Item 2.02 Results of Operations and Financial Condition.

On February 1, 2005, Millennium Chemicals Inc. ("Millennium") issued a press release regarding a restatement of Millennium's financial statements for prior periods, which is filed herewith as Exhibit 99.1 and incorporated by reference into this Item 2.02. See Item 4.02 below.

Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On January 29, 2005, Millennium concluded, with the concurrence of its Board of Directors, that Millennium's financial statements for the five-year period ending December 31, 2003 and the first three quarters of 2004 should no longer be relied upon because of errors in such financial statements. Accordingly, Millennium will restate its financial statements for those periods to recognize an increase currently estimated to be \$59 million in its recorded liabilities for environmental remediation to include liabilities for estimated future remediation spending that were erroneously excluded in prior periods. This increase in environmental remediation liabilities would result in a decrease in deferred tax liabilities of \$21 million, and a decrease in retained earnings of \$38 million, of which approximately \$19 million currently is expected to relate to years prior to 1999.

Millennium's management and Board of Directors discussed the matters disclosed in this filing with PricewaterhouseCoopers LLP, the independent registered public accounting firm for Millennium.

Millennium's February 1, 2005 press release regarding this matter is filed herewith as Exhibit 99.1 and incorporated by referenced into this Item 4.02.

Item 9.01 Financial Statements and Exhibits.

- (c) Exhibits.

99.1 Press Release

Forward Looking Statements

The statements in this filing relating to matters that are not historical facts are forward-looking statements, including, but not limited to, earnings guidance, and the information regarding the restatement of Millennium's financial statements for prior periods and the impact thereof. Forward-looking statements are subject to risks and uncertainties. Actual results could differ materially based on factors including, but not limited to, the timing and nature of the final resolution of the accounting matters discussed in this filing. Until the restatement of Millennium's financial statements for prior periods has been completed, no assurance can be given with respect to the financial statement adjustments, the impacts resulting from such adjustments or the periods affected by such adjustments. Other factors that may affect actual results include the following: availability, cost and price volatility of raw materials and utilities; uncertainties associated with the U.S. and worldwide economies; current and potential governmental regulatory actions; terrorist

acts; international political unrest; operating interruptions; legal, tax and environmental proceedings; cyclical nature of the chemical and refining industries; competitive products and pricing; industry production capacities and operating rates; supply/demand balances; risks of doing business outside of the U.S.; access to capital markets; technological developments; and other risk factors. All of such forward-looking statements are based upon the current beliefs and expectations of management, and are subject to significant risks and uncertainties. Additional factors that could cause results to differ materially from those described in the forward-looking statements can be found in the Millennium Annual Report on Form 10-K for the year ended December 31, 2003, as amended, the Millennium Quarterly Report on Form 10-Q for the quarter ended September 30, 2004, and the Millennium Annual Report on Form 10-K for the year ended December 31, 2004, which will be filed with the SEC in March 2005.
