## (1) BASIS OF PRESENTATION AND ACCOUNTING POLICIES

#### Abstract

The unaudited, condensed consolidated financial statements of Nature's Sunshine Products, Inc. and subsidiaries (together, the Company ) included herein have been prepared pursuant to the rules and regulations of the United States Securities and Exchange Commission. Certain information and footnote disclosures normally required in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes the following disclosures are adequate to make the information presented not misleading.

These unaudited, condensed consolidated financial statements reflect all adjustments, which in the opinion of management are necessary to present fairly the Company's financial position as of March 31, 2005, and the results of its operations and its cash flows for the periods presented. All of the adjustments which have been made in these condensed consolidated financial statements are of a normal recurring nature. Operating results for the three months ended March 31, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005.

Certain reclassifications have been made in the quarter ended March 31, 2004 consolidated financial statements to conform to the current year presentation. During the quarter ended March 31, 2004, we reclassified to Sales Revenue $\$ 782$ of membership fees that were previously recorded as a decrease to selling, general and administrative expenses.

These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

## (2) RECENT ACCOUNTING PRONOUNCEMENTS

In April 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 (SAB No. 107), delaying the required implementation of SFAS No. 123R. Under SAB No. 107, SFAS No. 123R is effective as of the beginning of the first annual reporting period that begins after June 15, 2005.

The Financial Accounting Standards Board (FASB) issued SFAS No. 123R, Share-Based Payment.. SFAS No. 123 R requires us to recognize the cost of employee services received in exchange for our equity instruments.

Currently, in accordance with APB Opinion 25, we record the intrinsic value of stock-based compensation as expense. Accordingly, no compensation expense is currently recognized for fixed stock option plans as the exercise price equals the stock price on the date of grant. Under SFAS No. 123R, we

## Edgar Filing: NATURES SUNSHINE PRODUCTS INC - Form 10-Q

will be required to measure compensation expense over the stock options vesting period based on the stock options fair value at the date the options are granted. SFAS No. 123R allows for the use of the Black-Scholes or a lattice option-pricing model to value such options. We have determined that we will use the Black-Scholes option-pricing model to calculate the fair value of our options. As allowed by SFAS No. 123R, we can elect either Modified Prospective Application, which applies SFAS No. 123R to new awards and modified awards after the effective date, and to any unvested awards as service is rendered on or after the effective date, or Modified Retrospective Application which can apply SFAS No. 123R to either all prior years for which SFAS No. 123 was effective or only to prior interim periods in the year of adoption. We are currently evaluating which method of application will be used. Note 9 of the Notes to Consolidated Financial Statements illustrates the effects on net income and earnings per share if we had adopted SFAS No. 123, Accounting for Stock-Based Compensation, using the Black-Scholes option-pricing model. Management does not believe the adoption will have a material effect on the Company s results of operations, financial condition or liquidity.

In December 2004, the FASB issued SFAS No. 151, "Inventory Costs, an amendment of ARB No. 43, Chapter 4," which requires that abnormal amounts of idle facility expense, freight, handling costs and wasted material (spoilage) be recognized as current-period charges. In addition, the statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS No. 151 is effective for fiscal years beginning after June 15, 2005. The Company will adopt this statement as required, and management does not believe the adoption will have a material effect on the Company's results of operations, financial condition or liquidity.

As of March 31, 2005, the Company determined that none of its intangible assets are impaired. Amortization expense for intangible assets for the three months ended March 31, 2005 and 2004, was $\$ 75$ and $\$ 96$, respectively. Estimated amortization expense for the remainder of 2005 and the five succeeding fiscal years is as follows:

## Estimated Amortization

|  | Expense |  |

## (5) NET INCOME PER COMMON SHARE

Basic net income per common share or Basic EPS is computed by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted net income per common share Diluted EPS reflects the potential dilution that could occur if stock options or other contracts to issue common stock were exercised or converted into common stock. The computation of Diluted EPS does not assume exercise or conversion of common stock equivalents that would have an anti-dilutive effect on net income per common share. For periods in which the Company incurs losses, Diluted EPS does not assume the exercise or conversion of common stock equivalents.

As of March 31, 2005, the Company had a total of 1,276 common stock options outstanding. These options were granted at fair market value and have a weighted-average exercise price of $\$ 9.01$ per share.

The following is a reconciliation of the numerator and denominator of Basic EPS to the numerator
and denominator of Diluted EPS for the three months ended March 31, 2005 and 2004.

|  | Net Income | Shares | Per Share |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  | (Dumerator) |  |
| (Denominator) | Amount |  |  |  |  |

For the three months ended March 31, 2005 and 2004, there were outstanding options to purchase 15 and 247 shares of common stock, respectively, that were not included in the computation of Diluted EPS, as their effect would have been anti-dilutive.

## (6) EQUITY TRANSACTIONS

The Company has declared consecutive quarterly cash dividends since 1988. During the first quarter, the Company paid a dividend of 5 cents per common share on March 18, 2005 to shareholders of record on March 9, 2005.

Common shares held as treasury stock totaled 4,385 at March 31, 2005 compared to 4,571 at December 31, 2004. Common shares held as treasury stock decreased as a result of common shares issued from treasury stock for the exercise of stock options. For the three months ended March 31, 2005 and 2004, the Company issued 186,690 and 552,690 shares, respectively, of treasury stock upon the exercise of stock options at an average price of $\$ 8.68$ and $\$ 7.78$, respectively. As of March 31, 2005, the Company has no current Board authorization to purchase additional common shares on the open market.

## (7) OPERATING LINE OF CREDIT

The Company has an operating line of credit with an interest rate equal to LIBOR plus 1.5 percent, which provides for borrowings of up to $\$ 15,000$. Borrowings under this line of credit may be used to repurchase shares of the Company s outstanding common stock under Board-authorized repurchase programs, as well as to fund working capital, capital expenditures, and related costs. As of March 31, 2005, the Company did not have a common stock repurchase program in place. The outstanding borrowings under this line of credit at March 31, 2005 totaled $\$ 10,000$. The line of credit is unsecured and matures July 1, 2006. However, the Company intends to pay off the line of credit
during 2005 and therefore it has been classified as current. The line of credit contains various terms and conditions,
including affirmative and negative financial covenants. As of March 31, 2005, the Company was in compliance with these covenants.

## (8) ACCUMULATED OTHER COMPREHENSIVE LOSS

The composition of accumulated other comprehensive loss, net of tax, is as follows:

|  | Foreign Currency Translation <br> Adjustments | Unrealized Gains On <br> Available-For-Sale Securities | Total Accumulated Other <br> Comprehensive Loss |  |  |
| :--- | :---: | :---: | :---: | :---: | ---: |
| Balance as of December 31, 2004 | $\$$ | $(18,347)$ | $\$$ | 124 | $\$$ |

## (9) STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation plans for employees and directors under Accounting Principles Board Opinion No. 25, under which no compensation cost has been recognized in the accompanying condensed consolidated statements of income (loss) for the three months ended March 31, 2005 and 2004. Had compensation cost been determined consistent with SFAS No. 123, Accounting for Stock-Based Compensation , as amended by SFAS No. 148, the Company s net income and net income per share would have been reduced to the following pro forma amounts:

|  |  | \$ | Three Months Ended |  |  |

(10) SEGMENT INFORMATION

The Company has three operating segments. These operating segments are components of the Company for which separate information is available that is evaluated regularly by management in
deciding how to allocate resources and assess performance. The Company evaluates performance based on operating income, among other things.

The Company has three operating segments, which includes a United States segment and an international segment that operate under the Nature s Sunshine Products name, as well as a third operating segment that operates under the Synergy Worldwide name. The segments have similar business characteristics and each offers similar products through similar methods of distribution. Inter-segment sales, eliminated in consolidation, are not material. The Company evaluates performance based on operating income (loss) by segment before consideration of certain inter-segment transfers and expenses. This information is used by the chief operating decision maker to assess the segments performance and in allocating the Company s resources. During the three-month period ended September 30, 2004, the Company changed the composition of its operating segments as a result of converting certain locations from Nature s Sunshine to Synergy Operations and has restated the corresponding items of segment information for prior periods.

Operating segment information is as follows:

Segment assets as of March 31, 2005 and December 31, 2004, are as follows:

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND

## RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the interim financial information included in this Form 10-Q as well as the consolidated financial statements, the notes thereto, and management s discussion and analysis included in our Annual Report on Form 10-K for the year ended December 31, 2004.

## SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The following Management s Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q may contain forward-looking statements. Such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements may relate but not be limited to projections of revenues, income or loss, capital expenditures, plans for growth and future operations, financing needs, product liability claims and availability of insurance, as well as assumptions relating to the foregoing. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. When used in Management s Discussion and Analysis of Financial Condition and Results of Operations , and elsewhere in this Form 10-Q the words estimates , expects , anticipates , projects , plans , intends and variations of such words and similar expressions intended to identify forward-looking statements that involve risks and uncertainties. Future events and actual results could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. For factors which could affect such results, see the description of our business contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2004.

## CRITICAL ACCOUNTING POLICIES

## Revenue Recognition

We recognize sales revenue when products are shipped and title passes to our independent distributors. For most product sales, the sales price is received in the form of cash or credit card payment, which accompanies or precedes the shipment of the orders. As products are shipped, persuasive evidence of an arrangement exists, delivery has occurred, the price to the buyer is fixed, and collectibility is reasonably assured. A reserve for product returns, which reduces revenue, is accrued based on historical experience. From time to time, our United States operation extends short-term credit associated with product promotions. For certain of our international operations, we offer credit terms consistent with industry standards within the country of operation. Amounts received for unshipped merchandise are not recognized as revenue but rather they are recorded as customer deposits and are included in accrued liabilities.

## Edgar Filing: NATURES SUNSHINE PRODUCTS INC - Form 10-Q

Volume Incentives Accrual

We accrue for expenses for volume incentives associated with our net sales revenue. Volume incentives are a significant part of our direct sales marketing program and represent payments made to our independent Distributors and Managers. As required by EITF 01-9, we record rebates as a reduction in revenue. As a result, volume incentive expense is reduced by the corresponding amounts each year. We specifically analyze volume incentives based on historical and current sales trends when evaluating the adequacy of the accrued volume incentives.

## Self-insurance Liabilities

We self insure for certain employee medical and specific product liabilities. The recorded liabilities for self-insured risks are calculated using actuarial methods and are not discounted. The liabilities include amounts for actual claims and claims incurred but not reported. Actual experience, including claim frequency and severity as well as health care inflation, could result in actual liabilities being more or less than the amounts currently recorded.

## Incentive Trip Accrual

We accrue for expenses of incentive trips associated with our direct sales marketing program, which rewards independent Distributors and Managers with paid attendance at our conventions and meetings. Expenses associated with incentive trips are accrued over qualification periods as they are earned. We specifically analyze incentive trip accruals based on historical and current sales trends as well as contractual obligations when evaluating the adequacy of the incentive trip accrual. Actual results could result in liabilities being more or less than the amounts recorded.

## RESULTS OF OPERATIONS

The following table identifies for the three-month periods (i) the relationship that net income items disclosed in the condensed consolidated financial statements have to total sales, and (ii) the amount and percent of change of such items compared to the corresponding prior period.

| Income and | March 31, |  |  | of |

| Net income (loss) | 4.6\% | 3.8\% \$ | 979 | 32.8\% |

## Net Sales Revenue

Net sales revenue for the three months ended March 31,2005 was $\$ 86.4$ million compared to $\$ 77.7$ million for the same period in the prior year, an increase of approximately 11.2 percent. The increase in net sales revenue for the three months ended March 31, 2005 reflects higher net sales revenue in our Synergy Worldwide, International and United States operations due to increased volumes.

Net sales revenue in our United States operation for the three months ended March 31, 2005, was $\$ 37.6$ million, an increase of approximately 2.2 percent, compared to the same period in the prior year. Operating income totaled $\$ 2.2$ million compared to $\$ 1.1$ million for the same period of the prior year.

Our international operations reported net sales revenue of $\$ 28.6$ million for the three months ended March 31, 2005, an increase of approximately 12.1 percent compared to the same period in the prior year. First quarter performances were particularly strong in the Russia Federation, Japan, Canada and the United Kingdom and Ireland. The increase in net sales revenue reflects the continued increase in Distributors and Managers in the Company s international operations. Operating income totaled $\$ 3.0$ million compared to $\$ 2.2$ million for the same period of the prior year.

Edgar Filing: NATURES SUNSHINE PRODUCTS INC - Form 10-Q

## Edgar Filing: NATURES SUNSHINE PRODUCTS INC - Form 10-Q

Net sales revenue in Synergy Worldwide was $\$ 20.2$ million for the three months ended March 31, 2005, compared to $\$ 15.4$ million for the same period of the prior year as a result of an increase of active Distributors. Net sales revenue in the first quarter of 2005 decreased from $\$ 23.5$ million in the fourth quarter of 2004 as a result of a decrease in Distributors in connection with a change to a new on-the-ground distribution method where products are shipped from our distribution center in Japan, rather than from our Utah distribution center. The change was completed during the first quarter of 2005. Synergy Worldwide has international operations in Japan, Thailand, Taiwan, Australia, South Korea, and Singapore. Operating income totaled $\$ 0.4$ million compared to $\$ 0.3$ million for the same period of the prior year.

Our independent sales force consists of Managers and Distributors. A Distributor interested in earning additional income by committing more time and effort to selling our products may attain the rank of Manager . Appointment as a Manager is dependent upon attaining certain volume levels and demonstrating leadership abilities. The number of Managers as of March 31, 2005 was approximately 20,650, compared to approximately 18,375 as of December 31, 2004. The number of Distributors at March 31, 2005, was approximately 637,000 compared to approximately 665,000 as of December 31, 2004. Our Synergy division accounted for the decrease in Distributors since December 31, 2004 due to the implementation of our new on-the-ground distribution method.

## Cost of Goods Sold

For the three months ended March 31, 2005, cost of goods sold, as a percent of net sales revenue, decreased to 17.0 percent compared to 19.8 percent for the same period in the prior year as a result of the increase in net sales revenue in Synergy Worldwide where cost of goods sold are slightly lower, as well as from increased efficiency in our manufacturing operations. We expect cost of goods sold to increase slightly, as a percent of net sales revenue during the remainder of 2005 compared to the three months ended March 31, 2005.

## Volume Incentives

Volume incentives are commissions paid to independent sales force members for reaching certain levels of net sales revenue performance and organizational development and are an integral part of our direct sales marketing program. Volume incentives vary slightly, on a percentage basis, by product due to our pricing policies and commission plans in place in our international operations. For the three months ended March 31, 2005, volume incentives, as a percent of net sales, increased to 38.8 percent compared to 38.0 percent for the same period in the prior year primarily as a result of the increase in the Synergy Worldwide net sales revenue where volume incentives are slightly higher. We expect volume incentives to remain relatively constant, as a percent of net sales, during the remainder of 2005 compared to the three months ended March 31, 2005.

# Edgar Filing: NATURES SUNSHINE PRODUCTS INC - Form 10-Q 

## Selling, General and Administrative

Selling, general and administrative expenses for the three months ended March 31, 2005, increased $\$ 3.5$ million, or 11.9 percent, compared to the same period of the prior year primarily as a result of increased selling, general and administrative expenses associated with the expansion of Synergy Worldwide in Japan. Selling, general and administrative expenses as a percent of net sales revenue were 37.8 percent compared to 37.6 percent for the same period in the prior year. For the remaining quarters of 2005, we expect selling, general and administrative expenses, as a percent of net sales, to decrease as compared to the three months ended March 31, 2005 as a result of benefits from cost controls as well as continued growth in net sales revenue.

## Other Income (Expense)

Other income (expense) for the three months ended March 31, 2005, decreased $\$ 0.8$ million, or 91.2 percent, compared to the same period of the prior year primarily due to foreign exchange losses in certain markets.

## Income Tax

The effective income tax rate for the three months ended March 31, 2005 and 2004, was approximately 29.5 and 33.0 percent, respectively. For the balance of the year ending December 31, 2005, management expects the effective income tax rate to increase slightly.

## Product Liability

Similar to other manufacturers and distributors of products that are ingested, we face an inherent risk of exposure to product liability claims in the event that, among other things, the use of our products results in injury. As a result of increased regulatory scrutiny of products that contain ephedrine alkaloids and kava, we have not been able to obtain product liability insurance covering such products. Effective April 12, 2004, we complied with the U.S. Food and Drug Administrations ban on the ingredient ephedra. On June 1, 2003, we established a wholly owned captive insurance company to provide us with product liability insurance coverage. We have accrued an amount that we believe is sufficient to cover probable and reasonably estimable liabilities related to product liability claims based on our history of such claims. However, there can be no assurance that these estimates will prove to be sufficient nor can there be any assurance that the ultimate outcome of any litigation for product liability will not have a material negative impact on our business prospects, financial position, results of operations or liquidity.

severity as well as health care inflation, could result in actual liabilities being more or less than the amounts currently recorded.

## Balance Sheet

## Accrued Volume Incentives

Accrued volume incentives increased $\$ 1.7$ million, or 11.3 percent, as of March 31, 2005, compared to December 31, 2004 as a result of increases in net sales revenue during the quarter ended March 31, 2005.

## Accrued Liabilities

Accrued liabilities decreased approximately $\$ 4.4$ million, or 21.2 percent, as of March 31, 2005, compared to December 31, 2004, as a result of the payment of amounts accrued for our management and employee bonus plans of $\$ 6.1$ million, which was offset in part by the timing of incentive trip accruals associated with our direct sales marketing program.

## LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents increased approximately $\$ 4.0$ million as of March 31, 2005 compared to December 31, 2004. The increase in cash and cash equivalents is primarily the result of cash provided by operating activities of $\$ 1.7$ million, proceeds of $\$ 1.6$ million from the exercise of stock options, and proceeds from our line of credit of $\$ 2.5$ million. These cash inflows were offset, in part by the decrease of $\$ 0.9$ million associated with the purchase of property, plant and equipment.

The Company has an unsecured operating line of credit with an interest rate equal to LIBOR plus 1.5 percent, which provides for borrowings of up to $\$ 15.0$ million. Borrowings under this line of credit may be used to repurchase common shares of the Company s outstanding stock under Board-authorized repurchase programs as well as to fund working capital, capital expenditures, and related costs. We currently do not have a common stock repurchase program in place. Outstanding borrowings under this line of credit at March 31, 2005 totaled $\$ 10.0$ million. The line of credit is unsecured and matures July 1, 2006. However, the Company intends to pay off the line of credit during 2005 and therefore it has been classified as current. The line of credit contains various terms and conditions, including affirmative and negative financial covenants. As of March 31, 2005, the Company was in compliance with these covenants.

We believe that working capital requirements can be met for the foreseeable future through our available cash and cash equivalents, cash generated from operating activities, and borrowings from our operating line of credit; however, a prolonged economic downturn or a decrease in the demand for our products could adversely affect our long-term liquidity. In the event of a significant decrease in cash provided by operating activities, it might be necessary for us to obtain additional external sources of funding.

## Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### Abstract

We conduct our business in several countries and intend to continue to expand our foreign operations. Net sales revenue, operating income and net income are affected by fluctuations in currency exchange rates, interest rates and other uncertainties inherent in doing business and selling product in more than one currency. In addition, our operations are exposed to risks associated with changes in social, political and economic conditions inherent in foreign operations, including changes in the laws and policies that govern foreign investment in countries where we have operations as well as, to a lesser extent, changes in United States laws and regulations relating to foreign trade and investment.

## Foreign Currency Risk

During the three months ended March 31, 2005, approximately 56.5 percent of our revenue and 56.2 percent of our expenses were realized outside of the United States. Inventory purchases are transacted primarily in U.S. dollars from vendors located in the United States. The local currency of each international subsidiary is considered its functional currency, and all sales and expenses are translated at average exchange rates for the reported periods. Therefore, our operating results generally will be positively impacted by a weakening of the U.S. dollar and will be negatively impacted by a strengthening of the U.S. dollar. Given the uncertainty of exchange rate fluctuations, we cannot estimate the effect of these fluctuations on our future business, product pricing, results of operations or financial condition. Changes in currency exchange rates affect the relative prices at which we sell our products. We regularly monitor our foreign currency risks and periodically take measures to reduce the risk of foreign exchange rate fluctuations on our operating results. We do not use derivative instruments for hedging, trading or speculating on foreign exchange rate fluctuations.

During the first quarter of 2005 the Dominican Republic became highly inflationary. The functional currency in highly inflationary economies is the U.S. dollar and transactions denominated in the local currency are re-measured as if the functional currency were the U.S. dollar. The re-measurement of local currencies into U.S. dollars creates translation adjustments, which are included in the consolidated statements of income and comprehensive income.

The following table sets forth average currency exchange rates of one U.S. dollar into local currency for each of the countries in which net sales revenue exceeded $\$ 10.0$ million during any of the previous two years.

| Three months ended March 31, | $\mathbf{2 0 0 5}$ | $\mathbf{2 0 0 4}$ |
| :--- | ---: | ---: | ---: |
| Mexico | 11.2 | 11.0 |
| South Korea | $1,023.5$ | $1,172.3$ |
| Venezuela | $1,984.1$ | $1,773.1$ |

## Interest Rate Risk

#### Abstract

We have investments included in cash and cash equivalents and long term investments, which by nature are subject to market risk. At March 31, 2005, we had investments totaling $\$ 8.4$ million of which $\$ 4.6$ million were held as municipal obligations, carry an average fixed interest rate of 4.89 percent and mature over a five-year period. A hypothetical one percent change in interest rates would not have a material affect on our liquidity, financial position, or results of operations. Our remaining investments of $\$ 3.8$ million are not subject to interest rate risk but by their nature are subject to market risk.

The Company s line of credit carries a variable interest rate. As of March 31, 2005, the Company had $\$ 10.0$ million in borrowings on this line. The Company does not hedge against changes in interest rates. An increase in the effective interest rate of 1.0 percent would increase interest expense by $\$ 10,000$ for every $\$ 1.0$ million that the Company had outstanding on its line of credit for a full year.

## Item 4. DISCLOSURE CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures. Our management, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of our controls and procedures related to our reporting and disclosure obligations as of March 31, 2005, which is the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective to provide that (a) material information relating to us, including our consolidated subsidiaries, is made known to these officers by other employees of us and our consolidated subsidiaries, particularly material information related to the period for which this periodic report is being prepared; and (b) this information is recorded, processed, summarized, evaluated and reported, as applicable, within the time periods specified in the rules and forms of the Securities and Exchange Commission.
(b) Changes in internal controls. There were no changes that occurred during the fiscal quarter covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonable likely to materially affect, our internal controls over financial reporting.

## PART II OTHER INFORMATION

## Item 1. LEGAL PROCEEDINGS

We are a defendant in various lawsuits which are incidental to our business. After consultation with legal counsel, we believe that the ultimate disposition of these matters will not have a material adverse effect upon our consolidated results of operations, financial position, or liquidity.

## Item 5. OTHER INFORMATION

The Board of Directors annually adopts a compensation policy for non-employee directors, which sets out fees and other compensation payable to non-employee directors of our Company. The Non-Employee Director Compensation Policy for 2005, which was adopted November 12, 2004, is attached as Exhibit 10.1 to this Quarterly Report on Form 10-Q. In addition, on February 22, 2005, Daren G. Hogge and Craig D. Huff, both executive officers of Nature s Sunshine Products, Inc., were paid bonuses pursuant to a program other than our Incentive Compensation Plan. A description of the bonus program and the bonuses paid is included as Exhibit 10.2 to this Quarterly Report on Form 10-Q.
