QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
COMMISSION FILE NUMBER 333-176382

SYNIVERSE HOLDINGS, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)
8125 Highwoods Palm Way
Tampa, Florida 33647
(Address of principal executive office)
(Zip code)
(813) 637-5000
(Registrant's telephone number, including area code)

30-0041666
(I.R.S. Employer Identification No.)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulations S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company

(Do not check if a smaller
reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of common stock of the registrant outstanding at August 7, 2014 was 1,000.

SYNIVERSE HOLDINGS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

Syniverse is the leading global transaction processor that connects mobile network operators (“MNOs”) and enterprises in nearly 200 countries enabling seamless mobile communications across disparate and rapidly evolving networks, devices and applications. We process transactions that include the authorization and delivery of end-user traffic, clearing of billing records and settlement of payments. We also analyze a unique portfolio of real-time data generated by these transactions to deliver a wide range of intelligence tools to our customers. Our portfolio of mission-critical services enable our customers to connect to the mobile ecosystem, optimize their businesses and enhance and personalize the mobile experience for their end-users. We process nearly 3 billion billable transactions daily and settle approximately \$17 billion annually between our customers. We believe our global footprint and operational scale are unmatched in our industry. As a trusted partner with over 25 years of experience and a history of innovation, we believe we are well positioned to solve the technical, operational and financial complexities of the mobile ecosystem. Our diverse and growing customer base includes a broad range of participants in the mobile ecosystem, including over 1,000 MNOs, and over 550 over-the-top providers (“OTTs”) and enterprises. Our customers include 97 of the top 100 MNOs globally, such as Verizon Wireless, América Móvil, Vodafone, Telefónica, China Unicom and Reliance Communications; OTTs, including 3 of the 4 largest social networking sites in the United States and one of the largest social networking sites in China; and blue-chip enterprise customers, including 7 of the 10 largest U.S. banks, 3 major banks in Asia and the top 3 credit card networks worldwide.

Founded in 1987, Syniverse now provides approximately 60 mission-critical services to manage the real-time exchange of information and traffic across the mobile ecosystem, enhance our customers’ brands and provide valuable intelligence about end-users. Our customers demand, and we deliver, a high quality of service as evidenced by our over 99.999% network availability.

In March 2014, our parent Buccaneer Holdings, Inc. (“Buccaneer”) completed a corporate restructuring (the “Restructuring”) to create a new holding company structure under Syniverse Corporation, a Delaware corporation formed on March 20, 2014. To effect the restructuring, (i) Syniverse Corporation was formed by Buccaneer and in turn, formed Buccaneer Holdings, LLC, a Delaware limited liability company (“Buccaneer LLC”) and (ii) pursuant to an agreement and plan of reorganization, dated as of March 26, 2014, Buccaneer merged with and into Buccaneer LLC in a common control transaction with Buccaneer LLC surviving as a direct and wholly-owned subsidiary of Syniverse Corporation. As a result of the Restructuring, Buccaneer LLC became our direct parent.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements of Syniverse Holdings, Inc. have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and on a basis that is consistent with the accounting principles applied in our audited financial statements for the fiscal year ended December 31, 2013 (the “2013 financial statements”). In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal, recurring nature. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes included in our 2013 financial statements. Operating results for the interim periods noted herein are not necessarily indicative of the results that may be achieved for a full year.

The unaudited condensed consolidated financial statements include the accounts of Syniverse Holdings, Inc. and all of its wholly owned subsidiaries and a variable interest entity for which Syniverse Holdings, Inc. is deemed to be the primary beneficiary. References to “Syniverse,” “the Company,” “us,” or “we” include all of the consolidated companies.

Redeemable and nonredeemable noncontrolling interest is recognized for the portion of consolidated joint ventures not owned by us. All significant intercompany balances and transactions have been eliminated.

8

Table of Contents

Use of Estimates

We have prepared our financial statements in accordance with U.S. GAAP, which requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported revenues and expenses during the period. Actual results could differ from those estimates.

Restricted Cash

On occasion, we are required to maintain cash or certificates of deposit with certain banks with respect to contractual obligations related to acquisitions or other collateral required under certain contractual or other terms. As of June 30, 2014, the amount of restricted cash was \$2.4 million, of which \$1.5 million was included in Prepaid and other current assets and \$0.9 million was included in Other assets in the unaudited condensed consolidated balance sheets. As of December 31, 2013, the amount of restricted cash was \$6.2 million, of which \$5.5 million was included in Prepaid and other current assets and \$0.7 million was included in Other assets in the unaudited condensed consolidated balance sheets.

Customer Accounts

We provide financial settlement services to wireless operators to support the payment of roaming related charges to their roaming network partners. In accordance with our customer contracts, funds are held by us as an agent on behalf of our customers to settle their roaming related charges to other operators. These funds and the corresponding liability are not reflected in our unaudited condensed consolidated balance sheets. The off-balance sheet amounts totaled approximately \$602.8 million and \$492.9 million as of June 30, 2014 and December 31, 2013, respectively.

Capitalized Software Costs

We capitalize the cost of externally purchased software, internal-use software and developed technology that has a useful life in excess of one year. Subsequent additions, modifications or upgrades to internal-use software are capitalized only to the extent that they enable the software to perform a task it previously was unable to perform. Software maintenance and training costs are expensed in the period in which they are incurred. Capitalized software and developed technology are amortized using the straight-line method over a period of 3 years and 3 to 7 years, respectively.

Foreign Currencies

We have operations in subsidiaries in Europe (primarily the United Kingdom, Germany and Luxembourg), India and the Asia-Pacific region, each of whose functional currency is their local currency. Gains and losses on transactions denominated in currencies other than the relevant functional currencies are included in Other, net in the unaudited condensed consolidated statements of operations. For the three and six months ended June 30, 2014, we recorded foreign currency transaction losses of \$1.6 million and \$0.3 million, respectively. For the three and six months ended June 30, 2013, we recorded foreign currency transaction losses of \$0.6 million and \$1.2 million, respectively.

The assets and liabilities of subsidiaries whose functional currency is other than the U.S. dollar are translated at the period-end rate of exchange. The resulting translation adjustment is recorded as a component of Accumulated other comprehensive income and is included in Stockholder equity in the unaudited condensed consolidated balance sheets. Transaction gains and losses on intercompany balances which are deemed to be of a long-term investment nature are also recorded as a component of Accumulated other comprehensive income. Items within the unaudited condensed

consolidated statements of operations are translated at the average rates prevailing during the period.

Segment Information

We have evaluated our portfolio of service offerings, reportable segment and the financial information reviewed by our chief operating decision maker for purposes of making resource allocation decisions. We operate as a single operating segment, as our Chief Executive Officer serving as our chief operating decision maker, reviews financial information on the basis of our consolidated financial results for purposes of making resource allocation decisions.

Table of Contents

Revenues by service offerings were as follows:

	Three Months Ended June 30,	
	2014	2013
(in thousands)	(Unaudited)	
Mobile Transaction Services	\$194,298	\$169,756

Enterprise & Intelligence Solutions	65,464	45,547
Revenues	\$446,836	\$377,153

Revenues by geographic region, based on the “bill to” location on the invoice, were as follows:

	Three Months Ended June 30,	
	2014	2013
(in thousands)	(Unaudited)	
North America	\$149,652	\$146,046
Europe, Middle East and Africa	41,140	16,323
Asia Pacific	20,953	16,600
Caribbean and Latin America	15,391	14,302
Revenues	\$227,136	\$193,271
	Six Months Ended June 30,	
	2014	2013
(in thousands)	(Unaudited)	
North America	\$294,602	\$281,913
Europe, Middle East and Africa	78,982	31,766
Asia Pacific	40,721	32,866
Caribbean and Latin America	32,531	30,608
Revenues	\$446,836	\$377,153

Acquisitions

The Acquisitions line item in our unaudited condensed consolidated statements of operations includes professional services costs, such as legal, tax, audit and transaction advisory costs related to the MACH acquisition completed in 2013 and the Aicent acquisition in 2014 (collectively, the “Acquisitions”). See Note 4 for additional details regarding the MACH acquisition and Note 14 for additional details regarding the Aicent acquisition.

Reclassifications of Prior Year Presentation

Certain reclassifications of 2013 financial information have been made to conform to the current year presentation. The reclassifications had no effect on our reported results of operations. For the three and six months ended June 30, 2013, we reclassified certain non-retirement post-employment benefits out of Restructuring into the Employee termination benefits line item in our unaudited condensed consolidated statements of operations.

Table of Contents

3. Recent Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2013-05, Parent’s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity, which is included in the Accounting Standard Codification (“ASC”) in Topic 830 “Foreign Currency Matters”. ASU 2013-05 clarifies the treatment of cumulative translation adjustment (“CTA”) for entities that cease to hold a controlling financial interest in a subsidiary or group of assets within a foreign entity and those that acquire a business in stages by increasing an investment in a foreign entity from one accounted for under the equity method to one accounted for as a consolidated investment. The amendments in this update provide for the release of the CTA into net income only if a sale or transfer represents a sale or complete or substantially complete liquidation of an investment in a foreign entity. Additionally, the amendments in this ASU clarify that the sale of an investment in a foreign entity includes both (1) events that result in the loss of a controlling financial interest in a foreign entity (that is, irrespective of any retained investment) and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date (sometimes also referred to as a step acquisition). Accordingly, the cumulative translation adjustment should be released into net income upon the occurrence of those events. This accounting standard was effective for our financial statements beginning January 1, 2014 and was applied prospectively. The adoption of this standard did not have a material impact on our unaudited condensed consolidated financial statements and related disclosures.

In July 2013, the FASB issued ASU 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, which is included in the ASC in Topic 740 “Income Taxes”. ASU 2013-11 eliminates the diversity in practice in the presentation of unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. Under this guidance, an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except in certain circumstances. This accounting standard was effective for our financial statements beginning January 1, 2014. The adoption of this standard was applied prospectively and did not have a material impact on our unaudited condensed consolidated financial statements and related disclosures.

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements and Property, Plant, and Equipment, which is included in the ASC in Topic 205 and 360. ASU 2014-08 changes the requirement for reporting discontinued operations. Under this guidance, a disposal of a component of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has or will have a major effect on an entity’s operations and financial results. Fewer disposals are expected to qualify as discontinued operations under the new guidance. It also requires the disclosure of pretax income of disposals that do not qualify as discontinued operations. The new guidance is effective for us with disposals that occur after January 1, 2015.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which is included in the ASC in Topic 606 “Revenue from Contracts with Customers”. ASU 2014-09 was issued as a converged guidance with the International Accounting Standards Board (IASB) on recognizing revenue in contracts with customers and is intended to improve the financial reporting requirements for revenue from contracts with customers by providing a principle based approach to the recognition of revenue. The update includes a five-step framework with applicable guidance, which supersedes existing revenue recognition guidance. This accounting standard is effective for our financial statements beginning January 1, 2017 and can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. Early application of the standard is not permitted. We are currently assessing the impact of implementing this guidance on our consolidated financial position, results of operations, and cash flows.

Table of Contents

4. MACH Acquisition

On June 28, 2013 (the “MACH Acquisition Date”), we completed our acquisition of WP Roaming III S.à r.l. (“WP Roaming”), for a total purchase price of approximately \$712.0 million. WP Roaming is a holding company which conducted the business of MACH S.à r.l. (“MACH”). As part of the transaction, we acquired from WP Roaming, a Luxembourg limited liability company (the “Seller”), all the shares and preferred equity certificates (whether convertible or not) in WP Roaming (the “MACH Acquisition”). The purchase price was funded through a portion of the net proceeds from a new \$700.0 million senior secured credit facility and a deposit of €30.0 million paid to the Seller on July 2, 2012.

The MACH Acquisition was accounted for under the purchase method of accounting. The total purchase price was allocated to the acquired assets and liabilities assumed based on their estimated fair values at the MACH Acquisition Date. The following table summarizes the allocation of the purchase price, including adjustments to previously reported figures on June 30, 2013, to the estimated fair values of the assets acquired and liabilities assumed in connection with the MACH Acquisition based on their fair values on the acquisition date:

	As initially reported on June 30, 2013	Measurement period adjustments	June 30, 2013 (as adjusted)	
(in thousands)				
Total purchase price	\$712,009	\$—	\$712,009	
Less: cash acquired	44,644	—	44,644	
Cash consideration	\$667,365	\$—	\$667,365	
Fair value of net assets acquired:				
Cash	\$44,644	\$—	\$44,644	
Accounts receivable	26,887	(1,011) 25,876	
Prepaid and other current assets	10,456	(530) 9,926	
Assets held for sale	11,046	(226) 10,820	
Property and equipment	7,157	—	7,157	
Capitalized software	74,229	(1,952) 72,277	
Customer relationships	207,037	(41,381) 165,656	
Other identifiable intangible assets	2,103	—	2,103	
Deferred tax assets	897	2,752	3,649	
Other assets	5,657	(390) 5,267	
Accounts payable	(8,847) —	(8,847)
Income taxes payable	(1,993) 584	(1,409)
Accrued liabilities	(32,638) (15,021) (47,659)
Deferred revenues	(1,484) —	(1,484)
Liabilities related to assets held for sale	(2,693) 226	(2,467)
Deferred tax liabilities	(27,636) 2,890	(24,746)
Redeemable noncontrolling interest	(203) (298) (501)
Net assets acquired	314,619	(54,357) 260,262	
Allocation to goodwill	\$397,390	\$54,357	\$451,747	

The excess of the purchase price over the fair value of the net assets acquired resulted in goodwill of \$451.7 million, which is primarily attributable to assembled workforce, operating synergies and potential expansion into other global markets. We do not expect goodwill to be deductible for tax purposes. We incurred MACH Acquisition related expenses of \$16.6 million and \$20.9 million for the three and six months ended June 30, 2013. These costs were recorded in the Acquisitions line item in our unaudited condensed consolidated statements of operations. We did not

incur any MACH Acquisition related expenses for the three and six months ended June 30, 2014, nor do we expect to incur any further costs in the future.

Discontinued Operations

12

Table of Contents

During the fourth quarter of 2013, we completed the sale of certain assets supporting MACH's data clearing and near real-time roaming data exchange business in the European Economic Area, including technology platforms, necessary employees, customer contracts and the MACH brand (the "Divestment Business"). During the three months ended June 30, 2014, we received \$0.7 million in proceeds related to a purchase price adjustment allowed for under the purchase agreement, and recognized a loss of \$0.6 million in Loss from discontinued operations, net of tax in the unaudited condensed consolidated statement of operations.

Supplemental Pro Forma Financial Information

The following unaudited pro forma financial information for the three and six months ended June 30, 2013 represent combined revenue and loss from continuing operations as if the MACH Acquisition had taken place on January 1, 2013. The unaudited pro forma results reflect certain adjustments including additional estimated amortization expense associated with acquired intangible assets and interest expense associated with debt used to fund the MACH Acquisition. The pro forma financial information does not purport to be indicative of the results of operations that would have been achieved had the MACH Acquisition taken place on the date indicated or the results of operations that may result in the future.

(in thousands)	Three Months Ended June 30, 2013	Six Months Ended June 30, 2013
Revenues	\$232,170	\$451,492
Loss from continuing operations attributable to Syniverse Holdings, Inc.	\$(2,747) \$(12,982)

5. Detail of Accrued Liabilities

Accrued liabilities consisted of the following:

(in thousands)	June 30, 2014 (Unaudited)	December 31, 2013
Accrued payroll and related benefits	\$23,379	\$41,036
Accrued interest	26,345	27,245
Accrued network payables	9,234	8,596
Accrued revenue share expenses	4,808	3,560
Other accrued liabilities	30,061	33,320
Total accrued liabilities	\$93,827	\$113,757

6. Debt and Credit Facilities

Our total outstanding debt as of June 30, 2014 and December 31, 2013 was as follows:

(in thousands)	June 30, 2014 (Unaudited)	December 31, 2013
Senior Credit Facility:		
Initial Term Loans, due 2019	\$911,835	\$911,835
Original issue discount	(10,080) (11,166)
Tranche B Term Loans, due 2019	678,665	678,665
Original issue discount	(2,829) (3,086)
Senior Notes:		
9.125% senior unsecured notes, due 2019	475,000	475,000
Total long-term debt	\$2,052,591	\$2,051,248

Amortization of original issue discount and deferred financing fees for the three and six months ended June 30, 2014 was \$3.1 million and \$6.1 million, respectively, and was related to our Senior Credit Facility (as defined below) and senior unsecured notes bearing interest at 9.125% that will mature on January 15, 2019 (the “Senior Notes”).

Amortization of original

13

Table of Contents

issue discount and deferred financing fees for the three and six months ended June 30, 2013 was \$2.5 million and \$4.5 million, respectively. Amortization is included in interest expense in the unaudited condensed consolidated statements of operations.

Senior Credit Facility

On April 23, 2012, we entered into a Credit Agreement with Buccaneer LLC (as successor by merger to Buccaneer), Barclays Bank PLC, as administrative agent, swing line lender and letters of credit issuer, and the other financial institutions and lenders from time to time party thereto, providing for a new senior credit facility (the “Senior Credit Facility”) consisting of (i) a \$950.0 million term loan facility (the “Initial Term Loans”); and (ii) a \$150.0 million revolving credit facility (the “Revolving Credit Facility”) for the making of revolving loans, swing line loans and issuance of letters of credit.

On June 28, 2013, the Company borrowed \$700.0 million of incremental term loans (the “Tranche B Term Loans”), pursuant to an incremental amendment to its Credit Agreement. The proceeds of the Tranche B Term Loans were used to refinance, in full, the Escrow Term Loans (as defined below), a portion of which were used to fund the MACH Acquisition.

On September 23, 2013, the Company made a prepayment of \$50.0 million on the Term Loan Facilities, of which \$28.7 million was applied to the Initial Term Loans and \$21.3 million was applied to the Tranche B Term Loans. In relation to the prepayment, Syniverse accelerated the amortization of \$0.4 million of original issue discount and \$0.6 million of deferred financing costs. In addition, on September 23, 2013 we refinanced the Initial Term Loans under the Credit Agreement to reduce the interest rate.

Tranche B Term Loans

On June 28, 2013, we received net proceeds of \$696.5 million under the Tranche B Term Loans, the proceeds of which were used to refinance the Escrow Term Loans (as defined below) in full. We paid upfront fees of \$3.5 million associated with the Escrow Term Loans which were recorded as original issue discount to be amortized over the life of the Tranche B Term Loans using the effective interest method. We incurred \$25.2 million of debt issuance costs which were recorded as deferred financing costs to be amortized over the life of the Tranche B Term Loans using the effective interest method.

Delayed Draw Credit Agreement

On February 4, 2013, Syniverse Magellan Finance, LLC (the “Finance Sub”), our wholly owned subsidiary, entered into a delayed draw credit agreement (the “Delayed Draw Credit Agreement”) with Barclays Bank PLC, as administrative agent, and the other financial institutions and lenders from time to time party thereto, providing for a new senior credit facility consisting of a \$700.0 million delayed draw term loan facility (the “Delayed Draw Facility”). On May 28, 2013, Finance Sub entered into an amendment to the Delayed Draw Credit Agreement. Upon the closing of this amendment, the lenders funded the Delayed Draw Facility into an escrow account (“Escrow Term Loans”) and the Company pre-funded the interest, upfront fees and ticking fees of \$7.2 million, \$3.5 million and \$3.6 million, respectively (the “Escrowed Funds”). The Escrowed Funds were released to Finance Sub on June 28, 2013 (the “Release”). In addition to the pre-funded amount, we paid additional ticking fees of \$1.0 million during the second quarter of 2013. These fees were paid to our committing arranger banks to compensate for a backstop commitment during the time lag between the commitment allocation and actual funding for the Delayed Draw Facility.

7. Stock-Based Compensation

Effective April 6, 2011, our parent established the 2011 Equity Incentive Plan (the "2011 Plan") for the employees, consultants, and directors of Syniverse Corporation and its subsidiaries. The 2011 Plan provides incentive compensation through grants of incentive or non-qualified stock options, stock purchase rights, restricted stock awards, restricted stock units, or any combination of the foregoing. Syniverse Corporation will issue shares of its common stock to satisfy equity based compensation instruments.

Table of Contents

Stock-based compensation expense for the three and six months ended June 30, 2014 and 2013 was as follows:

	Three Months Ended June 30,	
	2014	2013
(in thousands)	(Unaudited)	
Cost of operations	\$72	\$130
Sales and marketing	859	553
General and administrative	963	799
Total stock-based compensation	\$1,894	\$1,482
	Six Months Ended June 30,	
	2014	2013
(in thousands)	(Unaudited)	
Cost of operations	\$143	\$369
Sales and marketing	1,700	2,152
General and administrative	2,070	2,659
Total stock-based compensation	\$3,913	\$5,180

In February 2013, the Compensation Committee of our Board of Directors, utilizing the discretion afforded under the 2011 Plan, approved the vesting of the 2012 performance-based stock options resulting in a modification of the vesting terms, for which we recorded additional stock compensation expense of \$2.1 million.

The following table summarizes our stock option activity under the 2011 Plan for the six months ended June 30, 2014:

Stock Options	Shares	Weighted-Average Exercise Price
Outstanding at December 31, 2013	9,203,082	\$11.07
Granted	476,664	15.00
Exercised	(332,499)) 10.65
Canceled or expired	(595,834)) 11.42
Outstanding at June 30, 2014	8,751,413	\$11.27

The fair value of options granted during the six months ended June 30, 2014 was estimated at the date of grant using a Black-Scholes option-pricing model with the following weighted-average assumptions:

Risk-free interest rate	2.18%
Volatility factor	50.00%
Dividend yield	—%
Weighted average expected life of options (in years)	6.48

Table of Contents

Restricted stock awards are issued and measured at market value on the date of grant. Vesting of restricted stock is based solely on time vesting. The following table summarizes our restricted stock activity under the 2011 Plan for the six months ended June 30, 2014:

Restricted Stock	Shares	Weighted-Average Grant-Date Fair Value
Balance at December 31, 2013	86,205	\$ 14.50
Forfeited	(17,241)) 14.50
Balance at June 30, 2014	68,964	\$ 14.50

8. Employee Termination Benefits and Restructuring

The following table summarizes the activity in our employee termination benefit liabilities for the six months ended June 30, 2014:

(in thousands)	December 31, 2013				June 30, 2014
	Balance	Additions	Payments	Adjustments	Balance
Employee termination benefits	\$2,698	4,855	(4,183)) (14)) \$3,356

Employee termination benefits represents non-retirement post-employment benefit costs including severance, benefits and other employee related costs.

The following table summarizes the activity in our restructuring liabilities for the six months ended June 30, 2014:

(in thousands)	December 31, 2013				June 30, 2014
	Balance ⁽¹⁾	Additions	Payments	Adjustments	Balance
December 2011 Plan	264	22	(12)) —	274
December 2010 Plan	619	—	—	(5)) 614
Total	\$883	\$22	\$(12)) \$(5)) \$888

(1) December 31, 2013 balance has been adjusted to exclude Employee termination benefits, which has been reclassified into a single line item in our unaudited condensed consolidated statements of operations.

In December 2011, we implemented a restructuring plan primarily to regionalize our customer support workforce for better alignment with our customers' needs. As a result of this plan, we incurred severance related costs of \$3.7 million and contract termination costs of \$0.4 million related to the exit of a leased facility. We have paid \$3.8 million related to this plan as of June 30, 2014.

In December 2010, we implemented a restructuring plan primarily to realign certain senior management functions. As a result of this plan, we incurred severance related costs of \$2.6 million. As of June 30, 2014, we have paid \$2.1 million related to this plan.

We expect to pay the remainder of the benefits outstanding under each of these plans by the end of the second quarter of 2016.

9. Income Taxes

We provide for federal, state and foreign income taxes currently payable, as well as for those deferred due to timing differences between reporting income and expenses for financial statement purposes versus tax purposes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the

financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in income tax rates is recognized as income or expense in the period that includes the enactment date. The effective tax rate for the three and six months ended June 30, 2014, was a benefit of 0.3% and

Table of Contents

1.0%, respectively. The effective tax rate for the three and six months ended June 30, 2013, was a provision of 1.0% and a benefit of 9.8%, respectively. The change in our effective tax rate was chiefly attributable to (i) the inclusion of a full year of the actual and forecasted earnings impact of the MACH entities in our 2014 effective tax rate, and (ii) the prior year effects of certain favorable permanent items, offset by (iii) the unfavorable effects of MACH Acquisition related costs.

We, and our eligible subsidiaries, file a consolidated U.S. federal income tax return under Syniverse Corporation. All subsidiaries incorporated outside of the U.S. are consolidated for financial reporting purposes; however, they are not eligible to be included in our consolidated U.S. federal income tax return. Separate provisions for income taxes have been recorded for these entities. We intend to reinvest substantially all of the unremitted earnings of our non-U.S. subsidiaries and postpone their remittance indefinitely. Accordingly, no provision for U.S. income taxes for these non-U.S. subsidiaries was recorded in the accompanying unaudited condensed consolidated statements of operations.

10. Commitments and Contingencies

We are currently a party to various claims and legal actions that arise in the ordinary course of business. We believe such claims and legal actions, individually and in the aggregate, will not have a material adverse effect on our business, financial condition, results of operations or cash flows. As of June 30, 2014, we have considered all of the claims and disputes of which we are aware and have provided for probable losses, which are not significant.

11. Fair Value Measurements

The accounting standards for fair value require disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs. The three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies, is as follows:

Level 1—Quoted prices for identical assets and liabilities in active markets.

Level 2—Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3—Unobservable inputs for the asset or liability.

Transfers between levels are determined at the end of the reporting period. No transfers between levels have been recognized for the three and six months ended June 30, 2014 and 2013.

Cash, accounts receivable, accounts payable and accrued liabilities are reflected in the financial statements at their carrying value, which approximate their fair value due to their short maturity.

At June 30, 2014 and December 31, 2013, restricted cash included \$1.3 million of cash held in escrow related to additional cash payments that will be made to the former owner of an entity acquired by MACH in 2011 as required under a purchase agreement existing at the MACH Acquisition Date. This amount is reflected in the financial statements at its carrying value, which approximates its fair value (Level 3).

From time to time, we measure certain assets at fair value on a non-recurring basis, specifically long-lived assets evaluated for impairment. We estimate the fair value of our long-lived assets using company-specific assumptions which would be categorized within Level 3 of the fair value hierarchy.

Table of Contents

The carrying amounts and fair values of our long-term debt as of June 30, 2014 and December 31, 2013 were as follows:

	June 30, 2014		December 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
(in thousands)	(Unaudited)			
Initial Term Loans	\$911,835	\$913,545	\$911,835	\$916,394
Tranche B Term Loans	678,665	679,937	678,665	683,331
Senior Notes	475,000	511,219	475,000	520,125

The fair values of the Initial Term Loans, the Tranche B Term Loans and the Senior Notes were based upon quoted market prices in inactive markets for similar instruments (Level 2).

12. Related Party Transactions

Consulting Agreement with Carlyle

On January 13, 2011, we entered into a ten-year consulting agreement with Carlyle under which we pay Carlyle a management fee for consulting services Carlyle provides to us and our subsidiaries. Under this agreement, subject to certain conditions, we pay an annual management fee to Carlyle of \$3.0 million and reimburse their out-of-pocket expenses. During the three and six months ended June 30, 2014, we recorded \$0.8 million and \$1.6 million, respectively, associated with the management fee and the reimbursement of out-of-pocket expenses. During the three and six months ended June 30, 2013, we recorded \$0.8 million and \$1.8 million, respectively.

Carlyle, from time to time, participates as a debt holder within the syndicate under our Initial Term Loans and Tranche B Term loans. As of June 30, 2014 and December 31, 2013, Carlyle held \$49.0 million and \$17.5 million of our Initial Term Loans and Tranche B Term loans, respectively.

13. Supplemental Consolidating Financial Information

We have presented supplemental condensed consolidating balance sheets, statements of operations, statements of comprehensive (loss) income and statements of cash flows for Syniverse Holdings, Inc., which we refer to in this footnote only as Syniverse, Inc., the subsidiary guarantors and the subsidiary non-guarantors for all periods presented to reflect the guarantor structure under the Senior Notes. The supplemental financial information reflects the investment of Syniverse, Inc. using the equity method of accounting.

Syniverse, Inc.'s payment obligations under the Senior Notes are guaranteed by the 100% owned subsidiary guarantors. Syniverse, Inc.'s other subsidiaries are included as non-guarantors (collectively, the "Subsidiary Non-Guarantors"). Such guarantees are irrevocable, full, unconditional and joint and several.

14. Subsequent Event

Aicent Acquisition

On August 4, 2014 (the “Closing Date”), Syniverse Technologies, LLC, a Delaware limited liability company and a wholly-owned subsidiary of Syniverse Holdings, Inc. acquired all of the outstanding equity interests of Aicent Holdings Corporation, a Delaware corporation (“Aicent”) from its existing stockholders in accordance with the terms of an agreement and plan of merger for approximately \$292.2 million, after preliminary adjustments, including to reflect the parties’ current estimate of working capital associated with, 2013 EBITDA of and cash held by, Aicent as of the Closing Date. The acquisition will be subject to a final adjustment to reflect the working capital balances as of the Closing Date. The acquisition was funded with cash of approximately \$192.2 million and a draw down of Syniverse’s existing revolving credit facility with Barclays Bank PLC in the amount of \$100.0 million.

ITEM 2: MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Certain of the statements in this Quarterly Report on Form 10-Q, including, without limitation, those under the caption entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” may constitute “forward-looking statements” for purposes of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Some of the forward-looking statements can be identified by the use of terms such as “believes,” “expects,” “may,” “will,” “should,” “could,” “seeks,” “intends,” “plans,” “estimates,” “anticipates” or other comparable terms. These forward-looking statements include all matters that are not related to present facts or current conditions or that are not historical facts. They appear in a number of places throughout this Quarterly Report on Form 10-Q and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our consolidated results of operations, financial condition, liquidity, prospects and growth strategies and the industries in which we operate and including, without limitation, statements relating to our future performance.

Forward-looking statements are subject to known and unknown risks and uncertainties, many of which are beyond our control. We caution you that forward-looking statements are not guarantees of future performance and that our actual consolidated results of operations, financial condition and liquidity, and industry development may differ materially from those made in or suggested by the forward-looking statements contained in this Quarterly Report on Form 10-Q. In addition, even if our consolidated results of operations, financial condition and liquidity, and industry development are consistent with the forward-looking statements contained in this Quarterly Report on Form 10-Q, those results or developments may not be indicative of results or developments in subsequent periods. A number of important factors could cause actual results to differ materially from those contained in or implied by the forward-looking statements, including the risks and uncertainties described in “Risk Factors.” Factors that could cause actual results to differ from those reflected in forward-looking statements relating to our operations and business include:

- system failures or delays which could harm our reputation;
- our reliance on third-party providers for communications software, hardware and infrastructure;
- our ability to acquire and integrate complementary business and technologies and realize the expected benefits from those acquisitions;
- our ability to realize the expected benefits of the MACH and Aicent acquisitions;
- our ability to adapt quickly to technological change;
- our newly offered services may not perform as anticipated;
- the loss of any of our significant customers;
- the failure to achieve or sustain desired pricing levels;
- consolidation among, or network build-outs by, customers could cause us to lose transaction volume and affect pricing;
- the reduction of services by existing customers;
- our customers may develop in-house solutions and no longer use our services;
- the success of our international expansion is uncertain, including our ability to receive or retain the required licenses or authorizations;
- political instability in certain countries where we operate;
- our compliance with anti-corruption laws and regulations;
- our ability to receive and retain licenses or authorizations required to conduct our business internationally, including in countries targeted by economic sanctions;
- security breaches which could result in significant liabilities;
- changes in the regulatory landscape affecting us and our customers;
- additional costs and liabilities for maintaining customer privacy;

failure to protect our intellectual property rights or claims by third parties that we infringe on their intellectual property rights;
our ability to achieve desired organic growth
our ability to service our debt; and
the significant influence Carlyle has over corporate decisions.

All forward-looking statements are made only as of the date of this Quarterly Report on Form 10-Q and we do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking statements to reflect

Table of Contents

future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends, or indications of future performance, unless expressed as such, and should only be viewed as historical data.

Business

Syniverse is the leading global transaction processor that connects mobile network operators (“MNOs”) and enterprises in nearly 200 countries enabling seamless mobile communications across disparate and rapidly evolving networks, devices and applications. We process transactions that include the authorization and delivery of end-user traffic, clearing of billing records and settlement of payments. We also analyze a unique portfolio of real-time data generated by these transactions to deliver a wide range of intelligence tools to our customers. Our portfolio of mission-critical services enables our customers to connect to the mobile ecosystem, optimize their businesses and enhance and personalize the mobile experience for their end-users. We process nearly 3 billion billable transactions daily and settle approximately \$17 billion annually between our customers. We believe our global footprint and operational scale are unmatched in our industry. As a trusted partner with over 25 years of experience and a history of innovation, we believe we are well positioned to solve the technical, operational and financial complexities of the mobile ecosystem. Our diverse and growing customer base includes a broad range of participants in the mobile ecosystem, including over 1,000 MNOs, and over 550 over-the-top providers (“OTTs”) and enterprises. Our customers include 97 of the top 100 MNOs globally, such as Verizon Wireless, América Móvil, Vodafone, Telefónica, China Unicom and Reliance Communications; OTTs, including 3 of the 4 largest social networking sites in the United States and one of the largest social networking sites in China; and blue-chip enterprise customers, including 7 of the 10 largest U.S. banks, 3 major banks in Asia and the top 3 credit card networks worldwide.

Founded in 1987, Syniverse now provides approximately 60 mission-critical services to manage the real-time exchange of information and traffic across the mobile ecosystem, enhance our customers’ brands and provide valuable intelligence about end-users. Our customers demand, and we deliver, a high quality of service as evidenced by our over 99.999% network availability. Our comprehensive suite of Mobile Transaction Services and Enterprise & Intelligence Solutions includes the services described below.

Mobile Transaction Services: Transaction-based services that are designed to support the long-term success of our MNO customers. Through Mobile Transaction Services, we:

- Clear, process, and exchange end-user billing records between MNOs.
- Process and settle payments between participants in the mobile ecosystem.
- Activate, authenticate and authorize end-user mobile activities.
- Manage the routing and delivery of text (SMS), multimedia (MMS) and next generation messaging.
- Provide data transport services over our global IP data network regardless of technology protocol.
- Enable real-time policy management for improved end-user experience.
- Provide business intelligence tools to MNOs for fraud control.

Enterprise & Intelligence Solutions: Solutions that bridge OTTs and enterprises with MNOs and incorporate our real-time intelligence capabilities to enable all of our customers to serve their end-users. Through Enterprise & Intelligence Solutions, we:

- Connect enterprises to the mobile ecosystem to allow them to reliably reach and interact with their customers and employees via mobile devices.
- Bridge OTTs to the mobile ecosystem allowing OTT end-users to seamlessly interact with traditional mobile end-users.
- Provide mobile campaign management services that enable enterprises to optimize their mobile communications strategies through the delivery of customized offers and information to end-users.
- Provide data analytics and business intelligence services designed to measure, enhance and secure the end-user experience for our enterprise and OTT customers.

• Provide data collection and analysis services to enable MNOs to measure and manage the subscriber experience across networks.

Executive Overview

Financial Highlights

For the three months ended June 30, 2014, revenues increased \$33.9 million, or 17.5%, to \$227.1 million from \$193.3 million for the comparable prior year period. Mobile Transaction Services revenue increased \$24.5 million, or 14.5%, to \$194.3 million for the three months ended June 30, 2014, from \$169.8 million for the same period in 2013.

Enterprise & Intelligence Solutions revenue increased \$9.3 million, or 39.6%, to \$32.8 million for the three months ended June 30, 2014, from \$23.5 million for the same period in 2013. The MACH Acquisition contributed \$32.9 million to the increase in revenues for the three months ended June 30, 2014. Operating income increased \$15.5 million to \$23.1 million for the three months ended June 30, 2014 from \$7.6 million for the same period in 2013. Net loss from continuing operations decreased \$15.1 million to \$9.0 million for the three months ended June 30, 2014, from \$24.1 million for the same period in 2013. Net loss from continuing operations for the three months ended June 30, 2014 includes an increase in benefit from income taxes of \$0.3 million. Adjusted EBITDA increased \$6.5 million, or 7.9%, to \$88.5 million for the three months ended June 30, 2014 from \$82.0 million for the same period in 2013. See “Non-GAAP Financial Measures” below for a reconciliation of Adjusted EBITDA to Net loss.

Business Developments

Aicent Acquisition

On August 4, 2014 (the “Closing Date”), Syniverse Technologies, LLC, a Delaware limited liability company and a wholly-owned subsidiary of Syniverse Holdings, Inc. acquired all of the outstanding equity interests of Aicent Holdings Corporation, a Delaware corporation (“Aicent”) from its existing stockholders in accordance with the terms of an agreement and plan of merger for approximately \$292.2 million, after preliminary adjustments, including to reflect the parties’ current estimate of working capital associated with, 2013 EBITDA of and cash held by, Aicent as of the Closing Date (the “Aicent Acquisition”). The acquisition will be subject to a final adjustment to reflect the working capital balances as of the Closing Date. The acquisition was funded with cash of approximately \$192.2 million and a draw down of Syniverse’s existing revolving credit facility with Barclays Bank PLC in the amount of approximately \$100.0 million.

Sprint Renewal

As of June 30, 2014, our service contracts with Sprint were due to expire during the fourth quarter of 2014. Effective July 1, 2014, we entered into an early renewal agreement with Sprint which provides for a broad range of products and services, including products and services covered under the existing service contracts as well as new offerings. The renewed service contract has a term of five years.

Corporate Restructuring

In March 2014, our parent Buccaneer Holdings, Inc. (“Buccaneer”) completed a corporate restructuring (the “Restructuring”) to create a new holding company structure under Syniverse Corporation, a Delaware corporation formed on March 20, 2014. To effect the restructuring, (i) Syniverse Corporation was formed by Buccaneer and in turn, formed Buccaneer Holdings, LLC, a Delaware limited liability company (“Buccaneer LLC”) and (ii) pursuant to an agreement and plan of reorganization, dated as of March 26, 2014, Buccaneer merged with and into Buccaneer LLC in a common control transaction with Buccaneer LLC surviving as a direct and wholly-owned subsidiary of Syniverse Corporation. As a result of the Restructuring, Buccaneer LLC became our direct parent.

MACH Acquisition

On June 28, 2013, we completed our acquisition of WP Roaming III S.à r.l. (“WP Roaming”), for a total purchase price of approximately \$712.0 million. WP Roaming is a holding company which conducted the business of MACH S.à r.l.

(“MACH”). As part of the transaction, we acquired from WP Roaming S.à r.l., a Luxembourg limited liability company (the “Seller”), all the shares and preferred equity certificates (whether convertible or not) in WP Roaming (the “MACH Acquisition”). The purchase price was funded through a portion of the net proceeds from a new \$700.0 million senior secured credit facility and a deposit of €30.0 million.

See Note 4 to our unaudited condensed consolidated financial statements for additional information regarding the MACH Acquisition.

Table of Contents

Factors and Trends Affecting Our Results of Operations

Our results of operations have been, and we expect them to continue to be, affected by the following factors, which may cause our future results of operations to differ from our historical results of operations discussed under “Results of Operations”:

rapid technological change in the industries we serve, including the increasing demand for seamless and ubiquitous connectivity, personalized mobile services and the proliferation of new and increasingly complex mobile devices, which could lead to growth in our potential customer base, increased opportunities to provide new services to our customers and increased transaction volumes. We may also increase investment in our business in order to develop new technologies and services to effectively serve our customers in light of these developments. In addition, our failure or inability to respond to these developments through the provision of new or updated services or otherwise could have a negative effect on our ability to grow or retain our customer base and on our transaction volumes; the rate at which new entrants to the mobile ecosystem adopt our services in order to connect to other mobile participants which will affect the extent to which new entrants potentially seek to utilize our services, which will affect growth in transaction volumes and revenue;

downward pressure on the prices we charge for our services from our existing customers as we enter into contract renewals, which could have a negative impact on our revenues and margin;

the extent to which our customers build-out or expand their own networks, which could have a negative impact on transaction volume from those customers and on our revenue;

our ability to realize some or all of the anticipated benefits, including cost savings and synergies from our ongoing integration of the MACH business;

costs associated with our international operations, including integration of acquired international operations, compliance with applicable foreign regulations and fluctuations in foreign currency exchange rates may differ from historical experience and our projections, which could impact our earnings;

the rate of growth associated with our expanded international operations and geographic reach, which may lead to an increase in our number of customer and transaction volumes and would affect our future revenue growth;

our ability to execute on currently pending and future cost savings initiatives, including efficient resource allocation, management realignment and other activities;

the extent to which current or future customers develop in-house solutions to provide analogous services or seek alternative providers of our services, which could reduce the number of services we provide their customers and our overall termination volumes which would have a negative impact on our revenue;

consolidation in the mobile industry which may result in reduced transaction volumes, and, as a result, have a negative impact on our revenue;

the extent to which increasingly complex requirements and changes in the regulatory landscape drive the need for enhancements to our existing services and infrastructure, the development of new compliance oriented services and

the design and implementation of internal control procedures and processes, any of which may increase operational costs and burdens which could reduce our operating margins. Our ability to adapt to these new requirements and provide compliant services also could improve our competitive position and generally drive growth in demand for our services, which would drive growth in our revenue; and

proposed European Commission regulations that may affect our MNO customers’ roaming charges and increase downward pressure on the prices we charge for our data clearing services, which could negatively affect our revenue.

A decrease in roaming charges may also lead to an increase in the number of roaming transactions, as the cost to end-users for such transactions would be reduced, and such an increase could drive growth in the number of transactions we process, which could positively affect our revenue.

Revenues

Revenue is recognized when persuasive evidence of an arrangement exists, service has been rendered or delivery has occurred, the selling price is fixed or determinable and collectability is reasonably assured. The majority of our

revenues are derived from transaction-based charges under long-term contracts, typically with three-year terms. From time to time, if a contract expires and we have not previously negotiated a new contract or renewal with the customer, we continue to provide services under the terms of the expired contract as we negotiate new agreements or renewals. A majority of the services we offer to our customers are provided through applications, connectivity, and technology platforms owned and operated by us.

35

Table of Contents

Revenues for our services are generated primarily on transaction-based fees, such as the number of records or transactions processed or the size of data records processed. Approximately 84% of our revenues were generated by transaction-based fees during the first half of 2014. For all of our transaction-based services, we recognize revenues at the time the transactions are processed. We also recognize fixed fees as revenues on a monthly basis as the related services are performed. We defer revenues and incremental customer-specific costs related to customer implementations and recognize related fees and costs on a straight-line basis over the life of the initial customer contract.

Costs and Expenses

Our costs and expenses consist of cost of operations, sales and marketing, general and administrative, depreciation and amortization, employee termination benefits expenses, restructuring and acquisitions expense.

Cost of operations includes data processing costs, network costs, variable costs, such as revenue share service provider arrangements and message termination fees, facilities costs, hardware costs, licensing fees, personnel costs associated with service implementation, training and customer care and off-network database query charges. Variable costs are paid to third party providers and are direct costs that fluctuate either as a percentage of revenue or by the number of transactions processed.

Sales and marketing includes personnel costs, advertising and website costs, trade show costs and related marketing costs.

General and administrative includes research and development expenses, a portion of the expenses associated with our facilities, business development expenses, and expenses for executive, finance, legal, human resources and other administrative departments and professional service fees relating to those functions. Our research and development expenses, consisting primarily of personnel costs, relate to technology creation, enhancement and maintenance of new and existing services.

Depreciation and amortization relate primarily to our property and equipment and identifiable intangibles including our Signaling System 7 network, computer equipment, infrastructure facilities related to information management, capitalized software and other intangible assets recorded as a result of purchase accounting.

Employee termination benefits represents non-retirement post-employment benefit costs including severance, benefits and other employee related costs.

Restructuring represents costs related to certain exit activities such as involuntary termination costs and contract termination costs associated with the exit of a leased facility.

Acquisitions include professional services costs, such as legal, tax, audit and transaction advisory costs related to the MACH Acquisition and the Aicent Acquisition (collectively, the "Acquisitions").

Revenues

Revenues increased \$33.9 million to \$227.1 million for the three months ended June 30, 2014 from \$193.3 million for the same period in 2013. Revenues increased \$69.7 million to \$446.8 million for the six months ended June 30, 2014 from \$377.2 million for the same period in 2013. The increase in revenue was primarily driven by revenues of \$32.9 million and \$63.0 million for the three and six months ended June 30, 2014, respectively, from the MACH Acquisition.

Excluding the impact of the MACH Acquisition, revenue for the three months ended June 30, 2014 increased roughly \$1.0 million, or .5%, and was impacted by volume declines in our North American code division multiple access (“CDMA”) portfolio, which offset approximately 5% growth across the remaining business driven by continued momentum in our global IP network services and enterprise mobility solutions. Revenue for the six months ended June 30, 2014, increased \$6.7 million excluding the impact of the MACH Acquisition, resulting from new contract wins and continued volume growth across our global IP network and enterprise connectivity services, which was partially offset by lower North American CDMA revenues.

Revenue from Mobile Transaction Services increased \$24.5 million, or 14.5%, to \$194.3 million for the three months ended June 30, 2014 from \$169.8 million for the same period in 2013. Revenue from Mobile Transaction Services increased \$49.8 million, or 15.0%, to \$381.4 million for the six months ended June 30, 2014 from \$331.6 million for the same period in 2013. The increase in revenue was driven primarily by revenues of \$25.7 million and \$48.4 million contributed by the MACH Acquisition for the three and six months ended June 30, 2014, respectively. Excluding the impact of the acquisition, revenue decreased \$1.2 million for the three months ended June 30, 2014, resulting from a decline in revenue from our clearing and settlement services driven primarily by the continued impact of a network build out by a significant North American customer. The decline was partially offset by continued volume growth across our advanced network interoperability services, which included growth in our messaging business resulting from higher volumes as well as an increase in international SMS volumes which were tempered by lower North American traffic. During the six months ended June 30, 2014, the growth in our advanced

Table of Contents

network interoperability services outpaced the decline in our clearing and settlement services, resulting in an increase in revenue of \$1.4 million excluding the impact of the MACH Acquisition.

Revenue from Enterprise & Intelligence Solutions increased \$9.3 million, or 39.6%, to \$32.8 million for the three months ended June 30, 2014 from \$23.5 million for the same period in 2013. Revenue from Enterprise & Intelligence Solutions increased \$19.9 million, or 43.7%, to \$65.5 million for the six months ended June 30, 2014 from \$45.5 million for the same period in 2013. The increase in revenue was driven by \$7.2 million and \$14.6 million contributed by the MACH Acquisition during the three and six months ended June 30, 2014, respectively. In addition, organic volume growth in our enterprise connectivity services contributed revenue increases of \$2.1 million and \$5.3 million for the three and six months ended June 30, 2014, respectively, as our Enterprise & Intelligence Solutions offerings continue to benefit from strong adoption by new enterprise customers across various verticals, including hospitality, social media and retail.

Costs and Expenses

Cost of operations increased \$20.4 million to \$92.4 million for the three months ended June 30, 2014 from \$71.9 million for the three months ended June 30, 2013. Cost of operations increased \$36.9 million to \$180.8 million for the six months ended June 30, 2014 from \$143.9 million for the six months ended June 30, 2013. The tables below summarize our cost of operations by category of spending.

(in thousands)	Three Months Ended June 30,		2014 compared to 2013		
	2014	2013	\$ change	% change	
Cost of Operations:					
Headcount and related costs	\$24,734	\$22,453	\$2,281	10.2	%
Variable costs	25,785	16,110	9,675	60.1	%
Data processing and related hosting and support costs	25,127	19,874	5,253	26.4	%
Network costs	12,992	10,837	2,155	19.9	%
Other operating related costs	3,730	2,660	1,070	40.2	%
Cost of Operations	\$92,368	\$71,934	\$20,434	28.4	%
(in thousands)	Six Months Ended June 30,		2014 compared to 2013		
	2014	2013	\$ change	% change	
Cost of Operations:					
Headcount and related costs	\$50,727	\$45,788	\$4,939	10.8	%
Variable costs	51,413	31,681	19,732	62.3	%
Data processing and related hosting and support costs	47,065	39,338	7,727	19.6	%
Network costs	24,640	21,519	3,121	14.5	%
Other operating related costs	6,915	5,539	1,376	24.8	%
Cost of Operations	\$180,760	\$143,865	\$36,895	25.6	%

The increase in headcount and related costs was driven by additional headcount resulting from the MACH Acquisition, partially offset by a decrease in performance and stock-based compensation. Variable costs increased primarily due to higher message termination fees related to volume increases in our enterprise connectivity services resulting from organic growth as well as additional volumes contributed by the MACH Acquisition. In addition, revenue share costs increased resulting from an increase in the associated revenue. As a result of these increases, variable costs as a percentage of operating costs, which management defines as cost of operations, sales and marketing and general and administrative expenses, were 17.8% and 17.5% for the three and six months ended June 30, 2014 compared to 13.8% and 13.2% for the three and six months ended June 30, 2013. The increase in data processing, hosting and support costs was primarily due to investments in data center expansion to support additional capacity

related to global and service offering expansion efforts and anticipated volume increases, as well as higher software maintenance costs related to additional service needs resulting from the MACH Acquisition and organic growth. The increase in network costs was primarily driven by expansion of our network infrastructure to support global business growth. We intend to continue expanding our network infrastructure for the foreseeable future in order to support future growth opportunities.

Table of Contents

As a percentage of revenues, cost of operations increased to 40.7% and 40.5% for the three and six months ended June 30, 2014 from 37.2% and 38.1% for the three and six months ended June 30, 2013. On a pro forma basis, assuming the MACH Acquisition had taken place on January 1, 2013, cost of operations was 37.7% and 38.1% of revenues for the three and six months ended June 30, 2013, respectively.

Sales and marketing expense increased \$3.5 million to \$20.0 million for the three months ended June 30, 2014 from \$16.5 million for the same period in 2013. The MACH Acquisition contributed \$4.2 million for the three months ended June 30, 2014, primarily due to headcount related costs for the acquired sales force employees. Excluding the impact of the MACH Acquisition, sales and marketing expense decreased \$0.7 million for the three months ended June 30, 2014 compared to the same period in 2013, primarily due to a reduction in headcount related costs and performance based compensation, partially offset by an increase in sales incentive compensation. As a percentage of revenues, sales and marketing expense increased to 8.8% for the three months ended June 30, 2014 from 8.6% for the three months ended June 30, 2013.

Sales and marketing expense increased \$5.9 million to \$42.6 million for the six months ended June 30, 2014 from \$36.7 million for the same period in 2013. The MACH Acquisition contributed \$8.8 million for the six months ended June 30, 2014, respectively, primarily due to headcount related costs for the acquired sales force employees. Excluding the impact of the MACH Acquisition, sales and marketing expense decreased \$2.9 million for the six months ended June 30, 2014, primarily due to a reduction in performance and stock based compensation. As a percentage of revenues, sales and marketing expense decreased to 9.5% for the six months ended June 30, 2014 from 9.7% for the three months ended June 30, 2013.

General and administrative expense increased \$3.5 million to \$32.2 million for the three months ended June 30, 2014 from \$28.7 million for the same period in 2013. General and administrative expense increased \$10.4 million to \$70.2 million for the six months ended June 30, 2014 from \$59.8 million for the comparable prior year period. The increase was driven primarily by headcount related costs, facilities expense and professional services costs resulting from the MACH Acquisition. Excluding the impact of the MACH Acquisition, general and administrative expense decreased \$1.3 million for the three and six months ended June 30, 2014, primarily due to lower performance and stock-based compensation. The decrease was partially offset by an increase in headcount related costs associated with additional resources to support global business growth and new product development initiatives, as well as increase in facilities costs. As a percentage of revenues, general and administrative expense decreased to 14.2% for the three months ended June 30, 2014, from 14.8% for the comparable prior year period, and decreased to 15.7% for the six months ended June 30, 2014, from 15.9% for the six months ended June 30, 2013.

Depreciation and amortization expense increased \$6.6 million to \$56.1 million for the three months ended June 30, 2014 from \$49.5 million for the same period in 2013. Depreciation and amortization expense increased \$17.3 million to \$111.9 million for the six months ended June 30, 2014 from \$94.6 million for the same period in 2013. The increase was driven by \$4.1 million and \$12.2 million of amortization of intangible assets, including capitalized software for the three and six months ended June 30, 2014, respectively, and \$2.5 million and \$5.1 million of depreciation of property and equipment, for the three and six months ended June 30, 2014, both of which were primarily driven by the MACH Acquisition.

Employee termination benefits expense was \$1.9 million and \$2.3 million for the three months ended June 30, 2014 and 2013, respectively. Employee termination benefits expense was \$4.9 million and \$3.0 million for the six months ended June 30, 2014 and 2013, respectively. The increase was driven primarily by severance costs related to a reduction-in-force in the current year as a result of cost saving initiatives, including synergies resulting from the integration of the MACH Acquisition.

Restructuring expense was \$0.1 million for the three months ended June 30, 2013. No Restructuring expense was recorded during the three months ended June 30, 2014. Restructuring expense was less than \$0.1 million and \$0.5 million for the six months ended June 30, 2014 and 2013, respectively. The decrease was driven by severance costs related to restructuring plans entered into in prior periods. See Note 8 to the unaudited condensed consolidated financial statements included herein for additional details regarding our restructuring plans.

Acquisitions expense was \$1.5 million for the three and six months ended June 30, 2014, respectively, and \$16.6 million and \$20.9 million for the three and six months ended June 30, 2013, respectively. Acquisitions expense consisted primarily of professional services costs including legal, tax, audit and transaction advisory costs related to the Aicent Acquisition in 2014 and the MACH Acquisition in 2013.

Other Income (Expense), net

Interest expense decreased \$0.8 million to \$30.4 million for the three months ended June 30, 2014 from \$31.1 million for the same period in 2013. Interest expense increased \$2.6 million to \$60.5 million for the six months ended June 30, 2014 from \$58.0 million for the same period in 2013. The decrease during the three months ended June 30, 2014, was primarily due

Table of Contents

to a \$2.7 million decrease related to a principal pre-payment and refinancing of our Initial Term Loans in September 2013 and a \$2.9 million decrease due to ticking fees related to the Delayed Draw Facility in 2013, partially offset by a \$4.8 million of interest expense related to the Tranche B Term Loans entered into during June 2013. The year-to-date increase was primarily due to \$12.6 million of interest expense related to the Tranche B Term Loans, partially offset by a \$5.4 million decrease related to a principal pre-payment and refinancing of our Initial Term Loans in September 2013 and a \$4.6 million decrease due to ticking fees related to the Delayed Draw Facility in 2013.

Equity loss in investee was \$0.4 million and \$0.1 million for the three and six months ended June 30, 2014 and was comprised of a loss from our equity investment in a subsidiary acquired in the MACH Acquisition.

Other, net increased \$1.0 million to a \$1.6 million loss for the three months ended June 30, 2014 from a \$0.6 million loss for the same period in 2013. Other, net decreased \$0.9 million to a \$0.3 million loss for the six months ended June 30, 2014 from a \$1.2 million loss for the same period in 2013. The fluctuations in our foreign exchange gains and losses are primarily driven by our expanded global operations resulting from the MACH Acquisition.

Benefit from Income Taxes

We recorded an income tax benefit of \$0.02 million and \$0.3 million for the three and six months ended June 30, 2014, compared to a provision of \$0.3 million and a benefit of \$4.1 million for the three and six months ended June 30, 2013. During the three and six months ended June 30, 2014, the effective tax rate was a benefit of 0.3% and 1.0%, respectively. During the three and six months ended June 30, 2013, the effective tax rate was a provision of 1.0% and a benefit of 9.8%, respectively. The change in our effective tax rate was chiefly attributable to (i) the inclusion of a full year of the actual and forecasted earnings impact of the MACH entities in our 2014 effective tax rate; and (ii) the prior year effects of certain favorable permanent items, offset by (iii) the unfavorable effects of MACH Acquisition related costs.

Liquidity and Capital Resources

Our operations are conducted almost entirely through our subsidiaries and our ability to generate cash to meet our debt service obligations or to pay dividends is highly dependent on the earnings and the receipt of funds from our subsidiaries via dividends or intercompany loans.

Our primary sources of liquidity are expected to be cash flow from operations as well as funds available under the Revolving Credit Facility. We believe that we have sufficient liquidity to meet currently anticipated growth plans, including short and long-term capital expenditures and working capital requirements. In addition, we believe that our liquidity is sufficient to fund our debt repayment obligations. Our ability to make payments on our indebtedness will depend on our ability to generate cash flow from operating activities in the future. Our indebtedness requires us to dedicate a substantial portion of our cash flow from operations to debt service, thereby reducing the availability of our cash flow to fund acquisitions, working capital, capital expenditures, research and development efforts and other general corporate purposes. Historically, we have been successful in obtaining financing, although the marketplace for such financing may become restricted depending on a variety of economic and other factors. On August 4, 2014, we completed the Aicent Acquisition for \$292.0 million, which was funded with cash of approximately \$192.0 million and a draw down of our Revolving Credit Facility in the amount of approximately \$100.0 million.

We believe that our cash on hand, together with cash flow from operations and, if required, borrowings under the Revolving Credit Facility will be sufficient to meet our cash requirements for the next twelve months. To the extent we require supplemental funding for our operating activities, we may need access to the debt and equity markets; however, there can be no assurances such funding will be available on acceptable terms or at all.

Table of Contents

Cash Flow

Cash and cash equivalents were \$314.2 million at June 30, 2014 as compared to \$306.4 million at December 31, 2013. The following table summarizes the activity within our unaudited condensed consolidated statements of cash flows.

(in thousands)	Six Months Ended June 30,	
	2014	2013
Net cash provided by operating activities	\$68,712	\$54,818
Net cash used in investing activities	(53,511) (674,549
Net cash (used in) provided by financing activities	(7,444) 660,626
Effect of exchange rate changes on cash	92	705
Net increase in cash	\$7,849	\$41,600

Net cash provided by operating activities increased \$13.9 million to \$68.7 million for the six months ended June 30, 2014 from \$54.8 million for the same period in 2013. The increase was primarily due to:

- increased net income adjusted for non-cash items of \$40.4 million, primarily due to improved operating income, partially offset by higher interest payments as compared to the prior year period.

The increase was partially offset by:

- increased cash used for working capital of \$26.5 million due primarily to the timing of performance-based compensation payments and timing of income tax receipts and payments, partially offset by improved collections of accounts receivable and timing of payments to vendors.

Net cash used in investing activities was \$53.5 million for the six months ended June 30, 2014, as compared to \$674.5 million for the six months ended June 30, 2013. The decrease was driven by:

- cash used of \$628.2 million in the prior year period related to the MACH Acquisition;

- the redemption of a \$3.7 million certificate of deposit during the six months ended June 30, 2014; and

- proceeds of \$0.7 million from the sale of the Divestment Business during the six months ended June 30, 2014; partially offset by

- increased capital expenditures of \$11.6 million, primarily due to higher costs associated with capitalized software for new services, data center capacity increases, investments in our internal infrastructure and capital spend related to the integration of MACH .

Net cash (used in) provided by financing activities was \$(7.4) million for the six months ended June 30, 2014 as compared to \$660.6 million for the six months ended June 30, 2013. The decrease was due to:

- net proceeds in the prior year period of \$696.5 million related to the Tranche B Term loans, partially offset by debt issuance costs of \$25.2 million and principal payments of \$4.8 million related to the Initial Term Loans;

- increased distribution to our parent of \$0.6 million;

- the purchase of our redeemable noncontrolling interest of \$0.5 million; and

- increased payments on capital lease obligations of \$0.5 million

Table of Contents

Debt and Credit Facilities

Senior Credit Facility

On April 23, 2012, we entered into a Credit Agreement with Buccaneer LLC (as successor by merger to Buccaneer), Barclays Bank PLC, as administrative agent, swing line lender and letters of credit issuer, and the other financial institutions and lenders from time to time party thereto, providing for the Senior Credit Facility consisting of (i) the Initial Term Loans; and (ii) the Revolving Credit Facility for the making of revolving loans, swing line loans and issuance of letters of credit.

On June 28, 2013 the Company borrowed \$700.0 million of Tranche B Term Loans, pursuant to the Incremental Amendment to its Credit Agreement. The proceeds of the Tranche B Term Loans were used to refinance, in full, the Escrow Term Loans (as defined below), a portion of which were used to fund the MACH Acquisition.

As of June 30, 2014, we had a carrying amount of \$911.8 million and \$678.7 million, excluding original issue discount, of outstanding indebtedness under the Initial Term Loans and Tranche B Term Loans, respectively. At June 30, 2014, the applicable interest rate was 4.00% on these Term Loan Facilities based on the Eurodollar rate loan option.

The Revolving Credit Facility had an outstanding Euro letter of credit of \$1.9 million at June 30, 2014, which reduced availability under the Revolving Credit Facility. The unused commitment under the Revolving Credit Facility was \$148.1 million at June 30, 2014.

Delayed Draw Credit Agreement

On February 4, 2013, Syniverse Magellan Finance, LLC (the "Finance Sub"), Syniverse Holdings' direct wholly-owned subsidiary entered into the Delayed Draw Credit Agreement with Barclays Bank PLC, as administrative agent, and the other financial institutions and lenders from time to time party thereto, providing for the \$700.0 million Delayed Draw Facility. On May 28, 2013, Finance Sub entered into an amendment to the Delayed Draw Credit Agreement. Upon the closing of this amendment, the lenders funded the Delayed Draw Facility into an escrow account ("Escrow Term Loans") and the Company pre-funded the interest, upfront fees and ticking fees of \$7.2 million, \$3.5 million and \$3.6 million, respectively. The Escrowed Funds were released to Finance Sub on June 28, 2013.

Non-GAAP Financial Measures

Adjusted EBITDA and Free Cash Flow are not presentations made in accordance with U.S. GAAP. Adjusted EBITDA should not be considered as alternatives to net loss, operating income, revenues or any other performance measures derived in accordance with U.S. GAAP as measures of operating performance or operating cash flows or liquidity. We believe that Adjusted EBITDA and Free Cash Flow are measures commonly used by investors to evaluate our performance and that of our competitors. We further believe that the disclosure of Adjusted EBITDA and Free Cash Flow is useful to investors, as these non GAAP measures form the basis of how our executive team and Board of Directors evaluate our performance. By disclosing these non GAAP measures, we believe that we create for investors a greater understanding of, and an enhanced level of transparency into, some of the means by which our management team operates and evaluates our Company and facilitates comparisons of current period's results with prior periods.

In addition, these non GAAP measures may not be comparable to other similarly titled measures of other companies in our industry or otherwise. Because of these limitations, Adjusted EBITDA and Free Cash Flow should not be considered as measures of discretionary cash available to us to invest in the growth of our business. We attempt to compensate for these limitations by relying primarily upon our U.S. GAAP results and using Adjusted EBITDA and Free Cash Flow as supplemental information only.

Adjusted EBITDA and Free Cash Flow have important limitations as analytical tools and you should not consider them in isolation or as substitutes for analysis of our results as reported under U.S. GAAP. For example, some of the limitations of Adjusted EBITDA are as follows:

- excludes certain tax payments or the cash requirements necessary to service interest or principal payments on our debt that may represent a reduction in cash available to us;

- does not reflect any cash capital expenditure requirements for the assets being depreciated and amortized that may have to be replaced in the future;

Table of Contents

- does not reflect cash outlays for future contractual commitments;
- does not reflect changes in, or cash requirements for, our working capital needs; and
- does not reflect the significant interest expense on our debt.

Adjusted EBITDA is determined by adding the following items to net loss from continuing operations: other income (expense), net, excluding the impact of equity loss in investee, (benefit from) provision for income taxes, depreciation and amortization, employee termination benefits, restructuring, non-cash stock compensation, Acquisitions expense, business development, integration and other related expenses including transition and integration costs generally and the Carlyle annual management fee including related expenses.

We believe that Adjusted EBITDA is a useful financial metric to assess our operating performance from period to period by excluding certain items that we believe are not representative of our ongoing business operations. We rely on Adjusted EBITDA as a primary measure to review and assess the operating performance of our management team in connection with our executive compensation and bonus plans. We also review Adjusted EBITDA to compare our current operating results with prior periods and with the operating results of other companies in our industry. In addition, we utilize Adjusted EBITDA as an assessment of our overall liquidity and our ability to meet our debt service obligations. Adjusted EBITDA is also a measure used under the indenture for our Senior Notes.

Table of Contents

Reconciliation of Non-GAAP Measures to GAAP

A reconciliation of net loss, the closest GAAP measure, to Adjusted EBITDA is presented in the following tables:

(in thousands)	Three Months Ended June 30,	
	2014	2013
Reconciliation to Adjusted EBITDA		
Net loss from continuing operations	\$(9,017) \$(24,144
Equity loss in investee	(404) —
Other expense, net	32,142	31,508
(Benefit from) provision for income taxes	(24) 250
Depreciation and amortization	56,099	49,500
Employee termination benefits (a)	1,888	2,342
Restructuring (b)	—	110
Non-cash stock-based compensation (c)	1,894	1,482
Acquisitions (d)	1,476	16,553
Business development, integration and other expenses (e)	3,667	3,597
Management fee and related expenses (f)	793	798
Adjusted EBITDA	\$88,514	\$81,996
	Six Months Ended June 30,	
(in thousands)	2014	2013
Reconciliation to Adjusted EBITDA		
Net loss from continuing operations	\$(25,234) \$(37,191
Equity loss in investee	(97) —
Other expense, net	60,518	58,987
Benefit from income taxes	(263) (4,058
Depreciation and amortization	111,906	94,587
Employee termination benefits (a)	4,855	3,014
Restructuring (b)	22	496
Non-cash stock-based compensation (c)	3,913	5,180
Acquisitions (d)	1,476	20,945
Business development, integration and other expenses (e)	8,071	4,392
Management fee and related expenses (f)	1,591	1,829
Adjusted EBITDA	\$166,758	\$148,181

(a) Reflects employee termination benefits expense which is comprised primarily of severance benefits associated with our cost rationalization initiatives.

(b) Reflects restructuring expense which is comprised primarily of contract termination costs associated with the exit of a leased facility.

(c) Reflects non-cash expenses related to equity compensation awards.

(d) Reflects expenses associated with the Acquisitions, including professional services costs, such as legal, tax, audit and transaction advisory costs.

(e) Reflects items associated with business development activities, integration expenses, such as incremental contractor, travel and marketing costs and certain advisory services and employee retention costs.

(f) Reflects management fees paid to Carlyle and related expenses pursuant to a consulting agreement with Carlyle.

Free Cash Flow is determined by adding the result of net cash provided by operating activities, adjusted for loss from discontinued operations, net of tax, working capital changes related to discontinued operations and Acquisitions expense less capital expenditures.

We believe that Free Cash Flow is a useful financial metric to assess our ability to pursue opportunities to enhance our growth. We also use Free Cash Flow as a measure to review and evaluate the operating performance of our management team

Table of Contents

in connection with our executive compensation and bonus plans. Additionally, we believe this is a useful metric for investors to assess our ability to repay debt.

A reconciliation of net cash provided by operating activities, the closest GAAP measure, to Free Cash Flow is presented in the following tables:

(in thousands)	Three Months Ended June 30,	
	2014	2013
Reconciliation to Free Cash Flow		
Net cash provided by operating activities	\$50,572	\$34,467
Loss from discontinued operations, net of tax	560	—
Working capital changes related to discontinued operations	(560) —
Acquisitions	1,476	16,553
Capital expenditures	(27,008) (22,658

Reconciliation to Free Cash Flow		
Net cash provided by operating activities	\$68,712	\$54,818
Loss from discontinued operations, net of tax	560	—
Working capital changes related to discontinued operations	(560) —
Acquisitions	1,476	20,945
Capital expenditures	(57,929) (41,743
Free Cash Flow	\$12,259	\$34,020

Off-Balance Sheet Arrangements

We provide financial settlement services to MNOs to support the payment of roaming related charges to their roaming network partners. In accordance with our customer contracts, funds are held by us as an agent on behalf of our customers to settle their roaming related charges to other MNOs. These funds and the corresponding liability are not reflected in our unaudited condensed consolidated balance sheets. The off-balance sheet amounts totaled approximately \$602.8 million and \$492.9 million as of June 30, 2014 and December 31, 2013, respectively.

We have also used off-balance sheet financing in recent years primarily in the form of operating leases for facility space and equipment and we expect to continue these practices. We do not use any other type of joint venture or special purpose entities that would create off-balance sheet financing. We believe that our decision to lease office space is similar to that used by many other companies of our size and does not have a material impact on our financial statements. We intend to continue to enter into operating leases for facilities and equipment as these leases expire or additional capacity is required.

Related Party TransactionsConsulting Agreement with Carlyle

On January 13, 2011, we entered into a ten-year consulting agreement with Carlyle under which we pay Carlyle a management fee for consulting services Carlyle provides to us and our subsidiaries. Under this agreement, subject to certain conditions, we pay an annual management fee to Carlyle of \$3.0 million and reimburse their out-of-pocket expenses. During the three and six months ended June 30, 2014 and 2013, we recorded \$0.8 million and \$1.6 million, respectively, associated with the management fee and the reimbursement of out-of-pocket expenses. During the three and six months ended June 30, 2013, we recorded \$0.8 million and \$1.8 million, respectively.

Carlyle, from time to time, participates as a debt holder within the syndicate under our Initial Term Loans and Tranche B Term loans. As of June 30, 2014 and December 31, 2013, Carlyle held \$49.0 million and \$17.5 million of our Initial

Term Loans and Tranche B Term loans, respectively.

46

Critical Accounting Policies and Estimates

The preparation of our unaudited condensed consolidated financial statements and related disclosures in conformity with U.S. GAAP requires us to make estimates and judgments that affect our reported amounts of assets, liabilities, revenues and expenses. We consider an accounting estimate to be critical if it requires assumptions to be made that were uncertain at the time the estimate was made and changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition. On an on-going basis, we evaluate our estimates and assumptions based upon historical experience and various other factors and circumstances. We believe that our estimates and assumptions are reasonable under the circumstances; however, actual results may vary from these estimates and assumptions under different future circumstances.

There have been no material changes to our Critical Accounting Policies and Estimates disclosure as filed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Market Risk

We have exposure to fluctuations in interest rates on our Term Loan Facilities. Our Term Loan Facilities are subject to variable interest rates dependent upon the Eurodollar rate floor. Under the credit agreement governing our Term Loan Facilities, the Eurodollar rate floor was 1.00% and the base rate floor was 2.00% as of June 30, 2014. Interest rate changes therefore generally do not affect the market value of such debt but do impact the amount of our interest payments and, therefore, our future earnings and cash flows, assuming other factors are held constant. As of June 30, 2014, a one-eighth percent change in assumed interest rates on our Term Loan Facilities would result in \$2.0 million of additional interest expense.

Foreign Currency Market Risk

Although the majority of our operations are conducted in U.S. dollars, a portion of our foreign operations are conducted in Euros and Great British Pounds. On a less significant basis, we conduct operations in the various currencies of the Asia-Pacific region, Caribbean and Latin America. Consequently, a portion of our revenues and expenses are affected by fluctuations in foreign currency exchange rates. We are also affected by fluctuations in exchange rates on assets and liabilities related to our foreign operations. We have not hedged our translation risk on foreign currency exposure through the use of derivative instruments.

A 10% change in average foreign currency rates against the U.S. dollar during the six months ended June 30, 2014 would have increased or decreased our revenues and net loss by approximately \$5.5 million and \$0.4 million, respectively.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls

Our management, including our principal executive officer and principal financial officer, concluded an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) as of June 30, 2014. Based on the evaluation, as of June 30, 2014, our management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

We are currently assessing the control environment and intend to disclose all material changes resulting from the MACH Acquisition completed on June 28, 2013 within or prior to the time our first annual assessment of internal control over financial reporting that is required to include this entity. While we have obtained an understanding of the internal control environment, our assessment will include documentation, testing and evaluation of internal controls over financial reporting.

During the fourth quarter of 2013, management implemented certain controls and procedures relative to the acquired business including financial reviews, policies and procedures, disclosure controls and procedures and organization integration. We believe these controls and procedures mitigate the risk of weaknesses in internal control over financial reporting.

Table of Contents

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are currently a party to various claims and legal actions that arise in the ordinary course of business. We believe such claims and legal actions, individually and in the aggregate, will not have a material adverse effect on our business, financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

Our business, financial condition, operating results and cash flows can be impacted by a number of factors, any one of which could cause our actual results to vary materially from recent results or from our anticipated future results. For a discussion identifying additional risk factors and important factors that could cause actual results to differ materially from those anticipated, see the discussion of risk factors disclosed under the caption "Risk Factors" in our 2013 Annual Report on Form 10-K. There have been no material changes with respect to the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.
