at which any premium and interest will be payable;
6. The place or places where principal, any premium and interest will be payable;
7. Any redemption or sinking fund provisions or other repayment obligations;

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

8. Any index used to determine the amount of payment of principal of and any premium and interest on the Debt Securities;

9. The application, if any of the defeasance provisions to the Debt Securities;

10. If other than the entire principal amount, the portion of the Debt Securities that would be payable upon acceleration of the maturity thereof;

11. If other than the entire principal amount plus accrued interest, the portion of the Change of Control purchase price or prices applicable to purchases of Debt Securities upon a Change of Control;

12. Whether the Debt Securities will be issued in whole or in part in the form of one or more global securities, and in such case, the depository for the global securities;

17

13. Any additional covenants applicable to the Debt Securities being offered;

14. Any additional events of default applicable to the Debt Securities being offered;

15. The terms of subordination, if applicable;

16. The terms of conversion, if applicable; and

17. Any other specific terms including any terms that may be required by or advisable under applicable law.

Except with respect to Book-Entry Securities, Debt Securities may be presented for exchange or registration of transfer, in the manner, at the places and subject to the restrictions set forth in the Debt Securities and the prospectus supplement. Such services will be provided without charge, other than any tax or other governmental charge payable in connection therewith, but subject to the limitations provided in the indentures.

CERTAIN COVENANTS OF USS IN THE INDENTURES

PAYMENT

USS will pay principal of and premium, if any, and interest on the Debt Securities at the place and time described in the Debt Securities. (Section 1001) Unless otherwise provided in the prospectus supplement, USS will pay interest on any Debt Security to the person in whose name that security is registered at the close of business on the regular record date for that interest payment. (Section 307)

Any money deposited with the trustee or any paying agent for the payment of principal of or any premium or interest on any Debt Security that remains unclaimed for two years after that amount has become due and payable will be paid to USS at its request. After this occurs, the holder of that security must look only to USS for payment of that amount and not to the trustee or paying agent. (Section 1003)

LIENS

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

If USS or any subsidiary of USS mortgages, pledges, encumbers or subjects to a lien (a "Mortgage") as security for money borrowed any blast furnace facility or steel producing facility, or casters that are part of a plant that includes such a facility, having a net book value in excess of 1% of Consolidated Net Tangible Assets at the time of determination (each, a "Principal Property") or any shares of stock or other equity interests in any of USS' subsidiaries that own one or more Principal Properties, USS will secure or will cause such subsidiary to secure the Debt Securities equally and ratably with all indebtedness or obligations secured by the Mortgage then being given and with any other indebtedness of USS or the subsidiary of USS then entitled thereto; provided, however, that this covenant shall not apply in the case of: (a) any Mortgage existing on the date of the indentures (whether or not such Mortgage includes an after-acquired property provision); (b) any Mortgage, including a purchase money Mortgage, incurred in connection with the acquisition of any Principal Property, the assumption of any Mortgage previously existing on such acquired Principal Property or any Mortgage existing on the property of any corporation when it becomes a subsidiary of USS; (c) any Mortgage on such Principal Property in favor of the United States, or any State, or instrumentality of either, to secure partial, progress or advance payments to USS or any subsidiary of USS under any contract or statute; (d) any Mortgage in favor of the United States, any State, or instrumentality of either, to secure borrowings for the purchase or construction of the Principal Property mortgaged; (e) any Mortgage on any Principal Property arising in connection with or to secure all or any part of the cost of the repair, construction, improvement, alteration or development of the Principal Property or any portion thereof; or (f) any renewal of or substitution for any Mortgage permitted under the preceding clauses.

USS may and may permit its subsidiaries to (1) grant Mortgages or incur liens on Principal Property (or on equity interests in subsidiaries that own Principal Property) covered by the restriction described above and (2) sell or transfer any Principal Property with the intention of taking back a lease on that Principal Property so long as the net book value of the Principal Property (or equity interests) so

18

encumbered or transferred, together with all property then permitted to be encumbered or subject to a sale-leaseback under this clause, does not at the time such Mortgage or lien is granted or such property is transferred exceed 10% of Consolidated Net Tangible Assets. (Section 1005)

"Consolidated Net Tangible Assets" means the aggregate value of all assets of USS and its subsidiaries after deducting (a) all current liabilities (excluding all long-term debt due within one year), (b) all investments in unconsolidated subsidiaries and all investments accounted for on the equity basis and (c) all goodwill, patent and trademarks, unamortized debt discount and other similar intangibles (all determined in conformity with generally accepted accounting principles and calculated on a basis consistent with USS' most recent audited consolidated financial statements). (Section 101)

LIMITATIONS ON CERTAIN SALE AND LEASEBACKS

USS will not, nor will it permit any subsidiary to, sell or transfer any Principal Property with the intention of taking back a lease thereof, provided, however, this covenant shall not apply if (a) the lease is to a subsidiary of USS (or to USS in the case of a subsidiary of USS); (b) the lease is for a temporary period by the end of which it is intended that the use of the Principal Property by the lessee will be discontinued; (c) USS or a subsidiary of USS could, as described under the caption "Liens" above, Mortgage such property without equally and ratably securing the Debt Securities; or (d) USS

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

promptly informs the trustee of such sale, the net proceeds of such sale are at least equal to the fair value (as determined by resolution adopted by the Board of Directors of USS) of such Principal Property and USS within 180 days after such sale applies an amount equal to such net proceeds (subject to reduction by reason of credits to which USS is entitled, under the conditions specified in the indentures) to the retirement or in substance defeasance of funded debt of USS or a subsidiary of USS. This covenant does not apply to sales and leases solely among USS and its subsidiaries. (Section 1006)

MERGER AND CONSOLIDATION

USS will not merge or consolidate with any other entity or sell or convey all or substantially all of its assets to any person, firm, corporation or other entity, except that USS may merge or consolidate with, or sell or convey all or substantially all of its assets to, any other entity if (i) USS is the continuing entity or the successor entity (if other than USS) is organized and existing under the laws of the United States of America or a State thereof and such entity expressly assumes payment of the principal and interest on all the Debt Securities, and the performance and observance of all of the covenants and conditions of the applicable indenture to be performed by USS and (ii) there is no default under the applicable indenture. Upon such a succession, USS will be relieved from any further obligations under the applicable indenture. For purposes of this paragraph, "substantially all of its assets" means, at any date, a portion of the non-current assets reflected in USS' consolidated balance sheet as of the end of the most recent quarterly period that represents at least 66 2/3% of the total reported value of such assets. (Section 801)

WAIVER OF CERTAIN COVENANTS

Unless otherwise provided in the prospectus supplement, USS may, with respect to the Debt Securities of any series, omit to comply with any provision of the covenants described under "-- Liens" and "-- Limitations on Certain Sale and Leasebacks" above or under "Purchase of Debt Securities Upon a Change of Control" or in any covenant provided in the terms of those Debt Securities if, before the time for such compliance, holders of at least a majority in principal amount of the outstanding Debt Securities of that series waive such compliance in that instance or generally.

PURCHASE OF DEBT SECURITIES UPON A CHANGE IN CONTROL

If any Change in Control (hereinafter defined) of USS occurs, each holder of Debt Securities will have the right, at that holder's option, subject to the terms and conditions of the indentures, to require USS to become obligated to purchase all of that holder's Debt Securities on the date that is 35 Business Days after the occurrence of such Change in Control (the "Change in Control Purchase Date") at a cash

19

price equal to (i) unless otherwise specified in the terms of such Debt Securities, 100% of the principal amount thereof, together with accrued interest to such Change in Control Purchase Date (except that interest installments due prior to such Change in Control Purchase Date will be payable to the holders of such Debt Securities of record at the close of business on the relevant record dates according to their terms and the provisions of the indentures), or (ii) such other price or prices as may be specified in the terms of such Debt Securities (the "Change in Control Purchase Prices"). (Section 1007)

Under the indentures, a "Change in Control" of USS occurs if (i) any "person" or "group" of persons (excluding USS, any subsidiary, any employee stock ownership plan, any other employee benefit plan of USS or any person

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

holding Voting Stock for any employee benefit plan of USS) acquires "beneficial ownership" (within the meaning of Section 13(d) or 14(d) of the Exchange Act) of shares of Voting Stock representing at least 35% of the outstanding Voting Power of USS, (ii) during any period of twenty-five consecutive months, commencing before or after the date of the indentures, individuals who at the beginning of such 25-month period were directors of USS (together with any replacement or additional directors whose election was recommended by incumbent management of USS or who were elected by a majority of directors then in office) cease to constitute a majority of the board of directors of USS, or (iii) any person or group of related persons shall acquire all or substantially all of the assets of USS; provided, a Change in Control shall not have occurred if USS has merged or consolidated with or transferred all or substantially all of its assets to another entity in compliance with the provisions of Section 801 of the indentures (relating to when USS may merge or transfer assets) and the surviving or successor or transferee entity is no more leveraged than was USS immediately prior to such event. The term "leveraged" means the percentage represented by the total assets of that entity divided by its stockholders' or member's equity, as would be shown on a consolidated balance sheet of that entity prepared in accordance with generally accepted accounting principles in the United States of America. The term "substantially all of its assets" used above means, at any date, a portion of the non-current assets reflected in USS' consolidated balance sheet as of the end of the most recent quarterly period that represents at least 66 2/3% of the total reported value of such assets.

"Voting Stock" means stock of USS having ordinary voting power for the election of the directors of USS, other than stock having such power only by reason of the happening of a contingency. "Voting Power" means the total voting power represented by all outstanding shares of all classes of Voting Stock. (Section 101)

To exercise this right to require USS to purchase a holder's Debt Securities after a Change of Control, the holder must deliver, at any time prior to the Change of Control purchase date specified in a notice delivered by USS after that Change of Control, a written notice of purchase to the paying agent specified in USS' notice. The holder's notice must state the numbers of the certificates of any Debt Securities that the holder will deliver to be purchased and that those Debt Securities are to be purchased under the terms and conditions specified in the indentures and USS' notice.

If a Change in Control occurs, USS intends to comply with any applicable securities laws or regulations, including any applicable requirements of Rule 14e-1 under the Exchange Act. The Change in Control purchase feature of the Debt Securities may in certain circumstances make more difficult or discourage a takeover of USS. The Change in Control purchase feature, however, is not the result of management's knowledge of any specific effort to accumulate shares of Common Stock or to obtain control of USS by means of a merger, tender offer, solicitation or otherwise, or part of a plan by management to adopt a series of anti-takeover provisions. The Change in Control purchase feature is similar to that contained in other debt of USS as a result of negotiations between USS and the underwriters or holders of that debt.

Except as discussed, the Change in Control purchase feature does not afford holders of the Debt Securities protection against possible adverse effects of a reorganization, restructuring, merger or similar transaction involving USS.

Our ability to purchase Debt Securities in the future may be limited by the terms of any then existing borrowing arrangements and by our financial resources.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

An Event of Default occurs with respect to any series of Debt Securities when: (i) USS defaults in paying principal of or premium, if any, on any of the Debt Securities of such series when due; (ii) USS defaults in paying interest on the Debt Securities of such series when due, continuing for 30 days; (iii) USS defaults in paying the Change in Control Purchase Price of any of the Debt Securities of such series as and when the same shall become due and payable; (iv) USS defaults in making deposits into any sinking fund payment with respect to any Debt Security of such series when due; (v) failure by USS in the performance of any other covenant or warranty in the Debt Securities of such series or in the applicable indenture continued for a period of 90 days after notice of such failure as provided in that indenture; (vi) certain events of bankruptcy, insolvency, or reorganization occur; or (vii) any other Event of Default provided with respect to Debt Securities of that series. (Section 501)

USS is required annually to deliver to the trustee officers' certificates stating whether or not the signers have any knowledge of any default in the performance by USS of certain covenants. (Section 1004)

If an Event of Default shall occur and be continuing with respect to any series, the trustee or the holders of not less than 25% in principal amount of the Debt Securities of such series then outstanding may declare the Debt Securities of such series to be due and payable. If an Event of Default described in clause (vi) of the first paragraph under "Events of Default" occurs with respect to any series of Debt Securities, the principal amount of all Debt Securities of that series (or, if any securities of that series are original issue discount securities, the portion of the principal amount of such securities as may be specified by the terms thereof) will automatically become due and payable without any declaration by the trustee or the holders. (Section 502) The trustee is required to give holders of the Debt Securities of any series written notice of a default with respect to such series as and to the extent provided by the Trust Indenture Act, except that the trustee may not give such notice of a default described in clause (v) of the first paragraph under "Events of Default" until at least 60 days after the default. As used in this paragraph, a "default" means an event described in the first paragraph under "Events of Default" without including any applicable grace period. (Section 602)

If at any time after the Debt Securities of such series have been declared due and payable, and before any judgment or decree for the moneys due has been obtained or entered, USS shall pay or deposit with the trustee amounts sufficient to pay all matured installments of interest upon the Debt Securities of such series and the principal of all Debt Securities of such series which shall have become due, otherwise than by acceleration, together with interest on such principal and, to the extent legally enforceable, on such overdue installments of interest and all other amounts due under the applicable indenture shall have been paid, and any and all defaults with respect to such series under that indenture shall have been remedied, then the holders of a majority in aggregate principal amount of the Debt Securities of such series then outstanding, by written notice to USS and the trustee, may rescind and annul the declaration that the Debt Securities of such series are due and payable. (Section 502) In addition, the holders of a majority in aggregate principal amount of the Debt Securities of such series may waive any past default and its consequences with respect to such series, except a default in the payment of the principal of or any premium or interest on any Debt Securities of such series or a default in the performance of a covenant that cannot be modified under the indentures without the consent of the holder of each affected Debt Security. (Section 513)

The trustee is under no obligation to exercise any of the rights or powers under the indentures at the request, order or direction of any of the holders of Debt Securities, unless such holders shall have offered to the trustee reasonable security or indemnity. (Section 603) Subject to such provisions for

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

the indemnification of the trustee and certain limitations contained in the indentures, the holders of a majority in aggregate principal amount of the Debt Securities of each series at the time outstanding shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the Debt Securities of such series. (Section 512)

21

No holder of Debt Securities will have any right to institute any proceeding, judicial or otherwise, with respect to the indentures, for the appointment of a receiver or trustee or for any other remedy under the indentures unless:

- the holder has previously given written notice to the trustee of a continuing Event of Default with respect to the Debt Securities of that series; and
- the holders of at least 25% in principal amount of the outstanding Debt Securities of that series have made a written request to the trustee, and offered reasonable indemnity, to the trustee to institute proceedings as trustee, the trustee has failed to institute the proceedings within 60 days and the trustee has not received from the holders of a majority in principal amount of the Debt Securities of that series a direction inconsistent with that request. (Section 507)

Notwithstanding the foregoing, the holder of any Debt Security will have an absolute and unconditional right to receive payment of the principal of and any premium and, subject to the provisions of the applicable indenture regarding the payment of default interest, interest on that Debt Security on the due dates expressed in that security and to institute suit for the enforcement of payment. (Section 508)

MODIFICATION OF THE INDENTURES

Each indenture contains provisions permitting USS and the trustee to modify that indenture or enter into or modify any supplemental indenture without the consent of the holders of the Debt Securities in regard to matters as shall not adversely affect the interests of the holders of the Debt Securities, including, without limitation, the following: (a) to evidence the succession of another corporation to USS; (b) to add to the covenants of USS further covenants for the benefit or protection of the holders of any or all series of Debt Securities or to surrender any right or power conferred upon USS by that indenture; (c) to add any additional events of default with respect to all or any series of Debt Securities; (d) to add to or change any of the provisions of that indenture to facilitate the issuance of Debt Securities in bearer form with or without coupons, or to permit or facilitate the issuance of Debt Securities in uncertificated form; (e) to add to, change or eliminate any of the provisions of that indenture in respect of one or more series of Debt Securities thereunder, under certain conditions designed to protect the rights of any existing holder of those Debt Securities; (f) to secure all or any series of Debt Securities; (g) to establish the forms or terms of the Debt Securities of any series; (h) to evidence the appointment of a successor trustee and to add to or change provisions of that indenture necessary to provide for or facilitate the administration of the trusts under that indenture by more than one trustee; (i) to cure any ambiguity, to correct or supplement any provision of that indenture which may be defective or inconsistent with another provision of that indenture; (j) to make other amendments that do not adversely affect the interests of the holders of any series of Debt Securities in any material respect; and (k) to add or change or eliminate any provision of that indenture as shall be necessary or desirable in accordance with any amendments to the Trust Indenture Act. (Section

901)

USS and the trustee may otherwise modify each indenture or any supplemental indenture with the consent of the holders of not less than a majority in aggregate principal amount of each series of Debt Securities affected thereby at the time outstanding, except that no such modifications shall (i) extend the fixed maturity of any Debt Securities or any installment of interest or premium on any Debt Securities, or reduce the principal amount thereof or reduce the rate of interest or premium payable upon redemption, or reduce the amount of principal of an original issue discount Debt Security or any other Debt Security that would be due and payable upon a declaration of acceleration of the maturity thereof, or change the currency in which the Debt Securities are payable or impair the right to institute suit for the enforcement of any payment after the stated maturity thereof or the redemption date, if applicable, or adversely affect any right of the holder of any Debt Security to require USS to repurchase that security, without the consent of the holder of each Debt Security so affected, (ii) reduce the percentage of Debt Securities of any series, the consent of the holders of which is required for any waiver or supplemental indenture, without the consent of the holders of all Debt Securities affected thereby then outstanding or (iii) modify the provisions of that indenture relating to the waiver of past defaults or the waiver or certain covenants or

22

the provisions described under "Modification of the indentures," except to increase any percentage set forth in those provisions or to provide that other provisions of that indenture may not be modified without the consent of the holder of each Debt Security affected thereby, without the consent of the holder of each Debt Security affected thereby. (Section 902)

SATISFACTION AND DISCHARGE; DEFEASANCE AND COVENANT DEFEASANCE

Each indenture shall be satisfied and discharged if (i) USS shall deliver to the trustee all Debt Securities then outstanding for cancellation or (ii) all Debt Securities not delivered to the trustee for cancellation shall have become due and payable, are to become due and payable within one year or are to be called for redemption within one year and USS shall deposit an amount sufficient to pay the principal, premium, if any, and interest to the date of maturity, redemption or deposit (in the case of Debt Securities that have become due and payable), provided that in either case USS shall have paid all other sums payable under that indenture. (Section 401)

Each indenture provides, if such provision is made applicable to the Debt Securities of a series, that USS may elect either (A) to defease and be discharged from any and all obligations with respect to any Debt Security of such series (except for the obligations to register the transfer or exchange of such Debt Security, to replace temporary or mutilated, destroyed, lost or stolen Debt Securities, to maintain an office or agency in respect of the Debt Securities and to hold moneys for payment in trust) ("defeasance") or (B) to be released from its obligations with respect to such Debt Security under Sections 801, 803, 1005, 1006, 1007 and 1009 of that indenture (being the restrictions described above under "Certain Covenants of USS in the indentures" and USS' obligations described under "Purchase of Debt Securities upon a Change in Control") together with additional covenants that may be included for a particular series and (ii) that Sections 501(4), 501(5) (as to Sections 801, 803, 1005, 1006, 1007 and 1009) and 501(8), as described in clauses (iv), (v) and (vii) under "Events of Default," shall not be Events of Default under that indenture with respect to such series ("covenant defeasance"), upon the deposit with the trustee (or other qualifying trustee), in trust for such purpose, of money certain U.S. government obligations and/or, in the case of Debt Securities denominated in U.S. dollars, certain state and local government obligations

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

which through the payment of principal and interest in accordance with their terms will provide money, in an amount sufficient to pay the principal of (and premium, if any) and interest on such Debt Security, on the scheduled due dates. In the case of defeasance, the holders of such Debt Securities are entitled to receive payments in respect of such Debt Securities solely from such trust. Such a trust may only be established if, among other things, USS has delivered to the trustee an Opinion of Counsel (as specified in the indentures) to the effect that the holders of the Debt Securities affected thereby will not recognize income, gain or loss for Federal income tax purposes as a result of such defeasance or covenant defeasance and will be subject to Federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance or covenant defeasance had not occurred. Such Opinion of Counsel, in the case of defeasance under clause (A) above, must refer to and be based upon a ruling of the Internal Revenue Service or a change in applicable Federal income tax law occurring after the date of the indentures. (Section 1304)

RECORD DATES

The indentures provide that in certain circumstances USS may establish a record date for determining the holders of outstanding Debt Securities of a Series entitled to join in the giving of notice or the taking of other action under the applicable indenture by the holders of the Debt Securities of such Series.

SUBORDINATED DEBT SECURITIES

Although the senior indenture and the subordinated indenture are generally similar and many of the provisions discussed above pertain to both senior and subordinated Debt Securities, there are many substantive differences between the two. This section discusses some of those differences.

23

Subordination

Subordinated Debt Securities will be subordinate, in right of payment, to all Senior Debt. "Senior Debt" is defined to mean, with respect to USS, the principal, premium, if any, and interest on

(1) all indebtedness of USS, whether outstanding on the date hereof or hereafter created, incurred or assumed, which is for money borrowed, or evidenced by a note or similar instrument given in connection with the acquisition of any business, properties or assets, including securities,

(2) any indebtedness of others of the kinds described in the preceding clause (1) for the payment of which USS is responsible or liable (directly or indirectly, contingently or otherwise) as guarantor or otherwise and

(3) amendments, renewals, extensions and refundings of any indebtedness described in the preceding clauses (1) or (2), unless in any instrument or instruments evidencing or securing such indebtedness or pursuant to which the same is outstanding, or in any such amendment, renewal, extension or refunding, it is expressly provided that such indebtedness is not superior in right of payment to the Debt Securities of any series.

Difference Between Subordinated Debt Security Covenants and Debt Security Covenants and Events of Default

Subordinated Debt Securities may not have the advantage of all of the

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

covenants and Events of Default provided in the senior indenture. For example, relating to Liens, Limitations on Certain Sale and Leasebacks and Purchase of senior Debt Securities upon a Change in Control as discussed above are not applicable to securities issued pursuant to the subordinated indenture. Also, the event of default for failure to pay the Change of Control Purchase Price when due is not available to subordinated Debt Securities.

Terms of Subordinated Debt Securities may contain Conversion or Exchange Provisions

The Prospectus Supplement for a particular series of subordinated Debt Securities will describe the specific terms discussed above that apply to the subordinated Debt Securities being offered thereby as well as any applicable conversion or exchange provisions.

Modification of the Indenture Relating to Subordinated Debt Securities

The subordinated indenture may be modified by USS and the trustee without the consent of the Holders of the subordinated Debt Securities for one or more of the purposes discussed above under "--Modification of the indentures." USS and the trustee may also modify the subordinated indenture to make provision with respect to any conversion or exchange rights for a given issue of subordinated Debt Securities.

GOVERNING LAW

The laws of the State of New York govern each indenture and will govern the Debt Securities. (Section 112)

BOOK-ENTRY SECURITIES

The following description of book-entry securities will apply to any series of Debt Securities issued in whole or in part in the form of one or more global securities except as otherwise described in the prospectus supplement.

Book-entry securities of like tenor and having the same date will be represented by one or more global securities deposited with and registered in the name of a depository that is a clearing agent registered under the Exchange Act. Beneficial interests in book-entry securities will be limited to institutions that have accounts with the depository ("participants") or persons that may hold interests through participants. Ownership of beneficial interests by participants will only be evidenced by, and the transfer of that

24

ownership interest will only be effected through, records maintained by the depository. Ownership of beneficial interests by persons that hold through participants will only be evidenced by, and the transfer of that ownership interest within such participant will only be effected through, records maintained by the participants. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of such securities in definitive form. Such laws may impair the ability to transfer beneficial interests in a global security.

Payment of principal of and any premium and interest on book-entry securities represented by a global security registered in the name of or held by a depository will be made to the depository, as the registered owner of the global security. Neither USS, the trustee nor any agent of USS or the trustee will have any responsibility or liability for any aspect of the depository's records or any participant's records relating to or payments made on account of beneficial ownership interests in a global security or for maintaining, supervising or reviewing any of the depository's records or any participant's

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

records relating to the beneficial ownership interests. Payments by participants to owners of beneficial interests in a global security held through such participants will be governed by the depositary's procedures, as is now the case with securities held for the accounts of customers registered in "street name," and will be the sole responsibility of such participants.

A global security representing a book-entry security is exchangeable for definitive Debt Securities in registered form, of like tenor and of an equal aggregate principal amount registered in the name of, or is transferrable in whole or in part to, a person other than the depositary for that global security, only if (a) the depositary notifies USS that it is unwilling or unable to continue as depositary for that global security or the depositary ceases to be a clearing agency registered under the Exchange Act, (b) there shall have occurred and be continuing an Event of Default with respect to the Debt Securities of that Series or (c) other circumstances exist that have been specified in the terms of the Debt Securities of that Series. Any Global Security that is exchangeable pursuant to the preceding sentence shall be registered in the name or names of such person or persons as the depositary shall instruct the trustee. It is expected that such instructions may be based upon directions received by the depositary from its participants with respect to ownership of beneficial interests in such global security.

Except as provided above, owners of beneficial interests in a global security will not be entitled to receive physical delivery of Debt Securities in definitive form and will not be considered the holders thereof for any purpose under the indentures, and no global security shall be exchangeable, except for a security registered in the name of the depositary. This means each person owning a beneficial interest in such global security must rely on the procedures of the depositary and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indentures. USS understands that under existing industry practices, if USS requests any action of holders or an owner of a beneficial interest in such global security desires to give or take any action that a holder is entitled to give or take under the indentures, the depositary would authorize the participants holding the relevant beneficial interests to give or take such action, and such participants would authorize beneficial owners owning through such participant to give or take such action or would otherwise act upon the instructions of beneficial owners owning through them.

CONCERNING THE TRUSTEE

The Bank of New York is also trustee for our 10 3/4% Senior Notes due August 1, 2008, for our Senior Quarterly Income Debt Securities, for a leverage lease in which USS is the lessor and for several series of obligations issued by various governmental authorities relating to environmental projects at various USS facilities. The Bank of New York is a lender under our revolving credit facility. USS and its subsidiaries also maintain ordinary banking relationships, including loans and deposit accounts, with The Bank of New York and anticipate that they will continue to do so.

25

DESCRIPTION OF CAPITAL STOCK

The following is a description of the material terms of the capital stock of USS included in its certificate of incorporation. This description is qualified by reference to the certificate of incorporation, and the Rights Agreement (the "Rights Agreement") between USS and Mellon Bank, N.A., as Rights Agent (the "Rights Agent"), that have been filed as exhibits to the registration statement of which this prospectus is a part.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

GENERAL

The authorized capital stock of USS consists of 14 million shares of preferred stock, without par value, and 200 million shares of common stock with a par value of \$1.00 per share. As of July 31, 2002, there were no shares of preferred stock outstanding and 101,827,613 shares of common stock outstanding.

PREFERRED STOCK

The preferred stock may be issued without the approval of the holders of common stock in one or more series, from time to time. The designation, powers, preferences and relative participating, optional or other special rights, and qualifications, limitations or restrictions of any preferred stock will be stated in a resolution providing for the issue of that series adopted by our board of directors and will be described in the appropriate prospectus supplement (if any), including the following:

1. When to issue the preferred stock, whether in one or more series so long as the total number of shares does not exceed 14 million;
2. The powers, preferences and relative participation, optional or other special rights, and qualifications, limits or restrictions on preferred stock;
3. The dividend rate of each series, the terms of payment, the priority of payment versus any other class of stock and whether the dividends will be cumulative;
4. Terms of redemption;
5. Any convertible features;
6. Any voting rights;
7. Liquidation preferences; and
8. Any other terms.

Holders of preferred stock will be entitled to receive dividends (other than dividends of common stock) before any dividends are payable to holders of common stock.

The future issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of USS.

COMMON STOCK

The holders of common stock will be entitled to receive dividends when, as and if declared by the USS board of directors out of funds legally available therefor, subject to the rights of any shares of preferred stock at the time outstanding. The holders of common stock will be entitled to one vote for each share on all matters voted on generally by stockholders under our certificate of incorporation, including the election of directors. Holders of common stock do not have any cumulative voting, conversion, redemption or preemptive rights. In the event of dissolution, liquidation or winding up of USS, holders of the common stock will be entitled to share ratably in any assets remaining after the satisfaction in full of the prior rights of creditors, including holders of any then outstanding indebtedness, and subject to the aggregate liquidation preference and participation rights of any preferred stock then outstanding. The issuance of additional shares of authorized stock by USS may occur at such times and under such circumstances as to have a dilutive effect on earnings per share and on the equity ownership of the holders of common stock.

STOCK TRANSFER AGENT AND REGISTRAR

USS maintains its own stock transfer department at the following address: United States Steel Corporation, Shareholders Services Department, 600 Grant Street, Room 611, Pittsburgh, PA 15219-2800. Certificates representing shares can also be presented for registration of transfer at Mellon Shareholder Services, 120 Broadway, 13th Floor, New York, NY 10021.

Mellon Investor Services LLC, 500 Grant Street, Pittsburgh, PA 15219 is the Registrar for all the Common Stock.

RIGHTS PLAN

The following is a brief description of the terms of the stockholders rights plan set forth in the Rights Agreement between USS and Mellon Investor Services LLC, as Rights Agent.

The purpose of the Rights Agreement is to:

- give our board of directors the opportunity to negotiate with any persons seeking to obtain control of USS;
- deter acquisitions of voting control of USS without assurance of fair and equal treatment of all USS stockholders; and
- prevent a person from acquiring in the market a sufficient amount of voting power to be in a position to block an action sought to be taken by our stockholders.

The exercise of the Rights would cause substantial dilution to a person attempting to acquire USS on terms not approved by our board of directors and would therefore significantly increase the price that person would have to pay to complete the acquisition. The Rights Agreement may deter a potential acquisition or tender offer.

Under the Rights Agreement, the Right to purchase from USS one-hundredth of a share of Series A Junior Preferred Stock, no par value (the "Junior Preferred Stock"), at a purchase price of \$110 in cash, subject to adjustment, is attached to each share of common stock.

The Rights will expire at the close of business on December 31, 2011, unless that date is extended or the rights are earlier redeemed or exchanged by USS as described below.

Until the Rights are distributed, they will:

- not be exercisable;
- be represented by the same certificates that represent the common stock; and
- trade together with the common stock.

If the Rights are distributed, they will become exercisable, and USS would issue separate certificates representing the Rights, which would trade separately from USS' common stock.

The Rights would be distributed upon the earlier of

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

- 10 business days following a public announcement that a person or group of affiliated or associated persons (an "Acquiring Person") has acquired (except pursuant to a Qualifying Offer (defined in the Rights Agreement as an all-cash tender offer for all outstanding shares of common stock meeting certain prescribed requirements)), or obtained the right to acquire, beneficial ownership of common stock representing 15% or more of the total voting power of all outstanding shares of common stock (the "Stock Acquisition Date"), or
- 10 business days (or upon such later date as may be determined by the board of directors) following the commencement of a tender offer or exchange offer (other than a Qualifying Offer) that would result in a person or a group beneficially owning common stock representing 15% or more of the total voting power of all outstanding shares of common stock.

27

However, an "Acquiring Person" will not include USS, any of its subsidiaries, any of its employee benefit plans or any person organized pursuant to those employee benefit plans or a person acquiring pursuant to a Qualifying Offer. The Rights Agreement also contains provisions designed to prevent the inadvertent triggering of the Rights by institutional or certain other stockholders.

If a person or group becomes the beneficial owner of common stock representing 15% or more of the total voting power of all outstanding shares of common stock (except pursuant to a Qualifying Offer), the Rights "flip-in" and entitle each holder of a Right (other than the Acquiring Person and certain related parties) to receive, upon exercise, common stock (or in certain circumstances, cash, property, or other securities of USS), having a value equal to two times the exercise price of the Right. However, Rights are not exercisable until such time as the Rights are no longer redeemable by USS as set forth below.

If at any time following the Stock Acquisition Date, (i) USS consolidates with, or merges with and into, any other person in a transaction in which USS is not the surviving corporation (other than a merger that follows a Qualifying Offer) or another person consolidates with, or merges with or into, USS and USS' common stock is changed into or exchanged for securities of another person or cash or other property, or (ii) 50% or more of USS' assets, earning power or cash flow is sold or transferred, the Rights "flip-over" and entitle each holder of a Right (other than an Acquiring Person and certain related parties) to receive, upon exercise, common stock of the acquiring company having a value equal to two times the exercise price of the Right.

USS reserves the right, before the occurrence of an event described in the two preceding paragraphs, to require that upon an exercise of Rights, a number of Rights be exercised so that only whole shares of Junior Preferred Stock would be issued.

At any time until the earlier of 10 business days following the Stock Acquisition Date and December 31, 2011 (subject to extension), USS may redeem the Rights in whole, but not in part, at a price of \$.01 per whole Right payable in stock or cash or any other form of consideration deemed appropriate by its board of directors (the "Redemption Price"). Immediately upon the action of the Board of Directors ordering redemption of the Rights, the Rights will terminate and the only right of the holders of the Rights will be to receive the Redemption Price.

The board of directors may, at its option, at any time after any person becomes an Acquiring Person, exchange all or part of the outstanding and exercisable Rights (other than Rights held by the Acquiring Person and certain

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

related parties) for shares of common stock at an exchange ratio of one share of common stock for each Right (subject to certain anti-dilution adjustments). However, the board of directors may not effect such an exchange at any time any person or group beneficially owns common stock representing 50% or more of the total voting power of the common stock then outstanding. Immediately after the board of directors orders such an exchange, the right to exercise the Rights will terminate, and the only right of the holders of the Rights will be to receive shares of common stock at the exchange ratio.

As long as the Rights are attached to shares of common stock, USS will issue Rights on each share of common stock issued prior to the earlier of the rights distribution date and the expiration date of the Rights so that all such shares will have attached Rights.

A holder of Rights will not, as such, have any rights as a shareholder of USS, including rights to vote or receive dividends.

The purchase price payable upon exercise of the Rights is subject to adjustment from time to time to prevent dilution, subject to the qualifications set forth in the rights agreement:

- in the event of a stock dividend on, or a subdivision, combination or reclassification of, the Junior Preferred Stock;
- if holders of Junior Preferred Stock are granted certain rights or warrants to subscribe for Junior Preferred Stock or securities convertible into Junior Preferred Stock at less than the market price of the Junior Preferred Stock; or

28

- upon the distribution to holders of the Junior Preferred Stock of evidences of indebtedness or assets (excluding regular quarterly cash dividends) or of subscription rights or warrants (other than those referred to above).

At any time prior to the distribution of the Rights, the board of directors may amend any provision of the Rights Agreement. After the distribution of the Rights, the board of directors may amend the provisions of the Rights Agreement in order to:

- cure any ambiguity;
- correct any defective or inconsistent provision;
- shorten or lengthen any time period under the Rights Agreement, subject to the limitations specified in the rights agreement; or
- make changes that will not adversely affect the interests of the holders of Rights (other than an Acquiring Person and certain related parties);

provided, that no amendment may be made when the Rights are not redeemable.

The distribution of the Rights will not be taxable to USS or its stockholders. A stockholder may recognize taxable income in the event that the Rights become exercisable for common stock (or other consideration) of USS or common stock of an acquiring company.

This description is only a summary of the material provisions of the rights agreement. We urge you to read the Rights Agreement because it, and not this description, defines your rights as holders of Rights. A copy of the Rights Agreement is available free of charge from the Rights Agent by writing to Mellon

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

Investor Services, LLC at 500 Grant Street, Room 2122, Pittsburgh, Pennsylvania 15219 or from USS. (See "Where You Can Find More Information.")

DELAWARE LAW, OUR CERTIFICATE OF INCORPORATION AND BY-LAWS CONTAIN PROVISIONS THAT MAY HAVE AN ANTI-TAKEOVER EFFECT

Certain provisions of Delaware law and our certificate of incorporation could make more difficult or delay a change in control of USS by means of a tender offer, a proxy contest or otherwise and the removal of incumbent directors. These provisions are intended to discourage certain types of coercive takeover practices and inadequate takeover bids, even though such a transaction may offer our stockholders the opportunity to sell their stock at a price above the prevailing market price. Our board of directors believes that these provisions are appropriate to protect the interests of USS and of its stockholders.

Delaware Law. We are governed by the provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prohibits a public Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years after the date of the transaction in which the person became an interested stockholder, unless:

- before the business combination, the corporation's board of directors approved either the business combination or the transaction that resulted in the stockholder's becoming an interested stockholder;
- upon consummation of the transaction which resulted in the stockholder's becoming an interested stockholder, the stockholder owned at least 85% of the outstanding voting stock of the corporation at the time the transaction commenced, excluding for the purpose of determining the number of shares outstanding those shares owned by the corporation's officers and directors and by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- at or subsequent to the time, the business combination is approved by the corporation's board of directors and authorized at an annual or special meeting of its stockholders, and not by written

29

consent, by the affirmative vote of at least 66 2/3% of its outstanding voting stock that is not owned by the interested stockholder.

A "business combination" includes mergers, asset sales or other transactions resulting in a financial benefit to the stockholder. An "interested stockholder" is a person who, together with affiliates and associates, owns (or within three years did own) 15% or more of the corporation's voting stock.

Certificate of Incorporation and By-Laws. Our certificate of incorporation provides that our board of directors is classified into three classes of directors, each class consisting of approximately one-third of the directors. Directors serve a three-year term, with a different class of directors up for election each year. Under Delaware law, directors of a corporation with a classified board may be removed only for cause unless the corporation's certificate of incorporation provides otherwise. Our certificate of incorporation does not provide otherwise. Board classification could prevent a party who acquires control of a majority of USS' outstanding voting stock from obtaining control of its board of directors until the second annual stockholders' meeting following the date that party obtains that control.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

Our certificate of incorporation also provides that any action required or permitted to be taken by its stockholders must be effected at a duly called annual or special meeting and may not be taken by written consent.

Our by-laws provide that special meetings of stockholders may be called only by the board of directors and not by the stockholders. Our by-laws include advance notice and informational requirements and time limitations on any director nomination or any new proposal that a stockholder wishes to make at a meeting of stockholders. In general, a stockholder's notice of a director nomination or proposal will be timely if delivered or mailed to our Secretary at our principal executive offices not less than 45 days and, in certain situations, 90 days, before the annual meeting or within 10 days following the announcement of the date of the meeting. These provisions may preclude stockholders from bringing matters before a meeting or from making nominations for directors at these meetings.

Our certificate of incorporation and by-laws do not include a provision for cumulative voting for directors. Under cumulative voting, a minority stockholder holding a sufficient percentage of a class of shares may be able to ensure the election of one or more directors.

Our certificate of incorporation provides for the issuance of preferred stock, at the discretion of our board of directors, from time to time, in one or more series, without further action by our stockholders, unless approval of our stockholders is deemed advisable by our board of directors or required by applicable law, regulation or stock exchange listing requirements. In addition, our authorized but unissued shares of our common stock will be available for issuance from time to time at the discretion of our board of directors without the approval of our stockholders, unless such approval is deemed advisable by our board of directors or required by applicable law, regulation or stock exchange listing requirements. One of the effects of the existence of authorized, unissued and unreserved shares of our common stock and preferred stock could be to enable our board of directors to issue shares to persons friendly to current management that could render more difficult or discourage an attempt to obtain control of USS by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of our management. Such additional shares also could be used to dilute the stock ownership of persons seeking to obtain control of USS.

Our certificate of incorporation provides that vacancies in our board of directors may be filled only by the affirmative vote of a majority of the remaining directors. The certificate of incorporation also provides that directors may be removed from office only with cause and only by the affirmative vote of holders of a majority of the shares then entitled to vote at an election of directors. These provisions preclude stockholders from removing directors without cause and filling vacancies with their own nominees.

Our Rights will permit disinterested stockholders to acquire additional shares of USS, or of an acquiring company, at a substantial discount in the event of certain changes in control. See "Description of Capital Stock -- Rights Plan."

Certain provisions described above may have the effect of delaying stockholder actions with respect to certain business combinations. As such, the provisions could have the effect of discouraging open market purchases of our shares of common stock because such provisions may be considered disadvantageous by a stockholder who desires to participate in a business combination.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

LIMITATIONS OF LIABILITY AND INDEMNIFICATION MATTERS

Our certificate of incorporation provides that a director is not personally liable to us or our stockholders for monetary damages for any breach of fiduciary duty as a director, except (1) for breach of the director's duty of loyalty to us and our stockholders, (2) for acts and omissions not in good faith or that involve intentional misconduct or a knowing violation of law, (3) under Section 174 of the Delaware General Corporation Law or (4) for any transaction from which the director derived an improper personal benefit. These provisions of our certificate of incorporation are intended to afford directors protection, and limit their potential liability, to the fullest extent permitted by Delaware law. Because of these provisions, stockholders may be unable to recover monetary damages against directors for actions taken by them that constitute negligence or gross negligence or that are in violation of some of their fiduciary duties. These provisions do not affect a director's responsibilities under any other laws, such as the federal securities laws.

In addition, our By-Laws provide that we will indemnify our directors and officers to the fullest extent permitted by law.

We have obtained directors' and officers' insurance for our directors and officers for specified liabilities.

DESCRIPTION OF DEPOSITARY SHARES

The following briefly summarizes the material provisions of the deposit agreement and of the depositary shares and depositary receipts, other than pricing and related terms disclosed for a particular issuance in an accompanying prospectus supplement. You should read the particular terms of any depositary shares and any depositary receipts that we offer and any deposit agreement relating to a particular series of preferred stock which will be described in more detail in a prospectus supplement. The prospectus supplement will also state whether any of the generalized provisions summarized below do not apply to the depositary shares or depositary receipts being offered. A copy of the form of deposit agreement, including the form of depositary receipt, is incorporated by reference as an exhibit in the registration statement of which this prospectus forms a part. You can obtain copies of these documents by following the directions on page ii. You should read the more detailed provisions of the deposit agreement and the form of depositary receipt for provisions that may be important to you.

GENERAL

USS may, at its option, elect to offer fractional shares of preferred stock, rather than full shares of preferred stock. In such event, we will issue receipts for depositary shares, each of which will represent a fraction of a share of a particular series of preferred stock.

The shares of any series of preferred stock represented by depositary shares will be deposited under a deposit agreement between USS and a bank or trust company selected by USS having its principal office in the United States and having a combined capital and surplus of at least \$50 million, as preferred stock depositary. Each owner of a depositary share will be entitled to all the rights and preferences of the underlying preferred stock, including dividend, voting, redemption, conversion and liquidation rights, in proportion to the applicable fraction of a share of preferred stock represented by such depositary share.

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional shares of preferred stock in accordance with the terms of the applicable prospectus supplement.

DIVIDENDS AND OTHER DISTRIBUTIONS

The preferred stock depositary will distribute all cash dividends or other cash distributions received in respect of the deposited preferred stock to the record holders of depositary shares relating to such preferred stock in proportion to the number of such depositary shares owned by such holders.

The preferred stock depositary will distribute any property received by it other than cash to the record holders of depositary shares entitled thereto. If the preferred stock depositary determines that it is not feasible to make such distribution, it may, with the approval of USS, sell such property and distribute the net proceeds from such sale to such holders.

REDEMPTION OF PREFERRED STOCK

If a series of preferred stock represented by depositary shares is to be redeemed, the depositary shares will be redeemed from the proceeds received by the preferred stock depositary resulting from the redemption, in whole or in part, of such series of preferred stock. The depositary shares will be redeemed by the preferred stock depositary at a price per depositary share equal to the applicable fraction of the redemption price per share payable in respect of the shares of preferred stock so redeemed.

Whenever USS redeems shares of preferred stock held by the preferred stock depositary, the preferred stock depositary will redeem as of the same date the number of depositary shares representing shares of preferred stock so redeemed. If fewer than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by the preferred stock depositary by lot or ratably as the preferred stock depositary may decide.

VOTING DEPOSITED PREFERRED STOCK

Upon receipt of notice of any meeting at which the holders of any series of deposited preferred stock are entitled to vote, the preferred stock depositary will mail the information contained in such notice of meeting to the record holders of the depositary shares relating to such series of preferred stock. Each record holder of such depositary shares on the record date will be entitled to instruct the preferred stock depositary to vote the amount of the preferred stock represented by such holder's depositary shares. The preferred stock depositary will try to vote the amount of such series of preferred stock represented by such depositary shares in accordance with such instructions.

USS will agree to take all actions that the preferred stock depositary determines are necessary to enable the preferred stock depositary to vote as instructed. The preferred stock depositary will abstain from voting shares of any series of preferred stock held by it for which it does not receive specific instructions from the holders of depositary shares representing such shares.

AMENDMENT AND TERMINATION OF THE DEPOSIT AGREEMENT

The form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement may at any time be amended by agreement between USS and the preferred stock depositary. However, any amendment that materially and adversely alters any existing right of the holders of depositary shares (other than certain changes in the fees of the preferred stock depositary) will not be effective unless such amendment has been approved by the holders of at least a majority of the depositary shares then outstanding. Every holder of an outstanding depositary receipt at the time any such amendment

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

becomes effective shall be deemed, by continuing to hold such depositary receipt, to consent and agree to such amendment and to be bound by the deposit agreement, as amended thereby. The deposit agreement may be terminated only if:

- all outstanding depositary shares have been redeemed; or
- a final distribution in respect of the preferred stock has been made to the holders of depositary shares in connection with any liquidation, dissolution or winding up of USS.

32

CHARGES OF PREFERRED STOCK DEPOSITARY, TAXES AND OTHER GOVERNMENT CHARGES

USS will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. USS also will pay charges of the depositary in connection with the initial deposit of preferred stock and any redemption of preferred stock. Holders of depositary receipts will pay other transfer and other taxes and governmental charges and such other charges, including a fee for the withdrawal of shares of preferred stock upon surrender of depositary receipts, as are expressly provided in the deposit agreement to be for their accounts.

APPOINTMENT, RESIGNATION AND REMOVAL OF DEPOSITARY

The preferred stock depositary will be appointed by USS. The preferred stock depositary may resign at any time by delivering to USS notice of its intent to do so and USS may at any time remove the preferred stock depositary, any such resignation or removal to take effect upon the appointment of a successor preferred stock depositary and its acceptance of such appointment. Such successor preferred stock depositary must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50 million.

MISCELLANEOUS

USS will transmit to the record holders of depositary shares all notices and reports that USS is required to furnish to the holders of the depositary shares.

Neither the preferred stock depositary nor USS will be liable under the deposit agreement other than for its negligence or willful misconduct. The preferred stock depositary and USS will not be obligated to prosecute or defend any legal proceeding in respect of any depositary shares, depositary receipts or shares of preferred stock unless satisfactory indemnity is furnished. USS and the preferred stock depositary may rely upon written advice of counsel or accountants, or upon information provided by holders of depositary receipts or other persons believed to be competent and on documents believed to be genuine. The preferred stock depositary will not be responsible for any failure to carry out any instruction to vote any shares of preferred stock, as long as that action or non-action is in good faith.

33

DESCRIPTION OF WARRANTS

USS may issue Warrants for the purchase of Debt Securities, preferred stock or common stock (each a "USS Security," and together the "USS Securities"). Warrants may be issued independently or together with any USS Security offered

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

by any prospectus supplement and may be attached to or separate from any such USS Security. Each series of Warrants will be issued under a separate warrant agreement (a "Warrant Agreement") to be entered into between USS and a bank or trust company, as warrant agent (the "Warrant Agent"). The Warrant Agent will act solely as an agent of USS in connection with the Warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of Warrants. The following summary of certain provisions of the Warrants does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Warrant Agreement that will be filed with the SEC in connection with the offering of such Warrants.

DEBT WARRANTS

The prospectus supplement relating to a particular issue of Warrants to issue Debt Securities ("Debt Warrants") will describe the terms of such Debt Warrants, including the following (if applicable): (a) the title of such Debt Warrants; (b) the offering price for such Debt Warrants; (c) the aggregate number of such Debt Warrants; (d) the designation and terms of the Debt Securities purchasable upon exercise of such Debt Warrants; (e) the designation and terms of the Debt Securities with which such Debt Warrants are issued and the number of such Debt Warrants issued with each such Debt Security; (f) the date from and after which such Debt Warrants and any Debt Securities issued therewith will be separately transferable; (g) the principal amount of Debt Securities purchasable upon exercise of a Debt Warrant and the price at which such principal amount of Debt Securities may be purchased upon exercise (which price may be payable in cash, securities, or other property); (h) the date on which the right to exercise such Debt Warrants shall commence and the date on which such right shall expire; (i) the minimum or maximum amount of such Debt Warrants that may be exercised at any one time; (j) whether the Debt Warrants represented by the Debt Warrant certificates, or Debt Securities that may be issued upon exercise of the Debt Warrants, will be issued in registered or bearer form; (k) information with respect to book-entry procedures; (l) the currency or currency units in which the offering price and the exercise price are payable; (m) a discussion of material United States federal income tax considerations; (n) the redemption or call provisions applicable to such Debt Warrants; and (o) any additional terms of the Debt Warrants, including terms, procedures, and limitations relating to the exchange and exercise of such Debt Warrants.

STOCK WARRANTS

The prospectus supplement relating to any particular issue of Warrants to issue preferred stock, depositary shares representing fractional shares of preferred stock or common stock will describe the terms of such Warrants, including the following (if applicable): (a) the title of such Warrants; (b) the offering price for such Warrants; (c) the aggregate number of such Warrants; (d) the designation and terms of the preferred stock or common stock purchasable upon exercise of such Warrants; (e) the designation and terms of the USS Securities with which such Warrants are issued and the number of such Warrants issued with each such USS Security; (f) the date from and after which such Warrants and any USS Securities issued therewith will be separately transferable; (g) the number of shares of preferred stock or common stock purchasable upon exercise of a Warrant and the price at which such shares may be purchased upon exercise; (h) the date on which the right to exercise such Warrants shall commence and the date on which such right shall expire; (i) the minimum or maximum amount of such Warrants that may be exercised at any one time; (j) the currency or currency units in which the offering price and the exercise price are payable; (k) a discussion of material United States federal income tax considerations; (l) the antidilution provisions of such Warrants; (m) the redemption or call provisions applicable to such Warrants; and (n) any additional terms of the Warrants, including terms, procedures, and limitations relating to the exchange and exercise of such Warrants.

DESCRIPTION OF CONVERTIBLE OR EXCHANGEABLE SECURITIES

If any Debt Security, Preferred Stock, depositary shares representing fractional shares of preferred stock or Warrant is converted or exchanged into any other security the conversion or exchange terms thereof will be set forth in the Prospectus Supplement issued for the sale of such convertible or exchangeable security. These terms will include some or all of the terms described for Warrants.

DESCRIPTION OF STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

USS may issue stock purchase contracts, including contracts obligating holders to purchase from us, and us to sell to holders, a specified number of shares of common stock at a future date or dates. The consideration per share of common stock may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula described in the stock purchase contracts. USS may issue the stock purchase contracts separately or as a part of stock purchase units consisting of a stock purchase contract and one or more shares of our preferred stock or debt securities or debt obligations of third parties (including U.S. Treasury securities) securing the holders' obligations to purchase the shares of common stock under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of stock purchase units or vice-versa. These payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations in a specified manner. The applicable prospectus supplement will describe the specific terms of any stock purchase contracts or stock purchase units.

PLAN OF DISTRIBUTION

We may offer the offered securities in one or more of the following ways from time to time:

- to or through underwriting syndicates represented by managing underwriters;
- through one or more underwriters without a syndicate for them to offer and sell to the public;
- through dealers or agents;
- to investors directly in negotiated sales or in competitively bid transactions; or
- to holders of other securities in exchanges in connection with acquisitions;

The prospectus supplement for each series of securities we sell will describe the offering, including:

- the name or names of any underwriters;
- the purchase price and the proceeds to us from that sale;
- any underwriting discounts and other items constituting underwriters' compensation, which in the aggregate will not exceed eight percent of the gross proceeds of the offering;

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

- any commissions paid to agents;
- the initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchanges on which the securities may be listed.

UNDERWRITERS

If underwriters are used in a sale, we will execute an underwriting agreement with them regarding those securities. Unless otherwise described in the prospectus supplement, the obligations of the underwriters to purchase these securities will be subject to conditions, and the underwriters must purchase all of these securities if any are purchased.

The securities subject to the underwriting agreement may be acquired by the underwriters for their own account and may be resold by them from time to time in one or more transactions, including

35

negotiated transactions, at a fixed offering price or at varying prices determined at the time of sale. Underwriters may be deemed to have received compensation from us in the form of underwriting discounts or commissions and may also receive commissions from the purchasers of these securities for whom they may act as agent. Underwriters may sell these securities to or through dealers. These dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent. Any initial offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

We may authorize underwriters to solicit offers by institutions to purchase the securities subject to the underwriting agreement from us, at the public offering price stated in the prospectus supplement under delayed delivery contracts providing for payment and delivery on a specified date in the future. If we sell securities under these delayed delivery contracts, the prospectus supplement will state that this is the case and will describe the conditions to which these delayed delivery contracts will be subject and the commissions payable for that solicitation.

In connection with underwritten offerings of the securities, the underwriters may engage in over-allotment, stabilizing transactions, covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934, as follows:

- Over-allotment involves sales in excess of the offering size, which creates a short position for the underwriters.
- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Covering transactions involve purchases of the securities in the open market after the distribution has been completed in order to cover short positions.
- Penalty bids permit the underwriters to reclaim a selling concession from a broker/dealer when the securities originally sold by that broker/dealer are repurchased in a covering transaction to cover short positions.

These stabilizing transactions, covering transactions and penalty bids may cause the price of the securities to be higher than it would otherwise be in the

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

absence of these transactions. If these transactions occur, they may be discontinued at any time.

AGENTS

We may also sell any of the securities through agents designated by us from time to time. We will name any agent involved in the offer or sale of these securities and will list commissions payable by us to these agents in the prospectus supplement. These agents will be acting on a best efforts basis to solicit purchases for the period of its appointment, unless we state otherwise in the prospectus supplement.

DIRECT SALES

We may sell any of the securities directly to purchasers. In this case, we will not engage underwriters or agents in the offer and sale of these securities.

In addition, debt securities or shares of common stock or preferred stock may be issued upon the exercise of warrants.

INDEMNIFICATION

We may indemnify underwriters, dealers or agents who participate in the distribution of securities against certain liabilities, including liabilities under the Securities Act of 1933, and may agree to contribute to payments that these underwriters, dealers or agents may be required to make.

36

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 14. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION.

Securities and Exchange Commission filing fee.....	\$ 55,200
Costs of printing and engraving.....	90,000
Accounting fees and expenses.....	55,000
Miscellaneous expenses.....	20,000

Total.....	\$220,200
	=====

All of these foregoing expenses are estimated except for the Securities and Exchange Commission filing fee.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Article V of the Corporation's By-Laws provides that the Corporation shall indemnify to the fullest extent permitted by law any person who is made or is threatened to be made a party or is involved in any action, suit, or proceeding whether civil, criminal, administrative or investigative by reason of the fact that he is or was a director, officer, employee or agent of the Corporation or is or was serving at the request of the Corporation as an officer, director, employee or agent of another corporation, partnership, joint venture, trust, enterprise, or nonprofit entity.

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

The Corporation is empowered by Section 145 of the Delaware General Corporation Law, subject to the procedures and limitations stated therein, to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Corporation) by reason of the fact that such person is or was an officer, employee, agent or director of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The Corporation may indemnify any such person against expenses (including attorneys' fees) in an action by or in the right of the Corporation under the same conditions, except that no indemnification is permitted without judicial approval if such person is adjudged to be liable to the Corporation. To the extent a director or officer is successful on the merits or otherwise in the defense of any action referred to above, the Corporation must indemnify him against the expenses that he actually and reasonably incurred in connection therewith.

Policies of insurance are maintained by the Corporation under which directors and officers of the Corporation are insured, within the limits and subject to the limitations of the policies, against certain expenses in connection with the defense of actions, suits or proceedings, and certain liabilities which might be imposed as a result of such actions, suits or proceedings, to which they are parties by reason of being or having been such directors or officers.

The Corporation's Certificate of Incorporation provides that no director shall be personally liable to the Corporation or its stockholders for monetary damages for any breach of fiduciary duty by such director as a director, except (i) for breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the Delaware General Corporation Law, or (iv) for any transaction from which the director derived an improper personal benefit.

II-1

ITEM 16. LIST OF EXHIBITS.

See Exhibit Index.

ITEM 17. UNDERTAKINGS.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any

Edgar Filing: UNITED STATES STEEL CORP - Form S-3/A

increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table on the cover of this registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) USS hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of USS' annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of USS pursuant to the foregoing provisions, or otherwise, USS has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by USS of expenses incurred or paid by a director, officer or controlling person of USS in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, USS will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
