*Fair Value Measurements* - In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Fund discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). The guidance establishes three levels of fair value hierarchy as follows:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 Inputs that are unobservable.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes observable requires significant judgment by Daiwa SB Investments (U.S.A.) Ltd. (the Manager). The Manager considers observable data to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following is a summary of the inputs used as of January 31, 2012 in valuing the Fund's investments carried at value:

<b>Valuation Inputs</b>	<b>Investments in Securities</b>	
Level 1 Quoted Prices	\$	86,413,570
Level 2 Other Significant Observable Inputs		
Level 3 Significant Unobservable Inputs		
Total	\$	86,413,570

As all assets of the Fund are classified as Level 1, no reconciliation of Level 3 assets as of January 31, 2012 is presented.

All portfolio holdings designated as Level 1 are disclosed individually in the Portfolio of Investments (POI). Please refer to the POI for industry specifics of the portfolio holdings.

For federal income tax purposes, the cost of securities owned at January 31, 2012 was \$89,407,172, excluding short-term interest-bearing investments. At January 31, 2012, the net unrealized depreciation on investments, excluding short-term securities, of \$2,993,601 was composed of gross appreciation of \$3,964,256 for those investments having an excess of value over cost, and gross depreciation of \$6,957,857 for those investments having an excess of cost over value.
