**Supplemental disclosure of noncash investing and financing activities:**

During 2006, we issued approximately 24.0 million shares upon the conversion of approximately 7.4 million Convertible Subordinated Debentures valued at approximately \$368 million. Through year-to-date September 8, 2006 and September 9, 2005, we also issued approximately .8 million and 1.0 million shares, respectively, upon the conversion of operating partnership units of Host Hotels & Resorts, L.P. held by minority partners valued at approximately \$16 million and \$16 million, respectively.

On September 1, 2006, we acquired the Westin Kierland Resort & Spa in Scottsdale, Arizona for approximately \$393 million, including the assumption of \$135 million of mortgage debt with a fair value of \$133 million.

On May 2, 2006, we contributed the Sheraton Warsaw Hotel & Towers, which we acquired on April 10, 2006 for approximately \$59 million, along with cash to the European joint venture in exchange for a 32.1% general and limited partnership interest. See Note 6 for additional information.

On April 10, 2006, we acquired 28 hotels from Starwood Hotels & Resorts Worldwide, Inc. ( Starwood ) for a purchase price of approximately \$3.1 billion. The total consideration included the issuance of \$2.27 billion in equity (133.5 million shares of our common stock) and the assumption of \$77 million of mortgage debt, which had a fair value of \$86 million on April 10, 2006.

On January 6, 2005, we sold the Hartford Marriott at Farmington for approximately \$25 million, including the assumption of approximately \$20 million of mortgage debt by the buyer.

On January 3, 2005, we transferred \$47 million of preferred units of Vornado Realty Trust, which we had purchased on December 30, 2004, in redemption of a minority partner's interest in a consolidated partnership.

See notes to condensed consolidated statements.

**Table of Contents**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**1. Organization**

On April 17, 2006, the Company changed its name from Host Marriott Corporation to Host Hotels & Resorts, Inc., or Host, a Maryland corporation, operating through an umbrella partnership structure. We are the owner of hotel properties. We operate as a self-managed and self-administered real estate investment trust, or REIT, with our operations conducted solely through an operating partnership, Host Hotels & Resorts, L.P. (formerly, Host Marriott, L.P.), or the operating partnership, or Host LP, and its subsidiaries. We are the sole general partner of the operating partnership and, as of September 8, 2006, own over 96% of the partnership interests, which are referred to as OP units.

**2. Summary of Significant Accounting Policies**

We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. generally accepted accounting principles, or GAAP, in the accompanying unaudited condensed consolidated financial statements. We believe the disclosures made are adequate to prevent the information presented from being misleading. However, the unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10 K for the year ended December 31, 2005.

In our opinion, the accompanying unaudited condensed consolidated financial statements reflect all adjustments necessary to present fairly our financial position as of September 8, 2006 and the results of our operations for the quarterly and year-to-date periods ended September 8, 2006 and September 9, 2005 and cash flows for the year-to-date periods ended September 8, 2006 and September 9, 2005. Interim results are not necessarily indicative of full year performance because of the impact of seasonal and short-term variations.

Certain prior year financial statement amounts have been reclassified to conform with the current presentation.

*Reporting Periods*

The results we report are based on results of our hotels reported to us by our hotel managers. Our hotel managers use different reporting periods. Marriott International, Inc., the manager of the majority of our properties, uses a fiscal year ending on the Friday closest to December 31 and reports twelve weeks of operations for each of the first three quarters of the year and sixteen or seventeen weeks for the fourth quarter of the year for its Marriott-managed hotels. In contrast, other managers of our hotels, such as Starwood and Hyatt, report results on a monthly basis. For results reported by hotel managers using a monthly reporting period (approximately 40% of our full-service hotels), the month of operation that ends after our fiscal quarter-end is included in our results of operations in the following fiscal quarter. Accordingly, our results of operations include results from hotel managers reporting results on a monthly basis as follows: first quarter (January, February), second quarter (March to May), third quarter (June to August), and fourth quarter (September to December). We elected to adopt the reporting period used by Marriott International modified so that our fiscal year always ends on December 31. Accordingly, our first three quarters of operations end on the same day as Marriott International but our fourth quarter ends on December 31.

*Interest of minority partners of Host Hotels & Resorts, L.P.*

We adjust the interest of the minority partners of Host LP each period to maintain a proportional relationship between the book value of equity associated with our common stockholders relative to that of the unitholders of Host LP since Host LP units may be exchanged into common stock on a one-for-one basis. Net income is allocated to the minority partners of Host LP based on their weighted average ownership percentage during the period.

**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)***Application of New Accounting Standards*

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, ( FIN 48 ). FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*. We will adopt the provisions of this statement beginning in the first quarter of 2007. The cumulative effect of applying the provisions of FIN 48 will be reported as an adjustment to the opening balance of retained earnings on January 1, 2007. We do not anticipate that the adoption of this statement will have a material effect on our financial position or results of operations.

**3. Adoption of SFAS No. 123R**

In December 2004, the FASB issued SFAS No. 123R, *Share-Based Payment* ( SFAS 123R ), which requires that the cost from share-based payment transactions be recognized in the financial statements. The statement requires the cost of employee services received in exchange for an award of equity instruments to be measured based on the fair value of the award. That cost will be recognized over the period during which an employee is required to provide services in exchange for the award, the requisite service period. No compensation cost is recognized for equity instruments for which employees do not render the requisite service. We adopted the fair value provisions of SFAS 123 in 2002 and, therefore, have recognized the costs associated with all share-based payment awards granted after January 1, 2002. Effective January 1, 2006, we instituted a new restricted stock program, which is accounted for using the provisions of SFAS 123R.

*Restricted Stock.* We award restricted stock shares to executives and certain members of senior management. The service period for the shares granted in the 2003 stock plan ended on December 31, 2005. All shares earned under the 2003 stock plan were fully vested for the year ended December 31, 2005. During the first quarter of 2006, we granted shares to be distributed over the next three years in annual installments. These stock awards are considered liability awards, and, accordingly, we reevaluate the fair value of the awards quarterly. Vesting for these shares is determined both on continued employment, as well as market performance based on the achievement of total shareholder return on an absolute and relative basis. For the shares that vest solely on continued employment, we recognize compensation expense over the requisite period based on the market price at the balance sheet date. For shares that vest based on market performance, we recognize compensation expense over the requisite service period based on the fair value of the shares at the balance sheet date, which is estimated using a simulation or Monte Carlo method. For the purpose of the simulation, we assumed a volatility of 20.4%, which is calculated based on the volatility of our stock price over the last three years, a risk-free interest rate of 4.73%, which reflects the yield on a 3-year Treasury bond, and a stock beta of 0.848 compared to the REIT composite index based on three years of historical price data. The number of shares issued is adjusted for forfeitures.

We made an additional grant of shares to executives and certain members of senior management in February 2006 ( 2006 supplemental grant ). Twenty-five percent of the awards vested immediately and were expensed during the first quarter, while the remaining 75% vest over a three-year period based on continued employment. We recognize compensation expense for the outstanding portion of this grant based on the market price at the balance sheet date. This grant, as with all our executive restricted stock awards, allows executive employees to have a percentage of the restricted stock awards withheld to meet tax requirements in excess of the statutory minimum withholding and, accordingly, they are classified as liability awards.

During the first quarter of 2006 and 2005, executives and certain members of senior management were granted a total of approximately 3.4 million and 18,000 restricted shares, respectively. We recorded compensation expense of approximately \$7.2 million and \$4.4 million during the third quarter of 2006 and

**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

2005, respectively, and \$20.0 million and \$12.8 million year-to-date 2006 and 2005, respectively, related to these awards. The total unrecognized compensation cost, based on the valuation criteria above, that relates to nonvested restricted stock awards at September 8, 2006 was approximately \$40.0 million, which, if earned, will be recognized over the weighted average of 1.9 years. Under these awards, approximately 3.3 million shares were outstanding at September 8, 2006. Our executive restricted stock awards allow executive employees to have a percentage of the restricted stock awards withheld to meet tax requirements. For the prior years' awards and the 2006 supplemental grant issued for the year-to-date periods ended September 8, 2006 and September 9, 2005, we withheld \$11.7 million and \$7.7 million, respectively, to meet these tax requirements.

We also maintain a restricted stock program for our upper-middle management. Vesting for these shares is determined based on continued employment and, accordingly, we recognize compensation expense ratably over the service period. These stock awards are considered equity awards, and accordingly, compensation costs related to the awards are measured based on the fair market value as of the grant date. During 2006 and 2005, approximately 78,000 shares and 88,000 shares were granted, respectively. During 2006 and 2005, approximately 134,000 upper middle-management shares were issued, which includes the issuance of shares granted in 2004, 2005 and 2006. Additionally, during 2006 and 2005, a total of approximately 10,000 were forfeited. At the end of the third quarter of 2006, approximately 70,000 remain unvested. The weighted average grant date fair value of the unvested shares is \$18.27. Approximately 47,000 of these shares will vest during 2006. We recorded approximately \$.3 million during both the third quarter of 2006 and 2005, respectively, and \$1.0 million and \$.9 million year-to-date 2006 and 2005, respectively, of compensation expense related to these shares. The total unrecognized compensation cost, measured on the grant date, that relates to nonvested restricted stock awards at September 8, 2006 was approximately \$.7 million, which, if earned, will be recognized over the weighted average remaining service period of .9 years.

*Employee Stock Purchase Plan.* Under the terms of the employee stock purchase plan, eligible employees may purchase common stock through payroll deductions at 90% of the lower of market value at the beginning or end of the plan year, which runs from February 1 through January 31. We record compensation expense for the employee stock purchase plan based on the fair value of the employees' purchase rights on the grant date, which is estimated using an option-pricing model with the following assumptions for the 2006 and 2005 plan years: Risk-free interest rate of 4.7% and 4.3%, respectively, volatility of 33% and expected life of one year for all periods. We assume a dividend yield of 0% for these grants, as no dividends are accrued during the one year vesting period. Approximately 14,000 shares were issued in both year-to-date 2006 and 2005. The weighted average fair value of the shares granted was \$4.73 and \$4.27 for 2006 and 2005, respectively. The compensation expense was not material for the periods presented.

*Employee Stock Options.* Effective January 1, 2002, we adopted the expense recognition provisions of SFAS 123 for employee stock options granted on or after January 1, 2002 only. We did not grant any stock options after December 2002. Options granted prior to 2002 were fully vested as of December 31, 2005. Options granted during 2002 will be fully vested during 2006.

The fair value of the 2002 stock options was estimated on the date of grant using an option-pricing model. Compensation expense for the stock options is recognized on a straight-line basis over the vesting period. The weighted average fair value per option granted during 2002 was \$1.41. We recorded compensation expense of approximately \$53,000 and \$58,000 for the third quarter of 2006 and 2005, respectively, and \$159,000 and \$169,000 for year-to-date 2006 and 2005, respectively. The aggregate intrinsic values of the outstanding and exercisable options at September 8, 2006 were approximately \$15 million and \$13 million, respectively.

**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

The following table is a summary of the status of our stock option plans for the year-to-date September 8, 2006 and year ended December 31, 2005.

	September 8, 2006		December 31, 2005	
	Shares (in millions)	Weighted Average Exercise Price	Shares (in millions)	Weighted Average Exercise Price
Beginning balance	1.4	\$ 6	2.6	\$ 6
Granted				
Exercised	(.5)	6	(1.1)	6
Forfeited/expired			(.1)	6
Ending balance	.9	6	1.4	6
Options exercisable	.8		1.2	

The following table summarizes information about stock options at September 8, 2006:

Range of Exercise Prices	Options Outstanding			Options Exercisable	
	Shares (in millions)	Remaining Contractual Life	Weighted Average Exercise Price	Shares (in millions)	Weighted Average Exercise Price
\$ 1 - 3	.4	1	\$ 3	.4	\$ 3
4 - 6	.1	2	6	.1	6
7 - 9	.4	10	8	.3	8
10 - 12		9	11		11
13 - 19		6	18		18
	.9			.8	

*Deferred Stock.* We discontinued issuing deferred stock in 2003 to employees. Prior to that time, deferred stock granted generally vested over 10 years in annual installments commencing one year after the date of grant. Certain employees may elect to defer payments until termination or retirement. We accrue compensation expense on a straight-line basis over the vesting period for the fair market value of the shares on the date of grant, less estimated forfeitures. As of September 8, 2006, approximately 1.0 million shares, valued at approximately \$5 million based on the grant date fair value, are outstanding. Approximately .8 million of these shares are vested as of September 8, 2006. The compensation cost related to deferred stock was not material for all periods presented. The implementation of SFAS 123R did not affect the calculation of compensation expense for the deferred stock.

**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****4. Earnings per Common Share**

Basic earnings per common share is computed by dividing net income available to common stockholders by the weighted average number of shares of common stock outstanding. Diluted earnings per common share is computed by dividing net income available to common stockholders as adjusted for potentially dilutive securities, by the weighted average number of shares of common stock outstanding plus potentially dilutive securities. Dilutive securities may include shares granted under comprehensive stock plans, preferred OP units held by minority partners, convertible debt securities and other minority interests that have the option to convert their interests to common OP units. No effect is shown for securities that are anti-dilutive.

	\$ 10,685	\$ 7,434

**6. Investment in Affiliates**

In connection with the Starwood acquisition, we entered into an Agreement of Limited Partnership on March 24, 2006, forming a joint venture in The Netherlands with Stichting Pensioenfond ABP, the Dutch pension fund ( ABP ), and Jasmine Hotels Pte Ltd, an affiliate of GIC Real Estate Pte Ltd ( GIC RE ), the real estate investment company of the Government of Singapore Investment Corporation Pte Ltd (GIC). The purpose of the joint venture is the acquisition and ownership of hotels located in Europe.

The joint venture has total assets of approximately 952 million, and total capital of approximately 325 million, of which approximately 103 million, or \$130 million, was contributed by us in the form of cash and through the contribution of the Sheraton Warsaw Hotel & Towers in Warsaw, Poland, which we acquired on April 10, 2006. Through newly-formed Dutch BVs (private companies with limited liability), Host LP is a limited partner (together with ABP and GIC RE, the Limited Partners ) and serves as the general partner. The percentage interests of the parties are 19.9% for ABP, 48% for GIC RE and 32.1% for Host LP (including its limited and general partner interests).

In addition to our contribution of the Sheraton Warsaw Hotel & Towers, the joint venture acquired from Starwood the following four hotels: the Sheraton Roma Hotel & Conference Center, Rome, Italy; The Westin Palace, Madrid, Spain; the Sheraton Skyline Hotel & Conference Centre, Hayes, United Kingdom; and The Westin Palace, Milan, Italy, on May 3, 2006. The joint venture subsequently acquired The Westin Europa & Regina, Venice, Italy, on June 13, 2006.

On August 4, 2006, the joint venture purchased the Hotel Arts Barcelona for approximately 417 million (\$537 million), including the assumption of approximately 277 million (\$357 million) of mortgage debt with an interest rate of approximately 5%. The 483-room Ritz-Carlton managed hotel is located in Barcelona, Spain. The joint venture agreement was amended to increase the overall investment commitment levels from the partners to accommodate this acquisition, and, therefore, we contributed an additional 46 million (\$58 million) to the joint venture during the third quarter of 2006.

The partners are finalizing an additional amendment to further expand the joint venture. Under the contemplated agreement, the partners would increase the aggregate size of the joint venture to approximately 533 million of equity (of which approximately 171 million would be contributed by Host LP) and, after giving effect to indebtedness the joint venture would be expected to incur, aggregate funds available for investment are expected to approximate 1.5 billion. In connection with the expanded joint venture, subject to certain exceptions, the partners would agree that they would not make investments that are consistent with the joint venture's investment parameters for a period of two years

Edgar Filing: HOST HOTELS & RESORTS, INC. - Form 10-Q

(three years in the case of Host), or until at least 90% of the joint venture's committed capital is called or reserved for use prior to such date.

---

**Table of Contents**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

Pursuant to the agreements, distributions to partners will be made on a pro-rata basis (based on their partnership interests) until certain return thresholds are met. As those thresholds are met, our general partnership interest will receive an increasing percentage of the distributions. An affiliate of Host LP has entered into an asset management agreement with the joint venture to provide asset management services in return for a quarterly asset management fee. Host LP or its affiliates will be responsible for paying certain expenses related to asset management, including all salaries and employee benefits of employees and related overhead, including rent, utilities, office equipment, necessary administrative and clerical functions and other similar overhead expenses. The initial term of the joint venture is ten years subject to two one-year extensions with partner approval. Due to the ownership structure of the joint venture described above and the non-Host limited partners' rights to cause the dissolution and liquidation of the joint venture at any time, the joint venture is not consolidated in our financial statements.

**7. Debt**

In July 2006, our \$800 million 6<sup>3</sup>/<sub>4</sub>% Series P senior notes were exchanged for \$800 million 6<sup>3</sup>/<sub>4</sub>% Series Q senior notes. The terms of the Series Q senior notes are substantially identical to the terms of the Series P notes, except that the Series Q senior notes are registered under the Securities Act of 1933 and are, therefore, freely transferable.

*Exchangeable Senior Debentures.* During 2004, we issued \$500 million of 3.25% Exchangeable Senior Debentures which currently are exchangeable into shares of Host's common stock at an exchange rate of 56.97 shares for each \$1,000 of principal amount of the debentures, or a total of approximately 28 million shares, which is equivalent to an exchange price of \$17.55 per share of our common stock. The exchange rate is adjusted for certain circumstances, including the payment of common dividends. Holders may exchange their Exchangeable Senior Debentures prior to maturity under certain conditions, including at any time at which the closing sale price of our common stock is more than 120% of the exchange price per share for at least 20 of 30 trading days during certain periods.

As of September 25, 2006, holders of the debentures may exchange their debentures for Host common stock as the closing price for Host common stock exceeded 120% of the exchange price for 20 out of the 30 trading days during the period ending on September 25, 2006 (the first day of the current exchange period). The debentures will remain exchangeable until January 16, 2007 (the last day of the current exchange period). The debentures will remain exchangeable after January 16, 2007, if the trading price of Host common stock continues to exceed 120% of the exchange price for 20 out of the 30 trading days during the period ending on January 17, 2007, or if other conditions for exchange are satisfied.

**8. Dividends**

On September 15, 2006, our Board of Directors declared a cash dividend of \$0.20 per share on our common stock. The dividend will be paid on October 16, 2006 to stockholders of record as of September 30, 2006.

On September 15, 2006, our Board of Directors declared a cash dividend of \$0.5546875 per share on our Class E preferred stock. The dividend will be paid on October 16, 2006 to preferred stockholders of record as of September 30, 2006.

**9. Geographic Information**

We consider each one of our full-service hotels to be an operating segment, none of which meets the threshold for a reportable segment. We also allocate resources and assess operating performance based on individual hotels. All of our non-full-service hotel activities (primarily our limited-service leased hotels and office buildings) are immaterial. Accordingly, we report one business segment, hotel ownership. As of September 8, 2006, our foreign operations consist of four properties located in Canada, two properties located in Chile and one property located in Mexico. There were no intercompany sales between our domestic

**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

properties and our foreign properties. The following table presents revenues for each of the geographical areas in which we operate:

	Quarter ended		Year-to-date ended	
	September 8, 2006	September 9, 2005	September 8, 2006	September 9, 2005
	(in millions)			
United States	\$ 1,102	\$ 785	\$ 3,095	\$ 2,479
Canada	23	20	70	60
Chile	4		7	
Mexico	6	6	17	15
<b>Total revenue</b>	<b>\$ 1,135</b>	<b>\$ 811</b>	<b>\$ 3,189</b>	<b>\$ 2,554</b>

**10. Comprehensive Income**

Our other comprehensive income consists of unrealized gains and losses on foreign currency translation adjustments and the receipt of cash from HMS Host Corporation, or HM Services, subsequent to the exercise of the options held by certain former and current employees of Marriott International, pursuant to our distribution agreement with HM Services.

	Quarter ended		Year-to-date ended	
	September 8, 2006	September 9, 2005	September 8, 2006	September 9, 2005
	(in millions)			
Net income (loss)	\$ 40	\$ (5)	\$ 542	\$ 92
Other comprehensive income	(4)	4	2	4
<b>Comprehensive income</b>	<b>\$ 36</b>	<b>\$ (1)</b>	<b>\$ 544</b>	<b>\$ 96</b>

**11. Dispositions**

*Dispositions.* We sold six hotels during the first three quarters of 2006 for a total sales price of approximately \$720 million. On August 21, 2006, we entered into a definitive binding agreement to sell the Mountain Shadows Resort and Golf Club. Accordingly, we classified the hotel as held-for-sale as of September 8, 2006. The following table summarizes the revenues, income before taxes, and the gain on dispositions, net of tax, of the hotels which have been reclassified to discontinued operations in the consolidated statements of operations for the periods presented:

	Quarter ended		Year-to-date ended	
	September 8, 2006	September 9, 2005	September 8, 2006	September 9, 2005
	(in millions)			
Revenues	\$ 3	\$ 32	\$ 26	\$ 101
Income before taxes	2	3	4	12
Gain on dispositions, net of tax	5		390	12

**12. Starwood Acquisition**

On April 10, 2006, we acquired 25 domestic hotels and three foreign hotels from Starwood Hotels & Resorts Worldwide, Inc., or Starwood, through a series of transactions, including the merger of Starwood Hotels & Resorts, a Maryland real estate investment trust, or Starwood Trust, with and into a subsidiary of Host, the acquisition of the capital stock of Sheraton Holding Corporation and the acquisition of four domestic hotels in a purchase structured to allow Host's subsidiaries to complete like-kind exchange transactions for federal income tax purposes. These transactions were completed pursuant to the Master Agreement and Plan

**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

of Merger, dated as of November 14, 2005, and amended as of March 24, 2006, (the Master Agreement ) among Host, Host LP, Starwood, Starwood Trust and certain of their respective affiliates. A joint venture in Europe, in which we own a 32.1% general and limited partner interest, acquired four European hotels on May 3, 2006 and one European hotel on June 13, 2006. We contributed the Sheraton Warsaw Hotel & Towers, which we acquired in the Starwood transaction on April 10, 2006, and cash to the joint venture on May 2, 2006. For more information on the joint venture, see Note 6. Starwood and Host have agreed that Starwood will retain the two Fijian hotels included in the Merger Agreement. The contract purchase price of these assets totaled \$129 million, including \$31 million of debt.

For the 28 hotels included in the initial closing, the total consideration paid by Host to Starwood and its shareholders included the issuance of \$2.27 billion of equity (133,529,412 shares of Host common stock) to Starwood stockholders, the assumption of \$77 million in debt and the cash payment of approximately \$748 million, which includes closing costs. An exchange price of Host common stock of \$16.97 per share was calculated based on guidance set forth in Emerging Issues Task Force Issue No. 99-12, as the average of the closing prices of Host common stock during the range of trading days from two days before and after the November 14, 2005 announcement date.

The purchase price of the acquired assets and liabilities has been initially recorded based on our estimates of fair value. Property and equipment has been recorded on a stepped-up basis from historical costs and the fair value of assumed debt has been based on expected future debt service payments discounted at risk-adjusted rates. Other assets and liabilities are recorded at historical costs, which is believed to be equivalent to fair value. While the purchase price has been allocated among individual hotels, we are still in the process of evaluating the fair value of the allocation of the purchase price among each individual hotel's assets and liabilities, including land, property and equipment items, other assets and liabilities, and assumed agreements, including ground and retail space leases and other intangible assets. We are in the process of obtaining third-party valuations of certain assets and we expect to finalize the allocations by the end of the year. Accordingly, the purchase price allocations may be subject to refinement. The operating results of each of the consolidated acquired hotels are included in our statement of operations from the date acquired.

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed in the Starwood transaction, less the Sheraton Warsaw Hotel & Towers, which was contributed to the European joint venture on May 2, 2006 (in millions):

Property and equipment, net	\$ 3,055
Other assets	8
<b>Total assets</b>	<b>3,063</b>
Debt (a)	(326)
Other liabilities	(18)
<b>Net assets acquired</b>	<b>\$ 2,719</b>

- (a) For purposes of the preparation of the Starwood transaction assets and liabilities and the pro forma financial information below, we assumed that \$240 million of the proceeds from the issuance of the Series P senior notes (see Note 7) were used to fund a portion of the acquisition. In addition, we assumed \$77 million of mortgage debt from Starwood with a fair value of \$86 million in the transaction.

**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)**

Our summarized unaudited consolidated pro forma results of operations, assuming the Starwood acquisition occurred on January 1, 2005, are as follows (in millions, except per share amounts):

	Quarter ended		Year-to-date ended	
	September 8, 2006	September 9, 2005	September 8, 2006	September 9, 2005
Revenues	\$ 1,135	\$ 1,040	\$ 3,437	\$ 3,142
Income from continuing operations	34	21	152	122
Net income	40	24	546	146
Net income available to common shareholders	38	18	528	121
Basic earnings per common share:				
Continuing operations	\$ .06	\$ .03	\$ .26	\$ .20
Discontinued operations	.01	.01	.76	.05
Basic earnings per common share	\$ .07	\$ .04	\$ 1.02	\$ .25
Diluted earnings per common share:				
Continuing operations	\$ .06	\$ .03	\$ .26	\$ .20
Discontinued operations	.01	.01	.76	.05
Diluted earnings per common share	\$ .07	\$ .04	\$ 1.02	\$ .25

**13. Acquisitions**

On September 1, 2006, we purchased The Westin Kierland Resort & Spa in Scottsdale, Arizona for approximately \$393 million, which includes the assumption of \$135 million of mortgage debt with a fair value of \$133 million at the date of acquisition and an interest rate of 5.08%. The 732-room resort includes a 27-hole golf course and a full-service spa.

**14. Subsequent Event**

On September 15, 2006, we executed an agreement to sell The Ritz-Carlton, Atlanta for proceeds of approximately \$80 million. The sale closed on September 22, 2006 and we will recognize a gain of approximately \$26 million in the fourth quarter.

---

### **Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition**

The following discussion and analysis should be read in conjunction with the condensed consolidated financial statements and related notes included elsewhere in this report. Host Hotels & Resorts, Inc. (formerly, Host Marriott Corporation), is a Maryland corporation and operates as a self-managed and self-administered real estate investment trust, or REIT. Host Hotels & Resorts, Inc. owns properties and conducts operations through Host Hotels & Resorts, L.P. (formerly, Host Marriott, L.P.), a Delaware limited partnership of which Host Hotels & Resorts, Inc. is the sole general partner and in which it holds over 96% of the partnership interests on October 10, 2006. In this report, we use the terms we or our to refer to Host Hotels & Resorts, Inc. and Host Hotels & Resorts, L.P. together, unless the context indicates otherwise. We also use the term Host to specifically refer to Host Hotels & Resorts, Inc. and the terms operating partnership or Host LP to refer to Host Hotels & Resorts, L.P. in cases where it is important to distinguish between Host and Host LP.

#### **Forward-Looking Statements**

In this report on Form 10-Q, we make some forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are identified by their use of terms and phrases such as anticipate, believe, could, expect, may, intend, predict, project, plan, will, estimate and other similar terms and phrases. Forward-looking statements are based on management's current expectations and assumptions and are not guarantees of future performance that involve known and unknown risks, uncertainties and other factors which may cause our actual results to differ materially from those anticipated at the time the forward-looking statements are made. These risks and uncertainties include those risk factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2005 and in other filings with the Securities and Exchange Commission (SEC). Although we believe the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that we will attain these expectations or that any deviations will not be material. Except as otherwise required by the federal securities laws, we disclaim any obligations or undertaking to publicly release updates to any forward-looking statement contained in this report to conform the statement to actual results or changes in our expectations.

#### **Recent Events**

*Acquisitions.* On September 1, 2006, we purchased The Westin Kierland Resort & Spa in Scottsdale, Arizona for approximately \$393 million, which includes the assumption of \$135 million of mortgage debt with a fair value of \$133 million at the date of acquisition and an interest rate of 5.08%. The 732-room resort, which opened in November 2002, is situated on 252 acres of fee simple property and includes a 27-hole golf course, a full-service spa and approximately five acres of undeveloped land.

On August 4, 2006, a joint venture based in Europe, in which we hold a 32.1% interest, purchased the Hotel Arts Barcelona for approximately \$417 million (\$537 million), including the assumption of approximately \$277 million (\$357 million) of mortgage debt with an interest rate of approximately 5%. The 483-room Ritz-Carlton managed hotel is located in Barcelona, Spain. The joint venture agreement was amended to increase the overall investment commitment levels from the partners to accommodate this acquisition, and therefore, we contributed an additional \$46 million (\$58 million) to the joint venture during July 2006 for the acquisition of this hotel.

*Dispositions.* On September 8, 2006, we sold the Detroit Marriott Livonia for total proceeds of \$21 million and we recognized a gain of \$5 million in the third quarter. Additionally, on September 22, 2006, we sold The Ritz-Carlton, Atlanta for proceeds of approximately \$80 million and will record a gain of approximately \$26 million in the fourth quarter.

#### **Overview**

As of October 10, 2006, we own 128 full-service hotel properties, which operate primarily in the luxury and upper upscale hotel sectors. For a general overview of our business and a discussion of our reporting periods, see our most recent Annual Report on Form 10-K.

In the third quarter of 2006, RevPAR for our comparable hotels increased 9.1% over the same period last year. RevPAR is defined as the product of the average of the daily room rates charged and the average daily occupancy

---

**Table of Contents**

achieved and is generally considered a key performance indicator for hotels. Improvements in RevPAR at our comparable hotels for the third quarter of 2006 were driven by a 10.5% increase in average room rate, which was slightly offset by a decrease in occupancy of 1.0 percentage points. The decrease in occupancy is the result of (i) yield management (as discussed further below); (ii) weakness in individual markets; and (iii) temporary disruption to certain properties due to our capital expenditure program. Yield management by our operators resulted in a shift in the mix of business from lower-rated discount business to higher-rated business and resulted in fewer occupied rooms. The overall increase in RevPAR is a result of a number of positive trends such as United States GDP growth, growth in business investment and corporate profits, and low supply growth of new luxury and upper upscale hotels, particularly in the markets for our comparable hotels. As a result of these trends, we expect comparable hotel RevPAR to increase approximately 7.0% to 8.0% for the fourth quarter and 8.0% to 8.75% for full year 2006. We expect these trends to continue in 2007 and, as a result, comparable hotel RevPAR to increase an additional 6% to 8% over full year 2006.

For the 27 recently acquired Starwood hotels that we consolidate, which are not included in our comparable hotel results, RevPAR increased 8.3% and 10.5% for the third quarter and year-to-date, respectively, when compared to the same period of 2005.

Although strong industry performance has begun to increase the pace of new hotel construction, the majority of new projects scheduled for completion in the near-term are concentrated in the limited service segments and outside of major urban markets. Supply growth in the industry has also been restrained by construction cost increases. We believe, based on a review of forecast supply growth in the specific geographic markets where we have hotels, that the near-term increase in the supply of hotel rooms that potentially are competitive with our hotels will be meaningfully lower than the industry-wide growth.

We assess profitability by measuring changes in our operating margins, which are calculated as operating profit as a percentage of total revenues. Operating margins continued to improve during the third quarter, as average room rate increases at our hotels exceeded the rate of inflation, which is a trend we expect to continue. Operating margins continue to be affected, however, by certain costs, primarily insurance, wages and benefits and utilities, which increased at a rate greater than inflation, a trend that we expect to continue in the near term. Labor costs will likely be affected by union negotiations being held in various cities with the operators of our properties. The outcome of these negotiations is difficult to predict, though we anticipate some increase in costs. As a result of the large-scale devastation due to hurricanes in 2005, we expect insurance costs, which reflect approximately 1% of our expenses, to increase by approximately 40% and utility costs, which represent approximately 5% of our expenses, to increase by approximately 10% in 2006.

Operating margins are also affected by our food and beverage operations, which historically represent approximately 30% of our revenues. During the third quarter and year-to-date 2006, food and beverage revenue at our comparable hotels increased 5.4% and 7.0%, respectively, with an increase in food and beverage margins of 1.2 percentage points and 1.9 percentage points, respectively. We expect food and beverage revenue to continue to increase, which should contribute to continued growth in our operating margins.

We also expect to see improvements in RevPAR and operating margins as we continue our strategy of recycling assets. Over the past three years, we have acquired luxury and upper upscale properties in urban and resort/convention destinations, where further large-scale lodging development typically is limited, and have generally disposed of individual assets in suburban and secondary markets. The assets we have acquired have higher RevPAR, higher margins and, we believe, higher growth potential than those we have sold. Over time, our capital recycling efforts should contribute to improvements in overall RevPAR and margins, as well as an increase in the average per room replacement cost of our portfolio. In addition to the recycling of assets, we may also dispose of core assets when we have the opportunity to capitalize on the inherent real estate value of our properties and apply the proceeds to other business objectives. Examples of these types of dispositions are the sales of the Swissôtel, The Drake, New York and the Fort Lauderdale Marina Marriott for a total of approximately \$586 million in 2006, which resulted in a significant gain of \$346 million. We used the proceeds from these dispositions to finance a portion of the Starwood acquisition.

We also are continuing our capital expenditure plan at many of our properties, which we believe will enhance their competitive market position and improve their operating performance. In the near-term, some properties have experienced temporary business disruption as rooms, common areas and meeting spaces are renovated. We expect to see improvements in the operations of our hotels as we complete the significant repositioning/return on investment projects within our existing portfolio. Thus far during 2006, we have spent approximately \$148 million on these

**Table of Contents**

types of projects, and we expect to spend a total of \$245 million to \$255 million on these projects for the full-year 2006. These projects have historically generated strong returns and, over the next several years, we expect to spend several hundred million dollars on such investments.

While we believe the positive trends in the lodging industry, discussed here and in our Annual Report on Form 10 K, create the opportunity for business improvements during the remainder of 2006 and 2007, there can be no assurances that any increases in hotel revenues or earnings at our properties will continue for any number of reasons, including, but not limited to, slower than anticipated growth in the economy and changes in travel patterns.

**Results of Operations**

The following table reflects certain line items from our statements of operations and other significant operating statistics (in millions, except operating statistics and percentages):

	Quarter ended		% Increase (Decrease)

**Table of Contents**

**2006 Compared to 2005**

*Hotel Sales Overview.* Hotel sales increased \$323 million, or 40.9%, to \$1.1 billion for the third quarter of 2006 and increased \$632 million, or 25.5%, to \$3.1 billion year-to-date. Third quarter and year-to-date 2006 hotel sales include \$242 million and \$396 million of sales from the hotels purchased on April 10, 2006 in the Starwood transaction. Hotel sales exclude the properties we have sold in 2006 or classified as held-for-sale as of September 8, 2006 and the properties sold in 2005. Sales for properties sold in 2006, classified as held-for-sale as of September 8, 2006 or sold in 2005 have been reclassified as discontinued operations. See *Discontinued Operations* below.

We discuss operating results for our full-service hotels on a comparable basis. Comparable hotels are those properties that we have owned for the entirety of the reporting periods being compared. Comparable hotels do not include the results of properties acquired (including the Starwood portfolio) or sold, or that incurred significant property damage and business interruption or large scale capital improvements during these periods. As of September 8, 2006, 96 of our 129 full-service hotels have been classified as comparable hotels. The following discussion is of the sales results of our comparable hotels considering property type (i.e. urban, suburban, resort/convention or airport) and geographic region. See *Comparable Hotel Operating Statistics* for a complete description of our comparable hotels and further detail on these classifications. We also discuss the sales results of our hotels considering the mix of business (i.e. transient, group or contract).

Comparable hotel sales increased 7.6% to \$833 million, for the quarter and 7.8% to \$2.6 billion year-to-date compared to last year. The growth in revenue reflects the increase in comparable RevPAR of 9.1% for the third quarter of 2006, as a result of an increase in average room rates of 10.5%, which was slightly offset by a decrease in occupancy of 1.0 percentage point. The year-to-date revenue growth reflects the increase in comparable RevPAR of 8.9%, as a result of an increase in average room rates of 9.1% and a decrease in occupancy of .2 percentage points. Food and beverage revenues for our comparable hotels increased 5.4% for the quarter and 7.0% year-to-date, primarily due to an increase in catering and outlet revenues.

*Customer Mix.* Our hotel customers consist of three broad groups: transient, group and contract business. Transient demand broadly represents individual business or leisure travelers. Group demand represents clusters of guestrooms booked together, usually with a minimum of 10 rooms. Contract demand refers to blocks of rooms sold to a specific company for an extended period of time at significantly discounted rates. Contract rates are usually utilized by hotels that are located in markets that are experiencing consistently low levels of demand. Similar to the majority of the lodging industry, we further categorize business within these groups based on characteristics they have in common. For further detail on these groups, see our annual report on Form 10 K.

In the third quarter of 2006, our operators were able to significantly increase average daily room rates as a result of continued mix shift away from lower-rated discount and contract business in favor of higher-rated corporate transient and corporate and association group business. For our domestic full-service Marriott, Ritz-Carlton and Hyatt hotels, transient average room rate increased approximately 12% and 10.5% for the quarter and year-to-date, respectively.

Our group booking pace remains strong for the fourth quarter and 2007. We expect that average group rates will increase in future periods as a greater percentage of business will consist of higher-rated groups that were booked in more recent periods.

*Comparable Hotel Sales by Property Type.* For the third quarter of 2006, revenues increased across all of our hotel property types. Our urban hotels had the strongest quarter, with RevPAR growth of 12.4%, as we benefited from strong performance in several of our downtown markets such as Chicago, New York and Philadelphia. Year-to-date, RevPAR has increased 10.0% at our urban hotels. RevPAR growth at our resort/convention hotels increased 7.4% for the quarter and year-to-date, which was driven by the RevPAR increases at our Orlando and Naples resort/convention hotels. Our suburban hotels lagged the portfolio during the quarter as comparable hotel RevPAR increased 4.7% and 8.5% for the third quarter and year-to-date, respectively, which reflected an average room rate increase of 8.5% for the quarter and a 2.5 percentage point decrease in average occupancy. Our airport hotels experienced comparable hotel RevPAR increases of 3.4% and 6.9% for the quarter and year-to-date, respectively, which reflected an average room rate increase of 10.1% and 10.4% for the quarter and year-to-date, respectively. The increases in rate were offset by decreases in occupancy of 4.8 percentage points and 2.4 percentage points for the quarter and year-to-date, respectively, for our airport hotels due in part to renovations of our two large San Francisco airport hotels, which limited our meeting space supply.

## Table of Contents

*Comparable Hotel Sales by Geographic Region.* During the third quarter, the majority of our geographic regions experienced strong growth in comparable hotel RevPAR with the New England, Atlanta, Mountain, North Central and Mid-Atlantic regions all experiencing double-digit comparable hotel RevPAR growth. Year-to-date, comparable hotel RevPAR increased in all of our geographic regions.

Our New England region was the top performing region for the quarter with a comparable hotel RevPAR increase of 18.5% during the quarter and 20.1% year-to-date. In particular, our downtown Boston hotels continued to benefit from to very strong group demand as comparable hotel RevPAR increased 19.8% for the quarter and 21.5% year-to-date due.

Comparable hotel RevPAR for our Atlanta region increased 16.4% for the quarter and 18.2% year-to-date which was driven by increases in room rates of 13.4% for the quarter and 12.0% year-to-date. The region has benefited from in-house group and strong transient demand. We do not expect this level of RevPAR improvement for the fourth quarter as Atlanta was a significant beneficiary of the disruption created by hurricanes in the fourth quarter of 2005.

The North Central region of our portfolio experienced increases in comparable hotel RevPAR of 13.2% for the quarter and 16.0% year-to-date as the average room rate increased 11.4% and 8.3%, respectively, and the average occupancy increased 1.3 and 4.8 percentage points, respectively. The improvement was the result of strong growth across all segments of demand, especially group demand at our six hotels in the Chicago market, which are benefiting from a 50% increase in the number of city-wide events in 2006.

Comparable hotel RevPAR for our Mid-Atlantic region increased 12.6% for the quarter and 10.4% year-to-date, which was driven by comparable hotel RevPAR growth of 15.0% and 14.1% for the quarter and year-to-date, respectively, at our New York City hotels due to strong transient demand. Our Philadelphia hotels in the region also had a strong quarter as comparable hotel RevPAR increased 11.0% due primarily to an increase in average occupancy of 6.5 percentage points.

Our Mountain region experienced a comparable hotel RevPAR increase of 11.8% for the quarter and 11.4% year-to-date. The region was led by our Denver market, which experienced an increase in comparable hotel RevPAR of 12.3% for the quarter and 12.2% year-to-date due to better transient demand, and the Phoenix market, which benefited from stronger group demand when compared to prior year.

Our Florida region experienced moderate improvements of 6.9% in the third quarter and year-to-date, as strong group bookings and improved transient demand at several of our resorts and at our Marriott Orlando World Center hotel were offset by a comparable hotel RevPAR decline of 3.2 percent for the quarter at our Miami/Ft. Lauderdale hotels due to the impact of Hurricane Ernesto and other general hurricane concerns. Year-to-date, comparable hotel RevPAR at our Miami/Ft. Lauderdale hotels increased 5.8%.

For the quarter, comparable hotel RevPAR in the DC region did not change from prior year levels, and increased only 0.7% year-to-date. The quarterly results were negatively affected by marginally lower levels of group and transient business. Additionally, the year-to-date results have been negatively affected by the renovations at the JW Marriott, Washington, D.C., which had a significant number of rooms out of service for the first quarter and second quarter of 2006, as well as a reduction in group business compared to the same period in 2005, which included the effect of the Presidential inauguration.

Our Pacific region had a comparable hotel RevPAR increase of 7.2% for the quarter and 6.4% year-to-date. For the region, increases in room rates of 11.0% for the quarter and 9.0% year-to-date were partially offset by declines in average occupancy of 2.8 percentage points and 1.9 percentage points, respectively.

Comparable hotel RevPAR in our South Central region grew by 5.1% for the quarter and 5.9% year-to-date, driven primarily by strong increases in average room rate.

---

**Table of Contents**

Comparable hotel RevPAR for our international properties increased 9.6% for the quarter and 13.5% year-to-date. Our four Canadian properties, three of which are in Toronto, experienced an increase in comparable hotel RevPAR of 11.9% for the quarter and 14.7% year-to-date.

*Property-level Operating Costs.* Property-level operating costs and expenses increased \$261 million, or 35.9% from the third quarter of 2005 and increased \$471 million, or 21.6%, year-to-date. During the third quarter and year-to-date 2006, property-level operating costs include \$204 million and \$324 million related to the operations of the hotels acquired in the Starwood transaction. Property-level operating costs and expenses exclude the costs for hotels we have sold, which are included in discontinued operations. Our operating costs and expenses, which are both fixed and variable, are affected by changes in occupancy, inflation and revenues, though the effect on specific costs will differ. For example, utility costs at our comparable hotels increased 8.3% and 12.1% for the quarter and year-to-date, respectively, primarily due to increases in oil and gas prices. We expect operating costs to continue to increase during the remainder of 2006 as a result of variable costs increasing with occupancy increases, and certain costs increasing at a rate above inflation, particularly wages and benefits, utilities, insurance and real estate taxes.

*Corporate and Other Expenses.* Corporate and other expenses primarily consist of employee salaries and bonuses and other costs such as employee stock-based compensation expense, travel, corporate insurance, audit fees, building rent and system costs. Corporate expenses increased by \$5 million, or 31.3%, for the third quarter and \$17 million, or 37.8%, year-to-date due to an increase in compensation expense based on the strong performance of our stock price and an increase in overall staffing levels. Additionally, we had non-recurring costs associated with the Starwood transaction and the European joint venture transaction, as well as other transaction costs, totaling \$3 million and \$7 million for the third quarter and year-to-date 2006, respectively.

*Interest Income.* Interest income increased \$3 million for the third quarter and \$5 million year-to-date due to an increase in our cash balance and an increase in the interest rate earned on the balance.

*Interest Expense.* Interest expense increased \$6 million for the third quarter and decreased \$19 million year-to-date. For the quarter, the increase in interest expense is a result of the overall increase in debt as a result of the Starwood Transaction and an increase in the interest rates of our variable debt. The increase was partially offset by the conversion or repayment of the Convertible Subordinated Debentures and repayment of other debt. Year-to-date, the increases in interest expense discussed above were offset by the decrease in interest expense due to the decrease in call premiums and the acceleration of deferred financing costs and original issue discounts associated with debt prepayments from \$30 million for year-to-date 2005 to \$3 million for year-to-date 2006. In addition, interest expense for year-to-date 2006 includes approximately \$5 million of non-recurring bridge loan fees and expenses related to the Starwood acquisition.

*Minority Interest Expense.* As of September 8, 2006, we held approximately 96% of the partnership interests in Host LP. The increase in our minority interest expense for 2006 is primarily due to the increase in the net income of Host LP and includes the increase in the net income for certain of our other consolidated partnerships.

*Equity in Earnings (Losses) of Affiliates.* Our share of losses of affiliates increased by \$3 million for the third quarter and \$7 million year-to-date primarily due to the losses recorded from our investment in the European joint venture of \$3 million in the third quarter of 2006 and \$10 million year-to-date, which includes our portion of a foreign currency hedge loss of \$1 million and \$7 million for the quarter and year-to-date, respectively, as the venture hedged a portion of its initial investment for the acquisition of six of its hotels.

*Discontinued Operations.* Discontinued operations for 2006 consist of six sold hotels and one hotel classified as held-for-sale. Discontinued operations for 2005 consist of five hotels sold in 2005 in addition to the six hotels sold in 2006 and one hotel classified as held-for-sale. Discontinued operations represent results of operations and the gain or loss on the disposition of the hotels. For year-to-date 2006 and 2005, revenues for these properties were \$26 million and \$101 million, respectively, and income before taxes was \$4 million and \$12 million, respectively. For the third quarter of 2006 and 2005, revenues for these properties were \$3 million and \$32 million, respectively, and income before taxes was \$2 million and \$3 million, respectively. We recognized a gain, net of tax, of approximately \$390 million and \$12 million for year-to-date 2006 and 2005, respectively, on the disposition of these hotels.

**Table of Contents****Comparable Hotel Operating Statistics**

We present certain operating statistics (i.e., RevPAR, average daily rate and average occupancy) and operating results (revenues, expenses and adjusted operating profit) for the periods included in this report on a comparable hotel basis. We define our comparable hotels as full-service properties (i) that are owned or leased by us and the operations of which are included in our consolidated results, whether as continuing operations or discontinued operations for the entirety of the reporting periods being compared and (ii) that have not sustained substantial property damage or business interruption, or undergone large-scale capital projects during the reporting periods being compared. Of the 129 full-service hotels that we owned on September 8, 2006, 96 have been classified as comparable hotels. The operating results of the following hotels that we owned as of September 8, 2006 are excluded from comparable hotel results for these periods:

Newport Beach Marriott Hotel & Spa (major renovation started in July 2004);

Mountain Shadows Resort and Golf Club (hotel closed pending sale, which is expected to close in the fourth quarter of 2006);

Atlanta Marriott Marquis (major renovation started in August 2005);

New Orleans Marriott (property damage and business interruption from Hurricane Katrina in August 2005);

Hyatt Regency Washington on Capitol Hill, Washington, D.C. (acquired in September 2005);

Westin Kierland Resort & Spa (acquired in September 2006); and

the 27 consolidated hotels that we acquired from Starwood on April 10, 2006.

In addition, the operating results of the eleven hotels we disposed of as of September 8, 2006 or in 2005 are also not included in comparable hotel results for the periods presented herein. Moreover, because these statistics and operating results are for our full-service hotel properties, they exclude results for our non-hotel properties and leased limited-service hotels.

We evaluate the operating performance of our comparable hotels based on both geographic region and property type. These divisions are generally consistent with industry data provided by hospitality research firms such as Smith Travel Research. For further discussion of our geographic regions and property types see our most recent Annual Report on Form 10 K. The following tables set forth performance information for our comparable full-service hotels by geographic region for the periods presented.

(a) The reporting period for our comparable operating statistics for the third quarter of 2006 is from June 17, 2006 to September 8, 2006 and for the third quarter of 2005 from June 18, 2005 to September 9, 2005. The reporting period for year-to-date 2006 is from December 31, 2005 to September 8, 2006 and for year-to-date 2005 is from January 1, 2005 to September 8, 2005. For further discussion, see Reporting Periods in our most recent Annual Report of Form 10 K.

The following statistics are for all of our full-service properties as of September 8, 2006 and September 9, 2005, respectively. The operating statistics include the results of operations prior to their disposition for hotels we have sold.

All Full-Service Properties

---

**Table of Contents****Liquidity and Capital Resources****Cash Requirements**

Host uses cash primarily for acquisitions, capital expenditures, debt payment and dividends to stockholders. As a REIT, Host is required to distribute to its stockholders at least 90% of its taxable income on an annual basis. Funds used by Host to make these distributions are provided by Host LP. We depend primarily on external sources of capital to finance future growth, including acquisitions.

*Cash Balances.* As of September 8, 2006, we had \$223 million of cash and cash equivalents, which was an increase of \$39 million from December 31, 2005. In addition, subsequent to September 8, 2006, approximately \$100 million was received from the sale of the Detroit Marriott Livonia and The Ritz-Carlton, Atlanta. As a result of the current operating environment and the flexibility and capacity provided by our credit facility, we expect to lower our cash balances to within a range of \$100 million to \$125 million over the next few quarters through additional investments in our existing portfolio, debt repayments and acquisitions.

As of September 8, 2006, we also had \$129 million of cash that was restricted as a result of lender requirements. The restricted cash balances do not have a significant effect on our liquidity. There are no scheduled debt maturities for the remainder of 2006, although the \$450 million 9 1/2% Series I senior notes mature in January 2007. We recently exercised our option to extend the \$88 million mortgage on the JW Marriott Hotel Pennsylvania Avenue for one year. We also have scheduled principal repayments totaling approximately \$17 million for the remainder of 2006. We believe we have sufficient cash, or availability under our line of credit, to deal with our near-term maturities, as well as any unexpected decline in the cash flow from our business. Currently, we have the full amount of \$575 million available under our credit facility.

*Debt Repayments and Refinancings.* Improving our interest coverage and leverage ratios remains a key management priority. During 2006, we issued \$800 million of 6 3/4% Series P senior notes and assumed or issued mortgage debt totaling \$328 million. We used the proceeds from the senior notes issuance to redeem or prepay \$136 million of 7 7/8% Series B senior notes and related prepayment premiums, \$84 million of 8.39% mortgage debt and approximately \$150 million of 10% Class C preferred stock and accrued dividends. Additionally, we converted or redeemed the \$387 million remaining balance of the Convertible Subordinated Debentures. The remaining proceeds of the senior note and mortgage debt issuances were used for asset acquisitions and general corporate purposes. While the net effect of these transactions resulted in a net increase in our debt balances of approximately \$469 million, we have increased our stockholders' equity balance by approximately \$2.8 billion during the year, primarily through the issuance of common stock as part of the acquisition of the Starwood portfolio and through the conversion of 24 million of our Convertible Subordinated Debentures valued at \$368 million. Overall, we have significantly improved our interest coverage and leverage ratios during the year.

We may continue to redeem or refinance senior notes and mortgage debt from time to time to take advantage of favorable market conditions. We may purchase senior notes for cash through open market purchases, privately negotiated transactions, a tender offer or, in some cases, through the early redemption of such securities pursuant to their terms. Repurchases of debt, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. Any refinancing or retirement before the maturity date would affect earnings and Funds From Operations, or FFO, per diluted share, as defined below, as a result of the payment of any applicable call premiums and the acceleration of previously deferred financing costs. Specifically, interest expense includes \$3 million for year-to-date 2006 and \$30 million for year-to-date 2005 for call premiums and acceleration of deferred financing costs and original issue discounts associated with debt prepayments.

*Capital Expenditures.* For the year-to-date period ended September 8, 2006, our renewal and replacement capital expenditures were approximately \$209 million. We expect total renewal and replacement capital expenditures for 2006 to be approximately \$275 million to \$285 million. Our renewal and replacement capital expenditures are generally funded by the furniture, fixture and equipment funds established at certain of our hotels (typically funded with approximately 5% of property revenues) and by our available cash.

For year-to-date 2006, we spent approximately \$148 million in repositioning/return on investment (ROI) projects. These projects include, for example, expanding ballroom, spa or conference facilities and major guest rooms repositionings. We expect to spend approximately \$245 million to \$255 million in 2006 on these investment projects. In addition, we expect to spend several hundred million on such investments over the next several years. For further discussion of these projects and capital expenditures, see our most recent Annual Report on Form 10-K.

**Table of Contents**

*Acquisitions.* On April 10, 2006, we acquired 25 domestic hotels and three foreign hotels from Starwood for total consideration of approximately \$3.1 billion. Total consideration included the issuance of \$2.27 billion of equity (133,529,412 shares of Host common stock) to Starwood stockholders, the assumption of \$77 million with a fair value of \$86 million as of April 10, 2006 in debt and the net payment of approximately \$748 million in cash. On September 1, 2006, we purchased The Westin Kierland Resort & Spa in Scottsdale, Arizona, for approximately \$393 million, which includes the assumption of approximately \$135 million of mortgage debt with a fair value of \$133 million at September 1, 2006 and an interest rate of 5.08%. We remain interested in pursuing single asset and portfolio acquisitions, both domestically, and abroad through the joint venture in Europe. We believe that there are, and will continue to be, opportunities to acquire assets that are consistent with our target profile of luxury and upper upscale properties in urban and resort/convention locations where further large scale lodging development is limited. Any acquisitions may be funded, in part, from our available cash, draws under our credit facility or other debt financing, proceeds from asset sales or through equity offerings by Host or the issuance of debt or OP units by Host LP. We may acquire properties through various structures, including through the European joint venture or through similar joint ventures with other partners. We cannot be certain as to the size or timing of acquisition opportunities or of our ability to obtain additional acquisition financing, if needed.

**Sources and Uses of Cash**

Our principal sources of cash are cash from operations, the sale of assets, borrowing under our credit facility and our ability to obtain additional financing through various capital markets. Our principal uses of cash are debt service, asset acquisitions, capital expenditures, operating costs, corporate expenses and distributions to equity holders.

*Cash Provided by Operations.* Our cash provided by operations for year-to-date 2006 increased \$295 million to \$606 million from \$311 million for year-to-date 2005, due primarily to the increase in operating profit in 2006.

*Cash Used in Investing Activities.* Approximately \$799 million of cash was used in investing activities during year-to-date 2006. The primary use of cash in investing activities was the acquisition of the Starwood portfolio. For more information, see Starwood Acquisition. Additionally, we increased our capital expenditures by \$164 million to \$357 million as part of our strategy to maximize the value of our existing portfolio. During the third quarter, we contributed approximately \$58 million to the joint venture in Europe for the acquisition of the Hotel Arts Barcelona. See Recent Events. Cash provided by investing activities for year-to-date 2006 was from the sale of five properties in 2006 for net proceeds of approximately \$675 million, which does not include \$21 million of cash received in the fourth quarter from the sale of Detroit Marriott Livonia.

The following table summarizes the significant investing activities that have been completed since the beginning of 2006 (in millions):

Transaction Date	Description of Transaction	(Investment)/ Sales Price
September 2006	Sale of Ritz-Carlton, Atlanta	\$ 80
September 2006	Sale of Detroit Marriott Livonia	21
September 2006	Purchase of Westin Kierland Resort & Spa (1)	(393)
July 2006	Investment in European joint venture (2)	(58)
May/June 2006	Investment in European joint venture (3)	(72)
April 2006	Purchase of 28 hotels from Starwood (4)	(3,070)
March 2006	Sale of Swissôtel The Drake, New York	440
January 2006	Sale of Chicago Marriott Suites Deerfield and Marriott at Research Triangle Park	55
January 2006	Sale of Fort Lauderdale Marina Marriott and Albany Marriott	204

- (1) Investment price includes the assumption of \$135 million of mortgage debt.
- (2) During the third quarter of 2006, we invested an additional \$58 million, or 46 million, to our European joint venture. The proceeds were used to fund a portion of the acquisition of the Hotel Arts Barcelona.

**Table of Contents**

- (3) Investment price includes the contribution of the Sheraton Warsaw Hotel & Towers valued at \$59 million on May 2, 2006, which was acquired from Starwood on April 10, 2006, and cash to the joint venture.
- (4) Investment price includes the assumption of \$77 million of mortgage debt and the issuance of \$2.27 billion of Host common stock (representing approximately 133.5 million shares of Host common stock) and excludes transaction expenses. The investment price includes \$59 million for the Sheraton Warsaw Hotel & Towers, which was subsequently contributed to the joint venture on May 2, 2006.

*Cash Provided by (Used in) Financing Activities.* Approximately \$232 million of cash was provided by financing activities during 2006. Year-to-date, we have issued \$916 million of debt, including the \$800 million 6<sup>3</sup>/<sub>4</sub>% Series Q senior notes. A portion of these proceeds were used to redeem the remaining \$136 million of our 7<sup>7</sup>/<sub>8</sub>% Series B senior notes, our \$150 million 10% Class C preferred stock and to repay the remaining \$84 million of 8.39% mortgage debt on the Boston Marriott Copley Place. Also, activities for 2006 consisted of payment of dividends on our preferred and common stock of \$203 million and scheduled principal repayments of \$41 million. The following table summarizes the significant financing transactions (not including the conversion of Convertible Subordinated Debentures in the first quarter of 2006 or the issuance of approximately 133.5 million shares of Host common stock issued in the Starwood acquisition) since the beginning of 2006 (in millions):

		Transaction
Transaction Date	Description of Transaction	Amount
<b>Debt</b>		
September 2006	Assumption of 5.08% mortgage on Westin Kierland Resort & Spa (fair value of \$133 million)	\$ 135
June 2006	Repayment of 8.39% mortgage on the Boston Marriott Copley Place	(84)
May 2006	Redemption of remaining 7 <sup>7</sup> / <sub>8</sub> % Series B senior notes	(136)
April 2006	Assumption of mortgage debt from Starwood (fair value of \$86 million)	77
April 2006	Redemption of outstanding Convertible Preferred Securities	(2)
March 2006	Proceeds from the issuance of 6 <sup>3</sup> / <sub>4</sub> % Series P senior notes (1)	787
March 2006	Repayment of the credit facility	(20)
January 2006	Proceeds from the issuance of 5.195% Canadian mortgage loan	116
<b>Equity</b>		
June 2006	Redemption of the 10% Class C preferred stock	(151)

- (1) The Series P senior notes were exchanged for Series Q senior notes in July 2006.

**Debt**

As of September 8, 2006, our total debt was \$5.8 billion. The weighted average interest rate of our debt was approximately 7.2% and the weighted average maturity was 5.6 years. Additionally, approximately 87% of our debt has a fixed rate of interest.

**Table of Contents**

As of September 8, 2006 and December 31, 2005, our debt was comprised of (in millions):

	September 8, 2006	December 31, 2005
Series B senior notes, with a rate of 7 <sup>7</sup> / <sub>8</sub> % due August 2008	\$	\$ 136
Series G senior notes, with a rate of 9 <sup>1</sup> / <sub>4</sub> % due October 2007 (1)	235	236
Series I senior notes, with a rate of 9 <sup>1</sup> / <sub>2</sub> % due January 2007 (2)	448	451
Series K senior notes, with a rate of 7 <sup>1</sup> / <sub>8</sub> % due November 2013	725	725
Series M senior notes, with a rate of 7% due August 2012	347	346
Series O senior notes, with a rate of 6 <sup>3</sup> / <sub>8</sub> % due March 2015	650	650
Series Q senior notes, with a rate of 6 <sup>3</sup> / <sub>4</sub> % due June 2016	800	
Exchangeable Senior Debentures, with a rate of 3.25% due April 2024	494	493
Senior notes, with an average rate of 9 <sup>7</sup> / <sub>8</sub> %, maturing through 2012	13	13
<b>Total senior notes</b>	<b>3,712</b>	<b>3,050</b>
Mortgage debt (non-recourse) secured by \$3.4 billion of real estate assets, with an average interest rate of 7.5% at September 8, 2006 and 7.8% at December 31, 2005 respectively	2,038	1,823
Credit facility		20
Convertible Subordinated Debentures, with a rate of 6 <sup>3</sup> / <sub>4</sub> % due December 2026		387
Other	89	90
<b>Total debt</b>	<b>\$ 5,839</b>	<b>\$ 5,370</b>

- (1) Includes the fair value of the interest rate swap agreements of \$(7) million and \$(6) million as of September 8, 2006 and December 31, 2005, respectively.
- (2) Includes the fair value of the interest rate swap agreement of \$(2) million and \$1 million as of September 8, 2006 and December 31, 2005, respectively.

*Exchangeable Senior Debentures.* During 2004, we issued \$500 million of 3.25% Exchangeable Senior Debentures which currently are exchangeable into shares of Host common stock at an exchange rate of 56.97 shares for each \$1,000 of principal amount of the debentures, or a total of approximately 28 million shares, which is equivalent to an exchange price of \$17.55 per share of our common stock. The exchange rate is adjusted for certain circumstances, including the payment of common dividends. Holders may exchange their Exchangeable Senior Debentures prior to maturity under certain conditions, including at any time at which the closing sale price of our common stock is more than 120% of the exchange price per share for at least 20 of 30 trading days during certain periods.

As of September 25, 2006, holders of the debentures may exchange their debentures for Host common stock as the closing price for Host common stock exceeded 120% of the exchange price for 20 out of 30 trading days during the period ending on September 25, 2006 (the first day of the current exchange period). The debentures will remain exchangeable until January 16, 2007 (the last day of the current exchange period). The debentures will remain exchangeable after January 16, 2007, if the trading price of Host common stock continues to exceed 120% of the exchange price for 20 out of the 30 trading days during the period ending on January 17, 2007, or if other conditions for exchange are satisfied.

*Series Q Senior Notes.* In July 2006, \$800 million 6<sup>3</sup>/<sub>4</sub>% Series P senior notes were exchanged for \$800 million 6<sup>3</sup>/<sub>4</sub>% Series Q senior notes. The terms of the Series Q senior notes are substantially identical, except that the Series Q senior notes are registered under the Securities Act of 1933 and are, therefore, freely transferable.

*Mortgage Debt.* Substantially all of our mortgage debt is recourse solely to specific assets except in instances of fraud, misapplication of funds and other customary recourse provisions. As of September 8, 2006, we have 29 assets that are encumbered by mortgage debt. We have certain restrictive covenants on one loan, which we refer to as the CMBS loan, that is secured by mortgages on eight properties. These restrictive covenants require the mortgage servicer to retain and hold in escrow the cash flow after debt service if it declines below specified operating levels. We are currently above the specified operating levels. The remaining mortgage loans generally do not have restrictive covenants that require such escrows.

---

## **Table of Contents**

### **Dividend Policy**

Host is required to distribute to stockholders at least 90% of its annual taxable income in order to qualify as a REIT, including taxable income recognized for tax purposes but with regard to which we do not receive corresponding cash. Funds used by Host to pay dividends on its common and preferred stock are provided through distributions from Host LP. For every share of common and preferred stock of Host, Host LP has issued to Host a corresponding common OP unit and preferred OP unit. As of October 10, 2006, Host is the owner of substantially all of the preferred OP units and approximately 96% of the common OP units. The remaining 4% of the common OP units are held by various third-party limited partners.

As a result of the minority position in Host LP common OP units, these third-party limited partners share, on a pro rata basis, in amounts being distributed by Host LP. When Host pays a common or preferred dividend, Host LP pays an equivalent per unit distribution on all common or corresponding preferred OP units. For example, if Host paid a \$1 per share dividend on its common stock, it would be based on payment of a \$1 per unit distribution by Host LP to Host as well as to other common OP unit holders. For this reason, investors should also take into account the 4% minority position in Host LP and the requirement that they share pro rata in distributions from Host LP when analyzing dividend payments by Host to its stockholders.

Host's policy on common dividends is generally to distribute at least 100% of its annual taxable income, unless otherwise contractually restricted. Host intends to continue paying dividends on its preferred stock, regardless of the amount of its taxable income, unless similarly contractually restricted.

On September 15, 2006, our Board of Directors declared a cash dividend of \$0.20 per share on our common stock. The dividend will be paid on October 16, 2006 to stockholders of record as of September 30, 2006. The amount of any future common dividend will be determined by our Board of Directors.

On September 15, 2006, our Board of Directors also declared a cash dividend of \$0.5546875 per share on our Class E preferred stock. The dividend will be paid on October 16, 2006 to preferred stockholders of record as of September 30, 2006.

### **Non-GAAP Financial Measures**

We use certain non-GAAP financial measures, which are measures of our historical financial performance that are not calculated and presented in accordance with GAAP, within the meaning of applicable SEC rules. They are as follows: (i) Funds From Operations (FFO) per diluted share, and (ii) Comparable Hotel Operating Results. A complete discussion of these measures (including the reasons why we believe they are useful to investors, the additional purposes for which management uses these measures and their limitations) is included in our most recent Annual Report on Form 10-K.

#### *FFO per Diluted Share*

We present FFO per diluted share as a non-GAAP measure of our performance in addition to our earnings per share (calculated in accordance with GAAP). We calculate FFO per diluted share for a given operating period as our FFO (defined as set forth below) for such period divided by the number of fully diluted shares outstanding during such period. The National Association of Real Estate Investment Trusts (NAREIT) defines FFO as net income (calculated in accordance with GAAP) excluding gains (or losses) from sales of real estate, the cumulative effect of changes in accounting principles, real estate-related depreciation and amortization and adjustments for unconsolidated partnerships and joint ventures. FFO is presented on a per share basis after making adjustments for the effects of dilutive securities, including the payment of preferred stock dividends, in accordance with NAREIT guidelines. We believe that FFO per diluted share is a useful supplemental measure of our operating performance and that presentation of FFO per diluted share, when combined with the primary GAAP presentation of earnings per share, provides beneficial information to investors.

#### *Comparable Hotel Operating Results*

We present certain operating results for our full-service hotels, such as hotel revenues, expenses and adjusted operating profit, on a comparable hotel, or same store basis as supplemental information for investors. See

**Table of Contents**

Comparable Hotel Operating Statistics above for a description of what we consider our comparable hotels. We present these hotel operating results on a comparable hotel basis because we believe that doing so provides investors and management with useful information for evaluating the period-to-period performance of our hotels and facilitates comparisons with other hotel REITs and hotel owners.

The following table provides a reconciliation of net income available to common stockholders per share to FFO per diluted share (in millions, except per share amounts):

**Reconciliation of Net Income Available to****Common Stockholders to Funds From Operations per Diluted Share**

	Quarter ended					
	September 8, 2006			September 9, 2005		
	Income	Shares	Per Share Amount	Income	Shares	Per Share Amount
Net income (loss) available to common stockholders	\$ 38	520.5	\$ .07	\$ (11)	353.1	\$ (.03)
Adjustments:						
Gain on dispositions, net of taxes	(5)		(.01)			
Amortization of deferred gains, net of taxes	(1)			(1)		
Depreciation and amortization	119		.23	85		.24
Partnership adjustments	2			1		
FFO of minority partners of Host LP(a)	(5)		(.01)	(4)		(.01)
Adjustments for dilutive securities:						
Assuming distribution of common shares granted under the comprehensive stock plan less shares assumed purchased at average market price		1.8			2.3	
Assuming conversion of Exchangeable Senior Debentures	4	28.5		4	27.7	(.01)
FFO per diluted share(b) (c)	\$ 152	550.8	\$ .28	\$ 74	383.1	\$ .19

	Year-to-date ended					
	September 8, 2006			September 9, 2005		
	Income	Shares	Per Share Amount	Income	Shares	Per Share Amount
Net income available to common stockholders	\$ 524	464.1	\$ 1.13	\$ 67	352.6	\$ .19
Adjustments:						
Gain on dispositions, net of taxes	(390)		(.84)	(54)		(.15)
Amortization of deferred gains, net of taxes	(3)		(.01)	(5)		(.02)
Depreciation and amortization	314		.68	254		.72
Partnership adjustments	24		.05	9		.03
FFO of minority partners of Host LP(a)	(18)		(.04)	(15)		(.04)
Adjustments for dilutive securities:						
Assuming distribution of common shares granted under the comprehensive stock plan less shares assumed purchased at average market price		1.8			2.4	(.01)
Assuming conversion of Exchangeable Senior Debentures	13	28.5	(.03)	13	27.7	(.02)
Assuming conversion of Convertible Subordinated Debentures	2	2.7				
FFO per diluted share(b) (c)	\$ 466	497.1	\$ .94	\$ 269	382.7	\$ .70

(a) Represents FFO attributable to the minority interests in Host LP.

**Table of Contents**

- (b) FFO per diluted share in accordance with NAREIT is adjusted for the effects of dilutive securities. Dilutive securities may include shares granted under comprehensive stock plans, preferred OP units held by minority partners, convertible debt securities and other minority interests that have the option to convert their limited partnership interest to common OP units. No effect is shown for securities if they are anti-dilutive.
- (c) FFO per diluted share and earnings (loss) per diluted share for certain periods presented were significantly affected by certain transactions, the effect of which is shown in the table below (in millions, except per share amounts):

	Quarter ended		September 9,	
	September 8, 2006		2005	
	Net Income		Net Income	
	(Loss)	FFO	(Loss)	FFO
Gain on dispositions, net of taxes	\$ 5	\$	\$	\$
Non-recurring Starwood acquisition costs (1)	(4)	(4)		
<b>Total</b>	<b>\$ 1</b>	<b>\$ (4)</b>	<b>\$</b>	<b>\$</b>
Per diluted share	\$	\$	\$	\$

	Year-to-date ended		September 9,	
	September 8, 2006		2005	
	Net Income		Net Income	
	(Loss)	FFO	(Loss)	FFO
Non-recurring Starwood acquisition costs (1)	\$ (17)	\$ (17)	\$	\$
Senior notes redemptions and debt prepayments (2)	(4)	(4)	(34)	(34)
Preferred stock redemptions (3)	(8)	(8)	(4)	(4)
Gain on CBM Joint Venture LLC sale (4)			42	
Gain on dispositions, net of taxes	390		12	
Minority interest income (expense) (5)	(14)	1	(1)	2
<b>Total</b>	<b>\$ 347</b>	<b>\$ (28)</b>	<b>\$ 15</b>	<b>\$ (36)</b>
Per diluted share	\$ .74	\$ (.05)	\$ .04	\$ (.09)

- (1) Represents non-recurring costs incurred in conjunction with the acquisition of the Starwood portfolio that are required to be expensed under U.S. generally accepted accounting principles, including start-up costs, bridge loan fees and expenses and our portion of a foreign currency hedge loss by the European joint venture, as the venture hedged a portion of its initial investment for the acquisition of six of its hotels.
- (2) Represents call premiums and the acceleration of original issue discounts and deferred financing costs, as well as incremental interest during the call or prepayment notice period, included in interest expense in the consolidated statements of operations. We recognized these costs in conjunction with the prepayment or refinancing of senior notes and mortgages during certain periods presented.
- (3) Represents the original issue costs and incremental dividends during the redemption notice period associated with the redemption of the Class C preferred stock in 2006 and the Class B preferred stock in 2005.
- (4) Represents the gain, net of tax, on the sale of 85% of our interest in CBM Joint Venture LLC.
- (5) Represents the portion of the significant transactions attributable to minority partners in Host LP.

**Table of Contents**

The following table presents certain operating results and statistics for our comparable hotels for the periods presented herein:

**Comparable Hotel Results (a)**

- (d) Non-comparable hotel results, net includes the following items: (i) the results of operations of our non-comparable hotels whose operations are included in our consolidated statements of operations as continuing operations and (ii) the difference between the number of days of operations reflected in the comparable hotel results and the number of days of operations reflected in the consolidated statements of operations. For further detail, see Reporting Periods in our most recent Annual Report on Form 10 K.
- (e) Represents rental income less rental expense for limited service properties and office buildings.

**Table of Contents**

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

**Interest Rate Sensitivity**

The percentage of our debt that is floating rate was 13% at September 8, 2006 and 15% at December 31, 2005. Accordingly, there have been no material changes in our interest rate sensitivity. See our most recent Annual Report on Form 10-K.

**Item 4. Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rule 13a-15(e). In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, we have investments in certain unconsolidated entities. As we do not control or manage these entities, our disclosure controls and procedures at the end of the period with respect to such entities are necessarily substantially more limited than those we maintain with respect to our consolidated subsidiaries.

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There have been no changes in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reports.
