Notes to Unaudited Pro Forma Consolidated Financial Statements

In thousands of U.S. dollars

1. Basis of Presentation

These unaudited pro forma consolidated financial statements give effect to the acquisition by the Company of 100% of the outstanding common shares of Opta.

These unaudited pro forma financial statements have been prepared by management in accordance with generally accepted accounting principles in Canada and the pro forma assumptions described below. In management's opinion, these pro forma financial statements reflect all adjustments necessary to present fairly the pro forma financial position and results of operations for such periods. There are no significant differences between Canadian and U.S. GAAP in the preparation of these pro forma financial statements.

The acquisition of the common shares of Opta by the Company has been accounted for by the purchase method, which requires that the cost of the investment in Opta be allocated to the underlying assets and liabilities of Opta based on their fair values at the date of acquisition. The allocation of the purchase cost to the assets and liabilities of Opta reflected in these pro forma financial statements is based on preliminary estimates, available information and management judgment and may be revised as additional information becomes available.

2. Unaudited Pro Forma Consolidated Balance Sheet at September 30, 2002

To record the consolidation of Opta and elimination of the Company's investment in Opta we have estimated the fair value of Opta's assets as of the balance sheet date. The allocation price reflects valuation assessments of real estate anticipated to be sold and the recording of Opta's previously unrecorded tax loss carry forwards, the recoverability of which has been determined to be more

## Edgar Filing: STAKE TECHNOLOGY LTD - Form 8-K/A

likely than not. Management has estimated that Opta's carrying value of substantially all other assets and liabilities approximates their fair value.

The preliminary allocation of the purchase price is as follows:

	\$
Net working capital	15,685
Assets held for sale	5,020
Other assets	1,029
Future income tax	10,048
Long-term debt	(1,782)
Integration costs	(1,400)
	-----
	28,600
	-----

Purchase price is comprised of:

Cash	6,543
Debt (tender Facility)	15,186
Due to Opta shareholders (7% @ 2.50)	1,871
Convertible Debenture and share purchase warrants	5,000
	-----
	28,600
	-----

### 3. Unaudited Pro Forma Consolidated Statements of Operations

The unaudited pro forma consolidated statements of operations for the periods ended September 30, 2002 and December 31, 2001 give effect to the following:

- (a) Reduction of depreciation and amortization due to the write down of property, plant and equipment and elimination of goodwill and intangibles, resulting from the purchase price allocation and fair value adjustments
- (b) Interest expense associated with the tender facility at 3.42%, assuming the balance is outstanding for the period, interest expense on the convertible debenture at 5.5% plus accretion on the discount on the convertible debenture relating to the share purchase warrants and rights and higher net interest expense assumed at a rate of 3%, due to the use of cash in the acquisition of Opta.
- (c) Tax provision calculated on the combined earnings (loss) before tax of Opta and the related pro-forma adjustments at a rate of 38%.

### 4. Earnings (Loss) per share

The pro forma earnings (loss) per share is based on the historic weighted average number of common shares of 41,402,000 for the nine months ended September 30, 2002 and 32,456,000 for the year ended December 31, 2001.
