MARKET ENVIRONMENT

The year ended March 31, 2009 was a very tumultuous period in the U.S. and global financial systems. Conditions in the domestic and global economies deteriorated, creating an unstable environment for bond investors.

At the heart of this global economic and credit meltdown was a worldwide phenomena of bad loans. Financial institutions were initially reluctant to lend to each other and later, as their financial conditions weakened, they grew fearful of offering basic loans to businesses and consumers. The difficulty in borrowing, along with rising unemployment and decelerating wage growth, caused consumers and businesses to reduce spending.

In response, governments around the world implemented a number of fiscal and monetary programs. For example, both the U.K. and China announced multi-billion dollar stimulus packages in an attempt to revive their economies. In the U.S., stimulative measures included over a trillion dollars in financial rescue packages; an unprecedented reduction in short-term interest rates; heavy investment in government agencies that invest in mortgages; and commercial paper and bank debt guarantee programs, among other things.

The poor market environment spawned a flight from higher-risk assets such as stocks and corporate bonds to the relative safety of U.S. government-backed securities. Increasing demand for Treasuries drove prices higher and, because they move in opposition, yields lower. For most corporate bonds, the opposite occurred; as demand decreased due to credit concerns, prices dropped. In some cases, the difference between Treasury and non-government yields (i.e., yield spreads) reached record levels.

Within the mortgage sector, yield spreads on mortgage-backed securities (MBS) issued by government agencies (e.g., Fannie Mae) widened slightly; however, the implicit government guarantee of agency MBS generally enabled them to outperform most other non-treasury asset classes. For corporate bonds, the lowest-quality bonds saw the greatest increase in yield spreads.

During the final months of the period, we saw the unprecedented amount of fiscal and monetary stimulus begin to take effect. Financial markets, specifically the credit markets, began to show signs of stabilization and even a slight recovery. Although the economy remains in a recession, these early signs are encouraging.

PERFORMANCE

For the year ended March 31, 2009, Transamerica Income Shares, Inc. returned (3.24)%.

STRATEGY REVIEW

Portfolio management responsibilities were transferred to a new team at Transamerica Investment Management, LLC as of October 1, 2008. The new team began repositioning the portfolio while maintaining the portfolio's mandate of income generation. The focus shifted from corporate issues to a diversified pool of income-generating assets, including agency MBS. Agency MBS were less volatile than other fixed-income securities because the government began to buy these securities to keep mortgage rates low.

As market conditions worsened, we reduced the portfolio's exposure to high-yield securities to less than 10% of assets and increased the exposure to Treasuries. Later, as market conditions improved, we increased the weighting of high-yield securities to 15% of assets. As yields rose to historically high levels, these securities provided a very attractive level of current income.

Looking to diversify risk while increasing return in the portfolio, we added non-dollar sovereign debt securities (e.g., United Kingdom Gilts) while using a hedge to protect against currency fluctuations. It was our belief that European countries were behind the U.S. in recovering from the recession. They began to lower interest rates later than the U.S., creating good return opportunities in these types of securities. Additionally, within the corporate allocation, we maintained an underweight position to financials, which were generally weaker than industrials and utilities.

One notable detractor from overall performance was a small allocation to commercial mortgage-backed securities (CMBS). As the outlook for CMBS worsened over the course of the year on concerns of commercial property vacancies increasing and a lack of buyers for CMBS, we selectively reduced these positions.

UNDERSTANDING YOUR FUND'S EXPENSES

(unaudited)

SHAREHOLDER EXPENSES

Fund shareholders may incur ongoing costs, including management and advisory fees, distribution and service fees, and other fund expenses.

The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in the Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at October 1, 2008 and held for the entire period until March 31, 2009.

ACTUAL EXPENSES

The first line in the table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line of your Fund under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. If your account is an IRA, your expenses could have included a \$15 annual fee. The amount of any fee paid through your account would increase the estimate of expenses you paid during the period and decrease your ending account value.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line in the table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges, redemption fees, brokerage commissions paid on purchases and sales of fund shares. Therefore, the second line under the Fund in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If any of these transaction costs were included, your costs would be higher. The expenses shown in the table do not reflect any fees that may be charged to you by brokers, financial intermediaries or other financial institutions.

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSR

	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	Expenses Paid During Period (a)
Actual	\$ 1,000.00	\$ 963.16	0.69%	\$ 3.38
Hypothetical (b)	1,000.00	1,021.49	0.69	3.48

(a) Expenses are calculated using the Fund's annualized expense ratio (as disclosed in the table), multiplied by the average account value for the period, multiplied by the number of days in the period (182 days), and divided by the number of days in the year (365 days).

(b) 5% return per year before expenses.

GRAPHIC PRESENTATION OF SCHEDULE OF INVESTMENTS

By Bond Credit Quality (Moody's Ratings)

At March 31, 2009

(unaudited)

Credit Rating Definitions:

Aaa Obligations rated Aaa are judged to be of the highest quality, with minimal credit risk.

Aa Obligations rated Aa are judged to be of high quality, and are subject to very low credit risk, but their susceptibility to long-term risks appears somewhat greater.

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSR

A Obligations rated A are considered upper-medium grade and are subject to low credit risk, but have elements present that suggest a susceptibility to impairment over the long term.

Baa Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics.

Ba Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.

B Obligations rated B are considered speculative, are subject to high credit risk, and have generally poor credit risk.

Caa Obligations rated Caa are judged to be of poor standing, are subject to very high credit risk, and have extremely poor credit quality.

Ca Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

C Obligations rated C are the lowest rated class of bonds and are typically in default, with little prospect for recovery of principal or interest.

NR Not rated.

WR Withdrawn rating.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

NOTES TO FINANCIAL STATEMENTS

(all amounts in thousands)

NOTE 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Transamerica Income Shares, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company. The Fund's investment objective is to seek as high a level of current income as is consistent with prudent investment, with capital appreciation as only a secondary objective.

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

In preparing the Fund's financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), estimates or assumptions (which could differ from actual results) may be used that affect reported amounts and disclosures. The following policies were consistently followed by the Fund, in accordance with GAAP.

Securities Valuations: Fund investments traded on an exchange are valued at the last sale price or closing price on the day of valuation on the exchange where the security is principally traded.

Certain debt securities are valued based on a price quotation or other equivalent indication of value supplied by an exchange, a pricing service or a major market maker; however, those that mature in sixty days or less are valued at amortized cost, which approximates market value.

Other securities for which quotations are not readily available or whose values have been determined to be unreliable are valued at fair market value as determined in good faith by Transamerica Asset Management, Inc.'s (TAM) Valuation Committee under the supervision of the Board of Directors.

The Fund is subject to the provisions of Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 establishes a hierarchy that prioritizes the inputs to valuation techniques giving the highest priority to readily available unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3) when market prices are not readily available or reliable. Valuation levels are not necessarily an indication of the risk associated with investing in those securities. The three levels of the hierarchy under FAS 157 are described below:

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSR

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The aggregate value by input level, as of March 31, 2009, for the Fund's investments, as well as a reconciliation of assets for which significant unobservable inputs (Level 3) were used in determining value, is included at the end of the Fund's Schedule of Investments.

Forward Foreign Currency Contracts: The Fund may enter into forward foreign currency contracts to hedge against exchange rate risk arising from investments in securities denominated in foreign currencies. Contracts are valued at the contractual forward rate and are marked to market daily, with the change in value recorded as an unrealized gain or loss. When the contracts are settled, a realized gain or loss is incurred. Risks may arise from changes in market value of the underlying currencies and from the possible inability of counterparties to meet the terms of their contracts.

Open forward currency contracts at March 31, 2009 are listed in the Schedule of Investments.

Repurchase Agreements: The Fund is authorized to enter into repurchase agreements. The Fund, through its custodian, State Street Bank & Trust Company (State Street), receives delivery of the underlying securities, the value of which at the time of purchase is required to be an amount equal to at least 102% of the resale price. The Fund will bear the risk of value fluctuations until the security can be sold and may encounter delays and incur costs in liquidating the security. In the event of bankruptcy or insolvency of the seller, delays and costs may be incurred.

Real Estate Investment Trusts (REITs) There are certain additional risks involved in investing in REITs. These include, but are not limited to, economic conditions, changes in zoning laws, real estate values, property taxes and interest rates.

Dividend income is recorded at management's estimate of the income included in distributions from the REIT investments. Distributions received in excess of the estimated amount are recorded as a reduction of the cost of investments. The actual amounts of income, return of capital and capital gains are only determined by each REIT after the fiscal year end and may differ from the estimated amounts.

NOTES TO FINANCIAL STATEMENTS (continued)

At March 31, 2009

(all amounts in thousands)

NOTE 1. (continued)

Foreign Currency Denominated Investments: The accounting records of the Fund are maintained in U.S. dollars. Securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the closing exchange rate each day. The cost of foreign securities is translated at the exchange rate in effect when the investment was acquired. The Fund combines fluctuations from currency exchange rates and fluctuations in value when computing net realized and unrealized gains or losses from investments.

Net foreign currency gains and losses resulting from changes in exchange rates include: 1) foreign currency fluctuations between trade date and settlement date of investment security transactions; 2) gains and losses on forward foreign currency contracts; and 3) the difference between the receivable amounts of interest and dividends recorded in the accounting records in U.S. dollars and the amounts actually received.

Foreign currency denominated assets may involve risks not typically associated with domestic transactions. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region.

Foreign Taxes: The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon the current interpretation of tax rules and regulations that exist in the markets in which the Fund invests.

Securities Lending: The Fund may lend securities to qualified borrowers with the Fund's lending agent. The Fund earns negotiated lenders' fees. The Fund receives cash and/or securities as collateral against the loaned securities. Cash collateral received is invested in the State Street Navigator Securities Lending Trust-Prime Portfolio. The Fund monitors the market value of securities loaned on a daily basis and requires collateral in an amount at least equal to the value of the securities loaned. At March 31, 2009, the Fund did not have any securities on loan.

Income from loaned securities on the Statement of Operations is net of fees earned by the lending agent.

Securities Transactions and Investment Income: Security transactions are recorded on the trade date. Security gains and losses are calculated on the specific identification basis. Dividend income, if any, is recorded on the ex-dividend date. Interest income, including accretion of discounts and amortization of premiums, is recorded on the accrual basis commencing on the settlement date.

Dividend Distributions: Dividend distributions are declared monthly. Capital gains distributions are declared annually. Distributions are generally paid in the month following the ex-date, on or about the fifteenth calendar day. See Automatic Reinvestment Plan on page 15 for an opportunity to reinvest distributions in shares of the Fund's common stock.

capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments for items including, but not limited to, bond premium amortization, dividends payable and Post-October loss deferrals.

Therefore, distributions determined in accordance with tax regulations may differ significantly in amount or character from net investment income and realized gains for financial reporting purposes. Financial reporting records are adjusted for permanent book\tax differences to reflect tax character. Financial records are not adjusted for temporary differences. These reclassifications are as follows:

Undistributed (accumulated) net investment income (loss)	\$	1,614
Undistributed (accumulated) net realized gain (loss) from investment securities	\$	(1,614)

The tax character of distributions paid may differ from the character of distributions shown in the Statements of Changes in Net Assets due to short-term gains being treated as ordinary income for tax purposes. The tax character of distributions paid during 2008 and 2009 was as follows:

2008 Distributions paid from:		
Ordinary Income	\$	8,530
Long-term Capital Gain		

2009 Distributions paid from:

NOTE 5. ACCOUNTING PRONOUNCEMENT

In March 2008, the Financial Accounting Standards Board issued its new Standard No. 161, Disclosure About Derivative Instruments and Hedging Activities (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about a Fund's derivative and hedging activities. Management is currently evaluating the impact the adoption of FAS 161 will have on the Fund's financial statement disclosures.

(all amounts in thousands)

For corporate shareholders, 0.83% of investment income (dividend income plus short-term gains, if any) qualifies for the dividends received deduction.

The Fund designates a maximum amount of \$66,813 as qualified dividend income, which is 0.83% of what was distributed.

AUTOMATIC REINVESTMENT PLAN

Holders of 50 (not in thousands) shares or more of the Fund's common stock are offered the opportunity to reinvest dividends and other distributions in shares of the common stock of the Fund through participation in the Automatic Reinvestment Plan (the "Plan"). Under the Plan, Mellon, as Transfer Agent, automatically invests dividends and other distributions in shares of the Fund's common stock by making purchases in the open market. Plan participants may also deposit cash in amounts (not in thousands) between \$25 and \$2,500 with Mellon for the purchase of additional shares. Dividends, distributions and cash deposits are invested in, and each participant's account credited with, full and fractional shares.

The price at which Mellon is deemed to have acquired shares for a participant's account is the average price (including brokerage commissions and any other costs of purchase) of all shares purchased by it for all participants in the Plan.

Your dividends and distributions, even though automatically reinvested, continue to be taxable as though received in cash.

Another feature of the Plan is the "Optional Cash Only" feature. You can make additional investments only, without reinvesting your monthly dividend. If you own 50 shares (not in thousands) or more, registered in your name and currently in your Plan account, and desire to periodically send additional contributions (not in thousands) between \$25 and \$2,500 for investment, you may do so. The shares you own and the new shares acquired through this feature will not participate in automatic reinvestment of dividends and distributions. Rather, the shares you acquire if you participate in the "Optional Cash Only" feature of the Plan will be held for safekeeping in your Plan account. Each investment will be made on or near the next dividend payment date. All other procedures for the purchase and sale of shares described above will apply.

Mellon charges a service fee of \$1.75 (not in thousands) for each investment, including both dividend reinvestment and optional cash investment.

Shareholders interested in obtaining a copy of the Plan should contact Mellon:

Revised: November 7, 2007

Revised: March 1, 2008

TRANSAMERICA ASSET MANAGEMENT, INC. (TAM)

PROXY VOTING POLICIES AND PROCEDURES (TAM Proxy Policy)

I. Purpose

The TAM Proxy Policy is adopted in accordance with Rule 206(4)-6 under the Investment Advisers Act of 1940 (the Advisers Act) and TAM's fiduciary and other duties to its clients. The purpose of the TAM Proxy Policy is to ensure that where TAM exercises proxy voting authority with respect to client securities it does so in the best interests of the client, and that Sub-Advisers (as defined below) to TAM clients exercise voting authority with respect to TAM client securities in accordance with policies and procedures adopted by the Sub-Advisers under Rule 206(4)-6 and approved by the TAM client.

II. TAM's Advisory Activities

TAM acts as investment adviser to Transamerica Funds, Transamerica Income Shares, Inc., Transamerica Investors, Inc., Transamerica Partners Portfolios, Transamerica Asset Allocation Variable Funds, The Transamerica Partners Funds Group, The Transamerica Partners Funds Group II and Transamerica Series Trust (collectively, the Funds). For most of the investment portfolios comprising the Funds, TAM has delegated day-to-day management of the portfolio, including the authority to buy, sell, or hold securities in the portfolio and to exercise proxy voting authority with respect to those securities, to one or more investment sub-advisers, pursuant to sub-advisory agreements entered into between TAM and each sub-adviser (each, a Sub-Adviser and collectively, the Sub-Advisers) and approved by the Board of Trustees/Directors of the client Fund (the Board). TAM serves as a manager of managers with respect to the Sub-Advisers and monitors their activities in accordance with the terms of an exemptive order granted by the Securities and Exchange Commission (Release No. IC-23379, August 5, 1998).

III. Summary of the TAM Proxy Policy

TAM delegates the responsibility to exercise voting authority with respect to securities held in the Funds' portfolios for which one or more Sub-Advisers has been retained to the Sub-Adviser(s) for each such portfolio, in accordance with each applicable Sub-Adviser Proxy Policy (as defined below). TAM will collect and review each Sub-Adviser Proxy Policy, together with a certification from the Sub-Adviser that the Sub-Adviser Proxy Policy complies with Rule 206(4)-6, and submit these materials to the Board for approval. In the event that TAM is called upon to exercise voting authority with respect to client securities, TAM generally will vote in accordance with the recommendation of Institutional Shareholder Services, Inc. (ISS) or another qualified independent third party, except that if TAM believes the recommendation would not be in the best interest of the relevant portfolio and its shareholders, TAM will consult the Board of the relevant Fund (or a Committee of the Board) and vote in accordance with instructions from the Board or Committee.

IV. Delegation of Proxy Voting Authority to Sub-Advisers

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSR

TAM delegates to each Sub-Adviser the responsibility to exercise voting authority with respect to securities held by the portfolio(s), or portion thereof, managed by the Sub-Adviser. Each Sub-Adviser is responsible for monitoring, evaluating and voting on all proxy matters with regard to investments the Sub-Adviser manages for the Funds in accordance with the Sub-Adviser's proxy voting policies and procedures adopted to comply with Rule 206(4)-6 (each, a Sub-Adviser Proxy Policy and collectively, the Sub-Adviser Proxy Policies).

V. Administration, Review and Submission to Board of Sub-Adviser Proxy Policies

A. Appointment of Proxy Administrator

TAM will appoint an officer to be responsible for collecting and reviewing the Sub-Adviser Proxy Policies and carrying out the other duties set forth herein (the Proxy Administrator).

B. Initial Review

1. The Proxy Administrator will collect from each Sub-Adviser:
-

Edgar Filing: TRANSAMERICA INCOME SHARES, INC. - Form N-CSR

- a) its Sub-Adviser Proxy Policy;
- b) a certification from the Sub-Adviser that (i) its Sub-Adviser Proxy Policy is reasonably designed to ensure that the Sub-Adviser votes client securities in the best interest of clients, and that the Sub-Adviser Proxy Policy includes an explanation of how the Sub-Adviser addresses material conflicts that may arise between the Sub-Adviser's interests and those of its clients, (ii) the Sub-Adviser Proxy Policy has been adopted in accordance with Rule 206(4)-6, and (iii) the Sub-Adviser Proxy Policy complies the terms of Rule 206(4)-6; and
- c) a summary of the Sub-Adviser Proxy Policy suitable for inclusion in the client Fund's registration statement, in compliance with Item 13(f) of Form N-1A, and a certification to that effect.

2. The Proxy Administrator will review each Sub-Adviser Proxy Policy with a view to TAM making a recommendation to the Board. In conducting its review, TAM recognizes that the Securities and Exchange Commission has not adopted specific policies or procedures for advisers, or provided a list of approved procedures, but has left advisers the flexibility to craft policies and procedures suitable to their business and the nature of the conflicts they may face. As a consequence, Sub-Adviser Proxy Policies are likely to differ widely. Accordingly, the Proxy Administrator's review of the Sub-Adviser Proxy Policies will be limited to addressing the following matters:

- a) whether the Sub-Adviser Proxy Policy provides that the Sub-Adviser votes solely in the best interests of clients;
- b) whether the Sub-Adviser Proxy Policy includes a description of how the Sub-Adviser addresses material conflicts of interest that may arise between the Sub-Adviser or its affiliates and its clients; and
- c) whether the Sub-Adviser Proxy Policy includes both general policies and procedures as well as policies with respect to specific types of issues (for this purpose general policies include any delegation to a third party, policies relating to matters that may substantially affect the rights or privileges of security holders, and policies regarding the extent of weight given to the view of the portfolio company management; specific issues include corporate governance matters, changes to capital structure, stock option plans and other management compensation issues, and social corporate responsibility issues, among others).

3. The Proxy Administrator will review the certification provided pursuant to paragraph 1(b) above for completeness, and will review the summary provided pursuant to paragraph 1(c) above for compliance with the requirements of Form N-1A.

4. TAM will provide to the Board (or a Board Committee), the materials referred to in Section V.B.1. and a recommendation pursuant to the Proxy Administrator's review of the Sub-Adviser Proxy Policy provided for in Section V.B.2.

5. TAM will follow the same procedure in connection with the engagement of any new Sub-Adviser.

C. Subsequent Review

TAM will request that each Sub-Adviser provide TAM with prompt notice of any material change in its Sub-Adviser Proxy Policy. TAM will report any such changes at the next quarterly Board meeting of the applicable Fund. No less frequently than once each calendar year, TAM will request that each Sub-Adviser provide TAM with its current Sub-Adviser Proxy Policy, or certify that there have been no material changes to its Sub-Adviser Proxy Policy or that all material changes have been previously provided for review by TAM and approval by the relevant Board(s), and that the Sub-Adviser Proxy Policy continues to comply with Rule 206(4)-6.

D. Record of Proxy Votes Exercised by Sub-Adviser

The Proxy Administrator, or a third party as permitted by regulations issued by the Securities and Exchange Commission (such as ISS), will maintain a record of any proxy votes (including the information called for in Items 1(a) through (i) of Form N-PX) exercised by the Sub-Adviser on behalf of a portfolio of the Funds. The Proxy Administrator, or a third party as permitted by regulations issued by the Securities and Exchange Commission (such as ISS), will maintain a complete proxy voting record with respect to each Fund. If TAM utilizes the services of a third party for maintaining the records above specified, TAM shall obtain an undertaking from the third party that it will provide the records promptly upon request.

VI. TAM Exercise of Proxy Voting Authority

A. Use of Independent Third Party

If TAM is called upon to exercise voting authority on behalf of a Fund client, TAM will vote in accordance with the recommendations of ISS or another qualified independent third party (the Independent Third Party), provided that TAM agrees that the voting recommendation issued by the Independent Third Party reflects the best interests of the relevant portfolio and its shareholders.

B. Conflict with View of Independent Third Party

If, in its review of the Independent Third Party recommendation, TAM believes that the recommendation is not in the best interests of the Fund client, TAM will submit to the Board (or a Board Committee) its reasons for disagreeing with the Independent Third Party, as well as full disclosure of any conflict of interest between TAM or its affiliates and the Fund in connection with the vote, and seek consent of the Board (or Committee) with respect to TAM's proposed vote.

C. Asset Allocation Portfolios

For any asset allocation portfolio managed by TAM and operated, in whole or in part, as a fund of funds, TAM will vote proxies in accordance with the recommendations of the Board(s) of the Fund(s). If any such asset allocation portfolio holds shares of a registered investment company that is not a portfolio of a Fund, TAM will seek Board (or Committee) consent with respect to TAM's proposed vote in accordance with the provisions of Section VI.B.

VII. Conflicts of Interest Between TAM or Its Affiliates and the Funds

The TAM Proxy Voting Policy addresses material conflicts that may arise between TAM or its affiliates and the Funds by, in every case where TAM exercises voting discretion, either (i) providing for voting in accordance with the recommendation of the Independent Third Party or Board(s); or (ii) obtaining the consent of the Board (or a Board Committee) with full disclosure of the conflict.

VIII. Recordkeeping

If TAM utilizes the services of a third party for maintaining the records above specified, TAM shall obtain an undertaking from the third party that it will provide the records promptly upon request.

C. Records Pertaining to Sub-Adviser Proxy Policies

Potential Conflicts of Interest

At TIM, individual portfolio managers may manage multiple accounts for multiple clients. In addition to the sub-advisory management of the Fund, TIM manages separate accounts for institutions and individuals. TIM manages potential conflicts between accounts through its allocation policies and procedures, internal review processes and oversight by senior management and its board of directors. TIM has developed trade allocation policies to address potential conflicts in situations where two or more accounts participate in investment decisions involving the same securities using procedures

that it considers to be fair and equitable. As of March 31, 2009, TIM did not foresee any conflict of interest in the management of the Fund.

(a) (3) Compensation for the Fiscal Year Completed March 31, 2009

Portfolio managers, including the members of the executive team, are remunerated with a combination of base salary, performance-based bonus, and profit sharing or ownership interest. The overall compensation structure is reviewed annually for market competitiveness with an objective of offering compensation structures above the median as compared to our industry peers. For purposes of determining the level of performance-based compensation, potential track records (pre-tax) are based on full years of portfolio management for TIM. There are two weighted components taken into consideration for determining maximum incentive compensation amounts. These total 100% and consist of an objective and subjective component as further described below:

- 80% Objective-portfolio performance-based calculation; based upon relative rankings of track record and return formula criteria. A portion of the objective component is necessarily subjective taking into account such items as co/multi-management responsibilities; portfolio performance upon assignment; length of time managing portfolio; customized client benchmarks; etc., in determining the portfolio manager's relative ranking. TIM's senior management and its board of directors determine the criteria to be used for evaluating how the rankings are determined for each portfolio manager under this objective component.

20% Subjective-based upon additional contributions to the firm as a whole and consistent with responsibilities identified on position descriptions for example, general research contribution, behavioral competencies (e.g. team contributions; decision making capabilities; work ethic), quality of investment ideas, managerial duties out
