CHECK POINT SOFTWARE TECHNOLOGIES REPORTS FOURTH QUARTER
AND FULL YEAR 2013 FINANCIAL RESULTS

Fourth Quarter 2013:

- Total Revenues: \$387.1 million, representing a 5 percent increase year-over-year
- Deferred revenues: \$671.6 million, representing a 14 percent increase year-over-year and 19 percent sequentially
- Non-GAAP EPS: \$0.98, representing an 8 percent increase year-over-year

Full Year 2013:

- Total Revenues: \$1,394.1 million, representing a 4 percent increase year-over-year
- Non-GAAP EPS: \$3.43, representing an 8 percent increase year-over-year

San Carlos, Calif., -- January 28, 2014 — Check Point® Software Technologies Ltd. (NASDAQ: CHKP), the worldwide leader in securing the Internet, today announced financial results for the fourth quarter and full-year ended December 31, 2013.

“The fourth quarter represented one of the best quarters that I can remember, which is reflected in our customer wins and deferred revenues. The Americas and Europe delivered great results that were driven by the strength of our new data center appliances and next generation threat prevention software blades,” said Gil Shwed, founder, chairman and chief executive officer of Check Point Software Technologies.

Financial Highlights for the Fourth Quarter of 2013

- Total Revenues: \$387.1 million, an increase of 5 percent, compared to \$368.6 million in the fourth quarter of 2012.
- GAAP Operating Income: \$214.1 million, an increase of 2 percent, compared to \$210.5 million in the fourth quarter of 2012.
- Non-GAAP Operating Income: \$227.3 million, an increase of 2 percent, compared to \$222.9 million in the fourth quarter of 2012. Non-GAAP operating margin was 59 percent, compared to 60 percent in the fourth quarter of 2012.
- GAAP Net Income and Earnings per Diluted Share: GAAP net income was \$194.1 million, an increase of 12 percent, compared to \$174.0 million in the fourth quarter of 2012. GAAP earnings per diluted share were \$0.99, an increase of 16 percent, compared to \$0.85 in the fourth quarter of 2012.
- Non-GAAP Net Income and Earnings per Diluted Share: Non-GAAP net income was \$192.0 million, an increase of 4 percent, compared to \$185.1 million in the fourth quarter of 2012. Non-GAAP earnings per diluted share were \$0.98, an increase of 8 percent, compared to \$0.91 in the fourth quarter of 2012.
-

Deferred Revenues: As of December 31, 2013, Check Point had deferred revenues of \$671.6 million, an increase of 14 percent, compared to \$589.7 million as of December 31, 2012 and 19 percent up from \$566.8 million as of September 30, 2013.

- Tax settlement: During the quarter, Check Point entered into a settlement agreement with the Israeli Tax Authority with respect to the release of profits generated by the Check Point under the Israeli Law for the Encouragement of Capital Investments and the settlement of all disputes with the ITA with respect to prior tax years. The settlement was paid in two payments during the fourth quarter of 2013 and the first quarter of 2014.

- **Cash Flow:** Cash flow from operations was \$58.2 million. Net of the tax settlement payment made to the Israeli Tax Authorities during the quarter, cash flow from operations increased by 13 percent to \$228.1 million compared to \$202.4 million in the fourth quarter of 2012.
- **Share Repurchase Program:** During the fourth quarter of 2013, the company repurchased 2.3 million shares at a total cost of \$135.1 million.
- **Cash Balances and Marketable Securities:** \$3,629.9 million as of December 31, 2013, an increase of \$334.5 million, compared to \$3,295.4 million as of December 31, 2012.

Financial Highlights for the Year Ended December 31, 2013

- **Total Revenues:** \$1,394.1 million, an increase of 4 percent, compared to \$1,342.7 million in 2012.
- **GAAP Operating Income:** \$760.9 million, an increase of 2 percent, compared to \$746.5 in 2012.
- **Non-GAAP Operating Income:** \$815.0 million, an increase of 2 percent, compared to \$798.9 million in 2012. Non-GAAP operating margin was 58 percent, compared to 59 percent in 2012.
- **GAAP Net Income and Earnings per Diluted Share:** GAAP net income was \$652.8 million, an increase of 5 percent, compared to \$620.0 million in 2012. GAAP earnings per diluted share were \$3.27, an increase of 10 percent, compared to \$2.96 in 2012.
- **Non-GAAP Net Income and Earnings per Diluted Share:** Non-GAAP net income was \$685.2 million, an increase of 3 percent, compared to \$667.9 million in 2012. Non-GAAP earnings per diluted share were \$3.43, an increase of 8 percent, compared to \$3.19 in 2012.
- **Cash Flow:** Cash flow from operations was \$789.9 million. Net of the tax settlement payment and the tax refund for prior years executed with the Israeli Tax Authorities in 2013, our cash flow from operations increased to \$862.1, an increase of 6 percent, compared to \$815.8 million in 2012.
- **Share Repurchase Program:** In 2013 we repurchased approximately 10.1 million shares in an aggregate amount of approximately \$538 million which represented an average repurchase per quarter of \$135 million. Today, the company announced in a separate press release that its board of directors has authorized an extension and expansion to the company's on-going share repurchase program. Under the updated plan, effective immediately, Check Point is authorized to repurchase up to \$200 million of its outstanding shares each quarter up to an aggregate of \$1.0 billion.

For information regarding the non-GAAP financial measures discussed in this release, please see "Use of Non-GAAP Financial Information" and "Reconciliation of GAAP to Non-GAAP Financial Information."

Business Highlights:

In 2013, Check Point introduced new and innovative security solutions to protect organizations of all sizes and complexity including:

Software Version R77 – Check Point announced the latest release for its award-winning Software Blade Architecture. This version includes more than 50 product enhancements including the new ThreatCloud Emulation Service, Check Point HyperSpect™ performance enhancing technology, and Check Point Compliance Software Blade, amongst others.

Threat Emulation Software Blade – An innovative solution that prevents infections from new exploits, undiscovered threats, and targeted attacks. Check Point Threat Emulation inspects suspicious documents and emulates how they run in a virtual environment to discover malicious behavior and to prevent malware from entering the network.

Compliance Software Blade – The industry's first integrated compliance solution to leverage an extensive knowledgebase of regulatory requirements and IT security best practices, while providing a real-time view of

compliance. Check Point's Compliance Software Blade ensures that security policies are aligned with global regulations and validates that appropriate security levels are maintained – shortening audit times, improving security, and reducing costs for businesses.

softwarebladesTM ©2014 Check Point Software Technologies Ltd. All rights reserved. P. 3

New Data Center Appliances:

13500 Appliance – Check Point launched the 13500 Appliance, the first in a new line of 13000 Appliances designed specifically to expand the company’s data center network security offerings. The 13500 Appliance leverages Check Point HyperSpect™, which maximizes hardware utilization, and delivers up to 77 Gbps of firewall throughput, 7 Gbps of IPS throughput and 3,200 SecurityPower™ unit (SPU) rating.

21700 Appliance – The 21700 Appliance provides market leading security and the fastest performance in a compact 2U chassis, protecting large enterprises and data centers with Check Point’s award-winning Software Blade Architecture. It offers exceptional security performance with up to 110 Gbps of firewall throughput, 8 Gbps of IPS throughput, and a 3,551 SecurityPower™ unit (SPU) rating. The 21700 is the third model in the 21000 series and increases the top performance by approximately 50 percent since the launch.

New Enterprise-Class Security in a Desktop Package: 600 Series and 1100 Series Appliances

600 Series Appliances – Designed to address the security needs of small businesses with less than 100 employees. The 600 Series delivers the full Check Point Software Blade architecture (Next Generation Firewall, IPS, Threat Prevention, etc.) with an extremely easy to use Web user interface and features performance up to 1.5Gbps, at prices ranging from \$399-\$1,200. The 640 Appliance won the Network World Clear Choice Award.

1100 Series Appliances – Targeted at enterprise remote offices and optimized for large-scale deployments of hundreds of branch offices. The 1100 Series offers customers the ability to utilize the Check Point Software Blade Architecture with centralized enterprise management capabilities and offers performance up to 1.5Gbps, at prices ranging from \$599-\$2,000.

ZoneAlarm 2013 Security Products - The new 2013 products, which are Windows 8 compatible, are the first to integrate a Facebook Privacy Scan and Do Not Track technologies. ZoneAlarm products also offer improved performance and security through advanced antivirus and firewall capabilities.

Extension to Blue Coat Partnership on X-Series platform – Check Point and Blue Coat announced an extension of the two companies’ successful, longstanding partnership where Check Point became the primary provider for the X-Series platform in the network security firewall market. Check Point now delivers frontline support for the product, making it easier for customers to benefit from an integrated, scalable approach to their network security.

Industry Accolades and Partnerships:

Top Position in Worldwide Combined Firewall and UTM Appliance Market – Check Point is positioned as the number one vendor in worldwide combined Firewall and UTM appliance revenue for Q1, Q2 and Q3 2013 according to the IDC Worldwide Security Appliance Tracker.

Number One in Worldwide Firewall Equipment Market Share – Check Point led worldwide market share for Firewall Equipment according to the Gartner Market Share: Enterprise Network Equipment by Market Segment, Worldwide, 2Q13 report.

Leader in Gartner’s Magic Quadrant for Enterprise Network Firewall - Check Point is positioned as a Leader in Gartner’s Magic Quadrant for Enterprise Network Firewall. The company has been in the Leader’s quadrant for 16 consecutive years.

Leader in Gartner's Magic Quadrant for Unified Threat Management - Check Point is positioned as a Leader in Gartner's Magic Quadrant for Unified Threat Management (UTM). The company has been in the Leaders quadrant for three consecutive years.

softwareblades™ ©2014 Check Point Software Technologies Ltd. All rights reserved. P. 4

Leader in Gartner's Magic Quadrant for Mobile Data Protection – Check Point is positioned as a Leader in Gartner's Magic Quadrant for Mobile Data Protection (MDP). The company has been in the Leaders quadrant for seven consecutive years.

Check Point's Next Generation Secure Web Gateway Outperforms Competition – Check Point underwent Miercom's rigorous hands-on evaluation alongside two competing products and achieved the highest scores outperforming the competition in all elements of testing including web control such as URL classification and coverage, blocking URLs from undesirable and potentially malicious categories, and application control.

Shwed concluded, "We finished 2013 on a strong note, underscoring the strength of our advanced technologies and highlighting the success of our software blades and data center appliances. In 2014, we look forward to delivering further innovation and increased levels of security to our customers."

First Quarter Investor Conference Participation Schedule:

- Oppenheimer 4th Annual Research Summit
February 5, 2014 – London, UK
- Stifel Nicolaus Technology & Telecommunications Conference
February 10, 2014 – San Francisco, CA
- Goldman Sachs Technology & Internet Conference
February 13, 2014 – San Francisco, CA
- Raymond James 33rd Annual Institutional Investor Conference
March 3, 2014 – Orlando, FL
- Morgan Stanley Global Technology, Media and Telecommunications Conference
March 5, 2014 – San Francisco, CA

Legal Notice Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally relate to future events or our future financial or operating performance. Forward-looking statements in this press release include, but are not limited to, statements related to our expectations that, in 2014, we expect further innovation and increased levels of security to our customers. Our expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks include our ability to continue to develop platform capabilities and solutions; customer acceptance and purchase of our existing solutions and new solutions; the market for IT security continuing to develop; competition from other products and services; and general market, political, economic and business conditions. The forward-looking statements contained in this press release are also subject to other risks and uncertainties, including those more fully described in our filings with the Securities and Exchange Commission, including our Annual Report on Form 20-F filed with the Securities and Exchange Commission on March 19, 2013. The forward-looking statements in this press release are based on information available to Check Point as of the date hereof, and Check Point disclaims any obligation to update any forward-looking statements, except as required by law.

Use of Non-GAAP Financial Information

In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, Check Point uses non-GAAP measures of net income, operating income, operating margin and earnings per share, which are adjustments from results based on GAAP to exclude stock-based compensation charges, amortization of acquired intangible assets, and the related tax affects as well as the impact of tax settlement for prior years. Check Point's management believes the non-GAAP financial information provided in this release is useful to investors' understanding and assessment of Check Point's ongoing core operations and prospects for the future. Historically, Check Point has also publicly presented these supplemental non-GAAP financial measures in order to assist the investment community to see the Company "through the eyes of management," and thereby enhance understanding of its operating performance. The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for results prepared in accordance with GAAP. A reconciliation of the non-GAAP financial measures discussed in this press release to the most directly comparable GAAP financial measures is included with the financial statements contained in this press release. Management uses both GAAP and non-GAAP information in evaluating and operating business internally and as such has determined that it is important to provide this information to investors.
