Section 2 Financial Information

Item 2.02. Results of Operations and Financial Condition.

On June 6, 2007, the Company issued a press release (the Earnings Release) announcing the financial results for its second quarter ended April 30, 2007. The full text of the Earnings Release is attached as Exhibit 99.1 to this Current Report on Form 8-K.

The Earnings Release included the following non-GAAP financial measures (the non-GAAP Measures): (i) net income before restructuring charges and timberland gains (losses); (ii) diluted earnings per Class A share and per Class B share before restructuring charges and timberland gains (losses); (iii) net income before restructuring charges, a debt extinguishment charge and timberland gains (losses); (iv) diluted earnings per Class A and Class B share before restructuring charges, a debt extinguishment charge and timberland gains (losses); and (v) operating profit before restructuring charges and timberland gains (losses). Net income before restructuring charges and timberland gains (losses) is equal to GAAP net income plus restructuring charges less timberland gains (losses), net of tax. Diluted earnings per Class A share and per Class B share before restructuring charges and timberland gains (losses) is equal to GAAP diluted earnings per Class A share and per Class B share plus restructuring charges less timberland gains (losses), net of tax. Net income before restructuring charges, a debt extinguishment charge and timberland gains (losses) is equal to GAAP net income plus restructuring charges plus a debt extinguishment charge less timberland gains (losses), net of tax. Diluted earnings per Class A share and per Class B share before restructuring charges, a debt extinguishment charge and timberland gains (losses) is equal to GAAP diluted earnings per Class A share and per Class B share plus restructuring charges plus a debt extinguishment charge less timberland gains (losses), net of tax. Operating profit before restructuring charges and timberland gains (losses) is equal to GAAP operating profit plus restructuring charges less timberland gains (losses).

The Company discloses the non-GAAP Measures described in Items (i) through (v), above, because management believes that these non-GAAP Measures are a better indication of the Company s operational performance than GAAP net income, diluted earnings per Class A share and per Class B share and operating profit since they exclude restructuring charges and a debt extinguishment charge, which are not representative of ongoing operations, and timberland gains (losses), which are volatile from period to period. These non-GAAP Measures provide a more stable platform on which to compare the historical performance of the Company.
