Item 8.01. Other Events

In December 2012, Southwestern Public Service Company (SPS), a New Mexico corporation, and a wholly owned subsidiary of Xcel Energy Inc., filed an electric rate case in New Mexico with the New Mexico Public Regulation Commission (NMPRC) for an increase in annual revenue of approximately \$45.9 million effective in 2014. The rate filing is based on a 2014 forecast test year, a requested return on equity (ROE) of 10.65 percent, a jurisdictional electric rate base of \$479.8 million and an equity ratio of 53.89 percent. On June 19, 2013, SPS revised its requested rate increase to \$43.3 million. Of this amount, approximately \$19.9 million is an increase in base revenue, \$21.8 million is to be recovered through rider revenue and approximately \$1.7 million is to be recovered through fuel cost adjustment revenue.

On Aug. 22, 2013, the NMPRC Staff (Staff), the New Mexico Attorney General (NMAG), the Federal Executive Agencies (FEA), the Coalition of Clean Affordable Energy (CCAIE), Occidental Permian, Ltd, and New Mexico Gas Company filed testimony.

The following table summarizes certain parties' recommendations from SPS' revised request:

	Staff Testimony August 2013	NMAG Testimony August 2013
(Millions of Dollars)		
SPS revised request	\$ 43.3	\$ 43.3
Rate rider for renewable energy costs <sup>(a)</sup>	(14.5 )	(8.5 )
Present revenues (sales growth and weather)	(4.4 )	(6.4 )
ROE (9.8% and 8.63%, respectively)	(3.2 )	(8.1 )
Capital structure	(1.5 )	(1.1 )
Employee benefits	(2.8 )	(1.8 )
Reduced recovery for payroll expense	(0.1 )	(0.1 )
Gain on sale of transmission assets	-	(1.7 )
Fuel clause revenue	6.0	-
Other, net	(5.0 )	(6.6 )
Recommended rate increase	\$ 17.8	\$ 9.0
Means of recovery:		
Base revenue	\$ 8.8	\$ (6.0 )
Rider revenue	7.3	13.3
Fuel cost adjustment revenue	1.7	1.7
	\$ 17.8	\$ 9.0

<sup>(a)</sup> Adjustments represent recommended deferrals, extended amortizations and moving costs from rider to fuel in base rates.

In addition, the FEA recommended an ROE of 9.35 percent and an overall weighted average cost of capital of 7.86 percent. CCAIE recommended that the rate rider for renewable energy costs be rejected, but did not recommend a permanent disallowance of the costs that SPS proposes to recover through the rider.

Next steps in the procedural schedule are expected to be as follows:

• Rebuttal Testimony – Sept. 9, 2013

• Evidentiary Hearings – Sept. 16-27, 2013

• A NMPRC decision is anticipated in the fourth quarter of 2013

Final rates are expected to be effective in the first quarter of 2014
