Item 2.02 Results of Operation and Financial Condition.

On January 9, 2014, Helen of Troy Limited (the Company) issued a press release announcing its results for its third fiscal quarter ended November 30, 2013. Additionally, on January 9, 2014, the Company held a conference call discussing its results for the same period mentioned above. With this Form 8-K, we are furnishing copies of the press release (attached hereto as Exhibit 99.1) and the text of the conference call (attached hereto as Exhibit 99.2). The press release and copy of the text of this conference call are also provided on the Investor Relations Page of our website at: <http://www.hotus.com>. The information contained on this website is not included as a part of, or incorporated by reference into, this report.

The Company desires to avail itself of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the Act) and is including this cautionary statement for the express purpose of availing itself of the protection afforded by the Act. The accompanying press release and conference call transcript contain certain forward-looking statements, which are subject to change. Any or all of the forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Many of these factors will be important in determining the Company's actual future results. Consequently, no forward-looking statement can be guaranteed. Actual future results may vary materially from those expressed or implied in any forward-looking statements. The forward-looking statements are qualified in their entirety by a number of risks that could cause actual results to differ materially from historical or anticipated results. Generally, the words anticipates, estimates, believes, expects, plans, may, will, should, seeks, project, predict, intends, and other similar words identify forward-looking statements. The Company cautions readers not to place undue reliance on forward-looking statements. The Company intends its forward-looking statements to speak only as of the time of such statements, and does not undertake to update or revise them as more information becomes available. The forward-looking statements contained in the accompanying press release and conference call transcripts should be read in conjunction with, and are subject to and qualified by, the risks described in the Company's Form 10-K for the year ended February 28, 2013 and in our other filings with the SEC. Investors are urged to refer to the risk factors referred to above for a description of these risks. Such risks include, among others, the departure and recruitment of key personnel, the Company's ability to deliver products to our customers in a timely manner, the Company's geographic concentration of certain U.S. distribution facilities, which increases our exposure to significant shipping disruptions and added shipping and storage costs, difficulties encountered during the transition to the Company's new distribution facility could interrupt the Company's logistical systems and cause shipping disruptions, the Company's projections of product demand, sales, net income and earnings per share are highly subjective and our future net sales revenue, net income and earnings per share could vary in a material amount from such projections, expectations regarding acquisitions and the integration of acquired businesses, the Company's relationship with key customers and licensors, the costs of complying with the business demands and requirements of large sophisticated customers, the Company's dependence on foreign sources of supply and foreign manufacturing, the impact of changing costs of raw materials and energy on cost of goods sold and certain operating expenses, circumstances that may contribute to future impairment of goodwill, intangible or other long-lived assets, the risks associated with the use of trademarks licensed from and to third parties, our dependence on the strength of retail economies and vulnerabilities to an economic downturn, the Company's ability to develop and introduce innovative new products to meet changing consumer preferences, disruptions in U.S., European and other international credit markets, exchange rate risks, trade barriers, exchange controls, expropriations, and other risks associated with foreign operations, the costs, complexity and challenges of upgrading and managing our global information systems, the risks associated with information security breaches, the risks associated with tax audits and related disputes with taxing authorities, potential changes in laws, including tax laws, and the Company's ability to continue to avoid classification as a controlled foreign corporation.

The press release and copy of the text of this conference call include or refer to certain information that the Company believes is non-GAAP Financial Information as contemplated by SEC Regulation G, Rule 100. The press release contains tables that reconcile these measures to their corresponding GAAP based measures presented under the Consolidated Condensed Statements of Income in the press release. The material limitation associated with the use of the non-GAAP financial measures is that the non-GAAP measures do not reflect the full economic impact of the Company's activities. These non-GAAP measures are not prepared in accordance with GAAP, are not an alternative to GAAP financial information, and may be calculated differently than non-GAAP financial information disclosed by other companies. Accordingly, undue reliance should not be placed on non-GAAP information.
