**Note 1 relating to NAVTEQ:** Nokia completed the acquisition of NAVTEQ Corporation on July 10, 2008. Accordingly, NAVTEQ's results for the third quarter 2008 are not directly comparable to those for the third quarter 2009.

**Note 2 relating to non-IFRS results:** *Non-IFRS results exclude special items for all periods. In addition, non-IFRS results exclude intangible asset amortization, other purchase price accounting related items and inventory value adjustments arising from i) the formation of Nokia Siemens Networks and ii) all business acquisitions completed after June 30, 2008. More specific information about the exclusions from the non-IFRS results may be found in this press release on pages 3, 14-16 and 18.*

*Nokia believes that these non-IFRS financial measures provide meaningful supplemental information to both management and investors regarding Nokia's performance by excluding the above-described items that may not be indicative of Nokia's business operating results. These non-IFRS financial measures should not be viewed in isolation or as substitutes to the equivalent IFRS measure(s), but should be used in conjunction with the most directly comparable IFRS measure(s) in the reported results. A reconciliation of the non-IFRS results to our reported results for Q3 2009 and Q3 2008 can be found in the tables on pages 11 and 14-18 of this press release. A reconciliation of our Q2 2009 non-IFRS results can be found on pages 10 and 13-17 of our Q2 2009 Interim Report of July 16, 2009.*

**Note 3:** *Nokia reported net sales were EUR 28 996 million and earnings per share (diluted) were EUR -0.02 for the period from January 1 to September 30, 2009. Further information about the results for the period from January 1 to September 30, 2009 can be found in this press release on pages 10, 12, 19-20 and 22.*

### THIRD QUARTER 2009 HIGHLIGHTS

- Nokia net sales of EUR 9.8 billion, down 20% year on year and down 1% sequentially (down 19% and flat at constant currency).
- Devices & Services net sales of EUR 6.9 billion, down 20% year on year and up 5% sequentially (down 20% and up 6% at constant currency), and non-IFRS operating margin of 11.4% (18.6% in Q3 2008 and 12.2% in Q2 2009).
- Devices & Services gross margin of 30.9%, down from 34.0% in Q2 2009.
- Services net sales of EUR 148 million (billings of EUR 172 million). Due to the divestment of the security appliance business in April 2009, services net sales are not directly comparable to prior periods.
- Estimated industry mobile device volumes of 288 million units, down 7% year on year and up 7% sequentially.
- Nokia mobile device volumes of 108.5 million units, down 8% year on year and up 5% sequentially.
- Nokia estimated mobile device market share of 38% in Q3 2009, at the same level as in Q3 2008 and in Q2 2009.
- Nokia mobile device ASP of EUR 62, at the same level as in Q2 2009.
- NAVTEQ non-IFRS net sales of EUR 166 million, up 6% year on year and up 12% sequentially, and non-IFRS operating margin of 25.9% (18.5% in Q3 2008).
- Nokia Siemens Networks net sales of EUR 2.8 billion, down 21% year on year and down 14% sequentially (down 20% and down 14% at constant currency), and non-IFRS operating margin of -1.9% (5.1% in Q3 2008).
- Nokia operating cash flow of EUR 720 million.
- Total cash and other liquid assets of EUR 7.4 billion at the end of Q3 2009.
- Nokia taxes were favorably impacted by country profit mix as well as prior year tax benefits. If Nokia's estimated long-term tax rate of 26% had been applied, non-IFRS EPS would have been approximately 2 Euro cents lower.

### OLLI-PEKKA KALLASVUO, NOKIA CEO:

The demand for mobile devices improved in many markets during Q3. With the average selling price of our devices holding firm quarter-on-quarter, our higher device volumes translated into increased net sales in our Devices & Services business. Our volumes and net sales were, however, somewhat constrained by component shortages we encountered across the portfolio. I also want to highlight the good operating expense management that helped the segment deliver solid earnings.

The challenging competitive factors and market conditions in the infrastructure and related services business necessitated non-cash impairment charges at Nokia Siemens Networks. We continue to support Nokia Siemens Networks actions to improve its performance.

**INDUSTRY AND NOKIA OUTLOOK**

## Edgar Filing: NOKIA CORP - Form 6-K

- Nokia expects industry mobile device volumes in the fourth quarter 2009 to be up sequentially.
- Nokia expects its mobile device market share in the fourth quarter 2009 to be approximately at the same level sequentially.
- Nokia expects industry mobile device volumes to be approximately 1.12 billion units in 2009, down approximately 7% from approximately 1.21 billion units Nokia estimated for 2008. This is an update to Nokia's earlier estimate of industry mobile device volumes declining approximately 10% in 2009 from 2008 levels.
- Nokia expects its non-IFRS operating margin in Devices & Services in the fourth quarter 2009 to be up by one percentage point or more sequentially.
- Nokia and Nokia Siemens Networks now expect the mobile infrastructure and fixed infrastructure and related services market to decline approximately 5% in Euro terms in 2009, from 2008 levels. This is an update to Nokia and Nokia Siemens Networks earlier expected decline of approximately 10%.
- Nokia and Nokia Siemens Networks also now expect that Nokia Siemens Networks market share will decline by more than previously expected in 2009, compared with 2008. This is an update to Nokia and Nokia Siemens Networks earlier expected moderate decline. Nokia and Nokia Siemens Networks continue to see strong performance in its Services business unit expected to be offset by declines in certain product businesses.

Nokia's third quarter 2009 net sales decreased 20% to EUR 9.8 billion, compared with EUR 12.2 billion in the third quarter 2008. At constant currency, Group net sales would have decreased 19% year on year.

The following chart sets out the year on year and sequential growth rates in our net sales on a reported basis and at constant currency for the periods indicated.

**Note 1:** Change in net sales at constant currency excludes the impact of changes in exchange rates in comparison to the Euro, our reporting currency.

Nokia's third quarter 2009 reported operating loss was EUR 426 million, compared with an operating profit of EUR 1.5 billion in the third quarter 2008. Nokia's third quarter 2009 non-IFRS operating profit decreased 58% to EUR 741 million, compared with EUR 1.8 billion in the third quarter 2008. Nokia's third quarter 2009 reported operating margin was -4.3% (12.0%). Nokia's third quarter 2009 non-IFRS operating margin was 7.6% (14.3%).

Operating cash flow for the third quarter 2009 was EUR 720 million, compared with EUR 1.3 billion in the third quarter 2008. Total cash and other liquid assets were EUR 7.4 billion at September 30, 2009, compared with EUR 7.2 billion at September 30, 2008. At September 30, 2009, Nokia's net debt-equity ratio (gearing) was -15% compared with -18% at September 30, 2008.

**Devices & Services**

In the third quarter 2009, the total mobile device volumes of our Devices & Services group were 108.5 million units, representing a decline of 8% year on year and a 5% increase sequentially. The overall industry mobile device volumes for the same period were 288 million units based on Nokia's preliminary estimate, representing a 7% year on year decrease and a 7% sequential increase. The lower device volumes year on year for Nokia and the industry continued to be driven by the negative impact of the deteriorated global economic conditions. The sequential industry device volume increase primarily reflected an improved demand environment for mobile devices. In addition, Nokia's device volumes for the third quarter 2009 were somewhat constrained by component shortages across the portfolio, which are expected to continue to some degree in the fourth quarter 2009.

Of the total industry mobile device volumes, converged mobile device industry volumes in the third quarter 2009 were 47.0 million units, based on Nokia's preliminary estimate, compared with an estimated 44.2 million units in the third quarter 2008 and 41.0 million units in the second quarter 2009. Our own converged mobile device volumes were 16.4 million units in the third quarter 2009, compared with 15.5 million units in the third quarter 2008 and 16.9 million units in the second quarter 2009. Nokia's share of the converged mobile device market was an estimated 35% in the third quarter 2009, at the same level as in the third quarter 2008 and down from 41% in the second quarter 2009. We shipped 4.5 million Nokia Nseries and 4.4 million Nokia Eseries devices during the third quarter 2009, down from the combined 9.3 million Nseries and

Eseries devices we shipped in the second quarter 2009.

The following chart sets out our mobile device volumes for the periods indicated, as well as the year on year and sequential growth rates, by geographic area.

| <b>Total</b>         | <b>108.5</b> | <b>117.8</b> | <b>-7.9%</b> | <b>103.2</b> | <b>5.1%</b> |

Based on our preliminary market estimate, Nokia's mobile device market share for the third quarter 2009 was 38%, compared with 38% in the third quarter 2008 and in the second quarter 2009. Our year on year market share was higher in Europe, Latin America and Middle East & Africa. This was offset by lower market share in Greater China, Asia-Pacific and North America. Sequentially, our market share declined in Greater China, Asia-Pacific, Middle East & Africa and North America, but was offset by our increased market share in Europe and Latin America.

*Our mobile device average selling price (ASP) in the third quarter 2009 was EUR 62, down from EUR 72 in the third quarter 2008 and at the same level as in the second quarter 2009. The year on year decline was primarily due to a higher proportion of sales of lower priced products as well as general price pressure. Sequentially, our ASP benefited from new product shipments, offset however by general price pressure.*

*Third quarter 2009 Devices & Services net sales declined 20% to EUR 6.9 billion, compared with EUR 8.6 billion in the third quarter 2008.*

Devices & Services net sales were down year on year in all geographic areas. At constant currency, Devices & Services net sales would have decreased 20%. The net sales decline resulted primarily from lower volumes, combined with the ASP decline, compared with the third quarter 2008. Of our total Devices & Services net sales, services contributed EUR 148 million in the third quarter 2009, representing 29% year on year growth and a 6% sequential growth. Nokia completed the divestment of its security appliances business in April 2009 and accordingly services net sales for the third and second quarter 2009 as well as for the prior periods are not directly comparable.

*Beginning with the third quarter 2009, we are providing additional sequential comparative information for our Devices & Services business to reflect our product and solutions mode of operation and performance. We are now providing total net sales for Devices & Services divided into (i) net sales from smartphones and mobile computer solutions; that is, net sales of converged mobile devices, including the services and accessories sold with them, and (ii) net sales from mobile phones and embedded services; that is, net sales of Series 30 and Series 40-powered devices, including the services and accessories sold with them. We are also providing ASPs for each of these two categories of sales. Net sales from smartphones and mobile computer solutions totaled EUR 3.1 billion in the third quarter 2009, at the same level as in the second quarter 2009. The ASP for smartphones and mobile computer solutions was EUR 190, up from EUR 182 in the second quarter 2009. Net sales from mobile phones and embedded services totaled EUR 3.8 billion in the third quarter 2009, compared with EUR 3.5 billion in the second quarter 2009. The ASP for mobile phones and embedded services was EUR 41, at the same level as in the second quarter 2009.*

*Devices & Services reported gross profit and non-IFRS gross profit decreased 32% to EUR 2.1 billion, compared with EUR 3.1 billion in the third quarter 2008, with a reported and non-IFRS gross margin of 30.9% (36.5%). The year on year gross margin decrease was primarily due to higher cost of sales driven by a stronger Japanese Yen, as well as general price pressure.*

Edgar Filing: NOKIA CORP - Form 6-K

*During the third quarter 2009, Devices & Services reported operating profit decreased 51% to EUR 785 million, compared with EUR 1.6 billion in the third quarter 2008, with a reported operating margin of 11.4% (18.6%).*

*Devices & Services non-IFRS operating profit decreased 51% to EUR 787 million, compared with EUR 1.6 billion in the third quarter 2008, with a non-IFRS operating margin of 11.4% (18.6%). The year on year decrease in non-IFRS operating profit for the third quarter 2009 was due primarily to lower net sales and higher cost of sales compared with the third quarter 2008. These factors were somewhat mitigated by a reduction in our operating expenses, compared to the third quarter 2008.*

#### **NAVTEQ**

*(Nokia completed the acquisition of NAVTEQ Corporation on July 10, 2008. Accordingly, NAVTEQ's results for the third quarter 2008 are not directly comparable to those for the third quarter 2009.)*

*Third quarter 2009 NAVTEQ net sales increased 6% to EUR 166 million, compared with EUR 156 million in the third quarter 2008. NAVTEQ reported gross profit was EUR 146 million (EUR 138 million), with a reported gross margin of 88.0% (88.5%). Non-IFRS gross profit was EUR 146 million (EUR 139 million), with a non-IFRS gross margin of 88.0% (88.5%). NAVTEQ had a reported operating loss of EUR 68 million (EUR 80 million loss). The reported operating margin was -41.0% (-51.3%). NAVTEQ non-IFRS operating profit was EUR 43 million (EUR 29 million), with a non-IFRS operating margin of 25.9% (18.5%).*

When Nokia assessed goodwill for impairment on its annual impairment testing date in the fourth quarter 2008, Nokia concluded that a reasonably possible change of 1% in the valuation assumptions for long-term growth rate and pre-tax discount rate would give rise to an impairment loss for NAVTEQ. Nokia conducted a review and update of the assumptions used in the 2008 annual impairment testing analysis and performed a sensitivity analysis on these assumptions to assess the recoverability of NAVTEQ. This assessment resulted in no indication of impairment for NAVTEQ. However, Nokia has once again concluded that a reasonably possible change of 1% in the valuation assumptions for long-term growth rate and pre-tax discount rate would give rise to an impairment loss for NAVTEQ. Nokia continues to evaluate the financial performance and future strategies of NAVTEQ as well as market and economic conditions to assess the recoverability of NAVTEQ's carrying amount. Nokia will conduct its annual goodwill impairment testing in the fourth quarter 2009.

#### **Nokia Siemens Networks**

Third quarter 2009 net sales decreased 21% to EUR 2.8 billion, compared with EUR 3.5 billion in the third quarter 2008, reflecting challenging competitive factors and market conditions. At constant currency, Nokia Siemens Networks net sales would have decreased 20%. Of total Nokia Siemens Networks net sales, services contributed EUR 1.3 billion.

The following chart sets out Nokia Siemens Networks net sales for the periods indicated, as well as the year on year and sequential growth rates, by geographic area.

Nokia Siemens Networks reported gross profit decreased 28% to EUR 778 million, compared with EUR 1.1 billion in the third quarter 2008, with a reported gross margin of 28.2% (30.8%). Nokia Siemens Networks non-IFRS gross profit decreased 27% to EUR 794 million, compared with EUR 1.1 billion in the third quarter 2008, with a non-IFRS

gross margin of 28.8% (31.2%). The lower year on year non-IFRS gross profit in the third quarter 2009 was due primarily to lower year on year net sales.

Nokia Siemens Networks had a third quarter 2009 reported operating loss of EUR 1 107 million, compared with an operating loss of EUR 1 million in the third quarter 2008, with an operating margin of -40.1% (0.0%). The operating loss in the third quarter 2009 was primarily driven by the EUR 908 million impairment of goodwill. Nokia Siemens Networks non-IFRS operating loss was EUR 53 million in the third quarter 2009, compared with a non-IFRS operating profit of EUR 177 million in the third quarter 2008, with a non-IFRS operating margin of -1.9% (5.1%). The year on year decline in Nokia Siemens Networks non-IFRS operating profit primarily reflected lower net sales.

Nokia recorded a charge to operating profit in the third quarter 2009 of EUR 908 million for the impairment of goodwill in Nokia Siemens Networks. After the impairment charge Nokia no longer carries any goodwill with regard to Nokia Siemens Networks. An additional charge of EUR 432 million was recorded to tax expense to provide a valuation allowance on Nokia Siemens Networks' deferred tax assets. The net impact of the asset impairment charges after minority interest totaled EUR 1 072 million, negatively impacting reported EPS by EUR 0.29.

The recoverability of the investment in Nokia Siemens Networks has declined as a result of the decline in forecasted profits and cash flows. The asset impairment charges are the result of an evaluation of the historical and projected financial performance of Nokia Siemens Networks, taking into consideration the challenging competitive factors and market conditions in the infrastructure and related services business, which have resulted in lower net sales projections and which, in turn, have reduced the projected scale and thus negatively impacted projected margins and profitability.

The recognition of a valuation allowance does not impact the validity of the deferred tax assets and Nokia Siemens Networks retains the possibility of recovering these assets if sufficient future taxable profits become available.

### **Q3 2009 OPERATING HIGHLIGHTS**

- Nokia announced the formation of Solutions, a new unit responsible for driving Nokia's offering of solutions, with the aim of integrating the mobile device, services and content into a unique and compelling offering for the consumer. The unit formally started operating on October 1, 2009.
- Nokia announced changes to its Group Executive Board, with Robert Andersson leaving Nokia's Group Executive Board as of September 30, 2009 in connection with his transfer to new duties in Nokia's Corporate Development unit from October 1, 2009; Alberto Torres joining Nokia's Group Executive Board as of October 1, 2009 in connection with his appointment as head of Solutions, and; Simon Beresford-Wylie leaving the Group Executive Board on September 30, 2009 after stepping down as Chief Executive Officer of Nokia Siemens Networks.
- Nokia announced that Rajeev Suri had been appointed as Chief Executive Officer of Nokia Siemens Networks as of October 1, 2009.
- Nokia was named as the world's most sustainable technology company according to the 2009-10 edition of the prestigious Dow Jones Sustainability Indexes that went live during September. Already rated for several years as the leader within the Europe and Communications categories, this year Nokia was also chosen as World Technology Supersector Leader making it number one across the entire global technology sector.

- Nokia announced that a United States International Trade Commission (ITC) judge issued an Initial Determination in favor of Nokia in the action brought by InterDigital against Nokia. The judge's Initial Determination is consistent with a previous judgment in the United Kingdom that found several InterDigital patents not to be essential to the UMTS mobile standard.

#### **Devices & Services**

- Nokia acquired certain assets of cellity, a mobile software company that has developed a solution for aggregating address book data, as well as certain assets of Plum Ventures, Inc, a privately held company that develops and operates a cloud-based social media sharing and messaging service for private groups. Nokia also acquired

Dopplr Oy, a privately-held mobile service provider for international travelers. All three acquisitions enable Nokia to accelerate the delivery of Ovi services and bring additional internet services talent to its Services unit.

- Nokia announced Nokia Money, a new mobile financial service giving mobile device users access to basic financial services. The service is to be rolled out gradually to selected markets in early 2010 and will be operated in cooperation with Obopay, a leading developer of mobile payment solutions in which Nokia invested earlier this year.
- Nokia announced a global alliance with Microsoft to design and market a suite of productivity applications for Nokia's range of Symbian smartphones, starting with Nokia's business-optimized Eseries range of devices.
- Nokia announced the Nokia N900, a handset that delivers computer-grade performance in a compact QWERTY and touch form factor. The Nokia N900 runs on Maemo, a desktop PC-like software architecture based on the open source Linux software.
- Nokia announced the Nokia Booklet 3G, a new Windows 7-based mini-laptop. The Nokia Booklet 3G is encased in an ultra-portable aluminum chassis, runs for up to 12 hours on a single charge and has a broad range of connectivity options.
- Nokia announced the Nokia N97 mini, a companion to the Nokia N97. The Nokia N97 mini will be the first device to feature Ovi lifecasting, an application developed together with Facebook that enables people for the first time to publish their location and status updates directly to their Facebook account from the home screen of a mobile device.
- Nokia announced the Nokia X6, a powerful entertainment device with 32GB of on-board memory that, in select markets, will be available in combination with Comes With Music, Nokia's all-you-can-eat-music offering. Nokia also announced the Nokia X3, an affordable music device and the first Series 40-powered device enabled for Ovi Store, Nokia's store for applications and content.
- Nokia announced the Nokia 5230, an affordable touch smartphone that, in select markets, will also be available in combination with Comes With Music.
- Nokia launched Comes With Music in Austria, the Netherlands and South Africa during the quarter, with the offering now available on 17 Nokia devices across 12 countries altogether. Additionally, Nokia launched Nokia Music Store in India during the quarter, with the chain of digital music stores now localized for 22 countries.
- Nokia announced the Nokia 5800 Navigation Edition, a touch handset preloaded with a lifetime of voice-guided Drive and Walk navigation licenses for the user's region.
- Nokia announced and commenced shipments of the Nokia 3720 classic, a rugged handset designed to resist water, dust and shock.
- Nokia Messaging, Nokia's consumer email service, continued to gain traction among operators with six new agreements announced during the quarter. Nokia Messaging is now available to Nokia users in more than 50 countries and approximately 1 million users are now registered. Additionally, more than 2 million people have now activated an Ovi Mail account. Ovi Mail is an email solution developed especially for consumers in emerging markets.
- Nokia announced the Ovi SDK Beta, the Ovi Maps Player API for mobile and Ovi Navigation Player API, enabling the creation of rich applications for the web as well as the Symbian and Maemo platforms, and which will be distributed through the Ovi Store. Ovi developer tools are a key focus area as we continue to expand our services offering for consumers and create opportunities for developers and content providers.

## NAVTEQ

## Edgar Filing: NOKIA CORP - Form 6-K

- NAVTEQ announced the European availability of Motorway Junction Objects, which enables navigation systems to display full 3D animation of complex junctions, with coverage of over 6 000 locations.
- NAVTEQ significantly increased major city coverage for its India map, now encompassing 84 cities.
- NAVTEQ announced that NAVTEQ Discover Cities reached a global pedestrian navigation milestone of 100 cities with the addition of Johannesburg.
- NAVTEQ acquired Acuity, a US-based company with a leading mobile location-based advertising delivery platform. The acquisition underscores NAVTEQ's commitment to and investment in location-based advertising technology and solutions.

- NAVTEQ launched real time traffic in 11 European countries and expanded NAVTEQ Traffic Patterns to 9 European countries.
- NAVTEQ announced the integration of Nokia GPS data for availability in NAVTEQ traffic products in North America and Europe.
- NAVTEQ along with Nokia and Magnetti Marelli announced innovative technology to integrate smartphones into car infotainment systems.
- NAVTEQ announced that Nextar selected NAVTEQ Location Point to offer their consumers a lifetime of free traffic supported by targeted location-based advertising.

### **Nokia Siemens Networks**

- Globe Telecommunications, one of the leading communication service providers in the Philippines can now offer Web 2.0 services and roll out new promotional service packages up to 10 times faster than before after Nokia Siemens Networks, in collaboration with IBM, implemented a Service Delivery Framework for the operator, which offers an agile and efficient service creation environment, and reduces the time to market for new services.
- Nokia Siemens Networks in September made the world's first LTE call using commercial base station and fully standard compliant, commercial software. The successful demonstration, as well as the fact that Nokia Siemens Networks had delivered LTE-compatible Flexi Base Station hardware to over 100 customers by end September, illustrates the readiness of Nokia Siemens Networks' products for early commercial deployments worldwide.
- Nokia Siemens Networks continued to make inroads in North America with a 3G network roll out deal in Canada for Globalive Wireless that includes a services-led turnkey deal for the implementation, maintenance, design and service assurance as well as a system-led deal for the WCDMA network.
- Nokia Siemens Networks won a number of other key 3G deals in the quarter including a contract with Megafon in Russia as the main supplier for the extension of its 3G radio network, and deals with Viettel in Vietnam, Hutchison 3G Austria, Nuevatel in Bolivia, T-Mobile in the Czech Republic and Hutchison Telecom in Hong Kong.
- In fixed line, Nokia Siemens Networks was appointed by Belgacom International Carrier Services to upgrade its optical network transmission capacity from 10 Gigabit per second (Gbps) per wavelength to 40 Gbps. Other deals included an upgrade for České Radiokomunikace for data rates of up to 10 Gbps and a 4 000 km extension of a nationwide fiber backbone network for Zain Nigeria.
- Nokia Siemens Networks demonstrated DSL with download speeds of 25 Mbps at a distance of up to 1 500 meters from the local exchange at Broadband World Forum in Paris with its VDSL2 bonding solution.

**FORWARD-LOOKING STATEMENTS**

*It should be noted that certain statements herein which are not historical facts, including, without limitation, those regarding: A) the timing of product, services and solution deliveries; B) our ability to develop, implement and commercialize new products, services, solutions and technologies; C) our ability to develop and grow our consumer Internet services business; D) expectations regarding market developments and structural changes; E) expectations regarding our mobile device volumes, market share, prices and margins; F) expectations and targets for our results of operations; G) the outcome of pending and threatened litigation; H) expectations regarding the successful completion of contemplated acquisitions on a timely basis and our ability to achieve the set targets upon the completion of such acquisitions; and I) statements preceded by believe, expect, anticipate, foresee, target, estimate, designed, plans, will or similar expressions are forward-looking statements. Statements are based on management's best assumptions and beliefs in light of the information currently available to it. Because they involve risks and uncertainties, actual results may differ materially from the results that we currently expect. Factors that could cause these differences include, but are not limited to: 1) the deteriorating global economic conditions and related financial crisis and their impact on us, our customers and end-users of our products, services and solutions, our suppliers and collaborative partners; 2) the development of the mobile and fixed communications industry, as well as the growth and profitability of the new market segments that we target and our ability to successfully develop or acquire and market products, services and solutions in those segments; 3) the intensity of competition in the mobile and fixed communications industry and our ability to maintain or improve our market position or respond successfully to changes in the competitive landscape; 4) competitiveness of our product, services and solutions portfolio; 5) our ability to successfully manage costs; 6) exchange rate fluctuations, including, in particular, fluctuations between the euro, which is our reporting currency, and the US dollar, the Japanese yen, the Chinese yuan and the UK pound sterling, as well as certain other currencies; 7) the success, financial condition and performance of our suppliers, collaboration partners and customers; 8) our ability to source sufficient amounts of fully functional components, sub-assemblies, software and content without interruption and at acceptable prices; 9) the impact of changes in technology and our ability to develop or otherwise acquire and timely and successfully commercialize complex technologies as required by the market; 10) the occurrence of any actual or even alleged defects or other quality, safety or security issues in our products, services and solutions; 11) the impact of changes in government policies, trade policies, laws or regulations or political turmoil in countries where we do business; 12) our success in collaboration arrangements with others relating to development of technologies or new products, services and solutions; 13) our ability to manage efficiently our manufacturing and logistics, as well as to ensure the quality, safety, security and timely delivery of our products, services and solutions; 14) inventory management risks resulting from shifts in market demand; 15) our ability to protect the complex technologies, which we or others develop or that we license, from claims that we have infringed third parties' intellectual property rights, as well as our unrestricted use on commercially acceptable terms of certain technologies in our products, services and solutions; 16) our ability to protect numerous Nokia, NAVTEQ and Nokia Siemens Networks patented, standardized or proprietary technologies from third-party infringement or actions to invalidate the intellectual property rights of these technologies; 17) any disruption to information technology systems and networks that our operations rely on; 18) developments under large, multi-year contracts or in relation to major customers; 19) the management of our customer financing exposure; 20) our ability to retain, motivate, develop and recruit appropriately skilled employees; 21) whether, as a result of investigations into alleged violations of law by some former employees of Siemens AG (Siemens), government authorities or others take further actions against Siemens and/or its employees that may involve and affect the carrier-related assets and employees transferred by Siemens to Nokia Siemens Networks, or there may be undetected additional violations that may have occurred prior to the transfer, or violations that may have occurred after the transfer, of such assets and employees that could result in additional actions by government authorities; 22) any impairment of Nokia Siemens Networks customer relationships resulting from the ongoing government investigations involving the Siemens carrier-related operations transferred to Nokia Siemens Networks; 23) unfavorable outcome of litigations; 24) allegations of possible health risks from electromagnetic fields generated by base stations and mobile devices and lawsuits related to them, regardless of merit; as well as the risk factors specified on pages 11-28 of Nokia's annual report on Form 20-F for the year ended December 31, 2008 under Item 3D. Risk Factors. Other unknown or unpredictable factors or underlying assumptions subsequently proving to be incorrect could cause actual results to differ materially from those in the forward-looking statements. Nokia does not undertake any obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent legally required.*
