PART I – FINANCIAL INFORMATION

Item 1. Financial Statements.

Introduction to Interim Consolidated Financial Statements.

The interim consolidated financial statements included herein have been prepared by Golden River Resources Corporation (“Golden River Resources” or the “Company”) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the “Commission”). Certain information and footnote disclosure normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These interim consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended June 30, 2010.

In the opinion of management, all adjustments, consisting of normal recurring adjustments and consolidating entries, necessary to present fairly the consolidated financial position of the Company and subsidiaries as of March 31, 2011, the results of its consolidated operations for the three and nine month periods ended March 31, 2011 and March 31, 2010, and the changes in its consolidated cash flows for the nine month periods ended March 31, 2011 and March 31, 2010, have been included. The results of consolidated operations for the interim periods are not necessarily indicative of the results for the full year.

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Restatement of Financial Statements

In February 2011, the Company filed an amendment to its previously filed 10-Q for the three and nine months ended March 31, 2010 to revise the fair value amounts related to the acquisition of the assets and liabilities of Acadian Mining Corporation (Acadian).

During the fourth quarter of fiscal 2010, the Company completed the accounting for the acquisition of Acadian and as a result, adjustments were made to the preliminary fair value accounting at the date of acquisition. The preliminary fair value estimates and the final fair value amounts of the assets and liabilities of Acadian at acquisition date are disclosed in note 2.

UNLESS OTHERWISE INDICATED, ALL FINANCIAL INFORMATION PRESENTED IS IN CANADIAN DOLLARS.

GOLDEN RIVER RESOURCES CORPORATION AND SUBSIDIARIES
(An Exploration Stage Company)
Notes to Consolidated Financial Statements
March 31, 2011

(1) Organisation

Golden River Resources Corporation (“Golden River Resources” or the “Company”) is incorporated in the State of Delaware. The principal shareholders of Golden River Resources are companies associated with the President of Golden River Resources and his spouse. These companies owned 96.6% of Golden River Resources as of March 31, 2011.

In May 2002, the Company incorporated a new wholly owned subsidiary, Golden Bull Resources Corporation (formerly 4075251 Canada Inc), a corporation incorporated under the laws of Canada. Golden Bull Resources Corporation is undertaking exploration activities for gold in Canada.

Golden River Resources, as part of its business strategy, is increasing its gold and base metal exploration activity in Canada and is continually sourcing new ground in Canada which is one of the most prospective areas for new gold discoveries. On March 17, 2009, the Company announced that it had reached agreement with Acadian Mining Corporation (TSX: ADA) (“Acadian”) to subscribe in a private placement transaction giving Golden River Resources a 68.67% holding of Acadian. Golden River Resources currently holds 38,734,520 common shares in Acadian for a 71.5% interest. On November 17, 2010, Acadian consolidated its outstanding common shares on the basis of one post-consolidated share for every ten pre-consolidated shares as approved by Acadian shareholders.

The financial statements presented herein have been prepared on a consolidated basis to include the accounts of Golden River Resources, Acadian and its other subsidiaries (collectively “the Company”). All intercompany balances and transactions have been eliminated in consolidation.

The Company's consolidated financial statements are prepared using accounting principles generally accepted in the United States of America (“US GAAP”) applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, Golden River Resources is an exploration stage company which has not yet commenced revenue producing operations and has incurred losses since its inception. The Company has historically relied on loans and advances from corporations affiliated with its President and fund raising through the sale of equity instruments. The Company's ability to continue operations through fiscal 2011 is dependent upon loans from affiliates, future funding from capital raisings, or its ability to commence revenue producing operations and positive cash flows.

(2) Restatement of Financial Statements

In February 2011, the Company filed an amendment to its previously filed 10-Q for the three and nine months ended March 31, 2010 to revise the fair value amounts related to the acquisition of the assets and liabilities of Acadian. (3) Recent Accounting Pronouncements

In January 2010, the FASB issued ASU 2010-01, Equity (Topic 505) – Accounting for Distributions to Shareholders with Components of Stock and Cash. ASU 2010-01 clarifies that the stock portion of a distribution to shareholders that allows them to elect to receive cash or shares with a potential limitation on the amount of cash that all shareholders can elect to receive is considered a share issuance. ASU 2010-01 is effective for interim and annual periods ending on or after December 15, 2009 and should be applied on a retrospective basis. The adoption of ASU 2010-01 did not have any impact on our financial position, results of operations or cash flows.

In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements, under ASC No. 820-10. The update requires new disclosures about significant transfers in and out of Level 1 and Level 2 fair value measurements. ASU No. 2010-06 also clarifies disclosures required about inputs, valuation techniques and the level of disaggregation applied to each class of assets and liabilities. These updates are effective for interim and annual reporting periods beginning after December 15, 2009. These amendments have no material impact on the Company's financial results given that they relate to disclosure and presentation only.

In April 2010, the FASB issued ASU 2010-13, Share Based Payment Awards Denominated in Certain Currencies. The ASU guidance issued to amend ASC 718, Compensation – Stock Compensation clarifies that an employee share-based payment award that has an exercise price denominated in the currency of the market in which a substantial portion of the entity's equity shares trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, an entity should not classify such an award as a liability if it otherwise qualifies as equity. This amended guidance is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010, with early adoption permitted. The adoption of ASU 2010-13 did not have a material impact on our financial position, results of operations or cash flows.

In December 2010, the FASB issued ASU 2010-28 which amends "Intangibles- Goodwill and Other" (Topic 350). The ASU modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting entities, they are required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. An entity should consider whether there are any adverse qualitative factors indicating that impairment may exist. The qualitative factors are consistent with the existing guidance in Topic 350, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances changes that would more likely than not reduce the fair value of a reporting unit below its carrying amount. ASU 2010-28 is effective for fiscal years, and interim periods within those years beginning after December 15, 2010. The adoption of this ASU did not have a material impact on the Company's consolidated financial statements.

In December 2010, the FASB issued ASU 2010-29 which address diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations (Topic 805). This ASU specifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. This ASU also expands the supplemental pro forma disclosures under Topic 805 to include a description of the nature and amount of material, nonrecurring pro-forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. ASU 2010-29 is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. The adoption of this ASU is not expected to have a material impact on the Company's consolidated financial statements.

NCRC currently holds approximately 96.578% of the outstanding common stock of the Company. The amount owed to NCRC at March 31, 2011 under current liabilities – advances from affiliates was CDN\$605,211.

In July 2009, Acadian acquired the remaining 50% of the 15 Mile Stream mineral claims for a cash payment of CDN\$70,000 and a non-interest bearing note for CDN\$1.0 million due July 2010 and a 1% net smelter royalty payable to Mr. Will Felderhof, the former President and CEO of Acadian, and members of his family. On July 8, 2010, the Company extended the terms of the CDN\$1.0 million note for a further 12 months and paid a CDN\$100,000 principal payment. The Company has accounted for this reverse stock split and accordingly, all share and per share data has been retroactively restated.

(6) Issue of Options under Stock Option Plan

The Company follows the provisions of ASC Topic 718 Compensation-Stock Compensation ("ASC 718"), which addresses the accounting for share-based payment transactions in which a company receives employee services in exchange for (a) equity instruments of that company or (b) liabilities that are based on the fair value of the Company's equity instruments or that may be settled by the issuance of such equity instruments.

The Company has accounted for all options issued based upon their fair market value using either the Black Scholes or Binomial option pricing method. Prior to 2006, the Company used the Black Scholes option pricing method to determine the fair market value of options issued. In 2006, the Company changed from using the Black Scholes option pricing method to the Binomial option pricing model. The Binomial option pricing model breaks down the time to expiration into a number of steps or intervals and can therefore be used to value American style options, taking into account the possibility of early exercise and reflect changing inputs over time. The options issued in 2006 have three vesting periods and therefore, the Company believed the Binomial option pricing model is a more accurate measure of the fair value of the options.

In October 2004, the Board of Directors and Remuneration Committee of the Company adopted a Stock Option Plan and agreed to issue 140,000 options to acquire shares of common stock in the Company, at an exercise price of US\$10.00 per option, subject to shareholder approval which was subsequently received on January 27, 2005. All such options were vested by July 2006. The exercise price of US\$10.00 was derived from the issue price of common stock from the placement of shares on September 30, 2004 and is considered by the Company's Directors to be the fair value of the common stock. The options expire on October 15, 2014.

The Company calculated the fair value of the 140,000 options using the Black Scholes valuation method using a fair value share price of US\$10.00, strike price of US\$10.00, maturity period of 5 years 7 ½ months, risk free interest rate of 5.15% and volatility of 20%. This equates to a value of US\$3.185 per option. The total value of the options equates to CDN\$1,645,780 (US\$1,352,820) and such amount was amortized over the vesting period. At March 31, 2011, the options are fully vested.

Consistent with the provisions of ASC 718, the Company recorded the fair value of stock option grants in stockholders equity. Under ASC 718 an equity instrument is not considered to be issued until the instrument vests. Accordingly, as provided in ASC 718 effective July 1, 2005, the Company has reversed CDN\$551,000 (US\$445,900) being the unamortized restricted stock compensation at June 30, 2005 included in stockholders equity for the unvested portions of stock option grants awarded prior to the effective date of ASC 718.

Since the issue of the options in 2004, 60,000 options have lapsed following the termination of participants to the issue.

A summary of the options outstanding and exercisable at March 31, 2011 are as follows:

Number of options	Outstanding	Exercisable
Exercise price	80,000	80,000
Expiration date	\$ US10.00	\$ US10.00
	October 15,	October 15,
	2014	2014

On October 19, 2006, the Directors of the Company agreed to offer a further 465,000 options under the Stock Option Plan. The options had no issue price, an exercise price of US\$3.084 and a latest exercise date of October 19, 2016. The options vested 1/3 on October 19, 2007 ("T1"), 1/3 on October 19, 2008 ("T2") and 1/3 on October 19, 2009 ("T3"). The Company obtained an external valuation on the options from an unrelated third party.

The Company, through an unrelated third party consultant, has calculated the fair value of the 465,000 options using the binomial option pricing model using a fair value share price of US\$3.00, exercise price of US\$3.08, expected life T1 - 5 years 6 months, T2 - 6 years, T3 - 6 years 6 months, risk-free interest rate of 4.75% and volatility of 90%. The total value of the options equates to CDN\$1,207,860 (US\$1,060,200) and such amount was amortised over the vesting period. At March 31, 2011, the options were fully vested.

Since the issue of the options in 2006, 60,000 options have lapsed following the termination of participants to the issue.

A summary of the options outstanding and exercisable at March 31, 2011 are as follows:

Acadian

At the annual and special meeting of shareholders of Acadian held on June 14, 2007, the shareholders adopted a 10% "rolling" incentive stock option plan (the "Plan"). Options granted under the Plan have a five-year term. Options are granted at a price no lower than the market price of the common shares at the time of the grant. The rules of the Toronto Stock Exchange ("TSX") provide that all unallocated options issuable under a "rolling" stock option plan must be approved by shareholders every three years after institution of the stock option plan. The plan was approved at the Annual General Meeting of Acadian held June 24, 2010. In determining the stock-based compensation expense, in fiscal 2011, the fair value of the options issued were estimated using a Black-Scholes option pricing model with the weighted average assumptions used of risk-free interest rate of 1.50%, expected dividend yield of 0.00% expected stock price volatility of 62%, expected life of options of 5 years and grant date fair value CDN\$0.30.

Upon completion of the Acquisition, Selwyn will own the mine-mill complex and an extensive mineral claims package owned by ScoZinc. The Acquisition is subject to completion of formal documentation, regulatory approval and the achievement of certain conditions prior to closing, including Selwyn being satisfied with the results of an environmental audit by an independent consulting group and Selwyn receiving an independent NI 43-101 Technical Report confirming the Mineral Resources reported by ScoZinc. The parties have agreed to act expeditiously and in good faith in finalizing a more formal agreement of purchase and sale. Acadian has agreed to the payment of a break fee in the amount of \$1.5 million if it receives and accepts an unsolicited superior proposal. The accompanying financial statements reflect an accrual of the estimated amount owing under this obligation which amounted to approximately CDN\$2.1 million and CDN\$1.5 million at June 30, 2010 and March 31, 2011, respectively.

During November 2010, Acadian entered into an agreement with the Equipment Supplier to make monthly installment payments through May 2011 totaling CDN\$900,000 which would satisfy in full the aforementioned obligation under the guarantee. Acadian has made payments aggregating CDN\$600,000 in accordance with the agreement through March 31, 2011.

The agreement contains a provision that states that in the event Acadian fails to make any of the payments as required, the Equipment Supplier shall be entitled to take any and all actions available to it to enforce its rights under the guarantee. In the period in which all of the payments required under the agreement have been made in full and upon being relieved of its obligation by the Equipment Supplier, the remaining balance of the accrued liability will be derecognized and a related gain of approximately CDN\$1.2 million will then be recorded by Acadian.

(17) Income Taxes

The Company recognises deferred tax assets or liabilities for the expected future consequences attributable to differences between the financial statement carrying amount of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

The Company's net deferred taxes at March 31, 2011 is summarized as follows:

	USA CDN\$000s	Canada CDN\$000s	Total CDN\$000s
Deferred tax assets			
Net operating loss carry-forward	1,865	343	2,208
Exploration expenditure	790	1,457	2,247
	2,655	1,800	4,455
Less valuation allowance	(2,655)	(1,800)	(4,455)
	-	-	-
Deferred tax liability			
Investment in subsidiary	(2,729)	-	(2,729)
Net deferred taxes	(2,729)	-	(2,729)

Total available net operating loss carryforwards in the United States, which are subject to limitations, amount to approximately CDN\$5,300,000 at March 31, 2011 and expire in years 2023 through 2030. Net operating loss carryforwards in Canada do not have a definite expiration date.

Included in accounts payable and accruals is an amount of CDN\$250,276 being an estimated liability to the IRS in relation to late filing of prior year tax returns. The Company has estimated the potential maximum liability and is making representations to the IRS in relation to the quantum of this liability.

(18) Subsequent Events

The Company has evaluated significant events subsequent to the balance sheet date and has determined that there were no subsequent events or transactions which would require recognition or disclosure in the consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Canadian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Canadian dollar as compared to the US dollar and Australian dollar during the periods indicated:

9 months ended March 31, 2010	CDN\$1.00 = US\$.9815
9 months ended March 31, 2011	CDN\$1.00 = US\$1.0283
9 months ended March 31, 2010	CDN\$1.00 = A\$1.1720
9 months ended March 31, 2011	CDN\$1.00 = A\$0.9973

Prior to July 1, 2009, the Company's functional and reporting currency was the Australian dollar and its subsidiary, Golden Bull Resources Corporation's functional currency was the Canadian dollar. However, as a result of the purchase of the controlling interest in Acadian Mining Corporation in Canada in July 2009, the Company's fiscal 2010 revenue and expenses are primarily denominated in Canadian dollars (CDN\$). ASC Topic 830 "Foreign Currency Matters" states that the functional currency of an entity is the currency of the primary economic environment in which the entity operates. Accordingly the Company determined that from July 1, 2009 the functional and reporting currency of the Company is the Canadian dollar. Assets, liabilities and portions of equity were translated at the rate of exchange at July 1, 2009 and portions of equity were translated at historical exchange rates. Revenue and expenses were translated at actual rates. Translation gains and losses were included as part of accumulated other comprehensive loss.

Restatement of comparative numbers was made for the change in functional and reporting currency. The change was adopted prospectively beginning July 1, 2009 in accordance with ASC Topic 830.

The Company's financial statements are prepared in Canadian dollars (CDN\$). A number of the costs and expenses of the Company are incurred in US and Australian dollars and the conversion of these costs to CDN\$ means that the comparison of the nine months ended March 31, 2011 to the nine months ended March 31, 2010 does not always present a true comparison.

Golden River Resources as part of its business strategy increased its gold exploration activity in Canada. On March 17, 2009, the Company announced that it had reached agreement with Acadian Mining Corporation ("Acadian") to subscribe in a private placement transaction for up to 33,811,133 common shares in Acadian for aggregate gross investment of up to CDN\$10 million. Throughout July 2009, Golden River Resources subscribed for further shares to a value of CDN\$4 million and at July 31, 2009, the Company held a 52.764% interest in Acadian. As a result, Golden River Resources has since that time consolidated the results of Acadian. On September 30, 2009, a further closing for an aggregate of CDN\$1 million occurred increasing the Company interest in Acadian to 57.145%; during October 2009, Golden River Resources subscribed for shares to the value of CDN\$4 million which increased its interest in Acadian to 68.765%; and in July 2010, Golden River Resources acquired further shares in Acadian and currently holds 71.5% of Acadian.

RESULTS OF OPERATION

Three Months Ended March 31, 2011 vs. Three Months Ended March 31, 2010.

Costs and expenses decreased from CDN\$1,521,000 in the three months ended March 31, 2010 to CDN\$857,000 in the three months ended March 31, 2011.

The decrease in costs and expenses is a net result of:

- a) an increase in stock based compensation from CDN\$nil for the three months ended March 31, 2010 to CDN\$134,000 for the three months ended March 31, 2011 as a result of options issued to Directors by Acadian which are being progressively expensed over the vesting period. See Note 6 concerning the Company's outstanding stock options.
- b) a decrease in the exploration expenditure expense from CDN\$386,000 for the three months ended March 31, 2010 to CDN\$27,000 for the three months ended March 31, 2011. For Golden River Resources, the costs related to consultants providing exploration reviews and advice on the Slave and Committee Bay properties as no field work was undertaken during the three months ended March 31, 2010 or 2011 by the Company. Included within exploration expenditure expense for the three months ended March 31, 2011 is work undertaken by Acadian for field exploration activities on its gold properties and certain maintenance work on its Scotia mine which is currently on care and maintenance. The decrease in exploration expenditure during the three months ended March 31, 2011 was primarily due to a decrease in site remediation accrual for Acadian's exploration and mining sites resulting from the revaluation of the remediation costs on the gold properties.

- c) a decrease in depreciation and amortization expense from CDN\$134,000 for the three months ended March 31, 2010 to CDN\$103,000 for the three months ended March 31, 2011. The depreciation and amortization expense relates to the activities of Acadian which is amortizing the mine and mill (which is on care and maintenance) and equipment.
- d) a decrease in interest expense from CDN\$2,000 for the three months ended March 31, 2010 to CDN\$nil for the three months ended March 31, 2011.
- e) a decrease in legal, accounting and professional expense from CDN\$119,000 for the three months ended March 31, 2010 to CDN\$107,000 for the three months ended March 31, 2011. Included within legal, accounting and professional expense for the three months ended March 31, 2011 is CDN\$45,000 for costs associated with the Company's SEC compliance obligations and CDN\$46,000 for Acadian which relates to general legal work, audit and stock transfer costs. The decrease is primarily the result of a reduction in legal costs of Acadian following the settlement of the CCAA proceedings and a legal dispute in the prior year.
- f) a decrease in administrative costs including salaries from CDN\$880,000 in the three months ended March 31, 2010 to CDN\$486,000 in the three months ended March 31, 2011. Included within administrative expense for the three months ended March 31, 2011 is CDN\$462,000 for Acadian compared to CDN\$699,000 for the three months ended March 31, 2010 which includes head office salaries, rent, office related costs and travel. The decrease relates to the decrease in head office salaries, and a decrease in office and statutory filing costs.

As a result of the foregoing, the loss from operations decreased from CDN\$1,521,000 for the three months ended March 31, 2010 to CDN\$857,000 for the three months ended March 31, 2011.

The Company recorded a foreign currency exchange loss of CDN\$2,000 for the three months ended March 31, 2011 and CDN\$2,000 for the three months ended March 31, 2010, primarily due to revaluation of advances from affiliates which are denominated in Australian dollars.

The loss before income taxes and equity in profits/(losses) of unconsolidated entities for the three months ended March 31, 2011 was CDN\$859,000 compared to CDN\$1,523,000 for the three months ended March 31, 2010.

There was no provision for income taxes in either the three months ended March 31, 2011 or the three months ended March 31, 2010.

The loss before equity in profits/(losses) of unconsolidated entities for the three months ended March 31, 2011 was CDN\$859,000 compared to CDN\$1,523,000 for the three months ended March 31, 2010.

The share of loss in unconsolidated entities for the three months ended March 31, 2010 amounted to CDN\$92,000 for which there was no comparable amount in 2011. The Company via Acadian, held a 29.18% interest in Royal Roads Corp which was accounted for using the equity method of accounting. Acadian sold its interest in Royal Roads Corp. in April 2010.

The net loss was CDN\$859,000 for the three months ended March 31, 2011 compared to CDN\$1,615,000 for the three months ended March 31, 2010.

The share of the loss attributable to the non-controlling interests of Acadian amounted to CDN\$209,000 for the three months ended March 31, 2011 compared to CDN\$415,000 for the three months ended March 31, 2010.

The net loss attributable to Golden River Resources stockholders amounted to CDN\$650,000 for the three months ended March 31, 2011 compared to CDN\$1,200,000 for the three months ended March 31, 2010.

Nine Months Ended March 31, 2011 vs. Nine Months Ended March 31, 2010.

In February 2011, the Company filed an amendment to its previously filed 10-Q for the nine months ended March 31, 2010 to revise the fair value amounts related to the acquisition of the assets and liabilities of Acadian. Accordingly, the financial statements for the nine months ended March 31, 2010 reflect the restatement adjustments noted below.

During the fourth quarter of fiscal 2010, the Company completed the accounting for the acquisition of Acadian and as a result, adjustments were made to the preliminary fair value accounting at the date of acquisition. Costs and expenses decreased from CDN\$4,095,000 in the nine months ended March 31, 2010 to CDN\$4,031,000 in the nine months ended March 31, 2011.

The decrease in costs and expenses is a net result of:

- an increase in stock based compensation from CDN\$39,000 for the nine months ended March 31, 2010 to CDN\$134,000 for the nine months ended March 31, 2011 as a result of options issued to Directors by Acadian which are being progressively expensed over the vesting period. Included within exploration expenditure expense for the nine months ended March 31, 2011 is CDN\$1,347,000 for field exploration activities

on Acadian's gold properties and certain maintenance work on its Scotia mine which is currently on care and maintenance which was partially offset by a decrease in site remediation accrual for Acadian's exploration and mining sites.

- c) an increase in depreciation and amortization expense from CDN\$354,000 for the nine months ended March 31, 2010 to CDN\$356,000 for the nine months ended March 31, 2011. The depreciation and amortization expense relates to the activities of Acadian which is amortizing the mine and mill (which is on care and maintenance) and equipment.
- d) a decrease in interest expense from CDN\$141,000 for the nine months ended March 31, 2010 to CDN\$(65,000) for the nine months ended March 31, 2011. The Company obtained control of Acadian in July, 2009 and since that date the Company has consolidated the results of Acadian. The Company has recorded interest income of CDN\$1,000 for the nine months ended March 31, 2010 and for the nine months ended March 31, 2011.

As of March 31, 2011, the Company had short-term obligations of CDN\$4,477,000 comprising accounts payable and accrued expenses, lease liabilities, advances from affiliate and a note payable.

We have CDN\$82,000 in cash at March 31, 2011.

Since fiscal 2004, we have undertaken field exploration programs on our Committee Bay and Slave properties. In relation to the Committee Bay properties, this was more than the minimum required expenditure and as a result, we have not had a legal obligation to undertake further exploration on these properties. However, our properties are prospective for gold and other minerals and commencing in fiscal 2011, we will be required to undertake field exploration programs on both the Slave and Committee Bay properties in order to maintain the leases. The Company will be required to incur expenditure or make payments in lieu of expenditure of CDN\$397,000 prior to the end of 2011. Further, Acadian has an obligation to spend amounts on its mineral properties in order to maintain the leases and is required to spend CDN\$1,400,000 on gold exploration properties and CDN\$350,000 on base metal exploration properties during fiscal 2011. Our budget for general and administration costs for fiscal 2011 is CDN\$500,000 and Acadian’s budget for the general and administration costs for fiscal 2011 is CDN\$1,300,000.

Acadian announced on February 8, 2011 that it had signed a letter of intent with Selwyn Resources Ltd. (“Selwyn”) whereby Selwyn would acquire the zinc and lead assets of Acadian for a cash consideration of CDN\$10 million. The sale will be consummated by Selwyn acquiring all of the issued and outstanding shares of ScoZinc Limited (“ScoZinc”), a wholly owned subsidiary of Acadian, which holds all of the assets associated with the Scotia Mine located in Nova Scotia (“Acquisition”). Upon completion of the Acquisition, Selwyn will own the mine-mill complex and an extensive mineral claims package owned by ScoZinc. The Acquisition is subject to completion of formal documentation, regulatory approval and the achievement of certain conditions prior to closing, including Selwyn being satisfied with the results of an environmental audit by an independent consulting group and Selwyn receiving an independent NI 43-101 Technical Report confirming the Mineral Resources reported by ScoZinc. Acadian has agreed to the payment of a break fee in the amount of \$1.5 million if it receives and accepts an unsolicited superior proposal. During the period, Acadian has agreed to negotiate exclusively with Selwyn. Acadian estimates that the net proceeds from the sale of ScoZinc will be approximately CDN\$6,500,000. Acadian, at the time of sale, estimates the carrying value of ScoZinc assets will be CDN\$10.0 million and liabilities CDN\$3.5 million.

On February 24, 2011, Acadian announced that it has signed a letter of intent with respect to a proposed investment in Acadian by China Metallurgical Exploration Corp. ("CME"), which will raise an initial \$8.1 million with the potential to raise a further \$5.4 million if warrants are exercised. The transaction is subject to certain conditions precedent being met before April 30, 2011 including completion of formal documentation, regulatory approval and approval from the Government of China. The private placement is also conditional upon the completion of due diligence to the satisfaction of CME. The effect of the issue of shares will be to dilute Golden River Resources' interest in Acadian to approximately 54%.

We are currently investigating other capital raising opportunities which may be in the form of either equity or debt, to provide funding for working capital purposes and future exploration programs. There can be no assurance that such capital raising will be successful, or that even if an offer of financing was received by the Company, it is on terms acceptable to the Company.

This Form 10-Q report contains forward looking statements relating to future financial results. Actual results may differ as a result of factors over which the Company has no control including, without limitation, the risks of exploration and development stage projects, political risks of development in foreign countries, risks associated with environmental and other regulatory matters, mining risks and competition and the volatility of gold and copper prices, movements in the foreign exchange rate and the availability of additional financing for the Company. Item 3. Quantitative and Qualitative Disclosures About Market Risk.

At March 31, 2011, the Company had outstanding loan facilities of CDN\$1,628,000. No interest is currently payable of the loan.

The Company reports in CDN\$ and holds cash in Australian dollars. At March 31, 2011, this amounted to A\$10,862. A change in the exchange rate between the A\$ and the CDN\$ will have an effect on the amounts reported in the Company's consolidated financial statements, and create a foreign exchange gain or loss. A movement of 1% in the A\$ versus the CDN\$ exchange rate will have a CDN\$109 effect on the consolidated balance sheet and statement of operations.

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures

Our principal executive officer and our principal financial officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 as amended) as of the end of the period covered by this report. Based on that evaluation, such principal executive officer and principal financial officer concluded that, the Company's disclosure controls and procedures were effective as of the end of the period covered by this report at the reasonable level of assurance.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the third quarter of fiscal 2011 that materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

(c) Other

We believe that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Therefore, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of

the control system are met. Our disclosure controls and procedures are designed to provide such reasonable assurance of achieving our desired control objectives, and our principal executive officer and principal financial officer have concluded, as of March 31, 2011, that our disclosure controls and procedures were effective in achieving that level of reasonable assurance.
