Consolidated Business Results

The third quarter of fiscal 2005, ended December 31, 2004, resulted in consolidated operating revenue of ¥196,303 million (US\$1,887.5 million), down 0.9% from the corresponding period in the previous year. Profitability dropped sharply, as operating income was ¥1,632 million (US\$15.7 million), a 90.2% decrease, and net income was ¥1,785 million (US\$17.2 million), an 80.5% decrease. The average value of the yen was up 2.8% against the U.S. dollar and down 5.6% against the euro from the corresponding period in the previous year.

Home Electronics sales increased 6.2% to ¥97,078 million (US\$933.4 million) from the corresponding period last year. In Japan, sales rose 7.5% to ¥30,324 million (US\$291.6 million) primarily due to a large increase in sales of plasma displays, including the expansion of our OEM (original equipment manufacturing) business, despite the decreased sales of DVD recorders as well as recordable DVD drives for personal computers (PCs). Overseas sales also rose 5.6% to ¥66,754 million (US\$641.9 million) primarily due to an increase in sales of plasma displays worldwide and DVD recorders in Europe, despite a decrease in sales of DVD players worldwide, recordable DVD drives for PCs in Europe and audio products in Europe and Asia, as well as withdrawal of our digital cable TV set-top box business in North America.

Car Electronics sales decreased to ¥69,375 million (US\$667.1 million), down 7.7% from the corresponding period in the previous year. In Japan, sales decreased 14.3% to ¥29,578 million (US\$284.4 million), primarily reflecting decreased sales of car navigation systems in the consumer market, influenced by demand lower than initially expected, and OEM products. Overseas sales decreased 2.1% to ¥39,797 million (US\$382.7 million), primarily due to a decrease in sales of car audio products in the consumer market worldwide, despite a strong increase in sales of car navigation systems in Europe and North America.

Royalty revenue from **Patent Licensing** decreased 20.0% from the corresponding period in the previous year to ¥1,407 million (US\$13.5 million), reflecting the expiration of patents included in a larger portfolio of patents licensed to the optical disc industry.

Others sales decreased 4.1% from the corresponding period in the previous year to ¥28,443 million (US\$273.5 million). In Japan, sales decreased by 20.4% to ¥13,338 million (US\$128.3 million) primarily due to a decrease in sales of organic light-emitting diode (OLED) display panels and a sales shift from Japan to China of devices for cellular phones and semiconductors related to laser pickups, despite an increase in sales of factory automation systems. Overseas, sales were up 17.2% to ¥15,105 million (US\$145.2 million), primarily due to increased sales in China of devices for cellular phones and semiconductors related to laser pickups, despite decreased sales of optical disc manufacturing systems in Southeast Asia.

Table of Contents

Operating income decreased 90.2% from the corresponding period of the previous year to ¥1,632 million (US\$15.7 million). Due mainly to intensified price competition, market prices of our major products dropped, which adversely affected gross profit margin. Net income was ¥1,785 million (US\$17.2 million), an 80.5% decrease from the corresponding period of the previous year.

Nine-month results Operating revenue for the nine-month period ended December 31, 2004 was ¥541,350 million (US\$5,205.3 million), a 4.5% increase, while net income for the period was ¥6,594 million (US\$63.4 million), a 69.5% decrease, each compared with the corresponding period in the previous year.

Cash Flows

Cash flows from operating activities for the third quarter ended December 31, 2004 decreased by ¥2,300 million to ¥6,985 million (US\$67.2 million), from ¥9,285 million for the corresponding period of the previous year. Net cash used in investing activities was ¥19,548 million (US\$188.0 million), up ¥4,695 million in comparison with ¥14,853 million for the corresponding period of the previous year, due mainly to an increase in capital expenditures.

Business Forecasts for Fiscal 2005

Assuming that the yen-U.S. dollar and the yen-euro exchange rates average ¥100 and ¥130, respectively, through the end of fiscal 2005, ending March 31, 2005, we have revised downward our consolidated business forecasts for fiscal 2005, from those announced on October 28, 2004, as follows:

	Revised projections for fiscal 2005	Previous projections for fiscal 2005	(In millions of yen) Results for fiscal 2004
Operating revenue	¥ 730,000	¥ 800,000	¥ 700,885
Operating income	2,000	27,000	43,719
Income before income taxes	0	25,000	41,848
Net income (loss)	¥ (8,000)	¥ 10,000	¥ 24,838

The projection of operating revenue for fiscal 2005 is revised downward, reflecting intensified competition and rapid decline of market prices of our major products such as plasma displays, DVD recorders and recordable DVD drives.

The projections for fiscal 2005 of operating income, income before income taxes and net income are also revised downward, reflecting our forecast of the sales decline from our expectation last time of our major products mentioned above, the decrease in gross profit margin, mainly due to the fall of market prices and the decrease of production level in terms of units, and the disposal and the write-down of inventories.
