#### NOTES TO SCHEDULE OF INVESTMENTS:

- Λ All or a portion of this security is on loan. The value of all securities on loan is \$28,120. The security has a perpetual maturity. The date shown is the next call date.
- Coupon rate is fixed for a predetermined period of time and then converts to a floating rate until maturity/call date. Rate is listed as of 09/30/2008.
- Repurchase agreement is collateralized by a U.S. Government Agency Obligation with an interest rate of 2.84%, a maturity date of 12/15/2034, and with a market value plus accrued interest of \$11,520.

State Street Bank & Trust serves as the accounting, custody, and lending agent for the Fund and provides various services on behalf of the Fund.

Interest rate shown reflects the yield at 09/30/2008.

# Aggregate cost for federal income tax purposes is \$159,697. Aggregate gross unrealized appreciation/depreciation for all securities in which there is an excess of value over tax cost were \$670 and \$8,648, respectively. Net unrealized depreciation for tax purposes is \$7,978.

#### **DEFINITIONS:**

144A Securities are registered pursuant to Rule 144A of the Securities Act of 1933. These securities are deemed to be liquid for purposes of compliance limitations on holdings of illiquid securities and may be resold as transactions exempt from registration, normally to qualified institutional buyers. At 09/30/2008, these securities aggregated \$17,324 or 14.27% of the Fund s net assets.

LLC Limited Liability Corporation

LP Limited Partnership
PLC Public Limited Company

The notes to financial statements are an integral part of this report.

Effective May 1, 2008, the Fund adopted the Financial Accounting Standards Board s Statement of Financial Accounting Standards No. 157, Fair Value Measurements. This standard defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Fund s investments. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risks associated with investing in those securities. See Note 1 for additional information.

The following is a summary of the inputs used to value the Fund s net assets as of September 30, 2008:

In	vestments in Securities			
Level 1	Level 2	Level 3	7	Total Investments in Securities
29,559	122,160		\$	151,719

#### GRAPHIC PRESENTATION OF PORTFOLIO HOLDINGS

(unaudited)

#### **Moody s Credit Rating Description**

Aa1	High grade obligations. Strong capacity to pay interest and repay principal.
Aa2	High grade obligations. Strong capacity to pay interest and repay principal.
Aa3	High grade obligations. Strong capacity to pay interest and repay principal.
A1	Upper medium grade obligations. Superior ability for repayments of senior short-term debt obligations.
A2	Upper medium grade obligations. Strong ability for repayments of senior short-term debt obligations.
A3	Upper medium grade obligations. Acceptable ability for repayments of senior short-term debt obligations.
B1	Moderate vulnerability to adverse business, financial and economic conditions but currently has the capacity to meet financial commitments.
B2	More vulnerable to adverse business, financial and economic conditions but currently has the capacity to meet financial commitments.
В3	Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.

Prime grade obligations. Exceptional financial security and ability to meet senior financial obligations.

Aaa

Moderate vulnerability in the near-term but faces major ongoing uncertainties in the event of adverse business, financial and economic conditions.

- Ba2 Vulnerable in the near-term but faces major ongoing uncertainties in the event of adverse business, financial and economic conditions.
- Ba3 More vulnerable in the near-term but faces major ongoing uncertainties in the event of adverse business, financial and economic conditions.
- Baa1 Medium grade obligations. Interest payments and principal security are adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over great length of time.
- Baa2 Medium grade obligations. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over great length of time.
- Baa3 Medium grade obligations. Interest payments and principal security are not as adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over great length of time.
- Caal Highly vulnerable. May be in default on their policyholder obligations or there may be present elements of danger with respect to payment of policyholder obligations and claims.
- NR Not Rated

UNDERSTANDING YOUR FUND S EXPENSES
(unaudited)
SHAREHOLDER EXPENSES
Fund shareholders may incur ongoing costs, including management and advisory fees, distribution and service fees, and other fund expenses.
The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in the Fund and to compare these costs with the ongoing costs of investing in other funds.
The example is based on an investment of \$1,000 invested at April 1, 2008 and held for the entire period until September 30, 2008.
ACTUAL EXPENSES
The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line of your Fund under the heading entitled Expenses Paid During Period to estimate the expenses you paid on your account during this period. If your account is an IRA your expenses could have included a \$15 annual fee. The amount of any fee paid through your account would increase the estimate of expenses you paid during the period and decrease your ending account value.
HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges, redemption fees, brokerage commissions paid on purchases and sales of fund shares. Therefore, the second line under the Fund in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If any of these transaction costs were included, your costs would be higher. The expenses shown in the table do not reflect any fees that may be charged

to you by brokers, financial intermediaries or other financial institutions.

	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	Expenses Paid During Period (a)
Actual	\$ 1,000.00	\$ 963.42	0.74%	\$ 3.57
Hypothetical (b)	1,000.00	1,021.30	0.74	3.79

<sup>(</sup>a) Expenses are calculated using the Fund's annualized expense ratio (as disclosed in the table), multiplied by the average account value for the period, multiplied by the number of days in the period (183 days), and divided by the number of days in the year (365 days).

<sup>(</sup>b) 5% return per year before expenses.

NOTES TO FINANCIAL STATEMENTS

At September 30, 2008
(all amounts in thousands)
(unaudited)
NOTE 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES
Transamerica Income Shares, Inc. (the Fund ) is registered under the Investment Company Act of 1940, as amended (the 1940 Act ), as a
diversified, closed-end management investment company. The Fund s investment objective is to seek as high a level of current income consistent with prudent investment, with capital appreciation as only a secondary objective.
In the normal course of business the Fund enters into contracts that contain a variety of representations and warranties, which provide general
indemnifications. The Fund s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.
In preparing the Fund s financial statements in accordance with accounting principles generally accepted in the United States of America

Securities Valuations: Fund investments traded on an exchange are valued at the last sale price or closing price on the day of valuation on the exchange where the security is principally traded.

( GAAP ), estimates or assumptions (which could differ from actual results) may be used that affect reported amounts and disclosures. The

following policies were consistently followed by the Fund, in accordance with GAAP.

Certain debt securities are valued based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service or a major market maker; however, those that mature in sixty days or less are valued at amortized cost, which approximates market.

Other securities for which quotations are not readily available or whose values have been determined to be unreliable are valued at fair market value as determined in good faith by Transamerica Asset Management, Inc. s ( TAM ) Valuation Committee under the supervision of the Board of Directors.

In September 2006, the Financial Accounting Standards Board (FASB) issued Standard No. 157, Fair Value Measurements (FAS 157). FAS 157 is designed to unify guidance for the measurement of fair value of all types of assets, including financial instruments, and certain liabilities, throughout a number of accounting standards. FAS 157 also establishes a hierarchy for measuring fair value in generally accepted accounting principles and expands financial statement disclosures about fair value measurements that are relevant to mutual funds. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and earlier application is permitted.

As of September 30, 2008, Management does not expect the adoption of FAS 157 to impact the amounts reported in the financial statements, however, additional disclosures will be required about the inputs used to develop the measurements of fair value and the effect of certain of the measurements reported in the Statement of Operations for a fiscal period.

Repurchase Agreements: The Fund is authorized to enter into repurchase agreements. The Fund, through its custodian, State Street Bank & Trust Company (State Street), receives delivery of the underlying securities, the value of which at the time of purchase is required to be an amount equal to at least 100% of the resale price. The Fund will bear the risk of value fluctuations until the security can be sold and may encounter delays and incur costs in liquidating the security. In the event of bankruptcy or insolvency of the seller, delays and costs may be incurred.

Securities Lending: The Fund may lend securities to qualified borrowers, with State Street acting as the Fund s lending agent. The Fund earns negotiated lenders fees. The Fund receives cash and/or securities as collateral against the loaned securities. Cash collateral received is invested in short-term, interest-bearing securities. The Fund monitors the market value of securities loaned on a daily basis and requires collateral in an amount at least equal to the value of the securities loaned.

Income from loaned securities on the Statement of Operations is net of fees. The fees earned by State Street for the period ended September 30, 2008 were \$9.

The value of loaned securities and related collateral outstanding at September 30, 2008 is shown in the Schedule of Investments and in the Statement of Assets and Liabilities.

Securities Transactions and Investment Income: Security transactions are recorded on the trade date. Security gains and losses are calculated on the specific identification basis. Dividend income, if any, is recorded on the ex-dividend date. Interest income, including accretion of discounts and amortization of premiums, is recorded on the accrual basis commencing on the settlement date.

**Dividend Distributions:** Dividend distributions are declared monthly. Capital gains distributions are declared annually. Distributions are generally paid in the month following the ex-date, on or about the fifteenth calendar day. See Automatic Reinvestment Plan on page 14 for opportunity to reinvest distributions in shares of the Fund s common stock.

#### NOTE 2. RELATED PARTY TRANSACTIONS

TAM is the Fund s investment adviser. Transamerica Fund Services ( TFS ) is the Fund s administrator. Mellon Investor Services LLC ( Mellon ) is the Fund s transfer agent. TAM and TFS are affiliates of AEGON, NV, a Netherlands corporation.

Certain officers and directors of the Fund are also officers and/or directors of TAM and TFS.

Transamerica Investment Management, LLC ( TIM ) is both an affiliate of the Fund and the sub-adviser to the Fund.

As of September 30, 2008, an investor owned 7.6% of the outstanding shares of the Fund.

12

NOTES TO FINANCIAL STATEMENTS
At September 30, 2008
(all amounts in thousands)
(unaudited)
NOTE 2. (continued)
<b>Investment Advisory Fees:</b> The Fund pays management fees to TAM based on average daily net assets ( ANA ) at the following rate:
0.50% of ANA
TAM currently voluntarily waives its advisory fee and will reimburse the Fund to the extent that operating expenses exceed the following stated limit:
1.50% of the first \$30 million of ANA
1.00% of ANA over \$30 million
There were no fees waived during the period ended September 30, 2008.
Administrative Services: The Fund has entered into an agreement with TFS for financial and legal fund administration services. The Fund pays TFS an annual fee of 0.02% of average net assets. The Legal fees on the Statement of Operations are fees paid to external legal counsel.
NOTE 3. SECURITY TRANSACTIONS
The cost of securities purchased and proceeds from securities sold (excluding short-term securities) for the period ended September 30, 2008 were as follows:

Purchases of securities:	
Long-term	\$ 34,030
U.S. Government	20,912
Proceeds from maturities and sales of securities:	
Long-term	37,701
U.S. Government	21,272

#### NOTE 4. FEDERAL INCOME TAX MATTERS

The Fund has not made any provision for federal income or excise taxes due to its policy to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments for items including, but not limited to, bond premium amortization, dividends payable and Post-October loss deferrals.

Therefore, distributions determined in accordance with tax regulations may differ significantly in amount or character from net investment income and realized gains for financial reporting purposes. Financial reporting records are adjusted for permanent book\tax differences to reflect tax character. Financial records are not adjusted for temporary differences.

The following capital loss carryforwards are available to offset future realized gains through the periods listed:

Capital Loss Carryforwards		Available Through
\$	49	March 31, 2014
\$	1,561	March 31, 2015
\$	1,697	March 31, 2016

#### NOTE 5. ACCOUNTING PRONOUNCEMENT

In March 2008, the FASB issued its new Standard No. 161, Disclosure About Derivative Instruments and Hedging Activities (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about a Funds derivative and hedging activities. Management is currently evaluating the impact the adoption of FAS 161 will have on the Funds financial statement disclosures.

#### NOTE 6. SUBSEQUENT EVENT

On October 21, 2008, the Board of Directors approved Lehman Brothers U.S. Aggregate Index ( LBAgg ) as the Fund s benchmark. The LBAgg benchmark reflects the universe of securities in which the Fund will invest.

#### AUTOMATIC REINVESTMENT PLAN

Holders of 50 (not in thousands) shares or more of the Fund s common stock are offered the opportunity to reinvest dividends and other distributions in shares of the common stock of the Fund through participation in the Automatic Reinvestment Plan (the Plan). Under the Plan, Mellon, as Transfer Agent, automatically invests dividends and other distributions in shares of the Fund s common stock by making purchases in the open market. Plan participants may also deposit cash in amounts (not in thousands) between \$25 and \$2,500 with Mellon for the purchase of additional shares. Dividends, distributions and cash deposits are invested in, and each participant s account credited with, full and fractional shares.

The price at which Mellon is deemed to have acquired shares for a participant s account is the average price (including brokerage commissions and any other costs of purchase) of all shares purchased by it for all participants in the Plan.

Your dividends and distributions, even though automatically reinvested, continue to be taxable as though received in cash.

Another feature of the Plan is the Optional Cash Only feature. You can make additional investments only, without reinvesting your monthly dividend. If you own 50 shares (not in thousands) or more, registered in your name and currently in your Plan account, and desire to periodically send additional contributions (not in thousands) between \$25 and \$2,500 for investment, you may do so. The shares you own and the new shares acquired through this feature will not participate in automatic reinvestment of dividends and distributions. Rather, the shares you acquire if you participate in the Optional Cash Only feature of the Plan will be held for safekeeping in your Plan account. Each investment will be made on or near the next dividend payment date. All other procedures for the purchase and sale of shares described above will apply.

Mellon charges a service fee of \$1.75 (not in thousands) for each investment, including both dividend reinvestment and optional cash investment.

Shareholders interested in obtaining a copy of the Plan should contact Mellon:

#### TRANSAMERICA INCOME SHARES, INC.

#### INVESTMENT ADVISORY AGREEMENT - CONTRACT RENEWAL

(unaudited)

At a meeting of the Board of Directors of Transamerica Income Shares, Inc. (the Fund ) held on May 15, 2008, the Board reviewed and considered the renewal of the Management and Investment Advisory Agreement (the Advisory Agreement ) between the Fund, Transamerica Asset Management, Inc. ( TAM ), and Transamerica Investment Management, LLC ( TIM or the Sub-Adviser ), to determine whether the agreement should be renewed.

Following their review and consideration, the Directors determined that the renewal of the Advisory Agreement would enable shareholders of the Fund to obtain high quality services at a cost that is appropriate, fair, and in the best interests of its shareholders. The Board, including the independent members of the Board, unanimously approved the renewal of the Advisory Agreement through June 30, 2009. In reaching their decision, the Directors requested and obtained from TAM and the Sub-Adviser such information as they deemed reasonably necessary to evaluate the agreement, including information about fees and performance of comparable funds managed by the Sub-Adviser. The Directors also carefully considered information they had previously received from TAM and the Sub-Adviser as part of their regular oversight of the Fund, as well as comparative fee, expense, and performance information prepared by Lipper Inc. (Lipper), an independent provider of mutual fund performance, and fee and expense information and profitability data prepared by management. In considering the proposed continuation of the Advisory Agreement, the Directors evaluated a number of considerations that they believed, in light of the legal advice furnished to them by independent legal counsel and their own business judgment, to be relevant. They based their decisions on the following considerations, among others, although they did not identify any consideration or particular information that was controlling of their decisions:

The nature, extent and quality of the advisory services to be provided. The Board considered the nature and quality of the services provided by TAM and the Sub-Adviser to the Fund in the past, as well as the services anticipated to be provided in the future. The Board concluded that TAM and the Sub-Adviser are capable of providing high quality services to the Fund, as indicated by the nature and quality of services provided in the past by TAM and the Sub-Adviser for this Fund and the experience, capability and integrity of TAM s senior management, the financial resources of TAM and the Sub-Adviser, TAM s management oversight process and the professional qualifications of the portfolio management team of the Sub-Adviser. The Directors determined that TAM and the Sub-Adviser can provide investment and related services that are appropriate in scope and extent in light of the Fund s operations, the competitive landscape of the investment company business and investor needs.

The investment performance of the Fund. The Board examined the short and longer-term performance of the Fund, including relative performance against a peer universe of comparable mutual funds as prepared by Lipper for various trailing periods ended December 31, 2007. The Directors noted that the Fund s performance was below the median for its peer universe for the past 1- and 3-year periods and in line with the median for the past 5-year period. The Directors noted the limited nature of the peer group and the manner in which Lipper calculates closed end fund returns and further noted that they would be monitoring performance closely. On the basis of the Board s assessment of the nature, extent and quality of advisory services to be provided or procured by TAM and the Sub-Adviser, the Board concluded that TAM and the Sub-Adviser are capable of generating a level of investment performance that is appropriate in light of the Fund s investment objectives, policies and strategies and competitive with other similar investment companies.

The cost of advisory services provided and the level of profitability. The Board reviewed profitability information of TAM s cost of procuring fund management services, as well as the costs of provision of administration, fund accounting and other services, to the Fund by TAM and its affiliates. The Board reviewed the management and sub-advisory fees for the Fund. The Directors noted that the Fund s contractual management fees and total expenses of the Fund were essentially in line with the medians for its peer group and peer universe. Based on their review, the Directors determined that the management and subadvisory fees of the Fund generally are appropriate in light of the services expected to be provided or procured, and the anticipated profitability of the relationship between the Fund, TAM and its affiliates, and the Sub-Adviser. In making these observations and determinations, the Board reviewed comparative information provided by Lipper.

Whether fee levels reflect economies of scale and the extent to which economies of scale would be realized as the Fund grows. In evaluating the extent to which the management fees payable under the Advisory Agreement reflects economies of scale or will permit economies of scale to be realized in the future, the Board considered the specific reasons for the absence of breakpoints, and concluded that the absence of breakpoints was acceptable under the circumstances. The Directors also concluded that they will have the opportunity to periodically reexamine whether the Fund has achieved economies of scale, and the appropriateness of management fees payable to TAM and fees paid to the Sub-Adviser, in the future.

Benefits to TAM, its affiliates, or the Sub-Adviser from their relationship with the Fund. The Board concluded that other benefits anticipated to be derived by TAM, its affiliates, and the Sub-Adviser from their relationships with the Fund are expected to be consistent with industry practice and the best interests of the Fund and its shareholders.

Other considerations. The Board determined that TAM has made a substantial commitment to the recruitment and retention of high quality personnel, and maintains the financial, compliance and operational resources reasonably necessary to manage the Fund in a professional manner that is consistent with the best interests of the Fund and its shareholders. In this regard, the Directors favorably considered the procedures and policies in place by TAM to enforce compliance with applicable laws and regulations and oversee the portfolio management activities of the Sub-Adviser. The Directors also determined that TAM has made a significant entrepreneurial commitment to the management and success of the Fund, reflected by TAM s expense limitation and fee waiver arrangements with the Fund, which may result in TAM waiving fees for the benefit of shareholders.

#### PROXY VOTING POLICIES AND PROCEDURES AND QUARTERLY PORTFOLIO HOLDINGS

A description of the Fund s proxy voting policies and procedures is available upon request by calling 1-888-233-4339 (toll free) or can be located on the Securities and Exchange Commission (SEC) website www.sec.gov.

In addition, the Fund is required to file Form N-PX, with the complete proxy voting records for the 12 months ended June 30th, no later than August 31st of each year. Form N-PX is available without charge from the Fund by calling 1-888-233-4339, and can also be located on the SEC s website at www.sec.gov.

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarter of each fiscal year on Form N-Q which is available on the SEC s website at www.sec.gov. The Fund s Form N-Q may be reviewed and copied at the SEC s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

#### **CERTIFICATIONS**

On August 15, 2008, the Fund submitted a CEO annual certification to the NYSE on which the Fund s chief executive officer certified that he was not aware, as of that date, of any violation by the Fund of the NYSE s corporate governance listing standards. In addition, the Fund s report to the SEC on Form N-CSR contains certifications by the Fund s principal executive officer and principal financial officer as required by Rule 30a-2(a) under the 1940 Act, relating to, among other things, the quality of the Fund s disclosure controls and procedures and internal controls over financial reporting.

#### OTHER INFORMATION

#### CHANGES IN PORTFOLIO MANAGERS

On October 1, 2008, Brian W. Westhoff, Kirk J. Kim and Peter O. Lopez became co-lead portfolio managers of the Fund and Derek S. Brown and Greg D. Haendel became co-portfolio managers of the Fund. The biography of each portfolio manager is as follows:

#### Brian W. Westhoff, CFA

Portfolio Manager (co-lead)

Brian W. Westhoff is Portfolio Manager at TIM. Prior to joining TIM in 2003, Mr. Westhoff worked as an equity research intern with Credit Suisse Asset Management, as a fixed income investment analyst at St. Paul Companies, and as an Argentine/oil and gas equity research intern

with Merrill Lynch in Argentina. He holds an MBA from Thunderbird, the Garvin Graduate School of International Management, and received a BS in business administration from Drake University. Mr. Westhoff has earned the right to use the Chartered Financial Analyst designation and has 11 years of investment experience.

Kirk	T	Kim
IXIIIV		$\mathbf{I}$

Portfolio Manager (co-lead)

Kirk J. Kim is Principal and Portfolio Manager at TIM. He also manages sub-advised funds and institutional separate accounts in TIM s Convertible Securities discipline and is a member of TIM s Concentrated All Cap Growth Equity investment team. Prior to joining TIM in 1997, Mr. Kim worked as a securities analyst for The Franklin Templeton Group. Mr. Kim holds a BS in finance from the University of Southern California and has 13 years investment experience.

#### Peter O. Lopez

Portfolio Manager (co-lead)

Peter O. Lopez is Principal and Director of Research at TIM. He also co-manages sub-advised funds and institutional accounts in the Large Growth Equity and Convertible Securities disciplines. Prior to joining TIM in 2003, he was Managing Director at Centre Pacific, LLC. Mr. Lopez also previously served as a senior fixed income analyst for Transamerica Investment Services, Inc. from 1997 to 2000. He holds an MBA in finance and accounting from The University of Michigan and received a BA in economics from Arizona State University. Mr. Lopez has 17 years of investment experience.

#### Derek S. Brown, CFA

Portfolio Manager (co)

Derek S. Brown is a Portfolio Manager and Director of Fixed Income at TIM. He also manages mutual funds, sub-advised funds and institutional accounts in TIM s fixed income discipline. Prior to joining TIM in 2005, he served in the portfolio management and fixed income trading departments at Bradford & Marzec, Inc. Mr. Brown also previously worked in the trading departments of Back Bay Advisors and The Boston Company Asset Management. He holds an MBA from Boston College and received a BA in communications studies from University of Maine. Mr. Brown has earned the right to use the Chartered Financial Analyst designation and has 17 years of investment experience.

#### Greg D. Haendel, CFA

Portfolio Manager (co)

Greg D. Haendel is Portfolio Manager at TIM. Prior to joining TIM in 2003, he worked as a high-yield intern for Metropolitan West Asset Management, as a fixed income intern for Lehman Brothers in London, as a mortgage-backed portfolio manager for Co-Bank in Colorado, and as a global debt analyst for Merrill Lynch in New York. Mr. Haendel holds an MBA in finance and accounting from The Anderson School at UCLA and received a BA in economics from Amherst College. Mr. Haendel has earned the right to use the Chartered Financial Analyst designation and has 11 years of investment experience.

### **Potential Conflicts of Interest**

There are no material conflicts of interest between the investment strategy of the Fund and the investment strategy of other accounts managed by the Portfolio Managers. TIM manages potential conflicts between accounts through its allocation policies and procedures, internal review processes and oversight by senior management and its Management Committee. TIM has developed trade allocation policies to address potential

conflicts in situations where two or more accounts participate in investment decisions involving the same securities using procedures that it considers to be fair and equitable.

#### (a)(3) Compensation for the Period Ended October 31, 2008

Portfolio managers, including the members of the executive team, are remunerated with a combination of base salary, performance-based bonus, and profit sharing or ownership interest. The overall compensation structure is reviewed annually for market competitiveness with an objective of offering compensation structures above the median as compared to our industry peers. For purposes of determining the level of performance-based compensation, potential track records (pre-tax) are based on full years of portfolio management for TIM. There are two weighted components taken into consideration for determining maximum incentive compensation amounts. These total 100% and consist of an objective and subjective component as further described below:

- 80% Objective-portfolio performance-based calculation; based upon relative rankings of track record and return formula criteria. A portion of the objective component is necessarily subjective taking into account such items as co/multi-management responsibilities; portfolio performance upon assignment; length of time managing portfolio; customized client benchmarks; etc., in determining the portfolio manager s relative ranking. TIM s senior management and its board of directors determine the criteria to be used for evaluating how the rankings are determined for each portfolio manager under this objective component.
- 20% Subjective-based upon additional contributions to the firm as a whole and consistent with responsibilities identified on position descriptions for example, general research contribution, behavioral competencies (e.g. team contributions; decision making capabilities; work ethic), quality of investment ideas, managerial duties outside of core responsibility, as determined by the executive team.

Key investment personnel have ownership interests in TIM and are evaluated on an annual basis to determine additional allocations of ownership interest. Such interests entitle the owner to quarterly distribution of profits as well as certain liquidity features. The interests effectively vest over a determined time period so as to provide a retention incentive. This ownership feature is intended to create both stability and an entrepreneurial atmosphere at TIM.

#### **MAXIMUM BONUS POTENTIALS (80% + 20%):**

Track Record	Target Bonus
<3	Up to 75% base comp.
3-4	Up to 100% base comp.
5-9	Up to 150% base comp.

10-14 Up to 200% base comp

15 and beyond Up to 300% base comp.

## RETURN FORMULAS AND RELATIVE RANKINGS (80% of target bonus):

### Rankings (Based on 80% objective track record component only):

Top Decile = 100% of available component

Top Quartile = The difference between 100% and the actual% ranking Second Quartile = The difference between 100% and the actual% ranking Third Quartile = The difference between 100% and the actual% ranking

Fourth Quartile = 0% of available component

Example: Should the ranking equal 24% (top quartile), then the formula would be 100%-24% = 76% of available component

Raturn	Formul	96.

The following return formulas represent the calculations used to determine the amount available for the objective component of the bonus a portfolio manager is eligible to earn based upon his/her track record. Some track records are weighted more heavily than others as noted below:

The 20% subjective component must be subtracted from the total amount eligible below given the maximum potential opportunity stated includes the 20% subjective component:

1 year rank will be calculated on the one-year total returns as follows:

3/3 (100%) of 75% opportunity = the one year relative rank versus peer universe and appropriate benchmark (*e.g.* composites).

• 2 year rank will be calculated on the one-year and two-year total returns as follows:

1/3 (33.33%) of 75% = the one year relative rank versus peer universe and appropriate benchmark

(e.g. composites).

2/3 (66.67%) of 75% = the two year relative rank versus peer universe and appropriate benchmark.

• 3 year rank will be calculated based on the one- and three-year total returns as follows:

1/3 (33.33%) of 100% = the one year relative rank versus peer universe and appropriate

benchmark (e.g. composites).

2/3 (66.67%) of 100% = the three year relative rank versus peer universe and appropriate benchmark.

As set forth in the schedule of maximum bonus potential above, once an employee has a full five-year track record, his/her bonus opportunity will increase at each full five-year increment as follows:

• **Five year** = additional 50% of base added to target pool and directly related to 5-year relative rank versus peer universe and appropriate benchmark. Maximum potential bonus opportunity = 150% of base

- **Ten year** = additional 50% of base added to target pool and directly related to 10- year relative rank versus peer universe and appropriate benchmark. Maximum potential bonus opportunity = 200% of base
- **Fifteen year** = additional 100% of base added to target pool and directly related to 15-year relative rank versus peer universe and appropriate benchmark. Maximum potential bonus opportunity = 300% of base

## (a)(4) Ownership of Securities

Aggregate Dollar Range of Securities in the Fund.

The following table indicates the dollar range of the Fund beneficially owned by the Fund's Portfolio Managers as of October 31, 2008.

#### Item 10. Submission of Matters to a Vote of Security Holders

Not applicable (no change from annual report).

#### Item 11: Controls and Procedures.

- (a) The registrant s principal executive officer and principal financial officer have evaluated the registrant s disclosure controls and procedures within 90 days of this filing and have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) are appropriately designed to ensure that information required to be disclosed by registrant in the reports that it files on Form N-CSR (a) is accumulated and communicated to registrant s management, including its principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure, and (b) is recorded, processed, summarized and reported, within the time periods specified in the rules and forms adopted by the U.S. Securities and Exchange Commission.
- (b) The registrant s principal executive officer and principal financial officer are aware of no change in the registrant s internal control over financial reporting that occurred during the registrant s most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

#### Item 12: Exhibits.

- (a) (1) Not applicable.
- (2) Separate certifications for registrant s principal executive officer and principal financial officer, as required by Rule 30a-2(a) under the 1940 Act, are attached.
- (3) Not applicable.
- (b) A certification for registrant s principal executive officer and principal financial officer, as required by Rule 30a-2(b) under the 1940 Act, is attached. The certification furnished pursuant to this paragraph is not deemed to be filed for purposes of Section 18 of the Securities Act of 1934, or otherwise subject to liability of that section. Such certification is not deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the registrant specifically incorporates it by reference.

#### **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
