THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

Note 1. General

The Cooper Companies, Inc. (Cooper or the Company) markets, develops and manufactures healthcare products through its two business units:

CooperVision (CVI) markets, develops and manufactures a broad range of contact lenses for the worldwide vision care market. Its leading products are disposable and planned replacement lenses.

CooperSurgical (CSI) markets, develops and manufactures medical devices, diagnostic products and surgical instruments and accessories used primarily by gynecologists and obstetricians.

During interim periods, we follow the accounting policies described in our Annual Report on Form 10-K for the fiscal year ended October 31, 2006. Please refer to this when reviewing this Quarterly Report on Form 10-Q. Certain prior period amounts have been reclassified to conform to the current period's presentation. Readers should not assume that the results reported here either indicate or guarantee future performance.

The unaudited consolidated condensed financial statements presented in this report contain all adjustments necessary to present fairly Cooper's consolidated financial position at January 31, 2007 and October 31, 2006, the consolidated results of its operations for the three months ended January 31, 2007 and 2006 and its cash flows for the three months ended January 31, 2007 and 2006. Most of these adjustments are normal and recurring. However, certain adjustments associated with recent acquisitions and the related financial arrangements are of a nonrecurring nature.

We use derivatives to reduce market risks associated with changes in foreign exchange and interest rates including certain intercompany equipment sales and leaseback transactions. We do not use derivatives for trading or speculative purposes. We believe that the counterparties with which we enter into forward exchange contracts and interest rate swap agreements are financially sound and that the credit risk of these contracts is negligible.

Estimates and Critical Accounting Policies

Management estimates and judgments are an integral part of financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP). We believe that the critical accounting policies described in this section address the more significant estimates required of management when preparing our consolidated financial statements in accordance with GAAP. We consider an accounting estimate critical if changes in the estimate may have a material impact on our financial condition or results of operations. We believe that the accounting estimates employed are appropriate and resulting balances are reasonable; however, actual results could differ from the original estimates, requiring adjustment to these balances in future periods.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

Revenue recognition We recognize revenue when it is realized or realizable and earned, based on terms of sale with the customer, where persuasive evidence of an agreement exists, delivery has occurred, the seller's price is fixed and determinable and collectibility is reasonably assured. For contact lenses as well as CSI medical devices, diagnostic products and surgical instruments and accessories, this primarily occurs upon product shipment, when risk of ownership transfers to our customers. We believe our revenue recognition policies are appropriate in all circumstances and that our policies are reflective of our customer arrangements. We record, based on historical statistics, estimated reductions to revenue for customer incentive programs offered including cash discounts, promotional and advertising allowances, volume discounts, contractual pricing allowances, rebates and specifically established customer product return programs. While estimates are involved, historically, most of these programs have not been major factors in our business since a high percentage of our revenue is from direct sales to doctors.

Allowance for doubtful accounts Our reported balance of accounts receivable, net of the allowance for doubtful accounts, represents our estimate of the amount that ultimately will be realized in cash. We review the adequacy of our allowance for doubtful accounts on an ongoing basis, using historical payment trends and the age of the receivables and knowledge of our individual customers. When our analyses indicate, we increase or decrease our allowance accordingly. However, if the financial condition of our customers were to deteriorate, additional allowances may be required. While estimates are involved, bad debts historically have not been a significant factor given the diversity of our customer base, well established historical payment patterns and the fact that patients require satisfaction of healthcare needs in both strong and weak economies.

Net realizable value of inventory In assessing the value of inventories, we must make estimates and judgments regarding aging of inventories and other relevant issues potentially affecting the saleable condition of products and estimated prices at which those products will sell. On an ongoing basis, we review the carrying value of our inventory, measuring number of months on hand and other indications of salability, and reduce the value of inventory if there are indications that the carrying value is greater than market. At the point of the loss recognition, a new, lower-cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis. While estimates are involved, historically, obsolescence has not been a significant factor due to long product dating and lengthy product life cycles. We target to keep, on average, about seven months of inventory on hand to maintain high customer service levels given the complexity of our specialty lens product portfolio.

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

Valuation of goodwill We account for goodwill and evaluate our goodwill balances and test them for impairment in accordance with the provisions of Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets*, (SFAS 142). We no longer amortize goodwill. The SFAS 142 goodwill impairment test is a two-step process. Initially, we compare the book value of net assets to the fair value of each reporting unit that has goodwill assigned to it. If the fair value is determined to be less than the book value, a second step is performed to compute the amount of the impairment. When available and as appropriate, we use comparative market multiples to corroborate fair value results. A reporting unit is the level of reporting at which goodwill is tested for impairment.

Our reporting units are the same as our business segments CVI and CSI reflecting the way that we manage our business. We test goodwill for impairment annually during the third fiscal quarter and when an event occurs or circumstances change such that it is reasonably possible that impairment may exist. We performed an impairment test in our third fiscal quarter 2006, and our analysis indicated that we had no impairment of goodwill. The valuation of each of our reporting units was determined using a combination of discounted cash flows, an income valuation approach and the guideline company method, a market valuation approach.

Business combinations We routinely consummate business combinations. We allocate the purchase price of acquisitions based on our estimates and judgments of the fair value of net assets purchased, acquisition costs incurred and intangibles other than goodwill. On individually significant acquisitions, we utilize independent valuation experts to provide a basis in order to refine the purchase price allocation, if appropriate. Results of operations for acquired companies are included in our consolidated results of operations from the date of acquisition.

Income taxes The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and for tax losses and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized.

As part of the process of preparing our consolidated financial statements, we must estimate our income tax expense for each of the jurisdictions in which we operate. This process requires significant management judgments and involves estimating our current tax exposures in each jurisdiction including the impact, if any, of additional taxes resulting from tax examinations as well as judging the recoverability of deferred tax assets. To the extent recovery of deferred tax assets is not likely based on our estimation of future taxable

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

income in each jurisdiction, a valuation allowance is established. Tax exposures can involve complex issues and may require an extended period to resolve. Frequent changes in tax laws in each jurisdiction complicate future estimates. To determine the quarterly tax rate, we are required to estimate full-year income and the related income tax expense in each jurisdiction. We update the estimated effective tax rate for the effect of significant unusual items as they are identified. Changes in the geographic mix or estimated level of annual pre-tax income can affect the overall effective tax rate, and such changes could be material.

Share-based compensation Effective November 1, 2005, we adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R) as interpreted by SEC Staff Accounting Bulletin No. 107, using the modified prospective transition method. Prior periods have not been restated. See Note 10. Stock Plans in our Annual Report on Form 10-K for the fiscal year ended October 31, 2006, for a further description of the impact of the adoption of SFAS 123R and the Company's share-based compensation plans.

Under the fair value recognition provisions of SFAS 123R, share-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the vesting period. Determining the fair value of share-based awards at the grant date requires judgment, including estimating Cooper's stock price volatility, employee stock option exercise behaviors and employee option forfeiture rates.

The expected life of the share-based awards is based on the observed and expected time to post-vesting forfeiture and/or exercise. Groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The expected volatility is based on implied volatility from publicly-traded options, historical volatility on the Company's stock at the date of grant, historical implied volatility of the Company's publicly-traded options and other factors. The risk-free interest rate is based on the continuous rates provided by the U.S. Treasury with a term equal to the expected life of the award. The dividend yield is based on the projected annual dividend payment per share, divided by the stock price at the date of grant.

As share-based compensation expense recognized in the Consolidated Statement of Income is based on awards ultimately expected to vest, the amount of expense has been reduced for estimated forfeitures. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience.

If factors change and the Company employs different assumptions in the application of SFAS 123R, the compensation expense that it records in future periods may differ significantly from what it has recorded in the current period.

(Unaudited)

New Accounting Pronouncements

In September 2006, the SEC staff issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108). In SAB 108, the SEC staff established an approach that requires quantification of financial statement misstatements based on the effects of the misstatements on each of the Company's financial statements and the related financial statement disclosures. SAB 108 permits public companies to initially apply its provisions either by (i) restating prior financial statements or (ii) recording the cumulative effect as adjustments to the carrying values of assets and liabilities with an offsetting adjustment recorded to the opening balance of retained earnings. The Company is required to adopt SAB 108 by the end of fiscal 2007. The Company has not completed its analysis but does not expect adoption to have a significant impact on the Company's results of operations or financial condition.

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact SFAS 157 will have on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106 and 132(R)* (SFAS 158). SFAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS 158 also requires an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. This statement is effective for financial statements as of the end of fiscal years ending after December 15, 2006. The Company is currently evaluating the impact SFAS 158 will have on its consolidated financial statements.

In July 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 applies to all tax positions related to income taxes subject to Statement SFAS No. 109, *Accounting for Income Taxes* (SFAS 109). Under FIN 48, a company would recognize the benefit from a tax position only if it is more-likely-than-not that the position would be sustained upon audit based solely on the technical merits of the tax position. FIN 48 clarifies how a company would measure the income tax benefits from the tax positions that are recognized, provides guidance as to the timing of the derecognition of previously recognized tax benefits and describes the methods for classifying and disclosing the liabilities within the financial statements for any unrecognized tax benefits. FIN 48 also addresses when a company should record interest and penalties related to tax positions and how the interest and penalties may be classified within the income statement and presented in the balance sheet. FIN 48 is effective for fiscal years beginning after December 15, 2006. For the Company, FIN 48 will be

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

effective for our 2008 fiscal year. Differences between the amounts recognized prior to and after the adoption of FIN 48 would be accounted for as a cumulative effect adjustment to the beginning balance of retained earnings. The Company is currently evaluating FIN 48 and its possible impacts on the Company's financial statements. Upon adoption, there is a possibility that the cumulative effect would result in a charge or benefit to the beginning balance of retained earnings, increases or decreases in future effective tax rates, and/or increases in future effective tax rate volatility.

In February 2007, FASB Issued SFAS No. 159, *Establishing the Fair Value Option for Financial Assets and Liabilities* (SFAS 159). The Financial Accounting Standards Board has issued SFAS 159 to permit all entities to choose to elect, at specified election dates, to measure eligible financial instruments at fair value. An entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date, and recognize upfront costs and fees related to those items in earnings as incurred and not deferred. SFAS 159 applies to fiscal years beginning after November 15, 2007, or our 2009 fiscal year, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS 157, Fair Value Measurements. An entity is prohibited from retrospectively applying SFAS 159, unless it chooses early adoption. SFAS 159 also applies to eligible items existing at November 15, 2007 (or early adoption date). The Company has not completed its analysis but does not expect the adoption of SFAS 159 to have a material effect on the Company's financial condition.

Note 2. Acquisitions

Lone Star Medical Products, Inc. (Lone Star): On November 2, 2006, Cooper acquired all of the outstanding shares of Lone Star, a manufacturer of medical devices that improve the management of the surgical site, most notably the *Lone Star Retractor System*, which places a retraction ring around the surgical incision providing greater exposure of the surgical field.

We paid \$27.2 million in cash for Lone Star and have initially ascribed \$20.4 million to goodwill, negative \$0.8 million to working capital (including acquisition costs of \$2.6 million), \$5.5 million to other intangible assets and \$4.3 million to property, plant and equipment, and we assumed \$2.2 million of long-term debt. The debt was repaid shortly after closing. The allocation of the purchase price is subject to refinement as we are currently obtaining a third-party valuation of the business, using income approach valuation methodology. Subsequent adjustments could be material. Research and development assets, if any, with no alternative future use will be written off to research and development on our consolidated statement of income once determined.

Note 3. Acquisition and Restructuring Costs

When acquisitions are recorded, we accrue for the estimated direct costs in accordance with applicable accounting guidance including Emerging Issues Task Force (EITF) Issue No. 95-3, *Recognition of Liabilities in Connection with a Purchase Business Combination* (EITF 95-3) of severance and plant/office closure costs of the acquired business. Management with the

Other intangible assets, net	\$ 149,160		\$ 147,160	

We estimate that amortization expense is about \$14.4 million for each of the years in the five-year period ending October 31, 2011.

During the first fiscal quarter of 2007, payments of \$4.2 million related to a license agreement to distribute gynecological medical devices were written-off as acquired in-process research and development, as the products are pending Food and Drug Administration approval.

(Unaudited)

Credit Facility: On January 31, 2007, Cooper refinanced its existing \$750 million syndicated bank credit facility, which consisted of a \$250 million term loan and a \$500 million revolving credit facility, with a new \$650 million syndicated Senior Unsecured Revolving Line of Credit (Revolver) and \$350 million aggregate principal amount of 7.125% of Senior Notes, described below. The refinancing extends the maturity and provides additional borrowing flexibility along with lower overall pricing relative to the prior agreement. In addition, the Company has the ability from time to time to increase the size of the Revolver by up to an additional \$250 million. KeyBank led the Revolver refinancing, which resulted in a number of the banks retaining or increasing their participation in the agreement. The Revolver matures on January 31, 2012.

Interest rates for the Revolver are based on the London Interbank Offered Rate (LIBOR) plus additional basis points determined by certain ratios of debt to pro forma earnings before interest, taxes, depreciation and amortization (EBITDA), as defined in the credit agreement. These range from 75 to 150 basis points. As of January 31, 2007, the additional basis points were 150.

The Revolver:

Requires that the ratio of Consolidated Pro Forma EBITDA to Consolidated Interest Expense (as defined, Interest Coverage Ratio) be at least 3.0 to 1.0 at all times.

Requires that the ratio of Consolidated Funded Indebtedness to Consolidated Pro Forma EBITDA (as defined, Total Leverage Ratio) be no higher than 4.00 to 1.00 from January 31, 2007 through October 31, 2009 and 3.75 to 1.00 thereafter.
At January 31, 2007, the Company's Interest Coverage Ratio was 6.92 to 1.00 and the Total Leverage Ratio was 3.56 to 1.00.

The Company wrote off about \$0.9 million of debt issuance costs in interest expense as a result of extinguishing the term loan. The remaining \$1.7 million of existing debt issuance costs and the \$10.4 million of costs incurred to refinance the Revolver and Notes are carried in other assets and amortized to interest expense over the life of the credit facility.

At January 31, 2007, we had \$295.3 million available under the Revolver:

(In millions)

Amount of Revolver	\$ 650.0
Outstanding loans	(354.7)*
Available	\$ 295.3

* Includes \$0.2 million in letters of credit

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

Senior Notes: On January 31, 2007, the Company issued \$350 million aggregate principal amount of 7.125% Senior Notes (the Notes) due February 15, 2015. The Notes were offered in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. The Notes pay interest semi-annually on February 15 and August 15 of each year, beginning August 15, 2007. We may redeem some or all of the Notes at any time prior to February 15, 2011 at a price equal to 100% of the principal amount of the Notes redeemed plus accrued and unpaid interest to the redemption date and a premium. We may redeem some or all of the Notes at any time on or after February 15, 2011, at the redemption prices (expressed as percentages of principal amounts) set forth below, plus accrued and unpaid interest to the redemption date and additional interest (if we fail to comply with certain obligations under the registration rights agreement that we entered in connection with the Notes (Additional Interest)), if any, on the Notes redeemed to the applicable redemption date, if redeemed during the twelve-month period beginning on February 15 of the years indicated below:

Year	Percent
2011	103.563%
2012	101.781%
2013 and thereafter	100.000%

In addition, prior to February 15, 2010, we may redeem up to 35% of the Notes at a price equal to 107.125% of the principal amount of the Notes redeemed plus accrued and unpaid interest to the redemption date and Additional Interest, if any, on the Notes redeemed to the applicable redemption date, from the proceeds of certain equity offerings.

Net proceeds from the issuance totaled approximately \$342.6 million.

Under the indenture governing the Notes, our ability to incur indebtedness and pay distributions is subject to restrictions and the satisfaction of various conditions. In addition, the indenture imposes restrictions on certain other customary matters, such as limitations on certain investments, transactions with affiliates, the incurrence of liens, sale and leaseback transactions, certain asset sales and mergers.

The Notes are our senior unsecured obligations and rank equally with all of our existing and future senior unsecured obligations and senior to our subordinated indebtedness. The Notes are effectively subordinated to our existing and future secured indebtedness to the extent of the assets securing that indebtedness. On the issue date, certain of our direct and indirect subsidiaries entered into unconditional guarantees of the Notes that are unsecured. These guarantees rank equally with all existing and future unsecured senior obligations of the guarantors and are effectively subordinated to existing and future secured debt of the guarantors to the extent of the assets securing that indebtedness. The Notes are structurally subordinated to indebtedness and other liabilities, including payables, of our non-guarantor subsidiaries.

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

European Credit Facility: On August 24, 2005, Cooper entered into a \$40 million credit facility, in the form of a continuing and unconditional guaranty, with Bank of America on behalf of certain of its European subsidiaries for cash management purposes.

On November 1, 2006, the Company entered into a \$45 million European credit facility with CitiGroup in the form of a continuing and unconditional guaranty, which replaced the European overdraft facility with Bank of America. The Company will pay to CitiGroup all forms of indebtedness in the currency in which it is denominated for those certain subsidiaries. Interest expense is calculated on all debit balances based on an applicable base rate for each country plus a fixed spread common across all subsidiaries covered under the guaranty. At January 31, 2007, \$20.4 million of the facility was utilized. The weighted average interest rate on the outstanding balances was 4.64%.

Japan Credit Facility: On February 22, 2006, the Company entered into a \$15 million Yen-denominated credit facility allowing the Company to better manage its cash in Japan. The Company also provided a continuing and unconditional guaranty to the bank on behalf of its Japanese subsidiary, CooperVision K.K. The Company will pay to the bank all forms of indebtedness in Yen upon demand by the bank. Interest expense is calculated on the outstanding balance based on the EuroYen rate plus a 1% fixed spread. At January 31, 2007, \$13.9 million of the facility was utilized. The weighted average interest rate on the outstanding balances was 1.13%.

Note 7. Derivative Instruments

We operate multiple foreign subsidiaries that manufacture and/or sell our products worldwide. As a result, our earnings, cash flows and financial position are exposed to foreign currency risk from foreign currency denominated receivables and payables, sales transactions, capital expenditures and net investment in certain foreign operations. Our policy is to minimize transaction, remeasurement and specified economic exposures with derivatives instruments. The gains and losses on the foreign exchange forward contracts are intended to at least partially offset the transaction gains and losses recognized in earnings. We do not enter into foreign exchange forward contracts for trading or speculative purposes. Under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133) all derivatives are recorded on the balance sheet at fair value. Changes in the fair value of derivatives that do not qualify, or are not effective as cash flow hedges, must be recognized currently in earnings.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

Cash Flow Hedging

In November 2006, the Company entered into approximately \$400 million of foreign currency forward contracts with maturities of up to thirteen months to reduce foreign currency fluctuations related to forecasted foreign currency denominated purchases and sales of product. The derivatives will be accounted for as cash flow hedges under SFAS 133 and are expected to be effective through their maturities.

Interest Rate Swaps

Effectiveness testing of the hedge relationship and measurement to quantify ineffectiveness is performed at fiscal quarter ends using the hypothetical derivative method. The remaining swaps have been and are expected to remain highly effective for the life of the hedges. The fixed rates on the outstanding swaps are between 3.905% and 4.015%. As of January 31, 2007, the fair value of the outstanding swaps, approximately \$3.3 million, was recorded as an asset and the effective offset is recorded in other comprehensive income (OCI) in our Consolidated Balance Sheet.

On January 31, 2007, Cooper refinanced its existing \$750 million syndicated bank credit facility, which consisted of a \$250 million term loan and a \$500 million revolving credit facility, with a \$650 million syndicated Senior Unsecured Revolving Line of Credit (Revolver) and \$350 million aggregate principal amount of 7.125% Senior Notes. As of January 31, 2007, approximately \$354.5 million of the \$650 million revolving facility is outstanding. As part of this new debt structure, the Company terminated an interest rate swap with a notional value of \$125 million on January 30, 2007. This interest rate swap was set to mature on February 9, 2009, and the Company settled it and received \$1.1 million from the counterparty. As a result of the termination of the interest rate swap, the Company realized a gain of approximately \$1 million. The Company will amortize this gain from OCI to interest expense over the original life of the interest rate swap. During the three months ended January 31, 2007, approximately \$27,000 of effective gains were amortized from OCI to interest expense. Effective amounts are amortized to interest expense as the related hedged expense is incurred. As of January 31, 2007, we estimated that approximately \$0.5 million will be amortized during fiscal year 2007. During the three months ended January 31, 2007, approximately \$0.2 million of ineffective gains were reclassified from OCI to interest expense.

Note 8. Earnings Per Share (EPS)

	Three Months Ended	
	January 31,

Basic earnings per common share	\$ 0.12	\$ 0.40
<u>Diluted:</u>		
Weighted average common shares	44,568	44,497
Effect of dilutive stock options	416	527
Shares applicable to convertible debt	2,590	2,590
Diluted weighted average common shares	47,574	47,614
Diluted earnings per common share	\$ 0.12	\$ 0.39

For the three months ended January 31, 2007 and 2006, we excluded 3,224,533 and 2,137,216 (exercise prices of \$52.40-\$80.51 and \$62.60-\$80.51, respectively) options to purchase Cooper's common stock, respectively, from the computation of diluted EPS because their exercise prices were above the average market price.

Note 9. Share-Based Compensation Plans

The Company has two share-based compensation plans, which include stock options and restricted stock awards. The Second Amended and Restated 2001 Long-Term Incentive Plan (2001 LTIP) and the 2006 Long-Term Incentive Plan for Non-Employee Directors (2006 Directors Plan) are the only plans with stock awards currently available for grant as of January 31, 2007. The 2006 Directors Plan has replaced the 1996 Long-Term Incentive Plan for Non-Employee Directors (1996 Directors Plan), which expired in November 2005 by its terms.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

Share-Based Compensation

Compensation cost associated with share-based awards recognized in fiscal 2007 and fiscal 2006 includes: 1) amortization related to the remaining unvested portion of all stock option awards granted prior to November 1, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123; and 2) amortization related to all stock option awards granted on or subsequent to November 1, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. The compensation and related income tax benefit recognized in the Company's consolidated financial statements for stock options and restricted stock awards were as follows:

	Three Months Ended January 31,	
	2007	2006
	(In millions)	
Selling, general and administrative expenses	\$ 6.7	\$ 4.8
Cost of products sold	0.3	
Research and development expenses	0.2	0.1
Capitalized in inventory	0.5	0.3
Total compensation	\$ 7.7	\$ 5.2
Related income tax benefit	\$ 2.0	\$ 1.4

Cash received from options exercised under all share-based payment arrangements for the three months ended January 31, 2007 and 2006 was approximately \$1.5 million and \$2.5 million, respectively.

Details regarding the valuation and accounting for stock options follow.

The fair value of each share-based award granted after the adoption of SFAS 123R is estimated on the date of grant using the Black-Scholes option valuation model and fair value assumptions. The expected life of the awards is based on the observed and expected time to post-vesting forfeiture and/or exercise. Groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The expected volatility is based on implied volatility from publicly-traded options on the Company's stock at the date of

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

grant, historical implied volatility of the Company's publicly-traded options, historical volatility and other factors. The risk-free interest rate is based on the continuous rates provided by the U.S. Treasury with a term equal to the expected life of the option. The dividend yield is based on the projected annual dividend payment per share, divided by the stock price at the date of grant. The fair value of each option award granted during the three months ended January 31, 2007 and 2006 was estimated on the date of grant using the Black-Scholes option valuation model and weighted-average assumptions in the following table.

	Three Months Ended	
	January 31,	
	2007	2006
Expected life	2.8 to 5.16 years	3.56 to 5.16 years
Expected volatility	30.0% to 30.4%	29.5% to 30.8%
Risk-free interest rate	4.47% to 4.73%	4.37% to 4.52%
Dividend yield	0.09%	0.09%

The status of the Company's stock option plans at January 31, 2007, is summarized below:

	Number of Shares	Weighted- Average Exercise Price Per Share	Weighted- Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value
Outstanding at October 31, 2006	4,988,468	\$ 52.73		
Granted	142,400	\$ 57.78		
Exercised	(28,500)	\$ 51.16		
Forfeited or expired	(36,250)	\$ 67.95		
Outstanding at January 31, 2007	5,066,118	\$ 52.85	6.62	
Vested and exercisable at January 31, 2007	2,189,777	\$ 40.47	6.02	\$ 21,487,569

The weighted-average fair value of each option granted during the three months ended January 31, 2007, estimated as of the grant date using the Black-Scholes option pricing model, for the 2001 LTIP was \$10.61. For the 2006 Directors Plan, the weighted-average fair value of each option granted for the three months ended January 31, 2007 was \$20.36. The total intrinsic value of options exercised during the three months ended January 31, 2007 was \$0.3 million. The expected requisite service periods for options granted in the three months ended January 31, 2007 for employees was 33 months. Directors options and restricted stock grants are expensed on the date of grant as the 2006 Directors Plan does not contain a substantive future requisite service period.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

Stock awards outstanding under the Company's current plans have been granted at prices which are either equal to or above the market value of the stock on the date of grant. Options granted under the 2001 LTIP generally vest over three and one-half to five years based on market and service conditions and expire no later than either five or ten years after the grant date. Options granted under the 2006 Directors Plan and the 1996 Directors Plan generally vest upon achievement of a market condition or in five years and expire no later than ten years after the grant date. Effective November 1, 2005, the Company generally recognizes compensation expense ratably over the vesting period. As of January 31, 2007, there was approximately \$41 million of total unrecognized compensation cost related to nonvested options, which is expected to be recognized over a remaining weighted-average vesting period of 3.28 years.

Note 10. Income Taxes

Cooper's effective tax rate (ETR) (provision for income taxes divided by pretax income) for the first quarter of fiscal 2007 was 21.2 percent. U.S. generally accepted accounting principles (GAAP) require that the projected fiscal year ETR be included in the year-to-date results. The ETR used to record the provision for income taxes for the three-month period ended January 31, 2006 was 11 percent. The increase in the 2007 ETR reflects certain expenses associated with the Ocular integration plan impacting jurisdictions with lower tax rates.

The Company has not provided for Federal income tax on approximately \$399 million of undistributed earnings of its foreign subsidiaries since the Company intends to reinvest this amount outside the United States indefinitely.

Note 11. Employee Benefits

Cooper's Retirement Income Plan (Plan) covers substantially all full-time United States employees. Cooper's contributions are designed to fund normal cost on a current basis and to fund over 30 years the estimated prior service cost of benefit improvements (5 years for annual gains and losses). The unit credit actuarial cost method is used to determine the annual cost. Cooper pays the entire cost of the Plan and funds such costs as they accrue. Virtually all of the assets of the Plan are comprised of equity and fixed income funds.

Table of Contents

Expected return on assets	(458)	(421)
Amortization of prior service cost	7	6
Amortization of transition obligation	6	8
Recognized net actuarial loss	43	116
 Net periodic pension cost	 \$ 766	 \$ 837

No pension contributions were made during either period.

Note 12. Cash Dividends

We paid a semiannual dividend of approximately \$1.3 million or 3 cents per share on January 5, 2007, to stockholders of record on December 15, 2006.

Note 13. Contingencies**Legal Proceedings**

The Company is from time to time involved in various litigation and legal matters arising in the normal course of its business operations. By describing any particular matter, the Company does not intend to imply that it or its legal advisors have concluded or believe that the outcome of any of those particular matters is or is not likely to have a material adverse impact upon the Company's consolidated financial position, cash flows or results of operations.

On February 15, 2006, Alvin L. Levine filed a putative securities class action lawsuit in the United States District Court for the Central District of California, Case No. SACV-06-169 CJC, against the Company, A. Thomas Bender, its Chairman of the Board, President and Chief Executive Officer and a director, Robert S. Weiss, its Executive Vice President, Chief Operating Officer and a director, and John D. Fruth, a director. Two similar putative class action lawsuits were also filed in the United States District Court for the Central District of California, Case Nos. SACV-06-306 CJC and SACV-06-331 CJC. On May 19, 2006, the Court consolidated all three actions under the heading In re Cooper Companies, Inc. Securities Litigation and selected a lead plaintiff and lead counsel pursuant to the provisions of the Private Securities Litigation Reform Act of 1995, 15 U.S.C. § 78u-4.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

The lead plaintiff filed a consolidated complaint on July 31, 2006. The consolidated complaint was filed on behalf of all purchasers of the Company's securities between July 28, 2004 and December 12, 2005, including persons who received Company securities in exchange for their shares of Ocular in the January 2005 merger pursuant to which the Company acquired Ocular. In addition to the Company, Messrs. Bender, Weiss, and Fruth, the consolidated complaint names as defendants several of the Company's current officers and directors, and one former officer.

The consolidated complaint purports to allege violations of Sections 10(b) and 20(a) of the Securities and Exchange Act of 1934 by, among other things, contending that: (a) the Company improperly accounted for assets acquired in the Ocular merger by improperly allocating \$100 million of acquired customer relationships and manufacturing technology to goodwill (which is not amortized against earnings) instead of to intangible assets other than goodwill (which are amortized against earnings); (b) the Company's earnings guidance reflected the improper accounting for intangible assets and was inflated by (among other things) the amount of the understated amortization expense; (c) contrary to certain alleged statements, Ocular had flooded the trade channel with its older products as its Premier lenses were not being well received by customers; (d) the Company's aggressive revenue and growth targets for 2005 and beyond lacked any reasonable basis when made and did not reflect realistically achievable results primarily because of the absence of a two-week silicone hydrogel product; (e) the Company's internal controls were inadequate making it possible to misstate earnings by improperly accounting for the merger with Ocular; and (f) sales force integration was not materializing and was fraught with dissension and acrimony.

On September 29, 2006, the Company and the individual defendants moved to dismiss the consolidated complaint. A hearing on the motion is currently scheduled for May 4, 2007. The Company intends to vigorously defend this matter.

On March 17, 2006, Eben Brice filed a purported shareholder derivative complaint in the United States District Court for the Central District of California, Case No. 8:06-CV-00300-CJC-RNB, against several current and former officers and directors of the Company. The Company is named as a nominal defendant. Following the filing of the first purported shareholder derivative lawsuit, three similar purported shareholder derivative suits were filed in the United States District Court for the Central District of California. All four actions have been consolidated under the heading *In re Cooper Companies, Inc. Derivative Litigation*, and the Court selected a lead plaintiff and lead counsel.

On September 11, 2006, plaintiffs filed a consolidated amended complaint. The complaint purports to allege causes of action for breach of fiduciary duty, insider trading, breach of contract, and unjust enrichment, and largely repeats the allegations in the class action securities case, described above. The Company and the individual defendants have yet to respond to the consolidated amended complaint.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

In addition to the derivative action pending in federal court, three similar purported shareholder actions were filed in the Superior Court for the State of California for the County of Alameda. These actions have been consolidated under the heading In re Cooper Companies, Inc. Shareholder Derivative Litigation, Case No. RG06260748. A consolidated amended complaint was filed on September 18, 2006.

On November 29, 2006 the Superior Court for the County of Alameda entered an order staying the action pending the resolution of the federal derivative action.

Both the state and federal derivative action are derivative in nature and do not seek damages from the Company.

On October 5, 2004, Bausch & Lomb Incorporated (Bausch & Lomb) filed a lawsuit against Ocular Sciences, Inc. in the U.S. District Court for the Western District of New York alleging that its Biomedics® toric soft contact lens and its private label equivalents infringe Bausch & Lomb's U.S. Patent No. 6,113,236 relating to toric contact lenses having optimized thickness profiles. The complaint seeks an award of damages, including multiple damages, attorneys' fees and costs and an injunction preventing the alleged infringement. The parties have filed claim construction briefs for the court to consider for its Markman order, and fact discovery substantially concluded during the first quarter of fiscal 2006. Based on our review of the complaint and the patent, as well as other relevant information obtained in discovery, we believe this lawsuit is without merit and plan to continue to pursue a vigorous defense.

United States Tax Court Litigation: On September 29, 2004, the Internal Revenue Service (IRS) issued Notices of Deficiency to Ocular in connection with its audit of Ocular's income tax returns for the years 1999, 2000 and 2001. The Notice primarily pertains to transfer pricing issues and an alternative adjustment under the anti-deferral provisions of Subpart F of the Internal Revenue Code and asserts that \$44.8 million of additional taxes is owed for these years, plus unspecified interest and approximately \$12.7 million in related penalties.

On December 29, 2004, Ocular filed a Petition for the United States Tax Court to redetermine the deficiencies asserted by the IRS. On February 11, 2005, the IRS filed its Answer to the Petition generally denying the various arguments made by Ocular against the assertions of the IRS. The Company believes that the IRS may not have fully reviewed the facts before making its assessment of additional taxes, and that its position misapplies the law and is incorrect. Discovery began on March 7, 2005, and the Company intends to fully access the work product of the IRS to more fully ascertain an understanding of its position.

The amount of taxes paid for these years was supported by pricing studies performed by an international firm of tax advisors. The resulting intercompany transactions and tax payments reflected pricing terms that were and are consistent with industry practice for arm's length transactions with unrelated third parties. The Company intends to vigorously contest the IRS's claims, and believes that the ultimate outcome of this matter will not have a material adverse effect on financial condition, liquidity or cash flow of the Company.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements, Continued

(Unaudited)

The Company continues to be subject to the examination of Ocular's income tax returns by the IRS and other fiscal authorities, and we cannot assure that the outcomes from these examinations will not have a material adverse effect on the Company's operating results and financial condition. Moreover, the Company's future effective tax rates could be adversely affected by earnings being higher than anticipated in countries where it has higher statutory rates or lower than expected in countries where it has lower statutory rates, by changes in the valuation of deferred tax assets or liabilities, or by changes in tax laws or interpretations thereof.

On April 10, 2006, CooperVision filed a lawsuit against CIBA Vision (CIBA) in the United States District Court for the Eastern District of Texas alleging that CIBA is infringing United States Patent Nos. 6,431,706, 6,923,538, 6,467,903, 6,857,740 and 6,971,746 by, among other things, making, using, selling and offering to sell its O2Optix line of contact lenses. On June 5, 2006, CIBA filed an answer denying infringement and asserting certain affirmative defenses. The Court has set a trial date of January 8, 2008.

On April 11, 2006, CooperVision filed a lawsuit against CIBA in the United States District Court for the District of Delaware seeking a judicial declaration that CooperVision's Biofinity line of silicone hydrogel contact lenses does not infringe any valid and enforceable claims of United States Patent Nos. 5,760,100, 5,776,999, 5,789,461, 5,849,811, 5,965,631 and 6,951,894. On July 5, 2006, CIBA answered the complaint by denying the allegation that CooperVision's Biofinity line of silicone hydrogel contact lenses does not infringe any valid and enforceable claims of the foregoing patents. The answer also asks the Court for permission to interpose a counterclaim for infringement in the future if, after examination of the lenses, CIBA believes they infringe the foregoing patents, which counterclaim would seek both damages and injunctive relief. The Court has set a trial date of October 6, 2008.

On November 21, 2006, CooperVision filed a lawsuit against CIBA in the United States District Court for the Eastern District of Texas alleging that CIBA is infringing United States Patent Nos. 7,134,753 and 7,133,174 by, among other things, making, using, selling and offering to sell its O2Optix toric line of contact lenses. On December 11, 2006, CIBA filed an answer denying infringement and asserting certain affirmative defenses. The Court has set a trial date of January 8, 2008.

Note 14. Business Segment Information

Cooper uses operating income, as presented in our financial reports, as the primary measure of segment profitability. We do not allocate costs from corporate functions to the segments' operating income. Items below operating income are not considered when measuring the profitability of a segment. We use the same accounting policies to generate segment results as we do for our consolidated results.

Note 15. Subsequent Events

Acquisition of Wallach Surgical Devices, Inc. (Wallach): On February 22, 2007, CSI acquired all of the outstanding shares of Wallach for \$20 million in cash. Wallach's products consist of various diagnostic and therapeutic medical instruments primarily for in-office use in women's healthcare and other specialty instruments relating to dermatology, ophthalmology, anesthesiology, dentistry and veterinary medicine. We are in the process of obtaining a third-party valuation of the business using income approach valuation methodology. Research and development assets, if any, with no alternative future use will be written off to research and development on our consolidated statement of income once determined.

Item 2. Management's Discussion and Analysis of Financial Condition
and Results of Operations

Note numbers refer to Notes to Consolidated Condensed Financial Statements in Item 1. Financial Statements.

Forward-Looking Statements: This Quarterly Report on Form 10-Q contains forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. These include certain statements about the integration of the Ocular business, our capital resources, performance and results of operations. In addition, all statements regarding anticipated growth in our revenue, anticipated market conditions, planned product launches and results of operations are forward-looking. To identify these statements look for words like believes, expects, may, will, should, could, seeks, intends, plans, estimates or anticipates and similar words or phrases. Discussions of strategy, plans or intentions often contain forward-looking statements. Forward-looking statements necessarily depend on assumptions, data or methods that may be incorrect or imprecise and are subject to risks and uncertainties. These include the risk that acquired businesses will not be integrated successfully into CVI and CSI, including the risk that the Company may not continue to realize anticipated benefits from its cost-cutting measures and inherent in accounting assumptions made regarding the acquisitions; the risks that CVI's new products will be delayed or not occur at all, or that sales will be limited following introduction due to manufacturing constraints or poor market acceptance; risks related to implementation of information technology systems covering the Company's businesses and any delays in such implementation or other events which could result in management having to report a material weakness in the effectiveness of the Company's internal control over financial reporting in its 2007 Annual Report on Form 10-K; risks with respect to the ultimate validity and enforceability of the Company's patent applications and patents and the possible infringement of the intellectual property of others; and the impact of the Lone Star and Wallach acquisitions on CSI's and the Company's revenue, earnings and margins.

Events, among others, that could cause our actual results and future actions of the Company to differ materially from those described in forward-looking statements include major changes in business conditions, a major disruption in the operations of our manufacturing or distribution facilities, new competitors or technologies, significant delays in new product introductions, the impact of an undetected virus on our computer systems, acquisition integration delays or costs, increases in interest rates, foreign currency exchange exposure, investments in research and development and other start-up projects, variations in stock option expenses caused by stock price movement or other assumptions inherent in accounting for stock options, dilution to earnings per share from acquisitions or issuing stock, worldwide regulatory issues, including product recalls and the effect of healthcare reform legislation, cost of complying with corporate governance requirements, changes in tax laws or their interpretation, changes in geographic profit mix effecting tax rates, significant environmental cleanup costs above those already accrued, litigation costs including any related settlements or judgments, the adverse effects of natural disasters on patients, practitioners and product distribution, cost of business divestitures, changes in expected utilization of recognized net operating loss carry forwards, the requirement to provide for a significant liability or to write off a significant asset, including impaired goodwill, changes in accounting principles or estimates and other events described in our Securities and Exchange Commission filings, including the Business and Risk Factors

and Results of Operations, Continued

sections in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2006, as such Risk Factors may be updated in quarterly filings. We caution investors that forward-looking statements reflect our analysis only on their stated date. We disclaim any intent to update them except as required by law.

Results of Operations

In this section we discuss the results of our operations for the first quarter of fiscal 2007 and compare them with the same period of fiscal 2006. We discuss our cash flows and current financial condition under Capital Resources and Liquidity.

First Quarter Highlights:

Sales of \$219.4 million, up 7%, 4% in constant currency.

Gross profit up 1%.

Operating income down 53% to \$15.8 million.

Results include \$7.2 million of stock option expenses, \$4.2 million write-off of acquired in-process research and development, \$5.3 million of production start up costs, \$6.6 million of other restructuring and integration costs including \$3.5 million of distribution rationalization costs, \$1.9 million of intellectual property and securities litigation costs and a \$0.9 million write-off of net deferred financing costs.

Diluted earnings per share of 12 cents, down from 39 cents.

Outlook

We are in the process of developing and launching a number of new contact lens products that we believe will result in Cooper continuing to have a broad and competitive product line. New products planned for introduction over the next two years include lenses utilizing silicone hydrogel materials and new lens designs, including multifocal lenses. Contact lenses utilizing silicone hydrogel materials have grown significantly, and this material has become a major product material in the industry. The Company has launched one silicone hydrogel lens design with sales in Europe and a limited rollout in the United States. While initial customer reaction from this lens has been favorable, our future growth may be limited by several critical factors relating to silicone hydrogel materials. We face normal challenges associated with developing a new manufacturing platform and are incurring additional manufacturing costs as we attempt to ramp up silicone hydrogel volumes and improve efficiencies. We are also engaged in litigation with regard to our silicone hydrogel product and certain lens design patents. We believe that our ability to succeed with silicone hydrogel products will be an important factor affecting future levels of sales growth and profitability.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Conditionand Results of Operations, Continued

Regarding capital resources, we believe that cash and cash equivalents on hand of \$23.5 million plus cash from operating activities and existing credit facilities will fund future operations, capital expenditures, cash dividends and smaller acquisitions. We expect capital expenditures in fiscal 2007 of approximately \$160 million, primarily to expand manufacturing capacity, consolidate distribution centers and for information technology.

Selected Statistical Information – Percentage of Sales and Growth

	Percent of Sales Three Months Ended January 31,		%
	2007	2006	
Net sales	100%	100%	7%
Cost of sales	41%	37%	17%
Gross profit	59%	63%	1%
Selling, general and administrative expense	44%	41%	15%
Research and development expense	5%	3%	87%
Restructuring costs	1%	1%	39%
Amortization of intangibles	2%	2%	(2%)
Operating income	7%	16%	(53%)

Net Sales: Cooper's two business units, CooperVision and CooperSurgical, generate all its revenue:

CVI markets, develops and manufacturers a broad range of contact lenses for the worldwide vision care market.

CSI markets, develops and manufacturers medical devices, diagnostic products and surgical instruments and accessories used primarily by gynecologists and obstetricians.

Our consolidated net sales grew \$13.7 million, or 7%:

	Three Months Ended January 31,		%
	2007	2006	
	(\$ in millions)		Increase
CVI	\$ 183.6	\$ 175.6	5%
CSI	35.8	30.1	19%
	\$ 219.4	\$ 205.7	7%

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Conditionand Results of Operations, Continued**CVI Net Sales by Market:**

Segment	Three Months Ended		
	2007	2006	Growth
	January 31,		
	(\$ in millions)		
Americas	\$ 81.4	\$ 83.8	(3%)
Europe	70.4	63.4	11%
Asia-Pacific	31.8	28.4	12%
Total	\$ 183.6	\$ 175.6	5%

CVI's worldwide net sales grew 5% in the quarter, 1% in constant currency. Americas sales declined 3% as reported and in constant currency. European sales grew 11%, 2% in constant currency. Sales to the Asia-Pacific region grew 12% as reported and in constant currency.

CVI Net Sales: Practitioner and patient preferences in the worldwide contact lens market continue to change. The major shifts are from:

Conventional lenses replaced annually to disposable and frequently replaced lenses. Disposable lenses are designed for either daily, two-week or monthly replacement; frequently replaced lenses are designed for replacement after one to three months.

Commodity lenses to specialty lenses including toric, multifocal and cosmetic lenses.

Commodity spherical lenses to value-added spherical lenses such as continuous wear lenses and lenses to alleviate dry eye symptoms as well as lenses with aspherical optical properties or higher oxygen permeable lenses such as silicone hydrogels.

Although these shifts generally favor CVI's core product lines of specialty lenses, *PC Technology* brand spherical lenses, silicone hydrogel spherical lenses and single-use spherical lenses, which now comprise 68% of CVI's worldwide business, it is important that CVI develop a range of silicone hydrogel products. In fiscal 2006, CVI commenced sales of a silicone hydrogel product in Europe and a limited rollout in the United States and is in the process of expanding its manufacturing capacity to grow sales.

Definitions: Contact lens revenue includes sales of conventional, disposable, long-term extended wear lenses and single-use spherical lenses, some of which are aspherically designed, and specialty lenses—toric lenses, cosmetic lenses and multifocal lenses.

Aspheric lenses correct for near- and farsightedness and have additional optical properties that help improve visual acuity in low light conditions and can correct low levels of astigmatism and low levels of presbyopia, an age-related vision defect.

Edgar Filing: COOPER COMPANIES INC - Form 10-Q

Toric lens designs correct astigmatism by adding the additional optical properties of cylinder and axis, which correct for irregularities in the shape of the cornea.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Conditionand Results of Operations, Continued

Cosmetic lenses are opaque and color enhancing lenses that alter the natural appearance of the eye.

Multifocal lens designs correct presbyopia.

Proclear lenses, manufactured using proprietary phosphorylcholine (PC) technology, help enhance tissue/device compatibility and offer improved lens comfort.

Net sales for the quarter grew 5% with single-use spheres up 22%, at \$25.3 million, all disposable spheres up 5% and total spheres up 4%. Disposable toric sales grew 15%, disposable multifocal sales were up 17% and total toric sales grew 8%. CVI's line of specialty lenses grew 9% during the quarter. *Proclear* products continued global market share gains as *Proclear* toric sales increased 43% to \$10.4 million, *Proclear* spheres, including *Biomedics XC* increased 21% to \$21.5 million and *Proclear* multifocal lenses, including *Biomedics XC*, increased 51% to \$6.7 million.

Sales growth is driven primarily through increases in the volume of lenses sold as the market continues to move to more frequent replacement. While unit growth and product mix have influenced revenue growth, average realized prices by product have not materially influenced revenue growth.

CSI Net Sales: CSI's first quarter net sales increased 19% to \$35.8 million. CSI's organic sales grew about 10% over last year's first quarter. Women's healthcare products used primarily by obstetricians and gynecologists generate about 93% of CSI's sales. The balance are sales of medical devices outside of women's healthcare which CSI does not actively market. CSI's acquisition during the period did not significantly affect Cooper's results of operations. While unit growth and product mix have influenced organic revenue growth, average realized prices by product have not materially influenced organic revenue growth.

Cost of Sales/Gross Profit: Gross profit as a percentage of net sales (margin) was:

	Margin	
	Three Months Ended	
	January 31,	
	2007	2006
CVI	59%	64%
CSI	60%	57%
Consolidated	59%	63%

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition**and Results of Operations**

CVI's margin was 59% for the first quarter of fiscal 2007 compared with 64% for the first quarter last year, as a result of manufacturing inefficiencies related to new products and integration activities, changing product mix and unfavorable foreign currency that flowed through cost of sales. The changing product mix included a shift to lower margin sphere products, including single-use spheres that represented 14% of lens sales in the current period compared to 12% in the first quarter of fiscal 2006. CVI's fiscal 2007 cost of sales include stock option expense, production start-up costs for our new silicone hydrogel products and costs related to our conversion of single-use lenses to new strip-blister packaging. These costs amounted to \$6.2 million or 3% of sales in the three-month period. For 2006, cost of sales included restructuring costs and profits and losses associated with product lines being phased out, which were less than 1% of sales in the three-month period. Manufacturing inefficiencies associated with the ramp up of new products and plant realignment activities are expected to continue throughout the remainder of the year.

CSI's margin was 60%, compared with 57% for the first quarter last year. Higher gross margin reflects the changing product mix and continuing efficiencies associated with recent acquisitions.

Selling, General and Administrative (SGA) Expense:

	Three Months Ended January 31,				
	% Net		% Net		
	2007	Sales	2006	Sales	% Increase
	(\$ in millions)				
CVI	\$ 73.9	40%	\$ 65.1	37%	13%
CSI	13.5	38%	10.7	36%	27%
Headquarters	10.1	N/A	8.6	N/A	18%
	\$ 97.5	44%	\$ 84.4	41%	15%

In the first quarter of fiscal 2007, consolidated SGA increased 15% and was 44% of revenue compared to 41% of sales in the first quarter of fiscal 2006. The increase in SGA is primarily due to restructuring and integration costs, including the rationalization of distribution centers that increased to \$4.1 million from \$835,000 in the first quarter of fiscal 2006 and intellectual property and securities litigation costs of \$1.9 million that were not in the prior period along with costs to support the increase in sales. We expect litigation expenses related to intellectual property matters and the securities litigation to continue to be significant in 2007. Corporate headquarters' expenses in 2007, which increased 18% to \$10.1 million, include \$4.6 million of share-based compensation expense compared to \$3.4 million in the prior year.

Research and Development Expense: During the first fiscal quarter, CVI's research and development expenditures were \$5.8 million, up 10% over the first quarter of fiscal 2006 and were 3% of sales in both periods. CVI's research and development activities include programs to develop silicone hydrogel products and single-use product lines.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Conditionand Results of Operations, Continued

Share-Based Compensation Plans: Compensation cost associated with share-based awards recognized in fiscal 2007 and fiscal 2006 includes: 1) amortization related to the remaining unvested portion of all stock option awards granted prior to November 1, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123; and 2) amortization related to all stock option awards granted on or subsequent to November 1, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. The compensation and related income tax benefit recognized in the Company's consolidated financial statements for stock options and restricted stock awards were as follows:

	Three Months Ended	
	January 31,	
	2007	2006
	(In millions)	
Selling, general and administrative expenses	\$ 6.7	\$ 4.8
Cost of products sold	0.3	
Research and development expenses	0.2	0.1
Capitalized in inventory	0.5	0.3
Total compensation	\$ 7.7	\$ 5.2
Related income tax benefit	\$ 2.0	\$ 1.4

Cash received from options exercised under all share-based payment arrangements for the three months ended January 31, 2007 and 2006 was approximately \$1.5 million and \$2.5 million, respectively.

The Company continues to estimate the fair value of each share-based award on the date of grant using the Black-Scholes option valuation model. Groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. Previously, under SFAS 123, the Company did not utilize separate employee groupings in the determination of option values. The Company now estimates option forfeitures based on historical data for each employee grouping and adjusts the rate to expected forfeitures periodically. The adjustment of the forfeiture rate will result in a cumulative catch-up adjustment in the period the forfeiture estimate is changed.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Conditionand Results of Operations, Continued**Capital Resources and Liquidity****First Quarter Highlights:**

Operating cash flow of \$0.8 million vs. \$29.3 million in the first quarter of fiscal 2006.

Cash payments for acquisitions totaled \$33.9 million.

Expenditures for purchases of property, plant and equipment (PP&E) \$50.0 million vs. \$42.2 million in 2006's first quarter.

Comparative Statistics (\$ in millions):

	January 31, 2007	October 31, 2006
Cash and cash equivalents	\$ 23.5	\$ 8.2
Total assets	\$ 2,469.0	\$ 2,352.6
Working capital	\$ 263.8	\$ 180.3
Total debt	\$ 853.7	\$ 742.7
Stockholders' equity	\$ 1,402.6	\$ 1,378.5
Ratio of debt to equity	0.61:1	0.54:1
Debt as a percentage of total capitalization	38%	35%
Operating cash flow twelve months ended	\$ 122.0	\$ 150.5

Operating Cash Flow: Cash flow provided by operating activities totaled \$0.8 million in the first quarter of fiscal 2007 and \$122 million over the twelve-month period ended January 31, 2007.

Working capital increased \$83.5 million in the first quarter of fiscal 2007 due to increases of \$15.3 million in cash, \$10.2 million in receivables, \$11.5 million in inventory, \$1.4 million in prepaids and other assets and decreases of \$21 million in current accrued liabilities and accounts payable and \$25.2 million in short term debt. This activity was partially offset as current deferred tax assets decreased \$1.1 million. The significant increase in working capital is primarily due to the refinancing of Cooper's credit facility, which reduced the current portion of debt, along with the building of inventory in anticipation of new product launches and distribution center consolidations and increasing sales levels.

At the end of the first quarter of fiscal 2007, Cooper's inventory months on hand (MOH) increased to 8.3 from 7.8 in last year's first quarter as inventory was built to support new product launches and distribution center consolidations. Also, our days sales outstanding (DSO) decreased to 64 days from 68 days in last year's first quarter. Based on our experience and knowledge of our customers and our analysis of inventoried products and product levels, we believe that our accounts receivable and inventories are recoverable.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition

and Results of Operations, Continued

Investing Cash Flow: The cash outflow of \$83.9 million from investing activities was driven by payments of \$33.9 million for acquisitions and capital expenditures of \$50.0 million, used primarily to expand manufacturing capacity, consolidate distribution centers and continue the rollout of new information systems. Subsequent to the end of the period, CSI acquired Wallach Surgical Devices, Inc. for \$20 million in cash.

Financing Cash Flow: The cash inflow of \$98.6 million from financing activities was driven by net proceeds from long-term debt of \$98.4 million, net proceeds from short-term debt of \$10.4 million and \$1.5 million from the exercise of stock options, partially offset by payment of debt acquisition costs of \$10.4 million and dividends on our common stock of \$1.3 million paid in the first quarter of 2007.

Estimates and Critical Accounting Policies

Management estimates and judgments are an integral part of financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP). We believe that the critical accounting policies described in this section address the more significant estimates required of management when preparing our consolidated financial statements in accordance with GAAP. We consider an accounting estimate critical if changes in the estimate may have a material impact on our financial condition or results of operations. We believe that the accounting estimates employed are appropriate and resulting balances are reasonable; however, actual results could differ from the original estimates, requiring adjustment to these balances in future periods.

Revenue recognition We recognize revenue when it is realized or realizable and earned, based on terms of sale with the customer, where persuasive evidence of an agreement exists, delivery has occurred, the seller's price is fixed and determinable and collectibility is reasonably assured. For contact lenses as well as CSI medical devices, diagnostic products and surgical instruments and accessories, this primarily occurs upon product shipment, when risk of ownership transfers to our customers. We believe our revenue recognition policies are appropriate in all circumstances and that our policies are reflective of our customer arrangements. We record, based on historical statistics, estimated reductions to revenue for customer incentive programs offered including cash discounts, promotional and advertising allowances, volume discounts, contractual pricing allowances, rebates and specifically established customer product return programs. While estimates are involved, historically, most of these programs have not been major factors in our business since a high percentage of our revenue is from direct sales to doctors.

Allowance for doubtful accounts Our reported balance of accounts receivable, net of the allowance for doubtful accounts, represents our estimate of the amount that ultimately will be realized in cash. We review the adequacy of our allowance for doubtful accounts on an ongoing basis, using historical payment trends and the age of the receivables and knowledge of our individual customers. When our analyses indicate, we increase or decrease our allowance accordingly. However, if the financial condition of our customers were to deteriorate, additional allowances may be required. While estimates are involved, bad debts historically have not been a significant factor given the diversity of our customer base, well established historical payment patterns and the fact that patients require satisfaction of healthcare needs in both strong and weak economies.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition

and Results of Operations, Continued

Net realizable value of inventory In assessing the value of inventories, we must make estimates and judgments regarding aging of inventories and other relevant issues potentially affecting the saleable condition of products and estimated prices at which those products will sell. On an ongoing basis, we review the carrying value of our inventory, measuring number of months on hand and other indications of salability, and reduce the value of inventory if there are indications that the carrying value is greater than market. At the point of the loss recognition, a new, lower-cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis. While estimates are involved, historically, obsolescence has not been a significant factor due to long product dating and lengthy product life cycles. We target to keep, on average, about seven months of inventory on hand to maintain high customer service levels given the complexity of our specialty lens product portfolio.

Valuation of goodwill We account for goodwill and evaluate our goodwill balances and test them for impairment in accordance with the provisions of Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets*, (SFAS 142). We no longer amortize goodwill. The SFAS 142 goodwill impairment test is a two-step process. Initially, we compare the book value of net assets to the fair value of each reporting unit that has goodwill assigned to it. If the fair value is determined to be less than the book value, a second step is performed to compute the amount of the impairment. When available and as appropriate, we use comparative market multiples to corroborate fair value results. A reporting unit is the level of reporting at which goodwill is tested for impairment.

Our reporting units are the same as our business segments CVI and CSI reflecting the way that we manage our business. We test goodwill for impairment annually during the third fiscal quarter and when an event occurs or circumstances change such that it is reasonably possible that impairment may exist. We performed an impairment test in our third fiscal quarter 2006, and our analysis indicated that we had no impairment of goodwill. The valuation of each of our reporting units was determined using a combination of discounted cash flows, an income valuation approach and the guideline company method, a market valuation approach.

Business combinations We routinely consummate business combinations. We allocate the purchase price of acquisitions based on our estimates and judgments of the fair value of net assets purchased, acquisition costs incurred and intangibles other than goodwill. On individually significant acquisitions, we utilize independent valuation experts to provide a basis in order to refine the purchase price allocation, if appropriate. Results of operations for acquired companies are included in our consolidated results of operations from the date of acquisition.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition

and Results of Operations, Continued

Income taxes The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and for tax losses and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized.

As part of the process of preparing our consolidated financial statements, we must estimate our income tax expense for each of the jurisdictions in which we operate. This process requires significant management judgments and involves estimating our current tax exposures in each jurisdiction including the impact, if any, of additional taxes resulting from tax examinations as well as judging the recoverability of deferred tax assets. To the extent recovery of deferred tax assets is not likely based on our estimation of future taxable income in each jurisdiction, a valuation allowance is established. Tax exposures can involve complex issues and may require an extended period to resolve. Frequent changes in tax laws in each jurisdiction complicate future estimates. To determine the quarterly tax rate, we are required to estimate full-year income and the related income tax expense in each jurisdiction. We update the estimated effective tax rate for the effect of significant unusual items as they are identified. Changes in the geographic mix or estimated level of annual pre-tax income can affect the overall effective tax rate, and such changes could be material.

Share-based compensation Effective November 1, 2005, we adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R) as interpreted by SEC Staff Accounting Bulletin No. 107, using the modified prospective transition method. Prior periods have not been restated. See Note 10, Stock Plans in our Annual Report on Form 10-K for the fiscal year ended October 31, 2006, for a further description of the impact of the adoption of SFAS 123R and the Company's share-based compensation plans.

Under the fair value recognition provisions of SFAS 123R, share-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the vesting period. Determining the fair value of share-based awards at the grant date requires judgment, including estimating Cooper's stock price volatility, employee stock option exercise behaviors and employee option forfeiture rates.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition

and Results of Operations, Continued

The expected life of the share-based awards is based on the observed and expected time to post-vesting forfeiture and/or exercise. Groups of employees that have similar historical exercise behavior are considered separately for valuation purposes. The expected volatility is based on implied volatility from publicly-traded options, historical volatility on the Company's stock at the date of grant, historical implied volatility of the Company's publicly-traded options and other factors. The risk-free interest rate is based on the continuous rates provided by the U.S. Treasury with a term equal to the expected life of the award. The dividend yield is based on the projected annual dividend payment per share, divided by the stock price at the date of grant.

As share-based compensation expense recognized in the Consolidated Statement of Income is based on awards ultimately expected to vest, the amount of expense has been reduced for estimated forfeitures. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience.

If factors change and the Company employs different assumptions in the application of SFAS 123R, the compensation expense that it records in future periods may differ significantly from what it has recorded in the current period.

New Accounting Pronouncements

In September 2006, the SEC staff issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108). In SAB 108, the SEC staff established an approach that requires quantification of financial statement misstatements based on the effects of the misstatements on each of the Company's financial statements and the related financial statement disclosures. SAB 108 permits public companies to initially apply its provisions either by (i) restating prior financial statements or (ii) recording the cumulative effect as adjustments to the carrying values of assets and liabilities with an offsetting adjustment recorded to the opening balance of retained earnings. The Company is required to adopt SAB 108 by the end of fiscal 2007. The Company has not completed its analysis but does not expect adoption to have a significant impact on the Company's results of operations or financial condition.

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact SFAS 157 will have on its consolidated financial statements.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition

and Results of Operations, Continued

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106 and 132(R)* (SFAS 158). SFAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. SFAS 158 also requires an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. This statement is effective for financial statements as of the end of fiscal years ending after December 15, 2006. The Company is currently evaluating the impact SFAS 158 will have on its consolidated financial statements.

In July 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 applies to all tax positions related to income taxes subject to Statement SFAS No. 109, *Accounting for Income Taxes* (SFAS 109). Under FIN 48, a company would recognize the benefit from a tax position only if it is more-likely-than-not that the position would be sustained upon audit based solely on the technical merits of the tax position. FIN 48 clarifies how a company would measure the income tax benefits from the tax positions that are recognized, provides guidance as to the timing of the derecognition of previously recognized tax benefits and describes the methods for classifying and disclosing the liabilities within the financial statements for any unrecognized tax benefits. FIN 48 also addresses when a company should record interest and penalties related to tax positions and how the interest and penalties may be classified within the income statement and presented in the balance sheet. FIN 48 is effective for fiscal years beginning after December 15, 2006. For the Company, FIN 48 will be effective for our 2008 fiscal year. Differences between the amounts recognized prior to and after the adoption of FIN 48 would be accounted for as a cumulative effect adjustment to the beginning balance of retained earnings. The Company is currently evaluating FIN 48 and its possible impacts on the Company's financial statements. Upon adoption, there is a possibility that the cumulative effect would result in a charge or benefit to the beginning balance of retained earnings, increases or decreases in future effective tax rates, and/or increases in future effective tax rate volatility.

In February 2007, FASB Issued SFAS No. 159, *Establishing the Fair Value Option for Financial Assets and Liabilities* (SFAS 159). The Financial Accounting Standards Board has issued SFAS 159 to permit all entities to choose to elect, at specified election dates, to measure eligible financial instruments at fair value. An entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date, and recognize upfront costs and fees related to those items in earnings as incurred and not deferred. SFAS 159 applies to fiscal years beginning after November 15, 2007, or our 2009 fiscal year, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS 157, *Fair Value Measurements*. An entity is prohibited from retrospectively applying SFAS 159, unless it chooses early adoption. SFAS 159 also applies to eligible items existing at November 15, 2007 (or early adoption date). The Company has not completed its analysis but does not expect the adoption of SFAS 159 to have a material effect on the Company's financial condition.

Item 2. Management's Discussion and Analysis of Financial Condition

and Results of Operations, Continued

Risk Management

We are exposed to risks caused by changes in foreign exchange, principally our pound sterling and euro denominated debt and receivables, and from operations in foreign currencies. We have taken steps to minimize our balance sheet exposure. We are also exposed to risks associated with changes in interest rates, as the interest rate on our Revolver under our new credit facility varies with the London Interbank Offered Rate. The significant increase in debt following the acquisition of Ocular has significantly increased the risk associated with changes in interest rates. We have decreased this interest rate risk by hedging approximately \$250 million of variable rate debt effectively converting it to fixed rate debt for periods of up to one year.

Credit Facility

On January 31, 2007, Cooper refinanced its existing \$750 million syndicated bank credit facility, which consisted of a \$250 million term loan and a \$500 million revolving credit facility, with a new \$650 million syndicated Senior Unsecured Revolving Line of Credit (Revolver) and \$350 million aggregate principal amount of 7.125% of Senior Notes, described below. The refinancing extends the maturity and provides additional borrowing flexibility along with lower overall pricing relative to the prior agreement. In addition, the Company has the ability from time to time to increase the size of the Revolver by up to an additional \$250 million. KeyBank led the Revolver refinancing, which resulted in a number of the banks retaining or increasing their participation in the agreement. The Revolver matures on January 31, 2012.

Interest rates for the Revolver are based on the London Interbank Offered Rate (LIBOR) plus additional basis points determined by certain ratios of debt to pro forma earnings before interest, taxes, depreciation and amortization (EBITDA), as defined in the credit agreement. These range from 75 to 150 basis points. As of January 31, 2007, the additional basis points were 150.

The credit agreement:

Requires that the ratio of Consolidated Pro Forma EBITDA to Consolidated Interest Expense (as defined, Interest Coverage Ratio) be at least 3.0 to 1.0 at all times.

Requires that the ratio of Consolidated Funded Indebtedness to Consolidated Pro Forma EBITDA (as defined, Total Leverage Ratio) be no higher than 4.00 to 1.00 from January 31, 2007 through October 31, 2009 and 3.75 to 1.00 thereafter.

At January 31, 2006, the Company's Interest Coverage Ratio was 6.92 to 1.00 and the Total Leverage Ratio was 3.56 to 1.00.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Conditionand Results of Operations, Continued

The Company wrote off about \$0.9 million of debt issuance costs in interest expense as a result of extinguishing the term loan. The remaining \$1.7 million of existing debt issuance costs and the \$10.4 million of costs incurred to refinance the Revolver and Notes are carried in other assets and amortized to interest expense over the life of the credit facility.

Senior Notes

On January 31, 2007, the Company issued \$350 million aggregate principal amount of 7.125% Senior Notes (the Notes) due February 15, 2015. The Notes were offered in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. The Notes pay interest semi-annually on February 15 and August 15 of each year, beginning August 15, 2007. We may redeem some or all of the Notes at any time prior to February 15, 2011 at a price equal to 100% of the principal amount of the Notes redeemed plus accrued and unpaid interest to the redemption date and a premium. We may redeem some or all of the Notes at any time on or after February 15, 2011, at the redemption prices (expressed as percentages of principal amounts) set forth below, plus accrued and unpaid interest to the redemption date and additional interest (if we fail to comply with certain obligations under the registration rights agreement that we entered in connection with the Notes (Additional Interest)), if any, on the Notes redeemed to the applicable redemption date, if redeemed during the twelve-month period beginning on February 15 of the years indicated below:

Year	Percent
2013	103.563%
2014	101.781%
2013 and thereafter	100.000%

In addition, prior to February 15, 2010, we may redeem up to 35% of the Notes at a price equal to 107.125% of the principal amount of the Notes redeemed plus accrued and unpaid interest to the redemption date and Additional Interest, if any, on the Notes redeemed to the applicable redemption date, from the proceeds of certain equity offerings.

Net proceeds from the issuance totaled approximately \$342.6 million.

Under the indenture governing the Notes, our ability to incur indebtedness and pay distributions is subject to restrictions and the satisfaction of various conditions. In addition, the indenture imposes restrictions on certain other customary matters, such as limitations on certain investments, transactions with affiliates, the incurrence of liens, sale and leaseback transactions, certain asset sales and mergers.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition
and Results of Operations, Concluded

The Notes are our senior unsecured obligations and rank equally with all of our existing and future senior unsecured obligations and senior to our subordinated indebtedness. The Notes are effectively subordinated to our existing and future secured indebtedness to the extent of the assets securing that indebtedness. On the issue date, certain of our direct and indirect subsidiaries entered into unconditional guarantees of the Notes that are unsecured. These guarantees rank equally with all existing and future unsecured senior obligations of the guarantors and are effectively subordinated to existing and future secured debt of the guarantors to the extent of the assets securing that indebtedness. The Notes are structurally subordinated to indebtedness and other liabilities, including payables, of our non-guarantor subsidiaries.

The changes to our contractual obligations and expected maturity dates, including the new Revolver and Notes are:

Payments Due by Fiscal Period

	2007	2008 & 2009	2010 & 2011	2012 & Beyond
	(\$ in millions)			
Long-term debt	\$ 0.1	\$	\$	\$ 819.9
Interest payments on long-term debt	51.4	102.7	102.7	83.7
Operating leases	23.1	34.6	27.2	45.7
	\$ 74.6	\$ 137.3	\$ 129.9	\$ 949.3

Expected Maturity Date

Fiscal Year	2007	2008	2009	2010	2011	Thereafter	Total	Fair
								Value
(\$ in millions)								
Long-term debt:								
Fixed interest rate	\$	\$	\$	\$	\$	\$ 465.0	\$ 465.0	\$ 483.4
Average interest rate						6.0%		
Variable interest rate	\$	\$	\$	\$	\$	\$ 354.9	\$ 354.9	\$ 354.9
Average interest rate	4.1%	6.0%	6.9%	6.9%	6.9%	4.4%

Item 3. Quantitative and Qualitative Disclosure About Market Risk

See Risk Management under Capital Resources and Liquidity in Item 2 of this report.

Item 4. Controls and Procedures

The Company has established and currently maintains disclosure controls and procedures designed to ensure that material information required to be disclosed in its reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission and that any material information relating to the Company is recorded, processed, summarized and reported to its principal officers to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving desired control objectives. In reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

In conjunction with the close of each fiscal quarter, the Company conducts a review and evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. The Company's Chief Executive Officer and Chief Financial Officer, based upon their evaluation as of January 31, 2007, the end of the fiscal quarter covered in this report, concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level.

As of January 31, 2007, there has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Levine v. The Cooper Cos., Inc., et.al.

On February 15, 2006, Alvin L. Levine filed a putative securities class action lawsuit in the United States District Court for the Central District of California, Case No. SACV-06-169 CJC, against the Company, A. Thomas Bender, its Chairman of the Board, President and Chief Executive Officer and a director, Robert S. Weiss, its Executive Vice President, Chief Operating Officer and a director, and John D. Fruth, a director. Two similar putative class action lawsuits were also filed in the United States District Court for the Central District of California, Case Nos. SACV-06-306 CJC and SACV-06-331 CJC. On May 19, 2006, the Court consolidated all three actions under the heading In re Cooper Companies, Inc. Securities Litigation and selected a lead plaintiff and lead counsel pursuant to the provisions of the Private Securities Litigation Reform Act of 1995, 15 U.S.C. § 78u-4.

The lead plaintiff filed a consolidated complaint on July 31, 2006. The consolidated complaint was filed on behalf of all purchasers of the Company's securities between July 28, 2004 and December 12, 2005, including persons who received Company securities in exchange for their shares of Ocular in the January 2005 merger pursuant to which the Company acquired Ocular. In addition to the Company, Messrs. Bender, Weiss, and Fruth, the consolidated complaint names as defendants several of the Company's other current officers and directors, and one former officer.

The consolidated complaint purports to allege violations of Sections 10(b) and 20(a) of the Securities and Exchange Act of 1934 by, among other things, contending that: (a) the Company improperly accounted for assets acquired in the Ocular merger by improperly allocating \$100 million of acquired customer relationships and manufacturing technology to goodwill (which is not amortized against earnings) instead of to intangible assets other than goodwill (which are amortized against earnings); (b) the Company's earnings guidance reflected the improper accounting for intangible assets and was inflated by (among other things) the amount of the understated amortization expense; (c) contrary to certain alleged statements, Ocular had flooded the trade channel with its older products as its Premier lenses were not being well received by customers; (d) the Company's aggressive revenue and growth targets for 2005 and beyond lacked any reasonable basis when made and did not reflect realistically achievable results primarily because of the absence of a two-week silicone hydrogel product; (e) the Company's internal controls were inadequate making it possible to misstate earnings by improperly accounting for the merger with Ocular and (f) sales force integration was not materializing and was fraught with dissension and acrimony.

On September 29, 2006, the Company and the individual defendants moved to dismiss the consolidated complaint. A hearing on the motion is currently scheduled for May 4, 2007. The Company intends to vigorously defend this matter.

Table of Contents

In re Cooper Companies, Inc. Derivative Litigation

On March 17, 2006, Eben Brice filed a purported shareholder derivative complaint in the United States District Court for the Central District of California, Case No. 8:06-CV-00300-CJC-RNB, against several current and former officers and directors of the Company. The Company is named as a nominal defendant. Following the filing of the first purported shareholder derivative lawsuit, three similar purported shareholder derivative suits were filed in the United States District Court for the Central District of California. All four actions have been consolidated under the heading In re Cooper Companies, Inc. Derivative Litigation, and the Court selected a lead plaintiff and lead counsel.

On September 11, 2006, plaintiffs filed a consolidated amended complaint. The complaint purports to allege causes of action for breach of fiduciary duty, insider trading, breach of contract, and unjust enrichment, and largely repeats the allegations in the class action securities case, described above. The Company and the individual defendants have yet to respond to the consolidated amended complaint.

In addition to the derivative action pending in federal court, three similar purported shareholder actions were filed in the Superior Court for the State of California for the County of Alameda. These actions have been consolidated under the heading In re Cooper Companies, Inc. Shareholder Derivative Litigation, Case No. RG06260748. A consolidated amended complaint was filed on September 18, 2006.

On November 29, 2006 the Superior Court for the County of Alameda entered an order staying the action pending the resolution of the federal derivative action.

Both the state and federal derivative action are derivative in nature and do not seek damages from the Company.

Bausch & Lomb Incorporated Litigation

On October 5, 2004, Bausch & Lomb Incorporated (Bausch & Lomb) filed a lawsuit against Ocular in the U.S. District Court for the Western District of New York alleging that its Biomedics® toric soft contact lens and its private label equivalents infringe Bausch & Lomb's U.S. Patent No. 6,113,236 relating to toric contact lenses having optimized thickness profiles. The complaint seeks an award of damages, including multiple damages, attorneys' fees and costs and an injunction preventing the alleged infringement. The parties have filed claim construction briefs for the court to consider for its Markman order, and fact discovery substantially concluded during the first quarter of fiscal 2006. Based on our review of the complaint and the patent, as well as other relevant information obtained in discovery, we believe this lawsuit is without merit and plan to continue to pursue a vigorous defense.

Table of Contents

United States Tax Court Litigation

United States Tax Court Litigation: On September 29, 2004, the IRS issued Notices of Deficiency to Ocular in connection with its audit of Ocular's income tax returns for the years 1999, 2000 and 2001. The Notice primarily pertains to transfer pricing issues and an alternative adjustment under the anti-deferral provisions of Subpart F of the Internal Revenue Code and asserts that \$44.8 million of additional taxes is owed for these years, plus unspecified interest and approximately \$12.7 million in related penalties.

On December 29, 2004, Ocular filed a Petition for the United States Tax Court to redetermine the deficiencies asserted by the IRS. On February 11, 2005, the IRS filed its Answer to the Petition generally denying the various arguments made by Ocular against the assertions of the IRS. The Company believes that the IRS may not have fully reviewed the facts before making its assessment of additional taxes, and that its position misapplies the law and is incorrect. Discovery began on March 7, 2005, and the Company intends to fully access the work product of the IRS to more fully ascertain an understanding of its position.

The amount of taxes paid for these years was supported by pricing studies performed by an international firm of tax advisors. The resulting intercompany transactions and tax payments reflected pricing terms that were and are consistent with industry practice for arm's length transactions with unrelated third parties. The Company intends to vigorously contest the IRS's claims, and believes that the ultimate outcome of this matter will not have a material adverse effect on financial condition, liquidity or cash flow of the Company.

The Company continues to be subject to the examination of Ocular's income tax returns by the IRS and other fiscal authorities, and we cannot assure that the outcomes from these examinations will not have a material adverse effect on the Company's operating results and financial condition. Moreover, the Company's future effective tax rates could be adversely affected by earnings being higher than anticipated in countries where it has higher statutory rates or lower than expected in countries where it has lower statutory rates, by changes in the valuation of deferred tax assets or liabilities, or by changes in tax laws or interpretations thereof.

CIBA Vision Litigation

On April 10, 2006, CVI filed a lawsuit against CIBA Vision (CIBA) in the United States District Court for the Eastern District of Texas alleging that CIBA is infringing United States Patent Nos. 6,431,706, 6,923,538, 6,467,903, 6,857,740 and 6,971,746 by, among other things, making, using, selling and offering to sell its O2Optix line of contact lenses. On June 5, 2006, CIBA filed an answer denying infringement and asserting certain affirmative defenses. The Court has set a trial date of January 8, 2008.

Table of Contents

On April 11, 2006, CVI filed a lawsuit against CIBA in the United States District Court for the District of Delaware seeking a judicial declaration that CVI's Biofinity line of silicone hydrogel contact lenses does not infringe any valid and enforceable claims of United States Patent Nos. 5,760,100, 5,776,999, 5,789,461, 5,849,811, 5,965,631 and 6,951,894. On July 5, 2006, CIBA answered the complaint by denying the allegation that CVI's Biofinity line of silicone hydrogel contact lenses does not infringe any valid and enforceable claims of the foregoing patents. The answer also asks the Court for permission to interpose a counterclaim for infringement in the future if, after examination of the lenses, CIBA believes they infringe the foregoing patents, which counterclaim would seek both damages and injunctive relief. The Court has set a trial date of October 6, 2008.

On November 21, 2006, CVI filed a lawsuit against CIBA in the United States District Court for the Eastern District of Texas alleging that CIBA is infringing United States Patent Nos. 7,134,753 and 7,133,174 by, among other things, making, using, selling and offering to sell its O2Optix toric line of contact lenses. On December 11, 2006, CIBA filed an answer denying infringement and asserting certain affirmative defenses. The Court has set a trial date of January 8, 2008.

Item 1A. Risk Factors

Our business faces significant risks. These risks include those described below and may include additional risks and uncertainties not presently known to us or that we currently deem immaterial. Our business, financial condition and results of operations could be materially adversely affected by any of these risks, and the trading prices of our common stock or convertible debentures could decline. The risk factors set forth below were disclosed under Risk Factors in our Annual Report on Form 10-K for fiscal year ended October 31, 2006, and have been modified to reflect changes since that filing. These risks should be read in conjunction with the other information in this report and the 2006 Annual Report on Form 10-K.

Risks Relating to Our Business

We face risks associated with disruption of manufacturing and distribution operations and failure to develop new manufacturing processes that could adversely affect our profitability or competitive position.

We manufacture a significant portion of the medical device products we sell. Any prolonged disruption in the operations of our existing manufacturing facilities, whether due to technical or labor difficulties, destruction of or damage to any facility (as a result of natural disaster, use and storage of hazardous materials or other events) or other reasons, could have a material adverse effect on our business, financial condition and results of operations. In addition, materials, such as silicone hydrogel require improvements to our manufacturing processes to make them cost effective. Our failure to develop such new manufacturing processes could significantly impact our ability to compete.

Table of Contents

CVI manufactures molded contact lenses, which represent a significant portion of our contact lens revenues, primarily at our facilities in the United Kingdom, Puerto Rico and Norfolk, Virginia. CSI manufactures the majority of its products in Trumbull, Connecticut. We manufacture certain products at only one manufacturing site for certain markets, and certain of our products are approved for manufacturing only at one site. Before we can use a second manufacturing site, we must obtain the approval of regulatory authorities and because this process is expensive, we have generally not sought approvals needed to manufacture at an additional site. If there were any prolonged disruption in the operations of the approved facility, it could take a significant amount of time to validate a second site and replace lost product, which could result in lost customers and thereby reduce sales, profitability and market share.

CVI distributes products out of Rochester, New York, and the United Kingdom and various smaller international distribution facilities. CSI's products are primarily distributed out of its facility in Trumbull, Connecticut. Any prolonged disruption in the operations of our existing distribution facilities, whether due to technical or labor difficulties, destruction of or damage to any facility (as a result of natural disaster, use and storage of hazardous materials or other events) or other reasons, could have a material adverse effect on our business, financial condition and results of operations.

If we fail to adequately protect our intellectual property, our business could suffer.

We consider our intellectual property rights, including patents, trademarks and licensing agreements, to be an integral component of our business. We attempt to protect our intellectual property rights through a combination of patent, trademark, copyright and trade secret laws, as well as licensing agreements and third-party nondisclosure and assignment agreements. Our failure to obtain or maintain adequate protection of our intellectual property rights for any reason could have a material adverse effect on our business, results of operations and financial condition.

We may also seek to enforce our intellectual property rights on others through litigation. Our claims, even if meritorious, may be found invalid or inapplicable to a party we believe infringes or has misappropriated our intellectual property rights. See Part II, Item 1. Legal Proceedings (CIBA Vision). In addition, litigation can:

be expensive and time consuming to prosecute or defend;

result in a finding that we do not have certain intellectual property rights or that such rights lack sufficient scope or strength;

divert management's attention and resources; or

require us to license our intellectual property.

We have applied for patent protection in the United States and other foreign jurisdictions relating to certain existing and proposed processes and products. We cannot assure you that any of our patent applications will be approved. Patent applications in the United States are maintained in secrecy for a period of time, which may last until patents are issued, and since publication of discoveries in the scientific or patent literature tends to lag behind actual

Table of Contents

discoveries by several months, we cannot be certain that we will be the first creator of inventions covered by any patent application we make or the first to file patent applications on such inventions. The patents we own could be challenged, invalidated or circumvented by others and may not be of sufficient scope or strength to provide us with any meaningful protection or commercial advantage. Further, we cannot assure you that we will have adequate resources to enforce our patents.

We also rely on unpatented proprietary technology. It is possible that others will independently develop the same or similar technology or otherwise obtain access to our unpatented technology. To protect our trade secrets and other proprietary information, we require employees, consultants, advisors and collaborators to enter into confidentiality agreements and assignment agreements, which generally provide that inventions conceived by the party in the course of rendering services to us will be our exclusive property. However, we cannot assure you that these confidentiality agreements will provide meaningful protection for our trade secrets, know-how or other proprietary information in the event of any unauthorized use, misappropriation or disclosure of such trade secrets, know-how or other proprietary information. Furthermore, enforcing a claim that a party illegally obtained and is using our trade secrets is difficult, expensive and time consuming and the outcome is unpredictable. If we are unable to maintain the proprietary nature of our technologies, we could lose competitive advantage and be materially adversely affected.

We rely on trademarks to establish a market identity for our products. To maintain the value of our trademarks, we might have to file lawsuits against third parties to prevent them from using trademarks confusingly similar to or dilutive of our registered or unregistered trademarks. Also, we might not obtain registrations for our pending or future trademark applications, and might have to defend our registered trademark and pending applications from challenge by third parties. Enforcing or defending our registered and unregistered trademarks might result in significant litigation costs and damages, including the inability to continue using certain trademarks.

The laws of certain foreign countries in which we do business or contemplate doing business in the future do not recognize intellectual property rights or protect them to the same extent as do the laws of the United States. Adverse determinations in a judicial or administrative proceeding could prevent us from manufacturing and selling our products or prevent us from stopping others from manufacturing and selling competing products, and thereby have a material adverse affect on our business, financial condition and results of operations.

Our intellectual property could be subject to claims of infringement.

Our competitors in both the United States and foreign countries, many of which have substantially greater resources and have made substantial investments in competing technologies, may have applied for or obtained, or may in the future apply for and obtain, patents that will prevent, limit or otherwise interfere with our ability to make and sell our existing and planned products. Claims that our products infringe the proprietary rights of others often are not asserted until after commencement of commercial sales incorporating our technology.

Table of Contents

Significant litigation regarding intellectual property rights exists in our industry. Third parties have made, and it is possible that they will make in future, claims of infringement against us or our contract manufacturers in connection with their use of our technology. See Part II, Item 1. Legal Proceedings (Bausch & Lomb, CIBA Vision). Any claims, even those without merit, could:

be expensive and time consuming to defend;

cause us to cease making, licensing or using products that incorporate the challenged intellectual property;

require us to redesign or reengineer our products, if feasible;

divert management's attention and resources; or

require us to enter into royalty or licensing agreements in order to obtain the right to use a necessary product, component or process. However, we cannot be certain of the outcome of any litigation. Any royalty or licensing agreement, if required, may not be available to us on acceptable terms or at all. Our failure to obtain the necessary licenses or other rights could prevent the sale, manufacture, or distribution of some of our products and, therefore, could have a material adverse effect on our business.

A successful claim of infringement against us or our contract manufacturers in connection with the use of our technology, in particular if we are unable to manufacture or sell any of our planned products in any major market, could adversely affect our business.

We face risks related to environmental matters.

Our facilities are subject to a broad range of federal, state, local and foreign environmental laws and requirements, including those governing discharges to the air and water, the handling or disposal of solid and hazardous substances and wastes, remediation of contamination associated with the release of hazardous substances at our facilities and offsite disposal locations and occupational safety and health. We have made, and will continue to make, expenditures to comply with such laws and requirements. Future events, such as changes in existing laws and regulations, or the enforcement thereof, or the discovery of contamination at our facilities, may give rise to additional compliance or remediation costs that could have a material adverse effect on our business, results of operations and financial condition. Such laws and requirements are constantly changing, are different in every jurisdiction and can impose substantial fines and sanctions for violations. As a manufacturer of various products, we are exposed to some risk of claims with respect to environmental matters, and there can be no assurance that material costs or liabilities will not be incurred in connection with any such claims.

We are conducting a voluntary clean-up at one of our sites in the state of New York. Although the workplan that we submitted to the state has been approved and we believe that the clean-up is proceeding in accordance with the workplan and our expectations, there can be no assurance that the clean-up will be completed within the timeframe and cost projected, that the expected results will be achieved, or that we will not identify alternate sources or higher levels of contamination. As such, there can be no assurance that material costs or liabilities will not be incurred in connection therewith.

Table of Contents

Our substantial indebtedness could adversely affect our financial health and prevent us from fulfilling our debt obligations.

We have now and expect to continue to have a significant amount of indebtedness.

Our substantial indebtedness could:

increase our vulnerability to general adverse economic and industry conditions;

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions, research and development efforts and other general corporate purposes;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

place us at a competitive disadvantage compared to our competitors that have less debt;

limit our ability to borrow additional funds; and

make it more difficult for us to satisfy our obligations with respect to our debt, including our obligation to repay our credit facility or repurchase our convertible debentures under certain circumstances;

In addition, our credit facility and the senior notes contain financial and other restrictive covenants that will limit our ability to engage in activities that may be in our long-term best interests. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our debt.

Changes in government regulation of the healthcare industry as well as third-party payors' efforts to control the costs of healthcare could materially adversely affect our business.

In recent years, an increasing number of healthcare reform proposals have been formulated by the legislative and executive branches of the federal and state governments. These proposals could effect major changes in the healthcare system, either nationally or at the state level. Among the proposals under consideration are price controls on hospitals, insurance market reforms to increase the availability of group health insurance to small businesses, requirements that all businesses offer health insurance coverage to their employees and the creation of a government health insurance plan or plans that would cover all citizens.

There also continue to be efforts at the federal level to introduce various insurance market reforms, expanded fraud and abuse and anti-referral legislation and further reductions in Medicare and Medicaid coverage and reimbursement. A broad range of both similar and more comprehensive healthcare reform initiatives is likely to be considered at the state level. Although it is uncertain which, if any, of these or other proposals will be adopted, the potential for adoption of these proposals affects or may affect our ability to market our products.

Table of Contents

Any adoption of healthcare reform proposals on a state-by-state basis could require us to develop state-specific marketing and sales approaches. In addition, we may experience pricing pressures in connection with the sale of our products due to additional legislative proposals or healthcare reform initiatives, including those initiatives affecting coverage and reimbursement for our products. Future legislation and regulations may adversely affect the growth of the market for our products or demand for our products. We cannot predict the effect such reforms or the prospect of their enactment may have on our business.

In addition, third-party payors, whether governmental or commercial, whether inside the United States or abroad, increasingly attempt to contain or reduce the costs of healthcare. These cost-control methods include prospective payment systems, capitated rates, group purchasing, redesign of benefits, requiring pre-authorizations or second opinions prior to certain medical procedures, encouragement of healthier lifestyles and exploration of more cost-effective methods of delivering healthcare. Although cost controls or other requirements imposed by third-party payors have not historically had a significant effect on contact lens prices or distribution practices, this could change in the future and could adversely affect our business, financial condition and results of operations.

Federal and state laws pertaining to healthcare fraud and abuse could materially adversely affect our business, results of operations.

We may be subject to various federal and state laws pertaining to healthcare fraud and abuse, including anti-kickback laws and physician self-referral laws. Violations of these laws are punishable by criminal and civil sanctions, including, in some instances, exclusion from participation in federal and state healthcare programs, including Medicare, Medicaid, Veterans Administration health programs and TRICARE. Similarly, if the physicians or other providers or entities with whom we do business are found to be non-compliant with applicable laws, they may be subject to sanctions, which could indirectly have a negative impact on our business, financial condition and results of operations. While we believe that our operations are in material compliance with such laws, because of the complex and far-reaching nature of these laws, there can be no assurance that we would not be required to alter one or more of our practices to be in compliance with these laws. Any violations of these laws or regulations could result in a material adverse effect on our business, financial condition and results of operations. In addition, if there is a change in law, regulation, administrative or judicial interpretation, we may have to change our business practices or our existing business practices could be challenged as unlawful, which could have a material adverse effect on our business, financial condition and results of operations.
