Item 2.02. Results of Operations and Financial Condition.

On June 29, 2016, Acuity Brands, Inc. (the “Company”) issued a press release containing information about the Company's results of operations for its fiscal quarter ended May 31, 2016. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K, which is incorporated herein by reference. The information contained in this paragraph, as well as Exhibit 99.1 referenced herein, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933.

The press release includes the following non-GAAP financial measures: "adjusted gross profit", “adjusted selling, distribution, and administrative expenses” (“adjusted SD&A expenses”), “adjusted operating profit”, “adjusted operating profit margin”, “adjusted net income”, and “adjusted diluted EPS”. These non-GAAP financial measures are provided to enhance the reader's overall understanding of the Company's current financial performance and prospects for the future. Specifically, management believes that these non-GAAP measures provide useful information to investors by excluding or adjusting items for acquisition-related items, amortization of acquired intangible assets, stock-based compensation expense, and special charges associated with efforts to streamline the organization. Management typically adjusts for these items for internal reviews of performance and uses these non-GAAP measures for baseline comparative operational analysis, decision making and other activities. Specifically, management believes these non-GAAP measures provide greater comparability and enhanced visibility into the Company's results of operations. These non-GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, results prepared in accordance with GAAP. The most directly comparable GAAP measure for adjusted gross profit is "gross profit," which includes the impact of acquisition-related items. The most directly comparable GAAP measure for adjusted SD&A expenses is “SD&A expenses” which includes acquisition-related items, amortization of acquired intangible assets, and stock-based compensation expense. The most directly comparable GAAP measures for adjusted operating profit, adjusted operating profit margin, adjusted net income, and adjusted diluted EPS are “operating profit,” “operating profit margin,” “net income,” and “diluted EPS,” respectively, which include the impact of acquisition-related items as well as amortization of acquired intangible assets, stock-based compensation expense, and special charges.
