Prospectus

## Mesa Air Group, Inc.

**\$171,409,000**

**Senior Convertible Notes due 2024**

**and**

**6,920,415 Shares of Common Stock**

**Issuable upon conversion thereof**

### **The Notes**

We issued up to an aggregate of \$171,409,000 Senior Convertible Notes due 2024. This prospectus covers resales by holders of the notes and shares of common stock into which the notes are convertible. We will not receive any proceeds from the resale of the notes or the underlying shares of common stock. Interest on the notes is payable semiannually in arrears in cash on February 10 and August 10 of each year at the rate of 2.115% per year on the principal amount at maturity, beginning August 10, 2004, until February 10, 2009. After that date, we will not pay cash interest on the notes prior to maturity. Instead, on February 10, 2024, the maturity date of the notes, a holder will receive \$1,000 per note. The rate of accrual of original issue discount represents a yield to maturity of 3.625% per year, computed on a semiannual bond equivalent basis and calculated from February 10, 2009. The notes are senior unsecured obligations and will rank equally with our existing and future senior unsecured and unsubordinated indebtedness. Each of our wholly-owned domestic subsidiaries, including any person that becomes a wholly-owned domestic subsidiary, guarantees the notes on an unsecured senior basis. Any non-domestic subsidiary and any non-wholly-owned domestic subsidiary will be required to guarantee the notes only so long as such subsidiary guarantees other indebtedness of ours, except MAGI Insurance, Ltd., which has agreed to guarantee the notes.

### **Convertibility of the Notes:**

Holder may convert their notes into 40.3737 shares of our common stock, subject to adjustment, only if (1) the sale price of our common stock reaches, or the trading price of the notes falls below, specified thresholds, (2) the notes are called for redemption, or (3) specified corporate transactions have occurred. Upon conversion, we will have the right to deliver, in lieu of our common stock, cash or a combination of cash and common stock in an amount described herein. Our common stock currently trades on the Nasdaq National Market under the symbol MESA. On July 16, 2004, the last reported closing sale price of our common stock on the Nasdaq National Market was \$6.83 per share. We will apply to list the shares issuable upon conversion of the notes on the Nasdaq National Market. For a description of certain federal income tax consequences to the holders of the notes, see Certain Federal Income Tax Consequences.

### **Purchase of the Notes by the Company at the Option of the Holder:**

Holder may require us to purchase all or a portion of their notes on February 10, 2009 at a price of \$583.40 per note plus accrued cash interest, if any, on February 10, 2014 at a price of \$698.20 per note plus accrued cash interest, if any, and on February 10, 2019 at a price of \$835.58 per note plus accrued cash interest, if any. We may choose to pay the purchase price of such notes in cash or common stock or a combination of cash and common stock. In addition, if a change of control of our company occurs, each holder may require us to purchase for cash all or a portion of such holder's notes at a price equal to the sum of the issue price plus accrued original issue discount and accrued cash interest, if any, to the date of purchase.

### **Redemption of the Notes at Our Option:**

We may redeem for cash all or a portion of the notes at any time on or after February 10, 2009, at a price equal to the sum of the issue price plus accrued original issue discount and accrued cash interest, if any, to the redemption date.

---

## Edgar Filing: MESA AIR GROUP INC - Form 424B3

The notes were originally issued by us in a private placement on February 10, 2004 to the initial purchasers and were simultaneously sold by the initial purchasers in transactions exempt from registration under the Securities Act, in the United States to persons reasonably believed to be qualified institutional buyers as defined in Rule 144A under the Securities Act.

Prior to this offering, the notes have been eligible for trading on the PORTAL Market of the Nasdaq Stock Market. The notes sold by means of this prospectus are not expected to remain eligible for trading on the PORTAL Market. We do not intend to list the notes for trading on any national securities exchange or on the Nasdaq National Market.

The selling securityholders may offer the notes or the shares of common stock issuable upon conversion of the notes from time to time to purchasers directly or through underwriters, dealers or agents. Such notes or the underlying common shares may be sold at market prices prevailing at the time of sale or at negotiated prices. Each selling securityholder will be responsible for payment of any and all commissions to brokers, which will be negotiated on an individual basis.

We will pay the expenses of preparing and filing the registration statement to which this prospectus relates and all post-effective amendments. See Plan of Distribution for a description of the indemnification arrangements between us and the selling securityholders.

### **Consider carefully the risk factors beginning on page 7 of this prospectus before investing.**

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Neither the fact that a registration statement or an application for a license has been filed under Chapter 421-B of the New Hampshire Revised Statutes Annotated, 1955, as amended ( RSA ) with the state of New Hampshire nor the fact that a security is effectively registered or a person is licensed in the state of New Hampshire constitutes a finding by the secretary of state that any document filed under RSA 421-B is true, complete and not misleading. Neither any such fact nor the fact that an exemption or exception is available for a security or a transaction means that the secretary of state has passed in any way upon the merits or qualifications of, or recommended or given approval to, any person, security or transaction. It is unlawful to make, or cause to be made, to any prospective purchaser, customer or client any representation inconsistent with the provisions of this paragraph.

The date of this prospectus is August 3, 2004.

**WHERE YOU CAN FIND MORE INFORMATION**

We file annual, quarterly and special reports, proxy statements and other information with the SEC under the Securities Exchange Act of 1934, as amended. You may read and copy this information at the following location of the SEC:

Public Reference Room  
450 Fifth Street, N.W.  
Room 1024  
Washington, D.C. 20549  
1-800-SEC-0330

You may also obtain copies of this information by mail from the Public Reference Section of the SEC, 450 Fifth Street, N.W., Room 1024, Washington, DC 20549, at prescribed rates.

The SEC also maintains an Internet web site that contains reports, proxy statements and other information about issuers that file electronically with the SEC. The address of that site is [www.sec.gov](http://www.sec.gov).

This prospectus is a part of a registration statement on Form S-3 that we are filing with the SEC, but the registration statement includes additional information and also attaches exhibits that are referenced in this prospectus.

**INCORPORATION OF CERTAIN INFORMATION BY REFERENCE**

We are incorporating by reference into this prospectus certain information we file with the SEC, which means that we are disclosing important information to you by referring you to those documents. The information incorporated by reference is deemed to be part of this prospectus, except for any information superseded by information contained directly in this prospectus. This prospectus incorporates by reference our:

our annual report on Form 10-K for the fiscal year ended September 30, 2003, as amended by our Form 10-K/ A filed with the SEC on January 5, 2004 and our Form 10-K/ A filed with the SEC on May 7, 2004;

our proxy statement relating to our 2004 annual meeting of shareholders;

## Edgar Filing: MESA AIR GROUP INC - Form 424B3

our quarterly report on Form 10-Q for the quarter ended December 31, 2003, as amended by our Form 10-Q/ A filed with the SEC on May 7, 2004;

our quarterly report on Form 10-Q for the quarter ended March 31, 2004;

our current reports on Form 8-K filed with the SEC on November 13, 2003, November 26, 2003, December 2, 2003, December 12, 2003, December 23, 2003, January 30, 2004, February 5, 2004 and May 3, 2004; and

the description of our common stock set forth in our Registration Statement on Form 8-A filed on March 16, 1987, including any amendments or reports filed for the purpose of updating such description.

All documents we file with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 from the date of this prospectus to the end of the offering of the notes and common stock under this document shall also be deemed to be incorporated herein by reference and will automatically update information in this prospectus.

You may request a copy of these filings, at no cost, by writing or calling us at the following address or telephone number:

Corporate Secretary  
Mesa Air Group, Inc.  
410 North 44th Street, Suite 700  
Phoenix, Arizona 85008  
(602) 685-4000

Exhibits to the filings will not be sent, however, unless those exhibits have specifically been incorporated by reference in this document.

Any statements contained in a document incorporated by reference in this prospectus shall be deemed to be modified or superseded for purposes of this prospectus to the extent that a statement contained in this prospectus (or in any other subsequently filed document which also is incorporated by reference in this prospectus) modifies or supersedes such statement. Any statement so modified or superseded shall not be deemed to constitute a part of this prospectus except as so modified or superseded.

### **Important Notice About the Information Presented In This Prospectus**

You should rely only on the information provided in this prospectus and the information incorporated by reference. We have not authorized anyone to provide you with different information. The selling securityholders are not offering to sell, or seeking offers to buy, the notes or underlying shares in any state where offers or sales are not permitted. We do not claim the accuracy of the information in this prospectus as of any date other than the date stated on the cover.

### **SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus and the documents we incorporate by reference contain certain forward-looking statements that involve a number of risks and uncertainties. These statements include, without limitation, information regarding the replacement, deployment, acquisition and financing of certain numbers and types of aircraft, and projected expenses associated therewith; costs of compliance with Federal Aviation Administration regulations and other rules and acts of Congress; the ability to pass taxes, fuel costs, inflation, and various expenses to our customers; the resolution of litigation in a favorable manner; and certain projected financial obligations. These statements, in addition to statements made in conjunction with the words expect, anticipate, intend, plan, believe, seek, estimate, and similar expressions, are forward-looking statements within the meaning of the Safe Harbor provision of Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to future events or our future financial performance

## Edgar Filing: MESA AIR GROUP INC - Form 424B3

and only reflect management's expectations and estimates. The following is a list of factors, among others, that could cause actual results to differ materially from the forward-looking statements:

- changing business conditions in certain market segments and industries;
- changes in our code-share relationships;
- the inability of our code-share partners to pay their respective obligations under the revenue-guarantee code-share agreements;
- an increase in competition along the routes we operate or plan to operate;
- material delays in completion by the manufacturer of the ordered and yet-to-be delivered aircraft;
- our ability to profitably manage our turboprop fleet;
- adverse reaction and publicity that might result from any future aircraft accident;
- availability and cost of funds for financing new aircraft;
- changes in general and/or regional economic conditions;
- changes in fuel price or fuel supplies;
- our relationship with employees and the terms of future collective bargaining agreements;
- the impact of current and future laws;
- additional terrorist attacks;
- Congressional investigations and governmental regulations affecting the airline industry and our operations;
- bureaucratic delays;
- amendments to existing legislation;
- consumer unwillingness to incur greater costs for flights;
- unfavorable resolution of negotiations with municipalities for the leasing of facilities; and
- risks associated with litigation outcomes.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, after the date of this prospectus to conform them to actual results. We do not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed under the caption "Risk Factors."

We caution the reader that these risk factors may not be exhaustive. We operate in a continually changing business environment, and new risk factors emerge from time to time. Management cannot predict such new risk factors, nor can it assess the impact, if any, of such new risk factors on our businesses or the extent to which any factor or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this prospectus and the documents we incorporate by reference might not occur.

## Edgar Filing: MESA AIR GROUP INC - Form 424B3

For these statements, we claim the protection of the safe harbor for forward-looking statements contained in Section 21E of the Securities Act.

You should carefully read this prospectus and the documents incorporated by reference in their entirety. They contain information that you should consider when making your investment decision.

**PROSPECTUS SUMMARY**

*This summary highlights selected information from this prospectus and does not contain all of the information that you need to consider in making your investment decision. You should read the entire prospectus, including the risks of investing discussed under Risk Factors beginning on page 7 and the following summary together with the more detailed information regarding our company, the notes, our financial statements and the notes to those statements and the other documents incorporated by reference in this prospectus, and the exhibits to the registration statement of which this prospectus is a part.*

*References in this prospectus to Mesa Air, the Company, we, us, and our, refer to Mesa Air Group, Inc. and its subsidiaries, unless otherwise specified.*

**Mesa Air Group, Inc.**

Mesa Air Group, Inc., together with its subsidiaries, is an independently owned regional airline serving 160 cities in 42 states, Canada, Mexico and the Bahamas. At March 31, 2004, we operated a fleet of 164 aircraft and had over 1,000 daily departures.

Approximately 98% and 99% of our consolidated passenger revenues for the fiscal year ended September 30, 2003 and the six months ended March 31, 2004, respectively, were derived from operations associated with code-share agreements. Our subsidiaries have code-share agreements with America West Airlines, Inc., Frontier Airlines, Inc., Midwest Airlines, Inc., United Airlines, Inc. and US Airways, Inc. These code-share agreements allow use of the code-share partner's reservation system and flight designator code to identify flights and fares in computer reservation systems, permit use of logos, service marks, aircraft paint schemes and uniforms similar to the code-share partners and provide coordinated schedules and joint advertising. The financial arrangement between us and our code-share partners involves either a revenue-guarantee or pro-rate arrangement. Under the terms of our revenue-guarantee flying agreements, we receive a guaranteed payment based upon a fixed minimum monthly amount plus additional amounts related to departures and block hours flown in addition to direct reimbursement for expenses such as fuel, landing fees and insurance. Revenue-guarantee arrangements reduce our exposure to fluctuations in passenger traffic and fare levels, as well as fuel prices. Under the terms of our pro-rate agreements, we receive an allocated portion of the passengers' fares and are at risk for all of the costs of transporting the passengers. For the 2003 fiscal year and the six months ended March 31, 2004, 86% and 92% of our consolidated passenger revenues, respectively, were derived from our revenue-guarantee code-share agreements.

Our airline operations are conducted by three wholly-owned regional airline subsidiaries:

Mesa Airlines, Inc. operates regional jet and turbo prop aircraft as America West Express under a code-share agreement with America West, primarily at America West's operations hub located in Phoenix; as US Airways Express under a code-share agreement with US Airways, primarily at US Airways' hubs on the East Coast; and as United Express under a code-share agreement with United Airlines, primarily in Denver, Chicago and Los Angeles.

Air Midwest, Inc. operates Beechcraft 1900D 19-seat turbo prop aircraft as US Airways Express under separate code-share agreements with US Airways, at certain US Airways' hubs on the East Coast as well as in Kansas City and as America West Express in Phoenix. Air Midwest's flights in Kansas City code-share with both Midwest Airlines and US Airways. Air Midwest also operates as Mesa Airlines in Albuquerque, New Mexico and in select Essential Air Service markets. The Albuquerque flights and certain Essential Air Service markets are Independent Operations and are not subject to a code-sharing agreement with a major carrier.

Freedom Airlines, Inc. operates CRJ-900 aircraft as America West Express pursuant to our code-share agreement at America West. Freedom Airlines began revenue flight operations in October 2002.

In addition to carrying passengers, we carry freight and express packages on our passenger flights and have interline small cargo freight agreements with many other carriers. We also have contracts with the U.S. Postal Service for carriage of mail to the cities we serve and occasionally operate charter flights when our aircraft are not otherwise used for scheduled service.

### Recent Developments

In June 2004, we entered into a ten year agreement with LogisTechs Inc., an affiliate of GE Capital Aviation Services, for the sale, repair and management of our CRJ-200 aircraft spare parts inventory. Under the terms of the agreement, LogisTechs will purchase approximately \$25 million in existing and future spare parts inventory from us to support our CRJ-200 fleet growth. LogisTechs will also provide asset management planning and support for our spare part operational requirements and Rockwell Collins will manage associated program repairs through Collins Aviation Services. The agreement covers all of our CRJ-200 regional jets.

On March 31, 2004, the Company terminated early the leases of seven B1900 aircraft with lease expirations between December 2004 and September 2005. The Company has negotiated the terms of the early return with each of the aircraft lessors and has taken a charge for the costs of terminating the leases.

On February 10, 2004, we completed the offering of the \$100 million issue price of 3.625% Senior Convertible Notes due 2024, which are the subject of this prospectus, to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. The aggregate amount due at maturity, including accrued interest, will be \$171.4 million.

In February 2004, the Company's Air Midwest subsidiary was awarded an annual subsidy of \$1.3 million by the US Department of Transportation to provide essential air service to the communities of Manhattan and Salina, Kansas, as well as Lewisburg, West Virginia.

On January 30, 2004, we amended our agreement with US Airways to expand our regional jet agreement with them by adding eight 50-seat regional jets to our existing US Airways Express fleet. This amendment increases the number of regional jets under contract with US Airways to 67. As of February 1, 2004, Mesa has 57 of the 50-seat regional jet aircraft in service with US Airways.

On January 28, 2004, we entered into an Amended and Restated United Express Agreement United Airlines to operate regional jets as a United Express carrier, significantly expanding our code-share agreement with United. The amended code-share agreement provides for us to increase our fleet to 30 70-seat regional aircraft (15 of which would be replacements for 15 CRJ-200s), 15 CRJ-200s and 10 Dash-8 aircraft. United also has the option to add an additional 25 regional jets, the timing and mix to be determined at a later date. As of December 31, 2003, we operated eight CRJ-700, and six Dash-8 aircraft for United under this code-share agreement. The code-share agreement for (i) the ten Dash-8 aircraft terminates in July 2013 unless terminated earlier by United by giving notice six months prior to the fifth anniversary, (ii) the 15 50-seat CRJ-200s terminates in July 2008, which can be accelerated up to two years at our discretion, (iii) the 15 70-seat regional jets (to be delivered upon the withdrawal of the 50-seat regional jets) terminates ten years from delivery date, and (iv) the remaining 15 70-seat regional jets terminates in three tranches between December 31, 2011 and December 31, 2013.

In January 2004, the Company permanently financed five CRJ-700 and four CRJ-900 aircraft with \$207.5 million in debt. In March, two additional CRJ-900 aircraft were also financed with \$47.2 million in debt. The debt bears interest at the monthly LIBOR plus three percent and requires monthly principal and interest payments. These aircraft were on interim financing.

On December 19, 2003, we acquired the assets of the bankrupt Midway Airlines Corporation for \$9.2 million. Assets acquired included two owned CRJ aircraft, all of Midway's CRJ spare parts and support equipment, all aircraft landing and/or takeoff slots at New York LaGuardia and Washington National airports, and all related acquisition materials associated with the operation of Midway's CRJ operations. We also assumed the leases on six CRJ aircraft and Midway's right to three additional leased aircraft. We are utilizing the aircraft to meet our contractual obligations with our airline partners.

---

We were incorporated in Nevada in 1996, and our principal executive offices are located at 410 North 44th Street, Suite 700, Phoenix, Arizona 85008. Our telephone number is (602) 685-4000. Our website address is [www.mesa-air.com](http://www.mesa-air.com). Information on our website does not constitute part of this prospectus.

**The Notes**

|                            |  |
|----------------------------|--|
| Notes                      | \$171,409,000 aggregate principal amount at maturity of Senior Convertible Notes due 2024. Each note was issued at a price of \$583.40 per note and has a principal amount at maturity of \$1,000.   |
| Maturity                   | February 10, 2024.   |
| Cash interest              | 2.115% per year on the principal amount at maturity, payable semiannually in arrears in cash on February 10 and August 10 of each year, beginning August 10, 2004, until February 10, 2009. This cash interest will be taxable to holders as part of the original issue discount for United States federal income tax purposes and accordingly, is taxed to a holder as it accrues regardless of the holder's method of tax accounting. However, a holder will not recognize any income upon the actual payment of such cash interest. See Certain United States Federal Income Tax Considerations.  |
| Yield-to-maturity of notes | 3.625% per year, computed on a semiannual bond equivalent basis and calculated from February 10, 2009.   |
| Original issue discount    | We offered our notes at an issue price significantly below the principal amount at maturity of the notes. As a result, the notes will be treated as issued with original issue discount, which will accrue daily at a rate of 3.625% per year calculated on a semiannual bond equivalent basis using a 360-day year comprised of twelve 30-day months. For United States federal income tax purposes, U.S. holders will be required to include original issue discount in their gross income as it accrues regardless of their method of tax accounting. See Certain United States Federal Income Tax Considerations.  |
| Conversion rights          | <p>For each note surrendered for conversion, if the conditions for conversion are satisfied, a holder will receive 40.3737 shares of our common stock at an initial conversion rate of 40.3737 shares, subject to adjustment. In lieu of delivering shares of our common stock upon conversion of all or any portion of our notes, we may elect to pay holders surrendering notes cash or a combination of cash and shares of our common stock for the notes surrendered. If we elect to pay holders cash for their notes, the payment will be based on the average sale price of our common stock for the five consecutive trading days immediately following either:</p> <ul style="list-style-type: none"> <li>the date of our notice of our election to deliver cash, which we must give within two business days after receiving a conversion notice, unless we have earlier given notice of redemption as described in this prospectus; or</li> <li>the conversion date, if we have given notice of redemption specifying that we intend to deliver cash upon conversion thereafter.</li> </ul> <p>The conversion rate may be adjusted for certain reasons, but will not be adjusted for accrued original issue discount, cash interest or interest payable upon the occurrence of a tax event. Upon conversion, a holder will not receive any cash payment representing</p> |

accrued original issue discount or any accrued cash interest. Instead, accrued original issue discount or accrued cash interest will be deemed paid by the shares of common stock received by the holder on conversion.

Holders may surrender notes for conversion into shares of our common stock beginning in any fiscal quarter commencing after March 31, 2004, if, as of the last day of the preceding fiscal quarter, the closing sale price of our common stock for at least 20 trading days in a period of 30 consecutive trading days ending on the last trading day of such preceding fiscal quarter is more than 110% of the accreted conversion price per share of common stock on the last day of such preceding fiscal quarter. If the foregoing condition is satisfied, then the notes will be convertible at any time at the option of the holder, through maturity. The accreted conversion price per share as of any day will equal the issue price of a note plus accrued original issue discount to that day, divided by the conversion rate, subject to any adjustments to the conversion rate through that day. The conversion rate is calculated by dividing the original issue price by \$14.45.

On or before February 10, 2019, a holder also may convert its notes into shares of our common stock at any time after a 10 consecutive trading-day period in which the average of the trading prices for the notes for that 10 trading-day period was less than 103% of the average conversion value for the notes during that period. Conversion value is equal to the product of the closing sale price for our shares of common stock on a given day multiplied by the then current conversion rate.

At March 31, 2004, the conversion features had not been met and therefore the dilutive effect of the notes was not included in the determination of earnings per share. Diluted income per common share totaled \$0.05 and \$0.18 for the three and six months ended March 31, 2004, respectively. Diluted income per common share would be \$0.05 and \$0.16, respectively for the three and six months ended March 31, 2004 if the dilutive effect of the notes were to be included in the computation of income per common share at the date of the issuance of the notes.

Notes or portions of notes in integral multiples of \$1,000 principal amount at maturity called for redemption may be surrendered for conversion until the close of business on the second business day prior to the redemption date. In addition, if we make a distribution to our stockholders with a per share value of more than 15% of the sale price of our common stock on the date immediately preceding the declaration of such distribution, or if we are a party to certain consolidations, mergers or binding share exchanges, in addition to any adjustment to the conversion rate as a result of a distribution, consolidation, merger or exchange, notes may be surrendered for conversion, as provided in

Description of the Notes Conversion Rights. The ability to surrender notes for conversion will expire at the close of business on February 10, 2024.

|                                   |  |
|-----------------------------------|--|
| Ranking                           | <p>The notes are senior unsecured obligations and rank equal in right of payment to all of our other unsecured and unsubordinated indebtedness. The notes are effectively subordinated to our secured indebtedness to the extent of the security.</p> <p>As of March 31, 2004, we had \$605.7 million of senior indebtedness outstanding, which consisted of \$253.9 million of notes payable related to 11 of our CRJ-700 and CRJ-900 aircraft, \$25.3 million of notes payable on interim financing of regional jets, \$97.5 million of notes payable related to our fleet of Beechcraft 1900D turboprop aircraft, \$100.1 million related to the issuance of our senior convertible notes due 2023, \$100.0 million related to the issuance of our senior convertible notes due 2024, \$23.8 million related to two CRJ-200 aircraft, \$3.8 million related to the settlement of past contractual claims of an aircraft manufacturer, \$1.0 million related to a mortgage note payable on one of our real estate properties and other miscellaneous debt totaling \$0.3 million. We also had \$11.6 million in letters of credit outstanding at March 31, 2004.</p>   |
| Guarantees                        | <p>Each of our existing wholly-owned domestic subsidiaries will be guarantors of the notes and all future wholly-owned domestic subsidiaries will be required to guarantee the notes on a senior unsecured basis. Each of our non-domestic subsidiaries and non-wholly-owned domestic subsidiaries will be required to guarantee the notes only so long as such subsidiary guarantees other indebtedness of ours, except MAGI Insurance, Ltd., which will guarantee the notes. Each guarantee by a guarantor will be equal in right of payment to all existing and future unsecured and unsubordinated indebtedness of such guarantor. The guarantees are effectively subordinated to the secured indebtedness of the guarantors to the extent of the security.</p> <p>As of March 31, 2004, the guarantors had an aggregate of \$401.5 million of senior secured indebtedness outstanding, which primarily consisted of \$253.9 million of notes payable related to 11 of our CRJ-700 and CRJ-900 aircraft, \$25.3 million of notes payable on interim financing of regional jets, \$97.5 million of notes payable related to our fleet of Beechcraft 1900D turboprop aircraft, \$23.8 million in notes payable related to two CRJ-200 aircraft and \$1.0 million related to a mortgage note payable on one of our real estate properties. We also had \$11.6 million in letters of credit outstanding at March 31, 2004.</p> |
| Sinking fund                      | None   |
| Redemption of notes at our option | We may redeem for cash all or a portion of the notes at any time on or after February 10, 2009, at redemption prices equal to the sum of the issue price plus accrued original issue discount and accrued cash interest, if any, to the applicable redemption date. See Description of the Notes Redemption of Notes at Our Option.  |
| Purchase of the notes by Mesa Air | Holders may require us to purchase all or a portion of their notes at the option of the Holder on each of the following dates at the   |

following prices, plus accrued cash interest, if any, to the purchase date:

on February 10, 2009 at a price of \$583.40 per note;

on February 10, 2014 at a price of \$698.20 per note; and

on February 10, 2019 at a price of \$835.58 per note.

We may pay the purchase price in cash or shares of our common stock or in a combination of cash and shares of our common stock. If we elect to pay the purchase price, in whole or in part, in shares of our common stock, the number of shares we deliver will be equal to the portion of the purchase price to be paid in common stock divided by the market price of a share of common stock.

Change of control

Upon a change of control of Mesa Air, the holders may require us to purchase for cash all or a portion of their notes at a price equal to the sum of the issue price plus accrued original issue discount and accrued cash interest, if any, to the date of purchase.

Optional conversion to semiannual coupon notes upon tax event

From and after the occurrence of a tax event, as described hereinafter, at our option, interest in lieu of future accrued original issue discount or cash interest will accrue on each note from the option exercise date at 3.625% per year, calculated on a semiannual bond equivalent basis, on the restated principal amount and will be payable semiannually. Any such interest in lieu of original issue discount or cash interest will be computed in the same manner and payable at the same time as the cash interest and will accrue from the most recent date to which cash interest, if payable, has been paid or provided for or, if no cash interest is payable or has been paid or provided for, the option exercise date. In such event, the redemption price, purchase price and change of control purchase price will be adjusted, as described herein. However, there will be no change in the holder's conversion rights. See Description of the Notes Optional Conversion to Semiannual Coupon Notes upon Tax Event.

DTC eligibility

The notes were issued in fully registered book-entry form and are represented by one or more permanent global notes without coupons. Global notes have been deposited with a custodian for and registered in the name of a nominee of The Depository Trust Company in New York, New York. Beneficial interests in global notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its direct and indirect participants, and your interest in any global note may not be exchanged for certificated notes, except in limited circumstances described herein. See Description of the Notes Book-Entry System.

Trading

We do not intend to list the notes on any national securities exchange. However, the notes have been eligible for trading in PORTAL. The notes will be new securities for which there is currently no public market.

## RISK FACTORS

*In addition to the other information contained in this prospectus and in the documents incorporated herein by reference, including our consolidated financial statements and the related notes, you should carefully consider the following factors. If any of the following risks actually occurs, our business could be harmed.*

### Risks Related to the Offering of the Notes

***We have a significant amount of fixed obligations that could impair our ability to make principal and interest payments on our debt obligations, including the notes, and lease payments on our lease obligations.***

We have, and will continue to have, a significant amount of fixed obligations. Due to our high fixed costs, including aircraft lease obligations and debt service, a decrease in revenues results in a disproportional greater percentage decrease in earnings. As of March 31, 2004, we had approximately \$2.0 billion of future lease obligations payable over the next 16 years and we had approximately \$605.7 million of indebtedness outstanding (including current maturities), comprised of \$253.9 million in notes payable related to 11 of our CRJ-700 and CRJ-900 aircraft, \$25.3 million of notes payable on interim financing of regional jets, \$97.5 million outstanding under notes payable related to our fleet of Beechcraft 1900D turboprop aircraft, \$100.1 million outstanding related to the issuance of the senior convertible notes due 2023, \$100.0 million outstanding related to the issuance of these senior convertible notes due 2024, \$23.8 million related to two CRJ-200 aircraft, \$3.8 million related to the settlement of past contractual claims of an aircraft manufacturer, \$1.0 million related to a mortgage note on one of our real estate properties and other miscellaneous debt totaling \$0.3 million. In addition, we had \$11.6 million in letters of credit outstanding at March 31, 2004 under our credit facility with Fleet Capital Corporation.

Our outstanding indebtedness and lease obligations could have important consequences to you. For example, it could:

make it more difficult for us to satisfy our obligations with respect to these notes;

limit our ability to obtain additional financing for funding the expansion of our aircraft fleet, capital expenditures, acquisitions, working capital or other purposes;

require us to dedicate a material portion of our operating cash flow to fund interest payments on our indebtedness, thereby reducing funds available for the expansion of our aircraft fleet, capital expenditures, acquisitions, working capital and other purposes; and

reduce our flexibility in responding to changing business and economic conditions, including reacting to any changes in the relationships we have with our code-share partners.

***Your right to receive payments on the notes is effectively subordinated to the rights of our and the guarantors' existing and future secured creditors. The notes, in certain other circumstances, may effectively be subordinated to any existing and future liabilities of Mesa Air and its subsidiaries.***

Holders of our secured indebtedness and the secured indebtedness of the guarantors will have claims that are senior to your claims as holders of the notes to the extent of the value of the assets securing that other indebtedness. The notes are effectively subordinated to our secured indebtedness. In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding-up, liquidation, reorganization, or other bankruptcy proceeding, holders of secured indebtedness will have prior claim to those assets that constitute their collateral. Holders of the notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes, and potentially with all of our other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets. In any of the foregoing events, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. As a result, holders of notes may receive less, ratably, than holders of secured indebtedness.

As of March 31, 2004, the aggregate amount of our and our subsidiaries' senior secured indebtedness was \$401.5 million, which primarily consisted of \$253.9 million in notes payable related to 11 of our CRJ-700 and

CRJ-900 aircraft, \$25.3 million of notes payable on interim financing of regional jets, \$97.5 million outstanding under notes payable related to our fleet of Beechcraft 1900D turboprop aircraft, \$23.8 million in notes payable related to two CRJ-200 aircraft and \$1.0 million related to a mortgage note on one of our real estate properties. In addition, we had \$11.6 million in letters of credit outstanding at March 31, 2004.

In addition, the notes are effectively subordinated to all existing and future liabilities, including claims with respect to trade payables, of any subsidiary which is not a guarantor of the notes. All of our existing wholly-owned domestic subsidiaries are guarantors of the notes and all future wholly-owned domestic subsidiaries will be required to guarantee the notes. In addition, our wholly-owned foreign subsidiary, MAGI Insurance, Ltd., is a guarantor of the notes on an unsecured senior basis and we may, in certain circumstances, add any newly formed or acquired wholly-owned foreign subsidiaries as guarantors in the future. Each of our other non-domestic subsidiaries and non-wholly-owned domestic subsidiaries will be required to guarantee the notes only so long as such subsidiary guarantees other indebtedness of ours. As a result, in the future, we may have subsidiaries that are not guarantors of the notes.

Furthermore, if we fail to deliver our common stock upon conversion of a note and thereafter become the subject of bankruptcy proceedings, a holder's claim for damages arising from such failure could be subordinated to all of our and our subsidiaries' existing and future obligations.

***Our financial results may be adversely impacted if we are subsequently held liable for the obligations of our former subsidiary CCAir, Inc.***

In the fourth quarter of fiscal 2002 we established a reserve related to CCAir of \$19.8 million for restructuring and impairment charges. Of these restructuring charges, \$12.0 million was subsequently reversed in the second quarter of fiscal 2003, upon the determination, after consultation with counsel, that we are not liable for the aircraft lease obligations and aircraft related return costs incurred solely by CCAir and not guaranteed by us. In the event this determination is challenged and we are subsequently determined to be liable for such CCAir obligations, our financial results and our ability to make payments on the notes could be adversely impacted.

***We are a holding company, and we may not have access to the cash flow and other assets of the subsidiaries that may be needed to make payment on the notes.***

Although substantially all of our business is conducted through our subsidiaries, none of our subsidiaries is obligated to make funds available to us for payment on our indebtedness, including the notes. Accordingly, our ability to make payments on the notes is dependent on the earnings and the distribution of funds from our subsidiaries. Furthermore, the guarantors are permitted under the terms of our indebtedness to incur additional indebtedness that may severely restrict or prohibit the making of distributions, the payment of dividends or the making of loans by the guarantors to us. We cannot assure you that the agreements governing the current and future indebtedness of the guarantors will permit the guarantors to provide us with sufficient dividends, distributions or loans to fund payments on these notes when due.

***The notes have been issued at a substantial discount from their principal amount and, therefore, trigger certain U.S. federal income tax consequences for the holders of the notes.***

The notes have been issued at a substantial discount from their principal amount. Consequently, the notes are treated as issued with original issue discount for U.S. federal income tax purposes and you will be required to include such original issue discount in your gross income as it accrues for U.S. federal income tax purposes in advance of receipt of any payment on the notes to which the original issue discount is attributable. To understand how this may affect you, you should seek advice from your own tax advisor prior to purchasing these notes. See

Certain United States Federal Income Tax Considerations for a more detailed discussion of the U.S. federal income tax consequences to the holders of the notes of the purchase, ownership and disposition of the notes.

***We may not have the ability to purchase the notes at the option of the holders upon certain changes in control or to raise the funds necessary to finance such purchases.***

Upon the occurrence of certain specific kinds of change of control events, we will be required to offer to purchase all outstanding notes. We may not have or be able to raise sufficient funds to make the required purchase of notes.

***Federal and state statutes allow courts, under specific circumstances, to void guarantees and require note holders to return payments received from guarantors.***

Under the federal bankruptcy law and comparable provisions of state fraudulent transfer laws, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor, if, among other things, at the time it incurred the indebtedness evidenced by its guarantee, the guarantor received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee and the guarantor

was insolvent or rendered insolvent by reason of such incurrence;

was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

In addition, any payment by that guarantor pursuant to its guarantee could be voided and required to be returned to the guarantor, or to a fund for the benefit of the creditors of the guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

if the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that each guarantor, after giving effect to its guarantee of these notes, will not be insolvent, will not have unreasonably small capital for the business in which it is engaged and will not have incurred debts beyond its ability to pay such debts as they mature. We cannot assure you, however, as to what standard a court would apply in making these determinations or that a court would agree with our conclusions in this regard.

***An active trading market for the notes may not develop, and transfers of the notes may be restricted.***

The notes comprise a new issue of securities for which there is currently no public market. The notes will not be listed on any securities exchange or other stock market or included in any automated quotation system. We do not know whether an active trading market will develop for the notes. If the notes are traded after their initial issuance, they may trade at a discount from their initial offering price depending on prevailing interest rates, the market for similar securities, the price of our common stock, the performance of our common stock in the marketplace, our performance as a company and other factors.

After we have registered the notes and the shares of underlying common stock, we will have the right, pursuant to the registration rights agreement, to suspend the use of the shelf registration statement in certain circumstances. In the event of such a suspension, you would not be able to sell any notes or shares of common stock issuable upon conversion of the notes.

## Risks Related to Our Business

***The negative impact of the September 11, 2001 terrorist attacks and the resulting government responses could be material to our financial condition, results of operations and prospects.***

The terrorist attacks of September 11, 2001 were highly publicized. The impacts that these events will continue to have on the airline industry in general, and on us in particular, are not known at this time, but are expected to include a substantial impact on our operations due to:

- a reduction in the demand for travel in the near and mid-term until public confidence in the air transportation system is restored;
- an increase in costs due to enhanced security measures and government directives in response to the terrorist attacks;
- an increase in the cost of aviation insurance in general, and the cost and availability of coverage for acts of war, terrorism, hijacking, sabotage and similar acts of peril in particular; and
- an increase in airport rents and landing fees.

In addition, we expect that the general increase in hostilities relating to reprisals against terrorist organizations and the continued threat of further terrorist attacks will continue to negatively impact our revenues and costs in the near and mid-term. The extent of the impact that the terrorist attacks and their aftermath will have on our operations, and the sufficiency of our financial resources to absorb this impact, will depend on a number of factors, including:

- the adverse impact that terrorist attacks, and the resulting government responses, will have on the travel industry and the economy in general;
- the potential increase in fuel costs and decrease in availability of fuel if oil-producing countries are affected by the aftermath of the terrorist attacks, including the government's responses, and our ability to manage this risk in connection with that part of our operations where our fuel costs are not reimbursed by our code-share partners under the terms of our code-share agreements;
- our ability to reduce our operating costs and conserve financial resources, taking into account the cost increases (including significant increases in the cost of aviation insurance) expected to result from the aftermath of the terrorist attacks and the government's responses;
- any resulting decline in the value of the aircraft in our fleet;
- our ability to raise additional financing, if necessary, taking into account our current leverage and the limitations imposed by the terms of our existing indebtedness;
- the number of crew members who may be called for duty in the reserve forces of the armed services and the resulting impact on our ability to operate as planned; and
- the scope and nature of any future terrorist attacks.

***We are dependent on our agreements with our code-share partners.***

We depend on relationships created by our code-share agreements. We derive a significant portion of our consolidated passenger revenues from our revenue-guarantee code-share agreements with America West, United Airlines, and US Airways. Our code-share partners have certain rights to cancel the applicable code-share agreement upon the occurrence of certain events or the giving of appropriate notice, subject to certain conditions. Although no notice has been given to date that any party intends to cancel these contracts, there can be no assurance that they will not serve notice at a later date of their intention to cancel, forcing us to stop selling those routes with the applicable partner's code and potentially reducing our traffic and revenue. In addition, our code-share agreement with America West allows America West, subject to certain restrictions, to reduce the combined CRJ fleets utilized under the code-share agreement by one aircraft in any six-month period commencing in January 2007. In addition, beginning in February 2007, America West may eliminate

the Dash-8 aircraft upon 180 days prior written notice. America West has used this provision to reduce the number of aircraft covered by the code-share agreement and there can be no assurance that, commencing in January 2007, they will not continue to further reduce the number of covered aircraft.

In addition, because a majority of our operating revenues are currently generated under revenue-guarantee code-share agreements, if any one of them is terminated, our operating revenues and net income could be materially adversely affected unless we are able to enter into satisfactory substitute arrangements or, alternatively, fly under our own flight designator code, including obtaining the airport facilities and gates necessary to do so. In 2002 and 2003 and the six months ended March 31, 2003 and 2004, our America West code-share agreement accounted for 40%, 44%, 46% and 37%, respectively, of our consolidated passenger revenues and our US Airways code-share agreement accounted for 55%, 49%, 49% and 45%, respectively, of our consolidated passenger revenues. Any material modification to, or termination of, our code-share agreements with any of these partners could have a material adverse effect on our financial condition, the results of our operations and the price of our common stock. In addition, Mesa Airlines began operating as United Express in July 2003 under a revenue-guarantee code-share agreement with United Airlines. Should any of our revenue-guarantee code-share agreements be terminated, we cannot assure you that we would be able to enter into substitute code-share arrangements, that any such arrangements would be as favorable to us as the current code-share agreements or that we could successfully fly under our own flight designator code.

***If our code-share partners or other regional carriers experience events that negatively impact their financial strength or operations, our operations also may be negatively impacted.***

We are directly affected by the financial and operating strength of our code-share partners. Any events that negatively impact the financial strength of our code-share partners or have a long-term effect on the use of our code-share partners by airline travelers would likely have a material adverse effect on our business, financial condition and results of operations. In the event of a decrease in the financial or operational strength of any of our code-share partners, such partner may seek to reduce, or be unable to make, the payments due to us under their code-share agreement. In addition, they may reduce utilization of our aircraft. Although there are certain monthly guaranteed payment amounts, there are no minimum levels of utilization specified in the code-share agreements. UAL Corp., the parent of our code-share partner United Airlines, has filed petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code. Additionally, US Airways, which accounted for 49% of our consolidated passenger revenue in 2003, had its corporate credit rating reduced to CCC+ from B- by Standard & Poor's on May 5, 2004. The financial performance of US Airways could directly affect their ability to perform under our code-share agreement with them. If any of our code-share partners, including US Airways, becomes bankrupt, our code-share agreement with such partner may not be assumed in bankruptcy and would be terminated. This and other such events could have an adverse effect on our business, financial condition and results of operations. In addition, any negative events that occur to other regional carriers and that affect public perception of such carriers generally could also have a material adverse effect on our business, financial condition and results of operations.

***Our code-share partners may expand their direct operation of regional jets thus limiting the expansion of our relationships with them.***

We depend on major airlines like America West, United Airlines and US Airways electing to contract with us instead of purchasing and operating their own regional jets. However, these major airlines possess the resources to acquire and operate their own regional jets instead of entering into contracts with us or other regional carriers. We have no guarantee that in the future our code-share partners will choose to enter into contracts with us instead of purchasing their own regional jets or entering into relationships with competing regional airlines. A decision by America West, United Airlines, US Airways or any other code-share partners to phase out our contract-based code-share relationships or to enter into similar agreements with one or more of our competitors could have a material adverse effect on our business, financial condition or results of operations. In addition to Mesa Airlines, US Airways and United Airlines have similar code-share agreements with other competing regional airlines. Mesa Airlines is currently America West's only code-share partner.

***If we experience a lack of labor availability or strikes, it could result in a decrease of revenues due to the cancellation of flights.***

The operation of our business is significantly dependent on the availability of qualified employees, including, specifically, flight crews, mechanics and avionics specialists. Historically, regional airlines have experienced high pilot turnover from time to time as a result of major air carriers hiring experienced commercial pilots away from regional carriers. Further, the addition of aircraft, especially new aircraft types, can result in pilots upgrading between aircraft types and becoming unavailable for duty during the required extensive training periods. There can be no assurance that we will be able to maintain an adequate supply of qualified personnel or that labor expenses will not increase as a result of a shortage in supply of such workers.

At March 31, 2004 we had approximately 4,400 employees, a significant number of whom are members of various labor unions, including the Air Line Pilots Association and the Association of Flight Attendants. Our collective bargaining agreement with the Air Line Pilots Association expires in August 2007 and our collective bargaining agreement with the Association of Flight Attendants expires in June 2006. The inability to negotiate acceptable contracts with existing unions as agreements expire or with new unions could result in work stoppages by the affected workers, lost revenues resulting from the cancellation of flights and increased operating costs as a result of higher wages or benefits paid to union members. We cannot predict which, if any, other employee groups may seek union representation or the outcome or the terms of any future collective bargaining agreement and therefore the effect, if any, on our financial condition and results of operations. If negotiations with unions over collective bargaining agreements prove to be unsuccessful, following specified cooling off periods, the unions may initiate a work action, including a strike, which could have a material adverse effect on our business, financial condition and results of operations.

***Increases in our labor costs, which constitute a substantial portion of our total operating costs, will cause our earnings to decrease.***

Labor costs constitute a significant percentage of our total operating costs, and we have experienced pressure to increase wages and benefits for our employees. Under our code-share agreements, our reimbursement rates contemplate labor costs that increase on a set schedule generally tied to an increase in the consumer price index or the actual increase in the contract. We are responsible for our labor costs, and we may not be entitled to receive increased payments under our code-share agreements if our labor costs increase above the assumed costs included in the reimbursement rates. As a result, a significant increase in our labor costs above the levels assumed in our reimbursement rates could result in a material reduction in our earnings.

***If new airline regulations are passed or are imposed upon our operations, we may incur increased operating costs and experience a decrease in earnings.***

Laws and regulations, such as those described below, have been proposed from time to time that could significantly increase the cost of our operations by imposing additional requirements or restrictions on our operations. We cannot predict what laws and regulations will be adopted or what changes to air transportation agreements will be effected, if any, or how they will affect us, and there can be no assurance that laws or regulations currently proposed or enacted in the future will not increase our operating expenses and therefore adversely affect our financial condition and results of operations.

As an interstate air carrier, we are subject to the economic jurisdiction, regulation and continuing air carrier fitness requirements of the Department of Transportation, which include required levels of financial, managerial and regulatory fitness. The Department of Transportation is authorized to establish consumer protection regulations to prevent unfair methods of competition and deceptive practices, to prohibit certain pricing practices, to inspect a carrier's books, properties and records, to mandate conditions of carriage and to suspend an air carrier's fitness to operate. The DOT also has the power to bring proceedings for the enforcement of air carrier economic regulations, including the assessment of civil penalties, and to seek criminal sanctions.

We are also subject to the jurisdiction of the FAA with respect to our aircraft maintenance and operations, including equipment, ground facilities, dispatch, communication, training, weather observation,

flight personnel and other matters affecting air safety. To ensure compliance with its regulations, the FAA requires airlines to obtain an operating certificate, which is subject to suspension or revocation for cause, and provides for regular inspections.

We incur substantial costs in maintaining our current certifications and otherwise complying with the laws, rules and regulations to which we are subject. We cannot predict whether we will be able to comply with all present and future laws, rules, regulations and certification requirements or that the cost of continued compliance will not significantly increase our costs of doing business.

The FAA has the authority to issue mandatory orders relating to, among other things, the grounding of aircraft, inspection of aircraft, installation of new safety-related items and removal and replacement of aircraft parts that have failed or may fail in the future. A decision by the FAA to ground, or require time-consuming inspections of, or maintenance on, all or any of our turboprops or regional jets, for any reason, could negatively impact our results of operations.

In addition to state and federal regulation, airports and municipalities enact rules and regulations that affect our operations. From time to time, various airports throughout the country have considered limiting the use of smaller aircraft, such as Embraer or Canadair regional jets, at such airports. The imposition of any limits on the use of our regional jets at any airport at which we operate could interfere with our obligations under our code-share agreements and severely interrupt our business operations.

***Fluctuations in fuel costs could adversely affect our operating expenses and results.***

The price and supply of jet fuel is unpredictable and fluctuates based on events outside our control, including geopolitical developments, regional production patterns and environmental concerns. Although approximately 84% and 90% of our fuel costs for the fiscal year ended September 30, 2003 and six months ended March 31, 2004, respectively, were reimbursed by our code-share partners, price escalations or reductions in the supply of jet fuel will increase our operating expenses and, to the extent such fuel costs are not reimbursed by our code-share partners, could cause our operating results and net income to decline.

***If additional security and safety measures regulations are adopted, we may incur increased operating costs and experience a decrease in earnings.***

Congress recently adopted increased safety and security measures designed to increase airline passenger security and protect against terrorist acts. Such measures have resulted in additional operating costs to the airline industry. The Aviation Safety Commission's report recommends the adoption of further measures aimed at improving the safety and security of air travel. We cannot forecast what additional security and safety requirements may be imposed on our operations in the future or the costs or revenue impact that would be associated with complying with such requirements, although such costs and revenue impact could be significant. To the extent that the costs of complying with any additional safety and security measures are not reimbursed by our code-share partners, our operating results and net income could be adversely affected.

***If our operating costs increase as our aircraft fleet ages and we are unable to pass along such costs, our earnings will decrease.***

As our fleet of aircraft age, the cost of maintaining such aircraft, if not replaced, will likely increase. There can be no assurance that costs of maintenance, including costs to comply with aging aircraft requirements, will not materially increase in the future. Any material increase in such costs could have a material adverse effect on our business, financial condition and results of operations. Because many aircraft components are required to be replaced after specified numbers of flight hours or take-off and landing cycles, and because new aviation technology may be required to be retrofitted, the cost to maintain aging aircraft will generally exceed the cost to maintain newer aircraft. We believe that the cost to maintain our aircraft in the long-term will be consistent with industry experience for these aircraft types and ages used by comparable airlines.

We believe that our aircraft are mechanically reliable based on the percentage of scheduled flights completed and as of March 31, 2004 the average age of our regional jet fleet is 2.85 years. However, there can be no assurance that such aircraft will continue to be sufficiently reliable over longer periods of time. Furthermore, any public perception that our aircraft are less than completely reliable could have a material adverse effect on our business, financial condition and results of operations.

***Our fleet expansion program will require a significant increase in our leverage and the financing we require may not be available on favorable terms or at all.***

The airline business is very capital intensive and, as a result, many airline companies are highly leveraged. During the fiscal years ended September 30, 2003 and 2002 and the six months ended March 31, 2004 and 2003, our debt service payments totaled \$27.4 million, \$19.1 million, \$17.0 million and \$14.7 million, respectively, and our lease payments totaled \$130.4 million, \$107.6 million, \$83.5 million and \$90.0 million, respectively. We have significant lease obligations with respect to our aircraft and ground facilities, which aggregated approximately \$2.0 billion at March 31, 2004. As of March 31, 2004, our growth strategy involves the acquisition of 16 more Bombardier regional jets during fiscal 2004. As of March 31, 2004, the Company had permanently financed 30 of the 31 CRJ-700 and CRJ-900 aircraft delivered under the 2001 BRAD agreement; the remaining aircraft is subject to interim financing. Subsequent to quarter end, the Company took delivery of six additional Bombardier CRJ-900 aircraft that were subject to interim financing. The Company has the ability to fund up to 15 aircraft at one time on interim financing provided by the manufacturer. Its ability to obtain additional interim financing is contingent upon obtaining permanent financing for the aircraft already delivered. There are no assurances the Company will be able to obtain permanent financing for future aircraft deliveries. If we are able to obtain financing for these aircraft, it will significantly increase our mandatory lease and debt service payments.

There can be no assurance that our operations will generate sufficient cash flow to make such payments or that we will be able to obtain financing to acquire the additional aircraft necessary for our expansion. If we default under our loan or lease agreements, the lender/lessor has available extensive remedies, including, without limitation, repossession of the respective aircraft and, in the case of large creditors, the effective ability to exert control over how we allocate a significant portion of our revenues. Even if we are able to timely service our debt, the size of our long-term debt and lease obligations could negatively affect our financial condition, results of operations and the price of our common stock in many ways, including:

increasing the cost, or limiting the availability of, additional financing for working capital, acquisitions or other purposes;

limiting the ways in which we can use our cash flow, much of which may have to be used to satisfy debt and lease obligations; and

adversely affecting our ability to respond to changing business or economic conditions or continue our growth strategy.

If we need funds and cannot raise them on acceptable terms, we may be unable to realize our current plans or take advantage of unanticipated opportunities and could be required to slow our growth.

***We depend on Bombardier to supply us with the aircraft we require to expand.***

As of March 31, 2004, we are obligated under our code-share agreements to place an additional 37 regional jets in service over the next 12 months. We currently have firm orders with Bombardier for an additional 23 regional jets. We also have options to acquire an additional 60 regional jets that are exercisable through 2008.

We are dependent on Bombardier as manufacturer of these jets and certain factors may limit or preclude our ability to obtain these regional jets, including:

Bombardier could refuse, or may not be financially able, to perform its obligations under the applicable purchase agreement for the delivery of the regional jets; and

a fire, strike or other event could occur that affects Bombardier's ability to completely or timely fulfill its contractual obligations.

Any disruption or change in the delivery schedule of these regional jets would affect our overall operations and our ability to fulfill our obligations under our code-share agreements.

Our operations could be materially adversely affected by the failure or inability of Bombardier or any key component manufacturers to provide sufficient parts or related support services on a timely basis or by an interruption of fleet service as a result of unscheduled or unanticipated maintenance requirements for our aircraft.

***Reduced utilization levels of our aircraft under the revenue-guarantee agreements would adversely impact our revenues and earnings.***

Even though our revenue-guarantee agreements require a fixed amount per month to compensate us for our fixed costs, if our aircraft are underutilized (including taking into account the stage length and frequency of our scheduled flights) we will lose the opportunity to receive a margin on the variable costs of flights that would have been flown if our aircraft were more fully utilized.

***If we incur problems with any of our third party service providers, our operations could be adversely affected by a resulting decline in revenue or negative public perception about our services.***

Our reliance upon others to provide essential services on behalf of our operations may result in the relative inability to control the efficiency and timeliness of contract services. We have entered into agreements with contractors to provide various facilities and services required for our operations, including aircraft maintenance, ground facilities, baggage handling and personnel training. It is likely that similar agreements will be entered into in any new markets we decide to serve. All of these agreements are subject to termination after notice. Any material problems with the efficiency and timeliness of contract services could have a material adverse effect on our business, financial condition and results of operations.

***If any of our existing litigation with Atlantic Coast Airlines or related regulatory inquiries are concluded in a manner adverse to us, our business could be adversely affected.***

In October 2003, we announced that we had made an unsolicited proposal to the board of directors of Atlantic Coast Airlines Holdings, Inc. ( Atlantic Coast ) to acquire all the outstanding stock of Atlantic Coast.

Following this unsolicited proposal, several lawsuits were filed by Atlantic Coast and anti-trust investigations were initiated by the Department of Justice and the Corporation Counsel for the District of Columbia. On December 23, 2003, we announced that we would not be moving forward with our proposed offer for Atlantic Coast. As a result of this announcement, the United States Department of Justice and Corporation Counsel dropped their antitrust investigations. Despite this decision, our litigation with Atlantic Coast remains pending. Until a final determination or dismissal is issued by the United States District Court for the District of Columbia, the Company faces the possibility of an adverse result which could have a negative impact on our business.

***We are at risk of losses and adverse publicity stemming from any accident involving any of our aircraft.***

If one of our aircraft were to crash or be involved in an accident, we could be exposed to significant tort liability. In this regard, in January 2003 US Airways Flight 5481, operated by our subsidiary Air Midwest,

crashed shortly after takeoff from Charlotte Douglas International Airport en route to Greenville/ Spartanburg, South Carolina

The estates of the passengers from Flight 5481, or the passengers, or their estates, of any other future aircraft accident may seek to recover damages for death or injury. Although we believe our present insurance coverage is sufficient to cover any claims arising from the crash of Flight 5481, there can be no assurance that the insurance we carry to cover damages arising from these or any future accidents will be adequate. Accidents could also result in unforeseen mechanical and maintenance costs. In addition, any accident involving an aircraft that we operate could create a public perception that our aircraft are not safe, which could result in air travelers being reluctant to fly on our aircraft. To the extent a decrease is associated with our operations not covered by our code- share agreements, such a decrease could have a material adverse affect on our business, financial condition or results of operations.

We are also subject to ongoing investigations by the FAA and the National Transportation Safety Board with respect to the events surrounding the crash of Flight 5481. The imposition of substantial civil penalties, with respect to Flight 5481 or any other aircraft accident, would have a material adverse impact on our earnings.

***If we become involved in any material litigation or any existing litigation is concluded in a manner adverse to us, our earnings may decline.***

We are, from time to time, subject to various legal proceedings and claims, either asserted or unasserted. Any such claims, whether with or without merit, could be time-consuming and expensive to defend and could divert management's attention and resources. There can be no assurance regarding the outcome of current or future litigation.

***Our business would be harmed if we lose the services of our key personnel.***

Our success depends to a large extent on the continued service of our executive management team. We have employment agreements with certain executive officers, but it is possible that members of executive management may leave us. Departures by our executive officers could have a negative impact on our business, as we may not be able to find suitable management personnel to replace departing executives on a timely basis. We do not maintain key-man life insurance on any of our executive officers.

***We may experience difficulty finding, training and retaining employees.***

Our business is labor-intensive, we require large numbers of pilots, flight attendants, maintenance technicians and other personnel and we anticipate that our expansion plans will require us to recruit, train and retain a significant number of new employees over the next several years.

The airline industry has from time to time experienced a shortage of qualified personnel, specifically pilots and maintenance technicians. In addition, as is common with most of our competitors, we have faced considerable turnover of our employees. Although our employee turnover has decreased significantly since September 11, 2001, our pilots, flight attendants and maintenance technicians often leave to work for larger airlines, which generally offer higher salaries and better benefit programs than regional airlines are financially able to offer. Should the turnover of employees, particularly pilots and maintenance technicians, sharply increase, the result will be significantly higher training costs than otherwise would be necessary. We cannot assure you that we will be able to recruit, train and retain the qualified employees that we need to carry out our expansion plans or replace departing employees. If we are unable to hire and retain qualified employees at a reasonable cost, we may be unable to complete our expansion plans, which could have a material adverse affect our financial condition, results of operations and the price of our common stock.

## Risks Related To Our Industry

### *If competition in the airline industry increases, we may experience a decline in revenue.*

Increased competition in the airline industry as well as competitive pressure on our code-share partners or in our markets could have a material adverse effect on our business, financial condition and results of operation. The airline industry is highly competitive. The earnings of many of the airlines have historically been volatile. The airline industry is susceptible to price discounting, which involves the offering of discount or promotional fares to passengers. Any such fares offered by one airline are normally matched by competing airlines, which may result in lower revenue per passenger, i.e., lower yields, without a corresponding increase in traffic levels. Also, in recent years several new carriers have entered the industry, typically with low cost structures. In some cases, new entrants have initiated or triggered price discounting. The entry of additional new major or regional carriers in any of our markets, as well as increased competition from or the introduction of new services by established carriers, could negatively impact our financial condition and results of operations.

Our reliance on our code-share agreements with our major airline partners for the majority of our revenue means that we must rely on the ability of our code-share partners to adequately promote their respective services and to maintain their respective market share. Competitive pressures by low-fare carriers and price discounting among major airlines could have a material adverse effect on our code-share partners and therefore adversely affect our business, financial condition and results of operations.

The results of operations in the air travel business historically fluctuate in response to general economic conditions. The airline industry is sensitive to changes in economic conditions that affect business and leisure travel and is highly susceptible to unforeseen events, such as political instability, regional hostilities, economic recession, fuel price increases, inflation, adverse weather conditions or other adverse occurrences that result in a decline in air travel. Any event that results in decreased travel or increased competition among airlines could have a material adverse effect on our business, financial condition and results of operations.

In addition to traditional competition among airlines, the industry faces competition from ground and sea transportation alternatives. Video teleconferencing and other methods of electronic communication may add a new dimension of competition to the industry as business travelers seek lower-cost substitutes for air travel.

### *The airline industry is heavily regulated.*

Airlines are subject to extensive regulatory and legal compliance requirements, both domestically and internationally, that involve significant costs. In the last several years, the FAA has issued a number of directives and other regulations relating to the maintenance and operation of aircraft that have required us to make significant expenditures. FAA requirements cover, among other things, retirement of older aircraft, security measures, collision avoidance systems, airborne windshear avoidance systems, noise abatement, commuter aircraft safety and increased inspection and maintenance procedures to be conducted on older aircraft.

We incur substantial costs in maintaining our current certifications and otherwise complying with the laws, rules and regulations to which we are subject. We cannot predict whether we will be able to comply with all present and future laws, rules, regulations and certification requirements or that the cost of continued compliance will not significantly increase our costs of doing business, to the extent such costs are not reimbursed by our code-share partners.

The FAA has the authority to issue mandatory orders relating to, among other things, the grounding of aircraft, inspection of aircraft, installation of new safety-related items and removal and replacement of aircraft parts that have failed or may fail in the future. A decision by the FAA to ground, or require time consuming inspections of or maintenance on, all or any of our aircraft, for any reason, could negatively impact our results of operations.

In addition to state and federal regulation, airports and municipalities enact rules and regulations that affect our operations. From time to time, various airports throughout the country have considered limiting the

use of smaller aircraft, at such airports. The imposition of any limits on the use of our aircraft at any airport at which we operate could interfere with our obligations under our code-share agreements and severely interrupt our business operations.

Additional laws, regulations, taxes and airport rates and charges have been proposed from time to time that could significantly increase the cost of airline operations or reduce revenues. For instance, passenger bill of rights legislation was introduced in Congress in 2001 which would have, among other things, required the payment of compensation to passengers as a result of certain delays and limited the ability of carriers to prohibit or restrict usage of certain tickets. If adopted, these measures could have had the effect of raising ticket prices, reducing revenue and increasing costs. Restrictions on the ownership and transfer of airline routes and takeoff and landing slots have also been proposed. In addition, as a result of the terrorist attacks in New York and Washington, D.C. in September 2001, the FAA has imposed more stringent security procedures on airlines. We cannot predict what other new regulations may be imposed on airlines and we cannot assure you that laws or regulations enacted in the future will not materially adversely affect our financial condition, results of operations and the price of our common stock.

***The airline industry has been subject to a number of strikes which could affect our business.***

The airline industry has been negatively impacted by a number of labor strikes. Any new collective bargaining agreement entered into by other regional carriers may result in higher industry wages and add increased pressure on us to increase the wages and benefits of our employees. Furthermore, since each of our code-share partners is a significant source of revenue, any labor disruption or labor strike by the employees of any one of our code-share partners could have a material adverse effect on our financial condition, results of operations and the price of our common stock.

**Risks Related to Our Common Stock**

***Provisions in our charter documents might deter acquisition bids for us.***

Our articles of incorporation and bylaws contain provisions that, among other things:

authorize our board of directors to issue preferred stock ranking senior to our common stock without any action on the part of the shareholders;

establish advance notice procedures for shareholder proposals, including nominations of directors, to be considered at shareholders meetings;

authorize a majority of our board of directors, in certain circumstances, to fill vacancies on the board resulting from an increase in the authorized number of directors or from vacancies;

restrict the ability of shareholders to modify the number of authorized directors; and

restrict the ability of stockholders to call special meetings of shareholders.

In addition, Section 78.438 of the Nevada general corporation law prohibits us from entering into some business combinations with interested stockholders without the approval of our board of directors. These provisions could make it more difficult for a third party to acquire us, even if doing so would benefit our stockholders.

***Our stock price may continue to be volatile and could decline substantially.***

The stock market has, from time to time, experienced extreme price and volume fluctuations. Many factors may cause the market price for our common stock to decline following this offering, including:

our operating results failing to meet the expectations of securities analysts or investors in any quarter;

downward revisions in securities analysts' estimates;

material announcements by us or our competitors;

public sales of a substantial number of shares of our common stock following this offering;

governmental regulatory action; or

adverse changes in general market conditions or economic trends.

**RATIO OF EARNINGS TO FIXED CHARGES**

The ratio of earnings to fixed charges for each of the periods indicated is as follows:

|  | Year Ended September 30 |      |      |      |      | Six Months ended<br>March 31, 2003 | Six Months ended<br>March 31, 2004 |
|--|-------------------------|------|------|------|------|------------------------------------|------------------------------------|
|  | 1999                    | 2000 | 2001 | 2002 | 2003 |                                    |                                    |
| Ratio of earnings to fixed charges<br>(deficiency) | (*)                     | 1.71 | (*)  | (*)  | 1.72 | 1.65                               | 1.24                               |

(\*) Earnings were insufficient to cover fixed charges by \$12.8 million, \$72.5 million, and \$17.4 million for the fiscal years ended September 30, 1999, 2001 and 2002, respectively.

For purposes of calculating this ratio, earnings consist of earnings before taxes, minority interest and extraordinary items plus interest expense (net of capitalized interest) and the portion of rental expense deemed representative of the interest expense. Fixed charges consist of interest expense, the portion of rental expense representative of interest expense and capitalized interest.

**USE OF PROCEEDS**

We will not receive any proceeds from the sale of the notes or shares underlying the notes by the selling securityholders. We received net proceeds from the sale of the notes of approximately \$97.0 million, after deducting estimated discounts and commissions for initial purchasers and estimated fees and expenses associated with the offering. We used, or plan to use, the net proceeds of the offering for general corporate purposes and to fund obligations with respect to future regional jet deliveries.

## DESCRIPTION OF THE NOTES

We issued the notes under an indenture dated as of February 10, 2004, between us, as issuer, the guarantors and U.S. Bank National Association, as trustee. The notes constitute senior debt securities under the indenture. The following summarizes the material provisions of the notes. The following description does not purport to be complete and is subject to, and qualified by reference to, all of the provisions of the indenture and the notes, which we urge you to read because they define your rights as a notes holder. A copy of the indenture is available upon request to us. As used in this description of the notes, the words we, us, our, Mesa or Mesa Air refer only to Mesa Air Group, Inc. and do not include any current or future subsidiary of Mesa Air Group, Inc.

### General

The notes are limited to \$171,409,000 aggregate principal amount at maturity. The notes will mature on February 10, 2024. The principal amount at maturity of each note will be \$1,000. The notes are payable at the principal corporate trust office of the paying agent, which initially will be an office or agency of the trustee, or an office or agency maintained by us for such purpose, in the Borough of Manhattan, The City of New York.

The notes bear cash interest at the rate of 2.115% per year on the principal amount at maturity from the issue date, or from the most recent date to which interest has been paid or provided for, until February 10, 2009. During such period, cash interest is payable semiannually in arrears on February 10 and August 10 of each year, commencing on August 10, 2004, to holders of record at the close of business on February 1 or August 1 immediately preceding such interest payment date. Each payment of cash interest on the notes includes interest accrued through the day before the applicable interest payment date (or purchase, redemption or, in certain circumstances, conversion date, as the case may be). Any payment required to be made on any day that is not a business day will be made on the next succeeding business day.

The notes were offered at a substantial discount from their \$1,000 principal amount at maturity. The notes were issued at an issue price of \$583.40 per note. Beginning February 10, 2009, the notes will accrue original issue discount while they remain outstanding at a rate of 3.625% per year. Original issue discount is the difference between the issue price and the principal amount (or stated redemption price for federal income tax purposes) at maturity of a note. The calculation of the accrual of original issue discount will be on a semiannual bond equivalent basis, using a 360-day year composed of twelve 30-day months. For United States federal income tax purposes, the stated redemption price at maturity of the notes will include the semiannual cash interest payments payable through February 10, 2009 and original issue discount will accrue at a constant rate of 3.625% per year, calculated on a semiannual bond equivalent basis throughout the term of the notes from February 10, 2009. Thus, holders will be required to accrue the cash interest as original issue discount regardless of their method of tax accounting but will not recognize any income when such interest is actually paid. See Certain United States Federal Income Tax Considerations U.S. Holders Original Issue Discount.

Original issue discount or cash interest, as the case may be, will cease to accrue on a note upon its maturity, conversion, purchase by us at the option of a holder or redemption. We may not reissue a note that has matured or been converted, purchased by us at your option, redeemed or otherwise cancelled, except for registration of transfer, exchange or replacement of such note.

Notes may be presented for conversion at the office of the conversion agent and for exchange or registration of transfer at the office of the registrar. The conversion agent and the registrar shall initially be the trustee. No service charge will be made for any registration of transfer or exchange of notes. However, we may require the holder to pay any tax, assessment or other governmental charge payable as a result of such transfer or exchange.

### Ranking of the Notes

The notes are senior unsecured obligations and rank equal in right of payment to all of our other senior unsecured and unsubordinated indebtedness. The notes are effectively subordinated to our secured indebted-

ness to the extent of the security. At March 31, 2004, Mesa Air Group, Inc. had \$605.7 million of senior indebtedness outstanding.

### **Guarantees**

We have caused each of our wholly-owned domestic subsidiaries, including any person that becomes a wholly-owned domestic subsidiary after the date of the indenture, to be a guarantor under the indenture, for so long as such subsidiary guarantees other indebtedness of ours. As of the date hereof, all of our wholly-owned domestic subsidiaries are guarantors of our notes.

The guarantors jointly and severally guarantee our obligations under the notes on an unsecured senior basis. Each guarantee of a guarantor will be equal in right of payment to all existing and future unsecured and unsubordinated indebtedness of such guarantor. The guarantees are effectively subordinated to the guarantors' secured indebtedness to the extent of the security. As of March 31, 2004, the guarantors had an aggregate of \$401.5 million of senior secured indebtedness outstanding (other than the notes), which primarily consisted of \$253.9 million of notes payable related to 11 of our CRJ-700 and CRJ-900 aircraft, \$25.3 million of notes payable on interim financing of regional jets, \$97.5 million of notes payable related to our fleet of Beechcraft 1900D turboprop aircraft, \$23.8 million in notes payable related to two CRJ-200 aircraft and \$1.0 million related to a mortgage note payable on one of our real estate properties. We also had \$11.6 million in letters of credit outstanding at March 31, 2004. The obligation of each guarantor under its guarantee will be limited to the greatest amount that would not render its obligations under the guarantee subject to avoidance as fraudulent conveyance or fraudulent transfer under applicable law.

Each guarantor that makes payment or distribution of more than its proportionate share under a guarantee shall be entitled to contribution from each other such guarantor that has not paid its proportionate share of such payment or distribution.

The indenture provides that so long as no default exists or would exist, the guarantee issued by any guarantor shall be automatically and unconditionally released and discharged upon any sale to any person that is not affiliated with us of all of the capital stock of such guarantor owned, directly or indirectly, by us which transaction is otherwise in compliance with the indenture. The indenture also provides that any non-domestic subsidiaries and non-wholly-owned domestic subsidiaries will only be required to guarantee the notes until such time as such subsidiary no longer guarantees any of our indebtedness (other than the notes), at which time such guarantee by such subsidiary will be released and discharged. If, however, such subsidiary subsequently guarantees any of our indebtedness (other than the notes), the guarantee by such subsidiary will be reinstated.

### **Conversion Rights**

A holder may convert a note, in multiples of \$1,000 principal amount at maturity, into common stock only if at least one of the conditions described below is satisfied. In addition, a holder may convert a note only until the close of business on the second business day prior to the redemption date if we call a note for redemption. A note for which a holder has delivered a purchase notice or a change of control purchase notice requiring us to purchase the note may be surrendered for conversion only if such notice is withdrawn in accordance with the indenture.

The initial conversion rate is 40.3737 shares of common stock per note, subject to adjustment upon the occurrence of certain events described below. A holder of a note otherwise entitled to a fractional share will receive cash equal to the applicable portion of the then current sale price of our common stock on the trading day immediately preceding the conversion date. Upon a conversion, we will have the option to deliver cash or a combination of cash and shares of our common stock as described below. The ability to surrender notes for conversion will expire at the close of business on February 10, 2024.

To convert a note into shares of common stock, a holder must:

complete and manually sign a conversion notice, a form of which is on the back of the note, and deliver the conversion notice to the conversion agent;

surrender the note to the conversion agent;

if required by the conversion agent, furnish appropriate endorsements and transfer documents; and

if required, pay all transfer or similar taxes.

On conversion of a note, a holder will not receive any cash payment of interest representing accrued original issue discount or, except as described below, accrued cash interest. Delivery to the holder of the full number of shares of common stock into which the note is convertible, together with any cash payment of such holder's fractional shares, will be deemed:

to satisfy our obligation to pay the principal amount at maturity of the note; and

to satisfy our obligation to pay accrued original issue discount or accrued cash interest attributable to the period from the issue date through the conversion date.

As a result, accrued original issue discount or accrued cash interest is deemed paid in full rather than cancelled, extinguished or forfeited. Notwithstanding the foregoing, accrued cash interest, if any, will be payable upon any conversion of notes at the option of the holder made concurrently with or after acceleration of the notes following an event of default described under Events of Default and Acceleration below. Holders of notes surrendered for conversion during the period from the close of business on any regular record date next preceding any interest payment date to the opening of business of such interest payment date will receive the semiannual interest payable on such notes on the corresponding interest payment date notwithstanding the conversion and such notes (except notes called for redemption) upon surrender must be accompanied by funds equal to the amount of semiannual interest payable on the principal amount at maturity of notes so converted.

The conversion rate will not be adjusted for accrued original issue discount or accrued cash interest. A certificate for the number of full shares of common stock into which any note is converted, together with any cash payment for fractional shares, will be delivered through the conversion agent as soon as practicable following the conversion date. For a discussion of the tax treatment of a holder receiving shares of our common stock upon surrendering notes for conversion, see Certain United States Federal Income Tax Considerations U.S. Holders Conversion of Notes into Common Stock.

In lieu of delivery of shares of our common stock upon notice of conversion of any notes (for all or any portion of the notes), we may elect to pay holders surrendering notes an amount in cash per note (or a portion of a note) equal to the average sale price of our common stock for the five consecutive trading days immediately following either (a) the date of our notice of our election to deliver cash as described below if we have not given notice of redemption, or (b) the conversion date, in the case of conversion following our notice of redemption specifying that we intend to deliver cash upon conversion, in either case multiplied by the conversion rate in effect on that date. We will inform the holders through the trustee no later than two business days following the conversion date of our election to deliver shares of our common stock or to pay cash in lieu of delivery of the shares, unless we have already informed holders of our election in connection with our optional redemption of the notes as described under Redemption of Notes at Our Option. If we elect to deliver all of such payment in shares of our common stock, the shares will be delivered through the conversion agent no later than the fifth business day following the conversion date. If we elect to pay all or a portion of such payment in cash, the payment, including any delivery of our common stock, will be made to holders surrendering notes no later than the tenth business day following the applicable conversion date. If an event of default, as described under Events of Default and Acceleration below (other than a default in a cash payment upon conversion of the notes), has occurred and is continuing, we may not pay cash upon conversion of any notes or portion of a note (other than cash for fractional shares).

We will adjust the conversion rate for:

(1) dividends or distributions on our common stock payable in our common stock or other capital stock of Mesa Air;

(2) subdivisions, combinations or certain reclassifications of our common stock;

(3) distributions to all holders of our common stock of certain rights to purchase our common stock for a period expiring within 60 days of the record date for such issuance at less than the then-current sale price; and

(4) distributions to the holders of our common stock of a portion of our assets (including shares of capital stock of a subsidiary) or debt securities issued by us or certain rights to purchase our securities (excluding cash dividends or other cash distributions from current or retained earnings unless the annualized amount thereof per share exceeds 15% of the sale price of our common stock on the day preceding the date of declaration of such dividend or other distribution).

However, no adjustment to the conversion rate need be made if holders of the notes may participate in the transaction without conversion or in certain other cases.

In the event that we elect to make a distribution to all holders of shares of our common stock pursuant to clause (3) or clause (4) of the preceding paragraph, which, in the case of clause (4), has a per share value equal to more than 15% of the sale price of our shares of common stock on the day preceding the declaration date for such distribution, we will be required to give notice to the holders of notes at least 20 days prior to the date for such distribution and, upon the giving of such notice, the notes may be surrendered for conversion at any time until the close of business on the business day prior to the date of distribution or until we announce that such distribution will not take place.

In addition, the indenture provides that upon conversion of the notes, the holders of such notes will receive, in addition to the shares of common stock issuable upon such conversion, the rights related to such common stock pursuant to any future shareholder rights plan, whether or not such rights have separated from the common stock at the time of such conversion. However, there shall not be any adjustment to the conversion privilege or conversion rate as a result of:

the issuance of the rights;

the distribution of separate certificates representing the rights;

the exercise or redemption of such rights in accordance with any rights agreement; or

the termination or invalidation of the rights.

The indenture permits us to increase the conversion rate from time to time.

Holders of the notes may, in certain circumstances, be deemed to have received a distribution subject to United States federal income tax as a dividend upon:

a taxable distribution to holders of common stock which results in an adjustment of the conversion rate;

an increase in the conversion rate at our discretion; or

failure to adjust the conversion rate in some instances.

See Certain United States Federal Income Tax Considerations U.S. Holders Constructive Dividend.

If we are a party to a consolidation, merger or binding share exchange or a transfer of all or substantially all of our assets, the right to convert a note into common stock may be changed into a right to convert it into the kind and amount of securities, cash or other assets of Mesa Air or another person which the holder would have received if the holder had converted the holder's note immediately prior to the transaction.

The conversion agent will, on our behalf, determine if the notes are convertible and notify the trustee and us accordingly. If one or more of the conditions to the conversion of the notes has been satisfied, we will promptly notify the holders of the notes thereof and use our reasonable best efforts to post this information on our website or otherwise publicly disclose this information.

*Conversion Based on Common Stock Price.* Holders may surrender notes for conversion into our shares of common stock in any fiscal quarter commencing after March 31, 2004 if, as of the last day of the preceding

fiscal quarter, the sale price of our common stock for at least 20 trading days in a period of 30 consecutive trading days ending on the last trading day of such preceding fiscal quarter is more than 110% of the accreted conversion price per share of common stock on the last day of such preceding fiscal quarter. If the foregoing condition is satisfied, then the notes will be convertible at any time at the option of the holder, through maturity. Upon a conversion, we will have the right to deliver cash or a combination of cash and common stock, as described below.

The accreted conversion price per share as of any day will equal the issue price of a note plus the accrued original issue discount to that day, divided by the number of shares of common stock issuable upon conversion of a note on that day. The sale price of our common stock on any trading day means the closing per share sale price (or if no closing sale price is reported, the average of the bid and ask prices or, if more than one in either case, the average of the average bid and the average ask prices) on such date on the principal national securities exchange on which the common stock is listed or, if our common stock is not listed on a national securities exchange, as reported by the Nasdaq National Market or otherwise as provided in the indenture.

The conversion trigger price per share of our common stock in respect of each of the first 20 fiscal quarters following issuance of the notes is \$15.89. This conversion trigger price reflects the accreted conversion price per share of common stock multiplied by 110%. Thereafter, the accreted conversion price per share of common stock increases each fiscal quarter by the accreted original issue discount for the quarter. The conversion trigger price per share for the fiscal quarter beginning January 1, 2024 is \$27.14. The foregoing conversion trigger prices assume that no events have occurred that would require an adjustment to the conversion rate.

*Conversion Based on Trading Price of the Notes.* On or before February 10, 2019, a holder also may convert its notes into shares of our common stock at any time after a 10 consecutive trading-day period in which the average of the trading prices for the notes for that 10 trading-day period was less than 103% of the average conversion value for the notes during that period.

The conversion value of a note is equal to the product of the closing sale price for shares of our common stock on a given day multiplied by the then current conversion rate, which is the number of shares of common stock into which each note is then convertible. The trading price of the notes on any date of determination is the average of the secondary market bid quotations per note obtained by us or the calculation agent for \$2,500,000 principal amount of notes at approximately 3:30 p.m., New York City time, on such determination date from two independent nationally recognized securities dealers we select, provided that if at least two such bids cannot reasonably be obtained by us or the calculation agent, but one such bid is obtained, then this one bid shall be used.

*Conversion Based on Redemption.* A holder may surrender for conversion a note called for redemption at any time prior to the close of business on the second business day immediately preceding the redemption date, even if it is not otherwise convertible at such time. A note for which a holder has delivered a purchase notice or a change of control purchase notice, as described below, requiring us to purchase such note may be surrendered for conversion only if such notice is withdrawn in accordance with the indenture.

A *business day* is any weekday that is not a day on which banking institutions in The City of New York or the city in which the trustee's corporate trust office is located are authorized or obligated to close. A *trading day* is any day on which the Nasdaq National Market is open for trading or, if the applicable security is not quoted on the Nasdaq National Market, a day on which trades may be made on the principal market the applicable security is then traded.

*Conversion upon Occurrence of Certain Corporate Transactions.* If we are party to a consolidation, merger or binding share exchange or a transfer of all or substantially all of our assets, a note may be surrendered for conversion at any time from and after the date which is 15 days prior to the anticipated effective date of the transaction until 15 days after the actual effective date of such transaction, and at the effective date, the right to convert a note into common stock will be changed into a right to convert it into the kind and amount of securities, cash or other assets of Mesa Air or another person which the holder would have received if the holder had converted the holder's notes immediately prior to the transaction. If such transaction

## Edgar Filing: MESA AIR GROUP INC - Form 424B3

also constitutes a change of control of Mesa Air, the holder will be able to require us to purchase all or a portion of such holder's notes as described under "Change of Control Permits Purchase of Notes by Mesa Air at the Option of the Holder."

The notes are also convertible upon the occurrence of certain distributions resulting in an adjustment to the conversion price as described above.

### Redemption of Notes at Our Option

No sinking fund is provided for the notes. Prior to February 10, 2009, we cannot redeem the notes at our option. Beginning on February 10, 2009, we may redeem the notes for cash, as a whole at any time or from time to time in part. We will give not less than 30 days or more than 60 days' notice of redemption by mail to holders of notes.

If redeemed at our option, the notes will be redeemed at a price equal to the sum of the issue price plus accrued original issue discount and accrued cash interest, if any, on such notes to the applicable redemption date. The table below shows the redemption prices of a note on February 10, 2009, on each February 10 thereafter prior to maturity and at maturity on February 10, 2024. In addition, the redemption price of a note that is redeemed between the dates listed below would include an additional amount reflecting the additional accrued original issue discount that has accrued on such note since the immediately preceding date in the table below.

| Redemption Date    | (1)<br>Note Issue<br>Price | (2)<br>Accrued Original<br>Issue Discount | (3)<br>Redemption<br>Price (1) + (2) |
|--------------------|----------------------------|---|--------------------------------------|
| 2009               | \$583.40                   | \$ 0.00                                   | \$ 583.40                            |
| 2010               | 583.40                     | 21.34                                     | 604.74                               |
| 2011               | 583.40                     | 43.46                                     | 626.86                               |
| 2012               | 583.40                     | 66.39                                     | 649.79                               |
| 2013               | 583.40                     | 90.16                                     | 673.56                               |
| 2014               | 583.40                     | 114.80                                    | 698.20                               |
| 2015               | 583.40                     | 140.34                                    | 723.74                               |
| 2016               | 583.40                     | 166.81                                    | 750.21                               |
| 2017               | 583.40                     | 194.25                                    | 777.65                               |
| 2018               | 583.40                     | 222.70                                    | 806.10                               |
| 2019               | 583.40                     | 252.18                                    | 835.58                               |
| 2020               | 583.40                     | 282.75                                    | 866.15                               |
| 2021               | 583.40                     | 314.43                                    | 897.83                               |
| 2022               | 583.40                     | 347.27                                    | 930.67                               |
| 2023               | 583.40                     | 381.31                                    | 964.71                               |
| At stated maturity | 583.40                     | 416.60                                    | 1,000.00                             |

If we convert the notes to semiannual coupon notes following the occurrence of a tax event, the notes will be redeemable at the restated principal amount plus accrued and unpaid interest from the date of the conversion through the redemption date. However, in no event may the notes be redeemed prior to February 10, 2009. For more information on this optional conversion, see "Optional Conversion to Semiannual Coupon Notes upon Tax Event."

If less than all of the outstanding notes are to be redeemed, the trustee will select the notes to be redeemed in principal amounts at maturity of \$1,000 or integral multiples of \$1,000. In this case, the trustee may select the notes by lot, *pro rata* or by any other method the trustee considers fair and appropriate. If a portion of a holder's notes is selected for partial redemption and the holder converts a portion of the notes, the converted portion will be deemed to be the portion selected for redemption.

### Purchase of Notes at the Option of the Holder

On the purchase dates of February 10, 2009, February 10, 2014 and February 10, 2019, we may, at the option of the holder, be required to purchase, at the purchase price set forth below plus accrued cash interest, if any, to the purchase date, any outstanding note for which a written purchase notice has been properly delivered by the holder and not withdrawn, subject to certain additional conditions. Holders may submit their written purchase notice to the paying agent at any time from the opening of business on the date that is 20 business days prior to such purchase date until the close of business on the business day immediately preceding such purchase date.

The purchase price of a note will be:

\$583.40 per note on February 10, 2009;

\$698.20 per note on February 10, 2014; and

\$835.58 per note on February 10, 2019.

The above purchase prices reflect a price equal to the sum of the issue price and accrued original issue discount, if any, on such notes as of the applicable purchase date.

We may, at our option, elect to pay the purchase price in cash or shares of common stock, or any combination thereof. For a discussion of the tax treatment of a holder receiving cash, common stock or any combination thereof, see Certain United States Federal Income Tax Considerations U.S. Holders Sale, Exchange, Redemption and Other Disposition of Notes and Conversion of Notes into Common Stock.

If prior to a purchase date the notes have been converted to semiannual coupon notes following the occurrence of a tax event, the purchase price will be equal to the restated principal amount plus accrued and unpaid cash interest from the date of the conversion to the purchase date. For more information on this optional conversion, see Optional Conversion to Semiannual Coupon Notes upon Tax Event.

We will be required to give notice on a date not less than 20 business days prior to each purchase date to all holders at their addresses shown in the register of the registrar, and to beneficial owners as required by applicable law, stating among other things:

the amount of the purchase price;

whether we will pay the purchase price of the notes in cash or common stock or any combination thereof, specifying the percentages of each;

if we elect to pay in common stock, the calculation of the market price of the common stock; and

the procedures that holders must follow to require us to purchase their notes.

The purchase notice given by each holder electing to require us to purchase notes shall state:

the certificate numbers of the holder's notes to be delivered for purchase;

the portion of the principal amount at maturity of notes to be purchased, which must be \$1,000 or an integral multiple of \$1,000;

that the notes are to be purchased by us pursuant to the applicable provisions of the notes; and

in the event we elect, pursuant to the notice that we are required to give, to pay the purchase price in common stock, in whole or in part, but the purchase price is ultimately to be paid to the holder entirely in cash because any of the conditions to payment of the purchase price or portion of the purchase price in common stock is not satisfied prior to the close of business on the purchase date, as described below, whether the holder elects:

to withdraw the purchase notice as to some or all of the notes to which it relates; or

to receive cash in respect of the entire purchase price for all notes or portions of notes subject to such purchase notice.

## Edgar Filing: MESA AIR GROUP INC - Form 424B3

If the purchase price for the notes subject to the purchase notice is ultimately to be paid to a holder entirely in cash because we have not satisfied one or more of the conditions to payment of the purchase price in common stock prior to the close of business on the purchase date, a holder shall be deemed to have elected to receive cash in respect of the entire purchase price for all such notes unless such holder has properly notified us of its election to withdraw the purchase notice. For a discussion of the tax treatment of a holder receiving cash instead of common stock, see [Certain United States Federal Income Tax Considerations](#) [U.S. Holders](#) [Sale, Exchange, Redemption and Other Disposition of Notes](#).

Any purchase notice may be withdrawn by the holder by a written notice of withdrawal delivered to the paying agent prior to the close of business on the business day prior to the purchase date.

The notice of withdrawal shall state:

the principal amount at maturity being withdrawn;

the certificate numbers of the notes being withdrawn; and

the principal amount at maturity, if any, of the notes that remain subject to the purchase notice.

If we elect to pay the purchase price, in whole or in part, in shares of our common stock, the number of such shares we deliver shall be equal to the portion of the purchase price to be paid in common stock divided by the market price of a share of common stock.

We will pay cash based on the market price for all fractional shares of common stock in the event we elect to deliver common stock in payment, in whole or in part, of the purchase price. See [Certain United States Federal Income Tax Considerations](#) [U.S. Holders](#) [Sale, Exchange, Redemption and Other Disposition of Notes](#).

The market price of our common stock shall be an amount equal to the average of the sale prices of our common stock for the five-trading-day period ending on the third business day prior to the applicable purchase date, or, if such business day is not a trading day, then on the last trading day prior to such business day, appropriately adjusted to take into account any occurrence that would result in an adjustment of the conversion rate with respect to the common stock. See [Conversion Rights](#) above for a description of the manner in which the sale price of our common stock is determined.

Because the market price of our common stock is determined prior to the applicable purchase date, holders of notes bear the market risk with respect to the value of the common stock to be received from the date such market price is determined to such purchase date. We may pay the purchase price or any portion of the purchase price in common stock only if the information necessary to calculate the market price is published in a daily newspaper of national circulation.

Upon determination of the actual number of shares of common stock in accordance with the foregoing provisions, we will promptly issue a press release and publish such information on our website.

Our right to purchase notes, in whole or in part, with common stock is subject to our satisfying various conditions, including:

giving timely notice of our election to purchase notes with common stock;

the receipt by the trustee of an officers' certificate and an opinion of counsel with respect to the issuance of common stock;

listing the common stock on the Nasdaq National Market or listing on a national securities exchange;

the registration of the common stock under the Securities Act and the Exchange Act, if required; and

any necessary qualification or registration under applicable state securities law or the availability of an exemption from such qualification and registration.

If such conditions are not satisfied with respect to a holder prior to the close of business on the purchase date, we will pay the purchase price of the notes of the holder entirely in cash. See [Certain United States](#)

Federal Income Tax Considerations U.S. Holders Sale, Exchange, Redemption and Other Disposition of Notes. We may not change the form or components or percentages of components of consideration to be paid for the notes once we have given the notice that we are required to give to holders of notes, except as described in the first sentence of this paragraph.

In connection with any purchase offer, we will:

comply with the provisions of Rule 13e-4, Rule 14e-1 and any other tender offer rules under the Exchange Act which may then be applicable; and

file Schedule TO or any other required schedule under the Exchange Act.

Payment of the purchase price for a note for which a purchase notice has been delivered and not validly withdrawn is conditioned upon delivery of the note, together with necessary endorsements, to the paying agent at any time after delivery of the purchase notice. Payment of the purchase price for the note will be made as soon as practicable following the later of the purchase date or the time of delivery of the note.

If the paying agent holds money or securities sufficient to pay the purchase price of the note on the business day following the purchase date in accordance with the terms of the indenture, then, immediately after the purchase date, the note will cease to be outstanding and cash interest or original issue discount on such note will cease to accrue, whether or not the note is delivered to the paying agent. Thereafter, all other rights of the holder shall terminate, other than the right to receive the purchase price upon delivery of the note.

No notes may be purchased for cash at the option of holders if there has occurred and is continuing an event of default with respect to the notes, other than a default in the payment of the purchase price with respect to such notes.

#### **Change of Control Permits Purchase of Notes by Mesa Air at the Option of the Holder**

In the event of a change of control, each holder will have the right, at the holder's option, subject to the terms and conditions of the indenture, to require us to purchase for cash all or any portion of the holder's notes. However, the principal amount at maturity submitted for purchase by a holder must be \$1,000 or an integral multiple of \$1,000.

We will be required to purchase the notes as of a date no later than 30 business days after the occurrence of such change of control at a cash price equal to the sum of the issue price plus accrued original issue discount or accrued cash interest, if any, on such note to such date of purchase.

If prior to such date of purchase upon a change of control the notes have been converted to semiannual coupon notes following the occurrence of a tax event, we will be required to purchase the notes at a cash price equal to the restated principal amount plus accrued and unpaid interest from the date of the conversion to such date of purchase.

Within 15 days after the occurrence of a change of control, we are obligated to mail to the trustee and to all holders of notes at their addresses shown in the register of the registrar and to beneficial owners as required by applicable law a notice regarding the change of control, which notice shall state, among other things:

the events causing a change of control;

the date of such change of control;

the last date on which the purchase right may be exercised;

the change of control purchase price;

the change of control purchase date;

the name and address of the paying agent and the conversion agent;

the conversion rate and any adjustments to the conversion rate resulting from such change of control;

that notes with respect to which a change of control purchase notice is given by the holder may be converted only if the change of control purchase notice has been withdrawn in accordance with the terms of the indenture; and

the procedures that holders must follow to exercise these rights.

To exercise this right, the holder must deliver a written notice to the paying agent prior to the close of business on the business day prior to the change of control purchase date. The required purchase notice upon a change of control shall state:

the certificate numbers of the notes to be delivered by the holder;

the portion of the principal amount at maturity of notes to be purchased, which portion must be \$1,000 or an integral multiple of \$1,000; and

that we are to purchase such notes pursuant to the applicable provisions of the notes.

Any such change of control purchase notice may be withdrawn by the holder by a written notice of withdrawal delivered to the paying agent prior to the close of business on the business day prior to the change of control purchase date.

The notice of withdrawal shall state:

the principal amount at maturity being withdrawn;

the certificate numbers of the notes being withdrawn; and

the principal amount at maturity, if any, of the notes that remain subject to a change of control purchase notice.

Payment of the change of control purchase price for a note for which a change of control purchase notice has been delivered and not validly withdrawn is conditioned upon delivery of the note, together with necessary endorsements, to the paying agent at any time after the delivery of such change of control purchase notice. Payment of this change of control purchase price for such note will be made promptly following the later of the change of control purchase date or the time of delivery of such note.

If the paying agent holds money sufficient to pay the change of control purchase price of the note on the business day following the change of control purchase date in accordance with the terms of the indenture, then immediately after the change of control purchase date, cash interest or original issue discount on the note will cease to accrue, whether or not the note is delivered to the paying agent. Thereafter, all other rights of the holder shall terminate, other than the right to receive the change of control purchase price upon delivery of the note.

Under the indenture, a change of control of Mesa Air is deemed to have occurred upon the occurrence of any of the following:

the sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of our and our subsidiaries' assets, taken as a whole, to any person or group;

the adoption of a plan relating to our liquidation or dissolution;

the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person or group becomes the beneficial owner, directly or indirectly, of more than 35% of the voting power of our outstanding voting stock; or

the first day on which more than a majority of the members of our board of directors are not continuing directors.

Continuing directors means any member of our board of directors who:

was a member of our board of directors on the date of original issuance of the notes; or

was nominated for election to our board of directors with the approval of, or whose election to our board of directors was ratified by, at least a majority of the continuing directors who were members of our board of directors at the time of such nomination or election.

In connection with any purchase offer in the event of a change of control, we will:

comply with the provisions of Rule 13e-4, Rule 14e-1 and any other tender offer rules under the Exchange Act which may then be applicable; and

file Schedule TO or any other required schedule under the Exchange Act.

The change of control purchase feature of the notes may, in certain circumstances, make more difficult or discourage a takeover of Mesa Air. The change of control purchase feature, however, is not the result of our knowledge of any specific effort:

to accumulate shares of common stock;

to obtain control of us by means of a merger, tender offer, solicitation or otherwise; or

part of a plan by management to adopt a series of anti-takeover provisions.

Instead, the change of control purchase feature is a standard term contained in other offerings of securities similar to the notes that have been marketed by the initial purchaser. The terms of the change of control purchase feature resulted from negotiations between the initial purchaser and us.

We could, in the future, enter into certain transactions, including certain recapitalizations, that would not constitute a change of control with respect to the change of control purchase feature of the notes but that would increase the amount of our or our subsidiaries' outstanding indebtedness.

No notes may be purchased at the option of holders upon a change of control if there has occurred and is continuing an event of default with respect to the notes, other than a default in the payment of the change of control purchase price with respect to the notes.

#### **Events of Default and Acceleration**

The following are events of default under the indenture:

default in the payment of any principal amount (including accrued original issue discount and, if the notes have been converted to semiannual coupon notes following a tax event, the restated principal amount) at maturity, redemption price, purchase price, or change of control purchase price due with respect to the notes, when the same become due and payable;

default in payment of any interest under the notes, which default continues for 30 days;

our failure to comply with any of our other agreements in the notes or the indenture upon our receipt of notice of such default from the trustee or from holders of not less than 25% in aggregate principal amount at maturity of the notes, and our failure or such guarantor's failure to cure (or obtain a waiver of) such default within 60 days after we receive such notice;

default in the payment of principal when due or resulting in acceleration of other indebtedness of ours for borrowed money where the aggregate principal amount with respect to which the default or acceleration has occurred exceeds \$10,000,000, and such acceleration has not been rescinded or annulled within a period of 10 days after written notice to us by the trustee or to us and the trustee by the holders of at least 25% in principal amount at maturity of the notes; or

any guarantee ceases to be in full force and effect or is declared null and void or any guarantor denies that it has any further liability under any guarantee, or gives notice to such effect (other than by reason of the termination of the indenture or the release of any such guarantee in accordance with the

indenture), and such condition shall have continued for a period of 30 days after written notice of such failure requiring the guarantor or us to remedy the same shall have been given to us by the trustee or to us and the trustee by the holders of 25% in aggregate principal amount at maturity of the notes outstanding; or

certain events of bankruptcy, insolvency or reorganization affecting us.

If an event of default shall have happened and be continuing, either the trustee or the holders of not less than 25% in aggregate principal amount at maturity of the notes then outstanding may declare the issue price of the notes plus the original issue discount on the notes accrued through the date of such declaration, and any accrued and unpaid cash interest (or, if the notes have been converted to semiannual coupon notes following a tax event, the restated principal amount, plus accrued interest) through the date of such declaration, to be immediately due and payable. In the case of certain events of bankruptcy or insolvency, the issue price of the notes plus the original issue discount accrued thereon, together with any accrued cash interest (or, if the notes have been converted to semiannual coupon notes following a tax event, the restated principal amount, plus accrued interest) through the occurrence of such event shall automatically become and be immediately due and payable.

### **Mergers and Sales of Assets**

The indenture provides that we may not consolidate with or merge into any person or convey, transfer or lease our properties and assets substantially as an entity to another person unless:

the resulting, surviving or transferee person is organized and existing under the laws of the United States, any state thereof or the District of Columbia, and (if other than us) assumes all our obligations under the notes and the indenture;

immediately after giving effect to the transaction no event of default has occurred and is continuing; and

other conditions described in the indenture are met.

Upon the assumption of our obligations by such corporation in such circumstances, subject to certain exceptions, we shall be discharged from all obligations under the notes and the indenture. Although such transactions are permitted under the indenture, certain of the foregoing transactions occurring could constitute a change of control of Mesa Air, permitting each holder to require us to purchase the notes of such holder as described above.

The indenture also provides that a guarantor may not consolidate with or merge into any person or convey, transfer or lease its properties and assets substantially as an entity to another person unless the surviving person assumes the obligations of such guarantor and the surviving person is a corporation organized and existing under the laws of the United States, any state thereof or the District of Columbia, except if all of the assets or all of the common stock of such guarantor is sold to a non-affiliate of Mesa Air, in which case the guarantee is released.

### **Optional Conversion to Semiannual Coupon Notes upon Tax Event**

From and after the date of the occurrence of a tax event, we shall have the option to elect to have interest in lieu of future accrued original issue discount or cash interest accrue at 3.625% per year on a principal amount per note equal to the sum of the issue price and accrued original issue discount on such note on the date of the tax event or the date on which we exercise such option, whichever is later.

Such interest shall accrue from the option exercise date, and shall be payable semiannually on the interest payment dates of February 10 and August 10 of each year to holders of record at the close of business on February 1 or August 1 immediately preceding the interest payment date. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months. Interest will accrue from the most recent date to which interest, if applicable, has been paid or provided for or, if no interest is payable or has been paid or provided for, from the option exercise date. In the event that we exercise our option to pay interest in lieu of

accrued original issue discount or cash interest, the redemption price, purchase price and change of control purchase price on the notes will be adjusted. However, there will be no change in the holder's conversion rights.

A tax event means that we shall have received an opinion from independent tax counsel experienced in such matters to the effect that, on or after the date of this prospectus, as a result of:

any amendment to, or change (including any announced prospective change) in, the laws (or any regulations thereunder) of the United States or any political subdivision or taxing authority thereof or therein; or

any amendment to, or change in, an interpretation or application of such laws or regulations by any legislative body, court, governmental agency or regulatory authority, in each case which amendment or change is enacted, promulgated, issued or announced or which interpretation is issued or announced or which action is taken, on or after the date of this prospectus, there is more than an insubstantial risk that accrued original issue discount payable on the notes either:

would not be deductible on a current accrual basis; or

would not be deductible under any other method, in either case in whole or in part, by us (by reason of deferral, disallowance, or otherwise) for United States federal income tax purposes.

The Clinton administration previously proposed to change the tax law to defer the deduction of original issue discount on convertible debt instruments until the issuer pays the interest. Congress did not enact those proposed changes. It is not certain what the views of the Bush administration are on this issue and we cannot assure you that the same or a similar proposal will not be proposed and enacted.

If a similar proposal were ever enacted and made applicable to the notes in a manner that would limit our ability to either

deduct the interest, including the accrued original issue discount, payable on the notes on a current accrual basis; or

deduct the interest, including accrued original issue discount, payable on the notes under any other method for United States federal income tax purposes, such enactment would result in a tax event and the terms of the notes would be subject to modification at our option as described above.

The modification of the terms of notes by us upon a tax event as described above could possibly alter the timing of income recognition by holders of the notes with respect to the semiannual payments of interest due on the notes after the date on which we exercise our option to pay interest in lieu of accrued original issue discount or accrued interest, if any, on the notes.

### **Modification**

The trustee and we may modify or amend the indenture or the notes with the consent of the holders of not less than a majority in aggregate principal amount at maturity of the notes then outstanding. However, the consent of the holders of each outstanding note would be required to:

alter the manner of calculation or rate of accrual of original issue discount or interest on any note or change the time of payment;

make any note payable in money or securities other than that stated in the note;

change the stated maturity of any note;

reduce the principal amount at maturity, restated principal amount, issue price, accrued original issue discount, redemption price, purchase price or change of control purchase price with respect to any note;

- make any change that adversely affects the rights of a holder to convert any note;
  - make any change that adversely affects the right to require us to purchase a note;
  - impair the right to institute suit for the enforcement of any payment with respect to, or conversion of, the notes;
  - change the provisions in the indenture that relate to modifying or amending the indenture; and
  - release any guarantor from any of its obligations under its guarantee other than in accordance with the terms of the indenture.
- Without the consent of any holder of notes, the trustee and we may enter into supplemental indentures for any of the following purposes:
- to evidence a successor to us and the assumption by that successor of our obligations under the indenture and the notes;
  - to add to our covenants for the benefit of the holders of the notes or to surrender any right or power conferred upon us;
  - to secure our obligations in respect of the notes;
  - to cure any ambiguity or inconsistency in the indenture; or
  - to make any change that does not adversely affect the rights of any holder of the notes.

The holders of a majority in principal amount at maturity of the outstanding notes may, on behalf of all the holders of all notes:

- waive compliance by us with restrictive provisions of the indenture, as detailed in the indenture; and

- waive any past default under the indenture and its consequences, except a default in the payment of the principal amount at maturity, issue price, accrued and unpaid interest, accrued original issue discount, redemption price, purchase price or change of control purchase price or obligation to deliver common stock upon conversion with respect to any note or in respect of any provision which under the indenture cannot be modified or amended without the consent of the holder of each outstanding note affected.

#### **Discharge of the Indenture**

We may satisfy and discharge our obligations under the indenture by delivering to the trustee for cancellation all outstanding notes or by depositing with the trustee, the paying agent or the conversion agent, if applicable, after the notes have become due and payable, whether at stated maturity or any redemption date, or any purchase date, or a change of control purchase date, or upon conversion or otherwise, cash or shares of common stock (as applicable under the terms of the indenture) sufficient to pay all of the outstanding notes and paying all other sums payable under the indenture.

#### **Calculations in Respect of Notes**

We are responsible for making all calculations called for under the notes. These calculations include, but are not limited to, determination of the market prices of our common stock. We are required to make all these calculations in good faith and, absent manifest error, our calculations are final and binding on holders of notes. We are required to provide a schedule of our calculations to the trustee, and the trustee is entitled to rely upon the accuracy of our calculations without independent verification.

#### **Limitations of Claims in Bankruptcy**

If a bankruptcy proceeding is commenced in respect of Mesa Air or any guarantor, the claim of a holder of a note is, under Title 11 of the United States Code, limited to the issue price of the note plus that portion of the original issue discount, together with any cash interest, that has accrued from the date of issue to the commencement of the proceeding.

### **Governing Law**

The indenture and the notes and guarantees are governed by, and construed in accordance with, the law of the State of New York.

### **Information Concerning the Trustee**

U.S. Bank National Association is the trustee, registrar, paying agent and conversion agent under the indenture for the notes.

### **Book-Entry System**

The notes are issued in the form of global securities held in book-entry form. DTC or its nominee is the sole registered holder of the notes for all purposes under the indenture. Owners of beneficial interests in the notes represented by the global securities will hold their interests pursuant to the procedures and practices of DTC. As a result, beneficial interests in any such securities are shown on, and may only be transferred through, records maintained by DTC and its direct and indirect participants and any such interest may not be exchanged for certificated securities, except in limited circumstances. Owners of beneficial interests must exercise any rights in respect of their interests, including any right to convert or require purchase of their interests in the notes, in accordance with the procedures and practices of DTC. Beneficial owners are not holders and will not be entitled to any rights under the global securities or the indenture. Mesa Air and the trustee, and any of their respective agents, may treat DTC as the sole holder and registered owner of the global securities.

### **Exchange of Global Securities**

Notes represented by a global security are exchangeable for certificated securities with the same terms only if:

DTC is unwilling or unable to continue as depository or if DTC ceases to be a clearing agency registered under the Exchange Act and a successor depository is not appointed by us within 90 days;

we decide to discontinue use of the system of book-entry transfer through DTC (or any successor depository); or

a default under the indenture occurs and is continuing.

DTC has advised us as follows: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC facilitates the settlement of transactions among its participants through electronic computerized book-entry changes in participants' accounts, eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, including the underwriters, banks, trust companies, clearing corporations and other organizations, some of whom and/or their representatives, own DTC. Access to DTC's book-entry system is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

### **Registration Rights**

We and the guarantors entered into a registration rights agreement with the initial purchaser of the notes pursuant to which we, at our expense, for the benefit of the holders, agreed to file with the SEC a shelf registration statement covering resale of the notes and the shares of common stock issued upon conversion of the notes within 90 days after the first date of original issuance of the notes. We agreed to use our reasonable efforts to cause the shelf registration statement to become effective within 180 days of such first date of original issuance, and to keep a shelf registration statement effective until the earlier of (i) the sale pursuant to a shelf registration statement of all the securities registered thereunder and (ii) the expiration of the holding

period applicable to such securities held by persons that are not affiliates of Mesa Air under Rule 144(k) under the Securities Act or any successor provision, subject to certain permitted exceptions.

We will be permitted to suspend the use of a prospectus that is part of a shelf registration statement under certain circumstances relating to corporate developments, public filings with the SEC and similar events for a period not to exceed 45 days in any three-month period and not to exceed an aggregate of 120 days in any 12-month period. We will agree to pay predetermined liquidated damages as described herein ( liquidated damages ) to holders of the notes and holders of shares of common stock issuable upon conversion of the notes if a shelf registration statement is not timely filed or made effective or if the prospectus is unavailable for the periods in excess of those permitted above. Such liquidated damages shall accrue until such failure to file or become effective or unavailability is cured, (i) in respect of any notes, at a rate per year equal to 0.25% for the first 90 day period after the occurrence of such event and 0.50% thereafter of the applicable principal amount (as defined below) thereof and, (ii) in respect of any shares of common stock issued upon conversion at a rate per year equal to 0.25% for the first 90 day period and 0.50% thereafter of the then applicable conversion price (as defined below). So long as the failure to file or become effective or unavailability continues, we will pay liquidated damages in cash on February 10 and August 10 of each year to the holders of record of the notes or shares of common stock on the immediately preceding February 1 or August 1. When such registration default is cured, accrued and unpaid liquidated damages will be paid in cash to the record holder as of the date of such cure.

A holder who sells notes and shares of common stock issued upon conversion of the notes pursuant to the shelf registration statement generally will be required to be named as a selling securityholder in the related prospectus, deliver a prospectus to purchasers and be bound by certain provisions of the registration rights agreement that are applicable to such holder, including certain indemnification provisions. We will pay all expenses of a shelf registration statement, provide to each registered holder copies of such prospectus, notify each registered holder when the shelf registration statement has become effective and take certain other actions as are required to permit, subject to the foregoing, unrestricted resales of the notes and the shares of common stock issued upon conversion of the notes.

The term applicable principal amount means, as of any date of determination, with respect to each \$1,000 principal amount at maturity of notes, the sum of the initial issue price of such notes plus accrued original issue discount with respect to such notes through such date of determination or, if no notes are then outstanding, such sum calculated as if such notes were then outstanding.

The term applicable conversion price means, as of any date of determination, the applicable principal amount per \$1,000 principal amount at maturity of notes as of such date of determination divided by the conversion rate in effect as of such date of determination or, if no notes are then outstanding, the conversion rate that would be in effect were notes then outstanding.

We agreed in the registration rights agreement to give notice to all holders of the filing and effectiveness of a shelf registration statement by release made to Reuters Economic Services and Bloomberg Business News or other reasonable means of distribution.

**The summary herein of certain provisions of the registration rights agreement is subject to, and is qualified in its entirety by reference to, all the provisions of the registration rights agreement, a copy of which is available upon request to Mesa Air.**

## DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 75,000,000 shares of common stock, no par value per share, and 2,000,000 shares of preferred stock, no par value per share.

### Common Stock

This prospectus covers, and the registration statement of which it is a part, registers the 6,920,415 shares of common stock issuable upon conversion of the notes.

The shares issued upon the conversion of the notes are subject to specified anti-dilution provisions set forth in the indenture relating to the notes.

As of May 11, 2004, there were 31,703,874 shares of common stock outstanding and held of record by 1,181 stockholders. The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. Cumulative voting for the election of directors is not permitted subject to preferences that may be applicable to any outstanding shares of preferred stock, the holders of common stock are entitled to receive ratably those dividends as may be declared by the board of directors out of funds legally available therefor. In the event of a liquidation, our dissolution or winding up, holders of the common stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preferences of any outstanding shares of preferred stock. Holders of common stock have no preemptive rights and no right to convert their common stock into any other securities. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of common stock are, and all shares of common stock to be outstanding upon completion of the offering will be, fully-paid and nonassessable. Our common stock is listed on the Nasdaq National Market under the symbol MESA.

### Preferred Stock

There are, and upon completion of the offering, there will be, no shares of preferred stock outstanding. The board of directors has the authority, without further action by the stockholders, to issue up to 2,000,000 shares of preferred stock, no par value per share, in one or more series and to fix the powers, preferences, privileges, rights and qualifications, limitations or restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences, sinking fund terms and the number of shares constituting any series or the designation of the series, without any further vote or action by stockholders. We believe that the board of directors' authority to set the terms of, and our ability to issue, preferred stock will provide flexibility in connection with possible financing transactions in the future. The issuance of preferred stock, however, could adversely affect the voting power of holders of common stock, and the likelihood that the holders will receive dividend payments and payments upon liquidation and could have the effect of delaying, deferring or preventing a change of control in us. We have no present plan to issue any shares of preferred stock.

### Anti-Takeover Provisions of Nevada Law

We are subject to the provisions of the Nevada private corporation law, which are anti-takeover provisions. In general, the provisions of Sections 78.411-444 prohibit a publicly held Nevada corporation from engaging in a business combination with an interested stockholder for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an interested stockholder is a person who, together with affiliates and associates, owns or within three years prior to the determination of interested stockholder status, did own, 10% or more of a corporation's voting stock. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

### Registration Rights

In February 2002, we reached an agreement with Raytheon Aircraft Credit Company to reduce the operating costs of its Beechcraft 1900D fleet. In consideration for Raytheon's financial accommodations under that agreement, we granted Raytheon an option to purchase up to 233,068 warrants over a three-year period pursuant to a warrant purchase agreement. Each warrant entitles the holder to purchase one share of common stock. Pursuant to the warrant purchase agreement, Raytheon has the right to cause us to register shares of common stock under the Securities Act. Under the terms of the warrant purchase agreement, Raytheon has the right so long as it holds any warrants or warrant shares, to require us to file a registration statement under the Securities Act covering all of the warrant shares held by them and to request that such registration remain effective until October 15, 2006. In addition, the warrant purchase agreement provides for piggyback registration rights with respect to the warrant shares whenever we file a registration statement on a registration form that can be used to register the warrant shares held by Raytheon. Raytheon must pay its *pro rata* share of the registration expenses and reasonable maintenance cost incurred in connection with these registrations. We filed a registration statement with the SEC in 2003 to register the resale of the Company's senior convertible notes due 2023 and the shares of common stock issuable upon conversion of such notes. Raytheon exercised its piggyback registration rights in connection with this SEC filing.

We also granted registration rights to the holders of our senior convertible
