QUADRAMED REPORTS ON NASDAQ LISTING STATUS

San Rafael, California - Tuesday, December 10, 2002 - QuadraMed Corporation (Nasdaq:QMDCE) today announced that it has applied to the Nasdaq Listing Qualifications Panel for an extension of time to permit the continued listing of the Company's securities on the Nasdaq National Market until the Company makes its required filings with the Securities and Exchange Commission, including the Forms 10-Q for the quarters ended June 30 and September 30, 2002 and its restated financial statements for the years ended December 31, 1999, 2000 and 2001 and the quarter ended March 31, 2002.

The Nasdaq Listing Qualifications Panel is currently reviewing QuadraMed's request. Nasdaq staff has advised QuadraMed that, while the request is under consideration, the Listing Qualification Panel will not enforce its previously established December 16, 2002 deadline by which QuadraMed was to make its SEC filings. QuadraMed cannot anticipate and cannot offer assurances as to the date by which the Listing Qualification Panel will make a decision on QuadraMed's request for an extension or on its continued listing.

QuadraMed reiterated it was making every effort to complete the audit and quarterly review phase of the financial statements as quickly as possible.

The Company also clarified a statement in its press release issued earlier today regarding the forensic procedures being performed by Deloitte and Touche LLP. Deloitte has reported to the QuadraMed audit committee that its previously announced forensic procedures have not revealed any indications of fraud or intentional wrongdoing related to the years ended December 31, 2001 and 2000. Deloitte, however, is still reviewing issues concerning the rationale for several items already announced to be part of the restatement of the financial statements for the year ended December 31, 1999. The passage of time, changes in the Company's management and financial and accounting staff, and the fact that Arthur Andersen LLP was the 1999 auditor, make it unlikely that the Company will be able to conclusively determine whether the rationale for these 1999 items was appropriate. The inability to reach a conclusion as to the rationale for these items is not expected to affect the timing of the

Company's completion of its internal work on the restatement.
