Report of Independent Registered Public Accounting Firm

To the Participants and Investment Plan Committee of
the CONSOL Energy Inc. Investment Plan for
Salaried Employees

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the CONSOL Energy Inc. Investment Plan for Salaried Employees (the Plan) at December 31, 2003 and 2002, and the changes in net assets available for benefits for the year ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held (at End of Year) as of December 31, 2003 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Investment Plan for Salaried Employees

Notes to Financial Statements

December 31, 2003 and 2002

1. Description of the Plan

The following brief description of the CONSOL Energy Inc. Investment Plan for Salaried Employees (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan established in 1953. Salaried, operations and maintenance and, in certain circumstances, production and maintenance employees of CONSOL Energy Inc. and participating employers (CONSOL Energy or the Company) are eligible to participate in the Plan on the first of the month following the start of regular full-time employment. In addition, temporary employees are eligible to participate in the Plan upon completion of a period of 12 consecutive months, commencing upon their employment date or anniversary date thereof, during which the employee completes 1,000 or more hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On April 29, 1999, CONSOL Energy underwent an initial public offering. In connection with the public offering, the Plan offers CONSOL Energy common stock (CONSOL Stock Fund) as an investment option. Participants of the Plan were able to transfer funds into the CONSOL Stock Fund in June 1999 and to allocate contributions to this fund in July 1999. In addition, participants were no longer able to allocate contributions to E.I. DuPont de Nemours & Company (DuPont) common stock (DuPont Stock Fund).

The CONSOL Stock Fund investment option is an Employee Stock Ownership Plan (ESOP), whereby participants in the plan will be given the opportunity to elect to receive cash for dividends declared on CONSOL Energy stock. If a participant does not make an election, the dividends will be reinvested in the CONSOL Stock Fund.

Contributions

Each year participants may, with certain restrictions, contribute a maximum of the lesser of \$40,000 or 44% of monthly base pay to the Plan exclusive of supplemental make-up deposits. CONSOL Energy and participating employers match these contributions, dollar for dollar, up to 6% of base pay (as defined by the Plan). Contributions may be made with before-tax or after-tax dollars. In addition, subject to certain limitations, a participant is allowed to make lump-sum savings deposits in cash to the Plan.

Included in employer contributions receivable at December 31, 2002 was an estimate of \$4,000,000 due to the Plan resulting from a plan amendment made in November 1994 that was not reflected in the plan's administration since that date. Prior to the amendment, the Plan's

Edgar Filing: CONSOL ENERGY INC - Form 11-K

provisions read such that participants making a partial withdrawal from their account would trigger a six month suspension period on their ability to make basic contributions to the Plan. Following the 1994 amendment, the order of the withdrawal sequence and the contribution sources that trigger a six-month suspension period were changed, such that participants were deemed to withdraw investment earnings before their basic contributions and matching contributions and were no longer subject to the six-month suspension for withdrawing investment earnings. During 2001, the Company learned that the administration of the Plan did not correspond to the modified withdrawal sequence and associated suspensions; rather, the Plan continued to be administered in accordance with its pre-investment provisions. As a result, participants who were deemed to withdraw all or a portion of their investment earnings were improperly suspended from making basic contributions and receiving the corresponding matching contribution from the Company.

On September 2, 2003 the Internal Revenue Service (IRS) agreed to the Company s proposed correction or making corrective contributions adjusted for earnings and issued a compliance statement that resulted in the Plan retaining its favorable tax status (Note 4). This corrective contribution was made in 2003 and amounted to \$1,381,143. The difference of \$2,618,857 between the amount recorded as a receivable in the Plan s financial statements and the amount actually received by the Plan was deducted from the Plan s net assets available for benefits. The charge was included as a reduction to employer contributions in the accompanying statement of changes in net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan investment earnings and is charged with an allocation of administrative expenses and plan investment losses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of the funds included in the supplemental schedule of assets (held at end of year), which is attached to these financial statements, except for E. I. DuPont de Nemours & Company Common Stock and Daimler Chrysler AG Common Stock. These options are no longer available to Plan participants.

Vesting

Plan participants become 100% vested upon completion of three cumulative years of service. Participants are always 100% vested in their deposits and in the earnings on both their deposits and the Company's contributions.

Participant Loans

Participants may borrow up to one-half of their nonforfeitable account balances subject to certain minimum and maximum loan limitations. Such loans are repayable over periods of 12 to 60 months (120 months maximum if for the purchase of a principal residence) and bear an interest rate equal to the average rate charged by selected major banks for secured personal loans. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Participants who retire from active service may elect to make withdrawals until April 1 of the calendar year following the year in which the participant attains age 70-1/2. They may also elect an option to have their account distributed over a period of not less than two years or more

Edgar Filing: CONSOL ENERGY INC - Form 11-K

than a period which would pay the account balance during the employee's actuarial life in either a fixed or variable amount. Before-tax deposits may be withdrawn only in the event of an employee's retirement, death, termination, attainment of age 59-1/2 or defined hardship. At December 31, 2003 and 2002, approximately \$617,000 and \$749,000 was payable to withdrawing participants.

Forfeitures

Nonvested participants whose services with the Company have been terminated will forfeit their entire Company matching source. Total forfeitures were approximately \$32,000 and \$74,000 for the years ended December 31, 2003 and 2002, respectively. Forfeitures are used to reduce the employer matching contributions to the Plan.

Plan Termination

Although it has not expressed any intent to do so, CONSOL Energy has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the Stable Value Fund (Note 3). The Stable Value Fund is comprised of guaranteed investment contracts (GIC), separate account portfolios (SAP) and synthetic GICs (SYN), all of which are held with multiple insurance companies. These fully benefit responsive contracts are held for investment purposes by the Plan and are stated at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses). Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. Changes in contract value of the investment contracts are recognized in the statement of changes in net assets available for benefits as they occur. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Stable Value Fund at December 31, 2003 and 2002 was \$589,068 and \$564,590, respectively.

Investments in common stocks, common stock funds and registered investment companies are stated at fair value based on publicly quoted market prices. Investments in Common/Collective Trusts are valued at the net asset value of units held by the Plan at year end by the applicable custodian.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Gains and losses on the sale of DuPont and CONSOL Energy common stock are based on the average cost of the securities sold. The CONSOL Stock Fund, which is comprised solely of CONSOL Energy common stock, is valued at its quoted market price at year end. Participant loans are valued at cost, which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the near or long term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses of the Plan, such as trustee fees, accounting and legal fees are provided to the Plan by CONSOL Energy without cost. Other administrative expenses are borne by the Plan.

The Stable Value Fund is a nonpooled separate account held by the Plan. The investment contracts are entered into based on an evaluation of the credit risk of the contract issuers and/or third party guarantors. Collateral is generally not provided. The Stable Value Fund includes traditional guaranteed investment contracts as well as synthetic guaranteed investment contracts. A synthetic guaranteed investment contract provides for a guaranteed return on principal over a specified period of time through the use of underlying assets and a benefit responsive wrapper contract issued by a third party. Included in the contract value of synthetic guaranteed investment contracts is approximately (\$21.7 million) at December 31, 2003 attributable to wrapper contract providers representing the amounts by which the value of contracts is less than the value of the underlying assets.

The composition of assets of the Stable Value Fund as of December 31, 2003 and 2002 are as follows:

	<u>2003</u>	<u>2002</u>
<i>(in thousands of dollars)</i>		
Investment contracts	\$ 551,652	\$ 519,267
Short-term investments	6,598	7,423
	<u>\$ 558,250</u>	<u>\$ 526,690</u>

The composition of changes in net assets of the Stable Value Fund for the year ended December 31, 2003 is as follows:

<i>(in thousands of dollars)</i>	
Employer contributions	\$ 7,453
Participant contributions and rollovers	30,504
	<u>37,957</u>

Edgar Filing: CONSOL ENERGY INC - Form 11-K

The aggregate crediting rates for all contracts as of December 31, 2003 and 2002 were 5.36% and 5.88%, respectively. The crediting rates for SAP and SYN contracts are reset annually and are based on the market value of the underlying portfolio of assets backing these contracts. Inputs used to determine the crediting rate include each contract's portfolio market value, current yield-to-maturity, duration (i.e., weighted average life), and market value relative to contract value. The average yield of the Stable Value Fund was approximately 5.53% and 6.07% in 2003 and 2002, respectively.

Participants investing in the Stable Value Fund, or Common Collective Trusts are assigned units at the time of investment based on the net asset value per unit.

4. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 17, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

5. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2003 and 2002 to Form 5500:

<i>(in thousands of dollars)</i>	2003	2002
Net assets available for benefits per the financial statements	\$ 967,012	\$ 897,907
Amounts allocated to withdrawing participants	(617)	(749)
Net assets available for benefits per the Form 5500	\$ 966,395	\$ 897,158

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2003, to Form 5500:

<i>(in thousands of dollars)</i>	
Benefits paid to participants per the financial statements	\$ 83,211

6. Transactions with Parties-in-Interest

Plan investments include collective investment funds managed by Merrill Lynch. Merrill Lynch is the trustee as defined by the Plan and, therefore, these transactions qualify as those conducted with a party-in-interest to the Plan.

One of the investment vehicles available to employees, the CONSOL Stock Fund, contains stock of CONSOL Energy. The Plan held 1,643,532 shares and 2,288,668 shares of CONSOL Energy's common stock at December 31, 2003 and 2002, respectively.
