PROXY STATEMENT

This Proxy Statement and the accompanying form of proxy are being furnished in connection with the solicitation by the Board of Directors of Columbus McKinnon Corporation, a New York corporation (“our Company”, “we” or “us”), of proxies to be voted at the Annual Meeting of Shareholders (the “Annual Meeting”) to be held at the Buffalo Marriott Niagara Hotel, 1340 Millersport Highway, Amherst, New York, on July 27, 2009, at 10:00 a.m., local time, and at any adjournment or adjournments thereof. The close of business on June 5, 2009 has been fixed as the record date for the determination of shareholders entitled to receive notice of and to vote at the meeting. At the close of business on June 5, 2009, we had outstanding 19,077,430 shares of our common stock, \$.01 par value per share, the holders of which are entitled to one vote per share on each matter properly brought before the Annual Meeting.

The shares represented by all valid proxies in the enclosed form will be voted if received in time for the Annual Meeting in accordance with the specifications, if any, made on the proxy card. If no specification is made, the proxies will be voted FOR the nominees for Director named in this Proxy Statement and FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal 2010.

In order for business to be conducted, a quorum must be present at the Annual Meeting. A quorum is a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting. Abstentions, broker non-votes and withheld votes will be counted in determining the existence of a quorum at the Annual Meeting.

Directors will be elected by a plurality of the votes cast at the Annual Meeting, meaning the nine nominees receiving the most votes will be elected. A majority of the votes cast is required to ratify the appointment of our independent registered public accounting firm for fiscal 2010. Under the law of the State of New York, our state of incorporation, only “votes cast” by the shareholders entitled to vote are determinative of the outcome of the matter subject to shareholder vote. Abstentions and broker non-votes will be counted in determining the existence of a quorum, but will not be counted towards any other nominee’s achievement of plurality or in determining the votes cast on any other proposal.

The execution of a proxy will not affect a shareholder’s right to attend the Annual Meeting and to vote in person. A shareholder who executes a proxy may revoke it at any time before it is exercised by giving written notice to the Secretary, by appearing at the Annual Meeting and so stating, or by submitting another duly executed proxy bearing a later date.

This Proxy Statement and form of proxy are first being sent or given to shareholders on or about June 24, 2009.

Compensation Discussion and Analysis

Overview

We are a leading worldwide designer, manufacturer and marketer of material handling products, systems and services, which efficiently and ergonomically move, lift, position or secure material. Key products include hoists, cranes, actuators and lifting and rigging tools. We are focused on commercial and industrial applications that require the safety and quality provided by our superior design and engineering know-how.

The successful execution of our business strategy depends on our ability to attract, motivate, reward, and retain executive talent with the skills to foster innovative product and service development and grow the business in developing markets with the greatest opportunity. Our executive compensation program is designed to support this strategy by:

- attracting and retaining key executive talent by offering a competitive compensation program;
- motivating executive actions that lead to sustained superior performance; and
- aligning executive compensation with returns delivered to shareholders.

Overview of Fiscal Year 2009 Business Results and Performance Based Compensation

Our financial results for fiscal year 2009 were significantly impacted by the rapid decline in demand for our products, specifically in the latter half of the fiscal year, in which depth, breadth and rate of decline were unprecedented. Since a significant portion of compensation opportunity for our executives varies based on financial and operating performance, actual compensation for fiscal year 2009 was significantly below targeted levels established as part of our Annual Incentive Plan and long-term incentive program. As a result of the poor financial performance in fiscal year 2009 compared to goals established at the beginning of the fiscal year, actual compensation earned by the Named Executive Officers (“NEOs”) for 2009 fell approximately 50% below the target compensation opportunities established for each NEO at the start of the fiscal year.

In addition, the NEOs voluntarily agreed to forfeit 5% of their base salaries effective February 2009 until such time that the business and financial conditions return to a more stable environment.

Further details regarding fiscal year 2009 performance can be found in the “Components of Compensation” section.

Executive Management Change in Fiscal Year 2009

In January 2009, Derwin R. Gilbreath terminated his employment with us pursuant to a separation agreement. Prior to that, Mr. Gilbreath served as the Vice President and Chief Operating Officer.

The Compensation Committee’s Role

Our compensation program is administered by the Compensation and Succession Committee of the Board of Directors (the “Compensation Committee”).

The Compensation Committee establishes performance objectives for the Chief Executive Officer (“CEO”) based on our annual business plan and long-term strategic goals approved by the Board of Directors. Progress against these goals is monitored on a quarterly basis. The Compensation Committee evaluates the CEO’s performance against these goals annually, with input to the evaluation from all independent Directors. The Compensation Committee also considers market data provided by our independent consultant, comparisons of our performance to our peers, strategic achievements during the year, such as acquisitions and their integration into our business, and value-creating divestitures, as well as internal assessment of the CEO’s performance provided by other members of executive management. Based on these factors, the Compensation Committee makes recommendations concerning base salary increases, annual incentive award targets and payments under the Annual Incentive Plan and awards under our long-term incentive program. The Compensation Committee has regularly-scheduled executive sessions to discuss CEO performance and compensation and other matters without any executive officers present. All aspects of the CEO’s compensation are approved by our full Board of Directors.

The Compensation Committee approves base salary increases, Annual Incentive Plan targets and awards, long-term incentive program targets and awards and similar arrangements for the other NEOs in the Summary Compensation Table below after receiving recommendations from our CEO with input from the Vice President - Human Resources and our independent consultant. The Compensation Committee makes the final decision and approves compensation decisions for all NEOs as well as all other executive officers.

The Compensation Committee’s composition is described in more detail in this proxy statement under the section above entitled “Corporate Governance - Compensation and Succession Committee.”

Compensation Committee Advisors

The Compensation Committee has the authority under its charter to engage the services of outside consultants, to determine the scope of the consultants’ services, and to terminate such consultants’ engagement. In fiscal year 2009, the Compensation Committee continued its engagement of Exequity, LLP (“Exequity”), an independent compensation consulting firm, to advise the Compensation Committee on certain matters related to executive compensation including:

- a competitive compensation review of the CEO and other executive officer positions;
- executive compensation trend data, including plan design.

In fiscal year 2009, Exequity reviewed market data based upon the company’s target labor market for executive talent, presented market trends, proposed compensation, consulted on compliance issues and conducted a market review and analysis of board of directors’ compensation. Additionally, Exequity attended in person or by conference telephone all Compensation Committee meetings.

Management's Role in the Compensation-Setting Process

Our management is involved in the following executive compensation processes:

- The Vice President Human Resources (“VP HR”) develops and oversees the creation of background and supporting materials for distribution to the Compensation Committee prior to its meetings;
 - The CEO, VP HR and Secretary attend all Compensation Committee meetings;
- The CEO, VP HR and Director, Compensation and Benefits annually present and make recommendations to the Compensation Committee relating to annual incentives and long-term incentive plan designs and changes, if warranted;
- The CEO recommends to the Compensation Committee base salary, target annual incentive and target long-term incentive adjustments for all executives, excluding the CEO; and
- The VP HR receives executive session decisions, actions and underlying rationale for implementation as appropriate following the Committee's executive sessions;
- The VP HR regularly consults with and briefs the Compensation Committee chairman between scheduled meetings of the Compensation Committee.

Compensation Philosophy and Objectives

In making decisions with respect to compensation for our NEOs and other executives, the Compensation Committee is guided by the following objectives:

- Our compensation program should be comprehensive, consisting of base salary, annual incentives, long-term incentives and benefits, and designed to support our objective of providing superior value to shareholders and customers;
- Our compensation program should be designed to motivate and reward our executives for sustained superior performance through the use of variable compensation tied to short, intermediate and long-term results; and
- Our business success depends on our ability to attract and retain executive talent through competitive compensation opportunity.

The following tables show the dollar values of our fiscal year 2009 target direct pay opportunities for our NEOs, as of April 1, 2008 and, separately, the impact of the voluntary forfeiture of 5% of base salary effective February 2009:

Elements of Our Compensation Program for Named Executive Officers

Our compensation philosophy and objectives are achieved by using the following elements in our compensation program for NEOs:

Element of Compensation Program	Employees Covered	Description	Key Objectives Promoted
Annual Compensation			
· Salary	All salaried employees	Fixed annual compensation paid in accordance with our regular payroll procedures during the year.	Designed to be market competitive and enable us to attract and retain talented executives.
· Annual Incentive	Approximately 150 employees	Variable compensation based on performance achieved against pre-established goals during a one-year period.	Designed to motivate and reward achievement of financial, operational and strategic business goals.
Long-Term Compensation			
· Stock Options	Approximately 40 employees	Right to purchase stock at a set price for a period of time after the right vests. Our stock options are earned based upon achievement of pre-determined one year return on invested capital goals ("ROIC") and then vest as a result of continued employment for a stated period of time. Our initial stock option grant sizes represent between 30% and 50% of each participant's long-term incentive target opportunity. Initial grants are adjusted by a multiplier between 0% and 150% based upon actual performance.	Designed to be market competitive, motivate and reward achievement of stock price growth, and align employees' interests with those of our shareholders.
· Restricted Stock or Restricted Stock Units	Approximately 40 employees	Shares of stock or stock units (which directly mirror the value of our stock) which are earned based	Designed to retain executives and align their interests with those of our shareholders.

upon achievement of pre-determined one year Return on Invested Capital Goals and then vest as a result of continued employment for a stated period of time. Our initial grant sizes represent between 30% and 50% of each participant's long-term incentive target value. Initial grants are adjusted by a multiplier between 0% and 150% based upon actual performance

Element of Compensation Program	Employees Covered	Description	Key Objectives Promoted
· Performance Shares	7 executive officers	Stock which is earned based on our three year total shareholder return versus a comparator group. Initial grants represent 40% of each executive's long-term incentive target value. Initial grants are adjusted by a multiplier between 0% and 150% based upon the actual performance.	Designed to be market competitive, motivate and reward achievement of long-term operational and strategic business goals, align pay with performance and drive long-term shareholder value.
Other Compensation Elements			
· Qualified Pension Compensation	Generally, all non-union, U.S. employees	Company funded retirement benefits provided to employees, the amount of which depends on an employee's years of service with us and final compensation.	Designed to be market competitive and enable us to attract and retain talented employees.
· Qualified Deferred Compensation	Generally, all non-union, U.S. employees	A 401(k) retirement savings plan that enables employees to defer a portion of their compensation. Employee contributions made prior to March 1, 2009 are eligible for a Company matching contribution of 50% of contributions up to 3% of salary. Effective March 1, 2009, the Company amended the 401(k) retirement savings plan to eliminate the matching formula and allow for discretionary contributions by the Company.	Designed to be market competitive and enable us to attract and retain talented employees. The March 1, 2009 amendment to the plan was made in response to the dramatic decline in revenues experienced in the 2nd half of fiscal year 2009.

Element of Compensation Program	Employees Covered	Description	Key Objectives Promoted
· Non-Qualified Deferred Compensation	Approximately 40 executives and all Directors	A retirement savings plan that enables executives and Directors to defer a portion of their cash compensation in excess of the limits established by the qualified deferred compensation plan.	Designed to enable us to attract and retain talented executives and Directors.
· Employee Stock Ownership Plan	All non-union, U.S. employees	A plan that enables employees to earn and share in our ownership.	Designed to help align employees' interests with those of our shareholders.
· Severance Protection (pre-Change in Control)	Generally, all non-union, U.S. employees	Severance protection providing severance equal to one week of salary for every year of service with us.	Designed to be market competitive and enable us to attract and retain talented employees.
· Severance Payments and Benefits after a Change in Control	14 executives	Severance protection providing severance equal to a multiple of salary and target bonus in the event of a termination without Cause by us or for Good Reason by the Executive following a Change in Control.	In addition to the Severance Protections above, designed to promote executive neutrality toward Change in Control transactions that may pose an employment risk as well as retain executives through a Change in Control transaction.
· Benefits	Generally, all U.S. employees	Health, dental, life and disability insurance protections.	Designed to be market competitive and enable us to attract and retain talented employees.
· Perquisites	Provided to select non- U.S. executives	Personal benefits provided to the executive including a car.	Designed to be market competitive and facilitate the executives' attention to the business.

Executive Compensation Policies and Practices

Our Target Labor Market

In administering the compensation program, the Compensation Committee relies on market data provided periodically by its independent consultant based on filings made by peer companies with the Securities and Exchange Commission. For benchmarking compensation, the Compensation Committee reviews compensation data for industrial companies of comparable size, which reflect the types of companies with which we compete for talent. Here, we use a broader industrial market reference because the number of direct product and service market competitors is limited. Many of the companies that provide similar products and services are either privately-held, headquartered overseas, or part of a larger enterprise; therefore, executive compensation data may be either unavailable or of limited applicability to the U.S. labor market in which we principally compete.

Historically, we have used a peer group for benchmarking compensation. The peer group incorporates companies that we consider primary competitors for talent and capital. The peers consist of industrial companies of comparable size to us (generally one-half to twice our size in terms of revenue), which typically have significant employee populations in manufacturing, product engineering and sales. In selecting the peers, the Compensation Committee excluded some companies that fit the above description but had low relative corporate governance ratings. The compensation peer group for fiscal year 2009 consisted of the following companies:

- Actuant Corp.
- Alamo Group Inc.
- Barnes Group Inc.
- Blount International
- Bucyrus International, Inc.
- Cascade
- Circor International
- Clarcor Inc.
- Enpro Industries, Inc.
- Esco Technologies, Inc.
- Federal Signal Corp.
- Gardner Denver Inc.
- Gehl
- Graco, Inc.
- Idex Corp.
- Kadant, Inc.
- Kaydon, Corp.
- Lydall, Inc.
- Milacron, Inc.
- Miller Industries
- Nordson Corp.
- Robbins & Myers
- Tennant
- Thermadyne Holding Corp.
- Titan International, Inc.
- Twin Disc, Inc.
- Valmont Industries, Inc.
- Wabash National Corp.
- Watts Water Technologies, Inc.
- Xerium Technologies, Inc.

In addition, we also consider data from compensation surveys published by leading compensation consulting and advisory firms including Mercer Benchmark Survey – Executive and for Mr. Wegener the Hay Group Survey-Germany. The survey analysis targets companies of comparable size in the durable goods manufacturing sector, supplemented with general industry data as needed.

One of our NEOs, Mr. Wolfgang Wegener, lives and works in Germany. The Compensation Committee considers differences in market practice and currency exchange rates between the U.S. and Germany in making compensation decisions for Mr. Wegener. In administering Mr. Wegener’s compensation, the Compensation Committee considers both market practice in Germany as well as internal equity between Mr. Wegener and our other executive officers.

The analysis of both the peer group and published surveys includes base salary, annual bonus, long-term compensation and total compensation.

Our Target Pay Mix

The total compensation package for our executive officers consists of base salary, annual incentives, long-term incentives and benefits. In determining both the target level of compensation and mix of compensation elements, we consider market practice, business objectives, expectations of our shareholders, and our own subjective assessment of individual executives’ performance, growth and future potential.

We have chosen a target mix of base salary, annual incentives and long-term incentives that generally reflects our peer industrial companies with actual pay mix varying based on the performance of our Company and of the individual. Peer company practices will continue to be monitored as one reference point as we make decisions regarding target pay mix. However, we will also continue to make strategic decisions based on our unique business objectives and circumstances, which may differ from peer company practices and circumstances.

While our target pay mix includes significant incentive opportunity, historically much of our compensation has been delivered in the form of base salary – due in past years to below target performance, resulting in below target annual incentive payouts, and longer intervals for granting long-term incentive awards. In recent years, we have significantly elevated our performance and strengthened our pay-for-performance orientation with a higher proportion of compensation provided through variable pay. We believe the current target pay mix achieves several important objectives: it supports a strong pay-for-performance culture; it balances the focus on annual and long-term objectives in support of our business strategy; it satisfies the need for flexibility to motivate and reward exceptional performance; and it maximizes tax deductibility of compensation.

The approximate current target pay mix for our executive officers is set forth in the table below. The target pay mix for each NEO is based on current base salary and targeted annual and long-term incentive multiples as a percentage of base salary.

Executive Officer	Base Salary	Annual Incentives	Long-Term Incentives
Timothy T. Tevens, President and Chief Executive Officer	36%	28%	36%

Richard A. Steinberg Vice President - Human Resources	51%	23%	26%

(1) Mr. Gilbreath's employment with us terminated in January 2009.

Factors Considered in Making Compensation Decisions

Actual compensation levels are a function of Company and individual performance as described under each specific compensation element below. When making pay decisions, the Compensation Committee considers the competitiveness of individual elements of compensation as well as the aggregate sum of base salary, annual incentives and the expected value of long-term incentives (determined at grant) for an executive officer. Awards are generally prorated if an NEO is promoted during the year, based on the timing of the promotion. The Compensation Committee may also consider salary increase history, past bonus awards and past equity awards as context in understanding year-to-year changes in compensation and retention effect of prior awards. Under the Annual Incentive Plan and long-term incentive program, initial awards are determined based upon target values established for each of the NEOs and then adjusted upon comparison of actual performance to pre-established criteria. The Compensation Committee retains the discretion to decrease the size of individual awards in situations where an executive officer's individual performance falls below expectations. Final decisions on any major element of compensation, as well as total compensation for executive officers, are made by the Compensation Committee or the full Board of Directors.

The compensation program is generally applied consistently to NEOs. Exceptions related to CEO compensation are noted throughout this report. In addition, Mr. Wegener's position is located in Germany, and exceptions related to his compensation are noted throughout this report.

The Compensation Committee's Position on Compensation and Excessive Risk

In establishing the structure and levels of executive compensation, the Compensation Committee has been mindful of the potential for risk taking by management to achieve certain target or above target incentives. The Compensation Committee has sought to balance fixed and variable compensation, short-term and long-term compensation, the performance metrics used in determining incentive compensation and the level of in-service and post-retirement benefits to mitigate against unnecessary or excessive risk taking.

During fiscal year 2009 the Company adopted additions to the executive compensation program that further align with shareholder interest and encourage management not to take excessive risks. Those additions are:

- Beginning with fiscal year 2010, a minimum cash flow trigger must be satisfied before any payouts can be made under the Annual Incentive Plan; and
- Stock Ownership guidelines were adopted for all officers.

Components of Compensation

Base Salary

Base salary provides a fixed amount of compensation appropriate to attract and retain key executives and to underpin the cyclicity of our business that can cause fluctuations in variable compensation from year to year. The Compensation Committee reviews base salaries on an annual basis, recommends adjustments to the CEO's salary to the Board of Directors, and approves adjustments for other NEOs. Salary adjustments are based on an assessment of the individual executive's performance and merit including the company's code of conduct and corporate governance principles, our goal of achieving market parity with the salaries of executives in the competitive market, recognition of promotion or other increases in responsibility, the scope of the executive's role relative to our other executives, and the general economic environment impacting the Company. History of salary increases may also be reviewed and considered. Mid-year adjustments are considered when there is a significant change in the executive's role or responsibility.

The Compensation Committee has recommended that any adjustments to salary for an executive officer will depend upon a formal annual review of job performance, accomplishments and progress toward individual and/or overall goals and objectives for each segment of our business that such executive officer oversees, as well as his or her contributions to our overall direction. Long-term growth in shareholder value is an important factor. The results of executive officers' performance evaluations, as well as their demonstration and support of the Company's values, including strong ethics, leadership style, and sound corporate governance, form a part of the basis of the Compensation Committee's decision to approve, at its discretion, future adjustments in base salaries of our executive officers.

The Committee approved the following base salary adjustments effective April 1, 2008 for our NEOs:

Executive Officer	Fiscal 2008 Base Salary	April 2008 Base Salary	Percentage Increase	February 2009 Base Salary(1)
Timothy T. Tevens, President and Chief Executive Officer	\$575,000	\$605,000	5.2	% \$574,750
Derwin R. Gilbreath, Former Vice President and Chief Operating Officer	\$328,000	\$338,000	3.0	% —
Karen L. Howard, Vice President – Finance and Chief Financial Officer	\$277,000	\$288,100	4.0	% 273,695
Wolfgang Wegener, Vice President and Managing Director - Columbus McKinnon Europe (2)	\$371,115	\$382,246	3.0	% 363,134
Joseph J. Owen, Vice President - Supply Chain Management	\$217,700	\$224,300	3.0	% 213,085
Richard A. Steinberg Vice President - Human Resources	\$171,400	\$178,300	4.0	% 169,385

(1) Effective February 2009, the NEOs voluntarily forfeited 5% of their salary until such time as the financial condition of the company returns to a more stable environment.

(2) Mr. Wegener's 2008 and 2009 salaries are based upon actual salary in Euros converted to US dollars based upon the March 31, 2009 exchange rate.

Annual Incentive Plan

The purpose of the Annual Incentive Plan is to attract, motivate, reward, and retain highly qualified executives on a competitive basis and provide financial incentives that promote Company success. This plan is designed to maximize the deductibility of bonuses paid under the Annual Incentive Plan by qualifying them as performance-based compensation not subject to the Internal Revenue Code Section 162(m) \$1,000,000 limit on the deductibility of compensation.

At the beginning of each fiscal year, our Compensation Committee recommends, and our Board approves, the key measures or “Drivers” for the Annual Incentive Plan. The Annual Incentive Plan focuses on the short-term goals that are most important to our success over the fiscal year, and that are generally within the control of the participants. It is the policy and ongoing intention of our Board of Directors to establish targeted performance levels for each Driver as soon as the fiscal year budget is adopted or at the start of the respective performance periods. Targeted performance levels are generally set for our Company as a whole, but may also encompass individual business units, groups, or divisions as appropriate. Drivers and targeted performance levels are based on the Board of Directors’ assessment of our priorities, outlook, current and projected economic conditions and other pertinent factors, and are intended to be challenging, but achievable, with significant and effective effort. The Board of Directors reviews audited year-end results to determine whether targeted performance levels have been met. The Board of Directors retains discretion to cap, reduce, or eliminate payments under the Annual Incentive Plan.

The Board of Directors also determines the weighting to be assigned to each Driver. For each Driver, goals are set at threshold, target, and maximum levels. Payouts are determined by multiplying the appropriate weighting by the percentages outlined in the table below; linear interpolation is used to determine percentages when performance falls between levels. The aggregate payout to any NEO may not exceed 300% of target.

Driver Performance Level	Percentage of Target (to be multiplied by weight for each Driver)
Maximum Performance Level (or higher)	300%
Target Performance Level	100%
Threshold Performance Level	50%
Below Threshold Performance Level	0%

Drivers and associated weightings for fiscal year 2009, which were established by the Board of Directors for each executive officer, are shown below. NEOs with corporate responsibilities are measured primarily on consolidated results. Fiscal year 2009 Drivers reflected the importance to us in fiscal year 2009 of profitability, growth and efficient use of capital. NEOs with specific business unit responsibility are measured on both consolidated and business unit results.

See the Summary Compensation Table for actual awards for fiscal year 2009 performance made to NEOs.

Awards to NEOs are made under the Annual Incentive Plan in order to maximize deductibility of these amounts for federal income tax purposes under Section 162(m) of the Internal Revenue Code.

Long-Term Incentives

The objectives of our long-term incentive program are to:

- link executive compensation and our long-term performance;
- better align key employees with our business strategies and with our shareholders' interests; and
- provide opportunity for long-term compensation that is competitive with peer companies and sufficient to attract and retain executive talent to effectively manage our business objectives.

In developing target levels for long-term incentive compensation for NEOs in conjunction with our current equity-based compensation strategy, the following factors were considered:

- a competitive analysis;
- the impact of the NEOs' roles within our Company; and
- the cost and share usage associated with the proposed plan.

Target long-term incentives (as a percentage of salary) are as follows:

Executive Officer	Long-Term Incentive Target (% of Base Salary)
Timothy T. Tevens, President and Chief Executive Officer	100%
Derwin R. Gilbreath, Former Vice President and Chief Operating Officer	80%
Karen L. Howard, Vice President – Finance and Chief Financial Officer	80%
Wolfgang Wegener, Vice President and Managing Director – Columbus McKinnon Europe	25%
Joseph J. Owen, Vice President - Supply Chain Management	50%
Richard A. Steinberg Vice President - Human Resources	50%

The target long-term incentive mix for our NEOs consists of non-qualified stock options (30% of target value), restricted stock or restricted stock units (30% of target value), and performance shares (40% of target value). Dollar values are converted to share numbers based on an estimate of expected value at initial grant.

In May 2008, the Compensation Committee changed the process and timing for granting equity under the long-term incentive program. For fiscal year 2009, grants of options and restricted stock units were approved by the Committee and granted in the first quarter of fiscal 2009 with vesting of the awards subject to fiscal 2009 performance. For fiscal 2008 and prior years, grants of options and restricted stock units were made following the completion of the fiscal year based on performance during the prior year. As a result of this change, in May 2008, grants of stock options and restricted stock units were made covering both fiscal 2008 and fiscal 2009 as reflected in the Grants of Plan-Based Awards Table. The following tables summarize the equity granted as part of the NEOs' annual compensation for fiscal year 2008 and fiscal year 2009.

Fiscal Year 2008	Performance Period	Initial Grant Date	Initial Grant as a Percent of Target	Date Grant Adjusted for Actual Performance	Shares or Units Earned as a Percent of Target
Performance Shares Subject to Total Shareholder Return	April 2007 to March 2010	May 2007	150%	May 2010	TBD
Options Subject to ROIC Performance	April 2007 to March 2008	N/A(1)	N/A(1)	May 2008	78%
Restricted Stock Units Subject to ROIC Performance	April 2007 to March 2008	N/A(1)	N/A(1)	May 2008	78%

(1) Options and Restricted Stock Units subject to ROIC Performance were granted after the performance period for fiscal year 2008; therefore, there was no initial grant.

(1) Grant represents target value for fiscal year 2009 and was granted on May 19, 2008.

Stock Options, Restricted Stock and Restricted Stock Units. Stock options are included to align management and shareholder interest by encouraging decisions and actions that result in long-term stock appreciation and ownership interest for management. In order to support retention and align executives with our stock performance over a longer horizon, options which are earned then vest 25% annually over the 2nd through 5th anniversary from the initial grant date of target awards and remain exercisable for 10 years from the date of grant.

Restricted stock and restricted stock unit awards are designed to support executive retention and share ownership. Vesting of awards under our equity plans is at the discretion of the Compensation Committee, subject to certain limitations; however, in fiscal year 2009 the practice was to have such awards vest ratably over three years beginning on the third anniversary of the date of the award.

For fiscal year 2009, the number of stock options and restricted stock units that may vest is subject to adjustment based on an evaluation of ROIC performance for the fiscal year ended (e.g., fiscal year 2009). Awards are determined in the following manner:

Return On Invested Capital Performance Level	Return On Invested Capital Amount	% of Target Earned
Below Threshold	Less than 9.6%	0%
Threshold	9.6%	50%
Target	10.5%	100%
Maximum	12.3%	150%

Linear interpolation will be used to calculate grant levels between Threshold, Target and/or Maximum results.

For fiscal year 2009, the threshold level of ROIC at 9.6% was not achieved, thus 100% of the options and restricted stock units tied to return on invested capital performance were forfeited in fiscal year 2009.

Performance Shares. Grants of performance shares are made annually, with vesting dependent upon performance achieved during a three-year performance period. Actual vesting of the awards and their ultimate value will be determined by relative three-year total shareholder return. Total shareholder return is based on annualized rates of return reflecting stock price appreciation plus reinvestment of dividends, if applicable. Performance will be assessed against the same set of peer companies as is used for compensation benchmarking. The peer companies consist of companies that are of comparable size to us (generally one-half to twice our size in terms of revenue) and that we consider to be primary competitors for talent, capital, and/or customers:

- Actuant Corp.
- Alamo Group Inc.
- Barnes Group Inc.
- Blount International
- Bucyrus International, Inc.
- Cascade
- Circor International
- Clarcor Inc.
- Enpro Industries, Inc.
- Esco Technologies, Inc.
- Federal Signal Corp.
- Gardner Denver Inc.
- Gehl (1)
- Graco, Inc.
- Idex Corp.
- Kadant, Inc.
- Kaydon, Corp.
- Lydall, Inc.
- Milacron, Inc.
- Miller Industries
- Nordson Corp.
- Robbins & Myers
- Tennant
- Thermadyne Holding Corp.
- Titan International, Inc.
- Twin Disc, Inc.
- Valmont Industries, Inc.
- Wabash National Corp.
- Watts Water Technologies, Inc.
- Xerium Technologies, Inc.

(1) Gehl was acquired in October 2008 and was dropped from the peer company calculation of relative performance and compensation peer group at that time.

For fiscal year 2009, performance shares are subject to adjustment based on the performance and payout relationship as illustrated in the table below:

Relative Total Shareholder Return Performance	Payout (% of Target)
Below 25th Percentile	0%
25th Percentile	25%
Median	100%
75th Percentile and above	150%

Linear interpolation will be used to establish payout levels between Threshold, Target and/or Maximum results.

The long-term incentive strategy is designed to support our business strategy and the interests of our shareholders. Where possible, the program has been designed such that long-term incentives can qualify as performance-based compensation so that the expense associated with the program is fully deductible for federal income tax purposes. Stock options, restricted stock and performance shares are expected to qualify as performance-based compensation.

Stock Option Granting Practices

The exercise price for any stock option is equal to the fair market value on the date of grant, which is an average of the opening and closing price on the date of grant. The date of grant is the date of the Board of Directors meeting at which the award is approved.

Retirement and Deferred Compensation

Retirement benefits provided to NEOs (other than Mr. Wegener) are the same as those provided to our other full-time, salaried domestic employees. Retirement programs are designed to provide a competitive benefit to employees while allowing the Company to manage costs.

The Columbus McKinnon Corporation Monthly Retirement Benefit Plan, a defined benefit pension plan (the "Pension Plan"), provides an annual benefit at age 65 equal to the product of (i) 1% of the participant's final average earnings (which is generally equal to the higher of (a) the average 12-consecutive month earnings during the last consecutive 60 months prior to retirement or (b) the average 12-consecutive month earnings during any 60-consecutive month period within the last 120 months prior to retirement) plus 0.5% of that part, if any, of final average earnings in excess of social security covered compensation, multiplied by (ii) such participant's years of credited service, limited to 35 years.

Mr. Wegener is covered by a pension plan sponsored by our German subsidiary, Yale Industrial Products GmbH. This defined benefit pension plan provides an annual benefit at age 65 equal to the product of (i) 0.5% of the highest average annual earnings of five years in succession of the last ten years prior to retirement, multiplied by (ii) credited years of service prior to age 65.

We also maintain a 401(k) retirement savings plan covering non-union domestic employees. Highly compensated employees may contribute up to 6% of annual cash compensation (base salary and payments under the Annual Incentive Plan) subject to limits set by the Internal Revenue Code. Contributions made prior to March 1, 2009 are eligible for a Company matching contribution of 50% of contributions up to 3% of salary. Effective March 1, 2009, the Company amended the 401(k) retirement savings plan to eliminate the matching formula and allow for discretionary contributions by the Company.

We maintain an Employee Stock Ownership Plan for the benefit of our domestic, non-union employees including our domestic NEOs. This Plan is considered a retirement benefit by the Company in conjunction with its defined benefit pension and 401(k) retirement savings plans.

During fiscal year 2008, we established a non-qualified deferred compensation plan (the "NQDC Plan") under which eligible participants (including our Directors and domestic NEOs) may elect to defer a portion of their cash compensation. The NQDC Plan does not currently offer a company match on participant contributions. Participants may defer up to 75% of their base salary and up to 100% of annual short-term and long-term incentive cash compensation. Payment of balances will occur in accordance with Internal Revenue Code Section 409A requirements.

Stock Ownership

Consistent with our objective of aligning management's interests with shareholders, we have established stock ownership requirements for all corporate and operating officers to maintain or accumulate minimum ownership levels of the Company's Common Stock. Executives are required to retain a portion of their equity compensation upon vesting in shares or exercise of options. The portion that each executive must continue to hold is described as the retention ratio which is applied to the after-tax shares received by the executive. If the value of shares held by an executive exceeds a specified multiple of base salary, the executive is no longer subject to the retention ratio requirement with respect to additional after-tax shares received by the executive. The following table summarizes the ownership guidelines as well as the respective retention ratio for executives.

Position / Title	Multiple of Base Salary	Retention Ratio
Chief Executive Officer	5X	50%
Chief Operating Officer and Chief Financial Officer	4X	50%
Executive Committee Members (other than COO and CFO)	3X	50%
Other Officers	2X	40%

Other Benefits and Perquisites

We provide very limited perquisites and other compensation to our NEOs. Instead, as previously discussed, we have elected to provide competitive fixed compensation through salary and benefits with opportunity for additional compensation through variable compensation based on Company performance.

NEOs may participate in benefit plans that are offered generally to salaried domestic employees such as those described above, as well as short and long-term disability, life insurance, health and welfare benefits, and paid time off.

Because the market for executive talent is national, and in some cases, global, we may recruit from outside of the regional area in order to obtain top talent. We may elect to pay relocation costs for full-time employees who are required to relocate in connection with their employment (including NEOs) to minimize any financial detriment to the employee. In situations where we pay relocation cost, we may also provide a payment to cover the cost of any additional taxes the employee incurs as a result of the reimbursement (a gross-up payment).

Mr. Wegener is employed in Germany and receives government benefits including health care, pension and unemployment insurance, for which we provide mandatory contributions. Mr. Wegener is also covered by workers' compensation insurance, for which we make contributions on his behalf. Mr. Wegener is also entitled to the use of an automobile for business purposes.

Employment and Change-In-Control Agreements

Employment Agreements

With the exception of Mr. Wegener, the Company has no employment agreements with its NEOs, but does provide these other NEOs with eligibility for severance benefits under our general severance policy upon delivery of an acceptable release of legal claims, i.e., severed employees are paid one week of their base salary for every year of service at the Company.

Mr. Wegener's agreement, entered into in 1996, does not have a fixed term and may be terminated by either party upon delivering written notice at least six months prior to the end of a calendar quarter. Mr. Wegener's base salary is reviewed and may be adjusted annually. Mr. Wegener also participates in our Annual Incentive Plan and long-term incentive Program. Mr. Wegener's agreement contains various restrictive covenants relating to the protection of confidential information and non-disclosure.

Change in Control Agreements

We have entered into change in control agreements with Messrs. Tevens, Owen, Steinberg, and Ms. Howard and certain other of our officers and employees. The intent of these agreements is to provide executive officers with financial security in the event of a change in control to facilitate a transaction which may benefit shareholders but result in job loss to executives. The change in control agreements provide for an initial term of one year, which, absent delivery of notice of termination, is automatically renewed annually for an additional one year term.

Generally, each of the NEOs (other than Mr. Wegener) is entitled to receive, upon termination of employment within 6 months preceding or 24 months after a change in control of our Company (unless such termination is because of death, disability, for cause or by the officer or employee other than for “good reason,” as defined in the change in control agreements), (i) a lump sum severance payment equal to three times the sum of (A) his or her annual salary and (B) the greater of (1) the annual target bonus under the Annual Incentive Plan in effect on the date of termination and (2) the annual target bonus under the Annual Incentive Plan in effect immediately prior to the change in control, (ii) a lump sum payment, in cash, equal to thirty-six (36) times the monthly cost of continued coverage if COBRA is elected under the company group health plans, (iii) a lump sum payment equal to the actuarial equivalent of the pension payment which he or she would have accrued under our tax-qualified retirement plans had he or she continued to be employed by us for three additional years, (iv) unless otherwise provided in an equity award agreement, all options, restricted shares or units and performance shares or units become fully vested and (v) certain other specified payments.

Aggregate “payments in the nature of compensation” (within the meaning of Section 280G of the Internal Revenue Code) payable to any executive or employee under the change in control agreements is limited to the amount that is fully deductible by us under Section 280G of the Internal Revenue Code less one dollar. The events that trigger a change in control under these agreements include (i) the acquisition of 20% or more of our outstanding common stock by certain persons, (ii) certain changes in the membership of our Board of Directors, (iii) certain mergers or consolidations, (iv) certain sales or transfers of substantially all of our assets and (v) the approval by our shareholders of a plan of dissolution or liquidation.

Tax and Accounting Considerations

The Compensation Committee has considered the implications of Section 162(m) of the Internal Revenue Code in making decisions concerning compensation design and administration. The Compensation Committee views tax deductibility as an important consideration and intends to maintain deductibility wherever possible, but also believes that our business needs should be the overriding factor of compensation design. Therefore, the Compensation Committee believes it is important to maintain flexibility and has not adopted a policy requiring that specific programs meet the requirements of performance-based compensation under Section 162(m). Nevertheless, we believe that all compensation provided to the NEOs for fiscal year 2009 is fully deductible. The Committee also considers tax implications for executives and structures its compensation programs to comply with Section 409A of the Internal Revenue Code. Accounting and cost implications of compensation programs are considered in program design; however, the main factor is alignment with our business needs.

Incentive Plans

2006 Long Term Incentive Plan. In May 2006, we adopted the Omnibus Plan and reserved, subject to certain adjustments, an aggregate of 850,000 shares of our common stock for issuance thereunder. The Omnibus Plan was approved by our shareholders in July 2006 at our 2006 Annual Meeting. Under the terms of Omnibus Plan, incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, restricted stock units and stock bonuses may be granted by our Compensation Committee to our officers and other key employees, as well as to non-employee directors. In fiscal year 2009, we granted 43,535 shares of performance-based restricted stock, 12,436 shares of our common stock, 32,050 restricted stock units and 139,150 stock options under the Omnibus Plan. There are 649,330 shares remaining for future issuance under the Omnibus Plan. We plan to utilize these available shares in connection with future grants where appropriate.

Non-Qualified Stock Option Plan. In October 1995, we adopted the Columbus McKinnon Corporation Non-Qualified Stock Option Plan (the “Non-Qualified Plan”) and reserved, subject to certain adjustments, an aggregate of 250,000 shares of our common stock for issuance thereunder. Under the terms of the Non-Qualified Plan, which was amended in 1999, options may be granted by our Compensation Committee to our officers and other key employees as well as to non-employee directors and advisors. In fiscal year 2009, no grants were made under the Non-Qualified Plan. There are 59,670 shares remaining for future issuance under the Non-Qualified Plan. We plan to utilize these available shares in connection with future option grants where appropriate.

Restricted Stock Plan. The Columbus McKinnon Corporation Restricted Stock Plan (the “Restricted Stock Plan”), which was adopted in October 1995 and amended in 2002, reserves, subject to certain adjustments, an aggregate of 150,000 shares of our common stock to be issued upon the grant of restricted stock awards thereunder. Under the terms of the Restricted Stock Plan, our Compensation Committee may grant to our employees restricted stock awards to purchase shares of common stock at a purchase price of not less than \$.01 per share. Shares of common stock issued under the Restricted Stock Plan are subject to certain transfer restrictions and, subject to certain exceptions, must be forfeited if the grantee’s employment with us is terminated at any time prior to the date the transfer restrictions have lapsed. Grantees who remain continuously employed with us become vested in their shares five years after the date of the grant, or earlier upon death, disability, retirement or other special circumstances. The restrictions on any such stock awards automatically lapse in the event of certain extraordinary transactions, including a change in our control. In fiscal year 2009, no grants were made of shares of our common stock under the Restricted Stock Plan. There are 47,000 shares remaining for future issuance under the Restricted Stock Plan. We plan to utilize these available shares in connection with future awards where appropriate.

Annual Incentive Plan. In 2006, we adopted the Annual Incentive Plan to replace our previous corporate incentive plan and to pay covered employees appropriate bonuses for their performance and to obtain, for federal income tax purposes, the deductibility of bonus awards made under this Plan. Accordingly, the amounts payable under this Plan are intended to constitute “qualified performance-based compensation” under Section 162(m) of the Internal Revenue Code. Our executive officers and certain of our managers are eligible to participate in the Annual Incentive Plan. Under this Plan, for each fiscal year, the objective performance goal(s) for each participant is set by the Compensation Committee within the first 90 days of the fiscal year. The performance goals will relate to one or more business criteria within the meaning of Section 162(m) of the Internal Revenue Code, but limited to: net earnings (either before or after interest, taxes, depreciation and amortization), economic value-added (as determined by the Compensation Committee), sales or revenue, net income (either before or after taxes), operating earnings or income, cash flow (including, but not limited to, operating cash flow and free cash flow), cash flow return on capital, return on investment, return on shareholders’ equity, return on assets or net assets, return on capital, debt reduction, stockholder returns, return on sales, gross or net profit margin, productivity, expense, margins, operating efficiency, cost reduction or savings, customer or employee satisfaction, safety, working capital, earnings or diluted earnings per share, price per share of our common stock, and market share, any of which may be measured either in absolute terms or as compared to any incremental increase or as compared to results of a peer group. After the end of each fiscal year, the Compensation Committee will determine and certify in writing the amount of bonus to be awarded to each participant in accordance with the limitations established by the Plan, which bonus will be paid in cash.

401(k) Plan. We maintain a 401(k) retirement savings plan which covers all of our non-union employees in the U.S., including our executive officers, who have completed at least 90 days of service. Eligible participants may contribute up to 30% of their annual compensation (6% for highly compensated employees), subject to an annual limitation as adjusted by the provisions of the Internal Revenue Code. Employee contributions through February 28, 2009, are matched by the Company in an amount equal to 50% of the employee's contributions, as such term is defined in the 401(k) Plan. Our matching contributions are limited to the first 3.0% of the employee's base pay and vest at the rate of 20% per year. Effective March 1, 2009, the Company amended the 401(k) retirement savings plan to eliminate the matching formula and allow for discretionary contributions by the Company. No discretionary contributions were made in fiscal year 2009.

Options Exercised and Stock Vested

The executives named in the summary compensation table did not exercise stock options, stock appreciation rights or similar rights, and did not vest any stock or stock units in fiscal year 2009.

Pension Plan

The Pension Plan is a non-contributory, defined benefit plan which provides certain of our domestic employees with retirement benefits. As defined in the Pension Plan, a participant's annual pension benefit at age 65 is equal to the product of (i) 1% of the participant's final average earnings, as calculated by the terms of the Pension Plan, plus 0.5% of that part, if any, of final average earnings in excess of such participant's "social security covered compensation," as such term is defined in the Pension Plan, multiplied by (ii) such participant's years of credited service, limited to 35 years. Plan benefits are not subject to reduction for social security benefits.

As discussed above, Mr. Wegener is covered by a pension plan sponsored by our German subsidiary, Yale Industrial Products GmbH. This defined benefit pension plan provides an annual benefit at age 65 equal to the product of (i) 0.5% of the highest average annual earnings of five years in succession of the last ten years prior to retirement,

multiplied by (ii) credited years of service prior to age 65.

40

The following table sets forth with respect to each of our plans that provides retirement benefits to our NEOs, (i) the years of credited service of each of the executives named in the summary compensation table, (ii) the present value of his or her accumulated benefit and (iii) payments received by him or her during fiscal year 2009:

(1) Years of credited service determined as of March 31, 2009.

(2) The present value of accumulated benefit under the Columbus McKinnon Corporation Monthly Benefit Plan is calculated as of March 31, 2009 using (i) a discount rate of 7.25%, (ii) the GAM 1994 Group Annuity Table for Males and Females and (iii) the earliest retirement age at which benefits are not reduced (typically, age 65).

(3) Derwin Gilbreath, former Chief Operating Officer, separated from service prior to reaching five (5) years of credited service; as such he is not entitled to a pension benefit from the Company.

(4) The present value of accumulated benefit under the Yale Industrial Products GmbH Pension Plan is calculated as of March 31, 2009 using (i) a discount rate of 6%, (ii) the Richttafeln 2005G by Klaus Heubeck Mortality Table, (iii) the retirement age under German social security legislation and (iv) the Euro to dollar conversion rate in effect on March 31, 2009.

Non-Qualified Deferred Compensation

The Company maintains the NQDC Plan under which eligible participants (including our Directors and domestic NEOs) may elect to defer a portion of their cash compensation. The NQDC Plan does not currently offer a company match on participant contributions. Employee Participants may defer up to 75% of their base salary and up to 100% of annual short-term and long-term incentive compensation. Directors may defer up to 100% of retainer and meeting Fees. Payment of balances will occur in accordance with Internal Revenue Code Section 409A requirements.

None of the NEOs have deferred compensation. Thus, they did not have any contributions, earnings, or balances under the NQDC Plan in fiscal 2009.

Other Potential Post-Employment Payments

It is our policy to provide severance benefits to each of our domestic full-time salaried employees and hourly employees not covered by a collective bargaining agreement who involuntarily lose their positions without cause. Eligible employees who sign a release generally receive (i) one week of base salary at the rate then in effect for each full year of continuous service (with any fractions being rounded up) and (ii) continuation of medical, dental and company paid life insurance benefits for the severance period.

The following table sets forth the amount each NEO would receive under various termination scenarios described above using the following assumptions:

- Termination of employment on March 31, 2009; and
- Exercise of all options and vesting of all restricted stock based on the closing market price of \$8.72 per share of our common stock on March 31, 2009.
